A copy of each reference cited in this notice not appearing in journals designated by §§310.9 and 510.95 (21 CFR 310.9 and 510.95) is on file with the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857, and may be seen between 9 a.m. and 4 p.m. Monday through Friday.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 512, 701, 52 Stat. 1050-1051 as amended, 1055-1056 as amended, 59 Stat. 463 as amended, 82 Stat. 343-351 (21 U.S.C. 352, 357, 360b, 371)) and under authority delegated to the Commissioner (21 CFR 5.1), it is proposed that Part 558 be amended, as follows:

1. By amending §558.3 by adding new paragraph (b)(7) to read as follows:

#### § 558.3 Definitions and interpretations.

(b) \* \* \*

(7) A "restricted medicated animal feed" is a medicated animal feed which is limited to use on the order of a licensed veterinarian.

2. By adding new §558.7 to read as follows:

#### § 558.7 Restricted medicated animal feeds.

(a) Animal feeds containing penicillin, or chlortetracycline (except feeds for laboratory mice or psittacine birds), or oxytetracycline are restricted medicated animal feeds.

(b)(1) The manufacture of complete, restricted medicated animal feeds require an approved application pursuant to section 512(m) of the act, unless such feed is manufactured under the order of a licensed veterinarian from a restricted medicated animal feed containing 2 grams per pound of penicillin, chlortetracycline, or oxytetracycline as the sole drug in 50-pound packages.

(2) The manufacture of intermediate premixes (Type B medicated feed articles) requires an approved application pursuant to section 512(m) of the act.

(c)(1) A restricted medicated animal feed shall be dispensed only if accompanied by and in accordance with an order of a licensed veterinarian.

(2) An order by a licensed veterinarian for the dispensing of a restricted

medicated animal feed shall be either a signed, written order or an oral order given directly to the party dispensing the feed who promptly reduces it to writing. All such orders must be retained at the point of sale by the party dispensing the feed for a period of not less than 2 years. The order shall include:

(i) Veterinarian's name, address, and telephone number;

(ii) Client's name and address;

(iii) Type of feed (e.g., starter, grower, finishing ration), including the quantitative level of the drug(s) involved (e.g. grams per ton);

(iv) Species to be treated, and indications for use;

(v) Total amount of feed to be mixed and number of refills permitted. The amount of feed prescribed shall not exceed the amount reasonably necessary to treat the number of animals involved; and

(vi) Date.

(d)(1) A premix (Type A medicated feed article) used in the manufacture of a restricted animal feed shall be distributed in accordance with the provisions of §510.7 of this chapter.

(2) A restricted medicated animal feed may be distributed to a consignee who is not the user of the article if he provides the consignor with a signed statement that he will only dispense such articles to those permitted to receive them (i.e. persons having an order from a licensed veterinarian), that he will maintain the required records to establish such dispensing, and that the consignee will permit the Food and Drug Administration to inspect the records at all reasonable hours upon request by any duly authorized officer or employee of the Food and Drug Administration or other employee acting on behalf of the Secretary of Health, Education, and Welfare.

(e)(1) The label and labeling of premixes (Type A medicated feed articles), intermediate premixes (Type B medicated feed articles), and restricted medicated animal feeds containing 2 grams per pound of penicillin, chlortetracycline, or oxytetracycline in 50-pound packages shall bear, in addition to the other information required by the act, the statement "For use only in the manufacture of restricted medicated animal feeds to be used on the order of a licensed veterinarian".

(2) The label and labeling of complete restricted medicated animal feeds shall bear, in addition to the other information required by the act, the statement "For use only on the order of a licensed veterinarian".

(3) All restricted medicated animal feeds dispensed on the order of a licensed veterinarian shall be appropriately labeled for use. Such use shall include only those conditions for which the article has been approved under this part.

(f) An animal feed containing two or more animal drugs is a restricted medicated animal feed if any ingredient alone would cause a feed containing it to be a restricted medicated animal feed.

(g) A veterinarian's order is required for the dispensing of any restricted medicated animal feed 150 days after publication of a final regulation.

3. By amending §558.15 by adding new paragraph (h) to read as follows:

§ 558.15 Antibiotic, nitrofurans, and sulfonamide drugs in the feed of animals.

4. By amending §558.55 by adding new paragraph (c)(3) to read as follows:

(c) \* \* \*

(3) Feeds manufactured from premixes in paragraph (g)(1) or (2) of this section containing penicillin, chlortetracycline, or oxytetracycline are restricted medicated animal feeds and their distribution must be in accordance with §558.7.

5. By amending §558.55 by adding new paragraph (c)(3) to read as follows:

§ 558.55 Amprolium.

(c) \* \* \*

(3) Feeds containing amprolium in combination with chlortetracycline or penicillin are restricted medicated animal feeds and their distribution must be in accordance with §558.7.

6. By amending §558.58 by revising paragraph (c) to read as follows:

§ 558.58 Amprolium and ethopabate.

(c) \* \* \*

(c) *Special considerations.* (1) Finished feeds containing amprolium and ethopabate as the sole drugs, processed from feed supplements containing not more than 0.05 percent amprolium and 0.016 percent ethopabate, and conforming to the requirements of paragraph (e) of this section are not required to comply with the provisions of section 512(m) of the Federal Food, Drug, and Cosmetic Act.

(2) Feeds containing amprolium and ethopabate in combination with chlortetracycline or penicillin are restricted medicated animal feeds and their distribution must be in accordance with §558.7.

7. By amending §558.76 by revising paragraph (c)(2) and adding new paragraph (c)(3) to read as follows:

§ 558.76 Bacitracin methylene disalicylate.

(c) \* \* \*

(2) Finished feeds containing bacitracin methylene disalicylate as the sole drug and conforming to the requirements of paragraph (e)(1) and (2) of this section are not required to comply with the provisions of section 512(m) of the Federal Food, Drug, and Cosmetic Act.

(3) Feeds containing bacitracin methylene disalicylate in combination with penicillin are restricted medicated animal feeds and their distribution must be in accordance with §558.7.

8. By amending §558.78 by revising paragraph (c)(2) and adding new paragraph (c)(3) to read as follows:

§ 558.78 Bacitracin, zinc.

(c) \* \* \*

(2) Finished feeds containing zinc bacitracin as the sole drug and conforming to the requirements of paragraph (d)(1) and (2) of this section are not required to comply with the provisions of section 512(m) of the Federal Food, Drug, and Cosmetic Act.

(3) Feeds containing zinc bacitracin in combination with penicillin are restricted medicated animal feeds and their distribution must be in accordance with §558.7.

9. By amending §558.105 by revising paragraph (d) to read as follows:

§ 558.105 Buquinolate.

(d) \* \* \*

(d) *Special considerations.* (1) Maximum level permitted in medicated feed: 0.011 percent (100 grams per ton). Do not use in feeds containing bentonite.

(2) Feeds containing buquinolate in combination with chlortetracycline or penicillin are restricted medicated animal feeds and their distribution must be in accordance with §558.7.

10. By amending §558.128 by revising paragraph (c) to read as follows:

§ 558.128 Chlortetracycline.

(c) \* \* \*

(c) *Special considerations.* (1) Finished feeds containing chlortetracycline and conforming to the requirements of paragraph (e)(1) and (2) of this section and finished feeds manufactured from medicated feed articles containing 2 grams per pound chlortetracycline as the sole drug in 50-pound packages are not required to comply with the provisions of section 512(m)

of the Federal Food, Drug, and Cosmetic Act.

(2) Feeds containing chlortetracycline (except as provided in paragraph (e)(1) and (2) of this section) are restricted medicated animal feeds and their distribution must be in accordance with §558.7.

11. By amending §558.145 by revising paragraph (d) to read as follows:

§ 558.145 Chlortetracycline, procaine penicillin, and sulfamethazine.

(d) \* \* \*

(d) *Special considerations.* This is a restricted medicated animal feed and its distribution must be in accordance with §558.7.

12. By amending §558.155 by revising paragraph (d) to read as follows:

§ 558.155 Chlortetracycline, procaine penicillin, and sulfathiazole.

(d) \* \* \*

(d) *Special considerations.* This is a restricted medicated animal feed and its distribution must be in accordance with §558.7.

13. By amending §558.175 by adding new paragraph (f) to read as follows:

§ 558.175 Clopidol.

(f) \* \* \*

(f) *Special considerations.* Feeds containing clopidol in combination with chlortetracycline are restricted medicated animal feeds and their distribution must be in accordance with §558.7.

14. By amending §558.195 by revising paragraph (f) to read as follows:

§ 558.195 Decoquinolate.

(f) \* \* \*

(f) *Special considerations.* (1) Bentonite should not be used in decoquinolate feeds.

(2) Feeds containing decoquinolate in combination with chlortetracycline are restricted medicated animal feeds and their distribution must be in accordance with §558.7.

15. By amending §558.225 by revising paragraph (c) to read as follows:

3044

§ 558.225 Diethylstilbestrol.

(c) *Special considerations.* (1) Maximum level of diethylstilbestrol permitted in concentrate for cattle is 0.0044 percent.

(2) Feeds containing diethylstilbestrol in combination with either chlortetracycline or oxytetracycline are restricted medicated animal feeds and their distribution must be in accordance with § 558.7.

15. By amending § 558.274 by revising paragraph (c) to read as follows:

§ 558.274 Hygromycin B.

(c) *Special considerations.* (1) Complete chicken feeds containing hygromycin B as a sole drug, processed from feed supplements containing not more than 32 grams per ton hygromycin B, and conforming to the requirements of paragraph (e) of this section are not required to comply with the provisions of section 512(m) of the Federal Food, Drug, and Cosmetic Act.

(2) Feeds containing hygromycin B in combination with chlortetracycline or penicillin are restricted medicated animal feeds and their distribution must be in accordance with § 558.7.

16. By amending § 558.355 by adding new paragraph (d)(5) to read as follows:

§ 558.355 Monensin.

(d) . . . . .  
(5) Feeds containing monensin in combination with oxytetracycline are restricted medicated animal feeds and their distribution must be in accordance with § 558.7.

17. By amending § 558.365 by revising paragraph (e) to read as follows:

§ 558.365 Nequinat.

(e) *Special considerations.* (1) Do not use in feeds containing bentonite.

(2) Feeds containing nequinat in combination with oxytetracycline are restricted medicated animal feeds whose distribution must be in accordance with § 558.7.

18. By amending § 558.450 by revising paragraph (c) to read as follows:

PROPOSED RULES

§ 558.450 Oxytetracycline.

(c) *Special considerations.* (1) Finished feeds manufactured from medicated feed articles that contain 2 grams per pound oxytetracycline as the sole drug in 50-pound packages are not required to comply with the provisions of section 512(m) of the Federal Food, Drug, and Cosmetic Act.

(2) Feeds containing oxytetracycline are restricted medicated animal feeds and their distribution must be in accordance with § 558.7.

(3) The amount of oxytetracycline is expressed in terms of an equivalent amount of oxytetracycline hydrochloride.

19. By amending § 558.460 by adding new paragraph (d) to read as follows:

§ 558.460 Penicillin.

(d) *Special considerations.* (1) Finished feeds manufactured from medicated feed articles that contain 2 grams per pound penicillin as the sole drug in 50-pound packages are not required to comply with the provisions of section 512(m) of the Federal Food, Drug, and Cosmetic Act.

(2) Feeds containing penicillin are restricted medicated animal feeds and their distribution must be in accordance with § 558.7.

20. By amending § 558.515 by revising paragraph (d) to read as follows:

§ 558.515 Robenidine hydrochloride.

(d) *Special considerations.* (1) Finished feed containing robenidine hydrochloride must be fed within 50 days from the date of manufacture.

(2) Do not use in feeds containing bentonite.

(3) Feeds containing robenidine hydrochloride in combination with either chlortetracycline or oxytetracycline are restricted medicated animal feeds and their distribution must be in accordance with § 558.7.

21. By amending § 558.680 by revising paragraph (c) to read as follows:

§ 558.680 Zoalene.

(c) *Special considerations.* (1) Complete poultry feeds containing zoalene as a sole drug, processed from feed supplements containing not more than

0.0375 percent zoalene, and conforming to the requirements of paragraph (e) of this section are not required to comply with the provisions of section 512(m) of the Federal Food, Drug, and Cosmetic Act.

(2) Feeds containing zoalene in combination with chlortetracycline or penicillin are restricted medicated animal feeds and their distribution must be in accordance with § 558.7.

Interested persons may, on or before April 20, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments regarding this proposal. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Because of the broad public interest in and concern about the proposed restriction on the distribution of penicillin and tetracycline-containing animal feeds, the Commissioner has determined that, in addition to the 90 day comment period for receipt of written comments, two informal public hearings, in accord with the provisions of 21 CFR Part 15, should be held on the proposal in geographic areas where it will have its major impact. The purpose of the informal hearings is to provide an open forum for the presentation of information and views concerning all aspects of the proposal by interested persons, be they consumers, scientists, farmers, feed manufacturers, or representatives of manufacturers of regulated products.

In preparing a final regulation, the Commissioner will consider the administrative record of these hearings along with all other written comments received during the comment period specified in the proposal. The hearings will be held during the comment period, and the Commissioner will issue separate FEDERAL REGISTER notices announcing them when the final arrangements for their conduct are completed. The hearings will be open to the public. Any interested person who files a written notice of participation may be heard with respect to matters relevant to the issues under consideration.

NOTE.—The Food and Drug Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821 (as amended by Executive Order 11949) and OMB Circular A-107. A copy of the economic impact assessment is on file with the

PROPOSED RULES

3045

Hearing Clerk, Food and Drug Administration.

The Food and Drug Administration has also determined that the notices jointly pertaining to penicillin and tetracyclines in animal feeds do not comprise a major economic impact (see the FEDERAL REGISTER of June 10, 1977 (42 FR 29928), August 30, 1977 (42 FR 43770), October 21, 1977 (42 FR 56254), and this notice). A copy of the

combined economic impact assessment is on file with the Hearing Clerk, Food and Drug Administration in this docket file and in the docket files of the three other actions.

Dated: January 17, 1978.

DONALD KENNEDY,  
Commissioner of Food and Drugs.

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of Army  
[33 CFR Part 282]

FEDERAL PARTICIPATION IN SHORE, HURRICANE, AND TIDAL AND LAKE FLOOD PROTECTION

Proposed Rulemaking

AGENCY: Department of the Army.

ACTION: Proposed regulation.

SUMMARY: This proposed regulation prescribes policies used by the Corps of Engineers in determining the extent to which they are authorized to recommend and provide measures for shore, hurricane, and tidal and lake flood protection. This regulation is needed to update previous regulations on the subject to reflect recent changes in legislation and policy.

EFFECTIVE DATE: Comments must be received by February 20, 1978.

ADDRESS: Write Office of Chief of Engineers, Department of the Army, Corps of Engineers, Washington, D.C. 20314, Attn: DAEN-CWR-R (202-693-6807).

FOR FURTHER INFORMATION CONTACT:

Robert Kaighn, 202-693-6807.

It is therefore, proposed to amend 33 CFR by adding Part 282 as set forth below.

Dated: November 21, 1977.

C. A. SELLECK, Jr.,  
Colonel, Corps of Engineers,  
Executive Director of Civil Works.

PART 282—WATER RESOURCE POLICIES AND AUTHORITIES: FEDERAL PARTICIPATION IN SHORE, HURRICANE AND TIDAL AND LAKE FLOOD PROTECTION

- Sec  
282.1 Purpose.  
282.2 Applicability.  
282.3 References.  
282.4 Definitions.  
282.5 Synopsis of relevant legislative authorities.  
282.6 Synopsis of related legislative authorities.  
282.7 Eligibility criteria.  
282.8 Federal interest and Corps responsibility.  
282.9 Plan formulation and evaluation.  
282.10 Cost sharing.  
282.11 Recommendation.  
282.12 Local cooperation requirements.  
282.13 Effective date.  
APP A—Sample Computation of Federal Costs.  
APP B—Example of Computations of Cost Sharing.

§ 282.1 Purpose.

This regulation provides policies and guidelines for determining the extent

of Federal participation in potential Federal projects for shore erosion control, and hurricane, abnormal tidal and lake flood protection.

§ 282.2 Applicability.

This regulation is applicable to all OCE elements and all field operating agencies having Civil Works responsibilities. The policies and guidelines set forth in this regulation are applicable to all preconstruction studies (level C and Phase I GDM) including small project studies conducted under the authority of Section 103, Pub. L. 87-874.

§ 282.3 References.

- (a) Section 2, Pub. L. 71-520, July 3, 1930, as amended by Section 103, Pub. L. 86-645, July 14, 1960.  
(b) Pub. L. 79-727, August 13, 1946, as amended.  
(c) Pub. L. 84-71, June 15, 1955.  
(d) Pub. L. 84-826, July 28, 1956, as amended.  
(e) Section 103, Pub. L. 86-645, July 14, 1960.

(l) ER 1165-2-18, "Reimbursement for Advance Non-Federal Participation in Civil Works Projects," (§ 209.345 of this title).

§ 282.4 Definitions.

As used in this regulation:  
(a) "Construction costs" are the project first costs associated with initial construction or periodic nourishment less the costs of the lands, easements, rights-of-way and relocations.  
(b) "Historical shoreline" is the most seaward position of the mean low water/mean lower low water position recorded by previous surveys or interpreted from previous photographs, other historical record, or other sufficiently reliable means to permit comparison with the present position.  
(c) "Hurricane and abnormal tidal flooding" result from abnormal rises in tidal levels due to hurricanes and storms.  
(d) "Lake flooding" results from storm-induced inundation superimposed on the ordinary cyclic changes of the lake level.  
(e) "Periodic nourishment" is the deposit of sand fill at intervals of time to replenish a beach.  
(f) "Project first costs" are the total costs of initially constructing a project

including advance engineering and design, interest/luring construction, and the costs of lands, easements, rights-of-way, and relocations. (Interest during construction is not included when benefits accrue as the project is constructed.)

(g) "Public use" means available for use by any and all of the general public on equal terms (see § 282.7(d)).

(h) "Publicly-owned" means ownership by a State, municipality, or other political subdivision. Federal ownership is not included within this definition.

(i) "Shore damage" is primarily the result of erosion by ocean and lake waves and currents and the battering action of storm waves.

(j) "Shore protection" is provided by works to prevent or reduce damages caused by erosion. The terms "beach erosion control" and "shores restoration and protection" are used interchangeably. Protection of bluffs and dunes as well as beaches is involved.

§ 282.5 Synopsis of relevant legislative authorities.

- (a) *Beach Erosion Control*. (1) Section 2 of Pub. L. 71-520 as amended by Section 103, Pub. L. 86-645, authorized the Chief of Engineers to conduct shore erosion control studies in cooperation with appropriate agencies of various cities, counties, or States.  
(2) Pub. L. 79-727 expanded the Federal role by providing for Federal aid in the construction, but not maintenance, of works for the improvement and protection of publicly-owned shores of the United States.  
(3) Pub. L. 84-826, enacted in 1956, further expanded the Federal role by authorizing Federal participation in the cost of works for protection and restoration of the shores of the U.S. including private property if such protection was incidental to the protection of publicly-owned shores or if such protection would result in public benefits. It also provided for Federal assistance for periodic nourishment on the same basis as new construction, for a period to be specified by the Chief of Engineers, when it would be the most suitable and economical remedial measure. Section 156 of Pub. L. 94-587 allows the Secretary of the Army, acting through the Chief of Engineers, to extend that period to 15 years after the date of the initiation of construction if desirable.  
(4) Pub. L. 87-874 increased the proportion of construction costs borne by the Federal Government and made the total cost of preauthorization studies a Federal responsibility. In addition, it provided for reimbursement of local interests for work done by them on project construction, after initiation of survey studies which form the basis for the project, on authorized projects which did not exceed \$1,000,000.

(5) Section 215 of Pub. L. 90-483, enacted in 1968, modified the reimbursement authority mentioned above by giving the Secretary of the Army acting through the Chief of Engineers, authority to enter into agreements providing for reimbursement to States or political subdivisions for work to be performed by them at authorized projects. The amount of reimbursement is limited to \$1,000,000. Unless specifically authorized by Congress, reimbursement for work commenced by local interests subsequent to August 13, 1969 may be made only in accordance with this authority. Implementing policies and procedures may be found in § 209.345 of this chapter.

(b) *Hurricane, abnormal tidal and lake flood protection*. The Federal interest in projects to protect against hurricane, abnormal tidal and Great Lakes flood damage is not explicitly defined by legislation. Pub. L. 84-71 enacted June 15, 1955, authorized the Secretary of the Army, in cooperation with the Secretary of Commerce and other Federal agencies concerned with hurricanes, to make studies of the Atlantic and Gulf coasts of the United States to secure data on the behavior and frequency of hurricanes and to determine means of preventing loss of life and damages to property. It did not specify the degree of Federal cost sharing for construction of protective works. However, in authorizing projects proposed in the first three of these studies, the 1958 Flood Control Act established a precedent of limiting the Federal share of project first cost to a maximum of 70 percent.

(c) *Multiple-Purpose Projects*. Pub. L. 87-874 introduced the multiple-purpose concept in shore erosion control studies by providing for surveys of coastal areas of the United States and its possessions, including the shores of the Great Lakes, in the interest of shore erosion control, hurricane protection and related purposes. Generally, costs associated with each purpose were apportioned in accordance with applicable laws and policies. However, section 208 of the Flood Control Act of 1970 provides discretionary authority for a Federal share up to 70 percent of the project costs exclusive of land costs for combined hurricane protection and shore erosion control projects.

§ 282.6 Synopsis of related legislative authorities.

(a) Section 103 of the River and Harbor Act of 1962, as amended, provides the Secretary of the Army, acting through the Chief of Engineers, with the authority for planning and constructing small shore and beach restoration and protection projects within certain limits without specific Congressional authorization. Implementing policies and procedures for

this authority may be found in part 263 of this chapter.

(b) Section 111 of the River and Harbor Act of 1968 provides the Secretary of the Army, acting through the Chief of Engineers, the authority to study, construct, and maintain projects for the mitigation of shore damages attributable to Federal navigation works. Projects for which the Federal cost does not exceed one million dollars do not require specific Congressional authorization. This authority applies to both public and privately-owned shores along the coastal and Great Lakes shorelines. Implementing policies and procedures for this authority may be found in Part 263 of this chapter.

(c) The Coastal Zone Management Act of 1972, as amended, declares that it is national policy to: Preserve, protect, develop and, where possible, to restore and enhance the resources of the coastal zone; encourage the States to develop and administer management programs for the coastal zones giving consideration to ecological, cultural, historic, and aesthetic values and need for economic development; insure cooperation between Federal agencies having programs affecting the coastal zone with State, local, and regional agencies; insure public participation in the development and management of coastal zone programs; and encourage interstate and regional agreements for coastal zone management.

(d) Section 22 of Pub. L. 93-251 provides authority for cooperating with any State in preparation of comprehensive plans for water resources development, utilization, and conservation, and for submitting to Congress reports and recommendations with respect to appropriate Federal participation in carrying out such plans.

(e) A Demonstration Program is provided by section 54 of Pub. L. 93-251 which authorizes the Chief of Engineers, in cooperation with the Secretary of Agriculture and other Federal, State, and local agencies and private organizations, to develop and construct, but not maintain, a number of demonstration projects to emphasize the development of low-cost shoreline erosion control devices on sheltered or inland waters.

(f) Section 55 of Pub. L. 93-251 authorizes the provision of technical and engineering assistance to non-Federal public interests in developing structural and nonstructural methods of preventing damages attributable to beach erosion.

§ 282.7 Eligibility criteria.

(a) *Geographic Area*. Shore erosion control, hurricane, and abnormal tidal flooding authorities are applicable to the shores of the Atlantic and Pacific Oceans, the Gulf of Mexico, the Great

Lakes, estuaries, and bays directly connected therewith of each of the States, the Commonwealth of Puerto Rico, and the possessions of the United States. Authority for shore erosion control activities extend only the distance up tributary streams where it can be demonstrated that the dominant causes of erosion and damage are ocean tidal action and wind-generated waves. They will not address erosion at upstream locations caused by streamflows or vessels. Lake flood protection activities are generally limited to the Great Lakes.

(b) *Beach Creation*. Existing shore erosion control authority provides for "restoration" and "protection." It does not provide for Federal cost sharing in extending a beach beyond its historic shoreline unless the extension is needed for engineering reasons to provide protection from erosion. If extension of the beach beyond the historic shoreline for another reason is desirable from an economic, social and environmental viewpoint, reporting officers may recommend such extension. However, prior to making such a recommendation, reporting officers should contact HQDA-(DAEN-CWR) WASH DC 20314 to determine appropriate cost sharing requirements.

(c) *Shore Categories*. Five general categories of shore, based on ownership and use, and incidence and type of benefits, must be considered in determining Federal aid toward the cost of shore restoration and erosion protections. These categories, and the levels of Federal aid applicable thereto, are listed in Table 1. There are no restrictions regarding shoreline categories for hurricane, tidal, and lake flooding.

TABLE 1.—Categories of shore

Shore category	Maximum level of Federal aid	
	Construction	Maintenance
	percent	percent
I. Federally owned .....	100	100
II. Publicly owned, non-Federal parks and conservation areas <sup>1</sup> .....	*70	*None.
III. Publicly owned, non-Federal other than parks and conservation areas .....	*50	*None
IV. Privately owned, protection will result in public benefits <sup>2</sup> .....	*50	None
V. Privately owned, protection will not result in public benefits susceptible of evaluation <sup>3</sup> .....	None	None

<sup>1</sup> See § 282.10(a)(2).

<sup>2</sup> See § 282.8(d) concerning periodic beach nourishment.

<sup>3</sup> Privately owned shores under public control, as through a sufficiently long-term lease assuring realization of public benefits throughout the economic life of the project, may be treated as category III shores in determining Federal aid.

<sup>4</sup> See § 282.10(a)(5) concerning incidental protection of privately owned shores.

(d) *Public use.* Public use is not a condition for Federal participation in hurricane, abnormal tidal or lake flood protection projects. However, current shore erosion control law provides that "Shores other than public (i.e., privately owned) will be eligible for Federal assistance if there is a benefit such as that arising from public use. . . ." Public use means use by all on equal terms. This means that there will be no limitation, by any device, to limit use of project beaches to a segment of the public. Unless the protection of privately-owned beaches is incidental to protection of public beaches (see § 282.10(a)(5)), they must be open to all visitors regardless of origin or home area or provide protection to nearby public property to be eligible for Federal aid. Items affecting public use are discussed below.

(1) *User fees.* A reasonable beach fee, uniformly applied to all, for use in payment of local project costs is allowable. Normal charges made by concessionaires and municipalities for use of facilities such as bridges, parking areas, bath houses and umbrellas are not construed as a charge for the use of the Federal Beach project, if they are commensurate with the value of the service they provide and return only a reasonable profit. Fees for such service must be applied uniformly to all concerned and not as a prerequisite to beach use.

(2) *Parking.* Lack of sufficient parking facilities for the general public (including non-resident users) located reasonably near and accessible to the project beaches would constitute a de facto restriction on public access and use of such beaches, thereby precluding eligibility for Federal assistance. Generally, parking on free or reasonable terms should be available within a reasonable walking distance of the beach. Street parking is not considered acceptable in lieu of parking lots unless curb-side capacity will accommodate existing and new demands. Parking should be sufficient to accommodate the peak demand. In some instances public transportation facilities may substitute for or complement parking facilities. However, reports which consider public transportation in this manner must provide justification which indicates how the public transportation system would be adequate for the needs of beach users.

(3) *Access.* Unobstructed safe access must be provided to the beach from street ends or parking areas.

(4) *Beach use by private organizations.* Federal aid to private shores owned by beach clubs and hotels is incompatible with the intent of the Pub. L. 84-826 if the beaches are limited to use by members or paying guests.

\*Cost-sharing percentages do not apply to lands, easements and rights-of-way and facilities.  
\*Multiplied by the ratio of public benefits along category IV shore to total benefits along category IV shore.

(5) *Public shores with limitations.* Publicly-owned beaches which are limited to use by residents of the community or a group of communities are not considered to be open to the general public and will be treated as private beaches.

(e) *Improvements for recreation.* Improvements can be made to enhance the recreational value of coastal protection projects. Examples of such improvements are bathhouses, access facilities, toilet facilities and parking areas. Provision of those facilities is considered to be a local responsibility not eligible for Federal aid through the Corps of Engineers programs.

#### § 282.8 Federal interest and Corps responsibility.

The Congress has established a Federal interest in shore erosion control, hurricane, abnormal tidal, and lake flooding in the legislative authorities and specific authorizations discussed in § 282.5. The Corps of Engineers is the primary Federal agency with the responsibility for implementing those authorities. The Corps' responsibility in various phases of project development is discussed below:

(a) *Studies.* The Corps of Engineers may undertake specific studies relating to shore erosion and hurricane, abnormal tidal and lake flood problems with the authorization of Congress, either in response to resolutions adopted by the Committee on Environment and Public Works of the United States Senate or the Committee on Public Works and Transportation of the House of Representatives, or by an Act of Congress. Studies are authorized to be 100 percent Federally funded. Studies may be initiated without specific Congressional authorization under the authority of section 103 of Pub. L. 87-874.

(b) *Construction.* Construction of authorized shore restoration and protection projects is a responsibility of the Corps of Engineers. However, local interests may construct portions of projects, after they are authorized by Congress, and be reimbursed by the Federal Government within a one million dollar limitation if prior approval is obtained from the Chief of Engineers (reference § 209.345 for approval procedures and policies). If local interests desire to proceed with construction of the project, they may do so with the understanding that:

(1) Federal participation would be limited to the Federal shares of the costs of the elements constructed which are in accordance with the authorized plan, and

(2) Local interests provide assurances that they will bear any increased costs of measures which may result from advance work, unless there are extenuating circumstances which warrant omission of this condition.

(c) *Maintenance.* Maintenance is a non-Federal responsibility. However, if a portion of the benefited area is in Federal ownership the Federal maintenance responsibility shall be established as the same portion as the length of Federal shoreline is to the length of total shoreline. By definition, periodic nourishment is not maintenance.

(1) Where Federal responsibility for a part of the maintenance is established, but maintenance for the project as a whole could be carried out more effectively by non-Federal interests, the entire maintenance responsibility should be assigned to non-Federal interests with appropriate Federal cash contributions during the project life or by reducing the initial non-Federal cost by the capitalized value of future Federal maintenance costs.

(2) In the case of multipurpose projects providing for navigation and hurricane flood protection projects, particularly those which involve complex operating procedures, operation and maintenance responsibility for the entire project might best be vested in the Federal Government. In such cases, non-Federal interests should be obligated to contribute their share of costs to the Federal Government on a scheduled basis throughout the project life or to make a cash contribution of the capitalized value of the non-Federal share of the maintenance cost. Future maintenance costs are to be capitalized using the water supply repayment interest rate.

(d) *Periodic nourishment.* Periodic nourishment is considered "construction" for cost-sharing purposes when in the opinion of the Chief of Engineers, such nourishment is found to be a more suitable erosion protection measure than other construction, i.e., breakwaters or seawalls. When periodic nourishment is proposed as a maintenance measure, as for example when it would serve to maintain protection accompanied by structures intended to confine the benefits of nourishment within a beach compartment rather than serving as a full or partial alternative to such structures, Federal Aid toward its cost should not be recommended, except to the extent warranted in paragraph (c) of this section. It may be considered eligible for Federal aid in projects where short low-profile groins are included to maintain a shore alignment, but not to prevent littoral drift from nourishing down-draft beaches. Federal aid for periodic nourishment may continue throughout the economic life of the project, but a specified period of time, usually the economic life of the project, must be recommended in planning reports. If there is reason to doubt the technical viability of periodic nourishment for such a period of time, a shorter period may be recommended. After that period, the project should be re-

examined to determine if periodic nourishment is the most efficient and economic solution.

(e) *Work for another Federal Agency.* Work to protect lands under the jurisdiction of another Federal agency shall be accomplished by the Corps only on a reimbursable basis, upon request from the responsible agency. Protection of Army lands used for military purposes will be accomplished with military funds, not Civil Works funds.

#### § 282.9 Plan formulation and evaluation.

(a) Projects shall be formulated in accordance with policies and procedures contained in Part 290 of this chapter. Consideration shall be given to both structural and nonstructural solutions. Plan formulation should be accomplished to arrive at the best solution, considering all factors, including engineering, economic, environmental, and social.

(b) As required by Part 290 of this chapter benefits will be determined to evaluate the alternative in terms of the planning objectives. Benefits normally associated with beach erosion control and hurricane, abnormal tidal, and lake flood protection projects are:

(1) Benefits from beach restoration,  
(2) Prevention of land loss and other physical damages,  
(3) Avoidance of emergency costs to residences, businesses, and governmental entities,  
(4) Enhancement of property values,  
(5) Increased recreational usage, and where appropriate, relief of overcrowding for existing recreational usage, and

(6) Prevention of loss of historic and scenic aspects of the environment.

(c) Incidental benefits, such as reduction in shoaling at navigation projects, reduction in tidal flood damages, and incidental benefits to property down-drift of a shore protection project, may be credited to a beach erosion control project. In like manner, incidental damages should be charged against the project as an adjustment of the benefit estimate.

#### § 282.10 Cost sharing.

(a) *Beach erosion control.* Federal participation in the costs of beach erosion control projects is based on shore ownership, use, type and incidence of benefits as discussed below.

(1) *Federally-owned lands* are protected at Federal expense. All costs allocated to restoration and protection are to be borne fully by the Federal Government.

(2) *Publicly-owned shore park and conservation areas* are eligible for Federal cost sharing up to 70 percent of the construction cost if all the following conditions are met:

(i) The land is publicly owned.  
(ii) The park includes a zone extending landward from MLW or MLLW

line which excludes all permanent human habitation. This excludes summer residences, but does not preclude residences of park personnel or buildings for park management and administration.

(iii) The park includes a beach suitable for recreational use.

(iv) The park provides for conservation and development of the natural resources of the environment.

(v) The park or conservation area extends landward a sufficient distance to include where appropriate, protective dunes, bluffs or other natural features which will absorb and dissipate wave energy and flooding effects of storm tides. The purpose of this requirement is to provide a protective buffer zone which would prevent damage of upland property and development.

(vi) The park provides full park facilities for appropriate public use.

(vii) Publicly-owned shores are eligible for Federal participation up to 50 percent of the construction cost.

(viii) Privately-owned shores may be eligible for Federal cost sharing of up to 50 percent if there would be significant public benefits arising from public use or from direct protection of nearby public facilities. Federal participation is adjusted in accordance with the ratio of public benefits to total benefits. Recreation benefits resulting from beaches not open for public use are considered to be private benefits for cost apportionment purposes.

(ix) Benefits to private shores beyond project limits of shore protection works, if trivial in amount, may be considered as incidental and not involved in cost-sharing considerations.

(b) *Hurricane, tidal and lake flood control.* For hurricane, tidal, and lake flood control protection projects, the Federal share of the project first costs (including lands, easements, rights-of-way, and relocations), is limited up to a maximum of 70 percent. When the normal local costs of lands, easements, rights-of-way, and relocations amount to less than 30 percent of total first costs, the difference is required as a local cash contribution. When the aforementioned local costs exceed 30 percent, they become the minimum requirement.

(c) *Multiple-purpose projects.* For multiple-purpose hurricane protection and beach erosion control projects, the Secretary of the Army acting through the Chief of Engineers, has discretionary authority to authorize a Federal share up to 70 percent of the construction costs. This discretionary authority will not be used unless normal cost allocation procedures produce inadvertent inequities in specific cases. Cases possibly warranting such adjustments are to be submitted to HQDA-(DAEN-CWR) WASH DC 20314 for consideration.

If this discretionary authority is not used, the costs of the beach erosion control features required to stabilize the shore against wave action are considered to be joint costs and allocated between the hurricane and beach erosion control functions by the Separable Costs Remaining Benefits (SCRB) method.

#### § 282.11 Recommendation.

Any statement in a beach erosion control report as to the percentage of construction costs to be borne by local interests or the Federal Government must be qualified as tentative since the final apportionment will be based on the extent of shore frontage in public ownership or use at the time of construction.

#### § 282.12 Local cooperation requirements.

Reporting officers must obtain formal assurances from a public agency fully authorized under State law to fulfill the non-Federal obligations of any projects recommended for Federal participation. The assurance will indicate that subsequent to project authorization and prior to construction, the sponsor will enter into a written agreement, as required by Section 221 of Pub. L. 91-611, to provide assurances of local cooperation satisfactory to the Secretary of the Army. Such assurances include the contributions computed from the policies given in § 282.10 and the following non-Federal responsibilities:

(a) Provide without cost to the United States all necessary lands, easements, rights-of-way and relocations required for construction of the project, including that required for periodic nourishment.

(b) Hold and save the United States free from claims for damages which may result from construction and subsequent maintenance of the project, except damages due to the fault or negligence of the United States or its contractors.

(c) Assure continued conditions of public ownership and use of the shore upon which the amount of Federal participation is based during the economic life of the project.

(d) Assure maintenance and repair, and local share of periodic beach nourishment, where applicable, during the economic life of the project as required to serve the intended purposes.

(e) Provide and maintain necessary access roads, parking areas, and other public use facilities, open and available to all on equal terms.

(f) Specific cases may also warrant assigning other additional local responsibilities, such as providing appurtenant facilities required for realization of recreational benefits.

(g) In the case of single-purpose hurricane, tidal, or lake flood protection projects, the requirements of local

## PROPOSED RULES

cooperation will normally consist of §§ 282.12 (a), (b) and (d) in addition to the contributions required by § 282.10.

(h) Comply with the provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91-646).

(i) The wording given in § 282.12(a)-(h) should be considered standard for all recommended plans which include shore protection as a plan purpose. Deviations from such wording should not be made unless the reporting officer has justifiable circumstances warranting such action.

## § 282.13 Effective date.

This regulation is effective \_\_\_\_\_, as published in the FEDERAL REGISTER and codified as 33 CFR \_\_\_\_\_.

## APPENDIX A.—COMPUTATION OF FEDERAL COSTS FOR SHORE PROTECTION PLANS

1. *Projects Benefiting Only One Category of Shore.* The Federal share of the cost of construction of a project which will benefit only one category of shore, see § 282.7(c) of the regulation, if any, may be computed by multiplying the cost of construction by the appropriate percentage of Federal participation from § 282.10 of the regulation.

2. *Projects Benefiting Several Categories of Shore.* The Federal share of the cost of construction of a project which will benefit more than one category of shore, defined in § 282.7(c) of the basic regulation, may be computed by assigning proportionate shares of the total construction cost to each shore category involved, multiplying the costs thus assigned by the appropriate percentage of Federal participation from § 282.10 of the basic regulation, and summing the products thus obtained.

a. When the cost of construction per unit of benefited shore length is reasonably uniform for the entire project area, the total Federal cost of construction may be computed as a percentage of the total construction cost by the following formula:

Federal share of total construction cost, in percent =  
$$\frac{[(\text{Category I frontage/Total frontage}) + (\text{Category II frontage/Total frontage} \times 0.7) + (\text{Category III frontage/Total frontage} + \text{Category IV frontage/Total frontage}) \times 0.5] \times 100}{\text{Public benefits along Category IV frontage/Total benefits along Category IV frontage} \times 0.5 \times 100}$$

b. When the cost of construction per unit

of benefited shore length is not reasonably uniform for the entire project area, the project should be subdivided into compartments within which this condition is met. For each such compartment, the Federal cost of construction may be computed as a percentage of the total construction cost for the compartment by application of the formula in paragraph 2a, using frontage figures for the compartment rather than the project as a whole. The cost of construction for individual project compartments should be developed on a physical occurrence basis, insofar as possible, by first assigning costs which are specific to individual compartments and then distributing costs applicable to more than one compartment on a frontage basis. The total Federal cost of construction is obtained by adding the Federal costs computed for individual compartments.

c. When the cost of construction per unit of benefited shore length is not reasonably uniform for the entire project area, and division into relatively few substantial compartments within which this condition is met is not practicable, it will be necessary to compute the Federal share of construction cost on a section-by-section basis for all or part of the benefited shore length. Then applying this method in extreme cases, it may be necessary to treat each individual parcel of benefited shore in a given category as a separate section. From a computational standpoint the net effect is the same as division of the benefited shore length into a large number of compartments and the procedure outlined in paragraph 2b is applicable.

3. *Projects Including Beach Nourishment as a Construction Measure* is discussed in § 282.8(d) of the basic regulation. Periodic beach nourishment may be recommended as a construction measure. In the case of the projects for which the costs of initial work (beach restoration or structures) and of periodic nourishment are uniformly distributed over the frontage, the formula given in paragraph 2a will be applied and the percentage of Federal participation will be given the same for both initial work and periodic nourishment. In cases of nonuniform cost distribution for either the initial construction or the periodic nourishment, or both, the level of Federal participation will be computed in accordance with paragraphs 2b and 2c, and will not necessarily be the same for initial construction and periodic nourishment.

4. *Projects Providing Minor or Indefinite Incidental Benefits to Privately Owned Shores.* a. When the cost of works designed to benefit only publicly-owned shores would equal or exceed the cost of works which would in addition, benefit adjoining privately-owned shores, the benefits to the private-

ly-owned shores, if trivial in amount, may be considered as incidental and the Federal share of construction costs may be computed by the following formula:

Federal share of total construction cost, in percent =  
$$\frac{[(\text{Category I frontage/Total frontage}) + (\text{Category II frontage/Total frontage} \times 0.7)] \times 100}{\text{Public benefits along Category IV frontage/Total benefits along Category IV frontage} \times 0.5 \times 100}$$

b. When, as may occur in the case of periodic beach nourishment, private shores beyond projects limits ultimately may receive benefits of indefinite nature and amount from the project, such benefits will be classed as incidental and these benefits and the shores involved will not be considered in determining the Federal share of project costs.

5. *Projects Which Reduce Federal Cost of Maintaining Authorized Navigation Projects.* Federal aid may be recommended for that portion of the project cost allocated to navigation, in addition to the aid determined pursuant to paragraphs 2 through 4. For purposes of this computation allocations will be made on a proportionate benefit basis with benefits limited to the alternative costs. The total Federal share of costs expressed as percentage (T) for the feature which results in the navigation benefits may be computed as a percentage of the total first cost for that feature by application of the following formula:

$$T = \frac{N}{N+B} \times 100 + \frac{B}{N+B} \times T_1$$
  
Where:  
N = Navigation benefits of feature, limited to alternative costs of dredging.  
B = Beach erosion control benefits, limited to cost of beach fill from cheapest source (navigation spoil or other).  
T<sub>1</sub> = Federal share of cost of the shore protection features which results in navigation benefits, in percent, computed in accordance with paragraphs 1 through 4.

6. *Multiple-Purpose Projects.* In the case of multiple purpose projects, such as those for shore protection and other purposes as hurricane protection and navigation (where new navigation features are involved rather than maintenance of an existing Federal project), the procedures outlined in paragraph 2 through 4 will be applied only to the portion of the total construction costs allocated to shore protection. Allocation of costs between functions will normally be made by the Separable Costs-Remaining Benefits (SCRB) method (see ER 1160-2-101).

## APPENDIX B

## Example Computations for Cost Sharing on Shores Protection Plans

1. Example 1. The following is a simplified example of cost apportionment between Federal and local interests for an economically justified shore protection project where shores in both public and private ownership are involved and significant public benefits are generated through protection of private shores. It is assumed that a coordinated plan is proposed, that no section can be omitted, that the benefits to private shores are not incidental, that public benefits can be associated with only a portion of the private shores protected, and that the cost of protection per unit of benefited shore length is reasonably uniform for the entire project area. If periodic nourishment is involved in this case, cost apportionment therefor would be on the same basis.

Item	Shore Capacity					Total
	I	II	III	IV	V	
Length, feet	500	10,000	3,000	4,500	2,000	20,000
Ownership	Federal	Public	Public	Private	Private	
Benefits (av. ann. \$)						
Public	5,000	75,000	30,000	50,000	-	160,000
Private	-	-	-	25,000	40,000	65,000
Total	5,000	75,000	30,000	75,000	40,000	225,000

The formula given in paragraph 2a of Appendix A is applicable. The Federal share expressed as a percent of the total first cost would be:

$$\left\{ \left[ \frac{500}{20,000} \right] + \left[ \frac{10,000}{20,000} \times 0.7 \right] + \left[ \frac{3,000}{20,000} \right] \times \left\{ \left[ \frac{500}{20,000} \right] + \left[ \frac{10,000}{20,000} \times 0.7 \right] + \left[ \frac{3,000}{20,000} \right] \times 100 \right\} \times 100 = 52.5 \text{ percent} \right.$$

2. Example 2. is substantially the same as Example 1, except that the cost of protection per unit of shore length is not reasonably uniform and division into two compartments is necessary. For simplicity, shore categories in each of these compartments have been limited to four. In actual cases shores in all five categories might be found in all compartments.

## PROPOSED RULES

Item	Reach of Shore		Total
	Compartment 1	Compartment 2	
Length, feet	15,000	5,000	20,000
Construction cost, \$:			
Total	750,000	625,000	1,375,000
Per foot of shore	50.00	125.00	68.75
Shore length by shore categories, feet:			
I	500	-	500
II	9,000	1,000	10,000
III	2,000	1,000	3,000
IV	3,500	1,000	4,500
V	2,070	2,070	4,140
Total	75,000	5,000	20,000
Benefits by shore categories, av. ann. \$1,000:			
I	5	-	5
II	60	15	75
III	15	15	30
IV	20	30	50
V	10	40	50
Total	100	100	200

Computation of Federal share of construction cost

The formula given in paragraph 2a of Appendix A is applicable and is applied separately for each compartment.

Compartment 1  
Federal share of construction cost for compartment, in percent =  
$$\left\{ \left[ \frac{500}{15,000} \right] + \left[ \frac{9,000}{15,000} \times 0.7 \right] + \left[ \frac{2,000}{15,000} \right] \times \left\{ \left[ \frac{500}{15,000} \right] + \left[ \frac{9,000}{15,000} \times 0.7 \right] + \left[ \frac{2,000}{15,000} \right] \times 100 \right\} \times 100 = 59.7 \text{ percent} \right.$$

Compartment 2  
$$\left\{ \left[ \frac{1,000}{5,000} \right] + \left[ \frac{1,000}{5,000} \times 0.7 \right] + \left[ \frac{1,000}{5,000} \right] \times 100 = 30.7 \text{ percent} \right.$$

Total Project  
Federal share of construction cost =  
$$\left\{ \left[ \frac{750,000}{1,375,000} \times 59.7 \right] + \left[ \frac{625,000}{1,375,000} \times 30.7 \right] \right\} \times 100 = 46.5 \text{ percent}$$

Compartment	Federal Share of Construction Cost	
	Cost, \$	%
1	750,000	59.7
2	625,000	30.7
Total Project	1,375,000	46.5

3. Example 3 is substantially the same as Example 1 except that it is assumed that certain features of the project involved would reduce Federal costs of maintaining an authorized Federal navigation project by \$10,000 annually. This benefit is in addition to those shore protection benefits shown in Example 1. The proportionate share of shore protection benefits also accruing from those same features is assumed to be \$70,000. Average annual benefits for those project features thus would be:

Shore protection	\$70,000
Navigation	10,000
Total	\$80,000

The Federal share of construction costs of those project features which do not contribute to the navigation benefit would be 52.5 percent, as computed in Example 1. The Federal share of construction costs for the project features contributing the navigation benefit, computed in accordance with the formula given in paragraph 5 of Appendix A and expressed as a percent of total construction cost for those features, would be:

$$\left( \frac{10,000}{80,000} \times 100 \right) + \left( 52.5 \times \frac{70,000}{80,000} \right) = 58.5 \text{ percent}$$

4. Example 4 is similar to Example 2, except that the construction plan includes provision for periodic beach nourishment at an estimated average annual cost of \$100,000 which would benefit the entire project frontage.

Item	Compartment 1	Compartment 2	Total
Length, feet	15,000	5,000	20,000
Construction cost, \$			
Initial measures:			
Total	545,000	455,000	1,000,000
Per foot of shore	36.33	91.00	50.00
Periodic nourishment: (*)			
Total (Av. Ann.)	75,000	25,000	100,000
Per foot of shore (Av. Ann.)	5.00	5.00	5.00

(\*) Total cost of periodic nourishment distributed between compartments on a frontage basis.

Shore length by shore categories, feet:	Same as Example 2	Same as Example 2	Same as Example 2
Benefits by shore categories, Av. Ann. \$1,000	Same as Example 2	Same as Example 2	Same as Example 2

Computation of Federal share of construction cost  
The formula given in paragraph 2a of Appendix A is applicable and is applied separately for each compartment. The Federal aid percentages are as in Example 2:

Compartment 1	59.7 percent
Compartment 2	30.7 percent

FEDERAL REGISTER, VOL. 43, NO. 14—FRIDAY, JANUARY 20, 1978

# federal register

FRIDAY, JANUARY 20, 1978

PART V

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Resources Administration

## NATIONAL GUIDELINES FOR HEALTH PLANNING

3054

Federal aid for the project as a whole is computed as follows:

Compartment	Initial Measures		Federal Share of Construction Cost, %
	Construction Cost, \$		
1	545,000	59.7	325,000
2	455,000	30.7	139,500
Total	1,000,000	46.5(*)	465,000

(\*) This figure is the same as the result for Example 2 because the lengths and benefits by shore categories, and the relative compartment costs, are the same as for Example 2.

Compartment	Periodic Nourishment		Federal Share of Cost for Periodic Nourishment for Period to be Specified, %
	Nourishment Cost, \$		
1	75,000	59.7	44,800
2	25,000	30.7	7,700
Total	100,000	52.5(*)	52,500

(\*) Note that the Federal share of periodic nourishment costs for the project as a whole is not the same as the Federal share of other construction costs. (See paragraph 3 of Appendix A.)

5. Comment on Examples. The foregoing examples have been simplified for purposes of illustration, particularly in regard to the matter of uniformity of cost. In typical project cases, shore categories may be extensively intermixed and there may be a wide range of unit costs of protection in each category. Choice of the method for computation of Federal costs must be made on the basis of the conditions encountered in individual cases. The principal alternatives available are based on computation on the basis of the project as a whole as opposed to computation on a compartment-by-compartment or section-by-section basis. Reports should contain sufficient detail on costs, benefit occurrence, and alternative costs to support selection of the method of computation used.

## NATIONAL GUIDELINES FOR HEALTH PLANNING

Proposed Rulemaking

AGENCY: Public Health Service,  
HEW.ACTION: Notice of proposed rulemak-  
ing.

SUMMARY: This Notice sets forth, pursuant to section 1501 of the Public Health Service Act, proposed National Guidelines for Health Planning with respect to the following types of health services and facilities:

General hospital beds.  
Obstetrical inpatient services.  
Neonatal special care units.  
Pediatric inpatient services.  
Open heart surgery units.  
Cardiac catheterization units.  
Radiation therapy.  
Computed tomographic scanners.  
End-stage renal disease.

A purpose of these guidelines is to assist Health Systems Agencies in developing Health Systems Plans and to help clarify and coordinate national health policy. The guidelines being proposed here are to be followed by later issuances setting forth national health planning goals and additional standards respecting the appropriate supply, distribution, and organization of health resources, as required by the Act.

This Notice follows up on the initial Notice of Proposed Rule Making on this subject which was issued on September 23, 1977 (42 CFR Part 121). In view of the widespread interest in the earlier proposed rules, the Department believes it advisable to provide an additional 30-day period for public review and comment on the revised Guidelines. It is the Department's intent to publish final regulations on this matter about 15 days after the end of this comment period. Since interested parties have had an opportunity to review the proposed Guidelines previously, they are urged to submit comments on the revised Guidelines as soon as possible.

The Notice invites all interested parties to submit written comments and recommendations concerning the proposed National Guidelines for Health Planning. After consideration of the material received in response to this Notice, the Secretary of Health, Education, and Welfare will by regulation issue final Guidelines on the specified health services and facilities.

DATE: Comments must be received not later than February 21, 1978.

## PROPOSED RULES

ADDRESS: Written comments and recommendations should be submitted to: Office of Planning, Evaluation, and Legislation, Health Resources Administration, Room 10-22, 3700 East-West Highway, Hyattsville, Md. 20782. All materials received in response to this Notice and background material which has contributed to the development of the proposed National Guidelines will be available for public inspection and copying at the above location during regular business hours.

FOR FURTHER INFORMATION  
CONTACT:

Daniel I. Zwick, Associate Administrator for Planning, Evaluation, and Legislation, Health Resources Administration, Center Building, Room 10-22, 3700 East-West Highway, Hyattsville, Md. 20782, 301-436-7270.

## SUPPLEMENTARY INFORMATION:

### A. OVERVIEW

On September 23, 1977, the Secretary of Health, Education, and Welfare published a Notice of Proposed Rulemaking (42 FR 45802 et seq.) proposing an initial set of National Guidelines for Health Planning, as required by section 1501 of the Public Health Service Act, as amended by the Health Planning and Resources Development Act of 1974 (Pub. L. 93-641). The attached document presents a revised version of these Guidelines that reflect extensive analysis of the many comments that were received as well as consultation with expert groups subsequent to the September Notice. The revision also seeks to clarify certain statements that were not understood by or were confusing to many readers of the initial issuance.

Through the enactment of the Health Planning Act, Congress sought to strengthen the development of health care planning at the State and local levels. By designating health service areas throughout the country; by requiring the establishment of Health Systems Agencies (HSAs) to plan locally to meet the health needs and goals of those areas; and by requiring the designation of State Health Planning and Development Agencies (SHPDAs) and State Health Coordinating Councils (SHCCs), the Act provided support for an essential State and local foundation, for bringing about comprehensive, long range health planning.

The Act requires the Secretary to issue the National Guidelines concerning national health planning policy which include (1) standards respecting the appropriate supply, distribution, and organization of health resources and (2) a statement of national health planning goals developed after consideration of the national health priorities set forth in section 1502 of the Act. As specified in the statute, these

goals, to the maximum extent practicable, are to be expressed in quantitative terms.

The goals and standards issued as part of the National Guidelines are to provide guidance to HSAs, SHPDAs, and SHCCs in the development of local and State health plans. This initial set of standards represents the first segment of what will become a rational, comprehensive set of health planning goals and standards designed to achieve for all Americans "equal access to quality health care at a reasonable cost", as expressed in section 2(a)(1) of the Act.

The Department has determined that the complete set of National Guidelines will include a wide range of goals and standards, addressing such issues as cost containment, access to care, availability and distribution of health care resources, quality of care and health status.

A second set of the National Guidelines, consisting of a set of goals relating to health status, health promotion and prevention, and access to health care will be proposed in the near future. A third issuance, to be issued in the Spring, will propose standards relating to these goals. Additional goals and standards will be issued on a periodic basis.

In publishing the initial set of Guidelines proposed on September 23, the Department decided to focus on a limited number of issues relating to hospital resources that present important short-term opportunities for the containment of costs and the enhancement of the quality of care. In enacting the Health Planning Act, Congress found (section 2(a)) that increases in the cost of health care, particularly of hospital stays, have been uncontrollable and inflationary, and that past public and private sector responses have not resulted in the restraint of costs. If unchecked, hospital costs are likely to double within 5 years. A hospital stay, which cost less than \$350 in 1965 and costs \$1,300 today, could increase to \$2,600 in five years and reach \$5,200 in ten years.

### B. PROCESS OF INITIAL STANDARD DEVELOPMENT

The standards published for comment on September 23 and revised here concern general hospital beds; obstetrical, pediatric, and neonatal special care units; open heart surgery and cardiac catheterization units; radiation therapy; computed tomographic scanners; and end-stage renal disease.

Each of the standards relate to a health care resource which has been widely discussed and is based on and adapted from a recommendation, guideline, or standard previously developed by one or more medical groups, health planning organizations, or other professional bodies. Addition-

ally, documentation of health standards was obtained through searches undertaken by the National Library of Medicine and the National Health Planning Information Center and systematically reviewed by Department staff.

Materials included in these analyses were reports of such organizations as the Institute of Medicine, the Office of Technology Assessment, the American College of Obstetrics and Gynecology, American Academy of Pediatrics, American College of Radiology, Committee on Perinatal Health, and the Inter-Society Commission on Heart Disease Resources.

Proposed guidelines concerning hospital bed supply were included in a draft of National Guidelines that was widely distributed after October 1976. Some 1,300 comments were received on that material.

### C. PROCESS OF PUBLIC CONSULTATION

Section 1501(c) requires the Secretary to consult with and solicit recommendations and comments from a wide range of planning agencies, medical associations and other interested parties in developing the Guidelines. This has been accomplished through consultations, public notices, public meetings, review by the National Council on Health Planning and Development and other activities.

In publishing the Notice of Proposed Rulemaking on September 23, 1977, the Department allotted a period of 60 days for public comments and later (42 FR 59888) extended this period for an additional 17 days. During this period, more than 55,000 communications were received. Among those who wrote were more than 100 Health Systems Agencies, 30 State Health Planning and Development Agencies, 50 Hospital Associations, 80 Medical Societies, 35 medical schools, 60 national associations as well as thousands of individual hospitals, practitioners and consumers.

During this period, a series of five public meetings were held, during which individuals from the fields of medicine, health administration and consumer interest were actively consulted. Comments and recommendations were also received as the result of the Department's direct request for the views of all State and local health planning agencies and numerous professional and consumer groups. Many other suggestions were received in public hearings before the Subcommittee on Health and the Environment of the House Interstate and Foreign Commerce Committee, and from individual Members of Congress.

The National Council on Health Planning and Development began its consideration of the proposed guidelines at its first formal meeting on September 23, 1977. The Council de-

voted three days, December 9, 10, and 21, to the review of the proposed guidelines. At the latter meeting, it passed 11 resolutions providing comments and recommendations to the Secretary on this matter.

The Department is grateful to those who participated in the public hearings and to the large number of local and State planning agencies and medical, health, consumer and other groups who have contributed their comments and criticisms. It is also grateful to the many thousands of private citizens who have expressed their views. All have contributed to the development of the revised Guidelines published below.

The process of consultation, thus, has been extensive. At times, the comments received have been spirited. The broad attention to and debate over the National Guidelines are important and necessary steps in increasing understanding of the purposes of the health planning program and the complexities of health care issues. The urgency of containing rapidly rising health costs in order to make possible the achievement of equal access to high quality health care has been further highlighted by the initial issuance of the National Guidelines. The Guidelines have been modified and improved on the basis of the comments received.

### D. MAJOR ISSUES

Most of the comments received expressed concern about the anticipated impact of the proposed Guidelines on local hospital services, especially in rural communities. Other comments were focused on the details of one or more of the 11 proposed standards. The major, general issues are discussed in this section. Major comments concerning the specific standards are discussed in the next section.

### 1. LOCAL CONTROL

It is the clear intent of the Health Planning Act that health planning be conducted at State and local levels. Nothing in the Act nor in the National Guidelines will or could take planning concerning individual facilities out of local and State hands. The Guidelines provide national benchmarks to help local and State agencies draw up local and State plans. These plans should, and indeed must, recognize special local circumstances and requirements, and the Guidelines provide for recognizing such circumstances.

The Guidelines are aimed at guiding the development of local plans respecting the organization and delivery of health services. They do not include any Federal authority to close any hospitals or to eliminate any services. Neither the Act nor the Guidelines authorize any local Agency, any State Agency, or the Secretary to close any existing hospital or hospital services,

such as obstetrical or pediatric services. Decisions with respect to new facilities and services are to be made under State Certificate-of-Need programs, after consideration of the advice of local Health Systems Agencies.

Local Health Systems Agencies have the responsibility to analyze and plan how the Guidelines apply to local conditions and needs. These analyses are to be reflected in the Health Systems Plans. As part of his periodic assessment of the performance of the agencies, the Secretary will review how well this has been done.

Section 1513(b)(2) calls for Health Systems Agencies to develop plans "(B) which are responsive to the unique needs and resources of the area; and (C) which take into account and [are] consistent with the national guidelines . . . respecting supply, distribution and organization of health resources and services." Both these criteria must be met in the establishment of Health Systems Plans.

HSAs are expected to give careful consideration to the National Guidelines in drawing up their HSPs and to use the quantitative standards as benchmarks against which local needs and conditions can be assessed. In planning for the local supply and distribution of health care services specifically described in these National Guidelines, HSAs should determine where the National Guidelines are appropriate planning targets for their local needs and resources, as well as where specific adjustments might be appropriate, due to special local needs or conditions.

In some cases, the Agency may need to adjust a quantitative standard upward or downward to meet a specific local situation. The Guidelines contain a number of specific local conditions which may justify such adjustments to one or more of the standard, such as the age of the local population, seasonal population fluctuations, or the rural nature of an area.

In addition, the Guidelines now contain a general provision which recognizes that other special local conditions may exist which justify adjustment of a national standard. This provision permits the HSA, pursuant to its own detailed analyses, to include adjustments to take account of those local conditions that involve special needs concerning access to needed care and unreasonable costs. Such adjustments will then be reviewed by the SHPDAs and the SHCCs as part of their responsibilities.

The initial Guidelines thus reflect a careful balance between the Federal role in providing national health planning leadership and guidance and the needs of local and State agencies to take account of local health conditions and requirements.

## 2. RURAL AREAS

Much concern has been expressed in some States that the Guidelines might force many small rural and community hospitals to close. This was not the intention of the proposal; on the contrary, a Departmental objective is to improve access to needed, high quality health care for those living in rural and other underserved areas. As noted above, neither the Act nor the Guidelines provide any authority to close any hospital or eliminate any services.

The proposed Guidelines included a number of provisions addressing the specific conditions and needs of rural areas. The Guidelines published below contain a number of revisions to take further account of the special conditions and needs of rural areas and emphasize the responsibilities of HSAs to make adjustments to take these into account.

In particular, the Guidelines have been modified to emphasize that hospital care should be accessible within a reasonable period of time and to recognize that smaller hospitals are likely to have lower occupancy rates. The standard for obstetrical services has been revised to exempt rural hospitals that provide services primarily for uncomplicated maternity cases and the standard for pediatric services has been limited to urbanized areas. Additional provisions dealing with situations involving travel difficulties have been added to the standards respecting neonatal and radiation therapy units. It has been emphasized that HSAs have the responsibility to analyze and determine travel times.

The House of Representatives passed a resolution on December 6, 1977, indicating that the "Guidelines should include sufficient flexibility to allow a Health Systems Agency to recognize special characteristics in rural areas and, on the basis of these special characteristics, to establish a Health Systems Plan that varies from the National Guidelines, in order to provide health care services to rural residents." The provisions of the Guidelines have been revised to reflect the concerns expressed in that resolution.

## 3. OTHER ISSUES

a. *Scope of the Guidelines.* As discussed above, the standards published here do not constitute a full array of National Guidelines for Health Planning. The National Guidelines are to be a comprehensive statement of national health planning goals and resource standards. They will provide health policy direction and guidance. They are to encompass all the issues of major importance in developing local Health Systems Plans and State Health Plans.

However, the development of such a comprehensive statement will be a long-term, progressive process. In

## PROPOSED RULES

many cases, there is currently incomplete agreement respecting health goals and resource standards. Thus, as local and State health plans are extended and refined over many years, so will the National Guidelines. These refinements will be based on analyses of local Health Systems Plans and other experiences and analyses.

Additional National Guidelines for Health Planning respecting national health planning goals and other resource standards are under development. It is anticipated that they will be issued for public review and comment early in 1978. They will address such issues as advancement of health status, strengthening health promotion and prevention, and improvements in the accessibility, organization and quality of needed health care.

An initial emphasis on short-term opportunities for cost containment and quality improvement is appropriate if adequate resources are to be available to help achieve longer-term goals with respect to health status, health promotion and prevention, and access to needed care. As noted above, rapid increases in hospital costs are absorbing an exaggerated share of available resources. Planning and actions to contain these increases are essential first steps to make possible the achievement of the statutory aim, viz., equal access to quality health care at a reasonable cost.

b. *Unnecessary utilization.* Standards for minimum utilization of resources involve a risk of encouraging unnecessary utilization. A tendency could develop in certain cases to increase utilization in order to reach the established targets.

Any tendency toward unnecessary utilization is contrary to the intent and purpose of the National Guidelines. The established target levels are meant to include only medically necessary hospital admissions and services.

The Guidelines have been revised to emphasize these principles. Evaluation of their implementation will give continuing attention to these concerns. Continuing efforts will also be made to develop additional population-based standards.

c. *Premature issuance.* The Preamble to the September 23 FEDERAL REGISTER Notice stated that "the state of the art of establishing quantitative resource standards is still in its infancy." Some commentators have emphasized this point and have questioned the adequacy of the data base used in developing the proposed standards.

Others have pointed out that Health Systems Agencies do not have the authority necessary to achieve the target levels or to require anyone to do so. They have felt, therefore, that the development of plans consistent with the proposed standards would be meaningless.

While it is recognized that the process of developing quantitative standards is still in its early stages, the Department believes that sufficient progress has been made to support the standards as issued. Many groups, both public and private, have devoted substantial efforts to the review and evaluation of past experiences and available knowledge. Carefully considered judgments have been applied. The Department, in turn, has reviewed and benefited from this work in formulating the proposed standards. Further, the Department has had the benefit of a substantial amount of additional thoughtful comments as the result of the FEDERAL REGISTER Notice and has used these recommendations in revising the Guidelines.

As stated earlier, the standards will require periodic review and revision as knowledge is increased concerning the most appropriate use and configuration of resources to provide services which meet health needs of the population. The Guidelines will then be reviewed periodically, at least every two years, and revised as necessary based upon further analyses and experiences with their use. It is expected that publication of the Guidelines will contribute to the more rapid maturation of the standards development process.

With respect to the roles of Health Systems Agencies in achieving the established target levels, it is clear that their current authority is limited. As noted before, Health Systems Agencies have no authority under Federal law to close existing hospitals or services nor is the Federal Government authorized to do so. However, the Department believes that Health Systems Plans can and should be important occasions and vehicles for advancing public understanding of these issues and other factors contributing to rises in health care costs and other pressing health problems. Health Systems Plans will be of little value if they do not seriously address these issues.

The Guidelines have been revised to make clear that the Health Systems Plans are to include provisions which, if implemented, will achieve the established targets. The issuance of the Guidelines and the development of the plans should also speed the process of public debate and decision-making on the best approaches to implementation.

(d) *Educational programs.* Some writers have expressed concern that the proposed standards might impair training programs, especially for family practice and other types of primary care. It is expected that Health Systems Agencies will give full consideration to the special needs of training programs as they develop Health Systems Plans. Revisions made in the

standards should be helpful to those who are developing programs to prepare additional physicians and nurses for primary care. The importance of these programs and their extension are strongly supported.

The standards provide adequate flexibility to accommodate most training programs. If adjustments are needed, they should be based on thorough analyses by the institutions involved and by the Health Systems Agencies, especially if they are likely to involve substantial additional costs.

(e) *Federal facilities.* Many persons wrote that it is inappropriate and uneconomical that the Guidelines do not apply to Federal health care facilities. Pub. L. 93-641 does not provide authority to do so.

There are, however, many occasions where these planning activities interact with Federal programs. The principal health officers of the Department of Defense and the Veterans Administration as well as the Surgeon General of the Public Health Service serve as members of the National Council on Health Planning and Development. Local officials of the Veterans Administration participate as members of local Health Systems Agency governing bodies and on Statewide Health Coordinating Councils. In addition, plans for changes in the services of Defense Department, Veterans Administration and Public Health Service facilities are normally reviewed by the relevant Health Systems Agencies and recommendations are made by the Agencies.

The Guidelines have been modified to indicate that local Agencies are to take into account the services which Federal health facilities provide local residents. This can be an important factor in planning; for example, needs for local hospital beds may be reduced where a substantial number of residents are receiving care from Federal hospitals.

## E. COMMENTS ON SPECIFIC STANDARDS

While it is not possible to make individual reply to all the suggestions and comments which have been received and taken into account in revising the 11 proposed standards, the following discussion reviews major substantive issues.

## COMMENTS ON GENERAL PROVISIONS

In response to widespread concern and comment, the Department has modified the originally proposed general provisions in several respects.

If a Health System Agency (HSA) concludes on the basis of in-depth analysis that one or more standards should be adjusted in light of special conditions or needs, it may include such an adjustment in its Health Systems Plan, along with detailed documentation of the circumstances justifying the adjustment. The State Health Planning and Development Agency (SHPDA) and the State Health Coordinating Council (SHCC) will review proposed adjustments and the related analyses and, if appropriate, accept proposed adjustments as part of the State Health Plan.

The Department has further included general provisions to indicate that appropriate adjustments should be made to deal with the special needs and circumstances of Health Maintenance Organizations, and to take into account the services provided local residents by Federal health care facilities.

The effective date by which Health Systems Plans are to be consistent with the established Guidelines has been changed. Health Systems Plans established after December 31, 1978 are to be consistent with these standards. HSAs are urged to consider the Guidelines in current planning and review activities.

HSAs, under the regulations, are to establish goals and set forth plans which, if implemented, will achieve the targets set within five years. The Department recognizes that HSAs do not have all the means that may be necessary to achieve such targets.

## 1. COMMENTS ON STANDARD I REGARDING HOSPITAL BED SUPPLY

Numerous commentators questioned whether this standard should be applied to individual health service areas. They recommended that the standards be focused on the nation as a whole or on States, multiple areas or smaller service areas. Many objected to a uniform approach for all health service areas.

Pub. L. 93-641 calls for the use of the National Guidelines by HSAs which serve the needs of health service areas. The standard is not intended to be applied uniformly across the country. It identifies a number of factors which may justify an adjustment, either upward or downward, on the basis of analyses of local conditions and needs. Other adjustments due to unique local circumstances may also be proposed. It is believed that the standard (less than 4.0 beds/1000 population) is an appropriate and reasonable target as a ceiling and a useful starting point for analyses by HSAs. In many cases, it has been shown that necessary, high quality care can be provided with a much lower supply of hospital beds.

Some comments suggested that, in order to take into account the wide variations in bed supply which exist across the country, a percentage figure (such as 10%) be set as a target for the reduction in beds by health services areas. It was pointed out the proposed standard may involve major decreases in some areas and little or no de-

creases in other areas. It was suggested a 10% reduction is more in line with current levels and may be more easily achievable in many areas. This approach has not been accepted. An across-the-board reduction would tend to penalize those areas which in the past have limited the number of hospital beds.

Some letters pointed out that many other factors need to be considered, such as demographic characteristics of the population, specific types of facilities and beds, patient mix, and the availability of alternative forms of care. In a few instances, a formula approach was suggested to help identify the most appropriate target level. The established standard is only intended to set a ceiling. Individual HSAs are expected to undertake more refined analysis to identify the most appropriate local target, usually below the ceiling, and to identify desirable variations within the health service area.

Several comments addressed the relationship between the general hospital bed supply standard and the supply of beds in specific services, such as general medical/surgical, obstetrical, pediatric, etc. Several recommended that service-specific standards be developed. Others suggested that the Guidelines address different levels of care, e.g., primary, secondary and tertiary, within the content of regionalized systems. The importance of such sophisticated targets is recognized. It seems premature, however, to set such standards on a national basis at the present. Individual HSAs may extend their analysis to address such issues based upon the resources, information, and the technical capabilities at hand.

Several commentators suggested that 4.0 beds per 1000 population is too high a target ceiling. It is not intended that HSAs plan for a level of resources in excess of that needed to adequately serve the needs of the community. Areas with a lower ratio should seek to reduce the supply further except in those cases where it can be demonstrated that reductions would result in serious problems of access to needed services or an adverse affect on quality.

Several persons recommended that the standard should focus on utilization rates (i.e. patient days/1000 population) rather than on bed supply. The statute calls upon the Department to issue resource standards, not utilization standards. The intimate relationship between utilization rates, occupancy rates, and bed supply is recognized, however. HSAs are urged, in cooperation with PSROs and other utilization review mechanisms, to analyze the utilization of hospital services by residents of their areas and to plan for appropriate reductions whenever feasible.

Several comments questioned the cost savings resulting from reductions

in bed/population ratios. Differences among licensed beds, available beds and staffed beds were pointed out. HSAs are urged to consider entire facilities in their planning. While analyses are usually based on licensed beds, it is recognized that other factors must be considered as well.

Numerous commentators suggested that the standard be clarified to indicate the specific type of beds to be included, e.g. psychiatric. This suggestion has been accepted and revisions made. It is recognized that a relatively broad definition is presented. A similar approach will be used in the regulations to be issued on State Medical Facilities Plans.

Some viewed the proposed exception for age (i.e. 33 percent above the national average of those aged 65 and over) as too restrictive in view of the recognized significant increase in need for hospital care by the elderly. A lower threshold was recommended, usually 20 percent or so above the national average. This suggestion has been accepted.

Numerous comments expressed concern that the exception for rural areas, based upon a 45-minute travel time to care, was too restrictive. It was pointed out that travel time frequently depends upon weather conditions and that local health planning agencies often use 30 minutes travel time as a planning factor. The suggestion has been accepted. The responsibility of HSAs to analyze and determine travel time in light of local conditions and the importance of ensuring access to needed hospital care have been more explicitly emphasized.

Some comments suggested that greater flexibility be provided for seasonal population fluctuations through the incorporation of a provision for adjustments due to seasonal factors other than those specified. This suggestion has been accepted.

Others suggested that, in view of the range of needs and circumstances which exist across the country, other exceptions be provided. As noted above, adjustments other than those specified may be appropriate. Such adjustments are to be presented by the HSA based upon its analyses, reviewed by the SHPDA and SHCC, and if appropriate accepted as part of the State Health Plan.

A number of requests were received for further specificity regarding use of the identified adjustments factors. The provision concerning referral hospitals has been clarified. However, other terms have not been specified in the belief that HSAs should have the flexibility to determine the most appropriate uses as part of their analyses.

Others recommended that attention be given to the potential impact of local Federal health care facilities and

Health Maintenance Organizations on the need for beds and to the importance of supporting local activities aimed at achieving the national health priorities set forth in Section 1502 of Pub. L. 93-641. These recommendations have been accepted and changes made in the "Discussion" section.

Other special circumstances were also identified, including needs of programs of medical education and research; patterns of morbidity and mortality; socio-economic and racial characteristics; personal and ethical preferences; and facilities with low per diem costs. It is recognized that such factors should often be taken into account and it is anticipated that HSAs will do so in the development of their plans.

#### 2. COMMENTS ON STANDARD II CONCERNING HOSPITAL OCCUPANCY RATES

Many commentators applied the proposed occupancy rate (i.e. over 80%) to their institution rather than on an area-wide basis. The standard has been revised to make clear that it is to be applied on an area-wide basis, in line with the emphasis in Pub. L. 93-641 on planning on a community-wide basis.

Numerous comments expressed concern that the specification of a minimum occupancy rate may provide an incentive for unnecessary hospital admissions or extended lengths of stay. Revisions have been made to emphasize that it is not intended that increased rates be achieved through unnecessary utilization.

A number of suggestions were made for changes in the occupancy rate, including recommendations for a lower percentage for rural areas. The Guidelines have been revised to recognize that lower average annual occupancy rates are usually experienced by smaller hospitals, including those in rural areas, to accommodate normal fluctuations in admissions.

Several comments pointed out that empty beds may not be so costly since they are often not staffed. This condition is recognized. However, excess beds not only involve substantial investment costs but often present irresistible temptations for over-utilization. It is believed these resources are better devoted to more socially useful purposes. In determining excess beds, potential changes in population must be analyzed, of course.

A number of comments were received suggesting that occupancy rates are best applied to specific services. It was pointed out that specialized services should operate at different occupancy rates in light of their size and nature. Others proposed raising the target level or limiting the standard to general medical/surgical beds. It is recognized that various specialty services have different requirements for optimal utilization and that more so-

phisticated approaches are often appropriate in analyzing occupancy rates. Many HSAs will choose to use such approaches. However, in view of the lack of available data in many areas on the number and utilization of beds assigned to specific services, it seems premature to set national standards of occupancy by service, except for obstetrical and pediatric services.

A number of suggestions were made to provide more specific definitions and additional adjustments. It is believed that such determinations are best left to local analyses.

#### 3. COMMENTS ON STANDARD III CONCERNING OBSTETRICAL SERVICES

Many comments were received suggesting that the standard be revised to take into consideration the recommendations of numerous groups respecting regional development of perinatal services. This approach emphasizes the importance of planning comprehensively for pregnant women and for mothers and their infants, for establishing effective linkages among various levels of care, and for providing the level of care most appropriate to differing conditions and risks. A regionalized system of care should integrate various levels of care: Level I for uncomplicated cases; Level II for services of uncomplicated problems and the majority of complicated problems and certain neonatal services; and Level III for handling all serious types of illnesses and abnormalities.

In response to these comments, the standard has been rewritten to emphasize a regionalized approach. Primary attention has been focused on the development and support of linkages among various facilities providing obstetrical and related services so that pregnant women will receive the most appropriate care for their needs and on the efficient and economical operation of the more expensive Level II and III facilities.

Many persons in rural areas and smaller communities expressed considerable concern that the proposed standard would threaten obstetrical services in their local hospitals. The proposed exception for rural areas appeared difficult to apply and inadequate. It was pointed out that the costs in such smaller hospitals are usually relatively low. The revised standard does not set any limits for smaller hospitals that primarily provide care for uncomplicated births. It encourages such hospitals to join in regionalized arrangements so that there will be early and prompt referral of any women requiring more specialized care.

Numerous commentators argued that the proposed standard for the minimum number of deliveries was too high. Some suggested that there is a lack of empirical evidence that smaller

units are more costly or provide lower quality care. Some felt that the larger facilities can impair access, increase inconvenience, raise costs due to the increasing specialization of services, threaten family-centered maternity services and depersonalize care.

The revised standard lowers the threshold to 1,500 annually, to be applied to Level II and III facilities only. No minimum is established for Level I facilities or for other facilities providing care for uncomplicated cases. The lower minimum is in line with the policies of many local and State health planning agencies.

Comments were also received expressing concern that the distinction between SMSA and non-SMSA areas is unrelated to health care. In line with the emphasis on regionalization, this distinction has been dropped.

Comments were received recommending the identification of additional factors, such as birth rates, age, high risk populations, teaching institutions, and ethical and religious preferences. It is recognized that such circumstances will often warrant specific analyses and consideration. Such adjustments should be based on local circumstances and be part of local Health Systems Plans.

Some suggested that transportation of high risk mothers to the appropriate level of care prior to delivery be emphasized. This suggestion has been accepted.

Several persons indicated that the proposed occupancy standard was too high and may foster more extended lengths of obstetrical stays than are required. Others felt that the proposed standard was unrealistic for hospitals with units of varying size, given the variability of obstetrical demand. The revised standard establishes a standard of 75% occupancy only for larger units (Levels II and III). It is not intended that increased occupancy rates be achieved through unnecessary hospital admissions or stays.

#### 4. COMMENTS ON STANDARD IV CONCERNING NEONATAL SERVICES

(Numbered Standard VI in NPRM)

Many commentators urged that the standard emphasize a regionalized approach, closely relating services for expectant mothers and newborns. This approach would be in line with recommendations of many professional associations. The standard has been revised to emphasize a regionalized approach, including various levels of care.

Many comments urged the standard be clarified to indicate whether it was intended to cover only intensive care. The revised statement focuses on neonatal intensive and intermediate care beds and Level II and III facilities.

Some commentators felt that the standard should be more specifically

related to the number of patients at risk. A newly added dimension recognizes upward adjustments for areas with a large number of high-risk pregnancies.

The relation of this standard to emergency medical services programs was questioned. The standard is not intended to disrupt these programs; rather, it should work in concert with these services. Extant infant transport services can augment regionalized systems.

The standard regarding minimum number of beds was the subject of comment. Suggested changes ranged from 10 to 18 beds per unit. The standard has been lowered to 15 beds and no specific breakdown is given in order to provide flexibility. The purpose of this standard is to ensure that the specially staffed and equipped special care unit will serve a sufficiently large population to justify its costs.

Some commentators pointed out that special arrangements are sometimes necessary to ensure that services are available to geographically remote areas because of the difficult travel problems involved for both the child and parents. A provision has been included to recognize that in some cases smaller Level II units may be justifiable. Because of the more specialized services necessary, smaller Level III units are not indicated. Additional emphasis has also been included on the importance of ensuring adequate transportation arrangements.

#### COMMENTS ON STANDARD V CONCERNING PEDIATRIC UNITS

(Numbered Standard IV in NPRM)

The term "pediatric units" has caused confusion. Some writers interpreted the term to refer to all pediatric services and expressed alarm that the care of children in smaller hospitals, especially rural hospitals, would be impaired. Others expressed concern that the closing of smaller units might result in poorer care for children if they were relocated among adults. It was frequently noted that hospitals in smaller communities, especially in rural areas, do not include discrete pediatric units. It was also urged that the definition include children's hospitals.

The standard has been revised to specifically include children's hospitals and to limit its focus to hospitals in urbanized areas. This is aimed at clarifying the intent to focus attention on larger, more costly facilities and to encourage inter-institutional arrangements in areas with multiple resources.

Many writers objected to limiting the definition of pediatric care to patients under 15 years old. Suggested changes ranged from under 16 years to age 21. The definition has been expanded to age 18 in order to be more

consistent with national norms. A larger patient population will broaden the base for both service and training.

Several comments mentioned that the size of pediatric units should reflect the socio-economic and health needs of the community. The concept of regionalized plans responds to this concern inasmuch as each plan should consider community-related resources and requirements.

Many noted that volume alone does not ensure quality or cost-effectiveness. The intention of the minimum bed standard is to encourage consolidation of services specifically related to pediatric care in order to better meet the special needs of children.

The minimum number of beds set for a pediatric unit caused problems for some respondents. Several commentators stated that a range would be more appropriate while others felt that the 20-bed minimum was too high. Since the standard has been focused on urbanized areas (communities exceeding 50,000 population) with larger hospitals, the target level seems appropriate.

With regard to the travel time provision, commentators suggested changes ranging from 20 minutes to 60 minutes as well as the need to consider the location of alternative units. The 30-minute standard has been retained inasmuch as it insures close proximity to parents.

Several respondents questioned whether or not the 30-minute requirement was under normal travel conditions. It is the responsibility of the HSA to analyze and determine travel times.

Several writers questioned whether the reference to 10 percent or more of the population refers to the pediatric population or the entire population. It includes the entire population since adults as well as children are involved in traveling to the units.

#### 6. COMMENTS ON STANDARD VI REGARDING PEDIATRIC OCCUPANCY RATES

(Numbered Standard V in NPRM)

Some comments questioned the proposed occupancy rates. Some stated they were too permissive for densely populated areas; others suggested one standard regardless of the unit size; and many recommended that the variable rates be retained but the levels decreased. Some warned that in order to attain the occupancy requirements, patients marginally in need of care might be admitted or average length of stay might be increased. Several writers suggested the need for an occupancy rate for units with fewer than 20 beds.

Variable occupancy rates have been retained in order to focus on varying requirements of differently sized units. The levels have been reduced by 5 percent for larger units to reflect the

PROPOSED RULES

concerns expressed by many. The standard is not intended to encourage questionable admissions or increased lengths of stay.

7. COMMENTS ON STANDARD VII CONCERNING OPEN HEART SURGERY

Numerous comments were received recommending the inclusion of a specific provision differentiating between adult and pediatric cardiac surgery. A provision has been added for a minimum of 100 open heart procedures annually in any institution in which pediatric surgery is performed, of which at least 75 should be open heart surgery.

Several comments emphasized the importance of the surgical team and recommended that the standard for the minimum number of surgical procedures be made to apply to surgical teams rather than institutions. While the importance of the surgical team is recognized, the suggestion for change in the standard has not been adopted in view of the other costly resources involved in the work of the open heart surgical team, and the focus of the standards on institutional capacities.

Several comments were received requesting further definition of terms, such as "open heart" surgery and "procedures". A request was also made that the ICDA codes constituting open heart surgery procedures be specified. A definition has been added in the "Discussion" section.

A few comments recommended that population-based need criteria be included. While the importance of population-based guidelines is recognized, there are currently no broadly recognized criteria for determining a population base for open heart surgery procedures.

Numerous comments were received pointing out the need for a developmental period of time for phasing in new open heart units. The suggestion has been accepted and a provision has been added for a phase-in period of three years for new services.

A suggestion was made that the 200 minimum caseload be limited to SMSA areas with over 100,000 population. In view of the highly specialized nature of open heart surgery, this suggestion has not been accepted.

Numerous comments were specifically addressed to the requirement for 350 open heart surgery procedures prior to opening up a new unit. Some comments objected to the requirement as too high and suggested lower alternative thresholds. Others pointed out that some existing programs could not economically be expanded to that level. Others were concerned by the potential constraints on competition. The target level has not been revised since it is believed to be a reasonable level. In extraordinary situations, however, HSAs are expected to prepare appropriate analyses and develop a justifiable adjustment in the standard.

A number of other reasons for exceptions were suggested, including teaching institutions, research purposes, geographic configurations, and other circumstances. HSAs are expected to consider these needs as they develop their Health Systems Plans.

8. COMMENTS ON STANDARD VIII CONCERNING CARDIAC CATHETERIZATION UNIT SERVICES

A number of comments were received regarding the minimum volume of procedures specified in Part A. While some endorsed the recommended caseload, others recommended that the volume be reduced in view of the restrictive definition of procedures used. The minimum volume encompassing overall procedures has not been revised downward, but a provision has been added to clarify that intracardiac and/or coronary artery catheterization procedures should constitute at least 200 of the total procedures.

Several comments expressed the need for a period of time for phasing in new units. This suggestion has been accepted and the Guidelines revised to reflect a phase-in of three years.

Suggestions were also received for lowering the minimum volume for pediatric cardiac catheterization units. In view of the highly specialized nature of these procedures, the standard has not been revised.

Several comments were received requesting further definition of terms. A request was also made that the ICDA codes be indicated. While the ICDA codes have not been specified, it should be noted that the guidelines refer specifically to intracardiac and/or coronary artery catheterization.

Some comments were received objecting to the requirement that new cardiac catheterization units be opened only in facilities performing open heart surgery. Recommendations were made that the provision be deleted, that HSAs determine the optimal location of facilities, or that requirements for inter-institutional agreements be substituted. It was pointed out that some existing units have close, effective working relations with open heart surgery programs. While different views on this subject are recognized, the standard has not been revised since it is believed to be the most desirable approach for new units in terms of quality and cost.

Some comments objected to the requirement that no additional units be opened unless the projected number of studies is greater than 500. A variety of suggestions were made, including higher levels. The standard has not been revised since it is reasonable and soundly based. Concern was also expressed with the possible effect on

competition of requiring a threshold of 500 procedures in existing units prior to opening a new unit. It was suggested that this requirement might preclude the development of new units and create monopolistic situations. It is believed that expansion of costly resources should usually take place only where there is adequate utilization of existing resources.

A number of exceptions were suggested, including provisions for geography, accessibility, referral centers, teaching hospitals, and other circumstances. No exceptions have been included but it is expected that HSAs will carefully consider these circumstances in the development of Health Systems Plans.

Several comments were received on the importance of quality controls in cardiac catheterization. The importance of utilization reviews and outcome evaluations in assuring the necessity and quality of procedures is recognized. The minimum volume standards are designed to promote quality through specialized facilities and the maintenance and development of necessary skills.

9. COMMENTS ON STANDARD IX CONCERNING RADIATION THERAPY

Confusion resulted from the reference in the proposed standard to 450 new cancer cases, of which two-thirds were expected to require radiation therapy. Some suggested that this be changed to a minimum of 300 cases requiring treatment. Such a revision has been made.

A few writers pointed out that the incidence of cancer varies among areas and that, therefore, the 150,000 population base will not always apply. Such variation is recognized and the standard provides sufficient flexibility for HSAs to take this fact into account as part of their analyses in developing Health Systems Plans.

It was pointed out that a period of time is usually necessary for a new unit to build up to a minimum workload. A provision has been added for a three-year developmental period.

Some comments objected to the requirement that all units in an area should be operating at capacity before a new unit is approved. They noted that since the process of approval is often long, arrangements may need to be made several years in advance; furthermore, it may not be practical for certain units to expand their load and desirable competition may be discouraged. The standard provides flexibility for advance approval of new units when an existing unit is expected to achieve the target level. In special cases when all existing units can not reasonably be expected to reach the target level and a new unit is appropriate, the HSA may call for an adjustment in the standard as part of its

plan, based on its analyses of local conditions and needs.

A number of writers recommended the target level be reduced below 7,500 treatments. Suggested changes ranged between 5,000 and 6,500. It was also pointed out that the difference in patient mix affects the number of treatments that can be handled. The standard has been reduced to 6,000 treatments per year in line with the suggestions received.

The importance of defining the term "treatment" was often pointed out. This has been done in the "Discussion" section.

Many writers proposed a provision to address the needs of geographically isolated areas. They emphasized that many patients experience serious difficulties in traveling substantial distances to obtain necessary courses of treatment. A provision has been added to address these situations, based on analyses by the local HSA.

10. COMMENTS ON STANDARD X CONCERNING COMPUTED TOMOGRAPHIC SCANNERS

Some commentators objected to the issuance of a standard on this topic. They emphasized the CT scanning techniques and equipment are rapidly changing and that more extensive uses and less costly machines are being developed. The important contribution of these procedures as a diagnostic tool, when appropriately used, is recognized. The standard provides substantial flexibility to ensure that further desirable developments will not be impaired, while encouraging increased emphasis on appropriate utilization and cost consciousness. The standard will be evaluated periodically to determine whether revisions are needed in light of new knowledge and practices.

Many communications emphasized that body scans usually require more time than head scans. It was urged that these differences be reflected in the standard; one suggested approach was a weighting formula. These differences are recognized, but it is believed that sufficient flexibility has been included in the standard to take them into account. It does not seem desirable to set separate standards for head and body procedures since this could result in more costly arrangements. As additional information is available, a weighting scheme may be proposed in the future.

Many objected to the threshold of 4,000 patient procedures. It was argued that such an intensive work schedule could impose hardships on patients and staff. The standard has been modified to re-emphasize the 2,500 target. It does not seem unreasonable that this equipment should be used routinely more than 40 hours a week, as is done in most hospitals.

Some comments urged that the standard concerning the use of existing

equipment be deleted and each proposal for new equipment be considered by itself. They argued that it was unfair and undesirable to delay purchase by one facility because an existing unit was not being effectively used. These views do not appear to take into account the community-wide planning concepts that are integral to Pub. L. 93-641.

The proposed standard concerning the determination of charges was questioned by many writers as being beyond the scope of the National Guidelines. Others suggested a uniform cost-based methodology be introduced. This provision has been deleted. It is urged that charges for scanning be carefully re-evaluated and be reduced to the maximum extent feasible in light of more widespread and efficient utilization.

The proposed provision concerning data collection was felt by many to be undesirable as a routine requirement and to involve excessive costs. The detailed specifications have been deleted; a recommended data set will be published separately in the near future. Provision for a supplementary routine utilization review mechanism has been added, in line with a number of suggestions.

Questions were raised concerning the definition of "patient procedure." This issue has been addressed in the "Discussion" section.

Many commentators expressed the concern that imposition of a standard would encourage unnecessary utilization. The standard has been modified to specify that only "medically necessary" procedures are to be considered.

It has been urged that the standard emphasize that it applies to all operators of scanners regardless of location. This has been done.

11. COMMENTS ON STANDARD XI CONCERNING END-STAGE RENAL DISEASE

Many of the comments received urged the current regulations be amended to give further support to self dialysis and to encourage increased utilization of existing units. Clarification of relationships between the end-stage renal dialysis program and the health planning program was recommended by some writers. The Health Care Financing Administration is currently reassessing the established regulations; the comments received have been made available to them for consideration in that process.

Accordingly, it is proposed 42 CFR be amended by adding thereto a Part 121 as set forth below.

NOTE.—The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

PROPOSED RULES

Dated: January 18, 1978.

JULIUS B. RICHMOND,  
Assistant Secretary for Health.

Approved: January 18, 1978.

JOSEPH A. CALIFANO, Jr.,  
Secretary.

PART 121—NATIONAL GUIDELINES FOR HEALTH PLANNING

Subpart A—General Provisions

- Sec. 121.1 Definitions.
- 121.2 Purpose and scope.
- 121.3 Applicability of national guidelines to Health Systems Plans.
- 121.4 Applicability of national guidelines to State health plans.
- 121.5 Responsibility of health systems agencies.
- 121.6 Adjustment of standards for particular Health Systems Plans.

Subpart B—National Health Planning Goals (Reserved)

Subpart C—Standards Respecting the Appropriate Supply, Distribution, and Organization of Health Resources

- 121.201 General hospitals—Supply.
- 121.202 General hospitals—Occupancy rate.
- 121.203 Obstetrical services.
- 121.204 Neonatal special care units.
- 121.205 Pediatric inpatient services—Number of beds.
- 121.206 Pediatric inpatient services—Occupancy rates.
- 121.207 Open heart surgery.
- 121.208 Cardiac catheterization unit services.
- 121.209 Radiation therapy.
- 121.210 Computed Tomographic Scanners.
- 121.211 End-stage renal disease (ESRD).

AUTHORITY.—Sec. 1501, Public Health Service Act, 88 Stat. 2227 (41 U.S.C. 300k-1).

Subpart A—General Provisions

§ 121.1 Definitions.  
Terms used herein shall have the meanings given them in 42 CFR 122.1.

§ 121.2 Purpose and scope.  
Section 1501 of the Public Health Service Act requires the Secretary to issue, by regulation, national guidelines for health planning. The guidelines are to include national health planning goals (section 1501(b)(2)) and standards respecting the supply, distribution, and organization of health resources (section 1501(b)(1)). This subpart includes general provisions applicable to such goals and standards; Subpart B of this part sets forth specific national health planning goals; and Subpart C sets forth specific standards respecting the supply, distribution, and organization of health resources.

§ 121.3 Applicability of national guidelines to Health Systems Plans.

Section 1513(b)(2) of the Act requires health systems agencies, in the development of their Health Systems

## PROPOSED RULES

Plans, to give "appropriate consideration" to the national guidelines for health planning. Health Systems Plans must also "take into account" and be "consistent with" the standards respecting the supply, distribution, and organization of health resources set forth in Subpart C of this part.

(a) *Meaning of "consistent with."* A Health Systems Plan will be considered "consistent with" a standard set forth in Subpart C of this part where it: (1) Establishes a goal which is not in excess of the level set forth in the standard where that level is stated as a maximum, or not less than the level set forth in the standard where that level is stated as a minimum, and (2) includes plans which, if implemented, are reasonably calculated to achieve that goal within five years, except where a specific adjustment is justified in accordance with Subpart C of this Part or § 121.6.

(b) *Effective date.* Health Systems Plans established after December 31, 1978, must be consistent with each standard set forth in Subpart C of this part.

#### § 121.4 Applicability of national guidelines to State health plans.

Each State's State health plan developed under Title XV of the Act must be "made up of" the Health Systems Plans of the health systems agencies within the State, revised as found necessary by the Statewide Health Coordinating Council to achieve their appropriate coordination with each other or to deal more effectively with Statewide health needs. Section 1524(c)(2)(A) of the Act. Since Health Systems Plans must individually give appropriate consideration to the national guidelines for health planning and take into account and be consistent with the standards respecting the supply, distribution, and organization of health resources, the State health plan will accordingly reflect the guidelines.

#### § 121.5 Responsibility of health systems agencies.

Subject to the authority of the Statewide Health Coordinating Council to require the revision of Health Systems Plans under section 1524(c)(2)(A) of the Act, each health systems agency is responsible for analyzing the needs and conditions in its health service area and applying the national guidelines for health planning in the development of its Health Systems Plan, including the need for adjustments.

#### § 121.6 Adjustments of standards for particular Health Systems Plans.

Subpart C of this part includes provisions for adjustment of individual standards. In addition:

(a) Health systems agencies must make such adjustments as may be necessary:

(1) To take into account special needs and circumstances of Health Maintenance Organizations; and

(2) To take into account services available to local residents from Federal health care facilities.

(b) Whenever a health systems agency concludes, on the basis of a detailed analysis, that development of a Health Systems Plan consistent with one or more of the standards set forth in Subpart C of this part would result in:

(1) Residents of the health service area not having access to necessary health services;

(2) Significantly increased costs of care for a substantial number of patients in the area; or

(3) The denial of care to persons with special needs resulting from moral and ethical values;

and that result cannot be avoided through use of the adjustments specifically provided for in the standard or in paragraph (a) of this section, the agency may include in the Health Systems Plan a special adjustment of the standard or standards which will avoid this result. Whenever a special adjustment is so included, the plan must also contain a detailed justification for the adjustment and documentation of the circumstances that are the basis of the justification. In the case of an adjustment included on the basis of subparagraph (1) or (2) of this paragraph, the plan must further include an analysis indicating whether the need for such an adjustment is permanent. If it is, the supporting rationale must be documented and if it is not, an estimate must be included of how long inclusion of the adjustment will be required along with a detailed justification for that length of time.

(c) Any proposed adjustment under this section and the analyses supporting it must be reviewed by the State health planning and development agency in its preparation or review of the preliminary State health plan under section 1523(a)(2) of the Act and by the Statewide Health Coordinating Council in its preparation or review of the State health plan under section 1524(c)(2) of the Act. On the basis of that review, and consistent with Statewide health needs and the need to coordinate Health Systems Plans as determined by the Statewide Health Coordinating Council, the adjustment may be made part of the State health plan. The Statewide Health Coordinating Council shall report its comments on and disposition of the proposed adjustments to the Secretary under section 1524(c)(1) of the Act.

#### Subpart B—National Health Planning Goals [Reserved]

#### Subpart C—Standards Respecting the Appropriate Supply, Distribution, and Organization of Health Resources

##### § 121.201 General hospitals—Bed supply.

(a) *Standard.* There should be less than four non-Federal, short-stay hospital beds for each 1,000 persons in a health service area except under extraordinary circumstances. For purposes of this section, short-stay hospital beds include all non-Federal short-stay hospital beds (including general medical/surgical, children's, obstetric, psychiatric, and other short-stay specialized beds). Conditions which may justify adjustments to this ratio for a health service area are:

(1) *Age.* Individuals 65 years of age and older have a higher hospital utilization rate—up to four times that of the general population—than any other age group. Bed-population ratios for health service areas in which the percentage of elderly people is significantly higher (more than 12 percent of the population) than the national average may be planned at a higher ratio, based on analyses by the HSA.

(2) *Seasonal population fluctuations.* Large seasonal variations in hospital utilization may justify higher ratios. Plans should reflect vacation and recreation patterns as well as the needs of migrant workers and other factors causing unusual seasonal variations.

(3) *Rural areas.* Hospital care should be accessible within a reasonable period of time. For example, in rural areas in which a majority of the residents would otherwise be more than 30 minutes travel time from a hospital, the HSA may determine, based on analyses, that a bed-population ratio of greater than 4.0 per 1,000 persons may be justified.

(4) *Urban areas.* Large numbers of beds in one part of a Standard Metropolitan Statistical Area (SMSA) may be compensated for by fewer beds in other parts of the SMSA. Health service areas which include a part of an SMSA may plan for bed-population ratios higher than 4.0 per 1,000 persons reflecting existing patterns if there is a joint plan among all HSAs serving the SMSA which provides for less than 4.0 beds per 1,000 persons in the SMSA as a whole.

(5) *Areas with referral hospitals.* In the case of referral institutions which provide a substantial portion of specialty services to individuals not residing in the area, the HSA may exclude from its computation of bed-population ratio the beds utilized by referred patients who reside outside both the SMSA and the HSA in which the facility is located.

(b) *Discussion.* There is general agreement that the number of general

hospital beds in the United States is significantly in excess of what is needed and that utilization of acute in-patient care resources is often higher than necessary. Excess bed capacity and use contribute to the high cost of hospital care with little or no health benefits. Empty beds are often filled by patients who could be cared for as well or better in less expensive ways, such as ambulatory care or home care. The Institute of Medicine's Report on "Controlling the Supply of Hospital Beds" in 1976 recommended that the nation should achieve at least a 10 percent reduction in the bed population ratio in the next five years and further significant reductions thereafter. The Institute statement noted: "This would mean a reduction from the current national average of approximately 4.4 non-Federal short-term general hospital beds per 1,000 population to a national average of approximately 4.0 in five years and well below that in the years to follow." Similarly a study reported by InterStudy of Minneapolis, Minn. the same year concluded that a 10 percent reduction in hospital bed supply would be a desirable and reasonable first step toward reducing excess hospital capacity. As part of the process for determining this standard, the Department reviewed projections in State health facilities planning plans. Such plans have set targets for future hospital bed supply that, on an aggregate nationwide basis, project just under 4.0 beds per thousand. Many States set lower targets. Health Maintenance Organizations and similar groups have shown that high quality care can be provided with less than 3.0 beds per 1,000 population. Thus, 4.0 beds per 1,000 population is a ceiling, not an ideal situation. HSAs are expected to identify the desirable local ratio, working closely with the State Health Planning and Development Agency and the Statewide Health Coordinating Council. It is anticipated that in subsequent plans HSAs will be required to indicate how they will reach a bed-population ratio of less than 3.7 per 1,000 population, except under extraordinary circumstances. HSAs whose areas are now below the 4.0 per 1,000 level are urged to attempt to decrease bed-population ratios below 3.7 per 1,000 population. In areas where Federal medical facilities and Health Maintenance Organizations provide substantial services to local residents, lower ratios should be readily achievable. Population growth must be carefully analyzed; in many cases, this factor alone will bring the area below the target level if no unnecessary additional beds are built. Under some conditions, a higher target ceiling may be justified by the HSA. Travel distance to the nearest hospital is one of the most important factors to be analyzed, espe-

## PROPOSED RULES

cially in rural areas. A planning criteria of 30 minutes has been set, in line with the policies of many local and State health planning agencies around the country. In analyzing ways of reducing bed supply, it should be recognized that greater savings will be achieved when entire facilities are considered. In developing such plans, priority consideration should be given to maintaining and strengthening resources that are emphasizing activities identified as national health priorities in Section 1502 of the Act.

##### § 121.202 General Hospitals—Occupancy Rate.

(a) *Standard.* There should be an average annual occupancy rate of at least 80% for all non-Federal, short-stay hospital beds considered together in a health service area, except under extraordinary circumstances. Conditions which may justify an adjustment to this standard for a health service area are:

(1) *Seasonal population fluctuations.* In some areas, the influx of people for vacation or other purposes may require a greater supply of hospital beds than would otherwise be needed. Large seasonal variations in hospital utilization which can be predicted through hospital and health insurance records may justify an average annual occupancy rate lower than 80% based on analyses by the HSA.

(2) *Rural areas.* Lower average annual occupancy rates are usually required by small hospitals to maintain empty beds to accommodate normal fluctuations of admissions. In rural areas with significant numbers of small (fewer than 4,000 admissions per year) hospitals, an average occupancy rate of less than 80% may be justified, based on analyses by the HSA.

(b) *Discussion.* There is substantial evidence that excess capacity and use contribute significantly to high hospital costs. The 1976 report by the Institute of Medicine, for example, found that "there is a growing concern that the surpluses of hospital beds are contributing significantly to the recent rise of health care costs at a rate well beyond that of general inflation. This concern has not only to do with the cost of maintaining unused hospital bed capacity, but also with the unnecessary and inappropriate uses of hospital beds, especially those in the short-term care category." Occupancy rates currently average about 75% nationwide. Many hospital capacity studies, including those by InterStudy and the Bureau of Hospital Administration of the University of Michigan, indicate that an average hospital occupancy rate exceeding 80% is a reasonable target. In addition, many State and local health planning agencies have established higher occupancy targets. For example, health planning agencies

in Illinois, New Jersey, New York, Massachusetts, Michigan and Wisconsin, have recommended occupancy rates higher than 80% for larger hospitals. Higher averages have been advocated, especially for medical-surgical units. While past studies typically apply these rates to individual institutions, the Department, in line with the objectives of community-wide planning, has extended this concept to apply on an area-wide basis. Within local health service areas, hospitals of varying size and circumstances will have varying occupancy rates; a collective rate exceeding 80% on an area-wide basis is a reasonable, achievable goal except in rural areas and when situations present extraordinary circumstances. Increases are to be attained through constrained capacity growth and improved planning and management. It is not, of course, intended that increased rates be achieved through unnecessary hospital admissions or stays.

##### § 121.203 Obstetrical Services.

(a) *Standard.* (1) Obstetrical services should be planned on a regional basis with continuing linkages among all obstetrical services and with neonatal services.

(2) Hospitals providing care for complicated obstetrical problems (Levels II and III) should have at least 1,500 births annually.

(3) There should be an average annual occupancy rate of at least 75 percent in each obstetrical unit with more than 1,000 births per year.

(b) *Discussion.* The importance of developing regional systems of care for maternal and perinatal health services has been broadly recognized. The Committee on Perinatal Health, representing the American Academy of Family Physicians, American Academy of Pediatrics, American College of Obstetricians and Gynecologists, and the American Medical Association issued a report in 1976, "Toward Improving the Outcome of Pregnancy." The report identified opportunities to reduce rates of maternal, fetal, and neonatal mortality as well as to improve deployment of scarce resources, especially those needed to provide comprehensive services for high-risk patients. The impact on quality of care of both under-utilization and over-utilization was emphasized.

The report states: "A systematized, cohesive regional network including a number of differentiated resources is the approach most likely to achieve the objective. Each component of the regional system must provide the highest quality care, but the degree of complexity of patient needs determines where, and by whom, the care should be provided." Level I hospitals provide services primarily for uncomplicated maternity and newborn cases.

Level II hospitals provide services for uncomplicated cases and for the majority of complicated problems, and certain neonatal services. Level III hospitals are able also to handle all the serious types of illness and abnormalities. Established arrangements should provide for early access of high-risk pregnant women and prompt referrals among levels of care as appropriate. Regional planning should include a cooperative, coordinated network of hospitals, physicians and other health care professionals, providing (1) expert consultation and referral (2) basic and continuing education for health professionals and consumers, (3) transport of selected patients to facilities possessing more specialized maternal and neonatal services, (4) a continuing evaluation of the effectiveness and costs of regionalized programs. In 1972 the American College of Obstetrics and Gynecology identified a minimal target of 1,500 births per year for facilities in communities of 100,000 population or more to provide a full range of obstetrical services in an efficient manner. In 1974, this figure was revised: "The experience of many obstetric departments indicate that the size, equipment, services and personnel adequate to maintain a consistently high standard of ordinary obstetrical care and a reasonably economic operation generally require more than 2,000 deliveries." "Standards for Obstetrical and Gynecological Services," Committee on Professional Standards of the American College of Obstetricians and Gynecologists, 1974.) The Committee on Perinatal Health also identified the 2,000 minimum figure for facilities identified as Level II facilities. In determining the 1,500 target, the Department took into consideration these reports as well as the comments received from the public and from members of the expert advisory panel, particularly the criticism that a 2,000 target was too strict. The 1,500 level is in line with the policies of many local and State health planning agencies and can help assure more economic use of specialized resources. The Department also recognizes that there are substantial differences among facilities which provide different ranges of services and there are circumstances, such as those involving special moral and ethical preferences, which may necessitate the HSA providing an adjustment to this standard. In addition, in order to promote more economical use of resources the Department has established the 75 percent minimum occupancy rate in each obstetrical unit for Level II and III facilities. The 75 percent figure was derived from an analysis of various occupancy rate figures in a number of source documents, whose recommendations range from 50 percent to over 80 percent. The Hill-

Burton Program recommended an occupancy level for obstetrical units of at least 75 percent. The Department anticipates that institutions operating at Level II and III will usually be able to exceed this level. In keeping with the national priority set forth in Section 1502 of the Act for the consolidation and coordination of institutional health services, the consolidation of multiple, small obstetrical units with low occupancy rates should be undertaken unless such action is undesirable because of needs to assure ready access and sensitive care.

#### § 121.204 Neonatal Special Care Units.

(a) *Standard.* (1) Neonatal services should be planned on a regional basis with continuing linkages with obstetrical services.

(2) The total number of neonatal intensive and intermediate care beds should not exceed 4 per 1,000 live births per year in a defined neonatal service area. An adjustment upward may be justified when the rate of high-risk pregnancies is unusually high, based on analyses by the HSA.

(3) A single neonatal special care unit (Level II or III) should contain a minimum of 15 beds. An adjustment downward may be justified for a Level II unit when travel time to an alternate unit is a serious hardship due to geographic remoteness, based on analyses by the HSA.

(b) *Discussion.* For this standard, the Department has adopted the professionally endorsed concept of regionalization, involving various levels of care. Under this concept, Level III units are staffed and equipped for the intensive care of newborns as well as intermediate and recovery care. Level II units provide intermediate and recovery care as well as some specialized services. Level I units provide recovery care. Neonatal special care is a highly specialized service required by only a very small percentage of infants. The Department believes that four neonatal special care beds for intensive and intermediate care per thousand live births will usually be adequate to meet the needs, taking into account the incidence of high risk pregnancies, the percentage of live births requiring intensive care, and the average length of stay. ("Bed" includes incubators or other heated units for specialized care, and bassinets.) In addition, the Department has established a minimum of 15 beds per units for Levels II and III as the minimum number necessary to support economical operation for these services. Both standards are supported and recommended by the American Academy of Pediatrics. The American Academy of Pediatrics has noted that "the best care will be given to high risk and seriously ill neonates if intensive care units are developed in a few adequately qualified institutions

within a community rather than within many hospitals. Properly conducted, early transfer of these infants to a qualified unit provides better care than do attempts to maintain them in inadequate units." This regionalized approach is reflected in the minimum size standard which is designed to foster the location of specialized units in medical centers which have available special staff, equipment, and consultative services and facilities. Since perinatal centers, which include neonatal units, will serve the patient load resulting from a representative population of more than one million, a defined neonatal service area should be identified by the relevant HSAs in conjunction with the State Agency. Special attention must also be given to ensure adequate communication and transportation systems. Hospitals with such units should have agreements with other facilities to serve referred patients. The regional plan should include a structured ongoing system of review, including assessment of changes in health status indicators.

#### § 121.205 Pediatric Inpatient Services—Number of Beds.

(a) *Standard.* There should be a minimum of 20 beds in a pediatric unit in urbanized areas. An adjustment downward may be justified when travel time to an alternate unit exceeds 30 minutes for 10 percent or more of the population, based on analyses of the HSA.

(b) *Discussion.* The 1977 report of the Committee on Implications of Declining Pediatric Hospitalization Rates, for the National Research Council, states that "for a policy of housing children separately to be effective, certain minimum services and facilities are needed, thus requiring bed capacity utilization to make provision for these services and facilities economically feasible." This standard was developed by the Department in this context. Pediatric services should be planned on a regionalized basis with linkages among hospitals and other health agencies to provide comprehensive care.

A number of sources support a minimum unit size of 20 pediatric beds, including planning agencies in California, Massachusetts, Ohio, Pennsylvania, and Wisconsin. Consolidation of pediatric care in units of at least 20 beds in urbanized areas will promote the concentration of nursing and support staff with special pediatric knowledge and skills, the increased training of staff, and the provision of special treatment and other ancillary facilities which meet the special needs of children. (A pediatric inpatient unit is a specific section, ward, wing, hospital or unit devoted primarily to the care of medical and surgical patients less than 18 years old, not including spe-

cial care for infants.) The criteria of 30 minutes travel time reflects interest in ensuring that children remain close to their homes, family, and friends. Frequent visits to hospitalized children are highly desirable and can be an aid to improvement and recovery. The American Academy of Pediatrics has recommended to its State Chapters that child health plans should provide that primary care for children should be available within 30 minutes. This access standard is consistent with those of many local and State planning agencies such as those in Massachusetts, New York, Pennsylvania, and Wisconsin.

#### § 121.206 Pediatric Inpatient Services—Occupancy Rates.

(a) *Standard.* Pediatric units should maintain average annual occupancy rates related to the number of pediatric beds (exclusive of neonatal special care units) in the facility. For a facility with 20-39 pediatric beds, the average annual occupancy rate should be at least 65 percent; for a facility with 40-79 pediatric beds, the rate should be at least 70 percent; for facilities with 80 or more pediatric beds, the rate should be at least 75 percent.

(b) *Discussion.* Variable occupancy rates are designed to reflect the need for smaller units to maintain the capacity to accommodate normal day-to-day fluctuations in admissions and to set aside pediatric beds for particular ages and types of cases. Such scheduling problems are less severe in pediatric units of a greater capacity. Moreover, large units are able to sustain higher occupancy rates because they are frequently associated with regional centers which serve patients needing types of care that can be scheduled on a more flexible basis. It is not intended, of course, to encourage unnecessary admissions or stays to achieve these levels. This standard is identical to that recommended by the American Academy of Pediatrics.

#### § 121.207 Open Heart Surgery.

(a) *Standard.* (1) There should be a minimum of 200 open heart procedures performed annually, within three years after initiation, in any institution in which open heart surgery is performed for adults.

(2) There should be a minimum of 100 pediatric heart operations annually, within three years after initiation, in any institution in which pediatric open heart surgery is performed, of which at least 75 should be open heart surgery.

(3) There should be no additional open heart units initiated unless each existing unit in the health service area(s) is operating and is expected to continue to operate at a minimum of 350 open heart surgery cases per year in adult services or 130 pediatric open heart cases in pediatric services.

(b) *Discussion.* Open heart surgery for congenital and acquired heart and coronary artery disease represents a marked advance in patient care. Highly specialized open heart procedures require very costly, highly specialized manpower and facility resources. Thus, every effort should be made to limit duplication and unnecessary resources related to the performance of open heart procedures, while maintaining high quality care. Minimum case loads are essential to maintain and strengthen skills. (Open heart surgery procedures are defined as procedures which use a heart-lung by-pass machine to perform the functions of circulation during surgery.) A minimum of 200 adult open heart surgery procedures should be performed annually within an institution to maintain quality of patient care and make most efficient use of resources. This standard is based on recommendations of the Inter-Society Commission on Heart Disease Resources. In order to prevent duplication of costly resources which are not fully utilized, the opening of new units should be contingent upon existing units operating, and continuing to operate, at a level of at least 350 procedures per year. The 350 level assumes an average of 7 operations a week, a schedule that in the Department's judgment is feasible in most institutions providing these services. In units that provide services to children, lower targets are indicated because of the special needs involved. The established level for pediatric units is consistent with the recommendation of the Pediatric Cardiology Section of the American Academy of Pediatrics. In determining the utilization target of 130 pediatric open heart cases, the Department used the same ratio as for adult units. In the case of units that provide services to both adults and children, at least 200 open heart procedures should be performed, including 75 for children. Data collection and quality assessment and control activities should be part of all open heart surgery programs.

#### § 121.208 Cardiac Catheterization Unit Services.

(a) *Standard.* (1) There should be a minimum of 300 cardiac catheterizations, of which at least 200 should be intracardiac or coronary artery catheterizations, performed annually in any adult cardiac catheterization unit within three years after initiation.

(2) There should be a minimum of 150 pediatric cardiac catheterizations performed annually in any pediatric cardiac catheterization unit within three years after initiation.

(3) There should be no new cardiac catheterization units opened in any facility not performing open heart surgery.

(4) There should be no additional adult cardiac catheterization units

opened unless the number of studies per year in each existing unit in the health service area(s) is greater than 500.

(b) *Discussion.* The modern cardiac catheterization unit requires a highly skilled staff and expensive equipment. Safety and efficacy of laboratory performance requires a case load of adequate size to maintain the skill and efficiency of the staff. In addition, the underutilized unit represents a less efficient use of an expensive resource and frequently reflects unnecessary duplication. Based on recommendations from the Inter-Society Commission on Heart Disease Resources, the Department believes that a minimum level of 300 cardiac catheterizations per year is indicated to achieve economic use of resources. Several State health planning agencies, such as New Jersey, suggested a higher minimum level and the Department will be considering whether a higher level should be established in the future. The Department has also determined the existing units should be performing more than 500 cardiac catheterizations before any new unit is opened. The 500 level is based on an average of two catheterizations a day, a rate that is in the Department's judgment readily achievable in most institutions providing these services and that will foster more effective use of current resources prior to the development of additional resources. More than 600 cardiac procedures are performed annually in some institutions. Pediatric cardiac catheterizations require special facilities and support services. Lower target numbers are presented in these cases because of the special conditions and needs of children. The established levels are consistent with the recommendations of the Section on Cardiology of the American Academy of Pediatrics and the Inter-Society Commission on Heart Disease Resources. The patient studied in the cardiac catheterization unit is frequently recommended for open heart surgery. While acceptable inter-institutional referral patterns exist in some areas, cardiac catheterization units should optimally be located within a facility in which cardiac surgery is performed.

#### § 121.209 Radiation Therapy.

(a) *Standard.* (1) A megavoltage radiation therapy unit should serve a population of at least 150,000 persons and treat at least 300 cancer cases annually, within three years after initiation.

(2) There should be no additional megavoltage units opened unless each existing megavoltage unit in the health service area(s) is performing at least 6,000 treatments per year.

(3) Adjustments downward may be justified when travel time to an alternate unit is a serious hardship due to

## PROPOSED RULES

geographic remoteness, based on analyses by the HSA.

(b) *Discussion.* While various types of radiation are indicated and used for tumors with different characteristics, megavoltage equipment is accepted as the most efficacious for treatment of deep-seated tumors. Megavoltage equipment is expensive to purchase, install, and support on a continuing basis. Every effort should thus be made to avoid unnecessary duplication of this costly resource. Established standards should provide needed treatment capabilities while preventing unnecessary duplication of radiation therapy units and underutilization of existing capacity. A unit refers to a single megavoltage machine or energy source. The most common types of units to deliver megavoltage therapy are cobalt 60 and linear accelerators. Treatments are meant to be the same as patient visits. A treatment or visit averages 2.2 fields, according to reports from the American College of Radiology. They also report that about half of new cancer patients require megavoltage radiation therapy, and that many require subsequent courses of treatment. The American College of Radiology has indicated that at least 300 cancer cases annually are a reasonable minimum loan for a megavoltage radiation therapy unit in order to maintain an efficient high quality operation. Based on the information and recommendations of the College, as well as comments received from the public and from members of the expert advisory panel which reviewed the standard, the Department has set a minimum standard of at least 300 cancer cases per unit per year. In 1974, the Department commissioned a study of the use of radiation therapy units. A committee appointed by the American College of Radiology and the American Society of Therapeutic Radiology to review that study suggested that economical operation of radiation units would call for existing units to do 5,000-8,700 treatments per year. The 7,500 level was included in the September 23, 1977, NPRM. This target would have required units to treat an average of 30 patients per day. Based on comments received from the profession and the general public, the Department has adjusted the standard downwards to 6,000 treatments per year, an average of about 25 patients per day to take into account variations in patient mix and work schedules. Since many institutions meet and exceed these targets, this standard in the Department's judgment represents an attainable, efficient level of operation. The indicated target levels are minimal and should generally be exceeded. Special purpose and extra high energy machines which have limited but important applications may not perform 6,000 treat-

ments per year and should be evaluated individually by HSAs in the development of Health Systems Plans.

#### § 121.210 Computed Tomographic Scanners.

(a) *Standard.* (1) A Computed Tomographic Scanner (head and body) should operate at a minimum of 2,500 medically necessary patient procedures per year.

(2) There should be no additional scanners approved unless each existing scanner in the health service area is performing at a rate greater than 2,500 medically necessary patient procedures per year.

(3) There should be no additional scanners approved unless the operators of the proposed equipment will set in place data collection and utilization review systems.

(b) *Discussion.* Because CT scanners are expensive to purchase, maintain and staff, every effort must be made to contain costs while providing an acceptable level of service. Full and appropriate utilization of all existing units, regardless of location, will prevent needless duplication and limit unnecessary increases in health care costs. Estimates and surveys for full utilization of CT scanners range from 1,800 to over 4,000 patient procedures a year. (One patient procedure includes, during a single visit, the initial scan plus any necessary additional scans of the same anatomical region.) The Institute of Medicine, the Office of Technology Assessment and others have carefully reviewed these data and the capabilities of various available units.

The Department has reviewed these analyses as well as the extensive literature that has been developed on CT scanners. In arriving at a standard for the minimum use of these machines, the Department has considered a variety of factors, including the difference in time required for head scans and body scans, variations in patient mix, the special needs of children, time required for maintenance, and staffing requirements. Moreover, the Department considered the actual operating experience of hospitals and institutions reflected in reports on the use of CT scanners. The standard set in the Department's guidelines is intended to assure effective utilization and reasonable cost for CT scanning. These machines are expensive, and therefore must be fully used if excessive costs are to be limited. The Department recognizes that the cost of some machines is declining, particularly those that perform only head scans which require less time. For machines that do predominantly head scans, the standard represents an extremely minimum level appropriate to insure efficient and effective utilization.

For scanners capable of performing both head and body scans, it is impera-

tive that they be effectively used in order to spread the high capital expenditures over as much operating time as possible. As the Institute of Medicine report stated, "The high fixed costs of operating a scanner argue for as high a volume of use as the equipment allows without jeopardizing the quality of care." The Department believes that a 50-55 hour operating week both is consistent with the actual operating experience of many hospitals, and also a reasonable target. Based on reported experience for the time required for both head scans and body scans, the Department estimated that a patient mix of about 60 percent head scans and about 40 percent body scans, making allowance for the other factors identified above, would allow a CT scanner to perform about 2,500 patient procedures per year if it is efficiently used about 50-55 hours per week. This estimate assumes a higher percent of body scans than is currently being performed. If fewer than 40 percent body scans are performed, then 2,500 patient procedures would involve even less than 50-55 hours per week. Basing the standard on a higher percentage of body scans also takes account of current trends toward increased proportions of such scans.

The Department believes that sharing arrangements in the use of CT scanners is desirable, in line with the national health priorities of section 1502. Individual institutions or providers should not acquire new machines until existing capacity is being well utilized. In planning for CT scanners, the HSA should take into consideration special circumstances such as: (1) An institution with more than one scanner where the combined average annual number of procedures is greater than 2,500 per scanner although the unit doing primarily body scans is operating at less than 2,500 patient procedures per year; (2) units which are or will be operating a significant portion of the time under collaborative fixed protocol clinical trials, and (3) units which are, or will be, servicing predominantly seriously sick or pediatric patients. A summary of the data collected on CT scanners should be submitted by the operators to the appropriate HSA to enable it to adequately plan the distribution and use of CT scanners in the area. The data to be collected should include information on utilization and a description of the operations of a utilization review program.

#### § 121.211 End-Stage Renal Disease (ESRD).

(a) *Standard.* The Health Systems Plans established by HSAs should be consistent with standards and procedures contained in the DHEW regulations governing conditions for cover-

## PROPOSED RULES

age of suppliers of end-stage renal disease services, 20 CFR Part 405, Subpart U.

(b) *Discussion.* The ESRD Program was created pursuant to Section 2991 of the Social Security Amendments of 1972 (Pub. L. 92-603), which extends Medicare benefits to any individual who has end-stage renal disease requiring dialysis or transplantation, provided that such individual: (1) Is fully or currently insured or entitled to monthly benefits under Title II of the Social Security Act; or (2) is the spouse or dependent child of an individual so insured or entitled to such monthly benefits. In order for an ESRD facility to qualify for reimbursement under the program, the facility must meet the conditions for coverage of suppliers of end-stage renal disease services as established by

regulation. These conditions incorporate standards which relate to the supply, distribution, and organization of ESRD facilities. The standards were developed by the Department of Health, Education, and Welfare and were based on extensive consultation with professionals and other persons knowledgeable in the areas of nephrology and transplant surgery. Because these standards are already published as regulations, they are not republished here. The regulations do not try to encourage any particular type of dialysis setting. It is widely recognized that self-care dialysis can significantly contain costs without impairing the quality of care of the suitably chosen patient. The organization of resources to support self-care dialysis is therefore encouraged to the maximum extent practicable.

## highlights

SUNSHINE ACT MEETINGS ..... 3238

### AMERICAN HEART MONTH

Presidential proclamation ..... 3071

### EXECUTIVE SCHEDULE

Executive order placing certain positions in Level IV ..... 3073

### CHILD ABUSE AND NEGLECT

HEW/HDSO announces research and demonstration priorities for the 1978 Fiscal Year; comments 3-24-78 (Part II of this issue) ..... 3242

### STATE MEDICAID FRAUD CONTROL UNITS

HEW/HCFR sets forth the terms and conditions to prevent fraud and abuse in the State Medicaid programs; effective 1-23-78 ..... 3118

### RURAL HOUSING LOAN PROGRAMS

USDA/FMHA amends thermal performance standards; effective 3-15-78 ..... 3075

### LOCAL DEVELOPMENT COMPANY LOANS

SBA proposes to establish administrative ceilings on dollar amounts of loans and to waive them in exceptional cases; comments by 2-22-78 ..... 3130

### INCOME TAX

Treasury/IRS issues regulations relating to the reserves for losses on loans of banks ..... 3107

### SECOND AND THIRD CLASS PACKAGES

Postal Service amends regulations on use of labels; effective 2-22-78 ..... 3118

### SHORT SUPPLY CONTROLS

Commerce/ITA proposes to exempt agriculture commodities from quantitative limitations on export; comments by 2-28-78.. 3134

### MEAT INSPECTION

USDA/FSQS proposes to add marking and grading requirements and to revise standards for grades of meat; comments by 5-1-78 (2 documents) ..... 3140, 3145

### PRODUCTION, IMPORTATION AND DEALING OF CERTAIN ALCOHOLIC BEVERAGES

Treasury/ATF proposes to increase the required time period for retention of records; comments by 3-24-78 ..... 3137

### AUTOMOTIVE FUEL ECONOMY PROGRAM

DOT/NHTSA transmits second annual report to Congress reviewing progress made in formulating average automotive fuel economy standards ..... 3189

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

**ATTENTION:** For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

**federal register**  
Area Code 202  
Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

FEDERAL REGISTER, VOL. 43, NO. 15—MONDAY, JANUARY 23, 1978

Rules

Air carriers certification and operations; repairs:  
Operations review program; use of repairs data ..... 3084

Airworthiness directives:  
Hawker Siddeley ..... 3080  
McDonnell Douglas ..... 3078  
Piper ..... 3079

Control zone and transition area:  
Control zones ..... 3081  
Designation of transition area:  
Jet routes and VOR Federal airways; correction ..... 3083  
Restricted areas ..... 3083  
Sioux Center Iowa ..... 3082  
Transition areas ..... 3080

Proposed Rules  
Airworthiness directives:  
Boeing ..... 3130  
Hawker Siddeley (2 documents) ..... 3131, 3132  
McDonnell Douglas ..... 3131  
Transition areas (2 documents).. 3133, 3134

Notices  
Organization and functions:  
Combined station/tower, Battle Creek Mich.; decommissioning ..... 3189  
Control tower, Montoursville, Pa.; reduction of hours; cancellation ..... 3189

FEDERAL COMMUNICATIONS COMMISSION

Notices  
Hearings, etc.:  
Independent Music Broadcasters, Inc ..... 3175

FEDERAL ENERGY REGULATORY COMMISSION

Notices  
Hearings, etc.:  
Capital Cities Media, Inc. et al.. 3159  
Cities Service Gas Co ..... 3159  
Consolidated Gas Supply Corp. (2 documents) ..... 3160  
Continental Oil Co ..... 3161  
Duke Power Co ..... 3162  
Florida Power & Light Co ..... 3162  
Good Hope Refineries, Inc. .... 3162  
Gulf Oil Corp ..... 3163  
High Island Offshore System. 3163  
Iowa Public Service Co ..... 3163  
Ladd Petroleum Corp ..... 3164  
Lawrence Hydroelectric Associates ..... 3164  
Michigan Wisconsin Pipe Line Co ..... 3165  
Mid Louisiana Gas Co ..... 3166  
Mississippi Power Co ..... 3166  
Montana Power Co ..... 3166  
Montana Electric Co ..... 3167  
Natural Gas Pipeline Co. of America (2 documents) ..... 3167  
New England Power Co ..... 3169  
Northern Natural Gas Co ..... 3168  
Pacific Gas & Electric Co ..... 3170

## CONTENTS

Potomac Edison Co ..... 3171  
Public Service Co. of Indiana, Inc ..... 3171  
Southern Natural Gas Co ..... 3171  
Tennessee Gas Pipeline Co .... 3172  
Tucson Gas & Electric Co ..... 3173  
Wisconsin Electric Power Co . 3173

FEDERAL INSURANCE ADMINISTRATION

Rules  
Flood Insurance Program, National:  
Communities eligible for sale of insurance ..... 3090  
Special hazard areas ..... 3091

FEDERAL RAILROAD ADMINISTRATION

Rules  
Employee hours of service:  
Record keeping and reporting regulations, etc. .... 3122

FEDERAL RESERVE SYSTEM

Notices  
Applications, etc.:  
Republic of Texas Corp ..... 3175

FEDERAL TRADE COMMISSION

Rules  
Procedures and practice rules:  
Adjudicative and nonadjudicative proceedings; consent settlements; disclosure of information ..... 3088  
Prohibited trade practices:

## Title 3—The President

PROCLAMATION 4546

## American Heart Month, 1978

*By the President of the United States of America*

## A Proclamation

Diseases of the heart and blood vessels afflict some thirty million Americans. Each year cardiovascular disorders claim nearly one million lives and cost our economy nearly forty-eight billion dollars in lost wages, lost productivity, and medical expenses.

Since 1948, a concerted national effort has been under way to reduce illness, disability, and death from heart and blood vessel diseases through nationwide programs of biomedical research in the cardiovascular field, training of research workers and clinicians, information and education programs for health professionals and for the general public, and community service activities concerned with prevention, detection, and control of cardiovascular disorders.

These efforts have been spearheaded by the National Heart, Lung, and Blood Institute, a federal agency, and the American Heart Association, a voluntary health organization supported through private contributions. Since 1948, their combined outlay in support of the national battle against cardiovascular diseases has totaled nearly three billion dollars.

During these thirty years, an immense amount of new knowledge about the cardiovascular system and its diseases has been amassed and much of it has found application in better methods of prevention, diagnosis, and treatment. In addition, many Americans have modified their diets, established sensible and regular exercise programs, changed their smoking habits, or have otherwise altered their lifestyles to achieve better cardiovascular health. As a result, mortality rates have declined steadily since 1950 in nearly all major cardiovascular disease categories and the total number of deaths among Americans from these diseases is the lowest it has been since 1965.

But these encouraging results are no excuse for complacency. On the contrary, they show that it is only through sustained dedication and cooperation among public officials, community leaders, private institutions, and the American people that we have any chance of controlling this threat to the health of our Nation.

Recognizing the need for all Americans to join forces in the battle against cardiovascular disease, the Congress, by joint resolution approved December 30, 1963 (77 Stat. 843; 36 U.S.C. 169b) has requested the President to issue annually a proclamation designating February as American Heart Month.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, do hereby proclaim the month of February, 1978, as American Heart Month. I invite the Governors of the States, the appropriate officials of all other areas subject to the jurisdiction of the United States and the Ameri-

THE PRESIDENT

can people to join with me in reaffirming our commitment to the search for new ways to prevent, detect and control cardiovascular disease in all its forms.

IN WITNESS WHEREOF, I have hereunto set my hand this nineteenth day of January, in the year of our Lord nineteen hundred seventy-eight, and of the Independence of the United States of America the two hundred and second.

[FR Doc. 78-2068 Filed 1-20-78; 12:17 pm]

THE PRESIDENT

3073

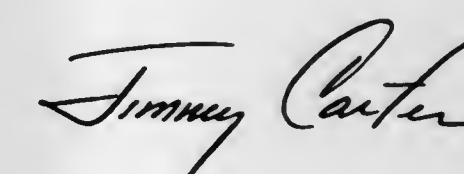

[3195-01]

Executive Order 12035

January 20, 1978

Relating to Certain Positions in Level IV of the Executive Schedule

By virtue of the authority vested in me by Section 5317 of Title 5 of the United States Code, and as President of the United States of America, Section 1 of Executive Order No. 11861, as amended, placing certain positions in Level IV of the Executive Schedule, is further amended by deleting "Adviser to the Secretary (Counselor, Economic Policy Board), Department of the Treasury" in subsection (13) and inserting in lieu thereof "Assistant Secretary (Enforcement and Operations), Department of the Treasury".

THE WHITE HOUSE,  
January 20, 1978.

[FR Doc. 78-2069 Filed 1-20-78; 12:18 pm]

## rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[3410-07]

Title 7—Agriculture

### CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

[FmHA Instruction 424.1]

#### PART 1804—PLANNING AND PERFORMING DEVELOPMENT WORK

##### Subpart A—Planning and Performing Development Work

##### THERMAL PERFORMANCE STANDARDS

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration amends its regulation concerning thermal performance standards. This action is necessary for clarification to correct several typographical errors which appeared in the initial publication of the regulation, and to refer to Appendix D. The intended effect is to clarify the document by answering the public questions caused by the errors in typing.

EFFECTIVE DATE: March 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Daniel J. Ball, 202-447-3394.

##### SUPPLEMENTARY INFORMATION:

1. Introduction; 2. Determination of Allowable U Values; 3. Insulation of Basement Walls; 4. Vapor Barriers.

##### 1. INTRODUCTION

On Tuesday, October 25, 1977, at page 56444, the Farmers Home Administration published a new Appendix D to Subpart A, Part 1804, Chapter XVIII, Title 7, Code of Federal Regulations. This publication inadvertently omitted a change to § 1804.3(d)(1), contained a paragraph which does not read as intended, several references to standards and testing methods were incorrectly noted and a reference to Appendix D was omitted. In addition, several persons who have commented on the standards have pointed out items which require additional clarification for proper implementation at the field office level. This amendment applies to new construction approved or conditional commitments issued after the effective date.

##### 2. DETERMINATION OF ALLOWABLE U VALUES

Several comments questioned the manner in which U values were to be calculated, i.e., through the cavity or with framing corrections and to what degree of precision the required values were to be interpreted. The regulation has been amended to indicate that U values do not include framing corrections and that values calculated for component sections may be rounded using standard mathematical techniques.

##### 3. INSULATION OF BASEMENT WALLS

Several FmHA field offices have indicated that clarification is necessary as to the requirements for basement walls. After consultation with other government agencies and other interested persons an amendment has been developed to clarify the requirements. These requirements state the U value of the wall section, the applicable area and the required value for glazing.

##### 4. VAPOR BARRIERS

In the FEDERAL REGISTER Publication of Exhibit D, on October 25, 1977, paragraph III D 3 a was not phrased correctly. In addition, several interested persons have submitted data concerning the relative efficiency of various vapor barriers in conjunction with a variety of other structural materials. After a review of this data and consultation with other government agencies it has been determined that an amendment is required.

1. As amended, § 1804.3(d)(1) reads as follows:

##### § 1804.3 Planning development

(d) Construction. (1) All new buildings to be constructed and all alterations and repairs to buildings will be planned to conform with good construction practices. All improvements to the property will conform to applicable laws, ordinances, codes, regulations which relate to safety and the sanitation of buildings and Appendix D of this subpart, which supercedes the applicable MPS as related to thermal performance standards.

2. As amended, Appendix D to Subpart A of Part 1804 reads as follows:

(Effective on March 15, 1978; FmHA Instruction 424.1)

##### EXHIBIT

UNITED STATES DEPARTMENT OF AGRICULTURE  
(FARMERS HOME ADMINISTRATION)

##### Construction Standards

I. Purpose: This exhibit prescribes construction standards to be used in all Rural Housing (RH) loan and grant programs. These requirements shall supercede those listed in the Minimum Property Standards (MPS) No. 4900.1, "One and Two Family Dwellings," and 4910.1, "Multifamily Housing," as applicable.

II. Policy: Construction commencing, all applications for new construction approved, or conditional commitments issued after the effective date of this exhibit shall have drawings and specifications prepared to comply with paragraph III A or III C and III D of this exhibit. All existing dwellings to be bought with RH loan funds shall be considered in accordance with paragraph III B or III C of this exhibit.

III. Minimum Requirements: A. All dwellings, single family or multifamily to be constructed with RH loan and grant funds shall comply with the following:

##### NEW CONSTRUCTION

MAXIMUM U VALUES FOR CEILING, WALL AND FLOOR SECTION OF VARIOUS CONSTRUCTION

NOTE.—U values are not adjusted for framing; values calculated for components may be rounded.

Winter Degree Days (Base 1)	Floors (Base 1)	Walls (Base 1)	Floors (Base 2)	Walls (Base 2)	Roofs (Base 1)
1000	.05	.05	.05	1.0	—
2000	.05	.05	.05	1.0	—
3000	.05	.05	.05	1.0	—
4000	.05	.05	.05	1.0	—
5000	.05	.05	.05	1.0	—
6000	.05	.05	.05	1.0	—
7000	.05	.05	.05	1.0	—
8000	.05	.05	.05	1.0	—
9000	.05	.05	.05	1.0	—
10000	.05	.05	.05	1.0	—

Winter Degree Days (Base 1)	Minimum U Value (2)	Minimum U Value (3)
1000 or less	2.0	—
1000	1.5	—
2000	1.0	2.5
3000	1.0	2.5
4000	1.0	2.5
5000	1.0	2.5
6000	1.0	2.5
7000	1.0	2.5
8000	1.0	2.5
9000	1.0	2.5
10000 or greater	1.0	2.5

# RULES AND REGULATIONS

NOTE.—\*(1) For increments between degree days shown, U values may be interpolated.

NOTE 1.—Winter degree days may be obtained from the ASHRAE Guide; the "NAHB Insulation Manual for Homes Apartments"; local utilities; and the National Climatic Center, Federal Building, Asheville, N.C.

Manuals are available from NAHB RF, Rockville, Md. 20850, or NMWIA, 382 Springfield Avenue, Summit, N.J. 07901.

Other sources of degree day data may be used if available from a recognized authority.

NOTE 2.—For floors of heated spaces over unheated basements, unheated garages or unheated crawl spaces the U value of floor section shall not exceed the value shown.

A basement, crawl space or garage shall be considered unheated unless it is provided with a positive heat supply to maintain a minimum temperature of 50° F. Positive heat supply is defined by ASHRAE as "heat supplied to a space by design or by heat losses occurring from energy-consuming systems or components associated with that space."

Where the walls of an unheated basement or crawl space are insulated in lieu of floor insulation, the total heat loss attributed to the floor from the heated area shall not exceed the heat loss calculated for floors with required insulation.

Insulation may be omitted from floors over heated basement areas or heated crawl spaces if foundation walls are insulated. The U value of foundation wall sections shall not exceed the value shown. This requirement shall include all foundation wall area, including header joist (band joist), to a point 50 percent of the distance from finish grade to the basement floor level.

Maximum U Values of the Foundation Wall Sections of Heated Basement not Containing Habitable Living Area or Heated Crawl Space.

Winter Degree Days (65° F Base)	Maximum U Value	Glazing
2500 or less	No Requirement	1.11
2501 to 4500	0.17	1.11
4501 or more	0.10	.69

\*NOTE.—Glazing in heated basement shall be limited to 5 percent of floor area unless alternative U<sub>o</sub> combination is documented.

NOTE 3.—1½ inch metal faced door systems with rigid insulation core and durable weatherstripping providing a "U" value equivalent to a wood door with storm door and an infiltration rate no greater than .50 cfm per foot of crack length tested according to ASTM E-283 at 1.567 psf of air pressure, may be substituted for a conventional door and storm door. All doors shall be weatherstripped.

B. All existing dwellings to be purchased with RH loan and grant funds shall be insulated in accordance with the following:

## EXISTING CONSTRUCTION

MAXIMUM U VALUES FOR CEILING, WALL AND FLOOR SECTIONS OF VARIOUS CONSTRUCTION

NOTE.—U values are not adjusted for framing; values calculated for components may be rounded.

Winter Degree Days (65° F Base)	Walls (Note 1)	Walls (Note 2)	Floors (Note 3)	Glazing (Note 4)	Attic (Note 5)
2500 or less	.05	.08	.08	1.11	—
2501 to 4500	.05	.08	.08	1.11	—
4501 or more	.05	.08	.08	.69	—

NOTE 1.—Winter degree days may be obtained from the ASHRAE Guide; the "NAHB Insulation Manual for Homes Apartments"; local utilities; and the National Climatic Center, Federal Building, Asheville, N.C.

Manuals are available from NAHB RF, Rockville, Md. 20850, or NMWIA, 382 Springfield Avenue, Summit, N.J. 07901.

Other sources of degree day data may be used if available from a recognized authority.

NOTE 2.—Walls shall be insulated as near to new construction standards as economically feasible. Any exterior wall framing exposed during repair or rehabilitation work shall have vapor barrier installed and be fully insulated.

NOTE 3.—For floors of heated spaces over unheated basements, unheated garages or unheated crawl spaces the U value of floor section shall not exceed the value shown.

A basement, crawl space or garage shall be considered unheated unless it is provided with a positive heat supply to maintain a minimum temperature of 50° F. Positive heat supply is defined by ASHRAE as "heat supplied to a space by design or by heat losses occurring from energy-consuming systems or components associated with that space."

Where the walls of an unheated basement or crawl space are insulated in lieu of floor insulation, the total loss attributed to the floor from the heated area shall not exceed the heat loss calculated for floors with required insulation.

Insulation may be omitted from floors over heated basement areas or heated crawl spaces if foundation walls are insulated. The U value of foundation wall sections shall not exceed the value shown. This requirement shall include all foundation wall area, including header joist (band joist), to a point 50 percent of the distance from finish grade to the basement floor level.

Maximum U Values of the Foundation Wall Sections of Heated Basement not Containing Habitable Living Area or Heated Crawl Space.

Winter Degree Days (65° F Base)	Maximum U Value	Glazing
2500 or less	No Requirement	1.11
2501 to 4500	0.17	1.11
4501 or more	0.10	.69

\*NOTE.—Glazing in heated basement shall be limited to 5 percent of floor area unless alternative U<sub>o</sub> combination is documented.

NOTE 4.—Slab edge insulation should be provided wherever practical in areas of 2,500 or more winter degree days. Rigid insulation placed on the exterior face of the slab shall be protected by a durable and weather resistant material.

NOTE 5.—Storm doors not required for double doors, sliding doors or others where installation would be economically infeasible. 1½ inch metal faced door systems with rigid insulation core and durable weatherstripping providing a "U" value equivalent to a wood door with storm door and an infiltration rate no greater than .50 cfm per foot of crack length, tested according to ASTM E-283 at 1.567 psf of air pressure, may be substituted for a conventional door and storm door. All doors shall be weatherstripped.

C. Optional Standards. Housing designs not in compliance with the requirements of paragraphs III A or III B of this exhibit may be approved in accordance with the provisions of this paragraph. Requests for acceptance proposed under paragraph C 1 which will be marketed solely within the jurisdictional area of one FmHA State Office may be approved by the State Director. Requests for acceptance proposed under paragraph C 1 which will be marketed within the jurisdictional areas of two or more FmHA State Offices and all requests for acceptance under paragraph C 2 may be approved by the Administrator.

All submissions of proposed options to the State Director or Administrator shall contain complete engineering data and calculations to document the validity of the proposal. All data and calculations will be based upon the current edition of the ASHRAE Handbook of Fundamentals or other universally accepted data sources.

1. Overall "U" values for envelope components. The following requirements shall be used in determining acceptable options to the requirements of paragraphs III A and III B.

a. U<sub>o</sub> (gross wall)—Total exterior wall area (opaque wall and window and door) shall have a combined thermal transmittance value (U<sub>o</sub> value) not to exceed the values shown in Figure 1. Equation 1 shall be used to determine acceptable combinations to meet the requirements of Figure 1.

ANNUAL FAHRENHEIT HEATING DEGREE DAYS (65° F BASE) (IN THOUSANDS)

EQUATION 1 FORMULA FOR DETERMINING COMBINATIONS (SEE FIG. 1)

$$U_o = U_{wall} A_{wall} + U_{window} A_{window} + U_{door} A_{door} / A_o$$

Where:

U<sub>o</sub> = the average thermal transmittance of the gross wall area, Btu/h-ft<sup>2</sup>-F (W/m<sup>2</sup>-K).

A<sub>o</sub> = the gross area of exterior walls, ft<sup>2</sup> (m<sup>2</sup>) of heated living areas.

U<sub>wall</sub> = the thermal transmittance of all elements of the opaque wall area, Btu/h-ft<sup>2</sup>-F (W/m<sup>2</sup>-K) of heated living areas.

A<sub>wall</sub> = opaque wall area, ft<sup>2</sup> (m<sup>2</sup>) of heated living areas.

U<sub>window</sub> = the thermal transmittance of the window area, Btu/h-ft<sup>2</sup>-F (W/m<sup>2</sup>-K).

A<sub>window</sub> = window area (including sash) ft<sup>2</sup> (m<sup>2</sup>).

U<sub>door</sub> = the thermal transmittance of the door area, Btu/h-ft<sup>2</sup>-F (W/m<sup>2</sup>-K).

A<sub>door</sub> = door area, ft<sup>2</sup> (m<sup>2</sup>).

NOTE.—Where more than one type of wall, window and/or door is used, the U x A term for that exposure shall be expanded into its sub-elements, as:

$$U_{wall} A_{wall} + U_{wall} A_{wall}, \text{ etc.}$$

b. U<sub>o</sub> (gross ceiling)—Total ceiling area (opaque ceiling and skylights) shall have a combined thermal transmittance value (U<sub>o</sub> value) not to exceed the values shown in Figure 2. Equation 2 shall be used to determine acceptable combinations to meet the requirements of Figure 2.

EQUATION 2 FORMULA FOR DETERMINING ROOF/CEILING COMBINATIONS

$$U_o = U_{roof} A_{roof} + U_{skylight} A_{skylight} / A_o$$

# RULES AND REGULATIONS

Where:

U<sub>o</sub> = the average thermal transmittance of the gross roof/ceiling area, Btu/h-ft<sup>2</sup>-F (W/m<sup>2</sup>-K).

A<sub>o</sub> = the gross area of a roof/ceiling assembly, ft<sup>2</sup> (m<sup>2</sup>).

U<sub>roof</sub> = the thermal transmittance of all elements of the opaque roof/ceiling area, Btu/h-ft<sup>2</sup>-F (W/m<sup>2</sup>-K).

A<sub>roof</sub> = opaque roof/ceiling area, ft<sup>2</sup> (m<sup>2</sup>).

U<sub>skylight</sub> = skylight area (including frame) ft<sup>2</sup> (m<sup>2</sup>).

NOTE.—Where more than one type of roof/ceiling and/or skylight is used, the U x A term for that exposure shall be expanded into its sub-elements, as:

$$U_{roof} A_{roof} + U_{roof} A_{roof}, \text{ etc.}$$

c. U<sub>o</sub> (gross floor)—Reserved.

2. Overall structure performance. The following requirements shall be used in determining acceptable options to the requirements of paragraphs III A and III B:

a. The methodology must be cost effective to the energy user.

b. The methodology must not adversely affect the structural capacity, durability or safety aspects of the structure.

c. All data and calculations must show valid performance comparisons between the proposed option and a structure comparable in size, configuration, orientation and occupant usage designed in accordance with paragraph III A or III B. Structures may be considered for FmHA loan consideration which can be shown by accepted engineering practice to have energy consumption equal to or less than those which would be attained in a representative structure utilizing the requirements of paragraphs III A or III B.

D. Energy efficient construction practices. This section prescribes those items of design and quality control which are necessary to guarantee the energy efficiency of homes built according to the standards of this exhibit. Also included are recommendations for extra energy efficiency in homes.

1. Infiltration: a. Requirements: All construction shall be performed in such a manner as to provide a building envelope free of excessive infiltration.

(1) Caulking and sealants. Exterior joints around windows and door frames, between wall cavities and window or door frames, between wall and foundation, between wall and roof, between wall panels, at penetrations of utility services through walls, floors and roofs, and all other openings in the exterior envelope shall be caulked, gasketed, weatherstripped, or otherwise sealed. Caulking shall be silicone rubber base or butyl rubber base, conforming to Federal Specifications TT-S-1543 and TT-S-1657 respectively, or materials demonstrating equivalent performance in resilience and durability.

(2) Windows shall comply with ANSI 134.1, NWMA I.S.2.; the air infiltration rate shall not exceed 0.5 ft<sup>3</sup>/min per ft. of sash crack.

(3) Sliding glass doors shall comply with ANSI 134.2, NWMA I.S.3.; the air infiltration rate shall not exceed .5 ft<sup>3</sup>/min per square ft. of door area.

(4) All insulation placed in open cavity walls shall be installed so that all spaces

behind electrical switches and receptacles, plumbing, ductwork and other obstructions in the cavity are insulated as completely as possible. Insulation shall be omitted on the side facing the conditioned area.

Recommendations: Wrap outside corners of wall sheathing with 15 lb. asphalt impregnated building felt before siding application.

(2) Utilize vestibules for entry doors, especially those facing into the direction of winter wind.

(3) In design of the home, place plumbing, mechanical and electrical in interior partitions as much as possible.

2. Heating and/or Cooling Equipment: a. Requirements: All mechanical equipment for heating and/or cooling habitable space shall be designed to provide economy of operation.

(1) All space heating equipment (including fireplaces) requiring combustion air shall be sealed combustion types, or be located in a nonconditioned area or adequate combustion air must be provided from outside the conditioned space.

(2) All ductwork shall be designed and installed so as to minimize leakage. All metal to metal connections shall be mechanically joined and taped.

b. Recommendations: (1) Wherever possible, locate ductwork inside of conditioned areas in dropped ceilings, interior partitions or other similar areas.

(2) Locate outside cooling units in areas not subject to direct sunlight or heat build-up.

3. Vapor Barrier: a. Requirements: Adequate vapor barriers must be provided adjacent to the interior finish material of the wall.

(1) A vapor barrier at the inside of the envelope component must have a perm rating less than that of any other material in that component and in no case have a perm rating greater than one. All vapor barriers must be sealed around all openings in the interior surface.

(2) All vapor producing or exhausting equipment shall be ducted to the outside and be equipped with dampers.

B. Arrange plantings with evergreen wind buffers on north side and deciduous trees on south.

C. Wherever possible, orient entry door away from winter winds.

D. Design house with simple shape to minimize exterior wall area.

E. Minimize glass areas within constraints of required light and ventilation, applicable safety codes and other appropriate considerations.

F. Minimize the amount of paved surface adjacent to the structure where heat gain is not desirable.

NOTE.—The Farmers Home Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

(Delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70.)

Dated: January 11, 1978.

GORDON CAVANAUGH,  
Administrator, Farmers  
Home Administration.

## Title 13—Business Credit and Assistance

### CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Revision 2, Amdt. 1]

#### PART 105—STANDARDS OF CONDUCT

##### Reporting of Acts of Malfeasance, Misfeasance and Other Irregularities

AGENCY: Small Business Administration.

ACTION: Final rule.

SUMMARY: (i) The Agency is amending SBA's Standards of Conduct Regulations to provide that all acts of malfeasance or misfeasance or other irregularities, either actual or suspected, arising in connection with the performance by SBA of any of its official functions will be reported only to the Director, Security and Investigations Division.

(ii) This action arose as a result of the need to centralize the reporting of suspected irregularities which primarily fall within the purview of the Security and Investigations Division.

(iii) The effect of said action will be that all acts of malfeasance or misfeasance or other irregularities, either actual or suspected, arising in connection with the performance by SBA of any of its official functions will be reported only to the Security and Investigations Division rather than to the Director, Office of Personnel and the Director, Security and Investigations Division.

EFFECTIVE DATE: January 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Donald W. Farrell, Associate General Counsel, 1441 L Street NW., Washington, D.C. 20461, 202-653-6660.

SUPPLEMENTARY INFORMATION: Inasmuch as the amendment set forth below is a procedural change, notice of proposed rulemaking and public proceedings thereon are not required by section 553 of Title 5 of the United States Code. This amendment to Part 105 was approved by the Civil Service Commission on January 9, 1978.

Accordingly, pursuant to the authority contained in section 5 of the Small Business Act, 72 Stat. 384 (15 USC 631 et seq.) and E.O. 11222, 3 CFR 1964-65, Comp.; 5 CFR 735.104 notice is hereby given that the Small Business Administration amends § 105.515 to read as follows:

## § 105.515 Duty to report irregularities.

(a) Every employee shall immediately report to the Director, Security and Investigations Division any acts of malfeasance or misfeasance or other irregularities, either actual or suspected, arising in connection with the performance by SBA of any of its official functions.

Dated: January 17, 1978.

A. VERNON WEAVER,  
Administrator.

# [4910-13]

## Title 14—Aeronautics and Space

### CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 71-WE-28-AD;  
Amdt. 39-3126]

#### PART 39—AIRWORTHINESS DIRECTIVES

##### McDonnell Douglas Model DC-9 Series and C-9A (DC-9-32F) Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment further amends an existing AD which currently requires repetitive inspection and corrective action on DC-9 main landing gear attach fittings. This amendment revises the repetitive inspection interval from 2,500 hours or 375 days to 3,000 hours or 375 days. This amendment is required to provide operators with additional maintenance scheduling flexibility by increasing the inspection interval. This increase in inspection interval is justified by an engineering evaluation of service experience since the initial AD was issued in 1972.

EFFECTIVE DATE: January 23, 1978.  
Compliance schedule—As prescribed in body of AD.

ADDRESSES: Persons affected by this AD may obtain copies of McDonnell Douglas DC-9 Service Bulletins 57-86 and 57-88 by writing to: McDonnell Douglas Corp., 3855 Lakewood Boulevard, Long Beach, Calif. 90846. Attention: L. A. Eisenberg, C1-750, 54-60.

Also, a copy of the service bulletins may be reviewed at, or copies obtained from: Rules Docket in Room 916, FAA, 800 Independence Avenue SW., Washington, D.C. 20591, or Rules Docket in Room 6W14, FAA Western Region, 15000 Aviation Boulevard, Hawthorne, Calif. 90261.

FOR FURTHER INFORMATION CONTACT:

Jerry J. Presba, Executive Secretary,  
Airworthiness Directives Review

Board, Federal Aviation Administration, Western Region, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009, telephone 213-536-6351.

SUPPLEMENTARY INFORMATION: This amendment further amends amendment 39-1378 (37 FR 665), AD 72-23-06, as amended by amendments 39-1399 (37 FR 4702) and 39-1766 (38 FR 35299) which currently requires repetitive inspections and corrective maintenance on main landing gear attach fittings of McDonnell Douglas Model DC-9 Series airplanes. After issuing amendment 39-1766 the FAA has determined, based upon engineering evaluation and intensive service experience, that there is an adequate basis to justify increasing the repetitive inspection interval from 2,500 hours time in service or 375 days to 3,000 hours time in service or 375 days. Therefore the FAA is further amending Amendment 39-1378, as amended, by increasing the hourly element of the repetitive inspection interval specified in the AD on McDonnell Douglas Model DC-9 Series airplanes.

The FAA evaluation of the repetitive inspection interval was prompted by a petition for exemption by an operator to permit extension of the 2,500 hours time in service repetitive inspection intervals required by Paragraphs A.1.(a) and A.2.(c) of the AD. This operator desired to perform the inspections of his fleet of 35 McDonnell Douglas Model DC-9 airplanes on an annual (365 day) basis.

In support of his position, the operator stated that he had recently revised his "C" check basis from 2,000 hours, at which time the required inspections were accomplished, to an annual, or 365 day inspection interval basis. As a result of this change to the "C" check time intervals, he can meet the 375 day limitation prescribed in the AD, but will exceed the 2,500 hours time in service limitations. The petitioner further presented information on his service experience which indicates the inspection intervals are conservative.

The FAA has evaluated the fleet service experience and concurs that an increase in inspection interval is warranted. Since this finding is not limited to conditions peculiar to the petitioner's situation, the AD is being amended to reflect this change in lieu of the issuance of an exemption limited to the petitioner.

Since this amendment relieves a restriction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and good cause exists for making the amendment effective in less than 30 days.

#### DRAFTING INFORMATION

The principal authors of this document are Harry J. Irwin, Aircraft En-

gineering Division, and DeWitte T. Lawson, Jr., Office of the Regional Counsel.

#### ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Section 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by further amending Amendment 39-1378 (37 FR 665), AD 72-2-3 as amended by Amendment 39-1399 (37 FR 4702) and Amendment 39-1766 (38 FR 35299), as follows:

(1) By revising Paragraph A.1.(a) to read, in pertinent part as follows:

" \* \* \* repeat the inspections and interim anti-corrosion treatment at intervals not to exceed 3,000 hours time in service or 375 calendar days, \* \* \* "

(2) By revising Paragraph A.2.(c) to read, in pertinent part as follows:

" \* \* \* and at intervals not to exceed 3,000 hours time in service or 375 calendar days, whichever occurs earlier, inspect and treat \* \* \* "

This amendment becomes effective January 23, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Los Angeles, Calif., on January 6, 1978.

ROBERT H. STANTON,  
Director, FAA Western Region.

[FR Doc. 78-1580 Filed 1-20-78; 8:45 am]

# [4910-13]

[Docket No. 77-EA-81; Amdt. 39-3128]

#### PART 39—AIRWORTHINESS DIRECTIVES

##### Piper Aircraft

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final Rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) applicable to Piper PA-23 type aircraft. It requires an inspection of the stabilizers for cracks and other deficiencies and an alteration or replacement where necessary. The inspection arises from findings made during routine inspections which indicated other aircraft might be involved. The amendment is needed to preclude weakening of the stabilizer structure and loss of the trim tab and counter balance weight.

EFFECTIVE DATE: January 26, 1978.  
Compliance is required as set forth in

the body of the airworthiness directive.

ADDRESSES: Piper Service Bulletins may be acquired from the manufacturer at Piper Aircraft Corp., 820 East Bald Eagle Street, Lock Haven, Pa. 17745. A copy of the service bulletin is contained in the docket in the Office of Regional Counsel, FAA, Eastern Region, Jamaica, N.Y.

FOR FURTHER INFORMATION CONTACT:

C. Kallis, Airframe Section, Engineering and Manufacturing Branch, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430; telephone 212-995-2875.

SUPPLEMENTARY INFORMATION: There have been reports of cracks developing in the stabilizer structure of Piper PA-23-250 (Aztec) airplanes. The discrepancies consisted of cracks in the tip balance weight, abnormal trim tab horn bushing wear, and skin and nose rib cracks. These defects could cause weakening of the complete structure leading to loss of the trim tab and counter balance weight. The airworthiness directive requires an inspection, alteration and replacement where necessary. Since a situation exists which affects air safety, notice or public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

#### DRAFTING INFORMATION

The principal authors of this document are C. Kallis, Flight Standards Division, and Thomas C. Halloran, Esq., Office of the Regional Counsel.

It has been determined that the expected impact of the proposed regulation is so minimal that the proposal does not warrant an evaluation.

#### ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator, Section 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by adding the following new airworthiness directive:

PIPER: Applies to PA-23-250 airplanes with Serial Nos. as shown below certificated in all categories.

To prevent possible hazards in flight associated with weakening of the stabilizer, accomplish the following unless previously accomplished:

(a) The following Serial Nos. pertain to S.B. 540 dated January 4, 1977

(1) Serial Nos. 27-7654001 thru 27-7754057. Within the next 10 hours in service after the effective date of this AD, inspect both stabilizer tip tube and weight assemblies for cracks in accordance with the inspection procedures of 1. and 2. under "Instructions" on the sketch/instructions page of S.B. 540, or equivalent procedures.

(1) If cracks are present alter both tube and weight assemblies as indicated in 2.

under "Instructions" on the first page of S.B. 540 or equivalent procedures, prior to further flight.

(ii) If cracks are not present alter both tube and weight assemblies within the next 100 hours in service as indicated in 4. under "Instruction" on the first page S.B. 540, or by equivalent procedures.

(iii) For altered parts, the inspection procedures of (a)(1) must be repeated within the next 100 hours in service and thereafter at intervals not to exceed 100 hours in service from the last inspection. If cracks are present replace all cracked parts with new or equivalent parts before further flight.

(2) Serial Nos. 27-7754058 and up. Within the next 100 hours in service after the effective date of this AD and every 100 hours thereafter, inspect both stabilizer tip tube and weight assemblies for cracks in accordance with inspection procedures of 1. and 2. under "Instructions" on the sketch/instructions page S.B. 540 or equivalent procedures. If cracks are present replace all cracked parts with new or equivalent parts before further flight.

(b) The following Serial Nos. pertain to Service Bulletin 547 dated March 1, 1977

(1) Serial Nos. 27-7654001 thru 27-7754054. Within the next 50 hours in service after the effective date of this AD, inspect both stabilizer tip ribs for missing rivets and missing tube and weight assembly attachment screws and if necessary alter in accordance with S.B. 547 or equivalent procedures.

(c) The following Serial Nos. pertain to Service Bulletin 569 dated August 24, 1977

(1) Serial Nos. 27-7654001 thru 27-7754127; 27-7754130, 27-7754131, 27-7754133 thru 27-7754136; 27-7754138 thru 27-7754144. To prevent abnormal stabilizer tab horn bushing wear, within the next 50 hours in service after the effective date of this AD replace the right and left stabilizer tab forward inboard rib/horn assemblies by installing Piper Kit 761 143 or equivalent kit.

(d) The following Serial Nos. pertain to Service Letter 807A dated September 8, 1977

(1) Serial Nos. 27-7654001 thru 27-7754041 equipped with stabilizers Piper part number 15658-2, 15658-3, 15658-22 or 15658-23. Within the next 50 hours in service after the effective date of this AD, reinforce the mounting of the stabilizer tube and weight assemblies by installing additional nose-ribs by means of Piper Kit 761 141 or equivalent kit.

(e) Refer to paragraph 4-65 in the Piper PA-23-250 "Aztec" Service Manual and balance the stabilizer when the alterations in paragraphs (a), (c), or (d) of this AD are incorporated.

(f) Upon submission of substantiating data through an FAA Maintenance Inspector, the compliance times specified in this AD may be increased by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

(g) The affected airplanes may be flown in accordance with FAR 21.197 to a location where the AD compliance procedures can be accomplished.

(h) Equivalent procedures and parts must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

Effective Date: This amendment is effective January 26, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1354(a), 1421, and 1423; Sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c); and 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of a Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Jamaica, N.Y., on January 12, 1978.

L. J. CARDINALI,  
Acting Director, Eastern Region.  
(FR Doc. 78-1585 Filed 1-20-78; 8:45 am)

## [4910-13]

(Docket No. 17553; Amdt. 39-3130)

## PART 39—AIRWORTHINESS DIRECTIVES

Hawker Siddeley Aviation, Ltd. BH/HS 125-600A Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final Rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) which requires replacement of the pitot heads (L/H and R/H) on Hawker Siddeley Aviation, Ltd., Model BH/HS 125-600A airplanes. The AD is necessary to prevent possible loss of accuracy of both the pilot and co-pilot airspeed indicators, when operating in icing conditions, due to failure of the heating elements of pitot heads which could result in loss of control of an aircraft. The AD is prompted by an unusually high in-service failure rate of the heating elements of each of the two pitot heads on Hawker Siddeley Aviation, Ltd., Model BH/HS 125-600A airplanes.

EFFECTIVE DATE: February 6, 1978. Compliance is required within 10 hours time in service after the effective date of this AD, unless already accomplished.

ADDRESSES: The applicable service bulletin may be obtained from: Hawker Siddeley Aviation, Inc., Suite 206, Blake Building, 1025 Connecticut Avenue NW., Washington, D.C. 20036, telephone 202-223-9350.

A copy of the service bulletin is contained in the Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

## FOR FURTHER INFORMATION CONTACT:

D. C. Jacobsen, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Region, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, telephone 513.38.30.

SUPPLEMENTARY INFORMATION: The FAA has determined that an un-

usually high in-service failure rate of the heating element of the Aviomini pitot head on Hawker Siddeley Aviation, Ltd., Model BH/HS 125-600A airplanes could result in loss of heat to both pitot heads on these airplanes. If this were to occur during flight in icing conditions, the accuracy of both the pilot and co-pilot airspeed systems would be adversely affected. Since this condition is likely to exist or develop in other airplanes of the same type design, an AD is being issued which requires replacement of the existing pitot heads (L/H and R/H) with a new design pitot head on Hawker Siddeley Aviation, Ltd., Model BH/HS 125-600A airplanes.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

## DRAFTING INFORMATION

The principal authors of this document are F. J. Karnowski, Europe, Africa, and Middle East Region, F. Kelley, Flight Standards Service, and S. Podberesky, Office of the Chief Counsel.

## ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by adding the following new airworthiness directive:

HAWKER SIDDELEY AVIATION, LTD. Applies to Model BH/HS 125-600A airplanes certificated in all categories.

Compliance is required as indicated, unless already accomplished.

To prevent possible loss of airspeed reference to both the pilot and co-pilot due to failure of the heating elements of both pitot heads, within 10 hours time in service after the effective date of this AD, remove the Aviomini pitot heads (L/H and R/H) and replace with Rosemount Model 853 JA pitot heads in accordance with the section entitled "Accomplishment Instructions" and the associated installation drawing, both included in Hawker Siddeley Aviation, Limited Service Bulletin 34-128(2436), Revision 1, dated June 21, 1977, or an FAA-approved equivalent.

This amendment becomes effective February 6, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of a Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 16, 1978.

J. A. FERRARESE,  
Acting Director,  
Flight Standards Service.  
(FR Doc. 78-1928 Filed 1-20-78; 8:45 am)

## [4910-13]

(Airspace Docket No. 77-RM-4)

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Areas

AGENCY: Federal Aviation Administration (FAA), DOT.

AGENCY: Final rule.

SUMMARY: These amendments realign and redesignate the existing Salt Lake City and Provo, Utah, transition areas. Such action will provide additional controlled airspace for the radar vectoring of aircraft and provide controlled airspace for aircraft executing a new NDB approach procedure developed for the Michael Army Air Field, Dugway, Utah. These actions are designed to improve and provide more efficient use of the navigable airspace in and around the Salt Lake City area through more direct routings and increased fuel/time savings.

EFFECTIVE DATE: 0901 G.m.t., March 23, 1978.

## FOR FURTHER INFORMATION CONTACT:

Mr. David M. Laschinger, Operations, Procedures and Airspace Branch, Air Traffic Division, ARM-500, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colo. 80010; telephone 303-837-3937.

## SUPPLEMENTARY INFORMATION:

## HISTORY

On November 7, 1977, the FAA published for comment a notice of proposed rule making (NPRM) to realign and redesignate the existing Salt Lake City and Provo, Utah, transition areas (42 FR 57969). No objections were received in response to this notice.

## THE RULE

This amendment to Part 71 of the Federal Aviation Regulations (FARs) realigns and redesignates the transition areas at Salt Lake City and Provo, Utah.

In the notice of proposed rule making (NPRM) dated November 7, 1977, an error was made in the description of that portion of the Salt Lake City, Utah, transition area floored at 700 feet above the surface. Specifically, the words: "Thence east along latitude 41°00'00" N. to the point of begin-

ning," were omitted immediately following that portion of the proposed description which reads: "Thence north along longitude 112°22'00" W., to latitude 44°00'00" N." The following rule corrects this error.

## DRAFTING INFORMATION

The principal authors of this document are Mr. David M. Laschinger, Operations, Procedures and Airspace Branch, Air Traffic Division, and Mr. Daniel J. Peterson, Office of Regional Counsel.

## ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended effective 0901 G.m.t., March 23, 1978, as follows:

By amending Subpart G, section 71.181 as follows:

1. Redesignate the Salt Lake City, Utah, transition area as follows:

## SALT LAKE CITY, UTAH

That airspace extending upward from 700 feet above the surface bounded by a line beginning at latitude 41°00'00" N., longitude 111°45'00" W., thence south along longitude 111°45'00" W. to latitude 40°22'30" N., thence southeast to latitude 40°10'20" N., longitude 111°35'00" W., thence southwest to latitude 40°03'30" N., longitude 111°48'30" W., thence northwest to latitude 40°43'00" N., longitude 112°22'00" W., thence north along longitude 112°22'00" W. to latitude 41°00'00" N., thence east along latitude 41°00'00" N. to the point of beginning; that airspace extending upward from 1,200 feet above the surface bounded on the north by latitude 41°00'00" N., on the east by longitude 111°25'30" W., on the south by latitude 39°56'30" N., and on the west by the east edge of R-6402 and longitude 113°00'00" W.; that airspace east of Salt Lake City extending upward from 11,000 feet M.S.L. bounded on the northwest by the southeast edge of V-32, on the southeast by the northwest edge of V-235, on the southwest by the northeast edge of V-101 and on the west by longitude 111°25'30" W.; and that airspace southeast of Salt Lake City extending upward from 13,500 feet M.S.L. bounded on the northeast by the southwest edge of V-484, on the south by the north edge of V-200 and on the west by longitude 111°25'30" W.; excluding the portion within Restricted Area R-6403 and the Bonneville, Utah, transition area.

2. Cancel the Provo, Utah, transition area in its entirety.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of a Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Aurora, Colo., on January 11, 1978.

M. M. MARTIN,  
Director, Rocky Mountain Region.

## [4910-13]

(Airspace Docket No. 77-GL-31)

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration to Control Zone and Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this Federal action is to alter controlled airspace near Sault Ste. Marie, Mich., to accommodate the transfer of aircraft operating from the existing Sault Ste. Marie Municipal Airport to the new Chippewa County Airport (formerly Kincheloe AFB).

EFFECTIVE DATE: March 23, 1978.

## FOR FURTHER INFORMATION CONTACT:

Doyle Hegland, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Ill. 60018, telephone 312-694-4500, extension 456.

SUPPLEMENTARY INFORMATION: On August 22, 1977, a notice to airmen was issued stating that effective September 1, 1977, the Sault Ste. Marie, Mich. (Kincheloe AFB), control zone would be decommissioned. The intended effect of the notice was to advise the public that, by reason of the closure of Kincheloe AFB, the control zone would not be effective until further notice. The airport at the former Air Force Base is being transferred to Chippewa County, Mich., and will become the new Municipal Airport (Chippewa County Airport) serving Sault Ste. Marie, Mich. Since the instrument approach procedures established for the new airport are less restrictive to airspace users than the previous Air Force operations and the existing Sault Ste. Marie Municipal Airport will be closed to coincide with the opening of the new Chippewa County Airport, it has been determined that the nature of the alteration required to the airspace does not impose an additional burden on the users of this airspace. Therefore, notice and public procedure normally requiring a notice of proposed rule-making (NPRM) are unnecessary and that good reason exists for making this alteration as a final rule effective March 23, 1978. The development of new instrument approach procedures into Chippewa County Airport necessi-

tates the FAA to slightly alter the controlled airspace to insure that the procedures will be conducted within controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument approach procedure which will enable other aircraft to circumnavigate the area in order to comply with visual flight rule requirements. When the existing Sault Ste. Marie Airport is closed and all airspace requirements are known for continued operations at the Sault Ste. Marie Canada Airport, we shall issue an additional rulemaking docket to alter the Sault Ste. Marie, Mich., and Sault Ste. Marie Canada Airports airspace.

## DRAFTING INFORMATION

The principal authors of this document are Doyle W. Hegland, Airspace and Procedures Branch, Air Traffic Division, and Joseph T. Brennan, Office of the Regional Counsel.

## ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective March 23, 1978, as follows:

In § 71.181 (43 FR 440) the following transition area is amended to read:

## SAULT STE. MARIE, MICH.

That airspace extending upward from 700 feet above the surface within 8.5 miles radius of the Chippewa County International Airport (latitude 46°14'52", longitude 84°28'15"); within 2 miles each side of the 032° bearing of the Chippewa County International Airport from the 6-mile radius area extending to the Sault Ste. Marie VORTAC, excluding that portion which overlies the Sault Ste. Marie, Mich., transition areas.

In § 71.171 (43 FR 355) the following control zone is amended to read:

## SAULT STE. MARIE, MICH.

Within a 5.5-mile radius of Chippewa County International Airport, latitude 46°14'52", longitude 84°28'15"; within one and three-fourths miles each side of the 329° bearing from the Chippewa County International Airport extending from the 5.5-mile radius zone to 6.5 miles northwest of the airport; within one and three-fourths miles each side of the 032° bearing from the airport extending from the 5.5-mile radius zone to 6 miles northeast of the airport. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. This effective date and time will thereafter be continuously published in the Airmen's Information Manual.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.61 of the Federal Aviation Regulations (14 CFR 11.61).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring

preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Des Plaines, Ill., on January 11, 1978.

JOHN M. CYROCKI,  
Director, Great Lakes Region.  
[FR Doc. 78-1581 Filed 1-20-78; 8:45 am]

## [4910-13]

[Airspace Docket No. 77-RM-8]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## Alteration of Control Zone

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the Alamosa, Colo., control zone. The alteration is necessary because certain portions of the control zone are based on a private owned nondirectional beacon which has been decommissioned.

EFFECTIVE DATE: 0901 G.m.t., March 23, 1978.

## FOR FURTHER INFORMATION CONTACT:

Mr. Joseph T. Taber, Operations, Procedures and Airspace Branch, Air Traffic Division, ARM-500, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colo. 80010; telephone 303-837-3937.

## SUPPLEMENTARY INFORMATION:

## HISTORY

On November 28, 1977, the FAA published, for comment, a proposal to alter the Alamosa, Colo., control zone (42 FR 60569). The only comment received expressed no objection.

## THE RULE

This amendment to Part 71 of the Federal Aviation Regulations (FAR's) redefines the control zone at Alamosa, Colo.

The present control zone contained airspace for a private NDB approach for Frontier Airlines which has been cancelled and the NDB has been decommissioned.

## DRAFTING INFORMATION

The principal authors of this document are Joseph T. Taber, Operations, Procedures and Airspace Branch, Air Traffic Division, and Daniel J. Peterson, Office of Regional Counsel.

## ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator,

tor, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended effective March 23, 1978, as follows:

By amending Subpart F 71.171 so as to alter the following control zone to read:

## ALAMOSA, COLO.

Within a 5-mile radius of Alamosa Municipal Airport (latitude 37°26'15" N., longitude 105°51'40" W.) within 3.5 miles each side of the Alamosa VORTAC 127° and 335° radials extending from the 5-mile radius zone to 11.5 miles southeast of the VORTAC. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c); and 14 CFR 11.69).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Aurora, Colo., on January 11, 1978.

M. M. MARTIN,  
Director, Rocky Mountain Region.  
[FR Doc. 78-1582 Filed 1-20-78; 8:45 am]

## [4910-13]

[Airspace Docket No. 77-CE-22]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## Designation of Transition Area—Sioux Center, Iowa

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this Federal action is to designate a transition area at Sioux Center, Iowa, to provide controlled airspace for aircraft executing a new instrument approach procedure to the Sioux Center Municipal Airport which is based on a Non-Directional Radio Beacon (NDB) navigational aid being installed at the airport.

EFFECTIVE DATE: March 23, 1978.

## FOR FURTHER INFORMATION CONTACT:

Dwaine E. Hiland, Airspace Specialist, Operations, Procedures and Airspace Branch, Air Traffic Division, ACE-537, FAA, Central Region, Federal Building, 601 East 12th Street, Kansas City, Mo. 64108, telephone 816-374-3408.

## SUPPLEMENTARY INFORMATION:

The city of Sioux Center, Iowa, is in-

stalling a Non-Directional Radio Beacon (NDB) on the Sioux Center Municipal Airport. This navigational aid will provide additional guidance for aircraft utilizing this airport. The establishment of an instrument approach procedure based on this navigational aid entails designation of a transition area at and above 700 feet above the ground (AGL) within which aircraft are provided air traffic control service. The intended effect of this action is to ensure adequate controlled airspace for aircraft executing the new instrument approach procedure at the Sioux Center Municipal Airport.

## DRAFTING INFORMATION

The principal authors of this document are Dwaine E. Hiland, Operations, Procedures and Airspace Branch, Air Traffic Division and John L. Fitzgerald, Jr., Office of the Regional Counsel.

## DISCUSSION OF COMMENTS

On pages 59389 and 59390 of the FEDERAL REGISTER dated November 17, 1977, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Sioux Center, Iowa. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No objections were received as a result of the notice of proposed rulemaking.

Accordingly, Subpart G, § 71.181, of the Federal Aviation Regulations (14 CFR 71.181) as republished on January 3, 1978 (43 FR 440), is amended, effective 0901 G.m.t. March 23, 1978, by adding the following transition area:

## SIOUX CENTER, IOWA

That airspace extending upward from 700 feet above the surface within a 5 mile radius of the Sioux Center Municipal Airport (latitude 43°08'05" N., longitude 96°11'15" W.) and within 3 miles each side of the 006° (true) bearing from the Sioux Center Municipal Airport extending from the 5 mile radius to 8.5 miles north of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.69 of the Federal Aviation Regulations (14 CFR 11.69).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Kansas City, Mo., on January 11, 1978.

C. R. MELUGIN, Jr.,  
Director, Central Region.

## [4910-13]

[Airspace Docket No. 77-RM-10]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

## Alteration and Designation of Federal Airways and Jet Routes; Correction

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Correction to final rule.

SUMMARY: In a rule published in the FEDERAL REGISTER of December 12, 1977, Vol. 42, page 62359, the Hayes Center 287° radial was incorrectly stated in line four of the fourth amendatory paragraph to § 71.123 on page 62360. This correction reflects the correct radial of Hayes Center as 276°.

EFFECTIVE DATE: January 23, 1978.

## FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone: 202-426-3715.

SUPPLEMENTARY INFORMATION: FEDERAL REGISTER Document 77-35248 was published on December 12, 1977 (42 FR 62359), with an effective date of January 26, 1978, and designated a segment of V-172 via the INT of Hayes Center, 287° and North Platte, Nebr., 245° radials. An incorrect radial from Hayes Center was inadvertently published. The correct radial should have been 276°. Action is taken herein to correct this error.

## DRAFTING INFORMATION

The principal authors of this document are Mr. Everett L. McKisson, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

## ADOPTION OF THE CORRECTION

Accordingly, pursuant to the authority delegated to me by the Administrator, FEDERAL REGISTER Document 77-35248, as published on December 12, 1977, on page 62359, is amended in the description of a segment of V-172 by deleting the fourth line of the fourth amendatory paragraph to § 71.123 on page 62360 and substituting "dials; INT Hayes Center 276° and North" therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

Issued in Washington, D.C., on January 13, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.  
[FR Doc. 78-1579 Filed 1-20-78; 8:45 am]

## [4910-13]

[Airspace Docket No. 77-SO-53]

## PART 73—SPECIAL USE AIRSPACE

## Establishment of Solid Shield 78 Temporary Restricted Areas in Puerto Rico

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes six temporary restricted areas in Puerto Rico to contain a major joint service military exercise known as "Solid Shield 78." This action provides for the safe and efficient use of the navigable airspace by prohibiting unauthorized flight operations of nonparticipating aircraft within the restricted areas during the time they are in use for the exercise.

EFFECTIVE DATE: May 10, 1978.

## FOR FURTHER INFORMATION CONTACT:

Mr. Wray McClung, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-8488.

## SUPPLEMENTARY INFORMATION:

## HISTORY

On December 1, 1977 (42 FR 61049), the FAA proposed to amend Part 73 of the Federal Aviation Regulations (FARs) (14 CFR Part 73) to establish three temporary restricted areas near the southern coast of Puerto Rico to provide military only special use airspace between the dates of May 10, 1978, and May 23, 1978, to conduct the joint service military exercise called "Solid Shield 78." Subsequent to the publication of that notice, it was determined that additional restricted area airspace would be needed. Accordingly, on December 15, 1977 (42 FR 63181), a supplemental notice of proposed rulemaking was published to establish a total of six temporary restricted areas for the exercise. Interested persons were invited to participate in the rulemaking proceeding by submitting written comments on the proposal to the FAA. No objectionable comments were received. Except for editorial changes, this amendment is the same as was proposed in the notices.

Establishment of a temporary warning area W-372 is being established concurrently south of the temporary

restricted areas through nonrule making procedures.

## THE RULE

This amendment to Part 73 of the Federal Aviation Regulations (FARs) establishes six temporary restricted areas near the southern coast of Puerto Rico to contain a major joint service military exercise known as "Solid Shield 78." The six restricted areas reflect different designated areas and altitudes which will be in effect from May 10, 1978, through May 23, 1978. Some of the restricted areas will be effective continuously during that period, and others will be effective only a part of that period.

Exercise plans provide for airborne and amphibious operations within the Puerto Rico area and airborne operations on Vieques. Land and naval based aircraft, both fixed and rotary wing, will support all phases of the exercise. Ground forces will be continuously supported and resupplied by aircraft employing a variety of delivery means. Jet fighter and attack aircraft will conduct extensive close air support missions including simulated bombing, rocket, and strafing attacks. Jet reconnaissance aircraft will conduct missions throughout the exercise area. Total exercise sorties from all the military services are estimated at 248 daily for fixed wing and 623 daily for helicopters. Exercise activity will be of such intensity that entry of non-exercise aircraft into the areas would seriously degrade aircraft safety. Pilots engaged in this type activity may not be able to properly clear the area to avoid nonparticipating aircraft, and a hazardous situation could exist if nonexercise aircraft were permitted in the areas while the exercise is in progress. There will be no live ordnance expended nor supersonic flights conducted within the exercise airspace.

The Commander in Chief, U.S. Atlantic Fleet, will designate an exercise airspace manager who will issue notices in pictorial and textual form announcing and describing air activity within the approved exercise airspace. These notices will be in addition to NOTAMS published by the FAA. The designated airspace manager will establish communications with appropriate air route traffic control centers so that nonexercise aircraft may be cleared through the restricted/warning areas when not being used for exercise purposes.

## DISCUSSION OF COMMENTS

Two comments were received. Neither comment objected to the proposed action.

## DRAFTING INFORMATION

The principal authors of this document are Mr. Wray McClung, Air

Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

**ADOPTION OF THE AMENDMENT**

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 73 of the Federal Aviation Regulations (14 CFR Part 73) as republished (43 FR 660) is amended, effective 0001 local time, May 10, 1978, as follows:

In § 73.71 (43 FR 711) the following temporary restricted areas are added:

1. R-7105A Ponce, P.R.  
Boundaries: Beginning at Lat. 18°15'00" N., Long. 66°30'00" W.; to Lat. 18°15'00" N., Long. 66°01'00" W.; to Lat. 18°07'00" N., Long. 65°59'20" W.; to Lat. 18°07'00" N., Long. 66°30'00" W.; thence to point of beginning.

Altitudes: 8,000 feet MSL to but not including FL 250.  
Time of use: Continuous, May 10, 1978, through May 23, 1978.

Controlling agency: FAA, San Juan ARTC Center.

Using agency: U.S. Atlantic Command, Norfolk, Va.

2. R-7105B Ponce, P.R.  
Boundaries: Beginning at Lat. 18°07'00" N., Long. 66°30'00" W.; to Lat. 18°07'00" N., Long. 65°59'20" W.; to Lat. 17°55'30" N., Long. 65°56'30" W.; thence west 3 NM from and parallel to the shoreline to Lat. 17°56'30" N., Long. 66°30'00" W.; thence to point of beginning.

Altitudes: Surface to but not including FL 250.

Time of use: Continuous, May 10, 1978, through May 23, 1978.

Controlling agency: FAA, San Juan ARTC Center.

Using agency: U.S. Atlantic Command, Norfolk, Va.

3. R-7105C Ponce, P.R.  
Boundaries: Beginning at Lat. 18°15'00" N., Long. 66°45'00" W.; to Lat. 18°15'00" N., Long. 66°30'00" W.; to Lat. 17°48'00" N., Long. 66°30'00" W.; thence northwest and west along Warning Area W-371B to Lat. 17°56'00" N., Long. 66°45'00" W.; thence to point of beginning.

Altitudes: Surface to but not including FL 280, excluding the airspace within R-7105E.

Time of use: Continuous, May 10, 1978, through May 23, 1978.

Controlling agency: FAA, San Juan ARTC Center.

Using agency: U.S. Atlantic Command, Norfolk, Va.

4. R-7105D Ponce, P.R.  
Boundaries: Beginning at Lat. 18°15'00" N., Long. 66°30'00" W.; to Lat. 18°15'00" N., Long. 66°01'00" W.; to Lat. 18°07'00" N., Long. 65°59'20" W.; to Lat. 18°07'00" N., Long. 66°30'00" W.; thence to point of beginning.

Altitudes: Surface to but not including 8,000 feet MSL.

Time of use: Continuous, May 10, 1978, through May 23, 1978.

Controlling agency: FAA, San Juan ARTC Center.

Using agency: U.S. Atlantic Command, Norfolk, Va.

5. R-7105E Ponce, P.R.  
Boundaries: Beginning at Lat. 18°15'00" N., Long. 66°45'00" W.; to Lat. 18°04'30" N., Long. 66°35'30" W.; thence east along the 5 SM arc of the Ponce control zone to Lat. 18°03'00" N., Long. 66°30'00" W.; to Lat.

17°48'00" N., Long. 66°30'00" W.; thence west along W-371B to Lat. 17°56'00" N., Long. 66°45'00" W.; thence to point of beginning.

Altitudes: Surface to but not including 8,000 feet MSL.

Time of use: 0000 to 1000 local time, May 15, 1978, through May 17, 1978.

Controlling agency: FAA, San Juan ARTC Center.

Using agency: U.S. Atlantic Command, Norfolk, Va.

6. R-7105F Ponce, P.R.  
Boundaries: Beginning at Lat. 18°05'00" N., Long. 67°15'00" W.; to Lat. 18°05'00" N., Long. 66°45'00" W.; to Lat. 17°55'00" N., Long. 66°45'00" W.; thence west 3 NM from and parallel to the shoreline to point of beginning.

Altitudes: 8,000 feet MSL to FL 280.

Time of use: Continuous, May 10, 1978, through May 23, 1978.

Controlling agency: FAA, San Juan ARTC Center.

Using agency: U.S. Atlantic Command, Norfolk, Va.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 16, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

(FR Doc. 78-1929 Filed 1-20-78; 8:45 am)

**[4910-13]**

[Docket No. 17551; SFAR No. 36]

**PART 121—CERTIFICATION AND OPERATIONS: DOMESTIC, FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT**

**PART 127—CERTIFICATION AND OPERATIONS OF SCHEDULED AIR CARRIERS WITH HELICOPTERS**

**PART 135—AIR TAXI OPERATORS AND COMMERCIAL OPERATORS OF SMALL AIRCRAFT**

**PART 145—REPAIR STATIONS**

Special Federal Aviation Regulation No. 36; Operations Review Program Amendment No. 2A; Development of Major Repair Data

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment, being issued as a part of the FAA's Operations Review Program, adopts a new Special Federal Aviation Regulation (SFAR) that provides for the use of data for accomplishing major repairs that have been developed by repair

stations, air carriers, air taxis, and commercial operators of large aircraft but which have not been specifically approved by the FAA. The SFAR will relieve affected certificate holders of the burden attendant to obtaining FAA-approval of major repair data on a case-by-case basis if certain requirements necessary in the interest of safety are met. The SFAR is also needed to develop information upon which to base a permanent rule change.

EFFECTIVE DATE: January 23, 1978.

SUPPLEMENTARY INFORMATION:

**BACKGROUND**

The aviation industry in the United States and abroad has grown substantially during the last 10 years. Paralleling its rapid growth and numerous technological advances are significant changes in the operating environment in which airmen, air agencies, and aircraft operators function.

To enable the FAA to become more responsive to the needs of the general public and the aviation community in fulfilling the agency's aviation safety responsibilities, the FAA issued Notice No. 75-9 (40 FR 8585; February 28, 1975), inviting all interested persons to submit proposals for consideration during the Operations Review Program.

In response to that invitation, the FAA received more than 5,000 individual comments contained in 123 submissions. Based on those comments and on the Compilation of Proposals, the FAA prepared a number of working documents for the Operations Review Conference held in Arlington, Va., on December 1-5, 1975. The FAA distributed those documents to each person who participated in the Operations Review Program and to all other interested persons who requested them.

The Operations Review Conference was attended by more than 600 persons. Various committees discussed all the scheduled agenda items during the conference. Summaries were given by the FAA Committee Chairman at the close of the discussions on each agenda item. Persons present were given the opportunity to correct those oral summaries. Those summaries were edited and combined with an attendee list for the conference and with transcripts of certain plenary session speeches and were distributed to all

attendees and to all persons requesting them in accordance with a Notice of Availability (Notice No. 75-9A; 41 FR 9413; March 4, 1976).

This amendment deals with Proposal No. 882, concerning § 145.51, that was submitted by the Air Transport Association for the Operations Review Program and is being issued as a part of that program.

**DISCUSSION OF AMENDMENT**

Under § 145.51 of the Federal Aviation Regulations (FAR), repair stations are allowed to approve aircraft, airframes, aircraft engines, propellers, or appliances for return to service after maintenance, preventive maintenance, or alterations. However, in the case of major repairs or major alterations, the work must have been done in accordance with FAA-approved technical data. Similar requirements exist in § 127.140(b), which is applicable to scheduled air carriers utilizing helicopters, and in § 121.379(b) which is applicable to air carriers and commercial operators of large aircraft. In addition, under § 135.2, air taxi operators using large aircraft are subject to the requirements of § 121.379(b).

While FAA-approved major alteration data may be developed under the Designated Alteration Station (DAS) provisions of Subpart M of FAR Part 21, similar provisions do not exist under which FAA-approved major repair data can be developed by those certificate holders subject to the requirements of §§ 121.379, 127.140, and 145.51. Because of this, affected certificate holders have, in the past, been required to submit major repair data and supporting information to FAA Regional Offices on a case-by-case basis for approval. Due to the large number of major repairs being performed and the financial need to have damaged aircraft repaired and returned to service as quickly as possible, the requirement for applying for case-by-case approvals has proven to be especially burdensome to affected certificate holders. In this connection, the FAA has recently been receiving an increasing number of petitions for exemption from the provisions of §§ 121.379 and 145.51. Several exemptions have been issued, subject to a number of conditions and limitations, allowing air carriers and repair stations to utilize major repair data they have developed which have not been specifically FAA-approved. Based on the experience gained under these exemptions and in view of the increasing number of exemption requests, the FAA believes it appropriate to adopt an SFAR to provide similar relief to all affected certificate holders and to enable the FAA to obtain additional information that is needed to determine the course of action to be taken with respect to §§ 121.379(b), 127.140(b), and 145.51.

**SPECIAL FEDERAL AVIATION REGULATIONS**

1. *General.* Contrary provisions of §§ 121.379(b), 127.140(b) and 145.51 of the Federal Aviation Regulations notwithstanding, a certificate holder may approve an aircraft, airframe, aircraft engine, propeller, or appliance for return to service after accomplishing a major repair if the data used for the repair was developed by that certificate holder in accordance with an authorization issued under this Special Federal Aviation Regulation.

2. *Application.* The applicant for an authorization to develop and use its own technical data for major repairs must submit an application, in writing and signed by an officer of the applicant, to the FAA District Office for the region in which the applicant is located. The application must contain—

(a) The repair station certificate number held by the repair station applicant, the current ratings covered by the certificate, and a copy of the repair station's operations specifications;

(b) The air carrier, air taxi, or commercial operator operating certificate number held by the air carrier, air taxi, or commercial operator applicant, and the products that it may maintain under the certificate;

(c) The names, signatures, and titles of the persons for whom authorization to approve the use of technical data for major repairs is requested; and

(d) A description of the applicant's staff with which compliance with section 3 of this Special Federal Aviation Regulation is to be shown.

3. *Eligibility.* (a) To be eligible for an authorization to develop its own technical data for major repairs, the applicant must—

(1) Hold a current domestic repair station certificate under Part 145, an air carrier certificate under Part 121 or 127, or a commercial operator certificate under Part 121, or be an air taxi operator subject to the requirements of § 135.2;

(2) Have adequate personnel, in the United States, appropriate to the products that it may maintain under its certificate; and

(3) Employ, or have available, a staff of engineering personnel who can determine compliance with the applicable airworthiness requirements of the Federal Aviation Regulations.

(b) At least one member of the staff required by paragraph (a)(3) of this section must have all of the following qualifications:

(1) A thorough working knowledge of the applicable requirements of the Federal Aviation Regulations.

(2) A position, on the applicant's staff, with authority to establish repair programs that ensure that repaired products meet the applicable requirements of the Federal Aviation Regulations.

(3) At least one year of satisfactory experience in direct contact with the FAA while processing engineering work for type certification or major repair projects.

(4) At least eight years of aeronautical engineering experience (which may include the one year required by paragraph (b)(3) of this section).

4. *Procedure Manual.* (a) No person holding an authorization issued under this Special Federal Aviation Regulation may exercise any authority under the authorization unless he obtains FAA approval of and complies with a procedure manual containing—

(1) The procedures for developing and determining the adequacy of technical data for major repairs; and

**DRAFTING INFORMATION**

The principal authors of this document are Mr. Eli Newberger, Flight Standards Service, and Mr. Samuel Podberesky, Office of the Chief Counsel.

**THE AMENDMENT**

Accordingly, Special Federal Aviation Regulation No. 36 is adopted effective January 23, 1978, to read as follows:

(2) The names, signatures, and responsibilities of officials and of each staff member required by section 3 of this Special Federal Aviation Regulation, identifying those persons who—

(i) Have authority to make changes in procedures that require a revision to the procedure manual; and

(ii) Are to prepare or determine the adequacy of technical data, or both, plan or conduct tests, and approve the results of tests.

(b) No person holding an authorization issued under this Special Federal Aviation Regulation may continue to perform any authorized function affected by any change in staff necessary to continue to meet the requirements of section 3 of this Special Federal Aviation Regulation, or affected by any change in procedures from those approved under paragraph (a) of this section, unless that change is FAA-approved and entered in the manual. For this purpose, the manual must contain a "log-of-revisions" page with space for the identification of each revised item, page, date, and the signature of the person approving the change for the Administrator.

5. *Duration of Authorization.* Each authorization issued under this Special Federal Aviation Regulation is effective for a period of two years unless it is surrendered or the Administrator suspends, revokes, or otherwise terminates it at an earlier date.

6. *Maintenance of Eligibility.* Each holder of an authorization issued under this Special Federal Aviation Regulation shall continue to meet the requirements for issue of the authorization or shall notify the Administrator within 48 hours of any change (including a change of personnel) that could affect the ability of the holder to meet those requirements.

7. *Transferability.* An authorization issued under this Special Federal Aviation Regulation is not transferable.

8. *Inspections.* Upon request, each holder of an authorization issued under this Special Federal Aviation Regulation and each applicant for an authorization shall let the Administrator inspect his facilities, products, and records.

9. *Limits of Applicability.* (a) An authorization issued under this Special Federal Aviation Regulation applies only to products—

(1) Covered by the rating of the repair station applicant and its operations specifications; and

(2) Covered by the operating certificate and maintenance manual of the air carrier, air taxi, or commercial operator applicant.

(b) Each holder of an authorization issued under this Special Federal Aviation Regulation must comply with any additional limitations prescribed by the Administrator and made a part of the authorization.

10. *Data Review and Service Experience.* (a) If the Administrator finds that a product for which repair data was developed under this Special Federal Aviation Regulation does not meet the applicable airworthiness requirements, or that an unsafe feature or characteristic caused by a defective repair exists, the holder of the authorization, upon notification by the Administrator, shall investigate the matter and report to the Administrator the results of the investigation and the action, if any, taken or proposed.

(b) If corrective action by the user of the product is necessary for safety because of any noncompliance or defect specified in paragraph (a) of this section, the holder of

the authorization shall submit the information necessary for the issuance of an airworthiness directive under Part 39 of the Federal Aviation Regulations.

11. *Current Records.* (a) Each holder of an authorization issued under this Special Federal Aviation Regulation shall maintain, at its facility, current records containing—

(1) For each product for which it has developed and used major repair data, a technical data file that includes any data and amendments thereto (including drawings, photographs, specifications, instructions, and reports) necessary for the major repair;

(2) A list of products by make, model, manufacturer's serial number and, if applicable, any FAA identification, that have been repaired under the authorization; and

(3) A file of information from all available sources on difficulties of products repaired under the authorization.

(b) The records prescribed in paragraph (a) of this section shall be—

(1) Made available by the holder of the authorization, for examination, upon the Administrator's request; and

(2) In the case of the data file prescribed in paragraph (a)(1) of this section, identified by the holder of the authorization and sent to the Administrator as soon as the holder of the authorization no longer utilizes it.

This Special Federal Aviation Regulation terminates January 23, 1980.

NOTE.—The reporting and recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

(Secs. 313(a), 601, 604, and 607, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, 1424, and 1427); Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 17, 1978.

LANGHORNE BOND,  
Administrator.

##### CHAPTER II—CIVIL AERONAUTICS BOARD

##### SUBCHAPTER A—ECONOMIC REGULATIONS (Regulation ER-1040, Amdt. 14)

##### PART 207—CHARTER TRIPS AND SPECIAL SERVICES

###### Approval by Comptroller General

Adopted by the Civil Aeronautics Board at its office in Washington, D.C.  
AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: This final rule gives notice of approval by the Comptroller General of the reporting requirements contained in a regulation concerning

the performance of emergency commercial charters by a certificated scheduled air carrier for another direct air carrier. This approval is required by the Federal Reports Act and was transmitted to the Civil Aeronautics Board by letter dated December 19, 1977.

DATES: Effective: January 17, 1978.  
Adopted: January 17, 1978.

FOR FURTHER INFORMATION CONTACT:

Raymond Kurlander, Director, Bureau of Accounts and Statistics, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5270.

Accordingly, the Civil Aeronautics Board amends Part 207 of its economic regulations (14 CFR 207) by adding the following note at the end of Part 207:

NOTE.—The reporting requirements contained in § 207.10 have been approved by the U.S. General Accounting Office under No. B-180226 (R0107).

This amendment is issued by the undersigned pursuant to the delegation of authority from the Board to the Secretary in 14 CFR 385.24(b).

(Sec. 204 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; U.S.C. 1324.)

##### SUBCHAPTER D—SPECIAL REGULATIONS (Regulation SPR-145, Amdt. 9)

##### PART 371—ADVANCE BOOKING CHARTERS

###### Approval by Comptroller General

Adopted by the Civil Aeronautics Board at its office in Washington, D.C.

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: This final rule gives notice of approval by the Comptroller General of the reporting requirements contained in a regulation concerning free and reduced-rate transportation offered to travel agents on Advance Booking Charters. This approval is required by the Federal Reports Act.

DATES: Effective: December 27, 1977.  
Adopted: January 17, 1978.

FOR FURTHER INFORMATION CONTACT: Raymond Kurlander, Director, Bureau of Accounts and Statistics, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5270.

SUPPLEMENTARY INFORMATION: In Regulation SPR-136, 42 FR 56722, October 28, 1977 (Docket 29818), the Board amended Part 371 of its Special Regulations to provide, among other things, new reporting requirements in §§ 371.25a and 371.50(c). Regulation SPR-136 contained the following note:

NOTE.—The Civil Aeronautics Board is submitting this rule to the Comptroller General for such review as may be appropriate under the Federal Reports Act, 44 U.S.C. 3512. The effective date of this rule accordingly reflects the inclusion of the 45-day period which that statute allows for such review. 44 U.S.C. 3512(c)(2).

By letter dated December 13, 1977, the Comptroller General approved the reporting requirements in §§ 371.25a and 371.50(c) under Number B-180226 (R0480) and the effective date of Regulation SPR-136 remains unchanged: December 27, 1977.

Accordingly, in order to reflect such review and approval by the Comptroller General, the note which follows paragraph (c) of § 371.50 is hereby amended to read as follows:

§ 371.50 Charter trip reporting.

NOTE.—The reporting requirements contained in §§ 371.25a and 371.50(c) have been approved by the U.S. General Accounting Office under No. B-180226 (R0480).

This amendment is issued by the undersigned pursuant to the delegation of authority from the Board to the Secretary in 14 CFR 385.24(b).

(Sec. 204 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; U.S.C. 1324.)

PHYLLIS T. KAYLOR,  
Secretary.

(Regulation SPR-146, Amdt. 21)

**PART 378—INCLUSIVE TOUR CHARTERS****Approval by Comptroller General**

Adopted by the Civil Aeronautics Board at its office in Washington, D.C.

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

**SUMMARY:** This final rule gives notice of approval by the Comptroller General of a reporting requirement contained in a regulation concerning free and reduced-rate transportation offered to travel agents on Inclusive Tour Charters. This approval is required by the Federal Reports Act.

**DATES:** Effective: December 27, 1977.  
Adopted: January 17, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Raymond Kurlander, Director, Bureau of Accounts and Statistics, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5270.

**SUPPLEMENTARY INFORMATION:** In Regulation SPR-137, 42 FR 56725, October 28, 1977 (Docket 29818), the Board amended Part 378 of its Special Regulations to provide, among other things, a new reporting requirement in § 378.32(b). Regulation SPR-137 contained the following note:

**NOTE.**—The Civil Aeronautics Board is submitting this rule to the Comptroller General for such review as may be appropriate under the Federal Reports Act, 44 U.S.C. 3512. The effective date of this rule accordingly reflects the inclusion of the 45-day period which that statute allows for such review. 44 U.S.C. 3512(c)(2).

By letter dated December 13, 1977, the Comptroller General approved the reporting requirement in § 378.32(b) under Number B-180226 (R0480) and the effective date of Regulation SPR-137 remains unchanged: December 27, 1977.

Accordingly, in order to reflect such review and approval by the Comptroller General, the note which follows paragraph (c) of § 378.32 is hereby amended to read as follows:

§ 378.32 Free and reduced-rate transportation of travel agents.

**NOTE.**—The reporting requirement contained in section 378.32(b) has been approved by the U.S. General Accounting Office under Number B-180226 (R0480).

This amendment is issued by the undersigned pursuant to the delegation of authority from the Board to the Secretary in 14 CFR 385.24(b).

**RULES AND REGULATIONS**

(Sec. 204 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; U.S.C. 1324.)

**PART 378a—ONE-STOP-INCLUSIVE TOUR CHARTERS****Approval by Comptroller General**

Adopted by the Civil Aeronautics Board at its office in Washington, D.C.

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

**SUMMARY:** This final rule gives notice of approval by the Comptroller General of a reporting requirement contained in a regulation concerning free and reduced-rate transportation offered to travel agents on One-Stop-Inclusive Tour Charters. This approval is required by the Federal Reports Act.

**DATES:** Effective, December 27, 1977.  
Adopted, January 17, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Raymond Kurlander, Director, Bureau of Accounts and Statistics, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5270.

**SUPPLEMENTARY INFORMATION:** In Regulation SPR-138, 42 FR 56726, October 28, 1977 (Docket 29818), the Board amended Part 378a of its Special Regulations to provide, among other things, a new reporting requirement in § 378a.50(d). Regulation SPR-138 contained the following note:

**NOTE.**—The Civil Aeronautics Board is submitting this rule to the Comptroller General for such review as may be appropriate under the Federal Reports Act, 44 U.S.C. 3512. The effective date of this rule accordingly reflects the inclusion of the 45-day period which that statute allows for such review. 44 U.S.C. 3512(c)(2).

By letter dated December 13, 1977, the Comptroller General approved the reporting requirement in § 378a.50(d) under Number B-180226 (R0480) and the effective date of Regulation SPR-138 remains unchanged: December 27, 1977.

Accordingly, in order to reflect such review and approval by the Comptroller General, the note which follows paragraph (c) of § 378a.50 is hereby amended to read as follows:

§ 378a.50 Charter trip reporting.

**NOTE.**—The reporting requirement contained in § 378a.50(d) has been approved by

the U.S. General Accounting Office under Number B-180226 (R0480).

This amendment is issued by the undersigned pursuant to the delegation of authority from the board to the Secretary in 14 CFR 385.24(b).

**DATED:** January 17, 1978.

ROBERT F. KEMPF,  
Assistant General Counsel  
for Patent Matters.

(FR Doc. 78-1900 Filed 1-20-78; 8:45 am)

**[6750-01]****Title 16—Commercial Practices****CHAPTER 1—FEDERAL TRADE COMMISSION****SUBCHAPTER A—ORGANIZATION, PROCEDURES, AND RULES OF PRACTICE****PART 2—NONADJUDICATIVE PROCEDURES****PART 3—RULES OF PRACTICE FOR ADJUDICATIVE PROCEEDINGS**

**Disclosure of Material Pertaining to Consent Order Settlements; Withdrawal of Matter from Adjudication to Consider Consent Agreements**

AGENCY: Federal Trade Commission.

ACTION: Final rule.

**SUMMARY:** On August 5, 1977 (42 FR 39658), the Commission published changes in rules 2.34 and 3.25(f), de-

signed to place on the public record certain material related to consent agreements accepted by the Commission. Although the summary published in the FEDERAL REGISTER accurately reflected the Commission's intent that only documents received by the Commission from the investigated party would be subject to the disclosure requirements of the rules, the language of the rules omitted this fact. This change is being made to clarify the rule in accordance with the Commission's original intent.

In addition, the Commission is delegating to its General Counsel the authority to make public the documents that these rules require be disclosed. This is similar to the authority to grant Freedom of Information Act appeals which the Commission has also delegated to its General Counsel, 16 CFR § 4.11.

**EFFECTIVE DATE:** January 20, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Barry R. Rubin, Office of the General Counsel, Federal Trade Commission, Washington, D.C. 20580, 202-523-3865.

Accordingly, and pursuant to 15 U.S.C. § 46(f), (g) and 5 U.S.C. § 552, the Commission hereby amends its Rules of Practice §§ 2.34 and 3.25(f), 16 CFR §§ 2.34 and 3.25(f), as set forth below.

1. By revising § 2.34 to read as follows:

**§ 2.34 Disposition.**

(a) Upon receiving an executed agreement conforming with the requirements of § 2.32, the Commission may: (1) Accept it; (2) reject it and issue its complaint; or (3) take such other action as it may deem appropriate. If an agreement is accepted, the Commission will place the order contained therein and any initial report of compliance submitted pursuant to § 2.33 on the public record, and at the same time, will make available an explanation of the provisions of the order and the relief to be obtained thereby, material submitted to the Commission by the investigated party related to the merits of the order that is determined by the General Counsel not to be exempt from disclosure under the Freedom of Information Act, and any other information which it deems helpful in assisting interested persons to understand the terms of the order. The Commission will publish the agreement, order and explanation in the FEDERAL REGISTER. For a period of sixty (60) days after placement of the order on the public record and issuance of the statement, the Commission will receive and consider any comments or views concerning the order that may be filed by any inter-

**RULES AND REGULATIONS**

ested person. Thereafter, the Commission may either withdraw its acceptance of the agreement and so notify the other party, in which event it will take such other action as it may consider appropriate, or issue and serve its complaint (in such form as the circumstances may require) and decision, in disposition of the proceeding.

2. By revising § 3.25(f) to read as follows:

**§ 3.25 Consent agreement settlements.**

(f) After the matter has been withdrawn from adjudication, the Commission may: (1) Accept the agreement, (2) reject it and return the matter to adjudication for further proceedings, or (3) take such other action as it may deem appropriate. If an agreement is accepted, the Commission will place it on the public record, together with any initial report of compliance submitted pursuant to § 2.33, and at the same time, will make available an explanation of the provisions of the order and the relief to be obtained thereby; material submitted to the Commission by the investigated party reasonably related to the merits of the order that is determined by the General Counsel not to be exempt from disclosure under the Freedom of Information Act; and any other information which it deems helpful in assisting interested persons to understand the terms of the order. The Commission will publish the agreement, order and explanation in the FEDERAL REGISTER, for a period of sixty (60) days after placement of the order on the public record and issuance of the statement, the Commission will receive and consider any comments or views concerning the order that may be filed by any interested person. Thereafter, the Commission may either withdraw its acceptance of the agreement and so notify the other party, in which event it will return the matter to adjudication for further proceedings or take such other action as it may consider appropriate, or issue and serve its decision in disposition of the proceeding.

By direction of the Commission dated January 10, 1978.

CAROL M. THOMAS,  
Secretary.

**[6750-01]**

(Docket No. 8995)

**PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS**

Chrysler Corp.

AGENCY: Federal Trade Commission.

**ACTION:** Modified order to cease and desist.

**SUMMARY:** This modified order to cease and desist replaces an earlier order issued to Chrysler Corp. on April 13, 1976, (41 FR 20653, 87 F.T.C. 719). In accordance with the decision and judgment rendered by the Court of Appeals for the District of Columbia on July 6, 1977, (561 F.2d 357 (1977)), this order deletes Paragraphs 2 and 3 of the original order, which pertain to performance tests and results.

**DATES:** Complaint issued Oct. 9, 1974. Final order issued Apr. 13, 1976. Modified order to cease and desist issued Dec. 5, 1977.

**FOR FURTHER INFORMATION CONTACT:**

Albert H. Kramer, Bureau of Consumer Protection, Federal Trade Commission, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580, 202-523-3727.

**SUPPLEMENTARY INFORMATION:** In the Matter of Chrysler Corporation, a corporation. The prohibited trade practices and/or affirmative corrective actions as codified under 16 CFR 13, appearing at 41 FR 20653, are modified by the deletion of § 13.210 Scientific tests, and § 13.1730 Results.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45.)

The Modified Order to Cease and Desist, is as follows:

**MODIFIED ORDER TO CEASE AND DESIST**

Respondent having filed in the United States Court of Appeals for the District of Columbia on June 30, 1976, a petition to review an order to cease and desist issued on April 13, 1976; and the court having rendered its decision and judgment on July 6, 1977, affirming and enforcing the Commission's order with the deletion of Paragraphs 2 and 3, and respondent not having filed a petition for certiorari within the time permitted by law;

Now, therefore, it is hereby ordered, That the aforesaid order to cease and desist be, and it hereby is, modified in accordance with the decision and judgment of the Court to read as follows:

**ORDER**

It is ordered, That respondent Chrysler Corp., and its officers, representatives, and agents and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of products sold by the respondent in or affecting commerce, as

Copies of the Modified Order to Cease and Desist, filed with the original document.

"commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, by reference to a test or tests, that any of respondent's automobiles are superior with regard to fuel economy to any other automobiles whether manufactured by respondent or others unless:

(a) such superiority has been demonstrated as to the model(s) for which it is claimed by such test or tests with respect to each sample, or the valid average of all identical samples, of each model represented to have been tested; or

(b) the valid test results for each sample, or the valid average of all identical samples, of each model so compared, including the advertised model as well as such makes and models to which the advertised model is compared, are clearly and conspicuously disclosed.

For the purpose of this Order, "sample" shall mean an actual automobile tested.

2. Misrepresenting in any manner the fuel economy of any automobile or the superiority of any automobile over competing products in terms of fuel economy.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this Order to each of its operating divisions.

It is further ordered, That respondent notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the Order.

It is further ordered, That respondent shall, within sixty (60) days after this order becomes "final," file with the Commission a report, in writing, setting forth in detail the manner and form of its compliance with this Order.

CAROL M. THOMAS,  
Secretary.

[Docket No. C-2914]

PART 13—PROHIBITED TRADE PRACTICES,  
AND AFFIRMATIVE CORRECTIVE ACTIONS

Grand Spaulding Dodge, Inc.

AGENCY: Federal Trade Commission.

ACTION: Order to cease and desist.

SUMMARY: In settlement of alleged violations of Federal law prohibiting unfair acts and practices and unfair methods of competition, this consent

order, among other things, requires a Chicago, Ill. automobile dealer to cease failing to furnish in a timely manner, Spanish-speaking customers relevant bilingual disclosures and documents. Additionally, the firm is required to display notices in Spanish, as set forth in the order, and to maintain prescribed records for a period of two years.

DATES: Complaint and order issued Oct. 25, 1977.

FOR FURTHER INFORMATION  
CONTACT:

Paul W. Turley, Director, Chicago Regional Office, Federal Trade Commission, 55 East Monroe St., Suite 1437, Chicago, Ill. 60603, 312-353-4423.

SUPPLEMENTARY INFORMATION: On Thursday, Jan. 27, 1977, there was published in the FEDERAL REGISTER 42 FR 5133, a proposed consent agreement with analysis in the Matter of Grand Spaulding Dodge, Inc., a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions, or objections regarding the proposed form of order.

Comments were filed and considered by the Commission.

The Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR 13, are as follows:

Subpart—Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements; 13.533-20 Disclosures; 13.533-25 Displays, in-house; 13.533-45 Maintain records. Subpart—Failing to Provide Foreign Language Translations; § 13.1052 Failing to provide foreign language translations. Subpart—Neglecting, Unfairly or Deceptively, to Make Material Disclosure: § 13.1895 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45.)

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. F13795]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Suspension of Community Eligibility

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: This rule lists communities where the sale of flood insurance, as authorized under the National Flood Insurance Program (NFIP), will be suspended because of noncompliance with the flood plain management requirements of the program.

EFFECTIVE DATES: The date listed in the fourth column.

FOR FURTHER INFORMATION  
CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll-free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93-234), as amended, requires the purchase of flood insurance as a condition of Federal financial assistance if such assistance is: (1) For acquisition and construction purposes, and (2) For property located in a special flood hazard area identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and insurance is

purchased. Accordingly, for communities listed under this Part such restriction exists as of the effective date of suspension because insurance, which is required, cannot be purchased.

Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022) prohibits flood insurance coverage as authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128) unless an appropriate public body shall have adopted

adequate flood plain management measures with effective enforcement measures. The communities suspended in this notice no longer meet that statutory requirement for compliance with program regulations (24 CFR Part 1909 et seq.). Accordingly, the communities are suspended on the effective date in the list below.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public inter-

est. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

In each entry, a complete chronology of effective dates appears for each listed community.

Section 1914.6 is amended by adding in alphabetical sequence new entries to the table.

§ 1914.6 List of suspended communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.
Colorado	Alamosa	Unincorporated areas	June 8, 1973, emergency; Jan. 19, 1978, regular; Jan. 19, 1978, suspended.	Aug. 2, 1974	080009

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968); effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969) as amended 39 FR 2787, Jan. 24, 1974.)

Issued: December 21, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

[FR Doc. 78-1626 Filed 1-20-78; 8:45 am]

[4210-01]

[Docket No. F1 3874]

PART 1915—IDENTIFICATION AND MAPPING  
OF SPECIAL HAZARD AREAS

List of Communities with Special Hazard Areas

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: This rule identifies communities with areas of special flood,

mudslide, or erosion hazards as authorized by the National Flood Insurance Program (NFIP). The identification of these areas is to provide guidance to communities on the reduction of property losses, by the adoption of appropriate flood plain management, and other measures to minimize damage. It will enable communities to guide future construction, where practicable, away from locations which are threatened by flood or other hazards.

EFFECTIVE DATES: The date listed in the eighth column of the table or February 22, 1978, whichever is later.

FOR FURTHER INFORMATION  
CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93-234), as amended, re-

quires the purchase of flood insurance as a condition of Federal financial assistance of insurable property if such assistance is:

(1) For acquisition and construction purposes as defined in Part 1909 of Title 24 of the Code of Federal Regulations and

(2) For property located in a special flood hazard area identified by the Secretary of Housing and Urban Development.

One year after the identification of the community as flood prone, the requirement applies to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program.

This 30 day period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish that it is not seriously flood

RULES AND REGULATIONS

prone or that such flood hazards as may have existed have been corrected by floodworks or other flood control methods. The six months period shall be considered to begin February 22, 1978, or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a community has to enter the program under section 201(d) of the Flood Disaster Protection Act of 1973 shall be considered to begin February 22, 1978, or the effective date of the Flood

Hazard Boundary Map, whichever is later.

This identification is made in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001-4128).

Section 1915.3 is amended by adding in alphabetical sequence a new entry to the table:

§ 1915.3 List of communities with special hazard areas (FHBMs in effect).

## Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE,  
DEPARTMENT OF THE TREASURYSUBCHAPTER A—INCOME TAX  
(T.D. 7532)PART I—INCOME TAX; TAXABLE YEARS  
BEGINNING AFTER DECEMBER 31, 1953

## Reserves for Losses on Loans of Banks

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document provides final regulations relating to the reserves for losses on loans of banks. Changes in the applicable tax law were made by the Tax Reform Act of 1969. These regulations provide neces-

sary guidance to certain financial institutions for compliance with the law.

DATE: Generally, the regulations are effective for taxable years beginning after July 11, 1969.

FOR FURTHER INFORMATION  
CONTACT:

Lawrence M. Axelrod of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, Attention: CC:LR:T (202-566-4454, not a toll-free call).

## SUPPLEMENTARY INFORMATION:

## BACKGROUND

On September 20, 1976, the FEDERAL REGISTER published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 585 of the Internal Revenue Code of 1954 (41 FR 40477). The amendments were proposed to conform the regulations to section 431 (a) of the Tax Reform Act of 1969 (83 Stat. 616). A public hearing was held on January 6, 1977. After consideration of all comments regarding the proposed amendments, those amendments are adopted as revised by this Treasury decision.

## SUMMARY OF CHANGES

Section 166 (c) permits a deduction for a reasonable addition to a reserve for bad debts. Section 585, as added by the Tax Reform Act of 1969, provides special rules for certain financial institutions for determining a reasonable addition to the reserve for losses on loans. The Treasury decision implements section 585.

The Treasury decision is identical to the notice of proposed rulemaking of September 20, 1976, with the exception of minor changes.

In response to taxpayers' comments and to prevent hardship, the minimum addition rule will be applied only to taxable years beginning after December 31, 1976. Section 1.585-2 (a) (2) has been revised to reflect that decision.

Under the notice of proposed rulemaking, the method adopted by the taxpayer to compute the reserve addition was unclear when the amount claimed was consistent under both the percentage and the experience method. To solve the problem, the fourth sentence of § 1.585-1 (a) has been modified to require the taxpayer to show in its return the method used to determine the amount of the addition.

Under § 1.585-2 (a) (2) of the notice, the term "minimum addition" was defined as an amount equal to the lesser of the maximum amount allowable under the experience method or the maximum amount allowable under the percentage method. The maximum amount determined under the experi-

ence method is the amount necessary to increase the balance of the reserve to the six-year moving average amount or the base year amount, whichever is greater. Whenever the amount determined under the experience method is less than the amount determined under the percentage method, and the base year amount exceeds the six-year moving average amount, the taxpayer's addition would be the amount necessary to increase the reserve to the base year amount. However, under section 57 (a) (7) of the Code, if a financial institution's reasonable addition to a reserve for bad debts exceeds the amount determined on the basis of its actual experience (i.e., the six-year moving average amount), a tax preference item is created. To avoid requiring financial institutions to make an addition to the reserve for bad debts which results in a tax preference item, the Treasury decision changes the minimum addition under the experience method to an amount computed by reference to the six-year moving average of section 585 (b) (3) (A).

The first sentence of § 1.585-2 (b) (1) (ii) (A) and the first sentence of § 1.585-2 (b) (1) (iii) of the notice use the term "the allowable percentage of eligible loans outstanding." The phrase is confusing in that the reserve referred to is a dollar amount rather than a percentage. Accordingly, the sentences have been revised by striking out the above-quoted phrase and inserting in lieu thereof "the allowable percentage for the taxable year multiplied by the eligible loans outstanding," wherever it appears.

The fourth sentence of § 1.585-2 (b) (1) (ii) (A) of the notice incorrectly stated that a reasonable addition could be made for a portion of an increase in the amount of eligible loans outstanding at the close of the taxable year over the amount of those loans at the close of the preceding year. The notice could be misinterpreted to limit the reserve addition to an amount equal to the applicable percentage multiplied by the increase in eligible loans during the taxable year. The interpretation would not be in accord with section 585 (b) (2) and would be inconsistent with the example contained in § 1.585-2 (b) (2) (ii) (B) of the notice. The problem is remedied in the Treasury decision by deleting the words "preceding year" where they appear in the fourth sentence of § 1.585-2 (b) (1) (ii) (A) and inserting in lieu thereof "base year".

Section 1.585-2 (e) (2) (ii) (B), and (C) is modified to make prospective only the exclusion of commercial paper and debts evidenced by a security from the definition of "loan". Subdivision (F) has been added to § 1.585-2 (e) (2) (ii) to make clear that any loan which violates a Federal or State statute may not be included in the term "loan" for purposes of computing the loan base.

In response to taxpayer comments, § 1.585-2(e)(3)(i) has been clarified. The change is designed to prevent the exclusion from the loan base of legitimate loans made by a financial institution entering a lending market in which it had not previously participated.

#### DRAFTING INFORMATION

The principal author of this regulation was Lawrence M. Axelrod of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

#### ADOPTION OF AMENDMENTS TO THE REGULATIONS

Accordingly, the amendments to 26 CFR Part 1 are adopted as proposed subject to the following changes:

PARAGRAPH 1. Paragraph (a) of § 1.585-1 is amended by revising the fourth sentence to read as follows:

§ 1.585-1 *Reserves for losses on loans of banks.*

(a) *General rule.* . . . For each taxable year the taxpayer must include in its income tax return (or amended return) for that year a computation of the amount of the addition determined under this section showing the method used to determine that amount. . . .

PAR. 2. Section 1.585-2 is amended as follows:

1. Paragraph (a)(1) is amended by deleting the second sentence.

2. Paragraph (a)(2) is revised.

3. Paragraph (b)(1)(ii)(A) is amended by revising the first sentence, and by deleting "preceding year" from the fourth sentence and inserting in lieu thereof "base year".

4. Paragraph (b)(1)(iii) is amended by revising the first sentence.

5. Paragraph (c)(1)(ii) is revised.

6. Paragraph (d)(2) is amended by deleting ", in the case of taxable years beginning before 1988," from the first sentence.

7. Paragraph (e)(1)(i) is revised.

8. Paragraph (e)(2)(i)(A) is revised.

9. Paragraph (e)(2)(ii) is changed by revising subdivisions (B) and (C), by deleting "and" from the end of subdivision (D), by inserting "; and" in place of the period at the end of subdivision (E), and by adding a new subdivision (F).

10. Paragraph (e)(3)(i) is amended by adding a new sentence at the end.

The new and revised provisions read as follows:

§ 1.585-2 *Addition to reserve.*

(a) *In general.* . . .

(2) *Minimum addition.* For taxable years beginning after December 31, 1976, and

before January 1, 1988, a taxpayer to which this section applies shall make a minimum addition to the reserve for losses on loans as defined in paragraph (e)(2) of this section. For purposes of this subparagraph, the term "minimum addition" means an addition to the reserve for losses on loans in an amount equal to the lesser of (i) the amount allowable under section 585(b)(3)(A) and paragraph (c)(1)(ii) of this section, or (ii) the maximum amount allowable under section 585(b)(2) and paragraph (b) of this section. For taxable years beginning after December 31, 1987, a taxpayer to which this section applies shall make a minimum addition to the reserve for losses on loans for each taxable year in an amount equal to the amount allowable under section 585(b)(3)(A) and paragraph (c)(1)(ii) of this section.

(b) *Percentage method.*—(1) *In general.*

(ii) *Reserve less than allowable percentage of eligible loans.* (A) If the reserve for losses on loans as of the close of the base year is less than the allowable percentage for the taxable year multiplied by the eligible loans outstanding at the close of the base year, the amount determined under this subdivision for the taxable year is the amount necessary to increase the balance of the reserve for losses on loans as of the close of the taxable year to an amount equal to the allowable percentage for the taxable year multiplied by the eligible loans outstanding at the close of that year, except that the amount determined with respect to the reserve deficiency shall not exceed one-fifth of the reserve deficiency. . . .

(iii) *Reserve equal to or greater than allowable percentage and eligible loans have not declined.* If the reserve for losses on loans as of the close of the base year is equal to or greater than the allowable percentage for the taxable year multiplied by the eligible loans outstanding at the close of the base year and if the amount of eligible loans outstanding at the close of the base year, the amount determined under this subdivision is the amount necessary to increase the reserve to the greater of (A) the allowable percentage for the taxable year multiplied by the eligible loans outstanding at the close of the year, or (B) the balance of the reserve as of the close of the base year. . . .

(c) *Experience method.*—(1) *In general.*

(ii) *Six-year moving average amount.* The amount determined under this subdivision is the amount which bears the same ratio to loans outstanding at the close of the taxable year as (A) the total bad debts sustained during the taxable year and the 5 preceding taxable years (or, with the approval of the Commissioner, a shorter period), adjusted for recoveries of bad debts during such period, bears to (B) the sum of the loans outstanding at the close of such 6 (or fewer) taxable years. For purposes of applying this subdivision, a period shorter than 6 years generally would be appropriate only where there is a change in the type of a substantial portion of the loans outstanding such that the risk of loss is substantially increased. For example, if the major portion of a bank's portfolio of loans changes from agricultural loans to industrial loans which results in a substantial increase in the risk of loss, a period shorter than 6 years may be

appropriate. Similarly, a bank which has recently altered its lending practices to include in its portfolio of loans consumer-installment loans, when it had previously made only commercial loans, may also qualify to use a period shorter than six years. A decline in the general economic conditions in the area, which substantially increase the risk of loss, is a relevant factor which may be considered. In any case, however, approval to use a shorter period will not be granted unless the taxpayer supplies specific evidence that the loans outstanding at the close of the taxable years for the shorter period requested are not comparable in nature and risk to loans outstanding at the close of the six taxable years. The fact that a bank's bad debt experience has shown a substantial increase is not, by itself, sufficient to justify use of a shorter period. If approval is granted to use a shorter period, the experience for those taxable years which are excluded shall not be used for any subsequent year. A request for approval to exclude the experience of a prior taxable year shall not be considered unless it is sent to the Commissioner at least 30 days before the close of the first taxable year for which such approval is requested.

(e) *Definitions.*—(1) *Base year.*—(i) *Percentage method.* For purposes of paragraph (b) of this section (relating to the percentage method), the term "base year" means: For years beginning before 1976, the last taxable year beginning on or before July 11, 1969; for taxable years beginning after 1975 but before 1982, the last taxable year beginning before 1976; and, for taxable years beginning after 1981, the last taxable year beginning before 1982. However, for purposes of section 585 (b) (2) (A) the term "base year" means the last taxable year before the most recent adoption of the percentage method, if later than the base year as determined under the preceding sentence.

(2) *Loan.*—(i) *General rule.* . . . (A) An overdraft in one or more deposit accounts by a customer in good faith whether or not other deposit accounts of the same customer have balances in excess of the overdraft;

(ii) *Exceptions.* . . .

(B) For taxable years beginning after December 31, 1976, commercial paper, however acquired by the bank, including, for example, short-term promissory notes which may be purchased on the open market;

(C) For taxable years beginning after December 31, 1976, a debt evidenced by a security (as defined in section 165 (g) (2) (C) and the regulations thereunder);

(F) Any transaction which is in violation of a Federal or State statute that governs the activities of the financial institution.

(3) *Eligible loan.*—(i) *General rule.* . . . Nothing within the preceding sentence will be construed to exclude the term "eligible loan" a bona fide loan in a new market or under a novel repayment arrangement if the likelihood of nonrepayment is at least as great as that of other customer loans of the financial institution.

PAR. 3. Paragraph (a) of § 1.585-3 is amended by revising the last sentence to read as follows:

§ 1.585-3 *Special rules.*

(a) *Treatment of reserve.* . . . No item other than a loan as defined in § 1.585-2 (e) (2) shall be charged to the reserve for losses on loans.

(Secs. 585(b)(4), 7805 of the Internal Revenue Code of 1954 (83 Stat. 618, 68A Stat. 917; (26 U.S.C. 585(b)(4), 7805).)

JEROME KURTZ,  
Commissioner of  
Internal Revenue.

Approved: January 14, 1978.

DONALD C. LUBICK,  
Acting Assistant Secretary  
of the Treasury.

The Income Tax Regulations (26 CFR Part 1) are amended by adding the following new sections immediately after § 1.584-6:

Sec.

§ 1.585-1 Reserve for losses on loans of banks.

§ 1.585-2 Addition to reserve.

§ 1.585-3 Special rules.

§ 1.585-4 Reorganizations and asset acquisitions.

§ 1.585-1 Reserve for losses on loans of banks.

(a) *General rule.* As an alternative to a deduction from gross income under section 166(a) for specific debts which become worthless in whole or in part, a financial institution to which section 585 and this section apply shall be allowed a deduction under section 166(c) for a reasonable addition to a reserve for bad debts provided such financial institution has adopted or adopts the reserve method of treating bad debts in accordance with paragraph (b) of § 1.166-1. In the case of such a taxpayer the amount of the reasonable addition to such reserve for a taxable year beginning after July 11, 1969, shall be an amount determined by the taxpayer which does not exceed the amount computed under § 1.585-2. Such reasonable addition for the taxable year shall be an amount at least equal to the amount provided by § 1.585-2(a)(2). For each taxable year the taxpayer must include in its income tax return (or amended return) for that year a computation of the amount of the addition determined under this section showing the method used to determine that amount. The use of a particular method in the return for a taxable year is not a binding election by the taxpayer to apply such method either for such taxable year or for subsequent taxable years. A financial institution to which section 585 and this section apply which adopts the reserve method is not entitled to charge off any bad debts pursuant to section

166(a) with respect to a loan (as defined in § 1.585-2(e)(2)). Except as provided by § 1.585-3, the reserve for bad debts of a financial institution to which section 585 and this section apply shall be established and maintained in the same manner as is provided by section 166(c) and the regulations thereunder with respect to reserves for bad debts. Except as provided by this section, no deduction is allowable for an addition to a reserve for losses on loans as defined in § 1.585-2(e)(2) of a financial institution to which section 585 and this section apply. For rules relating to deduction with respect to debts which are not loans (as defined in § 1.585-2(e)(2)), see section 166(a) and the regulations thereunder. For rules relating to a debt evidenced by a security (as defined in section 165(g)(2)(C)), see sections 166 (a), (b), and (c) and 582(a) and the regulations thereunder. For the definition of certain terms, see paragraph (e) of § 1.585-2. For rules relating to a transaction to which section 381(a) applies, see § 1.585-4.

(b) *Application of section.* Section 585 and this section apply only to the following financial institutions—

(1) Any bank (as defined in section 581 and the regulations thereunder) other than a mutual savings bank, domestic building and loan association, or cooperative bank, to which section 593 applies, and

(2) Any corporation to which subparagraph (1) of this paragraph would apply except for the fact that it is a foreign corporation and in the case of any such foreign corporation, the rules provided by section 585, this section, §§ 1.585-2, 1.585-3, and 1.585-4 apply only with respect to loans outstanding the interest on which is effectively connected with the conduct of a banking business within the United States.

§ 1.585-2 Addition to reserve.

(a) *In general.*—(1) *Maximum addition.* For taxable years beginning before January 1, 1988, the maximum reasonable addition to the reserve for losses on loans as defined in paragraph (e)(2) of this section is the amount allowable under the percentage method provided by paragraph (b) of this section or the experience method provided by paragraph (c) of this section, whichever is greater. For taxable years beginning after December 31, 1987, the maximum reasonable addition to the reserve for losses on loans is the amount determined under the experience method provided by paragraph (c) of this section.

(2) *Minimum addition.* For taxable years beginning after December 31, 1976, and before January 1, 1988, a taxpayer to which this section applies shall make a minimum addition to the reserve for losses on loans as defined

in paragraph (e)(2) of this section. For purposes of this subparagraph, the term "minimum addition" means an addition to the reserve for losses on loans in an amount equal to the lesser of (i) the amount allowable under section 585 (b)(3)(A) and paragraph (c)(1)(ii) of this section, or (ii) the maximum amount allowable under section 585 (b)(2) and paragraph (b) of this section. For taxable years beginning after December 31, 1987, a taxpayer to which this section applies shall make a minimum addition to the reserve for losses on loans for each taxable year in an amount equal to the amount allowable under section 585 (b)(3)(A) and paragraph (c)(1)(ii) of this section.

(b) *Percentage method.*—(1) *In general.*—(i) *Maximum addition.* Except as limited under subparagraph (2) of this paragraph, the maximum reasonable addition to the reserve for losses on loans under the percentage method for a taxable year is the amount determined under subdivision (ii), (iii), or (iv) of this subparagraph, whichever is applicable. For purposes of this paragraph, the term "allowable percentage" means 1.8 percent for taxable years beginning before 1976; 1.2 percent for taxable years beginning after 1975 but before 1982; and 0.6 percent for taxable years beginning after 1981 and before 1988. This paragraph does not apply for taxable years beginning after 1987.

(ii) *Reserve less than allowable percentage of eligible loans.* (A) If the reserve for losses on loans as of the close of the base year is less than the allowable percentage for the taxable year multiplied by the eligible loans outstanding at the close of the base year, the amount determined under this subdivision for the taxable year is the amount necessary to increase the balance of the reserve for losses on loans as of the close of the taxable year to an amount equal to the allowable percentage for the taxable year multiplied by the eligible loans outstanding at the close of that year, except that the amount determined with respect to the reserve deficiency shall not exceed one-fifth of the reserve deficiency. For purposes of this section, the term "reserve deficiency" means the excess of the allowable percentage for the taxable year multiplied by the eligible loans outstanding at the close of the base year over the reserve for losses on loans as of the close of the base year. Where a taxpayer has recoveries of bad debts for a taxable year which exceed the bad debts sustained for such year, the taxpayer is not required to reduce its otherwise permissible current addition by the amount of the net recovery. A reasonable addition attributable to an increase in eligible loans outstanding at the close of the taxable year over eligi-

ble loans outstanding at the close of the base year may be made only for the portion of such increase which does not exceed the excess of eligible loans outstanding at the close of the taxable year over the sum of the amount of eligible loans outstanding at the close of the base year and the amount of previous increases in such loans for which an addition was made in taxable years ending after the close of the base year. For purposes of this subdivision, the order in which the factors which make up the annual reserve addition shall be claimed is:

(1) An amount equal to one-fifth of the reserve deficiency;

(2) Net bad debts charged to the reserve; and

(3) An amount attributable to an increase in the amount of eligible loans outstanding.

(B) For its first taxable year, a newly organized financial institution to which § 1.585-1 and this section apply shall be considered to have no reserve deficiency. For example, a new financial institution would compute its annual reserve addition by including in such addition an amount not in excess of the sum of (1) the amount of its net bad debts charged to the reserve for the taxable year, and (2) the allowable percentage of the increase in its eligible loans outstanding at the close of the taxable year over the amount of its loans outstanding (zero) at the end of the year preceding its first taxable year. Such amount would be subject to the 0.6 percent limitations provided in subparagraph (2) of the paragraph.

(C) The application of the rules provided by this subdivision may be illustrated by the following example:

*Example.* The X Bank is a commercial bank which has a calendar year as its taxable year. X adopted the reserve method of accounting for bad debts in 1950. On December 31, 1969, X has \$1,000,000 of outstanding eligible loans and a balance of \$13,000 in its reserve for losses on loans. The base year is 1969 and, consequently, X has a reserve deficiency of \$5,000 ( $(1.8\% \times \$1,000,000) - \$13,000$ ).

(a) During 1970, X has net bad debts of \$1,000 charged to the reserve for losses on loans. On December 31, 1970, X has \$1,050,000 of outstanding eligible loans. The maximum reasonable addition under the percentage method is \$2,900 which consists of \$1,000 of reserve deficiency ( $\frac{1}{5} \times \$5,000$ ), the \$1,000 in net bad debts charged to the reserve for losses on loans, and \$900 attributable to the increase in the balance of eligible loans ( $1.8\% \times (\$1,050,000 - \$1,000,000)$ ). Assuming that X makes an addition to the reserve for losses on loans of \$2,900 for the year, the balance of the reserve as of December 31, 1970 is \$14,900 ( $\$13,000 - \$1,000 + \$2,900$ ).

(b) During 1971, X has net bad debts of \$1,000 charged to the reserve for losses on loans. On December 31, 1971, X has \$800,000 of outstanding eligible loans. The allowable percentage of eligible loans is \$14,400 ( $1.8\% \times \$800,000$ ). The maximum

reasonable addition under the percentage method is \$500 which is a portion of one-fifth of the reserve deficiency. Assuming that X makes an addition to the reserve for losses on loans of \$500 for the year, the balance of the reserve as of December 31, 1971, is \$14,400 ( $\$14,900 - \$1,000 + \$500$ ).

(c) During 1972, X has net bad debts of \$600 charged to the reserve for losses on loans. On December 31, 1972, X has \$850,000 of outstanding eligible loans. The allowable percentage of eligible loans is \$15,300 ( $1.8\% \times \$850,000$ ). The maximum reasonable addition under the percentage method is \$1,500 which consists of \$1,000 of reserve deficiency ( $\frac{1}{5} \times \$5,000$ ) and \$500 of the net bad debts charged to the reserve for losses on loans in 1971. Even though the full addition with respect to the reserve deficiency in 1971 was not made, the amount of the addition that can be made in 1972 with respect to the reserve deficiency is limited to one-fifth of such deficiency. Assuming that X makes an addition to the reserve for losses on loans of \$1,500 for the year, the balance of the reserve as of December 31, 1972, is \$15,300 ( $\$14,400 - \$600 + \$1,500$ ).

(d) During 1973, X did not have any net bad debts charged to the reserve for losses on loans. On December 31, 1973, X has \$1,000,000 of outstanding eligible loans. The allowable percentage of eligible loans is \$18,000 ( $1.8\% \times \$1,000,000$ ). The maximum reasonable addition under the percentage method is \$2,100 which consists of \$1,000 of reserve deficiency ( $\frac{1}{5} \times \$5,000$ ), \$500 of net bad debts charged to the reserve for losses in 1971, and \$600 of net bad debts charged to the reserve in 1972. Although outstanding eligible loans increased from \$850,000 in 1972 to \$1,000,000 in 1973, no addition is permitted with respect to the increase because the amount of eligible loans outstanding at the close of 1973 (\$1,000,000) does not exceed the sum of the amount of such loans at the close of the base year (\$1,000,000) and the amount of previous increases in such loans for which an addition was made in taxable years ending after the close of the base year (\$500,000 loan increase in 1970). Assuming that X makes an addition to the reserve for losses on loans of \$2,100, the balance of the reserve as of December 31, 1973, is \$17,400 ( $\$15,300 + \$2,100$ ).

(iii) *Reserve equal to or greater than allowable percentage and eligible loans have not declined.* If the reserve for losses on loans as of the close of the base year is equal to or greater than the allowable percentage for the taxable year multiplied by the eligible loans outstanding at the close of the base year and if the amount of eligible loans outstanding at the close of the taxable year is equal to or greater than the amount of eligible loans outstanding at the close of the base year, the amount determined under this subdivision is the amount necessary to increase the reserve to the greater of (A) the allowable percentage for the taxable year multiplied by the eligible loans outstanding at the close of the year, or (B) the balance of the reserve as of the close of the base year. The application of the rule provided by this subdivision may be illustrated by the following example:

*Example.* The M Bank is a commercial bank which has a calendar year as its tax-

able year. M adopted the reserve method of accounting for bad debts in 1950. On December 31, 1969, M has \$1,000,000 of outstanding eligible loans and a balance of \$20,000 in its reserve for losses on loans.

(a) During 1970, M has net bad debts of \$1,000 charged to the reserve for losses on loans. On December 31, 1970, M has \$1,100,000 of outstanding eligible loans. The allowable percentage of eligible loans is \$19,800 ( $1.8\% \times \$1,100,000$ ). The maximum reasonable addition under the percentage method is \$1,000 which is the amount sufficient to increase the balance of the reserve as of the close of the taxable year to the balance of the reserve as of the close of the 1969 base year (\$20,000). Assuming that M makes an addition to the reserve for losses on loans of \$1,000 for the year, the balance of the reserve as of December 31, 1970, is \$20,000 ( $\$20,000 - \$1,000 + \$1,000$ ).

(b) During 1971, M has net bad debts of \$1,000 charged to the reserve for losses on loans. On December 31, 1971, M has \$1,300,000 of outstanding eligible loans. The allowable percentage of eligible loans is \$23,400 ( $1.8\% \times \$1,300,000$ ). The maximum reasonable addition under the percentage method is \$4,400 which is the amount sufficient to increase the balance of the reserve to the allowable percentage of eligible loans outstanding at the close of the taxable year. Assuming that M makes an addition to the reserve for losses on loans of \$4,400 for the year, the balance of the reserve as of December 31, 1971, is \$23,400 ( $\$20,000 - \$1,000 + \$4,400$ ).

(c) During 1972, M has net bad debts of \$1,000 charged to the reserve for losses on loans. On December 31, 1972, M has \$1,200,000 of outstanding eligible loans. The allowable percentage of eligible loans is \$21,600 ( $1.8\% \times \$1,200,000$ ). No reasonable addition may be made under the percentage method because the reserve for losses on loans (\$22,400, i.e.,  $\$23,400 - \$1,000$ ) is greater than the allowable percentage of eligible loans outstanding at the close of the taxable year (\$21,600) and the balance of the reserve as of the close of the base year (\$20,000). Assuming that no amount is added under the experience method provided by paragraph (c) of this section, the balance of the reserve for losses on loans as of December 31, 1972, is \$22,400 ( $\$23,400 - \$1,000$ ).

(d) During 1973, M has net bad debts of \$1,000 charged to the reserve for losses on loans. On December 31, 1973, M has \$1,200,000 of outstanding eligible loans. The allowable percentage of eligible loans is \$21,600 ( $1.8\% \times \$1,200,000$ ). The maximum reasonable addition under the percentage method is \$200 which is the amount sufficient to increase the reserve for losses on loans to the allowable percentage of eligible loans outstanding at the close of the taxable year. Assuming that M makes an addition to the reserve for losses on loans of \$200 for the year, the balance of the reserve as of December 31, 1973, is \$21,600 ( $\$22,400 - \$1,000 + \$200$ ).

(iv) *Reserve greater than allowable percentage and eligible loans have declined.* If the reserve for losses on loans as of the close of the base year is equal to or greater than the allowable percentage of eligible loans outstanding at such time and if the amount of eligible loans at the close of the taxable year is less than the amount of eligible loans outstanding at the close

of the base year, the amount determined under this subdivision is the amount necessary to increase the balance of the reserve to the amount which bears the same ratio to eligible loans outstanding at the close of the taxable year as the balance of the reserve as of the close of the base year bears to the amount of eligible loans outstanding at the close of the base year. The application of the rule provided by this subdivision may be illustrated by the following example:

*Example.* The N Bank is a commercial bank which has a calendar year as its taxable year. N adopted the reserve method of accounting for bad debts in 1950. On December 31, 1969, N has \$1,000,000 of outstanding eligible loans and a balance of \$20,000 in its reserve for losses on loans.

(a) During 1970, N has net bad debts of \$3,000 charged to the reserve for losses on loans. On December 31, 1970, N has \$900,000 of outstanding eligible loans. The maximum reasonable addition under the percentage method is \$1,000, which is the amount necessary to increase the balance of the reserve to the amount (\$18,000) which bears the same ratio to eligible loans outstanding at the close of the taxable year (\$900,000) as the balance of the reserve as of the close of the base year (\$20,000) bears to the amount of the eligible loans outstanding at the close of the base year (\$1,000,000). Assuming that N makes an addition to the reserve for losses on loans of \$1,000 for the year, the balance of the reserve as of December 31, 1970, is \$18,000 ( $\$20,000 - \$3,000 + \$1,000$ ).

(b) During 1971, N has net bad debts of \$1,000 charged to the reserve for losses on loans. On December 31, 1971, N has \$1,100,000 of outstanding eligible loans. The maximum reasonable addition under the percentage method, determined under subdivision (iii) of this subparagraph, is \$3,000 which is the amount necessary to increase the balance of the reserve to the greater of the allowable percentage of eligible loans outstanding at the close of the taxable year (\$19,800) or the balance of the reserve at the close of the base year (\$20,000). Assuming that N makes an addition to the reserve for losses on loans of \$3,000 for the year, the balance of the reserve as of December 31, 1971 is \$20,000 ( $\$18,000 - \$1,000 + \$3,000$ ).

(2) *Limitations.* Notwithstanding any other provision of this paragraph, the maximum reasonable addition to the reserve for losses on loans under the percentage method shall not exceed the greater of—

(i) Six-tenths of 1 percent of the eligible loans outstanding at the close of the taxable year, or

(ii) An amount sufficient to increase the reserve for losses on loans at the close of the taxable year to six-tenths of 1 percent of the eligible loans outstanding at the close of the taxable year.

The application of the rules provided by this subparagraph may be illustrated by the following example:

*Example.* The Y Bank begins business as a commercial bank on July 1, 1974. Y adopts the calendar year as its taxable year and the reserve method of accounting for bad debts.

(a) During 1974, Y has net bad debts of \$1,000. On December 31, 1974, Y has \$1,000,000 of outstanding eligible loans. Under subparagraph (1)(ii)(B) of this paragraph, because Y is a newly-organized financial institution, there is no reserve deficiency. Except for the limitations of this subparagraph, the maximum reasonable addition under subparagraph (1)(ii)(A) of this paragraph would be the amount of net bad debts charged to the reserve for losses (\$1,000) plus the allowable percentage of outstanding eligible loans at the close of the taxable year (\$18,000 ( $1.8\% \times \$1,000,000$ )). However, because of the limitations of this subparagraph, the maximum reasonable addition to the reserve for losses on loans under the percentage method is an amount sufficient to increase the balance of the reserve for losses on loans to \$6,000 which is 0.6 percent of the eligible loans outstanding at the close of the taxable year. Assuming that Y makes an addition to the reserve for losses on loans of \$7,000 for the year, the balance of the reserve as of December 31, 1974, is \$6,000 ( $\$7,000 - \$1,000$ ). The \$7,000 consists of the \$1,000 in net bad debts and \$6,000 attributable to the increase in eligible loans outstanding.

(b) During 1975, Y has net bad debts of \$1,000 charged to the reserve for losses on loans. On December 31, 1975, Y has \$1,000,000 of outstanding eligible loans. Except for the limitations of this subparagraph, the maximum reasonable addition under subparagraph (1)(ii)(A) of this paragraph would be the amount of net bad debts charged to the reserve for losses (\$1,000) plus an amount attributable to the increase in the amount of eligible loans outstanding with respect to which no reasonable addition was allowed in 1974 (\$12,000, i.e.,  $\$18,000 - \$6,000$ ). However, because of the limitations of this paragraph, the maximum reasonable addition to the reserve for losses on loans under the percentage method is \$6,000 which is an amount equal to 0.6 percent of the eligible loans outstanding at the close of the taxable year. This amount consists of net bad debts of \$1,000 and \$5,000 attributable to a portion of the increase in eligible loans in 1974 with respect to which no reasonable addition was allowable for 1974. Assuming that Y makes an addition to the reserve for losses on loans of \$6,000 for the year, the balance of the reserve as of December 31, 1975, is \$11,000 ( $\$6,000 - \$1,000 + \$6,000$ ).

(c) During 1976, Y has net bad debts charged to the reserve for losses on loans of \$1,000. On December 31, 1976, Y has \$1,000,000 in outstanding eligible loans. At the close of 1975 (Y's base year for 1976), the amount of outstanding eligible loans was also \$1,000,000. Consequently, there is a reserve deficiency of \$1,000 ( $(1.2\% \times \$1,000,000) - \$11,000$ ). The maximum reasonable addition to the reserve for losses under subparagraph (1)(ii)(A) of this paragraph is \$1,200 which consists of one-fifth of the reserve deficiency ( $\$1,000 \times \frac{1}{5} = \$200$ ) and the net bad debts charged to the reserve for losses on loans for the year (\$1,000). Because that amount is less than 0.6 percent of the eligible loans outstanding at the close of the taxable year ( $0.6\% \times \$1,000,000 = \$6,000$ ), the limitations of this subparagraph do not apply. Assuming that Y makes an addition to the reserve for losses on loans of \$1,200 for the year, the balance of the reserve as of December 31, 1976, is \$11,200 ( $\$11,000 - \$1,000 + \$1,200$ ).

(c) *Experience method—(1) In general.*—(i) *Maximum addition.* The amount determined under this paragraph for a taxable year is the amount necessary to increase the balance of the reserve for losses on loans (as of the close of the taxable year) to the greater of the amount determined under subdivision (ii) or (iii) of this subparagraph. For special rules for a new financial institution, see subparagraph (2) of this paragraph.

(ii) *Six-year moving average amount.* The amount determined under this subdivision is the amount which bears the same ratio to loans outstanding at the close of the taxable year as (A) the total bad debts sustained during the taxable year and the 5 preceding taxable years (or, with the approval of the Commissioner, a shorter period), adjusted for recoveries of bad debts during such period, bears to (B) the sum of the loans outstanding at the close of such 6 (or fewer) taxable years. For purposes of applying this subdivision, a period shorter than 6 years generally would be appropriate only where there is a change in the type of a substantial portion of the loans outstanding such that the risk of loss is substantially increased. For example, if the major portion of a bank's portfolio of loans changes from agricultural loans to industrial loans which results in a substantial increase in the risk of loss, a period shorter than 6 years may be appropriate. Similarly, a bank which has recently altered its lending practices to include in its portfolio of loans consumer-installment loans, when it had previously made only commercial loans, may also qualify to use a period shorter than six years. A decline in the general economic conditions in the area, which substantially increase the risk of loss, is a relevant factor which may be considered. In any case, however, approval to use a shorter period will not be granted unless the taxpayer supplies specific evidence that the loans outstanding at the close of the taxable years for the shorter period requested are not comparable in nature and risk to loans outstanding at the close of the six taxable years. The fact that a bank's bad debt experience has shown a substantial increase is not, by itself, sufficient to justify use of a shorter period. If approval is granted to use a shorter period, the experience for those taxable years which are excluded shall not be used for any subsequent year. A request for approval to exclude the experience of a prior taxable year shall not be considered unless it is sent to the Commissioner at least 30 days before the close of the first taxable year for which such approval is requested.

(iii) *Base year amount.* The amount determined under this subdivision is the lower of (A) the balance of the re-

serve as of the close of the base year, or (B) if the amount of loans outstanding at the close of the taxable year is less than the amount of loans outstanding at the close of the base year, the amount which bears the same ratio to loans outstanding at the close of the taxable year as the balance of the reserve as of the close of the base year bears to the amount of loans outstanding at the close of the base year.

(2) *Special rules for new financial institutions*—(i) *In general.* In the case of any taxable year preceded by less than 5 authorization years (as defined in paragraph (e)(5) of this section), subparagraph (1) of this paragraph shall be applied with the adjustments provided by subdivision (ii) of this subparagraph.

(ii) *Adjustments.* (A) The total bad debts for the 6-year period computed under subparagraph (1)(ii)(A) of this paragraph shall be the sum of:

(1) The bad debts sustained by the taxpayer during its authorization years, adjusted for recoveries of bad debts for such years; and

(2) That fraction of the total bad debts sustained by a comparable bank (as defined in paragraph (e)(7) of this section) during the comparison years (as defined in paragraph (e)(6) of this section), adjusted for recoveries of bad debts for such years, which bears the same ratio to such total as the average loans outstanding of the taxpayer during the authorization years bears to the average loans outstanding of the comparable bank during the comparison years.

(B) The total amount of loans outstanding during the 6-year period computed under subparagraph (1)(ii)(B) of this paragraph shall be six times the average loans outstanding of the taxpayer during the authorization years.

(d) *Change in accounting method from specific charge-off method to reserve method of treating bad debts*—(1) *In general.* If a bank is granted permission in accordance with § 1.446-1(e)(3) to change its method of accounting for bad debts from a method under which specific bad debt items are deducted to the reserve method of treating bad debts, the taxpayer shall effect the change as provided in subparagraphs (2) and (3) of this paragraph.

(2) *Initial balance of the reserve.* The initial balance of the reserve at the close of the year of change shall be no less than the minimum addition as described in paragraph (a)(2) of this section and shall be no larger than the greater of—

(i) The allowable percentage of eligible loans outstanding at the close of the taxable year of change; or

(ii) The amount which bears the same ratio to loans outstanding at the close of the taxable year as the total bad debts sustained during the taxable year and the 5 preceding taxable years

(or, with the approval of the Commissioner, a shorter period), adjusted for recoveries of bad debts during such period, bears to the sum of the loans outstanding at the close of such 6 or fewer taxable years.

In the case of taxable years beginning after 1987, the initial balance of the reserve at the end of the year of change shall be the amount specified in subdivision (ii) of this subparagraph.

(3) *Deduction with respect to initial balance.* The deduction with respect to the initial balance of the reserve at the close of the taxable year of change, determined under subparagraph (2) of this paragraph, is allowable ratably over a period of 10 years commencing with the taxable year of change (or a shorter period as may be approved by the Commissioner). Thus, the bad debt deduction under section 166 for the taxable year of change will consist of the amount of debts determined to be wholly or partially worthless and charged-off during such taxable year plus one-tenth (if a 10-year period is used) of the amount of the reserve determined under subparagraph (2) of this paragraph. For each of the 9 taxable years following the taxable year of change, the bad debt deduction will consist of the reasonable addition to the reserve for bad debts for each such year as provided by section 585, as otherwise determined, plus one-tenth of the amount determined to be the initial balance of the reserve under subparagraph (2) of this paragraph. The amount established as a bad debt reserve for the taxable year of change under subparagraph (2) of this paragraph shall be considered as the balance of the reserve for purposes of determining the amount of subsequent additions to such reserve, even though the entire amount of the reserve may not have been deducted under section 166(c) because of the requirement that it be deducted over a number of years.

(e) *Definitions*—(1) *Base year*—(i) *Percentage method.* For purposes of paragraph (b) of this section (relating to the percentage method), the term "base year" means: For years beginning before 1976, the last taxable year beginning on or before July 11, 1969; for taxable years beginning after 1975 but before 1982, the last taxable year beginning before 1976; and, for taxable years beginning after 1981, the last taxable year beginning before 1982. However, for purposes of section 585(b)(2)(A) the term "base year" means the last taxable year before the most recent adoption of the percentage method, if later than the base year as determined under the preceding sentence.

(ii) *Experience method.* For purposes of paragraph (c) of this section (relating to the experience method), the

term "base year" means (A) the last taxable year before the most recent adoption of the experience method, or (B) the last taxable year beginning on or before July 11, 1969, which ever is later; and for taxable years beginning after 1987, the last taxable year beginning before 1988.

(iii) *Example.* The application of the rules provided by this subparagraph may be illustrated by the following example:

*Example.* The T Bank is a commercial bank which has a calendar year as its taxable year. T adopted the reserve method of accounting for bad debts in 1950. On December 31, 1969, T has \$1,000,000 of outstanding eligible loans and a balance of \$19,300 in its reserve for losses on loans.

(a) During 1970, T has net bad debts of \$1,000 charged to the reserve for losses on loans. On December 31, 1970, T has \$1,050,000 of outstanding eligible loans. T elects the percentage method. The base year is 1969. The maximum reasonable addition under the percentage method of \$1,000 which is the amount sufficient to increase the balance of the reserve as of the close of the taxable year to the balance of the reserve as of the close of the base year 1969 (\$19,300). Assuming that T makes an addition to the reserve for losses on loans of \$1,000 for the year, the balance of the reserve for losses on loans as of December 31, 1970, is \$19,300 (\$19,300 + \$1,000).

(b) During 1971, T has net bad debts of \$8,000 charged to the reserve for losses on loans. On December 31, 1971, T has \$1,100,000 of outstanding eligible loans. T elects the experience method. The base year is 1970. The maximum reasonable addition under the experience method is \$8,000 which is the amount sufficient to increase the balance of the reserve as of the close of the taxable year to the balance of the reserve as of the close of the 1970 base year (\$19,300). Assuming that T makes an addition to the reserve for losses on loans of \$8,000 for the year, the balance of the reserve for losses on loans as of December 31, 1971, is \$19,300 (\$19,300 + \$8,000 + \$8,000).

(c) During 1972, T has net bad debts of \$1,000 charged to the reserve for losses on loans. On December 31, 1972, T has \$1,200,000 of outstanding eligible loans. T elects the percentage method. The base year is 1971 and there is a reserve deficiency of \$500  $(1.8\% \times \$1,100,000) - \$19,300$ . The maximum reasonable addition under the percentage method is \$2,900 which consists of \$100 of reserve deficiency  $(\frac{1}{2} \times \$500)$ , the \$1,000 in net bad debts charged to the reserve for losses on loans, and \$1,800 attributable to the increase in the balance of eligible loans  $(1.8\% \times (\$1,200,000 - \$1,100,000))$ . Assuming that T makes an addition to the reserve for losses on loans of \$2,900 for the year, the balance of the reserve for losses on loans as of December 31, 1972, is \$21,200 (\$19,300 + \$1,000 + \$2,900).

(2) *Loan*—(i) *General rule.* For purposes of this section and §§ 1.585-1, 1.585-3, and 1.585-4, the term "loan" means debt as the term "debt" is used in section 166 and the regulations thereunder. The term "loan" includes (but is not limited to) the following items:

(A) An overdraft in one or more deposit accounts by a customer in good

faith whether or not other deposit accounts of the same customer have balances in excess of the overdraft;

(B) A bankers acceptance purchased or discounted by a bank; and

(C) A loan participation to the extent that the taxpayer bears a risk of loss.

For purposes of (B) of this subdivision (i), a bankers acceptance shall be considered as a loan made by the bank which purchased or discounted the bankers acceptance and not a loan made by the originating bank.

(ii) *Exceptions.* Notwithstanding the provisions of subdivision (i) of this subparagraph, the term "loan" does not include the following items:

(A) Discount or interest receivable reflected in the face amount of an outstanding loan, which discount or interest has not been included in gross income;

(B) For taxable years beginning after December 31, 1976, commercial paper, however acquired by the bank, including, for example, short-term promissory notes which may be purchased on the open market;

(C) For taxable years beginning after December 31, 1976, a debt evidenced by a security (as defined in section 165(g)(2)(C) and the regulations thereunder);

(D) Any loan which is entered into or acquired for the primary purpose of enlarging the otherwise available bad debt deduction;

(E) Loans which have been contractually committed to the extent that funds have not been disbursed to the borrower or disbursed on behalf of the borrower; and

(F) Any transaction which is in violation of a Federal or State statute that governs the activities of the financial institution.

(3) *Eligible loan*—(i) *General rule.* For purposes of this section and §§ 1.585-3 and 1.585-4, the term "eligible loan" means a loan (as defined in subparagraph (2) of this paragraph) which is incurred in the course of the normal customer loan activities of a financial institution and which is not a loan described in subdivision (ii) of this subparagraph. Nothing within the preceding sentence will be construed to exclude from the term "eligible loan" a bona fide loan in a new market or under a novel repayment arrangement if the likelihood of nonrepayment is at least as great as that of other customer loans of the financial institution.

(ii) *Exceptions.* Loans which do not constitute eligible loans include:

(A) A loan to a bank (as defined in section 581 and the regulations thereunder) or to a domestic branch of a foreign corporation to which § 1.585-1 applies, including a repurchase transaction or other similar transaction;

(B) Bank funds on deposit in any bank (foreign or domestic) such as a

deposit represented by a certificate of deposit or any other form of instrument evidencing the deposit of a sum of money with the issuing bank that will be available on or after a stated date or period of time;

(C) A sale or loan of Federal funds irrespective of the purchaser or borrower;

(D) A loan, to the extent that it is directly or indirectly made to, guaranteed by, or insured by the United States, a possession or instrumentality thereof, or a State or political subdivision thereof; and

(E) A loan which is secured by a deposit in the lending financial institution or in a bank as defined in section 581 or a domestic branch of a foreign corporation to which this section applies to the extent that the financial institution has control over withdrawal of such deposit.

(iii) *Definition of loan which is secured by a deposit.* For purposes of subdivision (ii)(E) of this subparagraph—

(A) A loan is considered secured if the loan is on the security of any instrument which makes the deposit specific security for the payment of the loan, provided that such instrument is of such a nature that in the event of default the deposit could be subjected to the satisfaction of the loan;

(B) A deposit includes a guarantee deposit in the form of a "holdback", pledged collateral that has been reduced to cash, and loan payments that are maintained in a separate account; and

(C) Control over the withdrawal of a deposit is evidenced by possession of a passbook, certificate of deposit, note, or other similar instrument the possession of which is normally required to permit withdrawal. The lending financial institution does not have control over withdrawal of the deposit if the deposit can be withdrawn without consent of the lending financial institution. Thus, the lending financial institution normally does not have control over the withdrawal of a deposit in an account merely because the borrower agrees to maintain a minimum, average, or compensating balance.

(4) *Predecessor.* For purposes of this section, the term "predecessor" means (i) any taxpayer which transferred more than 50 percent of the total amount of its assets to the taxpayer and is described in § 1.585-1, or (ii) any predecessor of such predecessor.

(5) *Authorization years.* For purposes of this section, the term "authorization years" means the number of years, containing 12 complete months, between (i) the first day of the first full taxable year of the taxpayer for which it (or any predecessor) was authorized to do business as a financial institution described in § 1.585-1, and (ii) the taxable year.

(6) *Comparison years.* For purposes of this section, the term "comparison years" means those consecutive taxable years containing 12 complete months of a comparable bank, the last of which ends within 12 months immediately preceding the beginning of the first taxable year of the taxpayer, which are equal in number to six minus the number of authorization years of the taxpayer.

(7) *Comparable bank.* For purposes of this section, the term "comparable bank" means all the financial institutions described in § 1.585-1 located within the same Federal Reserve district.

(8) *Average loans outstanding.* For purposes of this section, the term "average loans outstanding" means the sum of the loans outstanding at the close of each taxable year of a period divided by the number of taxable years in such period.

(9) *Adjusted for recoveries of bad debts.* For purposes of this section, the term "adjusted for recoveries of bad debts" means an adjustment for the full amount recovered with respect to bad debts previously charged to the reserve during any of the applicable taxable years.

#### § 1.585-3 Special rules.

(a) *Treatment of reserve.* For taxable years beginning after July 11, 1969, if a financial institution to which section 585 and § 1.585-1 apply establishes a reserve pursuant to section 166(c), any bad debt in respect of a loan (whether or not such loan is an eligible loan) must be charged to the reserve for losses on loans provided for by § 1.585-1 for the taxable year in which the bad debt occurs. For such a year, any recovery of a bad debt previously charged to the reserve account in respect of a loan (whether or not such loan is an eligible loan) must be credited to such reserve in the taxable year of recovery regardless of whether such credit causes the reserve to exceed the permissible amount. If, as a result of net recoveries during the taxable year, the reserve balance exceeds the permissible amount, a taxpayer is not required to report the excess as taxable income. In such a case, the excess over the otherwise permissible amount in the reserve account precludes current reasonable additions to the reserve and may affect future reasonable additions. Recoveries of bad debts which were not charged to the reserve shall not be credited to such reserve, but shall be treated as taxable income subject to the provisions of § 1.111. No item other than a loan as defined in § 1.585-2 (e)(2) shall be charged to the reserve for losses on loans.

(b) *Accounting for reserve.* A financial institution to which section 585 and § 1.585-1 apply which establishes a

reserve pursuant to section 166(c) shall establish and maintain a permanent record of such reserve. Copies of Federal income tax returns and amended returns with attached schedules satisfy the requirements of this paragraph provided that such returns are permanently maintained by the financial institution and the balance of the reserve for losses on loans established pursuant to section 166(c) can be readily reconciled with the reserve for losses on loans maintained by the financial institution for financial statement purposes. The requirements of this paragraph would also be satisfied if a financial institution establishes and maintains a permanent subsidiary ledger reflecting an account for the reserve for losses on loans established pursuant to section 166(c) provided the balance in such account can be readily reconciled with the balance of the reserve for losses on loans for financial statement purposes maintained in any other ledger. The permanent records maintained pursuant to this section must reflect any changes in the amount initially added to the reserve for losses on loans and the amount finally determined by the taxpayer to be a reasonable addition to the reserve for losses on loans.

**§ 1.585-4 Reorganizations and asset acquisitions.**

(a) *In general.* In computing a reasonable addition to the reserve for losses on loans for the first taxable year ending after a transaction to which section 381(a) applies and for subsequent taxable years, the separate reserves for losses on loans, the amount of loans outstanding, the total bad debts sustained (adjusted for recoveries), and the amount of eligible loans outstanding of the distributor or transferor corporation and the acquiring corporation (or, in the case of a consolidation, the transferor corporations) shall be combined for all applicable years. Thus, for example, in applying § 1.585-2(c)(1)(i) for the first taxable year ending after the distribution or transfer, the total bad debts sustained during the 5 preceding taxable years are the sum of the bad debts sustained by the acquiring corporation for the 5 preceding taxable years and bad debts sustained by the distributor or transferor corporation for the taxable year ending on the date of distribution or transfer and the 4 preceding taxable years.

(b) *Base year and base year amounts of acquiring corporation.*—(1) *Base year.* For transactions to which section 381(a) applies, the base year of the acquiring corporation for the first taxable year ending after the date of distribution or transfer shall be the last taxable year ending on or before the date of distribution or transfer. The

balance of the reserve, the amount of loans outstanding, and the amount of eligible loans outstanding at the close of such base year shall be determined in accordance with the provisions of subparagraph (2)(i) of this paragraph. For taxable years subsequent to the first taxable year ending after the date of distribution or transfer, the base year of the acquiring corporation shall be the more recent of the base year provided by the first sentence of this subparagraph or the base year provided by § 1.585-2(e)(1). If § 1.585-2(e)(1) provides the more recent base year, the balance of the reserve for losses on loans, the amount of loans outstanding, and the amount of eligible loans outstanding shall be determined at the close of such base year without regard to this paragraph.

(2) *Base year amounts.*—(i) *Method of determination.* The balance of the reserve for losses on loans, the amount of loans outstanding, and the amount of eligible loans outstanding at the close of the base year provided by the first sentence of subparagraph (1) of this paragraph shall be the total of such amounts of the distributor or transferor corporation and the acquiring corporation (or, in the case of a consolidation, the transferor corporations) at the close of what would have been their respective base years determined under § 1.585-2(e)(1) if the distribution or transfer to which section 381(a) applies had not occurred, except that the method (experience or percentage) used or adopted by the acquiring corporation to determine its reasonable addition to a reserve for losses on loans for the first taxable year ending after the date of the distribution or transfer shall be considered to be the method that the distributor or transferor corporation (or, in the case of a consolidation, that the transferor corporation) would have used or adopted for its first taxable year ending after the date of distribution or transfer if the distribution or transfer had not occurred.

(ii) *Examples.* The application of the rule provided by this subparagraph may be illustrated by the following examples:

*Example (1).* The X Corporation and the Y Corporation are commercial banks both of which have a calendar year as a taxable year. Both X and Y adopted the reserve method of accounting for bad debts prior to July 11, 1969. For the taxable year 1970 through 1973, X and Y determined their reasonable additions to a reserve for losses on loans as defined in § 1.585-2(e)(2) under the percentage method. On June 30, 1974, the X Bank is merged into the Y Bank; for its short taxable year ending on June 30, 1974, X determines its reasonable addition under the percentage method. If, for the taxable year ending on December 31, 1974 (the first taxable year ending after the date of distribution or transfer), Y determines its reasonable addition to a reserve for losses

on loans under the percentage method, then at the close of the base year the reserve balance, the amount of outstanding loans, and the amount of eligible loans outstanding are the sum of X's and Y's respective amounts at the close of the taxable year ending December 31, 1969 (the base year of both X and Y determined under § 1.585-2(e)(1) as if the distribution or transfer had not taken place). If, instead of the above, Y adopts the experience method of determining its reasonable addition to a reserve for losses for the taxable year 1974, then at the close of the base year (1973) the reserve balance, the amount of loans outstanding, and the amount of eligible loans outstanding are the sum of X's respective amounts at the close of its short taxable year ending on June 30, 1974 (X's last taxable year before its (Y's) most recent adoption of the experience method) and of Y's respective amounts at the close of its taxable year 1973 (Y's last taxable year before its most recent adoption of the experience method).

*Example (2).* The M Corporation and the N Corporation are commercial banks. M has a fiscal year ending September 30, as its taxable year and N has a calendar year as its taxable year. Both M and N adopted the reserve method of accounting for bad debts prior to July 11, 1969. For the taxable years ending in 1970, 1971, and 1972, M determined its reasonable addition to a reserve for losses under the percentage method; for the taxable year ending in 1973 M adopted the experience method. For the taxable years 1970 through 1973 N determined its reasonable addition under the percentage method. M is merged into N on June 30, 1974, and for its short taxable year ending on June 30, 1974, M determines its reasonable addition under the experience method. If, for the taxable year ending on December 31, 1974 (the first taxable year ending after the date of distribution or transfer), N determines its reasonable addition to a reserve for losses under the percentage method, then at the close of the base year (1973) the reserve balance, the amount of loans outstanding, and the amount of eligible loans outstanding are the sum of M's respective amounts at the close of (a) if M had a reserve deficiency as of June 30, 1974, its short taxable year ending on June 30, 1974 (M's last taxable year before its (N's) most recent adoption of the percentage method), or (b) if M did not have a reserve deficiency, the taxable year ending on September 30, 1969, and N's respective amounts at the close of its taxable year 1973. If, instead of the above, N adopts the experience method for the taxable year 1974, then at the close of the base year the reserve balance, the amount of outstanding loans, and the amount of eligible loans outstanding are the sum of M's respective amounts at the close of its taxable year ending on September 30, 1972 (the last taxable year before M's most recent adoption of the experience method), and N's respective amounts at the close of the taxable year 1973 (the last taxable year ending before N's most recent adoption of the experience method).

**Title 28—Judicial Administration**

**CHAPTER I—DEPARTMENT OF JUSTICE**

[Order No. 764-78]

**PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE**

**Litigation Involving Environmental Protection**

AGENCY: Department of Justice.

ACTION: Final rule.

**SUMMARY:** In a Memorandum of Understanding between the Department of Justice and the Environmental Protection Agency concerning the conduct of litigation in which EPA is a party, the Attorney General has undertaken certain administrative functions and responsibilities which, by express provision in that Memorandum, may be delegated to other officials of the Department of Justice. This order delegates to the Assistant Attorney General in charge of the Land and Natural Resources Division and the Assistant Attorney General in charge of the Civil Division functions and responsibilities of the Attorney General under the Memorandum of Understanding relating to litigation for which their respective Divisions are responsible. The order also amends the regulations assigning functions to the Land and Natural Resources Division to reflect additional matters now being handled by that Division as a result of recent legislation and transfers of responsibility within the Department.

**EFFECTIVE DATE:** January 11, 1978.

**FOR FURTHER INFORMATION CONTACT:**

James W. Moorman, Assistant Attorney General, Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, 202-739-2701.

By virtue of the authority vested in me by 28 U.S.C. 509 and 510 and 5 U.S.C. 301, Part 0 of Chapter I of Title 28, Code of Federal Regulations, is amended as follows:

1. Subpart I, which assigns functions to the Civil Division, is amended by adding a new § 0.45a immediately after § 0.45, to read as follows:

**§ 0.15a Litigation involving Environmental Protection Agency.**

With respect to any matter assigned to the Civil Division in which the Environmental Protection Agency is a party, the Assistant Attorney General in charge of the Civil Division, and such members of his staff as he may specifically designate in writing, are authorized to exercise the functions and responsibilities undertaken by the Attorney General in the Memorandum of Understanding between the Department of Justice and the Environmental

Protection Agency (42 FR 48942), except that Subpart Y of this part shall continue to govern as authority to compromise and close civil claims in such matters.

2. Section 0.65 of Subpart M, which assigns functions to the Land and Natural Resources Division, is amended by revising paragraphs (d) and (e) and adding new paragraphs (f) and (g), to read as follows:

§ 0.65 General functions.

(d) Civil and criminal suits and matters involving air, water, noise, and other types of pollution, the regulation of solid wastes, toxic substances, pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act, and the control of the environmental impacts of surface coal mining.

(e) Civil and criminal suits and matters involving obstructions to navigation, and dredging or filling (33 U.S.C. 403).

(f) Civil and criminal suits and matters arising under the Atomic Energy Act of 1954 (42 U.S.C. 2011, et seq.) insofar as it relates to the prosecution of violations committed by a company in matters involving the licensing and operation of nuclear power plants.

(g) Civil and criminal suits and matters relating to the natural and biological resources of the coastal and marine environments, the outer continental shelf, the fishery conservation zone and, where permitted by law, the high seas.

3. Subpart M is further amended by adding a new § 0.65a immediately after § 0.65, to read as follows:

**§ 0.65a Litigation involving Environmental Protection Agency.**

With respect to any matter assigned to the Land and Natural Resources Division in which the Environmental Protection Agency is a party, the Assistant Attorney General in charge of the Land and Natural Resources Division, and such members of his staff as he may specifically designate in writing, are authorized to exercise the functions and responsibilities undertaken by the Attorney General in the Memorandum of Understanding between the Department of Justice and the Environmental Protection Agency (42 FR 48942), except that Subpart Y of this part shall continue to govern as authority to compromise and close civil claims in such matters.

Dated: January 11, 1978.

GRIFFIN B. BELL,  
Attorney General.

[3710-92]

**Title 33—Navigation and Navigable Waters**

**CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY**

**PART 207—NAVIGATION REGULATIONS**

**Navigation Locks and Approach Channels, Columbia and Snake Rivers**

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Final Rule.

**SUMMARY:** This rule amends regulations which govern the use, administration and navigation of the locks and approach channels on the Columbia and Snake Rivers, Oregon and Washington. The amendment is necessary because of operation of the recently completed Lower Granite Lock and Dam on the Lower Snake River and to provide additional safety requirements for controlling passage of vessels through the eight locks.

**DATE:** Effective on February 15, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Ralph T. Eppard, 202-693-5070.

or write:

Office of the Chief of Engineers, Forrestal Building, Washington, D.C. 20314, ATTN: DAEN-CWO-N.

**SUPPLEMENTARY INFORMATION:** The proposed revision was published in the FEDERAL REGISTER, (42 FR 58960) with the comment period expiring on December 15, 1977. We received no comments and accordingly, pursuant to the provisions of Section 7 of the River and Harbor Act approved 8 August 1917 (40 Stat. 266; 33 U.S.C. 1) we are hereby amending the regulations in 33 CFR 207.718 as set forth below:

(40 Stat. 266; 33 U.S.C. 1.)

Date: January 10, 1978.

CHARLES R. FORD,  
Acting Assistant Secretary  
of the Army (Civil Works).

**§ 207.718 Navigation Locks and Approach Channels, Columbia and Snake Rivers, Oregon and Washington.**

(a) *General.* All locks, approach channels, and all lock appurtenances, shall be under the jurisdiction of the District Engineer, Corps of Engineers, U.S. Army, in charge of the locality. His representative at the locks shall be the Project Engineer, who shall issue orders and instructions to the Lock Master in charge of the lock. Hereinafter, the term "Lock Master" shall be used to designate the person in immediate charge of the lock at any given time. In case of emergency and on all routine work in connection with the

operation of the lock, the Lock Master shall have authority to take action without waiting for instructions from the Project Engineer.

(b) *Lockage Control.* The Lock Master shall be charged with immediate control and management of the lock, and of the area set aside as the lock area, including the lock approach channels. Upstream and downstream approach channels extend to the end of the wing or the guide wall, whichever is longer. At Bonneville lock the upstream approach channel extends to the upstream end of Bradford Island and the downstream approach channel extends to the downstream end of the lower moorage. The Lock Master shall demand compliance with all laws, rules and regulations for the use of the lock and lock area and is authorized to issue necessary orders and directions, both to employees of the Government or to other persons within the limits of the lock or lock area, whether navigating the lock or not. Use of lock facilities is contingent upon compliance with regulations, Lock Master instructions and the safety of people and property.

(c) *Authority of Lock Master.* No one shall initiate any movement of any vessel in the lock or approaches except by or under the direction of the Lock Master. ("Vessel" as used herein includes all connected units, tugs, barges, tows, boats or other floating objects.)

(d) *Signals—(1) Radio.* All locks are equipped with two-way FM radio operating on channel 14, frequency of 156.700 MHz, for both the calling channel and the working channel. Vessels equipped with two-way radio desiring a lockage shall call WUJ 33 Bonneville, WUJ 34 The Dalles, WUJ 35 John Day, WUJ 41 McNary, WUJ 42 Ice Harbor, WUJ 43 Lower Monumental, WUJ 44 Little Goose, or WUJ 45 Lower Granite, at least one-half hour in advance of arrival since the Lock Master is not in constant attendance of the locks. Channel 14 shall be monitored constantly in the vessel pilot house from the time the vessel enters the approach channel until its completion of exit. Prior to entering the lock chamber, the commercial freight or log-tow vessel operator shall report the nature of any cargo, the maximum length, width and draft of the vessel and whether the vessel is in any way hazardous because of its condition or the cargo it carries or has carried.

(2) *Pull-cord signal stations.* Pull-cord signal stations marked by large instructional signs and located near the end of the upstream and downstream lock entrance walls may be used in place of radios to signal the Lock Master for a lockage.

(3) *Entering and exit signals.* Signal lights are located outside each lock gate. When the green (go) light is on,

all vessels will enter in the sequence prescribed by the Lock Master except at Bonneville where freight and log-tow vessels only will enter on the amber light. When the red (stop) light is on, the lock is not ready for entrance and vessels shall stand clear. In addition to the above visual signals, the Lock Master will signal that the lock is ready for entrance by sounding one long blast on the lock air horn. The Lock Master will signal that the lock is ready for exit by lighting the green exit light and sounding one short blast on the air horn.

(4) *Craft lockage-readiness signal.* Upon query from Lock Master, a vessel operator will signal when he is properly moored and ready for the lockage to begin.

(e) *Permissible dimensions of vessels.* Nominal overall dimensions of vessels allowed in the lock chamber are 84 feet wide and 650 feet long, except at Bonneville where these dimensions are 74 feet wide and 500 feet long. Depth of water in the lock depends upon river levels which may vary from day to day. Staff gauges showing the minimum water level depth over gate sills are located inside the lock chamber near each lock gate and outside the lock chamber near the end of both upstream and downstream guide walls. Vessels which do not have a draft of at least one foot less than a gauge reading shall not pass that gauge. Information concerning allowable draft for vessel passage through the locks may be obtained from the Lock Master.

Minimum lock chamber water level depth is 15 feet except at Ice Harbor where it is 14 feet and at Bonneville where it is 24.2 feet. When the river flow at Lower Granite exceeds 330,000 cubic feet per second the normal minimum 15-foot depth may be decreased to as little as eight feet. At Bonneville, a tow may be rearranged to less than clear lock dimensions (74 feet by 500 feet) prior to entering the lock, and be passed in one lockage. Such rearrangements at Bonneville may be done at the moorage in the downstream lock approach channel or above the upstream guide wall and with the Lock Master's permission at the upstream guide wall. In consideration of river and swing bridge traffic at Bonneville the Lock Master may authorize rearrangement of vessels within the lock chamber only when both miter gates at the open end of the lock are in their recesses in the lock walls and rearrangement will not be hazardous to them. Vessels wider than 50 feet will not be permitted to enter the Bonneville Lock during extreme high water when tailwater at the lock is higher than 35 feet above m.s.l. since the downstream guide wall will be inundated.

(f) *Precedence at Lock.* Ordinarily, the vessel or tow arriving first at the lock will be locked through first; how-

ever, depending upon whether the lock is full or empty this precedence may be modified at the discretion of the Lock Master. When several vessels are waiting for a lockage, precedence shall be given as follows:

First: Vessels owned or operated by the United States whose mission requires immediate passage.

Second: Commercial freight and log-tow vessels.

Third: All other vessels.

(g) *Loss of turn.* Vessels that fail to enter the lock with reasonable promptness, after being authorized to do so, shall lose their turn.

(h) *Lockage—(1) Multiple lockage.* The Lock Master shall decide whether one or more vessels or tows may be locked through at the same time. Vessels with flammable or highly hazardous cargo will be passed separately from all other vessels. Hazardous materials are described in Part 171, Title 49, Code of Federal Regulations. Flammable materials are defined in the National Fire Code of the National Fire Protection Association.

(2) *Small Craft.* At the discretion of the Lock Master, the lockage of pleasure, fishing, and other small vessels may be coordinated with the lockage of commercial vessels. If no commercial craft is scheduled to be locked through within a reasonable time, not to exceed one (1) hour after arrival of the small craft at the lock, separate lockage will be made for such small craft.

(i) *Mooring in approaches prohibited.* Mooring or anchoring in the approaches to the lock is prohibited where such mooring will interfere with navigation.

(j) *Waiting for Lockage.* Vessels waiting for lockage shall wait in the clear outside of the lock approach channel, or contingent upon permission by the Lock Master, may at their own risk, lie inside the approach channel at a place specified by the Lock Master. At Bonneville, vessels may at their own risk, lay-to at the downstream moorage facility on the south shore downstream from the guide wall: *Provided*, That a 100-foot-wide open channel is maintained and vessels upstream may lay-to against the guide wall, at their own risk, provided they remain not less than 400 feet upstream of the upstream lock gate; or contingent upon prior radio clearance by the Lock Master they may, at their own risk, tie to the upstream guide wall.

(k) *Mooring in lock.* All vessels must be moored within the lock chamber so that no portion of any vessel extends beyond the lines painted on the lock walls. Moorage within the lock chamber will be to floating mooring bits only and will be accomplished in a proper no-slip manner. Small vessels will not be locked with a large vessel

unless the large vessel is so moored (two mooring bits) that no lateral movement is possible. The vessel operator will constantly monitor the position of his vessel and his mooring bits to assure that there is no fore or aft movement of his vessel and lateral movement is minimized. Propulsion by vessels within the lock chamber will not be permitted during closure operation of a lock chamber gate or as otherwise directed by the Lock Master.

(l) *Crew to move craft.* During the entire lockage, the vessel operator shall constantly attend the wheelhouse, be aware of the vessel's position, and monitor radio channel 14 on frequency 156.700 MHz, or otherwise be constantly able to communicate with the Lock Master. At a minimum, vessels shall be as vigilantly manned as if underway.

(m) *Speed.* Vessels shall be adequately powered to maintain a safe speed and be under control at all times. Vessels shall not be raced or crowded alongside another in the approach channels. When entering the lock, speed shall be reduced to a minimum consistent with safe navigation. As a general rule, when a number of vessels are entering the lock, the following vessel shall remain at least 200 feet astern of the vessel ahead.

(n) *Delay in lock.* Vessels shall not unnecessarily delay any operation of the locks.

(o) *Landing of freight.* No freight, baggage, personnel, or passengers shall be landed on or over the walls of the lock, except by permission and direction of the Lock Master.

(p) *Damage to lock or other structures.* The regulations in this section shall not relieve owners and/or operators of vessels from liability for any damage to the lock or other structures or for the immediate removal of any obstruction. No vessel in less than stable floating condition or having unusual sinking potential shall enter the locks or its approaches. Vessels must use great care not to strike any part of the lock, any gate or appurtenance thereto, or machinery for operating the gates, or the walls protecting the banks of the approach channels. All vessels with projecting irons, or rough surfaces which may damage the gates or lock walls, shall not enter the lock unless provided with suitable buffers and fenders. Vessels having chains, lines, or drags either hanging over the sides or ends or dragging on the bottom for steering or other purposes will not be permitted to pass.

(q) *Tows.* Prior to a lockage, the person in charge of a vessel towing a second vessel by lines shall, at a safe distance outside of the incoming approach channel, secure the second vessel to the towing vessel and keep it secured during the entire course of a lockage and until safely clear of the outgoing approach channel.

(r) *Violation of regulations.* Any violation of these regulations may subject the owner or master of any vessel to any or all of the following: (1) Penalties prescribed by law of the United States Government (33 U.S.C. 1); (2) Report of violation to the titled owner of the vessel; (3) Report of violation to the U.S. Coast Guard; (4) Refusal of lockage at the time of violation.

(s) *Refuse in locks.* No material of any kind shall be thrown or discharged into the lock, or be deposited in the lock area. Vessels leaking or spilling cargo will be refused lockage and suitable reports will be made to the U.S. Coast Guard. Deck cargo will be so positioned so as not to be subject to falling overboard.

(t) *Handling valves, gates, bridges, and machinery.* No person, unless authorized by the Lock Master, shall open or close any bridge, gate, valve, or operate any machinery in connection with the lock. However, the Lock Master may call for assistance from the master of any vessel using the lock, should such aid be necessary; and when rendering such assistance, the person so employed shall be directly under the orders of the Lock Master. Masters of vessels refusing to provide such assistance when it is requested of them may be denied the use of the lock by the Lock Master.

(u) *Statistics.* On each passage through the lock, masters or pursers of vessels shall furnish to the Lock Master, a written statement of passengers, freight, and other information as indicated on forms furnished boat operators by the Lock Master.

(v) *Hazardous areas.* At McNary, Ice Harbor, Lower Monumental, Little Goose, and Lower Granite Dams, all water from the downstream face of the dam to a line straight across the river at the downstream end of the downstream lock guide wall is considered hazardous and vessels may enter only at their own risk.

(w) *Restricted areas.* No vessel shall enter or remain in any restricted area at any time without first obtaining permission from the District Engineer, Corps of Engineers, U.S. Army, or his duly authorized representative.

(1) *At Bonneville Dam.* The waters restricted to only Government vessels are described as all waters of the Columbia River and Bradford Slough within 1,000 feet above and 2,000 feet below the powerhouse. The restricted areas will be designated by signs.

(2) *At the Dalles Dam.* The waters restricted to only Government vessels are described as all downstream waters other than those of the navigation lock downstream approach channel which lie between the Wasco County Bridge and the project axis including those waters between the powerhouse and the Oregon shore and all upstream waters other than those of the

navigation lock upstream approach channel which lie between the project axis and a line projected from the upstream end of the navigation lock guide wall to the junction of the concrete structure with the earth fill section of the dam near the upstream end of the powerhouse.

(3) *At the John Day Dam.* The waters restricted to only Government vessels are described as all of the waters within a distance of about 1,000 yards above the dam lying south of the navigation channel leading to the lock and bounded by a line commencing at the upstream end of the guide wall, and running in a direction 54°01'37" true for a distance of 771 yards, thence 144°01'37" true across the river to the south shoreline. The downstream limit is marked by orange and white striped monuments on the north and south shores.

(4) *At McNary Dam.* The waters restricted to only Government vessels are described as all waters within a distance of about 1,000 yards above the dam lying south of the guide wall and bounded by a line commencing at the upstream end of the guide wall and running in a direction 93°30' true for a distance of 495 yards, thence 175°15' true for 707 yards, thence 179°00' true for 441 yards, thence 235°00' true for 585 yards, thence 268°00' true for 146 yards to the head of the fishladder.

(5) *At Ice Harbor Dam.* The waters restricted to only Government vessels are described as the waters within a distance of about 800 yards upstream of the dam lying south of the navigation channel leading to the lock and bounded by a line commencing at the upstream end of the guide wall, and running a direction 83°00' true for a distance of 600 yards, thence 175°00' true for a distance of 250 yards, thence 241°00' true to the upstream face of the dam.

(6) *At Lower Monumental Dam.* The waters restricted to only Government vessels are described as the waters within a distance of about 1,200 yards upstream of the dam lying north of the navigation channel leading to the lock and bounded by a line commencing at the upstream end of the fixed guide wall and running in a direction 48°00' true for a distance of 340 yards, thence 326°00' true for a distance of 366 yards, thence 260°00' true for a distance of 160 yards, thence 270°00' true to the north shore.

(7) *At Little Goose Dam.* The waters restricted to only Government vessels are described as those within a distance of 800 yards above the dam lying north of the guide wall and bounded by a line commencing at the upstream end of the guide wall and running in a direction 64°13' true for a distance of 567 yards, thence 349°03' true for a distance of 610 yards to the north shoreline.

(8) *At Lower Granite Dam.* The waters restricted to only Government vessels are described as those within a distance of 800 yards above the dam lying south of the guide wall and bounded by a line commencing at the upstream end of the guide wall and running in a direction 136° true for a distance of 586 yards±, thence 214° true for a distance of 250 yards to the south shoreline.

Drawings which depict the hazardous and restricted areas in paragraphs (v) and (w) of this section are available from the District Engineers for areas within their respective jurisdictions.

NOTE.—The Department of the Army has determined that this document does not contain a major proposal requiring preparation under Executive Order 11821 and OMB Circular A-107. (40 Stat. 266; (33 U.S.C. 1).)

#### Title 39—Postal Service

#### CHAPTER I—U.S. POSTAL SERVICE

#### PART 111—GENERAL INFORMATION ON POSTAL SERVICE

##### Use of Labels on Second-Class and Third-Class Packages

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: Postal regulations are hereby revised to permit mailers the option of using either a Red Label D or no label to show the destination of direct bundles of second-class and third-class mail. In addition, the requirement that facing slips (nonstandard package labels) cover the entire address portion of the top mail piece is deleted. These changes in the regulations are being made to avoid further misinterpretation of the Postal Service's package-labeling requirements and to respond to the difficulty of compliance with existing regulations pointed out by a mailer.

EFFECTIVE DATE: February 22, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Harvey Altergott, 202-245-4353.

SUPPLEMENTAL INFORMATION: On August 12, 1977, the Postal Service published for comment in the FEDERAL REGISTER a proposal on pressure sensitive package labels (42 FR 40922). Two comments were received, one of which recommended that mailers be required to prepare bundles even when there is only one piece of mail for a state, for a split within a state, or for a foreign country. We believe that it would be excessive to require mailers to make up packages even when there is only

one piece of mail being handled. Accordingly, we are not adopting the suggestion.

The other commenter demonstrated that it would be difficult for a mailer to cover with a facing slip (nonstandard label) the entire address portion of the top mail piece of a bundle when a facing slip is used to indicate the level of presort for pieces that are larger than a business size envelope. He argued that we should delete the requirement. We agree with the commenter and have therefore deleted it.

It may be noted that the phrase "nonstandard package labels" is being dropped in favor of the older and better understood phrase "facing slips". Also, we have revised, for the sake of clarity, subsection b of 125.321 and 134.431 and thereby completely eliminated subparagraphs (1) and (2).

In view of the considerations discussed above, the Postal Service revises its proposal and adopts the following revision of the Postal Service Manual:

#### PART 125—SECOND-CLASS BULK MAILINGS

1. In 125.32 revise .321 and .321a(1) and b to read as follows:

##### 125.32 PREPARATION BY THE MAILER OF COPIES IN PACKAGES AND SACKS

###### .321 PACKAGE LABELS

Pressure sensitive labels are made available to mailers through local customer services representatives and postmasters and must be used to indicate the make-up and destination of all packages that require a package label. All pieces in a package must be faced in one way and the top piece must be plainly addressed, including the ZIP Code.

###### a. Use of package labels

(1) Five-Digit Package—Place six or more pieces for the same ZIP Code area in a bundle. Use of a package label is optional. When such packages are labeled, Affix Red Label D.

• • • • •

###### b. Package labels—general

Pressure sensitive package labels shall be applied to the lower left corner of the address side of the top piece on letter size packages and next to the address on larger packages. Facing slips shall be placed on the face of mixed states and foreign packages. While the preparation of split state bundles is optional when such bundles are prepared, they must also be labeled with facing slips. Pressure sensitive labels and facing slips are available at post offices.

#### PART 134—THIRD CLASS

2. In 134.43 revise .431 and .431a(1) and b to read as follows:

#### 134.43 PREPARATION BY THE MAILER OF PIECES IN PACKAGES AND SACKS

##### .431 PACKAGE LABELS

Pressure sensitive labels are made available to mailers through local customer services representatives and postmasters and must be used to indicate the make-up and destination of all packages that require a package label. All pieces in a package must be faced in one way and the top piece must be plainly addressed including the ZIP Code.

###### a. Use of package labels

(1) Five-Digit Package—Place ten or more pieces for the same ZIP Code area in a bundle. Use of a package label is optional. When such packages are labeled, Affix Red Label D.

• • • • •

###### b. Package labels—general

Pressure sensitive package labels shall be applied to the lower left corner of the address side of the top piece on letter size packages and next to the address on larger packages. Facing slips shall be placed on the face of mixed states and foreign packages. While the preparation of split state bundles is optional, when such bundles are prepared, they must also be labeled with facing slips. Pressure sensitive labels and facing slips are available at post offices.

A Post Office Services (Domestic) transmittal letter making these changes in the pages of the Postal Service Manual will be published and will be transmitted to subscribers automatically. These changes will be published in the FEDERAL REGISTER as provided in 39 CFR 111.3.

(39 U.S.C. 401(2).)

ROGER P. CRAIG,  
Deputy General Counsel.

#### Title 42—Public Health

#### CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

#### PART 450—ADMINISTRATION OF MEDICAL ASSISTANCE PROGRAMS

##### State Medicaid Fraud Control Units

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Final Rule.

SUMMARY: This regulation sets forth the terms and conditions under which State Medicaid Fraud Control Units can receive 90 percent Federal matching funds for investigations and prosecutions of fraud in State Medicaid programs. Because the Medicare-Medicaid Anti-Fraud and Abuse Amendments, Pub. L. 95-142, requires that a regulation be promulgated within 90 days of the enactment of the statute, it is adopted as a final rule

without notice and opportunity for comment.

The purpose is to implement this statute and thereby to prevent fraud and abuse in the State Medicaid programs funded under title XIX of the Social Security Act.

EFFECTIVE DATE: This regulation is effective on January 23, 1978.

Notice of Proposed Rulemaking has been waived because of the time limits imposed by the statute. Nevertheless, written comments or suggestions received by March 9, 1978, will be considered with a view to revising this regulation, and a response to comments will be published in the FEDERAL REGISTER by June 7, 1978.

In commenting please refer to PCO-183-RC. Agencies and organizations are requested to submit comments in duplicate. Comments will be available for public inspection beginning approximately 2 weeks after publication, in room 5225 of the Department's offices at 330 C Street SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m., 202-245-0950.

ADDRESSES: Address comments to: Administrator, Health Care Financing Administration, Department of Health, Education, and Welfare, P.O. Box 2366, Washington, D.C. 20013.

FOR FURTHER INFORMATION, CONTACT:

Don E. Nicholson, Director, Office of Program Integrity, Health Care Financing Administration, U.S. Department of Health, Education, and Welfare, Room 500, East High Rise, 6401 Security Boulevard, Baltimore, Md. 21235, 301-594-8763.

SUPPLEMENTARY INFORMATION: Pub. L. 95-142, the Medicare-Medicaid Anti-Fraud and Abuse Amendments, contains several measures designed to prevent fraud and abuse in the provision of medical assistance and health services in programs authorized by the Social Security Act. Section 17 of Pub. L. 95-142 authorizes Federal funding for State Medicaid Fraud Control Units, to support the investigation and prosecution of fraud in State Medicaid programs administered under title XIX of the Social Security Act.

The authorizing legislation sets forth the basic organizational requirements, functions, and responsibilities for State Fraud Control Units and, as an incentive to States to create such units, authorizes the Secretary of HEW to reimburse units which qualify under these prerequisites for 90 percent of their costs during Fiscal Years 1978 through 1980. After Fiscal Year 1980, the activities of those units are expected to bring about sufficient savings in the Medicaid program to sustain their continued operation if they receive Federal funding at the normal

rate for the administration of Medicaid programs.

This regulation sets forth the statutory requirements for State Fraud Control Units and establishes policies and procedures for applications, access to medical records, reporting, and cost reimbursement.

#### MAJOR PROVISIONS

##### 1. LOCATION OF THE UNIT

The statute provides for three alternative organizational locations. The Fraud Control Unit can be a part of the State Attorney General's office (or another state agency having statewide prosecuting authority); it can be located outside the Office of the Attorney General (or other statewide prosecuting authority) if it has an effective working relationship with the Attorney General's Office for the referral and prosecution of alleged criminal violations; or, if there is no State agency with statewide authority for criminal fraud prosecution, the Unit may be located outside the Office of the Attorney General, provided it has effective procedures for referring cases of alleged fraud to all appropriate prosecuting authorities.

In promulgating the law, Congress emphasized its conclusion that strong leadership from the Office of the Attorney General greatly enhances the effectiveness of State efforts to detect and prosecute fraud in Medicaid. Congress also indicated that the primary purpose of the third alternative was to provide for those States whose constitutions prohibit prosecution by a statewide authority. (See Senate Report 95-453, page 36, and House Report 95-393, Part II, page 80.) The statute, however, states that this alternative is only available "in a State the constitution of which does not provide for the criminal prosecution of individuals by a statewide authority."

This regulation interprets the statutory language to limit the third alternative to States where there is, in fact, no State agency with the authority and the capability for prosecuting fraud on a statewide basis. Thus, for example, if the State Attorney General exercises statewide prosecuting authority with respect to criminal fraud, even though the State constitution does not expressly provide for him to do so, the Fraud Control Unit would have to be a part of his Office or have an effective working relationship with it. The regulation also interprets the statutory language to consider unexercised common-law authority for statewide prosecution as not being sufficient to preclude a State from establishing a unit under this third alternative.

This regulation requires that when some prosecuting authority other than the Attorney General is to prosecute a

case, the Unit will insure that those responsible for the prosecutive decision and the preparation of the case for trial have the fullest possible opportunity to participate in the investigation from its inception and will provide all necessary assistance to the prosecuting authority throughout all resulting prosecutions.

##### 2. SEPARATION FROM THE MEDICAID AGENCY

The statute also requires that the Fraud Control Unit be "separate and distinct" from the State Medicaid agency. Consequently, these regulations, in paragraph (e), preclude the State Medicaid agency from monitoring the Fraud Control Unit or interfering with its referral of cases to the prosecuting authority. The regulations also prohibit HEW payments to the Fraud Control Unit from being channeled through the State Medicaid agency. They do not preclude HEW's approving a Fraud Control Unit located in a larger State agency, of which the redesignated State Medicaid agency is also a part, so long as the Fraud Control Unit and the Medicaid agency operate independently of each other. If the larger agency is designated as the Medicaid agency, it would not be an acceptable location for the Unit unless the designation is changed.

##### 3. COOPERATION BETWEEN THE UNIT AND THE MEDICAID AGENCY

It is evident that a comprehensive, effective fraud-control program can be achieved only through close cooperation between the Fraud Control Unit and the Medicaid agency. The Unit must have access to information in the possession of, or available to, the Medicaid agency. A Unit may not qualify unless the State permits access by the Unit to medical records of Medicaid patients, in order to determine the extent of the care provided. These records must be made available regardless of whether the patient or any other person consents. In amendments to existing regulations (42 CFR 450.21) made necessary by sec. 9 of Pub. L. 95-142, the Secretary will consider making direct access by a Unit to patient records a condition of participation by providers.

It is necessary that the Medicaid agency use its administrative authority or available judicial remedies to follow up on improprieties discovered by the Unit. In order to assure cooperation, a companion regulation at § 450.80(a)(8) imposes State plan requirements on the State Medicaid agency to cover these points. The statute envisions that the Unit will have full responsibility for all Medicaid fraud investigations and must have the capability to perform adequately this responsibility. Therefore, the

companion regulation requires the Medicaid agency to agree to refer all suspected cases of Medicaid fraud to the Unit which will then have full responsibility for each case.

Medicaid regulations in 42 CFR 450.80 impose certain fraud control requirements on State Medicaid agencies. Another companion regulation at § 450.80(d) makes conforming amendments to the existing regulations so that the Medicaid agency's responsibility under them will be met by the Fraud Control Unit to the extent of the Unit's responsibilities under this regulation.

#### 4. STAFFING REQUIREMENTS

The statute requires that the Unit employ the staff necessary for effective and efficient performance of its responsibilities. The regulation sets forth some minimum staffing requirements, with respect to attorneys, auditors, and investigators. Although the regulation uses the term "employ", if the Fraud Control Unit is not part of the Attorney General's Office, it may receive Federal reimbursement for attorneys who are not directly employed by the Unit, but are assigned to it by the Attorney General or other appropriate State agency, to provide legal service on a full-time basis.

#### 5. FEDERAL PAYMENTS

HEW will reimburse the Fraud Control Unit for 90 percent of the costs of getting established and for training necessary personnel, as well as for its ongoing operations. However, because of statutory limitations, HEW will reimburse only for activities which pertain directly to the investigation, prosecution, and recovery efforts directed to health care providers for Medicaid fraud and the review of complaints alleging abuse or neglect of patients in health care facilities. If, in the course of its activities, the Fraud Control Unit comes upon instances or allegations of non-fraudulent program abuse or non-fraudulent violations of programmatic requirements, it must refer such matters to another appropriate agency or unit for proper follow-through. Moreover, payments from HEW under this section shall not be used to reimburse the State Medicaid agency for the management functions and initial screening responsibilities currently required of that agency under 42 CFR 450.80.

If the Unit finds instances of possible conspiracy among providers and recipients to defraud Medicaid, an investigation and possible prosecution of the conspiracy, including the recipient's part, would be reimbursable since this is a case of possible fraud in "the provision of medical assistance . . ." (Section 1903(q)(3) of the Act). We do not believe that fraud in a recipient's application for AFDC or SSI, which

then entitled the person to free medical care, can properly be construed as fraud in "the provision of medical assistance", since only providers may thus defraud the Medicaid program.

The Unit may be reimbursed for all approved expenditures during the quarter in which the Unit is certified and, upon a finding that the Unit met all requirements as of a given date, the Secretary may retroactively certify the Unit effective on that date. Establishment costs are limited to clearly identifiable costs of personnel devoted full-time to the establishment of a Unit which does achieve certification if such personnel are intended to, and in fact do, continue as full-time employees after the Unit is certified. All establishment costs are to be deemed made in the first quarter of certification.

#### WAIVER OF PROPOSED RULEMAKING

Section 17 of Pub. L. 95-142 requires that HEW promulgate regulations necessary to implement that section within 90 days of enactment. The statute was enacted on October 25, 1977, so the 90 days expire on January 23, 1978. Moreover, it is important and desirable that these State Fraud Control Units be established and begin operating as soon as possible. For these reasons, the Secretary has determined that there is good cause to waive Notice of Proposed Rulemaking and opportunity for public comment prior to implementing Section 17.

#### DEMONSTRATION PROJECTS

Section 17 also authorizes funding for projects "to develop or demonstrate improved methods for the investigation and prosecution of fraud in the provision of care or services under the health programs established by the Social Security Act". This provision is not covered in these regulations, but information about such projects may be obtained from:

James M. Kaple, Acting Assistant Administrator for Demonstrations and Evaluations, Health Care Financing Administration, Department of Health, Education, and Welfare, Room 5074, Mary E. Switzer Building, 330 C Street SW., Washington, D.C. 20201, 202-245-0697.

42 CFR Part 450 is amended as set forth below:

1. Section 450.80 is amended by adding new paragraphs (a)(8) and (d) to read as follows:

§ 450.80 Fraud in the medical assistance programs.

(a) *State plan requirements.* A State plan for medical assistance under title XIX of the Social Security Act must:

(8) In a State with a State Medicaid Fraud Control Unit established and

certified under § 450.310, provide that the State agency will:

(i) Refer all cases of suspected fraud to the Unit;

(ii) Comply promptly with a request from the Unit for access to, and free copies of, any records or information in the possession of the Medicaid agency or its contractors, if the Unit determines that it may be useful in carrying out its responsibilities under this section;

(iii) Comply promptly, and without charge, with a request from the unit for computerized data stored by the Medicaid agency or its contractors in such form as the Unit may request, if the Unit determines that this data may be useful in carrying out its responsibilities;

(iv) On appropriate referral, initiate any appropriate administrative or judicial actions available to recover sums identified by the Unit as improperly paid to a provider under the State Medicaid plan; and

(v) Arrange for the Unit to have access to any records or information kept by a provider of services under the State Medicaid plan which the Medicaid agency is authorized access by sec. 1902(a)(27) of the Act, if the Unit determines that this access may be necessary in carrying out its responsibilities under this section. In using such records and information, the Unit must protect the privacy rights of individual patients.

(Sec. 1902(a)(7) of the Act.)

(d) *Coordination of responsibility.* In a State with a State Medicaid Fraud Control Unit established and certified under § 450.310, the State plan requirements on the Medicaid agency under this section shall be considered satisfied to the extent that they are the same as the responsibilities placed on the Unit under § 450.310.

2. A new Subpart D, Program Integrity is added as follows:

#### Subpart D—Program Integrity

§ 450.310 State Medicaid fraud control units.

(a) *Definitions.* As used in this section, unless otherwise indicated by the context:

(1) "Act" means the Social Security Act and references to titles are to titles of that Act.

(2) "FFP" stands for Federal financial participation.

(3) "Medicaid agency" means the single State agency designated to administer or supervise the administration of the State plan under title XIX of the Act. (Section 1902(a)(5).)

(4) "Unit" means the State Medicaid Fraud Control Unit.

(b) *Scope and Purpose.* This section implements section 1903(a)(6), 1903(b)(3) and 1903(q) of the Social Security Act, as amended by the Medicare-Medicaid Anti-Fraud and Abuse Amendments (Pub. L. 95-142 of October 25, 1977). The statute authorizes the Secretary to pay a State 90 percent of the costs of establishing and operating a State Medicaid Fraud Control Unit, as defined by the statute, for the purpose of eliminating fraud in the State Medicaid program.

(c) *Basic requirement.* A State Medicaid Fraud Control Unit must be certified by the Secretary as meeting the requirements of paragraphs (d) through (g) of this section.

(d) *Organization and location requirements.* Any of the following three alternatives is acceptable:

(1) The Unit is located in the Office of the State Attorney General or another Department of State Government which has statewide authority to prosecute individuals for violations of criminal laws with respect to fraud in the provision or administration of medical assistance under a State plan implementing title XIX of the Act; or

(2) If there is no State agency with statewide authority and capability for criminal fraud prosecutions, the Unit has established formal procedures which assure that the Unit refers suspected cases of criminal fraud in the State Medicaid program to the appropriate State prosecuting authority or authorities, and provides assistance and coordination to such authority or authorities in the prosecution of such cases; or

(3) The Unit has a formal working relationship with the Office of the State Attorney General and has formal procedures for referring to the Attorney General suspected criminal violations occurring in the State Medicaid program and for effective coordination of the activities of both entities relating to the detection, investigation and prosecution of those violations. Under this requirement, the Office of the State Attorney General must agree to assume responsibility for prosecuting alleged criminal violations referred to it by the Unit: *Provided, however,* That if the Attorney General finds that another prosecuting authority has the demonstrated capacity, experience and willingness to prosecute an alleged violation, he may refer a case to that prosecuting authority, as long as his office maintains oversight responsibility for the prosecution and for coordination between the Unit and the prosecuting authority.

(e) *Relationship to, and agreement with, the Medicaid agency.* (1) The Unit must be separate and distinct from the Medicaid agency.

(2) No official of the Medicaid agency shall have authority to review the activities of the Unit or to review or overrule the referral of a suspected criminal violation to an appropriate prosecuting authority.

(3) The Unit shall not receive funds paid under this section either from or through the Medicaid agency.

(4) The Unit shall enter into an agreement with the Medicaid agency under which the Medicaid agency will agree to comply with all requirements of § 450.80(a)(8) (ii), (iii), and (v).

or overrule the referral of a suspected criminal violation to an appropriate prosecuting authority.

(3) The Unit shall not receive funds paid under this section either from or through the Medicaid agency.

(4) The Unit shall enter into an agreement with the Medicaid agency under which the Medicaid agency will agree to comply with all requirements of § 450.80(a)(8) (ii), (iii), and (v).

(f) *Duties and responsibilities of the Unit.* (1) The Unit shall conduct a statewide program for investigating and prosecuting (or referring for prosecution) violations of all applicable State laws pertaining to fraud in the administration of the Medicaid program, the provision of medical assistance, or the activities of providers of medical assistance under the State Medicaid plan.

(2) The Unit shall also review complaints alleging abuse or neglect of patients in health care facilities receiving payments under the State Medicaid plan.

(i) If the initial review indicates substantial potential for criminal prosecution, the Unit shall investigate the complaint.

(ii) If the initial review does not indicate a substantial potential for criminal prosecution, the Unit shall refer the complaint to an appropriate State agency.

(3) If the Unit, in carrying out its duties and responsibilities under paragraphs (f)(1) and (2) of this section, discovers that overpayments have been made to a health care facility or other provider of medical assistance under the State Medicaid plan, the Unit shall either attempt to collect such overpayment or refer the matter to an appropriate State agency for collection.

(4) Where a prosecuting authority other than the Unit is to assume responsibility for the prosecution of a case investigated by the Unit, the Unit shall ensure that those responsible for the prosecutive decision and the preparation of the case for trial have the fullest possible opportunity to participate in the investigation from its inception and will provide all necessary assistance to the prosecuting authority throughout all resulting prosecutions.

(g) *Staffing requirements.* (1) The unit shall employ sufficient professional, administrative and support staff to carry out its duties and responsibilities in an effective and efficient manner. The staff must include:

(i) One or more attorneys experienced in the investigation or prosecution of civil fraud or criminal cases, who are capable of giving informed advice on applicable law and procedures and providing effective prosecution or liaison with other prosecutors;

(ii) One or more experienced auditors capable of supervising the review

of financial records and advising or assisting in the investigation of alleged fraud;

(iii) A senior investigator with substantial experience in commercial or financial investigations who is capable of supervising and directing the investigative activities of the unit.

(2) The unit shall employ, or have available to it, professional staff who are knowledgeable about the provision of medical assistance under title XIX and about the operation of health care providers.

(h) *Application, certification, and recertification.*—(1) *Initial application.* In order to receive FFP under this section, the Unit must submit to the Secretary, an application approved by the Governor, containing the following information and documentation:

(i) A description of the applicant's organization, structure, and location within State government, and an indication of whether it seeks certification under paragraph (d)(1), (d)(2), or (d)(3) of this section;

(ii) A statement from the State attorney general that the applicant has authority to carry out the functions and responsibilities set forth in this section. If the applicant seeks certification under paragraph (d)(2) of this section, the statement must also specify either that there is no State agency with the authority to exercise statewide prosecuting authority for the violations with which the Unit is concerned, or that, although the State Attorney General may have common law authority for statewide criminal prosecutions, he has not exercised that authority.

(iii) A copy of whatever memorandum of agreement, regulation, or other document sets forth the formal procedures required under paragraph (d)(2) of this section or the formal working relationship and procedures required under paragraph (d)(3) of this section;

(iv) A copy of the agreement with the Medicaid agency required under paragraph (e) of this section;

(v) A statement of the procedures to be followed in carrying out the functions and responsibilities of this section;

(vi) A projection of the caseload and a proposed budget for the 12-month period for which certification is sought; and

(vii) Current and projected staffing, including the names, education, and experience of all senior professional staff already employed.

(2) *Conditions for, and notification of, certification.* (i) The Secretary will approve an application only if he has specifically approved the applicant's formal procedures under paragraph (d)(2) or (d)(3) of this section, if either of those provisions is applicable, and

has specifically certified that the applicant meets the requirements of paragraph (d) of this section.

(ii) The Secretary will promptly notify the applicant whether the application meets the requirements of this section and is approved. If the application is not approved, the applicant may submit an amended application at any time. Approval and certification will be for a period of one year.

(3) *Conditions for recertification.* In order to continue receiving payments under this section, a unit must submit a reapplication to the Secretary at least 60 days prior to the expiration of the 12-month certification period. A reapplication must:

(i) Advise the Secretary of any changes in the information or documentation required under paragraph (h)(1)(i) through (v) of this section.

(ii) Provide projected caseload and proposed budget for the recertification period; and

(iii) Include or incorporate by reference the annual report required under paragraph (i) of this section.

(4) *Basis for recertification.* (i) The Secretary will consider the unit's reapplication, the reports required under paragraph (i) of this section, and any other reviews or information he deems necessary or warranted, and will promptly notify the unit whether he has approved the reapplication and recertified the unit.

(ii) In reviewing the reapplication, the Secretary will give special attention to whether the unit has used its resources effectively in investigating cases of possible fraud, in preparing cases for prosecution, and in prosecuting cases or cooperating with the prosecuting authorities.

(i) *Reporting requirements.*—(1) *Annual report.* At least 60 days prior to the expiration of the certification period, the unit shall submit to the Secretary a report covering the last 12 months (the first 9 months of the certification period for the first annual report), and containing the following information:

(i) The number of investigations initiated and the number completed or closed, categorized by type of provider;

(ii) The number of cases prosecuted or referred for prosecution; the number of cases finally resolved and their outcomes; and the number of cases investigated but not prosecuted or referred for prosecution because of insufficient evidence;

(iii) The number of complaints received regarding abuse and neglect of patients in health care facilities; the number of such complaints investigated by the unit; and the number referred to other identified State agencies;

(iv) The number of overpayments to providers of medical assistance for which collection was initiated; the

number of overpayments referred to another agency for collection; and the total amount collected;

(v) The number of recovery actions initiated by the medicare agency under its agreement with the unit, the number of successful recovery actions, and the total amount recovered;

(vi) Projections for the succeeding 12 months for items listed in paragraphs (i)(1) (i) through (v) of this section;

(vii) The costs incurred by the unit, by major budget category; and

(viii) A narrative that evaluates the unit's performance; describes any specific problems it has had in connection with the procedures and agreements required under this section; and discusses any other matters that have impaired its effectiveness.

(2) The unit shall also provide any additional reports that the Secretary requests, and shall comply with any measures the Secretary deems necessary to assure the accuracy and completeness of all reports required under this paragraph (i).

(j) *Federal financial participation (FFP).*—(1) *Rate of FFP.* Subject to the limitations specified in this paragraph, the Secretary will reimburse each certified State medicare fraud control unit, by an amount equal to 90 percent of the costs incurred by that unit which are attributable to carrying out its functions and responsibilities under this section.

(2) *Basis and period of payment.* (i) Payment will be made for each quarter, based on quarterly reports submitted by the unit in the format and containing the information requested by the Secretary.

(ii) Payments are available for each quarter during fiscal years 1978, 1979, and 1980.

(iii) For any quarter during which the unit is certified, the Secretary will provide reimbursement for the entire quarter.

(3) *Amount of FFP.* The amount paid during any quarter shall not exceed the higher of \$125,000 or one-quarter of one percent of the sums expended by the Federal, State, and local governments during the previous quarter in carrying out the State medicare program.

(4) *Costs subject to FFP.* FFP is available under this section for the expenditures attributable to the establishment and operation of the unit, including the cost of training personnel employed by the unit. Reimbursement shall be limited to costs attributable to the specific responsibilities and functions set forth in this section in connection with the investigation and prosecution of suspected fraudulent activities and the review of complaints of alleged abuse or neglect of patients in health care facilities. Establishment costs are limited to clearly identifiable costs of personnel that:

(i) Devote full-time to the establishment of the unit which does achieve certification; and

(ii) Continue as full-time employees after the unit is certified.

All establishment costs will be deemed made in the first quarter of certification.

(5) *Costs not subject to FFP.* FFP is not available under this section for expenditures attributable to:

(i) Investigation of nonfraudulent abuse or of failure to comply with applicable laws and regulations; or

(ii) Programmatic screening and early detection activities required of the Medicare agency under § 450.80 (a)(1)(i), (a)(5), (a)(6), and (a)(7).

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302).)

Title 49—Transportation

CHAPTER II—FEDERAL RAILROAD ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. HS-3, Notice No. 11]

PART 228—HOURS OF SERVICE OF RAILROAD EMPLOYEES

Amendments to Implementing Regulations

AGENCY: Federal Railroad Administration, DOT.

ACTION: Final rule.

SUMMARY: This document amends the Federal Railroad Administration (FRA) Hours of Service Act record keeping and reporting regulations, which are designed to facilitate the administration and enforcement of the Act. In 1976, the Act was amended to cover new groups of railroad employees. These changes to the regulations address the new types of covered service in response to the statutory amendments and make several other technical adjustments.

EFFECTIVE DATE: April 1, 1978.

FOR FURTHER INFORMATION CONCERNING THIS RULEMAKING CONTACT:

John A. McNally, Office of Safety, Federal Railroad Administration, Washington, D.C. 20590, 202-426-9178.

FOR FURTHER INFORMATION CONCERNING APPLICATION OF THE REGULATIONS AMENDED HEREIN CONTACT:

SUPPLEMENTARY INFORMATION: The Federal Railroad Administration (FRA) has determined that it is necessary to issue amendments to its regulations implementing the Hours of Service Act (45 U.S.C. 61-64b) (hereafter "Act"). The amendments are responsive to section 4 of the Federal Railroad Safety Authorization Act of 1976, Pub. L. 94-348, 90 Stat. 818, which made several important additions to the requirements of the Hours of Service Act.

The new amendments to the Act, which were signed into law on July 8, 1976, added to the categories of employees covered by the Act "hostlers" and individuals "engaged in installing, repairing or maintaining signal systems". These particular provisions are the focus of this rulemaking.

In addition, the amendments repealed the blanket exemption for crews of wreck and relief trains, and substituted a provision permitting those crews to work a maximum of 4 additional hours beyond the 12 hours normally allowed when "an actual emergency exists". For the first time, carriers were prohibited from providing "sleeping quarters for employees (including crew quarters, camp or bunk cars, and trailers) which do not afford such employees an opportunity

for rest, free from interruptions caused by noise under the control of the railroad, in clean, safe, and sanitary quarters. . . . Finally, carriers were prohibited from beginning to construct or reconstruct any employee sleeping quarters in the immediate vicinity of any area where railroad switching or humping operations are performed. (See 41 FR 53028; December 3, 1976.)

The amendments to Part 228 set forth below are primarily technical in nature, reflecting the addition of hostlers and individuals engaged in signal work to those covered by the Act. The revisions impose the additional responsibility of keeping hours of duty records with respect to the new categories of employees (individuals who work on signal systems and so-called "inside" hostlers; the duties of "outside" hostlers had been covered previously). That action is directly necessitated by Congressional action in expanding the scope of the Act, since, without adequate records, enforcement of the Act would be impossible. Similarly, carriers will be required to report instances of excess service involving the new groups of employees, as they had with respect to train crews, operators, and others in the past. Finally, carriers will be required to record (1) the time spent by a train or engine service employee or a signal employee in transportation to or from a work location, other than personal commuting, and (2) the mode of such transportation. This information should normally be recorded by the carrier in any event, either for purposes of compensation or to assure compliance with the Act. (See FRA Interim Interpretations on signal service at 42 FR 4464; January 25, 1977.)

Specifically, Section 228.5 is amended to include any "hostler" or any "individual engaged in installing, repairing or maintaining signal systems" within the term "employee".

Section 228.7 is amended to emphasize that (1) all hostlers are now covered by the Act and (2) signal employees, like other covered employees, are subject to the principle of commingled service. A "hostler" within the Act and these regulations is one who performs the duties of "hostling" locomotives.

Section 228.11 is amended by adding to the information required to be kept concerning the service of covered employees (1) beginning and ending time of periods spent in transportation, other than personal commuting, to or from a duty assignment and (2) the mode of transportation (train, carrier motor vehicle, personal automobile, etc.). This information is necessary to compute the service and off-duty periods of train and engine service employees subject to the provisions of the Act on deadheading and to compute the service and off-duty time of persons

engaged in signal service. The computation of transportation time for signal service is made more critical to the administration of the Act by the FRA interpretations of section 3A which seek, at the instance of the carriers and covered employees, to achieve a balanced application of the statutory language (42 FR 4464; January 25, 1977).

Section 228.19 is revised to make clear that reports of excess service should be directed to the Associate Administrator for Safety. The reporting requirements for train or engine service ((a)(1)-(4)) are amended to note that those provisions apply to the excess service of all hostlers. New provisions ((a) (7)-(10)) require the reporting of excess service on the part of signal employees paralleling the existing requirements related to train or engine service.

Section 228.21 is corrected to reflect the two-tier penalty provision of section 20 of the Interstate Commerce Act. That is, the penalty for failing to file required reports is \$100 for each day the failure or refusal continues, rather than \$500.

It should be noted that every instance of service in excess of the statutory limit (or in contravention of the requirements for release) must be reported, even though the service may be justified by an emergency or act of God, etc. In other words, the carrier is responsible for reporting all instances of excess service, not merely all violations or conceded violations. Each instance of excess service reported to FRA must be accompanied by an explanation on the prescribed form.

It should also be noted that section 228.11, discussed above, is broadened in its coverage by the expanded definition of "employee" in section 228.5. Therefore, time records will now be required for inside hostlers and individuals engaged in installing, repairing or maintaining signal systems, in addition to employees for whom records are already kept.

The regulations do not prescribe an approved form for keeping time records. Presumably many carriers will elect to maintain daily time returns for inside hostlers similar to those utilized for train crews.

With respect to signal service, FRA recognizes that the record-keeping task will be more difficult. It may be useful to note that some carriers utilize single-employee, bi-weekly sheets for operators which provide a simple display of time on duty, time off duty, meal periods, length of time on duty, assigned hours, name of place, and columns for calls outside assigned hours. This kind of format may be helpful in keeping the hours of employees in signal service. However, some modifications will be necessary to record the information required by section 228.11

## RULES AND REGULATIONS

on transportation. FRA Operating Practices Specialists in each of the eight FRA safety regions can provide a suggested format for time records of persons in signal service and provide helpful comments on formats developed by individual carriers. (See listing above.) Under the Department of Transportation statement of regulatory reform published April 15, 1976 (41 FR 16200), no regulatory evaluation is required to be made in connection with these rules since they merely implement requirements expressly mandated by statute.

Since the revisions to Part 228 flow directly from the recent statute and constitute an adaptation of previously existing regulations to meet the requirements of a broadened statutory purview, FRA finds, pursuant to section 4 of the Administrative Procedure Act (4 U.S.C. 553), that public procedure on these revisions is unnecessary. Moreover, since the delay incident to public procedure would inhibit effective enforcement of provisions of law which became effective on July 8, 1976, FRA finds that public procedure on these revisions would be contrary to the public interest. However, the agency will consider any petition for reconsideration submitted under the FRA Rules of Practice (49 CFR Part 211).

The principal program draftsman of this document was Wallace F. Holl, Director of Railroad Safety, Region I. The principal legal draftsman was Grady Cothen, Jr., Office of Chief Counsel.

In consideration of the foregoing, Part 228 of Chapter II, Title 49, Code of Federal Regulations, is amended as follows:

1. By revising the authority citation following the table of contents to read as follows:

AUTHORITY: Sec. 12, 24 Stat. 383, as amended, sec. 20, 24 Stat. 386, as amended, 49 U.S.C. 12, 20; sec. 8, 80 Stat. 937, 49 U.S.C. 1655; sec. 1-4, 34 Stat. 1415, as amended, 45 U.S.C. 61-64b; and sec. 1.49(d) of the regulations of the Office of the Secretary of Transportation, 49 CFR 149(d).

2. By revising the definition of "employee" in § 228.5 to read as follows:

§ 228.5 Definitions.

In this part—

"Employee" means an individual employed by the common carrier who (1) is actually engaged in or connected with the movement of any train, including a person who performs the duties of a hostler, (2) dispatches, reports, transmits, receives, or delivers orders pertaining to train movements by the use of telegraph, telephone, radio, or any other electrical or mechanical device, or (3) is engaged in in-

stalling, repairing or maintaining signal systems.

3. By revising the introductory portion of § 228.7(a) and adding a new paragraph (c) to § 228.7 to read as follows:

§ 228.7 Hours of Service.

(a) For purposes of this part, time on duty of an employee actually engaged in or connected with the movement of any train, including a hostler, begins when he reports for duty and ends when he is finally released from duty, and includes—

(c) For purposes of this part, time on duty of an employee who is engaged in installing, repairing or maintaining signal systems includes all time on duty in other service performed for a common carrier during the 24-hour period involved.

4. By adding a new § 228.11(a)(5) to read as follows:

§ 228.11 Hours of duty records.

(a) . . .

(5) Beginning and ending times of periods spent in transportation, other than personal commuting, to or from a duty assignment and mode of transportation (train, track car, carrier motor vehicle, personal automobile, etc.).

5. By revising § 228.19(a) to read as follows:

§ 228.19 Monthly reports of excess service.

(a) Each carrier shall report to the Associate Administrator for Safety, (RRS-1), Federal Railroad Administration, Washington, D.C. 20590, each of the following instances within 30 days after the calendar month in which the instance occurs:

(1) A member of a train or engine crew or other employee engaged in or connected with the movement of any train, including a hostler, is on duty for more than 12 consecutive hours.

(2) A member of a train or engine crew or other employee engaged in or connected with the movement of any train, including a hostler, returns to duty after 12 hours of continuous service without at least 10 consecutive hours off duty.

(3) A member of a train or engine crew or other employee engaged in or connected with the movement of any train, including a hostler, continues on duty without at least 8 consecutive hours off duty during the preceding 24 hours.

(4) A member of a train or engine crew or other employee engaged in or connected with the movement of any train, including a hostler, returns to duty without at least 8 consecutive

hours off duty during the preceding 24 hours.

(5) An employee who transmits, receives, or delivers orders affecting train movements is on duty for more than 9 hours in any 24-hour period at an office where two or more shifts are employed.

(6) An employee who transmits, receives, or delivers orders affecting train movements is on duty for more than 12 hours in any 24-hour period at any office where one shift is employed.

(7) An employee engaged in installing, repairing or maintaining signal systems is on duty for more than 12 hours in a twenty-four hour period.

(8) An employee engaged in installing, repairing or maintaining signal systems returns to duty after 12 hours of continuous service without at least 10 consecutive hours off duty.

(9) An employee engaged in installing, repairing or maintaining signal systems continues on duty without at least 8 consecutive hours off duty during the preceding 24 hours.

(10) An employee engaged in installing, repairing or maintaining signal systems returns to duty without at least 8 consecutive hours off duty during the preceding 24 hours.

6. By revising § 228.21 to read as follows:

§ 228.21 Civil penalty.

(a) A carrier which fails or refuses to keep a record as required by this part or refuses to make such a record available to the Administrator or any authorized agent of the Administrator for inspection or copying is liable for a civil penalty of \$500 for each such offense and for each day during which such failure or refusal continues, as prescribed by section 20, par. (7)(a) of the Interstate Commerce Act (49 U.S.C. § 20, par. (7)(a)).

(b) A carrier which fails or refuses to report an instance of excess service as required by this part is liable for a civil penalty of \$100 for each such offense and for every day such failure or refusal continues, as prescribed by section 20, par. (7)(d) of the Interstate Commerce Act (49 U.S.C. § 20, par. (7)(d)).

Instances involving tours of duty that are broken by four or more consecutive hours off duty time at a designated terminal which do not constitute more than a total of 12 hours time on duty are not required to be reported, provided such tours of duty are immediately preceded by 8 or more consecutive hours off-duty time. Instances involving tours of duty that are broken by less than 8 consecutive hours off duty which constitute more than a total of 12 hours time on duty must be reported.

Issued in Washington, D.C. on January 17, 1978.

JOHN M. SULLIVAN,  
Administrator.

CHAPTER X—INTERSTATE COMMERCE  
COMMISSIONSUBCHAPTER A—GENERAL RULES AND  
REGULATIONS  
(S.O. No. 1296)

## PART 1033—CAR SERVICE

## Substitution of Refrigerator Cars for Boxcars

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (S.O. No. 1296).

SUMMARY: There is a substantial shortage of boxcars on the Atchison, Topeka & Santa Fe Railway for shipments of cotton. The ATSF has an available supply of certain refrigerator cars that may be substituted for this traffic at the ratio of two refrigerator cars for each boxcar. Service Order No. 1296 authorizes ATSF, with consent of the shipper, to substitute two refrigerator cars for each boxcar ordered for shipments of cotton from any station on ATSF in Texas or New Mexico and destined to any other station on ATSF.

DATES: Effective 12:01 a.m., January 18, 1978. Expires 11:59 p.m., April 30, 1978.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, telephone 202-275-7840, telex 89-2742.

SUPPLEMENTARY INFORMATION: The order is printed in full below.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 16th day of January 1978.

An acute shortage of boxcars for transporting shipments of cotton exists on the Atchison, Topeka & Santa Fe Railway Co. (ATSF) at stations on its lines in Texas and New Mexico. The ATSF has an available supply of certain refrigerator cars that may be substituted for this traffic at the ratio of two refrigerator cars for each boxcar, and use of these refrigerator cars for the transportation of cotton is precluded by certain tariff provisions, thus curtailing shipments of cotton. There is a need for the use of these refrigerator cars to supplement the supplies of plain boxcars for

## RULES AND REGULATIONS

transporting shipments of cotton. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure herein are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1296 Service Order No. 1296.

(a) Substitution of refrigerator cars for boxcars. Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) Substitution of cars. The Atchison, Topeka & Santa Fe Railway Co. (ATSF) may substitute two refrigerator cars as described in subparagraph (2) of this paragraph for each boxcar ordered for shipments of cotton from any station on the ATSF in Texas or New Mexico and destined to any other station on the ATSF, subject to the conditions provided in subparagraphs (2) through (6) of this paragraph.

(2) List of refrigerator cars to be applied:

SFRC 1000-1899  
SFRC 2300-2799  
SFRC 50000-50199  
SFRP 1972-2287

(3) Concurrence of shipper required. The concurrence of the shipper must be obtained before two refrigerator cars are substituted for each boxcar ordered.

(4) Exclusive ATSF movement required. Shipments of cotton for which two refrigerator cars are substituted for one boxcar must originate and terminate at stations on the ATSF and must not be routed over any other carrier; except that shipments may originate or terminate in terminal switching service on connecting lines which do not participate in the line-haul.

(5) Minimum weights. The minimum weight per shipment of cotton for which two refrigerator cars have been substituted for one boxcar shall be that specified in the applicable tariff for the car ordered.

(6) Endorsement of billing. Bills of lading and waybills covering movements authorized by this order shall contain a notation that shipment is moving under authority of Service Order No. 1296.

(b) Rules and regulations suspended. The operation of tariffs or other rules and regulations, insofar as they conflict with the provisions of this order, is hereby suspended.

(c) Application. The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(d) Effective date. This order shall become effective at 12:01 a.m., January 18, 1978.

(e) Expiration date. The provisions of this order shall expire at 11:59 p.m., April 30, 1978, unless otherwise modified, changed, or suspended by order of this Commission.

(49 U.S.C. 1(10-17).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington, and John R. Michael.

H. G. HOMME, Jr.,  
Acting Secretary.

[Ex Parte No. MC-19 (Sub-No. 32)]

## PART 1056—TRANSPORTATION OF HOUSEHOLD GOODS IN INTERSTATE OR FOREIGN COMMERCE

Practices of Motor Common Carriers of Household Goods (Modification of Performance Report Requirements)

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: The Interstate Commerce Commission has modified its household goods transportation regulations by deleting the requirement that household goods carriers file copies of their annual performance reports with the Commission's regional offices. Since this information is accessible to the regional offices through computers, this report requirement is unnecessary and the expense incurred by the carriers in filing and the Commission in processing the reports will be eliminated.

EFFECTIVE DATE: February 15, 1978.

FOR FURTHER INFORMATION CONTACT:

Michael Erenberg, Assistant Deputy

## RULES AND REGULATIONS

Director, Office of Proceedings, Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C. 20423, 202-275-7292.

**SUPPLEMENTAL INFORMATION:** As a result of the installation of computer terminals in the Commission's regional offices, the information placed in the computer relating to each carrier's performance report by the staff in the headquarters' office is available to each regional office. No further purpose would be served by continuing to require carriers to file copies of their performance reports with both the regional offices and the Commission's headquarters in Washington, D.C. Elimination of the requirement that these reports be filed with the regional offices will eliminate the expense incurred by the carriers to file these reports and by the Commission to process these reports at the regional offices. Section 1056.7(b) will be modified as set forth below.

By making this action effective February 15, 1978, the Commission intends to eliminate the requirement that carriers meet the March 31, 1978, deadline for filing performance reports covering their 1977 operations with its regional offices.

Because this action will eliminate filing requirements which were intended solely to aid the Commission in its attempt to monitor the performance of motor common carriers of household goods, will clearly benefit the household goods transportation industry by eliminating needless paperwork, and will not affect the shipping public in any manner, public input in this matter is not deemed necessary. Accordingly, the Commission finds that notice and public procedure in this matter are unnecessary.

These rules are promulgated under authority of Part II of the Interstate

Commerce Act and section 553 of the Administrative Procedure Act.

Decided: January 10, 1978.

By the Commission.

H. G. HOMME, Jr.,  
Acting Secretary.

**NOTE.**—This action modifies the Commission's household goods transportation regulations (49 CFR 1056) by deleting from § 1056.7(b) of those regulations the phrase "and each of the Commission's regional offices."

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[3410-02]

## DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1001]

[Docket No. AO-14-A57]

## MILK IN THE NEW ENGLAND MARKETING AREA

Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Public hearing on proposed rulemaking.

**SUMMARY:** The hearing is being held to consider changes in the order that have been proposed by milk distributors and dairy farmer cooperatives. The proposals would adjust the prices for milk throughout the production area. Proponents contend that the proposals are needed to more nearly reflect the costs of transporting milk from farms and supply plants to city bottling plants and to provide better alignment of prices among markets.

**DATE:** February 14, 1978.

**ADDRESS:** Sheraton Inn and Conference Center, Junction Routes 495 (Exit 16) and 111, Boxborough, Mass. 01719, 617-263-8701.

**FOR FURTHER INFORMATION CONTACT:**

Clayton H. Plumb, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-6273.

**SUPPLEMENTARY INFORMATION:** Notice is hereby given of a public hearing to be held at the Sheraton Inn and Conference Center, Junction Routes 495 (Exit 16) and 111, Boxborough, Mass. 01719, 617-263-8701 beginning at 9:30 a.m. on February 14, 1978, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the New England marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

**PROPOSED BY THE CONNECTICUT MILK DEALERS ASSOCIATION**

**PROPOSAL NO. 1**

Revise paragraph (a) § 1001.50 to read as follows:

§ 1001.50 Class prices.

(a) *Class I price.* The class I price shall be the basic formula price for the second preceding month plus \$2.28.

**PROPOSED BY YANKEE MILK, INC.:**

**PROPOSAL NO. 2**

Revise the pricing structure of the New England market in the following manner:

(a) Establish an Eastern City Plant Location Zone within which the class I price would be the basic formula price for the second preceding month plus \$2.90. Class I and blended prices would be 52 cents per hundredweight over Zone 21 prices. The Eastern City Zone would be comprised of the following area:

Massachusetts (counties of) Barnstable, Bristol, Dukes, Essex, Middlesex (except the townships of Ashby, Groton, Pepperell, Shirley and Townsend), Norfolk, Plymouth, Suffolk, Worcester (only the townships of Berlin, Blackstone, Bolton, Harvard, Hopedale, Mencon, Millis, Northboro, Southboro, Upton, and Westboro).

(b) Establish a Western City Plant Location Zone within which the Class I price would be the basic formula price for the second preceding month plus \$2.774. Class I and blended prices would be 39.4 cents per hundredweight over Zone 21 prices. The Western City Zone would be comprised of the following area:

Connecticut (counties of) Fairfield, Hartford, Litchfield, New Haven, Tolland (only the townships of Ellington and Somers).

Massachusetts (counties of) Hamden (except the townships of Brimfield, Holland, Monson, Palmer, and Wales) Hampshire (except the township of Ware).

(c) Reduce the class I price at Zone 21 (currently between 201 and 210 miles from Boston) from \$2.58 to \$2.38 over the basic formula price for the second preceding month.

(d) Adjust class I and blended prices at all plants (other than those in the Eastern and Western Zones) on the basis of highway mileage from the nearer of Boston or Providence. Prices at plants would be increased by 1.8 cents for each zone (10-mile increments) closer to a basing point than the 21st zone. Prices at plants would be decreased by 1.5 cents per zone beyond the 21st zone. Currently prices are increased by 1.2 cents per zone nearer to Boston than the 21st zone and decreased by 1.0 cent per zone beyond the 21st zone.

(e) In addition to increasing class I and blended prices by 1.8 cents per zone nearer than the 21st zone, such prices would be increased by an additional 16 cents per hundredweight between the 15th and 14th zones as is currently provided in the order.

**PROPOSAL NO. 3**

Revise the class I price differential and location adjustments to the class I and blended prices as follows:

(a) In § 1001.50 change the Zone 21 (201-210 miles from Boston) class I price differential from \$2.58 to \$2.38 above the basic formula price for the second preceding month.

(b) In § 1001.52 increase the class I and blended price location adjustments from 1.2 cents to 1.8 cents per 10-mile zone within 200 miles of Boston and from 1 cent to 1.5 cents per 10-mile zone beyond 210 miles from Boston. Also reduce the additional location adjustment of 16 cents between zones 15 and 14 to 8 cents.

(c) In § 1001.52 divide the "nearby plant" zone into an Eastern Market Zone (class I differential—\$2.82), a Western Market Zone (class I differential—\$2.694) and an area of buffer zones. At plants located in the buffer zones provide location adjustments to

reduce the class I and blended prices below the Eastern Market Zone prices at the rate of 1.8 cents per 10 miles from the closer of Boston, Mass., or Providence, R.I., using the Household Goods Carrier Guide No. 10 to establish mileage. The territory included in the Eastern and Western Market Zones are the same as in Proposal No. 2.

PROPOSED BY THE DAIRY DIVISION,  
AGRICULTURAL MARKETING SERVICE

#### PROPOSAL NO. 4

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, 230 Congress Street, Room 403, Boston, Mass. 02110 or from the Hearing Clerk, Room 1077-S, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

From the time that a hearing notice is issued and until the issuance of a final decision in a proceeding, Department employees involved in the decisional process are prohibited from discussing the merits of the hearing issues on an ex parte basis with any person having an interest in the proceeding. For this particular proceeding, the prohibition applies to employees in the following organizational units:

Office of the Secretary of Agriculture.  
Office of the Administrator, Agricultural Marketing Service.  
Office of the General Counsel.  
Dairy Division, Agricultural Marketing Service (Washington office only).  
Office of the Market Administrator, New England Marketing Area.

Procedural matters are not subject to the above prohibition and may be discussed at any time.

Signed at Washington, D.C., on January 18, 1978.

WILLIAM T. MANLEY,  
Deputy Administrator,  
Marketing Program Operations.

[3128-01]

#### DEPARTMENT OF ENERGY

[10 CFR Part 1002]

#### OFFICIAL SEAL AND DISTINGUISHING FLAG

##### Description and Use

AGENCY: Department of Energy (DOE).

ACTION: Notice of proposed rulemaking and request for public comment.

SUMMARY: The DOE hereby proposes rules specifying the description

and authorized uses of its official seal and distinguishing flag.

DATES: Comments must be received on or before February 22, 1978.

ADDRESSES: Comments should be sent to George W. Barrow, Office of Administrative Services, Department of Energy, 20 Massachusetts Avenue NW., Washington, D.C. 20545.

#### FOR FURTHER INFORMATION CONTACT:

George W. Barrow, Director, Office of Administrative Services, 20 Massachusetts Avenue NW., Washington, D.C. 20545, 202-376-4400.

#### SUPPLEMENTARY INFORMATION:

##### A. BACKGROUND

On October 1, 1977, DOE was activated pursuant to the Department of Energy Organization Act of 1977, Pub. L. 95-91. That Act provides at section 654 (42 U.S.C. 7264) that the Secretary of DOE may prescribe an official seal, which shall be noticed judicially. In accordance with that provision, the Secretary hereby proposes to adopt a seal, which shall also be displayed on the Department's distinguishing flag. These proposed regulations describe the seal and flag, and provide for their use and display.

##### B. COMMENT PROCEDURE

Interested persons are invited to submit written comments with respect to the proposed regulations to the address provided above. Comments should be identified on the outside of the envelope and on the documents submitted to DOE with the designation "Official Seal and Flag." Fifteen (15) copies should be received by DOE by the deadline specified, in order to ensure consideration.

In accordance with section 501(c)(1) of the Department of Energy Organization Act, DOE has determined that these regulations present no substantial issue of fact or law, and are unlikely to have a substantial impact on the economy or large numbers of individuals or businesses. Accordingly, no public hearing is required.

##### C. MISCELLANEOUS

Since this document is unlikely to have any significant effect on the environment, DOE has determined that the provisions of section 7(a)(2) of the Federal Energy Administration Act, as amended, requiring that proposals having such effect be submitted to the Environmental Protection Agency for review and comment, does not apply.

DOE has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

(The Department of Energy Organization Act, Pub. L. 95-91.)

In accordance with the foregoing, it is proposed that Part 1002 of Chapter 10, Title 10 of the Code of Federal Regulations, be adopted as set forth below.

Issued in Washington, D.C., January 17, 1978.

WILLIAM S. HEFFELFINGER,  
Director of Administration.

10 CFR, Chapter X is amended by adding a new Part 1002, to read as follows:

#### PART 1002—THE SEAL AND FLAG OF THE DEPARTMENT OF ENERGY

##### Subpart A—General

Sec.  
1002.1 Purpose.  
1002.2 Definitions.  
1002.3 Custody of official seal and distinguishing flag.

##### Subpart B—Official Seal

1002.11 Description of official seal.  
1002.12 Use of replicas, reproductions, and embossing seals.

##### Subpart C—Distinguishing Flag

1002.21 Description of distinguishing flag.  
1002.22 Use of distinguishing flag.

##### Subpart A—General

##### § 1002.1 Purpose.

The purpose of this Part is to describe the official seal and distinguishing flag of the Department of Energy, and to prescribe rules for their custody and use.

##### § 1002.2 Definitions.

For purposes of this Part—

(a) "DOE" means all organizational units of the Department of Energy.

(b) "Embossing seal" means a display of the form and content of the official seal made on a die so that the seal can be embossed on paper or other medium.

(c) "Official seal" means the original(s) of the seal showing the exact form, content, and colors thereof.

(d) "Replica" means a copy of the official seal displaying the identical form, content, and colors thereof.

(e) "Reproduction" means a copy of the official seal displaying the form and content thereof, reproduced in only one color.

(f) "Secretary" means the Secretary of DOE.

##### § 1002.3 Custody of official seal and distinguishing flags.

The secretary or his designee shall—

(a) Have custody of:

(1) The official seal and prototypes thereof, and masters, molds, dies, and all other means of producing replicas, reproductions, and embossing seals; and

(2) Production, inventory, and loan records relating to items specified in subparagraph (1); and  
(b) Have custody of distinguishing flags, and be responsible for production, inventory, and loan records thereof.

##### Subpart B—Official Seal

##### § 1002.11 Description of official seal.

The Department of Energy hereby prescribes as its official seal, of which judicial notice shall be taken pursuant to section 654 of the Department of Energy Organization Act of 1977, 42 U.S.C. 7264, the imprint illustrated below and described as follows:

(a)(1) The official seal includes a green shield bisected by a gold-colored lightning bolt, on which is emblazoned a gold-colored symbolic sun, atom, oil derrick, windmill, and dynamo. It is crested by the white head of an eagle, atop a white rope. Both appear on a blue field surrounded by concentric circles in which the name of agency, in gold, appears on the green background. Detailing is in black.

(2) The colors used in the configuration are dark green, dark blue, gold, and black and white.

(3) The eagle represents the care in planning and the purposefulness of the efforts required to respond to the Nation's increasing demands for energy. The sun, atom, oil derrick, windmill, and dynamo serve as representative technologies whose enhanced development can help meet these demands. The rope represents the cohesiveness in the development of the technologies and their link to our future capabilities. The lightning bolt represents the power of the natural forces from which energy is derived and the Nation's challenge in harnessing the forces.

(4) The color scheme is derived from nature, symbolizing both the source of energy and the support of man's existence. The blue field represents air and water, green represents

mineral resources and the earth itself, and gold represents the creation of energy in the release of the natural forces. By invoking this symbolism, the color scheme represents the Nation's commitment to meet our energy needs in a manner consistent with the preservation of the natural environment.

##### § 1002.12 Use of replicas, reproductions, and embossing seals.

(a) The Secretary and his designees are authorized to affix replicas, reproductions, and embossing seals to appropriate documents, certifications, and other material for all purposes.

(b) Replicas may be used only for:

(1) Display in or adjacent to DOE facilities, in Department auditorium, presentation rooms, hearing rooms, lobbies, public document rooms.

(2) Office of senior officials.

(3) Official DOE distinguishing flags, adopted and utilized pursuant to Subpart C.

(4) Official awards, certificates, medals, and plaques.

(5) Motion picture film, video tape, and other audiovisual media prepared by or for DOE and attributed thereto.

(6) Official prestige publications which represent the achievements or mission of DOE as a whole.

(7) Non-DOE facilities in connection with events and displays sponsored by DOE, and public appearances of the Secretary or other designated senior DOE officials.

(8) For other such purposes as determined by the Director of the Office of Administrative Services.

(c) Reproductions may be used only on:

(1) DOE letterhead stationery.

(2) Official DOE identification cards and security credentials.

(3) Business cards for designated senior DOE officials.

(4) Official DOE signs.

(5) Official publications or graphics issued by and attributed to DOE, or joint statements of DOE with one or more Federal agencies, State or local governments, or foreign governments.

(6) Official awards, certificates, medals.

(7) Motion picture film, video tape, and other audiovisual media prepared by or for DOE and attributed thereto.

(8) For other such purposes as determined by the Director of the Office of Administrative Services.

(d) Embossing seals may be used only on:

(1) DOE legal documents, including interagency or intergovernmental agreements, agreements with State, foreign patent applications, and similar documents.

(2) For other such purposes as determined by the General Counsel.

(e) Any person who uses the official seal, replicas, reproductions, or em-

bossing seals in a manner inconsistent with this Part shall be subject to the provisions of 18 U.S.C. 1017, providing penalties for the wrongful use of an official seal, and to other provisions of law as applicable.

(f) The official seal is being registered with the World Intellectual Property Organization through the U.S. Patent and Trademark Office.

##### Subpart C—Distinguishing Flag

##### § 1002.21 Description of distinguishing flag

(a) The base or field of the flag shall be white, and a replica of the official seal shall appear on both sides thereof.

(b) (1) The indoor flag shall be of rayon banner, measure 4'4" on the hoist by 5'6" on the fly, exclusive of heading and hems, and be fringed on three edges with yellow rayon fringe, 2 1/2" wide.

(2) The outdoor flag shall be of heavy weight nylon, and measure either 3' on the hoist by 5' on the fly or 5' on the hoist by 8' on the fly, exclusive of heading and hems.

(c) Each flag shall be manufactured in accordance with U.S. Department of Defense Military Specification Mil-F-2692. The official seal shall be screen printed on both sides, and on each side, the lettering shall read from left to right. Headings shall be Type II in accordance with the Institute of Heraldry Drawing No. 5-1-45E.

##### § 1002.22 Use of distinguishing flag.

(a) DOE distinguishing flags may be used only:

(1) In the offices of the Secretarial officers, Chairman of the FERC, and heads of field locations designated below:

Power Administrations  
Regional Offices  
Operations Offices  
Certain Field Offices and other locations as designated by the Director of Administration

(2) At official DOE ceremonies.

(3) In Department auditoriums, official presentation rooms, hearing rooms, lobbies, public document rooms, and in non-DOE facilities in connection with events or displays sponsored by DOE, and public appearances of the Secretary or other designated DOE officials.

(4) On or in front of DOE installation buildings.

(5) Other such purposes as determined by the Director of Administration.

[FR Doc. 78-1923 Filed 1-20-78; 8:45 am]

## PROPOSED RULES

[8025-01]

## SMALL BUSINESS ADMINISTRATION

[13 Part 108]

(Rev. 4, Amdt. 6)

## LOANS TO STATE AND LOCAL DEVELOPMENT COMPANIES

Loans—Administrative Limits and Waivers thereof

AGENCY: Small Business Administration.

ACTION: Proposed rule.

**SUMMARY:** This proposed rule would authorize SBA to establish administrative ceilings on dollar amounts of section 502 Local Development Company Loans, and to waive them in exceptional cases. These administrative ceilings are established to comply with the intent of Congress as expressed in the conference report on Public Law 94-305 which increased the statutory limits on such loans. The intent of this proposed rule is that, while SBA will continue to make most of its loans below the administrative ceiling, it will have authority in exceptional cases to make loans up to the statutory limit.

**DATES:** Comments must be received by February 22, 1978.

**ADDRESS:** Comments, submitted in duplicate, are to be addressed to Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416.

**FOR FURTHER INFORMATION CONTACT:**

William B. Dean; Chief, Development Company Loan Division; Small Business Administration, 1441 L Street NW., Washington, D.C. 20416, 202-653-6842.

**SUPPLEMENTARY INFORMATION:** Section 502 of the Small Business Investment Act, as amended by Public Law 94-305 authorizes SBA to guarantee up to \$500,000 on a loan or to make direct or immediate participation loans up to \$500,000.

Since Congress intended that loans in the amount of the statutory limit should be made only in exceptional cases, administrative ceilings are proposed. In the case of section 502 "Local Development Company Loans" the administrative ceiling is proposed at \$350,000, the prior statutory limitation.

It is the intent of this proposed rule that the administrative ceiling may be waived upon determination that a particular loan furthers a National, Agency or Regional Program objective. Standards or examples of such objectives will be published from time to time. A notice listing National, Agency or Regional program objec-

tives for the loan programs administered under Parts 118 and 122 of this Chapter was published in 42 FR 61906 (FR Doc. 77-34941, December 7, 1977) and is proposed to be used also in waiving the administrative limits established by this regulation.

Accordingly, pursuant to authority contained in Section 308(c) of the Small Business Investment Act of 1958 (SBI Act), 15 U.S.C. 687, as amended, notice is hereby given that SBA proposes to amend §108.502-1 by adding to paragraph (d) two subparagraphs (3) and (4) as follows:

§ 108.502-1 Section 502 loans.

(d) Loan amount.

(1) \* \* \*

(2) \* \* \*

(3) The administrative ceiling on loans to assist each identifiable small business concern shall be \$350,000 on loans made directly, or on immediate participation basis, or on SBA's share of guaranteed loans. However, in circumstances determined by SBA to constitute an exceptional situation the loan may be extended to the statutory limit of \$500,000.

(4) Exceptional situations. An exceptional situation will be deemed to exist where SBA determines that the particular loan furthers a National, Agency, or Regional program objective. SBA may from time to time publish in the FEDERAL REGISTER, on the basis of developing experience, standards or examples illustrating National, Agency and Regional objectives. SBA will not recognize any such objective until it has first been so published either under this part or other parts of this Chapter which establish loan policy.

(Catalog of Domestic Assistance Programs No. 59.013 State and Local Development Company Loans.)

Dated: January 16, 1978.

A. VERNON WEAVER,  
Administrator.

(FR Doc. 78-1919 Filed 1-20-78; 8:45 am)

[4910-13]

## DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 78-NW-1 AD]

## AIRWORTHINESS DIRECTIVES

Boeing 747 Series Airplanes

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This amendment requires a one-time inspection panels in

the forward, aft, and bulk cargo compartment for any adhesive material between the vent panel and supporting structure to assure effectiveness of the vent panels installed to comply with AD 75-15-05. Any adhesive material must be removed from the panel and structure. The vent panel seals would be inspected and repaired as required.

**DATES:** Comments must be received on or before March 15, 1978.

**ADDRESSES:** Send comments on the proposal in duplicate to Federal Aviation Administration, Northwest Region, Office of the Regional Counsel, Attention: Airworthiness Rules Docket, Docket No. 78-NW-1 AD, 9010 East Marginal Way South, Seattle, Wash. 98108.

**FOR FURTHER INFORMATION CONTACT:**

Iven Connally, ANW-212, Airframe Section, Engineering and Manufacturing Branch, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108, telephone 206-767-2516.

**SUPPLEMENTARY INFORMATION:** It has been reported that double-backed tape was found between a cargo compartment depressurization vent panel and adjacent structure, causing the panel to adhere to the structure and significantly increase the force required to disengage the panel. Any increase in the force required to disengage the vent panel will reduce the effectiveness of the depressurization venting system which was installed to comply with the requirements of AD 75-15-05.

## DRAFTING INFORMATION

The principal authors of this document are Iven Connally, Engineering and Manufacturing Branch, Northwest Region, and Jonathan Howe, Regional Counsel, Northwest Region.

## THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend §39.13 of the Federal Aviation Regulation (14 CFR 39.13) by adding the following new Airworthiness Directive:

**BOEING:** Applies to Model 747 series airplanes certificated in all categories. Compliance required as indicated. To assure proper operation of the depressurization vent modification required by AD 75-15-5, inspect the cargo compartment lining depressurization vent panel for evidence of double-back tape between the vent panel and supporting structure. On or before June 30, 1978, inspect and repair vent panel seals in accordance with Boeing Service Bulletin 747-25-2418, dated December 27, 1977, or later FAA approved revision.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a),

## PROPOSED RULES

1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.85.)

**NOTE:**—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Seattle, Wash., on January 13, 1978.

C. B. WALK, Jr.  
Director, Northwest Region.

(FR Doc. 78-1577 Filed 1-20-78; 8:45 am)

[4910-13]

[14 CFR Part 39]

[Docket No. 78-WE-1-AD]

## AIRWORTHINESS DIRECTIVES

McDonnell Douglas Model DC-10 Series  
Airplanes

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This notice proposes to adopt an airworthiness directive (AD) that would require a modification on DC-10 Series airplanes equipped with Litton inertial systems. The proposed AD is needed to prevent simultaneous loss of both pilots primary attitude and heading indicators. Loss of the primary attitude indicators at a critical point in the takeoff flight path could result in the loss of control of the aircraft.

**DATES:** Comments must be received on or before February 21, 1978.

**ADDRESSES:** Send comments on the proposal in duplicate to Department of Transportation, Federal Aviation Administration, Western Region, Attention: Regional Counsel, Airworthiness Rules Docket, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009.

The applicable DC-10 service bulletin may be obtained from McDonnell Douglas Corp., 3855 Lakewood Boulevard, Long Beach, Calif. 90846, Attention: L. A. Eisenberg, CI-750, 54-60.

Also, a copy of the service bulletins may be reviewed at or copies obtained from Rules Docket, in Room 916, FAA, 800 Independence Avenue SW., Washington, D.C. 20591, or Rules Docket, in Room 6W14, FAA Western Region, 15000 Aviation Boulevard, Hawthorne, Calif. 90261.

**FOR FURTHER INFORMATION CONTACT:**

Jerry J. Presba, Executive Secretary, Airworthiness Directive Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, Worldway Postal Center, Los

Angeles, Calif. 90009, telephone 213-536-6351.

**SUPPLEMENTARY INFORMATION:** Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Interested persons are also invited to comment on the economic, environmental and energy impact that might result because of adoption of the proposed rule. Communications should identify the regulatory docket number and be submitted in duplicate to the Federal Aviation Administration, at the address given in the opening section of this AD. All communications received on or before the closing date for comments will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of the comments received. All comments submitted will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons. A report summarizing each FAA public contact, concerned with the substance of the proposed AD, will be filed in the rules docket.

There have been two reported incidents of simultaneous loss of the primary attitude and heading reference sources on DC-10 Series 30 airplanes. Both incidents were precipitated by severe vibrations as a result of nose tire tread separation. The incidents occurred above the abort speed so that the pilots completed their takeoff roll, rotation, and climb-out with the primary attitude and heading instruments inoperative. Both incidents occurred during VFR conditions. The simultaneous loss of both primary attitude indicators during this critical point in the takeoff flight path could result in the loss of control of the aircraft. Since this situation is likely to exist or develop on other airplanes of the same type design the proposed AD would require modification of the avionics compartment navigation rack to strengthen and improve its dynamic response characteristics on DC-10 Series airplanes equipped with Litton inertial systems.

## DRAFTING INFORMATION

The principal authors of this document are Herbert G. Peters, Aircraft Engineering Division, and Frederick C. Woodruff, Office of the Regional Counsel.

## PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend §39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new airworthiness directive:

**McDONNELL DOUGLAS:** Applies to DC-10 -10, -10F, -30, -30F, and -40 Series airplanes

certificated in all categories, that are equipped with Litton -51 or Litton -72 Inertial Navigation Systems or Litton -58 Inertial Sensor Systems. Airplanes to be equipped with Litton Inertial Systems after the closing date of this AD must be modified as defined herein prior to installation of the inertial systems.

Compliance is required as indicated unless already accomplished.

To prevent simultaneous loss of primary attitude and heading information during takeoff roll accomplish the following:

(a) On or before January 31, 1979, unless already accomplished, or unless incorporated in production, modify the airplane's navigation rack in accordance with McDonnell Douglas DC-10 Service Bulletin 25-251, dated August 26, 1977, or later FAA approved revisions.

(b) Equivalent modifications, procedures, or revisions may be used when approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(c) Special flight permits may be issued in accordance with FAR's §§21.197 and 21.199 to operate airplanes to a base for accomplishment of the modification required by this AD.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.85.)

**NOTE:**—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Los Angeles, Calif., on January 10, 1978.

ROBERT H. STANTON,  
Director, FAA Western Region.

[Docket No. 17550]

## AIRWORTHINESS DIRECTIVES

Hawker Siddeley Aviation, Ltd., DH-104  
"Dove" Airplanes

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This notice proposes to adopt an airworthiness directive (AD) that would require inspections for cracks and replacement, as necessary, of the Pre-Modification 779 center section main spar lower booms on Hawker Siddeley Aviation Ltd., Model DH-104 "Dove" airplanes. The proposed AD is directed at ensuring continued wing to fuselage attachment integrity.

**DATES:** Comments must be received on or before March 9, 1978.

**ADDRESS:** Send comments on the proposal in duplicate to: Federal Avi-

ation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-24), Docket No. 17550, 800 Independence Avenue SW., Washington, D.C. 20591.

The applicable technical news sheet may be obtained from: Hawker Siddeley Aviation Ltd., Hatfield Hertfordshire, England, Product Support Department, Telephone: Hatfield 62345.

A copy of the technical news sheet is contained in the Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

#### FOR FURTHER INFORMATION CONTACT:

D.C. Jacobson, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Region, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, Telephone: 513.38.30.

**SUPPLEMENTARY INFORMATION:** Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA-public contact, concerned with the substance of the proposed AD, will be filed in the Rules Docket.

The FAA has determined that cracking due to stress corrosion could occur in the wing to fuselage attachment lugs of pre-modification 779 center section main spar lower booms on Hawker Siddeley Aviation Ltd., Model DH-104 "Dove" aircraft. This determination is based on reports of cracking in the lugs of the center section main spar upper boom of Hawker Siddeley Model DH-114 aircraft which are of the same design and material as the lugs of the pre-modification 779 lower boom. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed AD would require inspections of the lugs and replacement of the boom, as necessary, on Hawker Siddeley Aviation, Ltd., Model DH-104 "Dove" airplanes.

#### DRAFTING INFORMATION

The principal authors of this document are F. J. Karnowski, Europe, Africa, and Middle East Region, F.

#### PROPOSED RULES

Kelley, Flight Standards Service, and S. Podberesky, Office of the Chief Counsel.

#### THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new airworthiness directive:

**HAWKER SIDDELEY AVIATION LTD.** Applies to Model DH-104 "Dove" airplanes, all Series, certificated in all categories, except those airplanes incorporating Hawker Siddeley Model DH-104 Modification 779.

Compliance is required as indicated. To detect cracking and prevent possible failure of the lugs of the lower center section main spar wing to fuselage attachment, accomplish the following:

(a) Within one month after the effective date of this AD, unless already accomplished within the last month, and thereafter at intervals not to exceed two months from the last inspection, remove the lower wing to fuselage fairings and inspect the center section main spar bottom boom lugs for cracks using an ultrasonic inspection method in accordance with appendix 1 of Hawker Siddeley Aviation, Limited Technical News Sheet (TNS) 238, issue 2, dated January 24, 1977, or an FAA-approved equivalent.

(b) The repetitive inspections required by paragraph (a) of this AD may be terminated upon incorporation of a steel lower boom in accordance with Hawker Siddeley Model DH-104 Modification 779, or an FAA-approved equivalent.

(c) Within two months after accomplishing six repetitive inspections under paragraph (a) of this AD, a steel lower boom must be incorporated in accordance with Hawker Siddeley Model DH-104 Modification 779, or an FAA-approved equivalent.

(d) If any crack is found during an inspection required by paragraph (a) of this AD, before further flight, replace the boom with a steel boom in accordance with Hawker Siddeley Model DH-104 Modification 779, or an FAA-approved equivalent.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.85.)

**NOTE.**—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on January 13, 1978.

J. A. FERRARESE,  
Acting Director,  
Flight Standards Service.

#### AIRWORTHINESS DIRECTIVES

**Hawker Siddeley Aviation, Ltd., DH/BH/HS-125 Airplanes**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This notice proposes to adopt an airworthiness directive (AD) that would require replacement of the existing radome lightning diverter strips with new externally mounted light alloy strips on Hawker Siddeley Aviation, Ltd., Model DH/BH/HS-125 airplanes. The proposed AD is needed to prevent serious damage to the radome from lightning strikes which could result in a loss of a radome and a possible hazard to persons and property on the ground.

**DATES:** Comments must be received on or before March 9, 1978.

**ADDRESSES:** Send comments on the proposal in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket (AGC-24), Docket No. 17549, 800 Independence Avenue SW., Washington, D.C. 20591.

The applicable service bulletin may be obtained from: Hawker Siddeley Aviation Inc., Suite 206, Blake Building, 1025 Connecticut Avenue NW., Washington, D.C. 20036, telephone 202-223-9350.

A copy of the Service Bulletin is contained in the Rules Docket Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

#### MOSES LAKE, WASH.

#### Proposed Alteration of Transition Area

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This notice proposes to alter the Moses Lake, Wash., 700 foot transition area. The proposal is necessary to provide controlled airspace for a standard instrument approach procedure.

**DATES:** Comments must be received on or before March 3, 1978.

**ADDRESSES:** Send comments on the proposal, in triplicate, to Chief, Operations, Procedures and Airspace Branch, Northwest Region, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108.

The official docket may be examined at the following location: Office of the Regional Counsel, Northwest Region, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108.

#### FOR FURTHER INFORMATION CONTACT:

Dale C. Jepsen, Airspace Specialist, Operations, Procedures and Airspace Branch (ANW-533), Air Traffic Division, Federal Aviation Administration, Northwest Region, FAA Building, Boeing Field, Seattle, Wash. 98108; telephone 206-767-2610.

#### SUPPLEMENTARY INFORMATION:

#### COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Chief, Operations, Procedures and Airspace Branch, Northwest Region, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108. All communications received on or before March 3, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All com-

ments submitted will be available, both before and after the closing date for comments, in the official docket for examination by interested persons.

#### AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Chief, Operations, Procedures and Airspace Branch, ANW-530, Northwest Region, FAA Building, Boeing Field, Seattle, Wash. 98108, or by calling 206-767-2610. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

#### THE PROPOSAL

The Federal Aviation Administration is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the 700 foot transition area at Moses Lake, Wash. The present 700 foot transition area was found to be inadequate to contain the VOR RWY 14L standard instrument approach to Grant County Airport. Accordingly, the Federal Aviation Administration proposes to amend Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

By amending § 71.181 so as to alter the following transition area to read:

#### MOSES LAKE, WASH.

"That airspace extending upward from 700 feet above the surface within a 19-mile radius of Grant County Airport (latitude 47°12'29" N., longitude 119°19'05" W.), within a 19-mile radius of the Ephrata VORTAC, (latitude 47°22'41" N., longitude 119°25'22" W.); that airspace extending upward from 1,200 feet above the surface bounded on the north by latitude 47°45'00" N., on the east by the arc of a 52-mile radius circle centered on Fairchild Air Force Base, Wash., (latitude 47°36'55" N., longitude 117°39'20" W.), on the southeast by V-112W, on the south by V-288 and on the west by longitude 120°00'00" W."

#### DRAFTING INFORMATION

The principal authors of this document are Dale C. Jepsen, Air Traffic Division, and Jonathan Howe, Regional Counsel, Northwest Region, Federal Aviation Administration.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

**NOTE.**—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Seattle, Wash., on January 13, 1978.

#### ALTERATION OF TRANSITION AREA

San Luis Valley Airport, Colo.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice (NPRM) proposes to alter the Alamosa, Colo., 700 foot and 1,200 foot transition areas to provide controlled airspace for aircraft executing the new VOR/DME-C standard instrument approach procedure developed for the San Luis Valley Airport, Monte Vista, Colo.

DATE: Comments must be received on or before February 24, 1978.

ADDRESS: Send comments on the proposal to: Chief, Air Traffic Division, Attention: ARM-500, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colo. 80010.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colo. 80010.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Joseph T. Taber, Airspace Specialist, Operations, Procedures and Airspace Branch (ARM-537), Air Traffic Division, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colo. 80010, telephone 303-837-3937.

#### SUPPLEMENTARY INFORMATION:

##### COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colo. 80010. All communications received will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic

#### PROPOSED RULES

Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

##### AVAILABILITY OF NPRM

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

##### THE PROPOSAL

The Federal Aviation Administration is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the transition areas at Alamosa, Colo. The present transition areas are inadequate to contain the new VOR/DME-C instrument approach to the San Luis Valley Airport, Monte Vista, Colo. It is proposed to make the transition areas' alteration effective coincident with the effective date of the new standard instrument approach. Accordingly, the Federal Aviation Administration proposes to amend subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

By amending § 71.181 so as to alter the following transition areas to read:

##### ALAMOSA, COLO.

That airspace extending upward from 700 feet above the surface within 10 miles northeast and 12 miles southwest of the Alamosa VORTAC 335° and 155° radials extending from 23 miles northwest to 12 miles southeast of the VORTAC; and within 2 miles northwest and 6 miles southeast of the Alamosa VORTAC 200° radial extending from the VORTAC to 16 miles southwest of the VORTAC, and that airspace extending upward from 1200 feet above the surface within 13 miles northeast of the Alamosa VORTAC 335° radial extending from the VORTAC to 31 miles northwest of the VORTAC; within 12 miles southwest of the Alamosa VORTAC 335° radial extending from the VORTAC to 37 miles northwest of the VORTAC; within 5 miles each side of the Alamosa VORTAC 018° radial extending from the VORTAC to 45 miles northeast of the VORTAC; within 5 miles each side of the Alamosa VORTAC 065° radial extending from the VORTAC to 37 miles northeast of the VORTAC; within 5 miles each side of the Alamosa VORTAC 080° radial extending from the VORTAC to 56 miles east of the VORTAC; within 1.3 miles northeast and 9.5 miles southwest of the Alamosa

VORTAC 127° radial extending from the VORTAC to 19 miles southeast of the VORTAC; and within 5 miles each side of the Alamosa VORTAC 200° radial extending from the VORTAC to 37 miles southwest of the VORTAC. That airspace extending upward from 12,000 feet MSL within 5 miles each side of the Alamosa VORTAC 200° radial extending from 37 to 54 miles southwest of the VORTAC.

##### DRAFTING INFORMATION

The principal authors of this document are Mr. Joseph T. Taber, Air Traffic Division, and Mr. Daniel J. Peterson, Office of the Regional Counsel, Rocky Mountain Region.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Issued in Aurora, Colo., on January 11, 1978.

M. M. MARTIN,

Director, Rocky Mountain Region.

#### [3510-25]

##### DEPARTMENT OF COMMERCE

Industry and Trade Administration

[15 CFR Part 377]

##### SHORT SUPPLY CONTROLS

Exemption of Agricultural Commodities From Quantitative Limitations on Export

AGENCY: Department of Commerce, Industry and Trade Administration, Bureau of Trade Regulation, Office of Export Administration.

ACTION: Proposed rule.

SUMMARY: These proposed regulations would establish a procedure under which agricultural commodities purchased by or for use in a foreign country may be stored in, and exported from, the United States free from any quantitative restrictions on export which may subsequently be imposed for reasons of short supply. This serves to implement section 105 of the Export Administration Amendments of 1977 (Pub. L. 95-52), amended section 4(f) of the Export Administration Act of 1969, as amended.

DATE: Close of comment period February 28, 1978.

ADDRESS: Send comments to the Office of Export Administration, Attention: Short Supply Division, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT:

Mr. Rauter H. Meyer, Director, Office of Export Administration or Mr. Converse Hettinger, Director, Short Supply Division, Office of Export Administration, Department of Commerce, Washington, D.C. 20230, telephone 202-377-3795.

SUPPLEMENTARY INFORMATION: Section 105 of the Export Administration Amendments of 1977 (Pub. L. 95-52) amended section 4(f) of the Export Administration Act of 1969, as amended, by adding the following new paragraph:

Upon approval of the Secretary of Commerce, in consultation with the Secretary of Agriculture, agricultural commodities purchased by or for use in a foreign country may remain in the United States for export at a later date free from any quantitative limitations on export which may be imposed pursuant to section 3(2)(A) of this Act subsequent to such approval. The Secretary of Commerce may not grant approval hereunder unless he receives adequate assurance and, in conjunction with the Secretary of Agriculture, finds that such commodities will eventually be exported, that neither the sale nor export thereof will result in an excessive drain of scarce materials and have a serious domestic inflationary impact, that storage of such commodities in the United States will not unduly limit the space available for storage of domestically owned commodities, and that the purpose of such storage is to establish a reserve of such commodities for later use, not including resale to or use by another country. The Secretary of Commerce is authorized to issue such rules and regulations as may be necessary to implement this paragraph.

These regulations propose to (a) establish a procedure under which agricultural commodities may be registered with the Department of Commerce for exemption from future quantitative limitations on export for reasons of short supply; (b) prescribe the documentation which must accompany applications to register such commodities for exemption from export restrictions; and (c) state the conditions under which such applications may be approved.

The regulations are promulgated in proposed form to provide interested parties an opportunity to comment and, thus, assist the Department in developing final regulations on the subject. Interested parties should submit their comments, views or data concerning these regulations, in written form (5 copies), to the Office of Export Administration, Attention: Short Supply Division, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, written public comments which are accompanied by a request that part or all of the material be treated confidentially because of its business proprietary nature or for any other reason will not be accepted. Such comments and materials will be returned to the submitter and will not be considered in the development of the regulations. All other submissions

#### PROPOSED RULES

received before the close of the comment period on February 28, 1978, will be considered prior to the promulgation of final regulations and will be available to the public for inspection and copying. This procedure shall not, however, apply to communications from agencies of the United States or foreign governments.

Accordingly, the Export Administration Regulations (15 CFR 368 et seq.) are proposed to be amended by adding a new § 377.4 to read as follows:

§ 377.4 Registration of U.S. agricultural commodities for exemption from short supply limitations on export

(a) General. Agricultural commodities of U.S. origin purchased by or for use in a foreign country and stored in the United States for export at a later date may be registered with the Department of Commerce under the provisions of this section for exemption from any quantitative limitations on export which may subsequently be imposed under section 3(2)(A) of the Export Administration Act for reasons of short supply.

(b) Definitions. For the purpose of this § 377.4 the following definitions will apply:

(1) Agricultural commodities are deemed "purchased" by or for use in a foreign country if:

(i) Such commodities are in being and title thereto has been transferred to a foreign purchaser, or they are the subject of a binding contract for sale to a foreign purchaser and such contract describes the commodities by kind, grade and quantity, contains a fixed price or basis for calculating price, and requires the commodities to be exported or delivered for export within a specified time; and

(ii) The purpose of the transaction is the creation of a reserve for later export to and use in a particular foreign country.

(2) The term "stored in the United States" means that the commodities are in storage, either on an identity preserved or commingled basis, in a particular storage facility in the United States.

(c) Findings necessary for approval. Applications to register such commodities may be approved by the Office of Export Administration if that Office receives adequate assurances and in conjunction with the Department of Agriculture determines:

(1) That such commodities will eventually be exported;

(2) That neither the sale nor the export thereof will result in an excessive drain of scarce materials and have a serious domestic inflationary impact;

(3) That storage of such commodities in the United States will not unduly limit the space available for storage of domestically-owned commodities; and

(4) That the purpose of such storage is to establish a reserve of such commodities for later use within a specified foreign country, not including resale to or use by or within another country.

(d) Procedures for filing registration applications. (1) Applications to register agricultural commodities must be submitted by a person or firm subject to the jurisdiction of the United States acting as a duly authorized agent for the foreign purchaser. Such applications shall be submitted, in duplicate, by letter addressed to the Office of Export Administration, Attention: Short Supply Division, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230. The letter shall:

(i) Describe the commodities to be registered by kind, grade and quantity;

(ii) Identify the specific storage facility where they are or will be stored and indicate whether they are or will be stored on an identity preserved or commingled basis;

(iii) State the length of time during which it is proposed to keep the commodities in storage in the United States;

(iv) Identify the foreign purchaser of the commodities and the foreign country in which they will ultimately be used;

(v) Set forth any other details that the applicant considers to be relevant to the proposed storage and export transactions; and

(vi) Contain the following certification: "I certify that the commodities described herein have been purchased as a reserve for export to (country) and use therein (not including resale to, or use by or within another country); that they will be stored in the facility identified herein; and that they will be exported to that country prior to the expiration of such period as may be approved by the Office of Export Administration or, in the absence of quantitative limitations on export, within 60 days thereafter. I understand that, if the commodities have not been exported within the registration period approved by the Office of Export Administration, they will be subject to any quantitative limitations on export that may be in effect at the time of proposed export; and that failure to export the commodities in accordance with the terms of the registration approval, or failure to comply with any other conditions of approval, may result in compliance action pursuant to Section 387 of the Export Administration Regulations or any other applicable law."

(2) The following documents shall be submitted with the letter:

(i) Two copies of the contract of sale to the foreign buyer;

(ii) A statement, in duplicate, from an appropriate official representative

V

7  
8  
UMI

of the government of the country in which the commodities are ultimately to be used, identifying the specific transaction to which the statement relates and describing the commodities by kind, grade and quantity; stating that the commodities are considered part of that country's agricultural commodity reserve for use in that country; and further stating that any necessary import authorizations or other documentation have been or will be issued for the entry of the commodities into that country;

(iii) An affidavit, in duplicate, from the operator of the facility where the commodities are to be stored, stating that storage in that facility of the commodities proposed to be registered will not limit his ability to meet anticipated storage needs of the facility's traditional customers, or if it will limit such ability, the extent of such limitation.

(e) *Preliminary advice.* Before submitting a formal application for registration, the applicant may consult with the Office of Export Administration in person or by letter as to the likelihood of approval of an application for registration. The Office of Export Administration will try to respond promptly and fully to such inquiries. However, a definitive determination on approval of an application can be made only on the basis of a fully documented application in light of all the facts and circumstances at the time of its filing.

(f) *Commerce action on registration applications.* Upon receipt by the Office of Export Administration, a copy of each request and accompanying documentation will be forwarded to the Department of Agriculture for that Department's determination of whether the application meets each of the criteria for approval and its recommendation on whether the application should be approved. No application will be approved unless the Department of Agriculture determines that the criteria for approval have been met. If the application is approved, the applicant will be informed of such approval by letter, identifying the commodities, storage facility and country of destination; stating the period for which the registration is effective; and setting forth any other conditions of approval. The period for which storage is approved will not necessarily equal the period requested in the application. The following general conditions are applicable to all approved registrations.

(1) The applicant will be required to: (i) have the operator of the storage facility place on the original warehouse receipt a legend reading: "These commodities have been registered with the Department of Commerce for export to (country) and may be removed from storage only for purposes of export to

that country, unless other disposal is permitted pursuant to advance written authorization from the Office of Export Administration"; and (ii) within ten days of receipt of the notification of registration approval, provide Commerce with two certified copies of the original warehouse receipt bearing such legend.

(2) Registration approvals will be effective for a specified period, and the registered commodities will be exempt from quantitative limitations on export for reasons of short supply only during such period.

(3) Commodities which are or have been registered must be exported within the period of such registration or, in the absence of quantitative limitations on export, with 60 days thereafter. Should the foreign purchaser, for reasons beyond his control, be prevented from exporting such commodities within the specified period, the Department will consider a request for extension of such period. Such requests should be submitted in writing within the specified period, describe the circumstances which prevent the timely export of such commodities, and state when such commodities will be exported.

(4) Unless otherwise permitted by the Department of Commerce, commodities which are or have been at any time registered may be disposed of only by exporting to the country stated in the registration for use in that country.

(5) Failure to export commodities which are or have been registered as required by this section, the export or reexport of such commodities to a country other than that approved in the registration, or failure to comply with any other condition attached to the registration of these commodities by the Department of Commerce may result in compliance action pursuant to Part 387 of the Export Administration Regulations or any other applicable law.

(g) *Application for extension of registration.* An application for extension of the period for which registered storage approval was initially granted shall be made at least 30 days prior to expiration of that period. Such application shall be made by letter, in duplicate, and shall make reference to the original storage approval and state the reason or reasons why the extension is requested. Accompanying documentation, in duplicate, shall be submitted as necessary to update that submitted with the original application.

The mere filing of an application for extension will not extend the original period, and if approval of extension is not granted before expiration of the original period, such period shall lapse in accordance with the terms of the original registration.

(h) *Export of registered commodities.* Upon export of commodities which are or have been registered, the person receiving registered storage approval shall report the export to the Office of Export Administration, Attention: Short Supply Division, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230.

(1) Such report shall be by letter citing the storage approval and date issued and certifying that such commodities have been withdrawn from registered storage and exported. The report shall also transmit (i) a copy of the on board bill of lading and (ii) an independent inspector's certificate of analysis at the port of export attesting to the quantity and grade of the commodity being exported. If the quantity (less normal shrinkage) and grade do not conform to that shown on the warehouse receipt and the registered storage approval, appropriate documentation establishing the continuity of movement from warehouse to exporting carrier must also be transmitted.

(2) Such report shall be submitted within 15 calendar days of export except that if partial shipments are made the report and accompanying documentation may be held until final shipment has been made and then submitted within 15 calendar days of the final shipment.

(i) *Procedure for exporting registered commodities during a period when short supply controls are in effect.* (1) Should short supply export controls be imposed for a commodity being stored in the United States under a valid registered storage approval, the person to whom such approval was granted shall file an Application for Export License, Form DIB 622-P, in accordance with the procedure set forth in Part 372, except that no accompanying documentation shall be required. The application shall cite in Item 12 the relevant registered storage approval issued by the Office of Export Administration and shall state the quantity of the commodities covered by the registered storage approval already exported or which will be exported pursuant to the terms of any Saving Clause contained in the announcement imposing short supply export controls. Upon verification that the registered storage approval is valid, the Office of Export Administration will issue a validated export license for the quantity authorized in the registered storage approval, less any quantities previously exported or in process of being exported under any Saving Clause, without regard to any quantitative short supply export limitations which are then in effect. The license shall be valid through the date specified thereon.

(2) In addition to the report required under paragraph (h) above, the person

to whom an export license has been issued under this provision shall report each export pursuant to such license, within 60 days of the final shipment under the license, to the Office of Export Administration, Attention: Short Supply Division, Room 1617M, Washington, D.C. 20230, by letter citing the applicable registered storage approval and enclosing: (i) a statement from an appropriate official of the government of the importing country attesting to the fact that the commodities—which must be identified by kind, grade and quantity—have been imported into that country for use therein and (ii) the validated export license with the reverse side completed so as to record the shipment data and signature of the licensee or his duly authorized agent.

(j) *Effect of other provisions.* Unless inconsistent with the provisions of this § 377.4, all the provisions of the Export Administration Regulations, including Parts 387 and 388, apply equally to the procedure set forth in this Section. Attention is called particularly to the provisions of § 387.11 under which pertinent records must be kept and made available for inspection and to the administrative and criminal sanctions in § 387.1 for violation of the Export Administration Act of 1969, as amended, or any order, regulation or license issued thereunder.

(Sec. 4, Pub. L. 91-184, 83 Stat. 842 (50 U.S.C. App. 2403), as amended; E.O. 12002, 42 FR 35623 (1977); Department Organization order 10-3, dated Nov. 17, 1975, 40 FR 58876 (1975), as amended; and Domestic and International Business Administration Organization and Function Orders 46-1, dated November 17, 1975, 40 FR 59764 (1975), as amended and 46-2, dated November 17, 1975, 40 FR 59761 (1975), as amended.)

NOTE.—The Office of Export Administration has determined that this document does not contain a major action which would require the preparation of an economic impact statement (see Executive Order 11949 and OMB Circular A-107).

STANLEY J. MARCUSS,  
Deputy Assistant Secretary  
Bureau of Trade Regulation.

[4810-31]

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

[27 CFR Parts 18, 194, 250, 251]

[Notice No. 317]

PRODUCTION OF VOLATILE FRUIT-FLAVOR CONCENTRATES, LIQUOR DEALERS, LIQUORS AND ARTICLES FROM PUERTO RICO AND THE VIRGIN ISLANDS AND IMPORTATION OF DISTILLED SPIRITS, WINES, AND BEER

Record Retention Requirements

AGENCY: Bureau of Alcohol, Tobacco and Firearms.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Bureau of Alcohol, Tobacco and Firearms proposes to increase the required time period for retention of records prescribed by the regulations listed above. The new time period would be three years (rather than the present two years), and the regional regulatory administrator would be given discretionary authority to prescribe an additional retention period of not more than three years. The purpose of the change is to insure that records will be available long enough to support any action that might be taken within the applicable statutes of limitation.

COMMENT DATE: Comments must be received on or before March 24, 1978.

ADDRESSES: Comments must be submitted, in duplicate, to the Director, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue NW., Washington, D.C. 20226.

FOR FURTHER INFORMATION CONTACT:

Steven C. Simon, Research and Regulations Branch, Bureau of Alcohol, Tobacco and Firearms, Room 6226B, 1200 Pennsylvania Avenue NW., Washington DC 20226, 202-566-7626.

SUPPLEMENTARY INFORMATION: The statute of limitations in 26 U.S.C. 6531 is three years (six years for some offenses). In 27 U.S.C. 204(i) there is a statute of limitations of 18 months following a criminal conviction, or three years from the violation if there is no criminal conviction. In the light of these statutes, the present two-year record retention requirements of 27 CFR 18.141, 194.242, 250.276, and 251.137 are considered to be inadequate. As these regulations are presently worded, evidence may be destroyed before the statute of limitations has expired. Under the proposed three-year retention period this potential problem should not normally arise. However, to cover unusual situations, such as when administrative action in accordance with 27 U.S.C. 204(i) is contemplated following criminal action, or when there is suspicion of a violation listed in 26 U.S.C. 6531 (1) through (8), the additional discretionary retention period (not more than three additional years) is proposed.

Other proposed amendments merely make conforming changes; instructions relating only to ATF personnel are deleted; and changes are made which reflect the creation and reorganization of the Bureau of Alcohol, Tobacco and Firearms.

Interested persons who wish to participate in the making of the proposed rules are invited to submit written comments or suggestions, in duplicate,

to the Director, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226, on or before March 24, 1978. Copies of the proposed changes and any comments received are available for public inspection from 8:30 a.m. to 5 p.m. in Room 4408, Federal Building, 12th Street and Pennsylvania Avenue NW., Washington, D.C.

Any person submitting comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his/her request, in writing, to the Director within the 60-day period. However, the Bureau reserves the right to determine, in the light of all the circumstances, whether a public hearing should be held.

DRAFTING INFORMATION

The original drafter of this document was Steven C. Simon of the Research and Regulations Branch, Bureau of Alcohol, Tobacco and Firearms. However, supervisors and reviewers from both the Bureau and the Department of the Treasury exercised control over the development of the regulations, both as to matters of substance and style.

AUTHORITY

Accordingly, it is proposed to amend the regulations in 27 CFR 18.11, 18.141, 194.11, 194.222, 194.242, 250.11, 250.276, 251.11, 251.137. The proposed regulations are to be issued under the authority contained in 26 U.S.C. 7805 (68A Stat. 917).

PART 18—PRODUCTION OF VOLATILE FRUIT-FLAVOR CONCENTRATES

PARAGRAPH A. The regulations in 27 CFR Part 18 are proposed to be amended as follows:

1. Section 18.11 is amended to add, in alphabetical order, a definition of "regional regulatory administrator," and to revise the definition of "regional director." As amended, the affected portions of § 18.11 read as follows:

§ 18.11 Meaning of terms.

Regional director. A regional regulatory administrator as defined in this section.

Regional regulatory administrator. The principal regional official responsible for administering regulations in this part.

2. Section 18.141 is amended to increase the records retention period to three years (rather than two years, as it currently is), and to provide that the regional regulatory administrator may prescribe an additional retention period of up to three years in certain circumstances. (Currently, the regula-

tions have only a two-year discretionary additional period.) The amendment also reflects the change in title from "regional director" to "regional regulatory administrator," and it includes clarifying and stylistic changes. As amended, § 18.141 reads as follows:

**§ 18.141 Records and reports.**

Each proprietor shall keep records and submit reports (including applications and notices) as required by this part. These records, and copies of applications, notices, and reports, shall be maintained on or convenient to the concentrate plant, and be available for inspection by ATF officers during business hours. The records and copies of applications, notices and reports shall be retained for not less than three years from the date they were made, or the date of the last entry required to be made in them, whichever is the later. Furthermore, the regional regulatory administrator may require these records and copies of applications, notices, and reports to be kept for an additional period of not more than three years in any case where he determines retention necessary or advisable.

**PART 194 LIQUOR DEALERS**

PAR. B. The regulations in 27 CFR Part 194 are proposed to be amended as follows:

1. Section 194.11 is amended to provide, in alphabetical order, definitions of "ATF officer" and "regional regulatory administrator"; to revise the definitions of "assistant regional commissioner", "internal revenue officer", and "regional director"; and to delete the definition of "regional commissioner". As amended, the affected portions of § 194.11 read as follows:

**§ 194.11 Meaning of terms.**

*Assistant regional commissioner.* A regional regulatory administrator as defined in this section.

*ATF officer.* An officer or employee of the Bureau of Alcohol, Tobacco and Firearms (ATF) duly authorized to perform any function relating to the administration or enforcement of this part.

*Internal revenue officer.* An ATF officer as defined in this section.

*Place, or place of business.* . . . .  
*Regional director.* A regional regulatory administrator as defined in this section.

*Regional regulatory administrator.* The principal regional official respon-

sible for administering regulations in this part.

*Sale at retail or retail sale.* . . . .

2. Section 194.222 is amended to change the reference to the records retention period from "not less than two years" to "not less than three years", to substitute "regional regulatory administrators" for "assistant regional commissioners", and to make stylistic changes. As amended, § 194.222 reads as follows:

**§ 194.222 Requirements as to wines and beer.**

Each wholesale dealer in liquors who receives wines, or wines and beer, and each wholesale dealer in beer shall keep at his place of business a complete record of all wines and beer received, showing (a) the quantities thereof, (b) from whom received, and (c) the receiving dates. This record, which must be kept for a period of not less than three years as prescribed in § 194.242, shall consist of all purchase invoices or bills covering wines and beer received or, at the option of the dealer, a book record containing all of the required information. Wholesale dealers are not required to prepare or submit reports to regional regulatory administrators of transactions relating to wines and beer.

(68A Stat. 731 (26 U.S.C. 6001); Sec. 201, Pub. L. 85-859, 72 Stat. 1342, 1345, 1348, 1395 (26 U.S.C. 5114, 5124, 5146, 5555).)

3. Section 194.242 is amended to change the records retention period from "not less than 2 years" to "not less than three years", to change "internal revenue officers" to "ATF officers", to add a provision that the regional regulatory administrator may require records to be kept for an additional period of not more than three years, and to make stylistic changes. As amended, § 194.242 reads as follows:

**§ 194.242 Retention of records and files.**

All records prescribed by this part, documents or copies of documents supporting these records, and file copies of reports submitted, shall be retained by the person required to keep the documents for a period of not less than three years, and during this period shall be available, during business hours, for inspection and copying by ATF officers. Furthermore, the regional regulatory administrator may require these records to be kept for an additional period of not more than three years in any case where he determines retention necessary or advisable. Any records, or copies thereof, containing any of the information required by this part to be prepared, wherever kept, shall also be made available for inspection and copying.

(68A Stat. 731 (26 U.S.C. 6001); Sec. 201, Pub. L. 85-859, 72 Stat. 1342, 1345, 1348, 1395 (26 U.S.C. 5114, 5124, 5146, 5555).)

**PART 250—LIQUOR AND ARTICLES FROM PUERTO RICO AND THE VIRGIN ISLANDS**

PARAGRAPH C. The regulations in 27 CFR Part 250 are proposed to be amended as follows:

1. Section 250.11 is amended to provide, in alphabetical order, definitions of "ATF officer" and "regional regulatory administrator"; and to revise the definitions of "assistant regional commissioner", "Director, alcohol, tobacco and firearms division", "region" and "regional director." As amended, the affected portions of § 250.11 read as follows:

**§ 250.11 Meaning of terms.**

*Assistant regional commissioner.* A regional regulatory administrator as defined in this section.

*ATF officer.* An officer or employee of the Bureau of Alcohol, Tobacco and Firearms (ATF) duly authorized to perform any function relating to the administration or enforcement of this part.

*Director, Alcohol, Tobacco and Firearms Division.* The Director, Bureau of Alcohol, Tobacco and Firearms as defined in this section.

*Region.* A geographical region of the Bureau of Alcohol, Tobacco and Firearms.

*Regional director.* A regional regulatory administrator as defined in this section.

*Regional regulatory administrator.* The principal regional official responsible for administering regulations in this part.

2. Paragraph (b) of § 250.143 is amended to delete instructions that apply only to ATF personnel. As amended, § 250.143 reads as follows:

**§ 250.143 Procurement and custody of red strip stamps.**

(b) *Alternative method.* When the Chief, Puerto Rican Operations, determines that the interest of the government will be best served thereby, the stamps may be shipped directly to the Commonwealth revenue agent at the plant from the Bureau of Engraving and Printing. In this case, orders on Form 428 for standard size red strip stamps shall be in multiples of 100,000

stamps, and orders for small size shall be in multiples of 50 stamps (one sheet).

(Sec. 201, Pub. L. 85-859, 72 Stat. 1358 (26 U.S.C. 5205).)

3. Section 250.276 is amended to replace "assistant regional commissioner" with "regional regulatory administrator"; "internal revenue officers" is replaced with "ATF officers"; and "director of customs" is replaced with "district director of customs." The retention period is changed from "not less than two years" to "not less than three years"; a provision is added that the regional regulatory administrator may require records to be kept for an additional period of not more than three years; and minor stylistic changes are made. As amended, § 250.276 reads as follows:

**§ 250.276 Retention.**

All records required by this part, documents or copies of documents supporting these records, and file copies of reports required by this part to be submitted to the regional regulatory administrator or to the district director of customs shall be retained for not less than three years, and during this period shall be available, during business hours, for inspection and copying by ATF or customs officers.

Furthermore, the regional regulatory administrator may require these records to be kept for an additional period of not more than three years in any case where he determines retention necessary or advisable. Any records, or copies thereof, containing any of the information required by this part to be prepared, wherever kept, shall also be made available for inspection and copying.

(68A Stat. 731 (26 U.S.C. 6001); Sec. 201, Pub. L. 85-859, 72 Stat. 1342, 1345, 1348, 1361, 1395 (26 U.S.C. 5114, 5124, 5146, 5207, 5555).)

**PART 251—IMPORTATION OF DISTILLED SPIRITS, WINES AND BEER**

PAR. D. The regulations in 27 CFR Part 251 are proposed to be amended as follows:

1. Section 251.11 is amended to revise the definitions of "alcohol, tobacco and firearms officer", "assistant regional commissioner", "Director, alcohol, tobacco and firearms division", "internal revenue officer", "region", and "regional director." A new definition of "regional regulatory administrator" is added in alphabetical order. As amended, the affected portions of § 251.11 read as follows:

**§ 251.11 Meaning of terms.**

*Alcohol, tobacco and firearms officer, or ATF officer.* An officer or em-

ployee of the Bureau of Alcohol, Tobacco and Firearms (ATF) duly authorized to perform any function relating to the administration or enforcement of this part.

*Assistant regional commissioner.* A regional regulatory administrator as defined in this section.

*Director, Alcohol, Tobacco and Firearms Division.* The Director, Bureau of Alcohol, Tobacco and Firearms, as defined in this section.

*Internal revenue officer.* An ATF officer as defined in this section.

*Region.* A geographical region of the Bureau of Alcohol, Tobacco and Firearms.

*Regional director.* A regional regulatory administrator as defined in this section.

*Regional regulatory administrator.* The principal regional official responsible for administering regulations in this part.

2. Section 251.137 is amended to replace "assistant regional commissioner" with "regional regulatory administrator," to change the retention period from "not less than two years" to "not less than three years", to replace "internal revenue officers" with "ATF officers", to replace "director of customs" with "district director of customs," to add a provision that the regional regulatory administrator may require records to be kept for an additional period of not more than three years, and to make minor stylistic changes. As amended, § 251.137 reads as follows:

**§ 251.137 Retention.**

All records required by this part, documents or copies of documents supporting these records, and file copies of reports required by this part to be submitted to the regional regulatory administrator or to the district director of customs, shall be retained for not less than three years, and during this period shall be available, during business hours, for inspection and copying by ATF or customs officers. Furthermore, the regional regulatory administrator may require these records to be kept for an additional period of not more than three years in any case where he determines retention necessary or advisable. Any records, or copies thereof, containing any of the information required by this part to be prepared, wherever kept, shall also be made available for inspection and copying.

(68A Stat. 731 (26 U.S.C. 6001); Sec. 201, Pub. L. 85-859, 72 Stat. 1342, 1345, 1348, 1361, 1395 (26 U.S.C. 5114, 5146, 5207, 5555).)

Signed: January 3, 1978.

REX D. DAVIS,  
Director.

Approved: January 12, 1978.

**DEPARTMENT OF DEFENSE**

Department of the Army

[32 CFR Part 553]

**NATIONAL CEMETERIES**

Army National Cemeteries

AGENCY: Department of the Army.

ACTION: Proposed rule.

SUMMARY: The Department of the Army is proposing to amend its regulations to include specific policy regarding the use of the parking lot in Arlington National Cemetery by the general public. This proposed rule informs the public that it is unlawful for vehicles to remain in the parking lot beyond the currently posted 2-hour limit. The 2-hour limitation is adequate for those visiting the cemetery. It has been noted, however, that many vehicles remain parked in the lot from early morning through most of the day. The prolonged parking of those vehicles interferes with the parking of bona fide visitors to the cemetery.

DATES: Comments must be received on or before February 28, 1978.

ADDRESS: Comments should be submitted to HQDA (DAAG-PED), Washington, D.C. 20314.

FOR FURTHER INFORMATION CONTACT:

LTC Ellsworth S. Clarke, (area code 202-693-0882).

SUPPLEMENTARY INFORMATION: On July 8, 1968, the Administrator of General Services delegated to the Secretary of Defense (with authority to redelegate to any officer or employee of the Department of Defense) the power to appoint uniformed guards as special policemen and to make needful rules and regulations for Arlington National Cemetery (Fed. Prop. Man. Reg. D-9, 33 FR 10035). On July 16, 1968, all authority vested in the Secretary of Defense, by delegation from GSA, was redelegated to the Secretary of the Army. The regulatory authority of the GSA delegation was used to promulgate the current Arlington Visitors' Rules.

NOTE.—The Department of the Army has determined that this document does not

contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 13, 1978.

W. J. WINTER, Jr.,  
Colonel, U.S. Army, Director,  
Personal Affairs, TAGCEN.

By authority of the Secretary of the Army.

Accordingly, it is proposed to amend 32 CFR § 553.22 by adding a reference to paragraph (g) in the 14th line of § 553.22(b) and by adding a new paragraph (g) to the section as follows:

§ 553.22 Visitors' Rules for the Arlington National Cemetery.

(a) \* \* \*  
(b) Scope. \* \* \* in paragraphs (c), (d), (e), (f), and (g) of \* \* \*

(g) Parking limitation. There is a 2-hour parking limit in the Visitors' Center Parking Lot at Arlington National Cemetery, and it is unlawful for vehicles to remain in the parking lot beyond the 2-hour limit.

[49 CFR Parts 1201, 1240, 1241]  
(No. 36730)

##### CLASS III RAILROADS FOR ACCOUNTING AND REPORTING PURPOSES

###### Proposed Designation

AGENCY: Interstate Commerce Commission.

ACTION: Revised Notice of Proposed Rulemaking.

SUMMARY: The Interstate Commerce Commission is proposing the designation of a Class III railroad classification for accounting and reporting purposes, originally published at 42 FR 56347, October 25, 1977. The purpose of revision is to reduce the accounting and reporting burden of smaller railroads subject to Commission regulations.

Initially, railroads with annual operating revenues of \$1 million or less were proposed to be Class III railroads. The Commission is now considering revising this revenue guideline. Railroads with \$10 million of annual operating revenues will be exempt from implementing the Revised Uniform System of Accounts which becomes effective January 1, 1978, until further ordered.

DATES: Effective January 1, 1978. Written comments must be received on or before February 15, 1978.

#### PROPOSED RULES

ADDRESS: Send comments to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

##### DEPARTMENT OF AGRICULTURE

###### Food Safety and Quality Service

###### [7 CFR Part 2853]

##### MEATS, PREPARED MEATS, AND MEAT PRODUCTS

###### Grading Certification and Standards

AGENCY: Food Safety and Quality Service.

ACTION: Proposed rule.

SUMMARY: This proposed rule will revise certain official U.S. standards for grades of meat and the related meat grading regulations and a companion rule proposed under 9 CFR Parts 316 and 317 will revise Federal meat inspection regulations pertaining to marking and labeling requirements. The proposed changes provide that meat will be graded only in the form of carcasses or sides and in the plant in which the animals were slaughtered. Also, certain trimming procedures and chilling conditions necessary for carcasses to be graded are clarified. The changes proposed in meat inspection regulations specify that all carcasses, parts, and meat of cattle and sheep must be identified by USDA quality grade or as ungraded. The proposed changes are designed to make grade determinations more accurate and uniform and less subject to fraud and to provide more complete grade information to consumers.

DATE: Comments must be received on or before May 1, 1978.

ADDRESS: Written comments to Hearing Clerk, Room 1077 South, U.S. Department of Agriculture, Washington, D.C. 20250.

Jerry Goodall, Acting Director, Meat Quality Division, Food Safety and

Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-4727.

#### SUPPLEMENTARY INFORMATION:

The proposal under this part defines a beef carcass more precisely than formerly; specifies that meat from cattle and sheep will be graded only as carcasses or sides and only in establishments in which the animals are slaughtered; specifies that a beef carcass shall be presented for grading only after it has been sufficiently chilled so that its physical attributes (intramuscular fat or marbling; color, texture, and firmness of the lean; etc.) are developed adequately to permit an accurate grade determination; clarifies the conditions under which quality and yield grade designation marks may be removed from officially graded beef; specifies that to be eligible for grading, a beef carcass shall have the kidneys and the kidney, pelvic, and heart fat removed from it prior to presentation for grading; and lastly, specifies that a beef carcass shall have been ribbed for at least 30 minutes prior to the time it is presented for grading.

In addition, this proposal, in several of its parts, solicits specific comments and facts from all interested and affected parties on additional conditions that could be imposed upon the meat grading system but which the Department desires further information as to their beneficial and/or adverse effects upon producers, packers, and consumers.

The changes proposed in this document, as well as those for which additional information is being sought, are intended to: (a) Assist producers of meat animals in receiving a price for live animals that is commensurate with the retail value of the meat that an accurate grade designation predicts; (b) assist consumers in making informed value judgments in the marketplace so as to avoid having to pay more for meat than the true value of the meat purchased; (c) assist Federal graders in making more accurate grade determinations by better controlling those factors that contribute to variation in the present system; (d) assist supervisors and managers of Federal meat grading service to operate the service more efficiently; and (e) minimize the opportunity to defeat or circumvent the grading system by providing greater specificity and delineation to the system.

The change in meat inspection regulations requires that carcasses, parts, and meat of cattle and sheep that have been USDA graded must retain the grademarks until sold to the consumer and meat that has not been USDA graded must be marked or labeled "U.S. Ungraded." The specific changes in inspection regulations (9 CFR Parts 316 and 317) appear else-

where in this issue of the FEDERAL REGISTER.

#### COMMENTS

Changes proposed in meat grade standards and meat grading and labeling regulations are expected to have a significant impact on all parts of the livestock and meat industry and on the consuming public. It is anticipated that there may be widespread interest in the proposed changes. In order that all those affected have ample opportunity to comment, oral as well as written views, data, or arguments will be received on the proposal. In this regard, a public hearing will be held on the proposed changes contained in this notice and those concerning inspection regulations appearing elsewhere in this issue of the FEDERAL REGISTER. Hearing sessions will be held at locations beginning on the dates listed below:

1. March 16, 1978—Washington, D.C. 20250, Jefferson Auditorium, South Agriculture Building, 14th and Independence SW.
2. March 21, 1978—San Francisco, Calif. 94111, Custom's House, 555 Battery Street, Room 503.
3. March 23, 1978—Omaha, Nebr. 68102, Omaha Hilton Hotel, 1610 Dodge Street.
4. March 28, 1978—Atlanta, Ga. 30303, Federal Office Building, Room 556, 275 Peachtree Street NE.

Each day's session of the hearing will commence at 9:30 a.m., local time, unless the presiding official otherwise specifies during the course of the hearing. Any of the sessions may be continued beyond 1 day if necessary. Persons who wish to be heard are requested to notify the Administrator, Food Safety and Quality Service, Washington, D.C. 20250, on or before February 13, 1978, stating the session at which they wish to present a statement and how much time they will need to present the statement. However, any person who wishes to be heard at the hearing will be afforded opportunity to be heard, whether or not that person has given such advance notice.

In addition, all persons who desire to submit written data, views or arguments in connection with this proposal and/or the proposed changes in meat labeling regulations (9 CFR Parts 316 and 317) shown elsewhere in this issue of the FEDERAL REGISTER, are invited to file such material, in duplicate, with the Hearing Clerk, Room 1077 South, U.S. Department of Agriculture, Washington, D.C. 20250 on or before May 1, 1978. Comments must be signed and include the address of the sender and should bear a reference to the date and page number of this issue of the FEDERAL REGISTER. Also, since the comments will be considered in the resolution of these proposals, they should include definitive information

#### PROPOSED RULES

which explain and support the sender's views. All written submissions and transcripts of the comments at the public hearing will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

#### BACKGROUND

The USDA meat grading and inspection programs and the national meat marketing system have been plagued in recent years with bribery and corruption and with merchandising practices which may tend to mislead consumers and other purchasers of meats. The changes proposed by these revisions in grade standards and grading regulations (7 CFR part 2853) are a part of USDA's efforts to improve the integrity of the systems and to increase the dependence which the general public can place in the Federal grading and inspection programs. The changes are needed because of several instances of bribery and other corruptive practices which have occurred in recent years involving meatpackers and USDA meat graders and/or meat inspectors. In 1974-76, for example 17 firms, 36 meatpacking officials, and 17 USDA employees (who were relieved of official duties upon indictment and subsequently discharged from employment) were convicted of bribery and related offenses in California and Arizona. Since early 1975 it has been necessary to take administrative actions against packers in South Dakota, Iowa, Kansas, Texas, and California because of the illegal removal of grade stamps from meats. In this same period, another USDA agency, the Packers and Stockyards Administration, issued four formal complaints and assisted State or local officials with 10 other complaints, many of which were related in whole or part to violations or misrepresentation of USDA meat grades.

Changes in marking and labeling requirements in meat inspection regulations (9 CFR Parts 316 and 317) appear to be necessary because of the widespread use of merchandising practices by retailers, home freezer purveyors, and others that can confuse consumers and other purchasers as to the quality or yield grade and true value of beef and other meats.

This proposed rule and the companion rule proposed in the Federal meat inspection regulations, also discussed in this section, would revise official U.S. standards for grades of meat and related meat grading regulations and would revise marking and labeling requirements for such meats so that the opportunities for actions and practices such as those outlined above would be minimized. These proposals, if adopted, could eliminate certain elements of subjectivity in meat grading and some

possible causes of identifying cuts of meat with inappropriate grades; could increase the efficiency of marketing meat items; and would initiate new rules regarding identification of meat (except pork, which is not federally graded) and the retention of grade identification on all beef carcasses and cuts. In addition to the corrective measures, these changes could help make Federal grades more useful to and more easily understood by producers, processors, and particularly consumers.

The Federal grading of meat is a voluntary service which was originally designed to facilitate marketing. The cost of the service is paid for by fees collected from those who request that meat be graded.

During the 50 years that the service has been provided by the Federal Government, the demand for Federal meat grading has steadily increased. Based on estimates of the number of fed cattle produced in 1976 by USDA's Economics, Statistics, and Cooperatives Service and the quantities of beef graded by FSQS' meat grading service, it is estimated that nearly three-fourths of the fed beef produced is federally graded. Most of the fresh beef cuts reaching consumers through retail stores are from fed beef. Consumers have come to depend upon the Federal meat grade designation as the primary tool for making comparative cost and value judgments in the purchase of meat at the retail level.

This consumer dependence upon and desire for Federal grade designations of meat at the retail level has been largely responsible for the widespread use of the Federal meat grading service by the meatpacking and processing industries. This same consumer acceptance of and desire for grade designations on retail cuts of meat has led to the widespread and common use of meat grades in the promotion and advertising of meats at the retail level. Since Federal grades are used extensively as the basis for trading between meatpackers and others, and relatively wide spreads in price frequently result between grades, it is necessary that Federal meat grading be conducted as accurately and uniformly as possible in order to achieve equity among all persons affected by grades, from the producer to the consumer.

Because of the increased demand for Federal meat grading and its general acceptance by both industry and consumers, it has been necessary to make the meat grading service as widely available as possible while at the same time attempting to meet the needs of both industry and the consumer. In the past, meat has been graded for quality (a prediction of the palatability of the lean meat in a carcass) and for yield (a prediction of the amount

UMI

of retail cuts that may be expected from a carcass) in a number of forms and geographic locations other than as a carcass or at the establishment of slaughter, respectively. Under the current meat grading regulations, meat may be graded as carcasses, quarters, and wholesale cuts in the establishment of slaughter as well as in establishments that are further down the distribution and/or processing and marketing line. These practices were adopted for the reasons cited above but they have resulted in: (1) inaccuracies in grading, (2) difficulties in supervising and managing the grading service, (3) increases in the cost of grading, (4) representations which may mislead or confuse consumers about the quality grade of meat, (5) producers of meat animals being paid a price which may not reflect the true value of their animals marketed for slaughter, and (6) bribery and fraudulent practices on the part of some Federal graders and/or operators of packing plants.

Presently, some beef is offered for grading when certain physical attributes of the carcass (grading factors) that are used for determining grade (e.g., marbling, color, texture, and firmness of the lean) are not developed to the extent necessary to permit an accurate grade determination to be made. This practice results in graders having to reevaluate many carcasses for grade with resultant increases in the cost of grading. The proposed procedures require that grade factors be developed to the extent that an accurate grade determination can be made. The development of these factors is a function of the conditions under which carcasses are chilled and the length of time between ribbing of the carcass and the presentation of the carcasses for grading. Therefore, it is proposed that a requirement of 30 minutes elapsed time between ribbing and presentation for grading be imposed as a means of assuring that grade factors are adequately developed in a carcass prior to its presentation for grading. This requirement should improve the condition of carcasses so that accurate grade designations can be made on increased numbers of carcasses when first offered for grading. The proposed requirement should: (1) Make the beef quality grades more accurate and uniform, (2) make it possible for supervisors to more effectively review graders' work, (3) expedite the handling of carcasses, and (4) decrease the overall cost of grading. However, also requiring that carcasses be chilled for no more than a specified time so as to attain adequate development of time and temperature dependent grade factors in the ribeye may serve to further reduce the variables that affect an accurate grade designation and could lead to consider-

able savings of energy. In connection with a possible chill time and temperature requirement, which is not specified in this proposal, the Department requests comments and facts from all interested and affected parties that would assist in making a decision relative to the merits of mandatory time and temperature requirements for grading.

The proposed requirement that the kidney and all kidney, pelvic, and heart fat be removed from carcasses before they are offered for grading should simplify the determination of yield grade and increase the uniformity of application of the yield grade standards, thereby making the yield grades a more useful means of assuring that producers of animals receive payment and consumers expend payment proportionate to the value offered or received.

Under the present regulations, carcasses can be graded with all of the kidney, pelvic, and heart fat left in place or with some or all of these fats removed. There is little difference in the accuracy of the yield grades for predicting the yield of retail cuts from carcasses in which the kidney, pelvic, and heart fat has been left in place or removed. However, removal of these fats can have a considerable effect on the yield of retail cuts from individual quarters and wholesale cuts. For example, consider two carcasses, both of Yield Grade 3.5, but with carcass No. 1 graded prior to removal of kidney, pelvic, and heart fat and carcass No. 2 graded after removal of these fats. The only reason that carcass No. 2 would be better than carcass No. 1 is that the only reason that carcass No. 2 would qualify as a Yield Grade 3.5 would be because of the removal of kidney, pelvic, and heart fat. Otherwise, carcass No. 2 would have been at least Yield Grade 4.0. Further, because the bulk of these fats are located in the hindquarter, the forequarters of the two carcasses would be very different in fatness and yield of retail cuts. The forequarter of carcass No. 2 is much more typical of a Yield Grade 4 than of Yield Grade 3. Requiring the kidney, pelvic, and heart fat to be removed will eliminate such variations in yields of trimmed retail cuts from individual quarters and wholesale cuts. In recognition of such differences, USDA now identifies carcasses graded after removal of kidney, pelvic, and heart fat differently than carcasses graded with these fats in place. However, the significance of this difference in identification is not fully understood by purchasers of beef, especially small retailers and consumers who buy quarters or wholesale cuts. Removal of these internal fats prior to grading should eliminate this source of confusion and make it possible to uniformly grade and mark beef for yield grade.

Since the emphasis placed on kidney, pelvic, and heart fat in determining yield grade essentially reflects the effect of the weight of this fat on the predicted yields of retail cuts from a carcass, the elimination of these fats as factors in the yield grade equation does not require any change in the emphasis placed on the three remaining grade factors. Also, in order that there will be a minimum of confusion to graders, producers, packers, retailers, and others in adapting to the revised standards, each proposed yield grade would continue to include carcasses with the same general combinations of external fat thickness, area of ribeye and carcass weight as now included in each of these grades.

The yield of retail cuts from a carcass of each yield grade should be substantially increased under the proposed standards. This is because the carcass weight would be decreased by the weight of the kidney and the kidney, pelvic, and heart fat that has been removed, but the weight of the retail cuts would remain the same. Consequently, carcasses of a given yield grade would be worth more per pound than carcasses of that yield grade under the present standards. However, the total value received by a producer is not expected to change significantly because the higher carcass price per pound would be largely offset by the lighter weight of the carcass. At the same time, it is reasonable to expect that certain advantages would accrue to consumers through these changes. For example, the kidney, pelvic, and heart fat would be used more efficiently at the point of slaughter; these fats would not have to be chilled, thus saving energy; and they would not be included as part of a carcass' shipping weight, thus decreasing shipping costs which should be reflected in somewhat lower retail prices. Also, it would be possible to utilize more of these fats for edible purposes than is permitted under present industry processing practices. All of these advantages should result in more efficient marketing of beef.

A change also is being proposed in the conditions under which the yield grade designations may be removed from grade-identified steer, heifer, cow, and bullock beef. Under the proposal, the yield grademark could not be removed from a carcass or its cuts when the natural fat cover is  $\frac{1}{4}$  inch or less thick any place on the carcass or cut. If the fat cover of the carcass is reduced to  $\frac{1}{4}$  inch or less by trimming, the yield grademarks could be removed. Thickness of natural or trimmed fat cover is easily determined by use of a calibrated probe. In that the original yield grade of a carcass was determined, in part, by the thickness of the natural fat cover, trimming of fat cover will significantly affect

the ratio of fat to lean in retail cuts obtained from trimmed carcasses. However, because the price paid for a carcass is most often determined by the yield grade assigned to that carcass and because yield grade is affected by fat cover, it does not appear to be in the best interests of either the producer or consumer to insist that the original yield grade of a carcass be maintained on all subsequent wholesale and retail cuts of meat from which substantial amounts of fat cover have been removed.

Concern also has been expressed to the Department that the value of meat to the consumer at retail is determined by the ratio of intermuscular fat to lean as well as by the ratio of fat on the exterior of the cut and the marbling or intramuscular fat. Because trimming of fat from carcasses and wholesale cuts may be expected to affect the price of meat at retail and may mislead consumers into believing that a trimmed retail cut was derived from a carcass of better yield grade than that from which it actually was derived, the Department is soliciting specific comments and facts on the effect of a requirement that the yield grade of meat be carried through all steps of processing and retailing and that the yield grade be that originally assigned to the carcass. The Department is particularly interested in learning of the benefits and/or adverse effects upon producers, packers, and consumers if such a requirement were imposed.

Changes in terms and definitions are offered in this proposal in order to enhance simplicity and to achieve more universal understanding of the grade standards. The term carcass has been defined in the beef carcass standards and this definition includes an explanation of the manner in which a carcass shall be dressed before it may be presented for grading. This definition also is intended to reduce subjectivity and to increase specificity of the grading process. Achievement of these ends will assure that all persons who are affected by grades are dealt with equitably. To further assure that both producers and consumers are receiving and paying fair market prices for the value delivered or received, the Department has been advised that certain additional requirements be included in the definition of a carcass. These requirements are not included in this proposed regulation, but the Department is requesting that specific comments and facts be provided on the advisability, the benefits, and the disadvantages of including a requirement that such items as the "hanging tender," the "cod" or "udder fat," and the "skirts" (diaphragm) be removed from the carcasses before carcasses are eligible for presentation for grading.

Because of the importance of USDA quality grade information to consum-

ers, the Department is also proposing changes in meat inspection marking and labeling regulations (amendments to 9 CFR Parts 316 and 317 shown elsewhere in this issue of the FEDERAL REGISTER) that will require carcasses, parts, and meat of cattle and sheep sold at retail to be marked or labeled with quality grade information. Such meats would be identified with official USDA quality grades or be marked or labeled as "U.S. UNGRADED." (Other species of livestock which are inspected under the Federal Meat Inspection Act are not included in this rulemaking procedure since USDA does not apply consumer quality grades to such products.)

Accurate information with respect to grade is considered essential to achieving equity in pricing of producers' livestock and for the protection of consumers and other purchasers of meats. USDA grades have become the basis for pricing live slaughter cattle and sheep as well as carcasses and wholesale cuts. The use of such grade terms in advertising, promotion, and labeling of meats also has grown significantly in the retail trade. Consumers have responded with the result that leading retailers in most major market areas feature USDA Choice beef and lamb extensively in their advertising and merchandising programs. Frequently, other retailers in these market areas use ungraded meat and/or a mixture of graded and ungraded meat and advertise and merchandise it in such a manner that consumers could be misled and believe that all such meat is of the same quality as graded meat. In other instances, meat is merchandised and advertised in a way that causes consumers to confuse Federal inspection marks and USDA grade-marks. These practices could misrepresent the quality of meat and permit such meats to compete unfairly with graded meats to the detriment of consumers and the public, generally. As a consequence of consumers not having accurate grade information, they often have to pay greater than the true value for meats they purchase. Therefore, because of the increased use of quality grades and because of the importance of such grades to consumers, it is proposed that carcasses, parts, and meat of cattle and sheep bear quality grade information to assure that their labeling will not be misleading.

Under the proposal to revise inspection regulations, such carcasses, parts, and meat will be required to bear, from the time they leave an official establishment and at all times thereafter, the appropriate USDA quality grade or the words "U.S. UNGRADED." Such carcasses, parts, or meat shall bear this information either thereon or on their containers, as is more specifically detailed in the pro-

posed regulations. These requirements would also be applicable to imports. In addition, since this is a misbranding provision, such requirements would be applicable to retail establishments that are exempt from routine inspection under the Federal Meat Inspection Act.

For the reasons outlined, it is proposed that certain sections of the regulations and standards appearing in 7 CFR Part 2853 (formerly Part 53) as they relate to meats, prepared meats, and meat products be revised as set forth below.

#### Subpart A—Regulations

1. In § 2853.1, the definitions for "Quality grade" and "Yield grade" are revised to read as follows:

#### § 2853.1 Meaning of words.

• • • • •  
*Quality grade.* A designation based on those characteristics of meat which most appropriately predict the palatability characteristics of the lean.

• • • • •  
*Yield grade.* A designation which best reflects the proportion of retail cuts that may be expected from a beef carcass; or which may be expected from a lamb, yearling mutton, or mutton carcass.

2. The second sentence of § 2853.4 is revised to read as follows:

#### § 2853.4 Kind of service.

• • • Class, grade, and other quality may be determined under said standards for meat of cattle, sheep or swine in carcass form only. • • •

#### § 2853.5 [Amended]

3. Except for the first four sentences, all of § 2853.5 is deleted.

4. Section 2853.13, paragraph (b) is revised as follows:

#### § 2853.13 Accessibility and refrigeration of products; access to establishments.

• • • • •  
(b) Grading will be furnished for meat only if it is properly chilled, that is, so that the grade factors are developed to the extent that an accurate grade determination can be made. Determination of class, grade, or other quality of meat under the standards in Subpart B of this part will not be made if such meat is in a frozen state. Carcasses of all species shall be graded only in the establishments where the animals are slaughtered. Also, to be eligible for grading, beef carcasses must be ribbed for a minimum of 30 minutes prior to being offered for grading.

## § 2853.17 [Amended]

5. In § 2853.17, paragraph (a), the words "and wholesale cuts" are deleted.

6. In § 2853.17, paragraph (c), second sentence, the phrase "and eligible cuts from bull and bullock carcasses" is deleted.

## Subpart B—Standards

## CARCASS BEEF

7. Section 2853.102 is revised as follows:

## § 2853.102 Scope.

These standards for grades of beef are written primarily in terms of carcasses. However, they also are applicable to the grading of sides. To simplify phrasing of the standards, the words "carcass" and "carcasses" are used to also mean "side" or "sides." For purposes of these standards, a carcass is defined as the two sides of a slaughtered animal which results from splitting it lengthwise through its approximate median plane and after removal of (a) the head, (b) the legs, (c) all viscera—including the kidneys and the thymus gland, (d) all kidney, pelvic, and heart fat, (e) all but two tail vertebrae, and (f) the spinal cord. The head shall be removed between the occipital bone and the first cervical vertebra, and the front and hind legs not below the knee and hock joints, respectively.

## § 2853.103 [Amended]

8. In § 2853.103, paragraph (b) (5), the last sentence is deleted.

9. In § 2853.104, paragraph (t) is deleted, paragraphs (u), (v), (w), and (x) are designated as (t) (u), (v), and (w), respectively; and paragraphs (a), (i), and (r) are revised as follows:

## § 2853.104 Application of standards for grades of carcass beef.

(a) The grade of a steer, heifer, cow, or bullock carcass consists of separate evaluations of two general considerations: (1) The indicated percent of closely trimmed, boneless retail cuts expected to be derived from the four major wholesale cuts of a carcass (round, loin, rib, and chuck) herein referred to as the "yield grade," and (2) the characteristics of the lean which most appropriately predict its palatability, herein referred to as the "quality grade." When officially graded, the grade of a steer, heifer, cow, or bullock carcass consists of both the quality grade and the yield grade. The yield grade designations must remain on all such grade-identified beef whose natural surface fat thickness is  $\frac{1}{2}$ -inch thick or less at its thickest place on the carcass. Beef whose surface fat has been trimmed after grading to not more than  $\frac{1}{2}$ -inch in thickness at any point may, as a result of such trimming, have the yield grademark re-

moved. Retail beef cuts need not be yield grademarked. In those instances in which removal of the yield grade is permitted, the USDA grade shall consist of the quality grade designation only. The grade of a bull carcass consists of the yield grade only.

(i) To meet the demand of export trade, carcasses ribbed other than between the 12th and 13th ribs may be approved for grading by the Food Safety and Quality Service. In such cases, they shall be identified with the word "EXPORT" in such a manner that will clearly distinguish them from other officially graded beef.

(r) The yield grade of a beef carcass is determined by considering three characteristics: (1) The amount of external fat, (2) the area of the ribeye muscle, and (3) the hot carcass weight.

10. Section 2853.105 is revised as follows:

## § 2853.105 Specifications for official United States standards for grades of carcass beef (yield).

(a) The yield grade of a beef carcass is determined on the basis of the following equation: Yield grade =  $3.40 + (2.50 \times \text{adjusted fat thickness, inches}) + (0.0038 \times \text{hot carcass weight, pounds}) - (0.32 \times \text{ribeye area, square inches})$ . In the above equation, hot carcass weight is the hot weight of the carcass as described in § 2853.102.

(b) The following descriptions provide a guide to the characteristics of carcasses in each yield grade to aid in determining yield grades.

(1) *Yield Grade 1.* (i) A carcass in Yield Grade 1 usually has only a thin layer of external fat over the ribs, loins, rumps, and clods, and slight deposits of fat in the flanks and cod or udder. There is usually a very thin layer of fat over the outside of the rounds and over the tops of the shoulders and necks. Muscles are usually visible through the fat in many areas of the carcass.

(ii) A 475-pound carcass of this yield grade which is near the borderline of Yield Grades 1 and 2 might have twenty-five hundredths inch of fat over the ribeye and 12.0 square inches of ribeye.

(iii) A 775-pound carcass of this yield grade which is near the borderline of Yield Grades 1 and 2 might have thirty-five hundredths inch of fat over the ribeye and 16.5 square inches of ribeye.

(2) *Yield Grade 2.* (i) A carcass in Yield Grade 2 usually is nearly completely covered with fat but the lean is

plainly visible through the fat over the outside of the rounds, the top of shoulders, and the necks. There usually is a slightly thin layer of fat over the loins, ribs, and inside rounds and the fat over the rumps, hips, and clods usually is slightly thick. There are usually small deposits of fat in the flanks and cod or udder.

(ii) A 475-pound carcass of this yield grade which is near the borderline of Yield Grades 2 and 3 might have forty-five hundredths inch of fat over the ribeye and 10.5 square inches of ribeye.

(iii) A 775-pound carcass of this yield grade which is near the borderline of Yield Grades 2 and 3 might have fifty-five hundredths inch of fat over the ribeye and 15.0 square inches of ribeye.

(3) *Yield Grade 3.* (i) A carcass in Yield Grade 3 usually is completely covered with fat and the lean usually is visible through the fat only on the necks and the lower part of the outside of the rounds. There usually is a slightly thick layer of fat over the loins, ribs, and inside rounds and the fat over the rumps, hips, and clods usually is moderately thick. There usually are slightly large deposits of fat in the flanks and cod or udder.

(ii) A 475-pound carcass of this yield grade which is near the borderline of Yield Grades 3 and 4 might have seven-tenths inch of fat over the ribeye and 9.5 square inches of ribeye.

(iii) A 775-pound carcass of this yield grade which is near the borderline of Yield Grades 3 and 4 might have eight-tenths inch of fat over the ribeye and 14.0 square inches of ribeye.

(4) *Yield Grade 4.* (i) A carcass in Yield Grade 4 usually is completely covered with fat. The only muscles usually visible are those on the shanks and over the outside of the plates and flanks. There usually is a moderately thick layer of fat over the loins, ribs, and inside rounds and the fat over the rumps, hips, and clods usually is thick. There are large deposits of fat in the flanks and cod or udder.

(ii) A 475-pound carcass of this yield grade which is near the borderline of Yield Grades 4 and 5 might have one and five-hundredths inch of fat over the ribeye and 9.0 square inches of ribeye.

(iii) A 775-pound carcass of this yield grade which is near the borderline of Yield Grades 4 and 5 might have one and fifteen-hundredths inch of fat over the ribeye and 13.5 square inches of ribeye.

(5) *Yield Grade 5.* A carcass in Yield Grade 5 usually has more fat on all of the various parts and a smaller area of ribeye than a carcass in Yield Grade 4.

## VEAL AND CALF CARCASSES

11. Section 2853.112 is revised as follows:

## § 2853.112 Scope.

These standards for grades of veal and calf are written primarily in terms of carcasses. However, they also are applicable to the grading of sides. To simplify the phrasing of the standards, the words "carcass" and "carcasses" are used also to mean "side" or "sides."

## § 2853.115 [Amended]

12. In § 2853.115, the first sentence in paragraph (d) is deleted; in the first sentence of paragraph (e), the words "or portions of such carcasses" are deleted; and in paragraph (g) the last sentence is deleted.

## LAMB, YEARLING MUTTON, AND MUTTON CARCASSES

13. In § 2853.123, paragraph (c) (5) is revised as follows:

## § 2853.123 Application of standards.

(c) *Yield grade.* . . .

(5) The yield grade descriptions are defined primarily in terms of carcasses. However, the yield grade standards also are applicable to the grading of sides.

## § 2853.127 [Amended]

14. In § 2853.127, paragraph (b) is deleted and paragraph (c) is designated as paragraph (b).

NOTE.—A draft Impact Analysis of this proposal has been prepared in accordance with Federal Docket 77-33571 and is available from the Hearing Clerk, Room 1077 South, U.S. Department of Agriculture, Washington, D.C. 20250.

Done at Washington, D.C., on this 19th day of January 1978.

ROBERT ANGELOTTI,  
Administrator,  
Food Safety and Quality Service.

## [3410-37]

## [9 CFR Parts 316 and 317]

## CATTLE AND SHEEP'S CARCASSES, PARTS, AND MEAT

## Grade Marking

AGENCY: Food Safety and Quality Service.

ACTION: Proposed Rule.

SUMMARY: This proposed rule will amend the Federal meat inspection regulations by adding marking and labeling requirements that all carcasses, parts, and meat of cattle and sheep be

identified by USDA quality grade or as ungraded. There has been an ever increasing use of quality grades by industry and a dependence on quality grades by consumers. In conjunction with related changes proposed in grade standards and grading regulations in 7 CFR Part 2853, this proposal is intended to assure that consumers will not be misled when shopping for meat.

DATE: Comments must be received on or before May 1, 1978.

ADDRESS: Written comments to: Hearing Clerk, Room 1077 South Building, U.S. Department of Agriculture, Washington, D.C. 20250.

FOR ADDITIONAL INFORMATION ON COMMENTS, SEE SUPPLEMENTARY INFORMATION.

FOR FURTHER INFORMATION CONTACT:

Mr. Irwin Fried, Acting Director, Product Labels and Standards Staff, Technical Services, Meat and Poultry Inspection Program, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-6042.

## SUPPLEMENTARY INFORMATION:

## COMMENTS

Interested persons are invited to submit written comments concerning this proposal. All comments must be sent in duplicate to the Hearing Clerk. Comments should show specific parts of the proposal(s) to which reference is intended. Also, views may be presented at four public hearing sessions to be held in March. Details are shown in a related proposal to change meat grading standards and regulations (7 CFR Part 2853) appearing elsewhere in this issue of the FEDERAL REGISTER. Comments on this proposal and the grading proposal may be combined. All written comments submitted pursuant to this notice and the transcript of the public hearing will be made available for public inspection in the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

## BACKGROUND

A discussion of the background and reasons for these proposed amendments to the Federal meat inspection regulations is included in the Supplementary Information section of a proposal to amend the meat grading standards and regulations (7 CFR Part 2853) included elsewhere in this issue of the FEDERAL REGISTER.

Accordingly, it is proposed that Parts 316 and 317 of the Federal meat inspection regulations (9 CFR Parts

316 and 317) be amended as set forth below.

1. A new § 316.17 (9 CFR 316.17) is added to read as follows:

## § 316.17 Grade marking.

(a) Any carcass or part thereof of cattle or sheep required under the regulations in this Part 316 to be marked with the official inspection legend shall also be marked with the appropriate USDA quality grade, or, if ungraded, shall be marked "U.S. UNGRADED." A USDA grademark shall be applied only under the supervision of Food Safety and Quality Service employees and in the manner prescribed under the regulations in 7 CFR Part 2853. A "U.S. UNGRADED" statement shall be applied continuously and roller marked in letters not less than  $\frac{1}{4}$  inch in height with the letters appearing in not less than 1 inch intervals. Any such carcass, part, or meat cut which has previously been marked with a USDA quality grade and from which said mark has been removed by trimming must either be remarked in accord with this section or labeled with the appropriate USDA quality grade in the type size required by § 317.20.

(b) The requirements of this section shall also be applicable to any such carcass, part, or meat in a retail store which is not required to be marked with the official inspection legend because it has been prepared in compliance with the retail exemptions in Part 303 of this subchapter.

2. A new § 317.20 (9 CFR 317.20) is added to read as follows:

## § 317.20 Grade labeling.

All immediate and shipping containers of any parts of cattle or sheep shall be labeled with the appropriate USDA quality grade, or, if ungraded, shall be labeled as "U.S. UNGRADED." The labeling required by this section shall appear on the principal display panel in type size not smaller than that required for the net weight declaration in § 317.2(h).

NOTE.—A DRAFT Impact Analysis of this proposal has been prepared in accordance with Federal Docket 77-33571 and is available from the Hearing Clerk, Room 1077 South, U.S. Department of Agriculture, Washington, D.C. 20250.

Done at Washington, D.C., on this 19th day of January, 1978.

ROBERT ANGELOTTI,  
Administrator,  
Food Safety and Quality Service.

## DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

### INDUSTRIAL HYDROCARBONS PILOT PROGRAM

#### Extension of Time

The period for receipt of submissions pursuant to the notice published in the FEDERAL REGISTER on October 20, 1977, (42 FR 55904), is extended from February 1, 1978, to April 15, 1978.

Submissions under this notice subsequent to February 1 should be directed to Harry Brown, Energy Research Coordinator, Room 212-A, USDA Administration Building, Washington, D.C. 20250, 202-447-4515.

Items to be covered by tentative descriptions should include in part: proposed site location(s); conversion feedstock(s); boiler (process) fuel; end hydrocarbon product(s); basic information on costs, proposed financing and engineering; and supporting data on energy input/output ratio. Specific information should be included on marketing arrangements for proposed hydrocarbon products and process by-products.

Dated: January 18, 1978.

BOB BERGLAND,  
Secretary.

Farmers Home Administration

(Designation No. A549)

### LOUISIANA

#### Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in the following Louisiana Parishes as a result of drought April 22, 1977, through June 11, 1977, and excessive rainfall and wind August 1, 1977, through Septem-

ber 20, 1977, in Lafayette Parish; drought April 15, 1977, through June 15, 1977, and excessive rainfall and insect infestation June 15, 1977, through November 28, 1977, in Rapides Parish; drought May 10, 1977, through June 20, 1977, and excessive rainfall and insect infestation August 8, 1977, through September 20, 1977, in St. Landry Parish.

Therefore, the Secretary has designated these areas as eligible for emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended, and the provisions of 7 CFR 1904 Subpart C, Exhibit D, Paragraph V-B, including the recommendation of Governor Edwin Edwards that such designation be made.

Applications for emergency loans must be received by this Department no later than June 22, 1978, for physical losses and December 26, 1978, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C., this 16th day of January 1978.

GORDON CAVANAUGH,  
Administrator, Farmers  
Home Administration.

[6320-01]

(Order 78-1-67; Docket 30332; Agreement  
C.A.B. 27095)

### INTERNATIONAL AIR TRANSPORT ASSOCIATION

#### Order Relating to Specific Commodity Rates

Issued under delegated authority January 17, 1978.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement would add a specific commodity rate, under an existing commodity description as set forth below, reflecting a reduction from general cargo rates; and was adopted pursuant to unopposed notice to the carriers and promulgated in an IATA letter dated January 5, 1978.

Agreement CAB	Specific commodity item No.	Description and rate*
27095	4431	Resistors and/or rheostats 236 cents per kg., minimum weight 250 kgs., from Bombay to New York.

\*Subject to applicable currency conversion factors as shown in tariffs.  
\*Expires June 30, 1978.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that the agreement is adverse to the public interest or in violation of the Act provided that approval is subject to the conditions ordered.

Accordingly, it is ordered, That:

Agreement CAB 27095 be approved, provided, That: (a) Approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications; (b) tariff filings shall be marked to become effective on not less than 60 days' notice from the date of filing; and (c) where a specific commodity rate is published for a specified minimum weight at a level lower than the general commodity rate applicable for such weight, and where a general commodity rate is published for a greater minimum weight at a level lower than such specific commodity rate, the specific commodity rate shall be extended to all such greater minimum weights at the applicable general commodity rate level.

Persons entitled to petition the Board for review of this order, pursuant to the Board's regulations 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board unless within such period a petition for review is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,  
Secretary.

### DEPARTMENT OF COMMERCE

#### Maritime Administration

(Docket No. S-589)

### COVE TRADING, INC.

#### Application

Notice is hereby given that an application has been filed by Cove Trading, Inc. (Trading), under the Merchant Marine Act, 1936, as amended, (the Act) for operating differential subsidy (ODS) on the SS Cove Trader (former-

ly the *Transeastern*) with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on December 31, 1978, unless extended.

Inasmuch as Trading and/or related persons or firms employ or may employ ships in the domestic intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Act will be required if Trading's application for ODS is to be granted.

Trading is affiliated with Cove Tankers Corp. (Tankers), a subsidized operator in the grain trade to Russia. Tankers has been granted the following written permissions under section 805(a):

1. For Cove Shipping, Inc. (formerly known as Mount Shipping, Inc.), an affiliate, to operate the USNS's *Susquehanna*, *Neches*, *Columbia*, and *Hudson* in domestic service under MSC or private charters.

2. For Tankers' owned vessel, *Mount Explorer*, and its bareboat chartered vessels, *Mount Navigator* and *Cove Communicator*, to engage in the domestic service under MSC or private charters.

3. For Trading to own the *Cove Trader* for worldwide operation (including domestic operation), and Cove Shipping, Inc., to operate the *Cove Trader* and *Stuyvesant* in the carriage of Alaskan oil in the domestic trade.

4. The right to move the foregoing vessels from one domestic trade to another, and/or from a foreign trade to a domestic trade.

It will be necessary to extend to Trading the foregoing written permissions previously granted to Tankers.

Such written permission is required under section 805(a) notwithstanding the fact that a voyage of the *Cove Trader* in the proposed service for which subsidy is sought on which the vessel engaged in domestic intercoastal or coastwise trade would not be eligible for subsidy.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to section 805(a) and desiring to submit comments or views concerning the application must, by close of business on February 6, 1978, file same with the Secretary, Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing will be held, the purpose of which will be to receive evidence under section 805(a) relative to whether the proposed operations: (a) Could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal service, or (b) would be prejudicial to the objects and policy of the Act relative to domestic trade operations.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidies (ODS).)

Dated: January 17, 1978.

By order of the Assistant Secretary for Maritime Affairs/Maritime Subsidy Board.

ROBERT J. PATTON, Jr.,  
Assistant Secretary.

#### [3510-17]

National Fire Prevention and Control  
Administration

#### ADVISORY COMMITTEE ON FIRE TRAINING AND EDUCATION FOR THE NATIONAL ACADEMY FOR FIRE PREVENTION AND CONTROL

##### Renewal

AGENCY: National Fire Prevention and Control Administration.

SUMMARY: This is a notice of renewal of the Advisory Committee on Fire Training and Education for the National Academy for Fire Prevention and Control.

#### FOR FURTHER INFORMATION CONTACT:

Joseph A. Moreland, Chief Counsel, National Fire Prevention and Control Administration, U.S. Department of Commerce, P.O. Box 19518, Washington, D.C. 20036, telephone 202-632-9685.

**SUPPLEMENTAL INFORMATION:** In accordance with the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I and Office of Management and Budget Circular A-63 of March 1974, and after consultation with GSA, it has been determined that the renewal of the Advisory Committee on Fire Training and Education for the National Academy for Fire Prevention and Control is in the public interest in connection with the performance of duties imposed on the Department by law.

The Committee was first established in January 1976, and it was to terminate on January 14, 1978. Its original purpose was to inquire into and make recommendations regarding the desirability of establishing a mechanism

for accreditation of fire training and education programs and courses, and the role the Academy should play if such a mechanism is recommended, and to submit to the Administrator of the National Fire Prevention and Control Administration, within two years after its appointment, a full and complete report of its findings and recommendations. This objective has not been achieved. While the duration of the charter was for two years, the Committee was not fully appointed until January 1977, the charter year. There have been no interim reports issued nor are any anticipated since the Committee effort has been dedicated to the formation of a single final report.

As initially established, the Committee will continue with a balanced representation with the Superintendent of the National Fire Academy serving as Chairman, and 18 other members, selected from among individuals and organizations possessing special knowledge and experience in the field of fire training and education or related fields. The Committee will operate in compliance with the provisions of the Federal Advisory Committee Act.

Copies of the Committee's revised charter will be filed with appropriate committees of the Congress.

Dated: January 11, 1978.

ELSA A. PORTER,  
Assistant Secretary  
for Administration.

(FR Doc. 78-1832 Filed 1-20-78; 8:45 am)

#### [3510-22]

National Oceanic and Atmospheric  
Administration

#### RECEIPT OF APPLICATION FOR PERMIT

Notice is hereby given that an applicant has applied in due form for a permit to take marine mammals as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407); and the regulations governing the taking and importing of marine mammals (50 CFR Part 216).

1. Applicant: (a) Name: Marineland S.A., Mr. Edward Hugh Thomas, President; (b) Address: Costa D'en Blanes, Palma Nova, Mallorca, Spain.

2. Type of permit: Public display.

3. Name and number of animals: California sea lions (*Zalophus californianus*); 4. bottlenosed dolphins (*Tursiops truncatus*); 4.

4. Type of activity: to take by capture.

5. Location of activities: Sea lions—Channel Islands, Santa Barbara, Calif.; dolphins—Copano Bay, Rockport, Tex.

6. Period of activities: 2 years.

The arrangements and facilities for transporting and maintaining the

marine mammals requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

As a request for a permit to take a living marine mammals to be maintained in areas outside the jurisdiction of the United States, this application has been submitted in accordance with National Marine Fisheries Service policy concerning such applications (40 FR 11614, March 12, 1975). In this regard, the application:

(a) Was submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, through the Department of the Ministry of Agriculture, that Department being responsible, among other things, for ensuring the suitable care of animals in captivity;

(b) Includes:

(i) A verification from the Ministry of Agriculture of the information set forth in the application.

(ii) A certification from the Department of the Ministry of Agriculture that the Government of Spain is prepared to monitor compliance with the terms and conditions of the permit, and will do so, if and when necessary; and

(iii) A statement that the Ministry of Agriculture will have no objection to a NMFS decision to amend, suspend or revoke a permit.

In accordance with the above-cited policy, the certification and statements of the Ministry of Agriculture of Spain have been found appropriate and sufficient to allow consideration of this permit application.

Concurrent with the publication of this notice in the FEDERAL REGISTER the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before February 22, 1978. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator.

All statements and opinions contained in this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documents submitted in connection with the above application are available for review in the following offices:

The Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300

Whitehaven Street NW., Washington, D.C.;  
Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Fla. 33702;  
Regional Director, National Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, Calif. 90731.

Dated: January 16, 1978.

ROLAND FINCH,  
Acting Deputy Assistant Director  
for Fisheries Management, National Marine Fisheries Service.

United States Travel Service

TRAVEL ADVISORY BOARD

##### Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974) notice is hereby given that the Travel Advisory Board of the U.S. Department of Commerce will meet on February 24, 1978, at 10:00 a.m., in Room 4830, of the main Commerce Building, 14th Street and Constitution Avenue NW., Washington, D.C. 20230.

Established in July 1968, the Travel Advisory Board consists of senior representatives of 15 U.S. travel industry segments who are appointed by the Secretary of Commerce.

Members advise the Secretary of Commerce and Assistant Secretary of Commerce for Tourism on policies and programs designed to accomplish the purpose of the International Travel Act of 1961, as amended, and the Act of July 19, 1940, as amended. A detailed agenda for the meeting will be published in the FEDERAL REGISTER in advance of the meeting.

A limited number of seats will be available to observers from the public and the press. The public will be permitted to file written statements with the Committee before or after the meeting. To the extent time is available the presentation of oral statements will be allowed.

Sue Barbour, Travel Advisory Board Liaison Officer, the United States Travel Service, Room 1860, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-4752 will respond to public requests for information about the meeting.

FABIAN CHAVEZ, Jr.,  
Assistant Secretary for Tourism,  
Department of Commerce.

#### [6355-01]

#### CONSUMER PRODUCT SAFETY COMMISSION

[CP 75-25 and CP 76-21]

#### HAND-HELD HAIRDRYERS AND SIMILAR PRODUCTS

##### Denial of Petitions

AGENCY: Consumer Product Safety Commission.

ACTION: Denial of petitions.

SUMMARY: The Commission announces the denial of two petitions to develop a mandatory safety standard for hand-held hairdryers and similar hair care products to address the hazards of flaming and overheating. The petitions were denied because these hazards appear to be adequately addressed in a voluntary standard to which there is a high degree of adherence.

FOR FURTHER INFORMATION CONTACT:

Mark Gulak, Office of Program Management, Consumer Product Safety Commission, Washington, D.C. 20207, 301-492-6754.

**SUPPLEMENTARY INFORMATION:** Section 10 of the Consumer Product Safety Act ("the CPSA"), 15 U.S.C. 2059, provides that any interested person may petition the Consumer Product Safety Commission to commence a proceeding for the issuance of a consumer product safety rule. Section 10 also provides that if the Commission denies such a petition, it shall publish its reasons for denial in the FEDERAL REGISTER.

On April 12, 1975, Esther Peterson, then Vice President for Consumer Programs at Giant Food Inc., petitioned the Commission to develop uniform safety standards for all brands and types of hand-held hair stylers and similar products such as hand-held curlers, dryers, mini-dryers, and electric combs (Petition CP75-25). On July 5, 1975, Georgiann Hawrysz petitioned the Commission to develop a safety standard for mini-hairdryers (Petition CP 76-2). The hazards the petitioners alleged to be associated with hand-held hairdryers and similar hair care products were overheating and flaming.

Giant Food petitioned the Commission (CP 75-25) after receiving several consumer complaints stating that certain units of a particular hair styler either overheated or caught on fire. The petition stated that uniform safety standards were necessary to help retailers determine the safety of the products on the market and to adequately protect the public. The second petition (CP 76-2) described an incident of a mini-hairdryer bursting into flames while in use. The petition

stated that this mini-hairdryer was identical to other mini-dryers marketed under different names which were still available to consumers.

In investigating these petitions, the Commission staff researched injury information on hand-held hairstylers, curlers, dryers, mini-dryers, electric combs, and the like. The National Electronic Injury Surveillance System data showed that the majority of injuries associated with the subject products were burns. Electric shock accounted for a small percentage of hair dryer incidents. However, most of the victims of burn and shock were treated and released from emergency rooms. The incidence of all kinds of injuries associated with these hand-held hair products decreased by 20 percent from 1975 to 1976. At the same time, there was an increase in sales of approximately 50 percent.

The Commission's staff reviewed 100 in-depth investigations of injuries associated with these products. There were a number of hazard patterns identified with hand-held hairdryers. The three most frequent patterns (dryer emitted sparks, flames, or pieces of molten metal or plastic; dryer burst into flames or exploded; and dryer overheated and/or plastic case melted) did not usually result in injury, and, where injury did occur, in most cases they were minor burns which did not require medical attention. The hazard pattern which accounted for the most severe injury occurred when hairdryers fell into filled bathtubs, resulting in the electrocution of 26 victims.

The most frequent hazard pattern associated with curling irons was a child coming into contact with a hot iron. In these cases, the victims sustained burns and were treated and released from the hospital.

There is a voluntary standard, Underwriters Laboratories Standard for Electrical Personal Grooming Appliances (UL 859), that applies to all products within the scope of these two petitions. Since 1975, the UL standard has undergone a number of revisions and amendments, all of which were directed toward providing increased safety for the user. The hazards alleged in both petitions have been addressed in sections of the latest proposed UL requirements. The Commission therefore concludes that UL has made significant improvements in the petitioners' areas of concern and that the tests in the revised voluntary standard are likely to reduce or avoid the overheating and other hazards that have been associated with previously manufactured hairdryers.

Information available to the Commission indicates that there is a high degree of conformance to the presently existing voluntary standard. In view of this voluntary standard, and the

continuing effort by Underwriters Laboratories to address the risks of injury associated with overheating and flaming alleged by petitioners to be associated with hand-held hair dryers and similar products, the Commission is unable to find, at the present time, that a mandatory federal standard is reasonably necessary in order to reduce or eliminate the risks alleged by petitioners. Therefore, the Commission has denied the petitions.

Although the hazard of electrocution is outside the scope of these petitions, the Commission is concerned about the number of electrocutions caused by these products while the victim was in a filled bathtub. The Commission believes that these deaths show that a conspicuous and effective warning label should be placed on these products to warn consumers of this hazard. Since the Commission believes that existing labels, where utilized, are inadequate in these regards, the Commission has directed its staff to strongly encourage UL to develop a voluntary standard that would provide for a conspicuous and effective warning label and that would be adhered to by industry.

Copies of the petitions and the staff's briefing package to the Commission concerning the petitions may be seen in or obtained from the Office of the Secretary, Consumer Product Safety Commission, 1111 18th Street NW., Washington, D.C. 20207.

Dated: January 17, 1978.

(Petition CP 76-18)

#### OFF-ROAD MOTORIZED RECREATIONAL VEHICLES

##### Denial

AGENCY: Consumer Product Safety Commission.

ACTION: Denial of petition.

SUMMARY: The Commission has denied a petition to develop a consumer product safety standard for off-road recreational vehicles containing accelerator-throttle control and carburetor systems. Currently available information is insufficient to determine that such vehicles present an unreasonable risk of injury to consumers or that a mandatory standard is reasonably necessary.

FOR FURTHER INFORMATION CONTACT:

William Kitzes, Office of Program Management, Consumer Product Safety Commission, Washington,

D.C. 20207, telephone 301-492-6557.

SUPPLEMENTARY INFORMATION: Section 10 of the Consumer Product Safety Act (15 U.S.C. 2059) provides that any interested person may petition the Consumer Product Safety Commission to begin a proceeding to issue a consumer product safety rule. Section 10 also provides that if the Commission denies such a petition, it shall publish in the FEDERAL REGISTER its reasons for denial.

In a petition dated July 28, 1976, Mr. and Mrs. Michael E. Pawlak asked the Commission to develop a consumer product safety standard to address a risk of injury presented by the accelerator-throttle control and carburetor systems of motorized off-road recreational vehicles. The petition describes an incident involving a Honda ATC-90K2 three-wheel, all-terrain cycle which resulted in the death of the petitioners' 6-year-old son and injuries to their 16-year-old son. According to the petition, it was caused by a malfunction in the machine's accelerator-throttle control and carburetor systems and by a resulting "stuck-open throttle."

In its consideration of this petition, the Commission has analyzed the risk of injury discussed in the petition. The Commission's National Electronic Injury Surveillance System (NEISS) contains a category for injuries associated with "motor-scooters, mini-bikes, and other such vehicles—2 or 3 wheels." According to NEISS reports, in fiscal year 1976 there were 733 injuries in this category treated in the 119 hospital emergency rooms that comprise the NEISS statistical sample. NEISS, however, does not further categorize these injuries by the type of vehicle involved or by the cause of the injury.

The Commission supplements its NEISS data with information from in-depth investigations in which Commission investigators report on the details of injury incidents obtained from NEISS and from other sources. Seven in-depth investigations conducted during fiscal years 1975 and 1976 involved stuck throttles on vehicles which are the subject of this petition. Three involved mini-bikes, three involved snowmobiles, and the seventh was the incident involving the petitioners' children. As a result of the three mini-bike incidents, two boys were treated—one for chest burns and one for a nose laceration(s)—before being released. A third boy had no injuries. As a result of the snowmobile incidents, a girl, a boy, and a woman suffered injuries that were treated in hospitals.

With regard to the Honda ATC-90, the particular type of vehicle that the petitioners' children were riding, the Honda Corp. has told the Commission that over 70,000 were sold as of March 1, 1976, and that two incidents involv-

ing them have been reported to the company (aside from the incident described in the petition).

In addition, the Commission has evaluated the design of vehicles which have a carburetor and throttle device similar to that used in the Honda ATC-90. This evaluation revealed that the throttle controls and dial style engine shut-off switches ("kill buttons") used on this Honda are manufactured in compliance with safety standards issued by the Department of Transportation's regulations, even though it need not comply with those standards. Only motorcycles are likely to use the same type of carburetor and throttle combination, according to the evaluation.

Finally, the Commission and the National Bureau of Standards (NBS) conducted tests related to the stuck-open throttle condition that is the subject of the petition. In one Commission test, a throttle-carburetor assembly identical to the one involved in the Pawlak incident was tested for approximately 200,000 cycles. No stuck-open throttle conditions occurred during this test. NBS performed the same test and obtained the same results. In the other Commission test, the throttle-carburetor assembly was tested at 100,000 cycles while the engine was operating (in contrast to the NBS and first Commission test), and no stuck-open throttle conditions occurred. The test cycles range from 1.7 to 3.3 times greater than Honda believes is the normal life.

In the three tests, failures relating to the return coil spring and retaining ring did occur. The Commission staff has written to Honda requesting test data and/or engineering analysis to explain the cause(s) of these failures, as well as assurance that they will not cause safety-related malfunctions during consumer use. The Commission will take whatever regulatory or other action may be appropriate to address these test occurrences.

The Commission has carefully considered the matters raised in the petition, along with the available injury data, test data, and other relevant information. Based on all of this information, the Commission does not believe that there is sufficient data to determine (a) that motorized off-road recreational vehicles containing accelerator-throttle and carburetor systems present an unreasonable risk of injury, or (b) that a consumer product safety standard is reasonable necessary to address such a risk. Accordingly, the petition is denied.

Copies of the petition and the staff's briefing materials may be seen in the Office of the Secretary of the Commission, at 1111 18th Street NW., Washington, D.C. They may be obtained by writing the Office of the Secretary, Consumer Product Safety

Commission, Washington D.C. 20207 or by calling 202-634-7700.

Dated: January 18, 1978.

SADYE E. DUNN,  
Acting Secretary, Consumer  
Product Safety Commission.

#### DEPARTMENT OF DEFENSE

##### Department of the Army

##### PRIVACY ACT OF 1974

##### Notice of System of Record Amendment

AGENCY: Department of the Army, DOD.

ACTION: Notice of an amendment to a system of records.

SUMMARY: The Army proposes to amend an existing system of records subject to the Privacy Act of 1974. The specific change to the system being amended is set forth below followed by the system published in its entirety, as amended.

DATES: This system shall be amended as proposed without further notice in 30 calendar days from the date of this publication unless comments are received on or before February 22, 1978, which would result in a contrary determination.

ADDRESS: Send comments to The Adjutant General, Department of the Army, ATTN: DAAG-AMR-R, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20314

SUPPLEMENTARY INFORMATION: The Department of the Army systems of records notices as prescribed by the Privacy Act of 1974, 5 U.S.C. 552a(o) (Pub. L. 93-579) have been published in the FEDERAL REGISTER (FR Doc 77-28255) on September 28, 1977, at 42 FR 50396. The Army proposes to amend a record systems identified as A0305.10aDACA, entitled "Joint Uniform Military Pay System—Active Army (JUMPS-AA)" (42 FR 50451) by adding a routine use.

The proposed change to this system is not within the purview of the provisions of the Office of Management and Budget (OMB) Circular A-108, Transmittal Memorandum No. 1, dated September 30, 1975, and Transmittal Memorandum No. 3, dated May 17, 1976, which provide supplemental guidance to Federal agencies regarding the preparation and submission of reports of their intention to establish or alter systems of personal records as required by the Privacy Act. This OMB guidance was set forth in the FEDERAL

REGISTER (40 FR 45877) on October 3, 1975.

MAURICE W. ROCHE,  
Director, Correspondence and  
Directives, Washington Headquarters Services, Department  
of Defense.

JANUARY 17, 1978.

A0305.10aDACA

System name: 305.10 Joint Uniform Military Pay System—Active Army (JUMPS-AA).

##### Changes:

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: After "USAFAC . . . taxable earnings information," delete the period and add: "the American Red Cross, and the Department of Health, Education and Welfare." After "American Red Cross: related financial transactions," add: "Department of Health, Education and Welfare: Disclose the name, rank and social security account number of each member of the Armed Services on active duty to The Inspector General of that Department only for comparison with appropriate rolls reflecting recipients of Aid to Families with Dependent Children (AFDC).

System manager(s) and address: Change "United States Army Financing . . ." to "United States Army Finance . . .".

A0305.10aDACA

##### System name:

305.10 Joint Uniform Military Pay System—Active Army (JUMPS-AA).

##### System location:

Primary System—United States Army Finance and Accounting Center (USAFAC), Indianapolis, IN 46249. Decentralized Segments—Approximately 122 Army Finance Offices and Finance and Accounting Offices (FAO) world-wide.

Categories of individuals covered by the system:

All active duty military personnel.

##### Categories of records in the system:

Records include individual military pay records, casual payment receipts, substantiating documents, temporary pay records, transmittal letters, locator files, financial data record folders (FDRF), miscellaneous military pay files, and personal financial records (PFR).

##### Authority for maintenance of the system:

Title 37 U.S.C., Section 101 and following (Pay and Allowances of the Uniformed Services).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

**USAFAC**—Purpose is to provide a basis for establishment of computation of each active member's military pay entitlement, to provide a history of pay transactions, and to answer inquiries or claims pertaining to such entitlements. This information is also used to provide necessary data to the Treasury Department, the Social Security Administration, the U.S. Army Military Personnel Center, the Veterans Administration, those states and cities which have an agreement with the Department of the Army to receive taxable earnings information, the American Red Cross, and the Department of Health, Education and Welfare.

**Treasury Department:** To record check and bond issue data and to record taxable earnings and taxes withheld from military personnel.

**Social Security Administration:** To record earned wages by member under the Federal Insurance Contributions Act (FICA).

**U.S. Army Military Personnel Center (MILPERCEN):** To compare military personnel identification with the Social Security Administration for purpose of correction and to compare and correct common data elements with USAFAC.

**Veterans Administration:** To record the collection of premiums for National Service Life Insurance and to transfer contributions to Post-Vietnam Era Veterans Education Account.

**States and Cities:** To verify tax liability against members' State and city income tax returns.

**American Red Cross:** To assist military personnel and their dependents in determining the status of monthly pay, dependents allotments, loans, and related financial transactions.

**Department of Health, Education and Welfare:** Disclose the name, rank and social security account number of each member of the Armed Services on active duty to The Inspector General of that Department only for comparison with appropriate rolls reflecting recipients of Aid to Families with Dependent Children (AFDC).

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

#### Storage:

Paper records in file folders and in bulk storage, card files, computer magnetic tapes, computer paper printout, and microfiche.

#### Retrievability:

Filed by social security number, alphabetically by name, and substantiating document number. Conventional indexing is used to retrieve data.

#### Safeguards:

USAFAC-Buildings employ security guards. An employee badge and visitor registration system is utilized. Records are maintained in areas accessible only to authorized personnel that are properly screened, cleared and trained. Access to computer magnetic tape files is restricted to the members' servicing finance and accounting officer. Computer equipment and files are located in a separate secured area.

World-Wide Finance and Accounting Offices-Records are maintained in areas accessible only to authorized personnel that are properly screened, cleared and trained.

#### Retention and disposal:

Individual military pay records-Records are converted to microfilm which are retained for 56 years. Destruction is by shredding.

Other records-Retention periods vary according to category of record but total retention periods do not exceed 56 years. Disposition is to Federal records centers and destruction thereafter is by burning or salvage as waster paper.

#### System manager(s) and address:

Commander, USAFAC, Indianapolis, Ind. 46249.

Finance and Accounting Officer, United States Army Finance and Accounting Offices, world-wide.

#### Notification procedure:

Information may be obtained from: Commander, USAFAC, ATTN: FINCP, Indianapolis, Ind. 46249.

Individuals may also contact Finance and Accounting Officers at United States Army Finance and Accounting Offices, world-wide.

Individual must provide full name, social security number and military status.

#### Record access procedures:

Requests from individuals should be addressed to: Commander, USAFAC, ATTN: FINCP, Indianapolis, Ind. 46249; or Finance and Accounting Officers at United States Army Finance and Accounting Offices, world-wide.

Written requests for information should also contain full name, social security number, military status and current address.

Information may be obtained by telephone: Area Code 317/542-2891.

#### Contesting record procedures:

The Army's rules for access to records, contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

#### Record source categories:

Information is received from Department of Defense staff and field installations.

lutions, Social Security Administration, Financing organizations, Treasury Department and automated system interface.

Systems exempted from certain provisions of the act:

None.

#### DOD ADVISORY GROUP ON ELECTRON DEVICES

##### Advisory Committee Meeting

Working Group A (Mainly Microwave Devices) of the DoD Advisory Group on Electron Devices (AGED) will meet in closed session at Naval Research Laboratory, 4555 Overlook Avenue SE., Washington, D.C., on February 3, 1978.

The purpose of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group A meeting will be limited to review of research and development programs which the Military Departments propose to initiate with industry, universities or in their laboratories. The microwave area includes programs on developments and research related to microwave tubes, solid state microwave, electronic warfare devices, millimeter devices, and passive devices. The review will include details of classified defense programs throughout. In accordance with section 10(d) of Appendix I, Title 5, United States Code, it is hereby determined that this meeting of the Advisory Group on Electron Devices concerns matters listed in section 552b(c) of Title 5 of the United States Code, and that accordingly this meeting will be closed to the public.

##### DEFENSE SCIENCE BOARD

##### Advisory Committee Meeting

The Defense Science Board will meet in closed session February 23-24, 1978 at the Pentagon, Arlington, Va.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense, Research and Engineering on scientific and technical matters as they affect the perceived needs of the Department of Defense.

A meeting of the Board has been scheduled for February 23-24, 1978, to discuss interim findings and tentative recommendations resulting from ongoing Task Force activities associated with Strategic, Tactical, Intelligence/Command, Control and Communication, and technology issues. The Board will also discuss plans for future considerations of scientific and technical aspects of specific strategies, tactics, and policies as they may affect the U.S. national defense posture.

In accordance with section 10(d), of Appendix I, Title 5, United States Code, it has been determined that this Defense Science Board meeting concerns matters listed in section 552b(c) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

#### APPENDIX.—List of cases received by the Office of Administrative Review

Week of December 23 through December 30, 1977

Date	Name and location of applicant	Case No.	Type of submission
Dec. 23, 1977	Phillips Petroleum Co. (Puerto Rico) Washington, D.C. If granted: Phillips Petroleum Co. (Puerto Rico) would be permitted to import naphtha as refinery and petrochemical feedstock on a license fee exempt basis.	DPI-0002	Exception from base fee requirements (sec. 213.35).
Do	Shenandoah Oil Corp., Fort Worth, Tex. If granted: The DOE region VI's Dec. 12, 1977, remedial order would be rescinded and the Shenandoah Oil Corp. would not be required to refund overcharges made on sales of crude oil produced from the Morrison Ranch Unit, the Bel Estate Nos. 1, 2, and 5 lease, and the J. C. Strubling, Jr. A Nos. 1, 2, 3, and 4 lease.	DRA-0089	Appeal of DOE region VI's remedial order dated Dec. 12, 1977.
Dec. 27, 1977	ABC Airlines, Inc., Texarkana, Tex. If granted: ABC Airlines, Inc. would be permitted to sell aviation fuel at prices above the maximum allowable price levels.	DEE-0434	Price exception (sec. 212.93).
Do	Vern H. Bolinder, Salt Lake City, Utah. If granted: Vern H. Bolinder's crude oil producing property located in the Grassy Trails Field, Emery county, Utah, would be classified as a stripper well property.	DEE-0438	Price exception (sec. 212.73).
Do	Gary Operating Co., Ardmore, Okla. If granted: The DOE region VI's remedial order issued to the Gary Operating Co. would be rescinded and Gary would not be required to refund overcharges made on sales of crude oil produced from its Ramsey, Pruitt, Williams and Harley D properties.	DRA-0090	Appeal of DOE region VI's remedial order.
Do	Lewtex Oil and Gas Co., Inc., Austin, Tex. If granted: Lewtex Oil and Gas Co., Inc. would be permitted to increase its prices to reflect nonproduct cost increases in excess of \$0.005 per gallon for natural gas liquid products produced at the Graham, Olney, and Throckmorton plants.	DEE-0435, DEE-0436, and DEE-0437.	Price exception (sec. 212.185).

## APPENDIX.—List of cases received by the Office of Administrative Review—Continued

Date	Name and location of applicant	Case No.	Type of submission
Dec. 27, 1977	Miranda Fuel Oil Co., Inc., Bronx, N.Y. If granted: The DOE region II's Dec. 9, 1977, remedial order would be rescinded and Miranda Fuel Oil Co., Inc., would not be required to refund overcharges made on sales of Nos. 2 and 4 fuel oils.	DRA-0088, DRS-0088	Appeal of DOE region II's remedial order issued Dec. 9, 1977. Stay requested.
Do	Robert W. O'Meara, New Orleans, La. If granted: Robert S. O'Meara would receive an extension of the exception relief granted in the DOE's July 21, 1977 decision and order and would be permitted to sell crude oil produced from the Louisiana Fruit No. 2 well at upper tier ceiling prices for an additional period of time.	DXE-0439	Extension of exception relief granted in Robert W. O'Meara, 6 FEA Par. 83,043 (July 21, 1977).
Dec. 28, 1977	Creston H. Alexander, Dallas, Tex. If granted: Creston H. Alexander would be permitted to increase his prices to reflect nonproduct cost increases in excess of \$0.005 per gallon for natural gas liquid products produced at the East Texas plant.	DEE-0440	Price exception (sec. 212.165).
Do	Glenn E. Alexander, Dallas, Tex. If granted: Glenn E. Alexander would be permitted to increase his prices to reflect nonproduct cost increases in excess of \$0.005 per gallon for natural gas liquid products produced at the East Texas plant.	DEE-0441	Do.
Dec. 28, 1977	C. H. Sprague & Son, Washington, D.C. If granted: The DOE's Nov. 22, 1977, information request denial would be modified and C. H. Sprague & Son Co. would receive access to additional data concerning the DOE's authority and jurisdiction over sales of products outside the United States.	DFA-0091	Appeal of DOE's information request denial dated Nov. 22, 1977.
Do	Creslenn Ranch Co., Dallas, Tex. If granted: The Creslenn Ranch Co. would be permitted to increase its prices to reflect nonproduct cost increases in excess of \$0.005 per gallon for natural gas liquid products produced at the East Texas plant.	DEE-0442	Price exception (sec. 212.165).
Do	Lunday-Thagard Oil Co., South Gate, Calif. If granted: The Lunday-Thagard Oil Co. would be granted a temporary stay of its entitlement purchase obligations for the month of October 1977.	DST-0003	Request for temporary stay.
Do	Mayer, Brown & Platt, Chicago, Ill. If granted: The DOE's Nov. 22, 1977, information request denial would be modified and Mayer, Brown & Platt would receive access to additional DOE data regarding (1) the uranium holdings of Westinghouse Electric Corp., and its subsidiary, Wyoming Mineral Corp., and (2) the supply, availability, or price of uranium.	DFA-0092	Appeal of DOE's information request denial dated Nov. 22, 1977.
Do	Tesoro Petroleum Corp., San Antonio, Tex. If granted: The Tesoro Petroleum Corp. would be granted an exception from the entitlements program (sec. 211.67) which would relieve the firm of a portion of its entitlement purchase obligations for a period of 6 months.	DEE-0444	Exception from entitlements program (sec. 211.67).
Do	Texaco, Inc., New Orleans, La. If granted: Crude oil produced from United Lands Co., Inc., NCT-A Lease, Sorrento Field, Ascension Parish, La., would be sold at upper tier ceiling prices.	DEE-0443	Price exception (sec. 212.73).
Dec. 29, 1977	Davison Oil Co., Mobile, Ala. If granted: The DOE's Nov. 30, 1977, information request denial would be rescinded and Davison Oil Co. would receive access to additional data in connection with Davison Oil Co. and Pride Terminals.	DFA-0097	Appeal of DOE's information request denial.
Do	Davison Oil Co., Mobile, Ala. If granted: The DOE's Dec. 2, 1977, information request denial would be rescinded and Davison Oil Co. would receive access to the February 16, 1974, letter from Acco, Inc. to FEA region IV regarding gasoline suppliers and purchases.	DFA-0098	Do.
Do	Fair-Porter Production Co., Inc., Oklahoma City, Okla. If granted: The Nov. 15, 1977, remedial order issued by DOE region VI would be rescinded and Fair-Porter Production Co., Inc., would not be required to refund overcharges made in its sales of crude oil produced from the Lamle/Davidson, Martin, Thompson, Poling, Parton, Weetsie Johnson, Matthews and Morrison properties.	DRA-0096	Appeal of the Nov. 15, 1977, remedial order issued by DOE region VI.
Do	Getty Oil Co., Los Angeles, Calif. If granted: The Getty Oil Co. would be permitted to increase its prices to reflect nonproduct cost increases in excess of \$0.005 per gallon for natural gas liquid products produced at the Bayou Sale plant.	DEE-0445	Price exception (sec. 212.165).
Do	Honeycom Drilling Co., Inc., Oklahoma City, Okla. If granted: The DOE region VI's Dec. 14, 1977, remedial order would be rescinded and Honeycom Drilling Co., Inc., would not be required to refund overcharges made on sales of crude oil produced from the Uri and Haskell properties.	DRA-0095	Appeal of DOE region VI's remedial order issued Dec. 14, 1977.
Do	Natrogas, Inc., Minneapolis, Minn. If granted: The Dec. 8, 1977, decision and order issued to Natrogas, Inc., would be modified.	DEX-0024	Supplemental Order in Natrogas, Inc., 1 DOE (Dec. 6, 1977).
Do	Payne, Inc., Oklahoma City, Okla. If granted: The DOE region VI's Dec. 20, 1977, remedial order would be rescinded and Payne, Inc., would not be required to refund overcharges made on sales of crude oil produced from the Jimmy, Oulise, Action, Wheeler, Knecht No. 2, and Mesia properties.	DRA-0094	Appeal of DOE region VI's remedial order issued Dec. 20, 1977.

FEDERAL REGISTER, VOL. 43, NO. 15—MONDAY, JANUARY 23, 1978

## APPENDIX.—List of cases received by the Office of Administrative Review—Continued

Date	Name and location of applicant	Case No.	Type of submission
Dec. 29, 1977	Southwestern Exploration Consultants, Inc., Oklahoma City, Okla. If granted: The DOE region VI's Dec. 19, 1977, remedial order would be rescinded and Southwestern Exploration Consultants, Inc., would not be required to refund overcharges made on sales of crude oil produced from the Ruth/Hopfer, Baxter, and Polston properties.	DRA-0093	Appeal of DOE region VI's remedial order issued Dec. 19, 1977.
Do	Stephens & Cass, Dallas, Tex. If granted: Stephens & Cass would be granted a stay of the provisions of the DOE region VI's April 12, 1977, remedial order pending a final determination on its application for exception.	DRS-0011	Request for stay.
Do	Sun Company, Inc., Dallas, Tex. If granted: Sun Co., Inc., would receive an extension of the exception relief granted in the DOE's June 30, 1977, decision and order which would permit it to increase its prices to reflect nonproduct cost increases in excess of \$0.005 per gallon for natural gas liquid products produced at the Maurice Plant.	DXE-0446	Extension of exception relief granted in Sun Co., Inc., Case No. FKE-4331 (decided June 30, 1977) (unreported decision).

NOTICE OF OBJECTIONS RECEIVED  
Week of Dec. 23 through Dec. 30, 1977

Date	Name and location of applicant	Case No.
Dec. 23, 1977	C&H Refinery, Inc., Lusk, Wyo.	FEE-4318.
Dec. 27, 1977	Dow Chemical U.S.A., Houston, Tex.	FEE-4857.
Dec. 30, 1977	Mobil Petroleum Co., New York, N.Y.	FEE-4296.

## [3128-01]

## NOTICE OF CASES FILED WITH THE OFFICE OF ADMINISTRATIVE REVIEW

Week of December 30 Through January 6, 1978

Notice is hereby given that during the week of December 30 through January 6, 1978, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Administrative Review of the Economic Regulatory Administration of the Department of Energy.

Under the DOE's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the DOE action sought in such cases may file with the DOE written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the

date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Administrative Review, Economic Regulatory Administration, Department of Energy, Washington, D.C. 20461.

Dated: January 11, 1978.

MELVIN GOLDSTEIN,  
Director, Office of  
Administrative Review.

APPENDIX—List of cases received by the office of administrative review  
Week of Dec. 30, 1977 through Jan. 6, 1978

Date	Name and location of applicant	Case No.	Type of submission
Dec. 30, 1977	Cotten, Day & Doyle, Washington, D.C. If granted: The DOE's Nov. 17, 1977, information request denial would be modified and Cotton, Day & Doyle would receive access to additional DOE data regarding the Quam Oil and Refining Co.'s responses to a request for additional information, case No. FEE-4105.	DFA-0099	Appeal of DOE's information request denial dated Nov. 17, 1977.
Jan. 3, 1978	Quincy Oil, Inc., Quincy, Mass. If granted: Quincy Oil, Inc. would be granted an exception from the provisions of ruling 1977-5 which would permit the firm to establish its selling price for No. 6 fuel oil above the maximum level permitted under the mandatory petroleum price regulations. The firm would be granted a stay of the refund requirements contained in the remedial order issued to the firm on Nov. 2, 1976, pending a decision on its exception application.	DEE-0447, DRS-0447, and DRT-0004.	Price exception (ruling 1977-5; sec. 212.93). Stay requested.
Jan. 4, 1978	Christmann & Welborn, Lubbock, Tex. If granted: The remedial order issued by DOE region VI on Dec. 22, 1977, would be rescinded and Christmann & Welborn would not be required to refund overcharges made on sales of crude oil produced from the CWC Prentice unit in Yoakum County, Tex.	DRA-0101	Appeal of DOE region VI's remedial order dated Dec. 22, 1977.
Do	Ethyl Corp., Washington, D.C. If granted: The DOE region VI New Orleans Area Office would be directed to cease its investigation of the Ethyl Corp.'s transactions involving No. 2 fuel oil.	DSG-0010	Request for special redress.
Do	Modernistic Gas Service, Inc., Dayton, Ohio. If granted: The remedial order issued by DOE region V to Modernistic Gas Service, Inc., would be rescinded and the firm would not be required to refund overcharges made on sales of propane.	DRA-0100	Appeal of DOE region V's remedial order.

FEDERAL REGISTER, VOL. 43, NO. 15—MONDAY, JANUARY 23, 1978

## APPENDIX.—List of cases received by the Office of Administrative Review—Continued

Date	Name and location of applicant	Case No.	Type of submission
Jan. 4, 1978	Texfel Petroleum Corp., Dallas Tex. If granted: The DOE's Dec. 5, 1977, information request denial would be rescinded and the Texfel Petroleum Corp. would receive access to additional data concerning the DOE audit of Texfel's operation of the McKit-trick McNeil lease.	DFA-0102	Appeal of DOE's information request denial dated Dec. 5, 1977.
Do	Young Refining Corp., Douglasville, Ga. If granted: The Young Refining Corp. would be granted a stay of a portion of its entitlement purchase obligation set forth in the entitlement notice for Oct. 1977, issued on Dec. 20, 1977, pending a final determination of its application for exception.	DES-0023	Stay request.
Jan. 5, 1978	Atlantic Richfield Co., Los Angeles, Calif. If granted: The Atlantic Richfield Co. would be granted a stay of the provisions of the DOE's Dec. 21, 1977, remedial order pending a final determination on an appeal of that order which it intends to file.	DRS-0106	Do.
Do	Atlantic Richfield Co., Los Angeles, Calif. If granted: The Atlantic Richfield Co. would be granted a stay of the provisions of the DOE's Dec. 23, 1977, remedial order pending a final determination on an appeal of that order which it intends to file.	DRS-0107	Do.
Do	J. S. Beebe, Jr., El Dorado, Ark. If granted: The remedial order issued by DOE region VI on Dec. 22, 1977, would be rescinded and J. S. Beebe, Jr. would not be required to refund overcharges made on sales of crude oil.	DRA-0103	Appeal of DOE region VI's remedial order dated Dec. 22, 1977.
Do	Derby & Co., Inc., New York, N.Y. If granted: Derby would be granted additional entitlements in the month of January 1978 to compensate it for the entitlements it was unable to sell in December 1977.	DEE-0451	Exception to the entitlement notice for Oct. 1977, issued Dec. 23, 1977.
Do	E. Lyle Johnson, Moore, Okla. If granted: The remedial order issued by DOE region VI on Dec. 21, 1977, would be rescinded and E. Lyle Johnson would not be required to refund overcharges made on sales of crude oil produced from the Williams lease located in Cleveland County, Okla.	DRA-0104	Appeal of DOE region VI's remedial order dated Dec. 21, 1977.
Do	E. Lyle Johnson/Clayton E. Lee, Moore, Okla. If granted: The remedial order issued by DOE region VI on Dec. 21, 1977, would be rescinded and E. Lyle Johnson and Clayton E. Lee would not be required to refund overcharges made on sales of crude oil produced from the Roberts lease located in Major County, Okla.	DRA-0105	Appeal of DOE region VI's remedial order dated Dec. 21, 1977.
Do	North Pole Refining, North Pole, Alaska. If granted: North Pole Refining would be granted a stay of the requirement that it file form F-102-M-1 pending a final determination on its application for exception.	DES-0024	Stay request.
Do	Joseph I. O'Neill, Jr., Midland, Tex. If granted: Crude oil produced from the Feldman & Pardo lease located in Scurry County, Tex., would be sold at prices above the maximum allowable price specified in the mandatory petroleum price regulations.	DEE-0449	Price exception (sec. 212.73).
Do	Pyrofax Gas Corp., Houston, Tex. If granted: The Pyrofax Gas Corp. would be granted retroactive exception relief which would permit it to calculate its cost of product in inventory prior to May 1, 1978, on the basis of separate inventory computations.	DEE-0448	Exception to separate inventories amendment (section 212.93).
Do	Southland Royalty Co., Fort Worth, Tex. If granted: Crude oil produced from the Southland Royalty Co.'s Aztec Totah Unit located in San Juan County, N. Mex., would be sold at prices above the maximum allowable price specified in the mandatory petroleum price regulations.	DEE-0450	Price exception (sec. 212.73).

## CRUDE OIL AND NATURAL GAS PRODUCERS

## Accounting Practices

AGENCY: Department of Energy (DOE).

ACTION: Cross reference to Securities

and Exchange Commission solicitation of comments.

SUMMARY: Title V, Section 503 of the Energy Policy and Conservation Act, Pub. L. 94-163, requires that the Securities and Exchange Commission (SEC), in consultation with the Feder-

al Energy Administration, the General Accounting Office and the Federal Power Commission, assure the development and observance of accounting practices to be followed by persons engaged in the production of crude oil or natural gas in the United States. The EPCA authorizes the SEC to prescribe

FEDERAL REGISTER, VOL. 43, NO. 15—MONDAY, JANUARY 23, 1978

rules with respect to such accounting practices developed by the Financial Accounting Standards Board (the "FASB").

The SEC has previously published for public comment two rulemaking proposals (Release Nos. 33-5861, 42 FR 44972, September 7, 1977 and 33-5877, 42 FR 57662, November 3, 1977) and now seeks comment on the finalized financial accounting standards developed by the FASB.

DATE: Comments are due by February 24, 1978.

ADDRESS: Comments should be directed to: Richard C. Adkerson, Office of the Chief Accountant, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549, 202-755-1671.

## FOR FURTHER INFORMATION CONTACT:

Fred Santogrossi, Energy Information Administration, Department of Energy, Washington, D.C. 20461, 202-566-9594.

Richard C. Adkerson, Office of the Chief Accountant, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549, 202-755-1671.

SUPPLEMENTARY INFORMATION: The SEC, in Securities Act Release No. 33-5892 (43 FR 878, January 4, 1978) is requesting comments from interested persons concerning accounting practices developed by the Financial Accounting Standards Board (the "FASB").

Title V, Section 503 of the Energy Policy and Conservation Act Pub. L. 94-163 (the "EPCA"), requires that, for purposes of developing a reliable energy data base, the SEC assure the development and observance of accounting practices to be followed by persons, including those not subject to the filing requirements of the Federal securities laws, engaged in whole or in part in the production of crude oil or natural gas in the United States. The EPCA authorizes the SEC to prescribe rules with respect to such accounting practices developed by the Financial Accounting Standards Board.

The SEC has previously proposed for public comment rules relating to financial accounting measurement standards (Release No. 33-5861, 42 FR 44972, September 7, 1977) and related disclosure standards (Release No. 33-5877, 42 FR 57662, November 3, 1977). Both of these rulemaking proposals embodied the financial accounting and reporting standards published in July, 1977, by the FASB in an Exposure Draft of a proposed Statement on "Financial Accounting and Reporting by Oil and Gas Producing Companies." As anticipated in the SEC rulemaking proposals, the FASB has recently made final its standards which were published in Statement of Financial Accounting Standards No. 19. As a result, the SEC is soliciting further public comment on whether the Com-

mission should rely on the determinations of the FASB in its Statement No. 19, as authorized by the EPCA and, furthermore, on whether the standards in FASB Statement No. 19, or some alternative accounting standards, would be appropriate for the preparation of financial statements to be included in filings pursuant to the Federal securities laws and in reports filed with the Department of Energy (the "DOE").

Public hearings are tentatively planned beginning March 27, 1978, in Washington, D.C. and Houston, Tex. A formal announcement of the public hearings will be issued by the SEC in a separate release.

The reason for this notice by the DOE is that Title V, section 505 of the EPCA amends section 11(c) of the Energy Supply and Environmental Coordination Act of 1974, Pub. L. 93-319, as amended by Pub. L. 94-163 (ESECA) in the following respect: in order to carry out the responsibility under section 11(a) of ESECA to require the reporting of energy information (as defined in section 11(d) of ESECA) to the FEA, the FEA Administrator shall require that persons engaged in whole or in part in the production of crude oil or natural gas (1) keep energy information in accordance with the accounting practices developed by the SEC pursuant to section 503 of the EPCA and (2) submit reports with respect to energy information kept in accordance with such practices.

The Department of Energy Organization Act (Pub. L. 95-91), made effective on October 1, 1977 by Executive Order 12009, dated September 13, 1977 (42 FR 46267, September 15, 1977), effected the transfer to the Secretary of Energy of all the functions vested by law in the Administrator of the Federal Energy Administration, so that the DOE is now responsible for implementing the requirements which the EPCA and ESECA statutes placed upon the FEA. Accordingly, the DOE, as successor to the functions of the FEA, encourages all interested parties to submit comments to the Securities and Exchange Commission in response to its release, as referenced above.

Issued in Washington, D.C., on January 17, 1978.

WILLIAM S. HEFFELFINGER,  
Director of Administration,  
Department of Energy.

## Economic Regulatory Administration

## ENERGY SUPPLY AND ENVIRONMENTAL COORDINATION

## Issuance of Notice of Effectiveness To Make Effective Previously Issued Prohibition Order

Pursuant to section 2 of the Energy Supply and Environmental Coordination Act of 1974 (ESECA), 15 U.S.C.

791 et seq., as amended by Pub. L. 95-70, and 10 CFR 303.37(d), the Department of Energy (DOE) hereby gives notice that on January 17, 1978, it issued a notice of effectiveness making effective the prohibition order previously issued on June 30, 1975 (40 FR 28430, July 3, 1975), to the below-listed powerplants. The notice of effectiveness was issued under the authorities granted to DOE by section 2 of the Energy Supply and Environmental Coordination Act of 1974, as amended, and pursuant to 10 CFR Parts 303 and 305.

## Docket Nos., Owner, Powerplant Nos., Generating Station, and Location

OFU-002, OFU-003, OFU-004; Iowa Electric Light & Power Co.; 1, 2, and 3; Sutherland; Marshalltown, Iowa.

The prohibition order issued by the Federal Energy Administration (FEA), on June 30 1975, to the above-listed powerplants prohibits the powerplants from burning natural gas or petroleum products as their primary energy source. In accordance with the requirements of 10 CFR Parts 303 and 305, however, the order provided it would not become effective until DOE had considered the environmental impact of the order and until DOE had served the affected powerplants with a notice of effectiveness.

Subsequent to the issuance of the prohibition order, DOE performed an analysis pursuant to 10 CFR 305.9 and 208.3, of the environmental impact of the issuance of this notice of effectiveness including an assessment of the EPA certification dated November 19, 1976, pursuant to section 119(d)(1)(B) of the Clean Air Act (42 U.S.C. 1857 et seq.), that December 31, 1976, was the earliest date that powerplant Nos. 1, 2, and 3, respectively, could burn coal and comply with the applicable regional limitation. That analysis resulted in a determination that the issuance of the notice of effectiveness making this prohibition order effective is not a "major Federal action significantly affecting the quality of the human environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C). Public notice of the negative determination and of the availability for inspection of this analysis was given in the FEDERAL REGISTER (42 FR 45366, September 9, 1977), in accordance with 10 CFR 208.4(c) and 208.15(a).

Upon completion of this environmental analysis, DOE issued this notice of effectiveness of the June 30, 1975, prohibition order to the above-listed powerplants and served the notice on the powerplants by regis-

Effective October 1, 1977, the responsibility of implementing ESECA was transferred by Executive Order No. 12009, (42 FR 46267) pursuant to the Department of Energy Organization Act, (Pub. L. 95-91) (42 U.S.C. 7101 et seq.) from the Federal Energy Administration to the Department of Energy.

FEDERAL REGISTER, VOL. 43, NO. 15—MONDAY, JANUARY 23, 1978

3158

## NOTICES

tered mail on the same day. The notice makes effective the prohibition order, prohibiting the powerplants from burning natural gas or petroleum products as their primary energy source.

Any person aggrieved by the now effective prohibition order may file an appeal with the DOE Office of Administrative Review (formerly known as the Office of Exceptions and Appeals) in accordance with 10 CFR Part 303, Subpart H. The appeal shall be filed within 30 days after service of the notice of effectiveness. There has not been an exhaustion of administrative remedies until an appeal has been filed pursuant to Subpart H of Part 303, and the appellate proceeding is completed by the issuance of an order granting or denying the appeal.

Application may be made for modification or rescission of the prohibition order in accordance with the provisions of 10 CFR Part 303, Subpart J. An application for modification or rescission of a prohibition order based on "significantly changed circumstances," which circumstances occurred during the interval between issuance of the order and service of the notice of effectiveness, shall be filed within 30 days of service of such notice. An application for modification or rescission of a prohibition order based on significantly changed circumstances occurring after that interval may be filed at any time after service of the notice of effectiveness.

All terms and conditions of the prohibition order and the notice of effectiveness may be the subject of either an appeal or an application for modification or rescission.

The order made effective by this notice of effectiveness is effective against any persons that, as of the date of service of such notice, own, lease, operate, or control the above-listed powerplants and against any successors-in-interest or assignees of such persons.

The above-listed powerplants have been served this notice of effectiveness by registered mail. In addition, copies of this document will be available for inspection by any interested members of the public at the DOE public docket room located in Room B-120, 2000 M Street NW., Washington, D.C., from 1 to 5 p.m., Monday through Friday. Copies will also be available in the appropriate DOE regional office. The negative determination and environmental analyses are available upon request from the DOE National Energy Information Center, Room 1404, 12th Street and Pennsylvania Avenue NW., Washington, D.C. 20461. Copies of the documents are also available for public review in the DOE Freedom of Information Reading Room, Room 2107, 12th Street and Pennsylvania Avenue NW., Washington, D.C.

Any questions regarding this notice should be directed to Walter A. Romanek, Director, Division of Coal Utilization, Department of Energy, 2000

M Street NW., Washington, D.C. 20461, 202-254-3910.

Issued in Washington, D.C., January 17, 1978.

(ERA Docket No. WAPA 78-1)

**CENTRAL VALLEY PROJECT, WESTERN AREA  
POWER ADMINISTRATION**

**Notice of Intent To Act on Proposal for Interim  
Rates**

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of Intent to Act on Proposal for Interim Rates for the Central Valley Project, Western Area Power Administration. ERA Docket No. WAPA 78-1.

SUMMARY: The Acting Assistant Secretary for Resource Applications has requested the Administrator of the Economic Regulatory Administration (ERA) to establish interim power rates for the Central Valley Project (CVP). The purpose of this Notice is to advise the public that the Administrator of ERA intends to act on the request and to invite interested parties to submit written comments relevant to the proposed interim rates.

DATES: Effective date of interim rates—60 days after ERA's approval of the interim rates. Written comments are due on or before February 22, 1978.

ADDRESS: Ten copies of written comments shall be submitted to: Office of Regulations Management, Box RH, Department of Energy, 2000 M Street NW., Room 2313, Washington, D.C. 20461.

**FOR FURTHER INFORMATION  
CONTACT:**

Richard K. Pelz, Office of the General Counsel, 12th and Pennsylvania Avenue NW., Room 3001, Washington, D.C. 20461, 202-566-9341

Richard S. Ugelow, Office of the General Counsel, 12th and Pennsylvania Ave. NW., Room 6144, Washington, D.C. 20461, 202-566-9296.

**SUPPLEMENTARY INFORMATION:** Pursuant to section 302(a)(1) of the Department of Energy Organization Act (Public Law 95-91) the function to establish rates for power previously marketed by the Bureau of Reclamation, Department of the Interior, was transferred to and vested in the Secretary of Energy on October 1, 1977. By Delegation Order No. 0204-4, effective October 1, 1977, the Secretary of Energy delegated the authority to establish rates to the Administrator of

the Economic Regulatory Administration.

On September 13, 1977, in accordance with the Procedures for Public Participation in General Adjustments in Power Rates (Procedures), 40 FR 34431 (August 14, 1975), the Department of Interior announced that it was proposing a rate increase for the Central Valley Project. Interested persons were invited to participate in public forums and to submit written comments relative to the proposed Central Valley rate increase.

The Department of Energy has published in the FEDERAL REGISTER 43 FR 31 (January 3, 1978), proposed amendments to the Procedures to permit the setting of interim rates for power marketed by WAPA. In anticipation of the promulgation of those amended Procedures the Assistant Secretary for Resource Applications has proposed that ERA set the following interim rates for the Central Valley Project:

The proposed initial interim rate would consist of a \$2.00/kW/mo demand charge and a 4.2 mills/kWh energy charge that would become effective 60 days after ERA's approval of the interim rates, and would remain in effect through March 31, 1979. On and after April 1, 1979, the interim rate would consist of a \$2.00/kW/mo demand charge and a dual energy charge of 5.75 mills/kWh for project load and 9.75 mills/kWh for growth load. The proposed interim rates for the Sacramento Municipal Utility District (SMUD) would be the same as described above, however, the Acting Assistant Secretary for Resource Applications has recommended that if an increase above the proposed interim rate would be barred by SMUD's CVP contract, the proposed interim rate would consist of a \$2.00/kW/mo demand charge and a 6.55 mills/kWh energy charge effective May 25, 1978.

The complete statement issued by the Acting Assistant Secretary for Resource Applications with respect to the proposed interim rates has been mailed to all CVP customers. Additional copies may be obtained from: Clark L. Rose, Western Area Power Administration, 18th & C Streets NW., Room 3612, Washington, D.C. 20240, 202-343-4640.

The public is invited to submit comments, as set forth in this Notice, relative to the request of the Acting Assistant Secretary. At the conclusion of the comment procedure the Administrator will evaluate the comments received in response to this Notice and the Notice published by the Department of Interior on September 13, 1977, and will take final action on the request for interim rates.

**COMMENT PROCEDURES:** Interested are invited to submit comments with respect to the subject matter set forth in this Notice to: Office of Regulations Management, Box RH, Room 2313, Department of Energy, 2000 M Street NW., Washington, D.C. 20461.

Such written comments may be mailed or hand delivered and should be received by 4:30 p.m., e.s.t. on or before February 22, 1978.

Information relevant to this matter, including public comments, if any, will be available for inspection at the DOE Freedom of Information Office, Room 2107, Federal Building, 12th & Pennsylvania Avenue NW., Washington, D.C. between the hours of 8 a.m. and 4:30 p.m., Monday through Friday.

Issued in Washington, D.C., January 17, 1978.

**FEDERAL ENERGY REGULATORY COMMISSION**

(Project Nos. 2395, 2241, 2473)

**CAPITAL CITIES MEDIA, INC. AND DAM CO.,  
INC.**

**Three Applications for Transfer of Licenses**

JANUARY 12, 1978.

Public notice is hereby given that three applications for transfer of licenses have been filed under the Federal Power Act (16 U.S.C. §§ 791(a)-825(r) (1970)) by Capital Cities Media, Inc., successor in interest of Flambeau Paper Co., (licensee-transferor) and The Dam Co., Inc. (transferee) (correspondence to: Mr. Norman C. Hoeflerle, President, Flambeau Paper Co., Park Falls, Wis. 54552; and Danny R. Carpenter, Esq., Watson, Ess, Marshall & Enggas, 1500 Home Savings Building, 1006 Grand Avenue, Kansas City, Mo. 64108). The applications seek Commission approval of the transfer of minor licenses for three hydroelectric projects: the Pixley Hydro-Electric, Lower Hydro-Electric, and Crowley projects. The Pixley Hydro-Electric Project, FERC Project No. 2395, is located on the North Fork of the Flambeau River in Price County, Wis.; the Lower Hydro-Electric Project, FERC Project No. 2421, is located on the North Fork of the Flambeau River in the City of Park Falls, Price County, Wis.; and the Crowley Project, FERC Project No. 2473, is located on the North Fork of the Flambeau River in the vicinity of Fifield and Park Falls, Price County, Wis.

The three applications, filed on July 25, 1977, and supplemented on August 3, 1977, were filed jointly by Flambeau Paper Co. (as transferor) and The Dam Co., Inc. (as transferee). The Dam Co., Inc., was incorporated as a wholly-owned subsidiary of Flambeau Paper Co. in June, 1977. However, Flambeau Paper Co. was merged into Capital Cities Media, Inc., on July 1, 1977, and the three subject applications are signed for Flambeau Paper

(Docket No. CP78-139)

**CITIES SERVICE GAS CO.**

**Application**

JANUARY 12, 1978.

Take notice that on December 29, 1977, Cities Service Gas Co. (Applicant), P.O. Box 25128, filed in Docket No. CP78-139 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon in place and by reclaim its Tallant Compressor Station in Osage County, Okla., all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests authorization to abandon in place and by reclaim its Tallant Compressor Station, consisting of four 940 horsepower and one 1,000 horsepower compressor units and appurtenant facilities, which units were installed in 1913, 1916, and 1927. Applicant states that these compressor units were originally designed to transport natural gas produced and purchased from a system south of its Drumright Compressor Station, and that the system south of Drumright Compressor Station was reclaimed in 1947 under authorization granted in Docket No. G-898. Tallant Compressor Station then transported natural gas purchased on Applicant's system south of Blackwell, it is said. The application states that due to declines in production, these facilities are no longer required to compress natural gas transported through this portion of Applicant's pipeline system, and that this station has not been operated since March 30, 1975. These compressor units are now considered obsolete, it is stated.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 2, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the

Co. by the president of Capital Cities Media, Inc., (the corporation that survived the merger). Shortly before the Flambeau Paper Co.—Capital Cities Media, Inc., merger, Flambeau Paper Co. quitclaimed all of its right, title, and interest in the projects' real property to its wholly-owned subsidiary, The Dam Co., Inc., while retaining the incorporeal license rights and all physical documents, books, maps, etc. relating to the projects. All three corporations (Flambeau Paper Co., The Dam Co., Inc., and Capital Cities Media, Inc.) are or were subsidiaries within one wholly-owned corporate family which is controlled by a parent corporation, Capital Cities Communications, Inc.

Any person desiring to be heard or to make a protest with reference to said applications should on or before March 6, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, protests or petitions to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 C.F.R. § 1.8 or § 1.10 (1977)). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The applications are on file with the Commission and available for public inspection.

The public is further advised that on October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977), and Executive Order No. 12009, 42 Fed. Reg. 48267 (September 15, 1977), the Federal Power Commission (FPC) ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provided that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of this proceeding were specifically transferred to the FERC by section 402(a)(1) or 402(a)(2) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the

proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided, for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 78-1847 Filed 1-20-78; 8:45 am]

#### [6740-02]

[Docket No. CP78-141]

#### CONSOLIDATED GAS SUPPLY CORP.

##### Application

JANUARY 12, 1978.

Take notice that on January 4, 1978, Consolidated Gas Supply Corp. (Applicant), 445 West Main Street, Clarksburg, W. Va. 26301, filed in Docket No. CP78-141 an application pursuant to section 7(c) of the Natural Gas Act and section 2.79 of the Commission General Policy and Interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing the transportation for 2 years of up to 2,500 Mcf of natural gas per day (or its thermal equivalent) for the Specialty Chemicals Division of Allied Chemical Corp. (Allied), an existing distribution customer of Hope Natural Gas Co. (Hope), a division of Applicant, Moundsville, W. Va., all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to receive natural gas from Texas Eastern Transmission Corp. (Texas Eastern), one of its existing pipeline suppliers, at Texas Eastern's Measuring Station No. 372, an existing point of delivery from Texas Eastern to Applicant located in Marshall County, West Virginia, and to transport such volumes, less 4 per-

cent, through its existing 12-inch line No. H-197 into the facilities of Hope, also in Marshall County, W. Va., pursuant to a transportation agreement dated December 20, 1977, between Applicant and Allied. It is stated that Hope would make the gas so transported available to Allied through its existing distribution facilities.

Applicant indicates that it would charge Allied 9.15 cents per Mcf for the proposed transportation services, which rate is based on the average system-wide unit storage and zone transmission costs, less fuel costs. Applicant proposes to retain for company-use and unaccounted-for gas 4 percent of the total volumes received for Allied's account.

The rate which Applicant proposes to charge is also subject to a surcharge under Applicant's tariff for research and development cost charges in the transmission and storage functions, it is said.

The application states that Allied proposes to use the transportation gas for two high priority uses for which there are no alternate fuel capabilities: as feedstock for the production of toluene diisocyanate (TDI) and chlorinate methanes (CMP), and for various safety-related pilot lights within the Complex. It is indicated that Allied is unwilling to make its ethane available to the interstate market.

There is no gas sales contract since the transportation gas is being transferred from one Division to another Division of the same company, Allied, it is stated.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 3, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required

herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary

[FR Doc. 78-1848, Filed 1-20-78; 8:45 a.m.]

#### [6740-02]

[Docket No. CP78-143]

#### CONSOLIDATED GAS SUPPLY CORP.

##### Application

JANUARY 17, 1978.

Take notice that on January 4, 1977, Consolidated Gas Supply Corp. (Applicant), 445 West Main Street, Clarksburg, W. Va. 26301, filed in Docket No. CP78-143 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain transmission facilities and for permission and approval to abandon certain transmission facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes the following:

(1) Construct and operate 19.1 miles of 24-inch Line No. TL-430 from Fleming Junction to Jones Station.

(2) Construct and operate 0.2 mile of 14-inch and 0.1 mile of 16-inch Line No. H-194 to connect 24-inch Line No. TL-430 to 12-inch Line No. H-192 and 14-inch Line No. TL-264 at Jones Station.

(3) Abandon 4.9 miles of 12-inch Line No. H-192 and 5.0 miles of 12-inch Line No. TL-264 from Oka Junction to Minnora Junction.

(4) Reclassify, from dry gas to wet gas transmission service, 14.8 miles of 12-inch Line No. H-192 and 14.7 miles of 12-inch Line No. TL-264 from Minnora Junction to Jones Station, as more fully described at Docket No. CP75-158.

1979

(1) Construct and operate 19.3 miles of 24-inch Line No. TL-430 from Jones Station to Fleming Junction.

(2) Reclassify, from dry gas to wet gas transmission service, 19.4 miles of 12-inch Line No. H-192 and 19.2 miles of 14- and 16-inch Line No. TL-264 from Jones Station to Fleming Junction, as more fully described at Docket No. CP75-158.

1980

(1) Construct and operate 19.1 miles of 24-inch Line No. TL-430 from Fleming Junction to a point 0.3 mile north of Tonkin Station.

(2) Abandon 15.4 miles of 12-inch Line No. H-192 from Fleming Junction to Maxwell Junction.

(3) Abandon 15.0 miles of 16-inch Line No. TL-264 from Fleming Junction to Maxwell Junction.

(4) Abandon 0.3 mile of 12-inch Line No. H-192 north from Tonkin Station.

(5) Abandon 0.3 mile of 16-inch Line No. TL-264 north from Tonkin Station.

(6) Abandon 12.8 miles of 16-inch Line No. TL-227 from Sweeney Station to Oxford Junction.

(7) Abandon 7,200 horsepower Tonkin Compressor Station.

Applicant states that this proposal represents the remaining three years of a five-year plan to replace its West Virginia dry gas transmission system extending from its Cornwell compressor station in Kanawha County to Hastings in Wetzel County.

The application states that Applicant has discovered corrosion in significant portions of Line Nos. H-192 and TL-264 sufficient to make it advisable to remove these pipelines from 1100-1300 psig service. H-192 and TL-264 have been utilized to transport approximately 235,000 Mcf per day of the 255,000 Mcf per day which Applicant is authorized to purchase from Tennessee Gas Pipeline Company, a Division of Tenneco Inc., (Tennessee) in Tennessee's Zone 3, it is said. It is stated that this 235,000 Mcf per day represents a substantial portion of Applicant's total authorized pipeline supply of natural gas, and that this proposed pipeline replacement is, therefore, essential to the continuity of service to Applicant's customers. The application states that it is not anticipated that any customer's service would be terminated as a result of the abandonments proposed herein.

It is indicated that the estimated cost of the proposed facilities is \$17,658,217, which cost would be financed from fund on hand and funds to be obtained from Applicant's parent, Consolidated Natural Gas Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 8, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.70). All protests filed with the Commission will be considered by it in determining the appropriate

action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,  
Acting Secretary.

[FR Doc. 78-1862 Filed 1-20-78; 8:45 am]

#### [6740-02]

[Docket No. C178-244]

#### CONTINENTAL OIL CO.

##### Limited-Term Application

JANUARY 17, 1978.

Take notice that on December 19, 1977, Continental Oil Co. (Applicant), P.O. Box 2197, Houston, Tex. 77001, filed in Docket No. C178-244 an application for a limited-term certificate of public convenience and necessity with pregranted abandonment authorizing it to engage in the sale of gas.

Applicant states that it proposes to sell gas to United Gas Pipeline Co. (United) under contract dated September 23, 1977, and that Applicant has been informed that arrangements have been made by the Purchaser for transportation of all or a portion of the gas to be sold by Applicant under its contract and that it may be transported by the Purchaser in interstate commerce for resale and/or may be resold by the Purchaser to others for transport in interstate commerce for resale.

Applicant states that the gas to be produced under its contract is from the approximate location of East Fruitvale Field, Van Zandt County, Tex.

Applicant states that it seeks a limited-term certificate with pregranted abandonment to make sales of natural gas to United for a term commencing with the date of first deliveries of gas under such certificate and terminating, in accordance with its contract one year thereafter. Applicant also states that it is advised that United has an existing gas supply emergency on its system and has presented evidence to the Commission in previous dockets demonstrating the emergency. This sale may be terminated at any time following initial delivery and prior to the one-year term.

Applicant states that the purchaser to whom it intends to sell this gas production under a long-term contract does not have facilities installed to accept this gas production and it will be some indeterminate time before such facilities are installed. In view of the fact that the wells should be produced and in view of the need of United Gas Pipeline for the gas, Continental and United have entered into the limited-term contract which is a part of this application.

Applicant is seeking a rate of \$1.48 per Mcf, plus tax, Btu and 1.5 cents gathering allowance.

Any person desiring to be heard or to make any protest with reference to said application, on or before February 8, 1978, should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it

will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,  
Acting Secretary.

(Project No. 2740)

DUKE POWER CO.

Application for Amendment of License

JANUARY 17, 1978.

Public notice is hereby given that an application was filed with the Federal Energy Regulatory Commission on December 9, 1977, under the Federal Power Act, 16 U.S.C. §§ 791a-825r, by Duke Power Co. (Applicant) (correspondence to: L. C. Dall, Chief Engineer, Civil-Environmental Division, Duke Power Co., Box 2178, Charlotte, N.C. 28242) for Commission approval of an amendment to Article 32 of the license for Project No. 2740, the Bad Creek Project, the upper reservoir of which is to be located on Bad and West Bad Creeks in Oconee County, S.C. The project's lower reservoir would utilize existing Lake Jocassee.

Article 32 of the license issued August 1, 1977, requires among other things the filing of a detailed plan to mitigate any adverse impacts of project operations on Lake Jocassee and stream fisheries. The plan was to include, but not be limited to, those measures agreed upon between Applicant and the South Carolina Wildlife and Marine Resources Department (SCWMRD) as set forth in a letter to the Federal Power Commission dated January 10, 1977. One of the provisions of this letter provided for the transfer of property from Applicant to SCWMRD called the Eastatoe Creek Tract. Now Applicant and SCWMRD wish to substitute a tract of land for the Eastatoe Tract. The new tract is a parcel of land along the Whitewater River in Oconee County, but bordering Transylvania County, N.C., containing about 375 acres, presently in the possession of the Crescent Land and Timber Corp., a wholly owned subsidiary of Applicant.

Any person desiring to be heard or to make any protest with reference to said application should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR § 1.10). All such petitions or protests should be filed on or before February 23, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make pro- testants parties to the proceeding.

## NOTICES

Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

LOIS D. CASHELL,  
Acting Secretary.

[Docket Nos. E-8769, E-8770, E-9119, ER78-219 and ER77-356]

FLORIDA POWER & LIGHT CO.

Certification of Offer of Settlement

JANUARY 17, 1978.

Take notice that on November 10, 1977, an offer of settlement, filed by Florida Power & Light Co. (FP&L) on October 28, 1977 (in the above-captioned proceeding) was certified to the Commission by the Presiding Administrative Law Judge. FP&L asserts that its settlement offer is not opposed by the intervenors, the Fort Pierce Utilities Authority of Fort Pierce, Fla., and the Utilities Commission of the City of New Smyrna Beach of New Smyrna Beach, Fla.

Any person desiring to be heard or to protest said offer of settlement should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before February 13, 1978. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this offer of settlement are on file with the Commission and are available for public inspection.

# [6740-02]

[Docket No. C178-278]

GOOD HOPE REFINERIES, INC.

Limited-Term Application

JANUARY 17, 1978.

Take notice that on January 3, 1978, Good Hope Refineries, Inc. (Applicant), 1100 Milam Building, Suite 3730, Houston, Tex., 77002, filed in Docket No. C178-278 an application for a limited-term certificate of public convenience and necessity with pre-granted abandonment authorizing it to engage in the sale of gas.

Applicant states that it is an independent producer of natural gas with its primary leaseholdings in Webb and Zapata Counties, Tex. Applicant's working interest production in these

two counties is approximately 80,000 Mcf/day for more than ninety wells in twenty separate fields. In addition, Applicant markets an additional 20,000 Mcf/day for various other working interest owners in the same area, either through its own contracts with LoVaca Gathering Co., or through purchases by its pipeline subsidiary, Southern Pipe Line Corp., and subsequent resale to LoVaca.

Applicant is seeking to make a sale of natural gas to United Gas Pipe Line Co. from its interest in natural gas produced from certain acreage as described in its contract dated January 3, 1978, attached to Applicant's application.

Under the contract submitted for certification, Applicant proposes to sell 50,000 Mcf of natural gas per day produced from its interest in lands and leaseholds in Webb and Zapata Counties, Tex., to United. The rate shall be \$2.10 per MMBtu in the first year and \$2.15 per MMBtu in the second year. Average heating value of the gas is 1,070 Btu per cubic foot. Transportation charges of \$0.11 per Mcf will be levied for moving the gas through Applicant's intrastate pipeline facility to the point of delivery to United at Agua Dulce in Nueces County, Tex. Gas shall be delivered at a pressure sufficient to enter United's pipeline, but not to exceed 700 psia.

Applicant seeks pregranted abandonment at the end of the two year limited-term sale to United claiming that the gas is available only for a limited period because of a temporary surplus of gas on LoVaca's system.

Applicant states that the public interest, both for LoVaca's intrastate customers and United's interstate customers, would be served if Good Hope received a limited-term certificate to sell the gas in question to United. Applicant further states that United's customers, experiencing severe curtailments because of lack of supply, would be benefited by the gas Good Hope proposes to make available.

Any person desiring to be heard or to make any protest with reference to said application, on or before February 8, 1978, should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and sub-

ject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,  
Acting Secretary.

[FR Doc. 78-1866, Filed 1-20-78; 8:45 am]

# [6740-02]

[Docket No. C177-635]

GULF OIL CORP.

Application for Certificate of Public Convenience and Necessity

JANUARY 12, 1978.

Take notice that on September 26, 1977, Gulf Oil Corp. (Gulf) filed an application for a certificate of public convenience and necessity authorizing it to withdraw natural gas which is produced in the State Domain from a commingled stream with natural gas produced in the Offshore Federal Domain for ultimate use in Gulf's Venice, La. Refinery.

Gulf states that by order issued July 29, 1977, in the above-referenced docket it was required to apply for and obtain a certificate to transport natural gas produced in the State Domain to its Venice Refinery in a commingled stream with gas produced in the federal Domain. Gulf further states that the Commission granted Gulf temporary authorization to continue such commingled transportation of gas to the extent that the use of gas in the Venice Refinery does not exceed the amount produced and transported from the State Domain, and upon further condition that Gulf apply for a permanent certificate to deliver such gas within sixty days from the date of such order. Gulf states that it sells the residue gas available for sale after processing at its Venice Gas Processing Plant to interstate pipeline purchasers and does not serve any community or main line industrial customers with natural gas.

Gulf alleges that the system of pipelines behind its Venice Gas Processing Plant are gathering lines and there-

fore such lines are exempt from the provisions of the Natural Gas Act. Gulf states that it is not requesting authority to operate its gathering system, but rather is requesting authority to remove gas from the commingled stream for its internal use within the Venice Refinery to the extent that the residue volumes withdrawn will not exceed the volumes attributable to gas produced from State Domain leases and gathered in Gulf's Venice Gas Processing Plant gathering system. Gulf requests a certificate which would preserve its status as an independent producer and which exempts Gulf from the regulations of the Commission which are applicable to pipeline companies.

Any person desiring to be heard or to make any protest with reference to said petition should on or before February 2, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 78-1849 Filed 1-20-78; 8:45 am]

# [6740-02]

[Docket Nos. CP75-104, et al.]

HIGH ISLAND OFFSHORE SYSTEM

Petition for Declaratory Order

JANUARY 12, 1978.

Take notice that on December 14, 1977, High Island Offshore System (HIOS) file a petition for declaratory order that would confirm that the compression horsepower installed by HIOS at Block 264 is in accordance with the authorization granted to HIOS in the certificate of public convenience and necessity issued to it by the Commission on June 4, 1976 in the above referenced proceeding.

HIOS states that in Exhibit K of its original certificate application filed on September 8, 1975, it indicated that it would construct and install two 12,350 horsepower gas compressor units and one 29,000 horsepower gas compressor unit which would initially be derated to 12,350 horsepower. HIOS also states that the Commission, in its certificate issued on June 4, 1976, authorized the installation and operation of these facilities.

## NOTICES

HIOS states that the compressor facilities actually installed at Block 264 are two Frame 3 compressor units with nameplate ratings of 12,200 HP each and one Frame 5 compressor unit with a nameplate rating of 21,700 HP. According to HIOS the two Frame 3 units are the same units as originally proposed at 12,350 HP, but, as installed, are rated at 12,200 HP. HIOS's reason for installation of the Frame 5 unit with a nameplate rating of 21,700 HP is that this would result in an ultimate savings of approximately \$500,000 and would provide a spare unit for both of the other units at this important location of the HIOS system.

Any person desiring to be heard or to make any protest with reference to said petition should on or before February 3, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

# [6740-02]

[Docket No. ER78-181]

IOWA PUBLIC SERVICE CO.

Proposed Cancellation

JANUARY 17, 1978.

Take notice that on January 5, 1978, Iowa Public Service Co. (Iowa), tendered for filing a Notice of Proposed Cancellation of wheeling service provided to the Town of Hinton, Iowa by Iowa Public Service Co.

Iowa states that Rate Schedule FPC No. 44 and Supplement 2 of No. 44, effective August 11, 1968 and filed with the Commission by June 11, 1968, are to be cancelled in part to delete references to the service to the Town of Hinton. Iowa further states that Rate Schedule FPC No. 46, effective August 11, 1968, filed July 11, 1968, is also to be cancelled.

Iowa proposes an effective date of February 1, 1978, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the

Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 3, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are available for public inspection with the Commission.

LOIS D. CASHELL,  
Acting Secretary.

[FR Doc. 78-1867 Filed 1-20-78; 8:45 am]

## [6740-02]

[Docket No. CI77-427]

## LADD PETROLEUM CORP.

## Amendment to Application for Transportation of Natural Gas

JANUARY 10, 1978.

Take notice that on December 21, 1977, Ladd Petroleum Corp. (Ladd), 830 Denver Club building, Denver, Colo. 80202, filed in Docket No. CI77-427 an amendment to its application of April 25, 1977 in Docket No. CI77-427. Ladd is seeking to amend its application to conform to a letter agreement of November 30, 1977, and requests pregranted abandonment.

On April 25, 1977, Ladd filed an application pursuant to section 7 of the Natural Gas Act covering proposed transportation of natural gas for Northern Natural Gas Co. (Northern Natural) from Block 291, Ship Shoal, South Addition Area, to Block 207, Ship Shoal Area, Offshore Louisiana. The natural gas is owned by Northern Natural and would be transported pursuant to an agreement between Ladd and Northern Natural of March 29, 1977, through an existing crude oil pipeline for the account of Northern Natural. Ladd proposed to charge 4.5 cents per Mcf at 15.025 psia for the transportation service.

Placid Oil Co. is the operator of the crude oil pipeline through which Northern Natural's gas would be transported by Ladd. At the time Ladd and Northern Natural entered into the transportation agreement, Ladd had spare capacity in the crude oil pipeline. Based upon the operator's information, Ladd now estimates that by July 1, 1978, crude oil production from Block 291 Field will fill the crude oil pipeline. Thus, there will be no spare capacity to transport Northern Natural's gas as of that date. Northern Natural has agreed to make other arrangements to transport its gas as of July 1, 1978.

Applicant states that it and Northern Natural have executed an amendment to the Transportation Agreement of March 29, 1977, by letter dated November 30, 1977. The letter amends Article XI of the Transportation Agreement to provide that it shall remain effective until July 1, 1978. Further, Ladd agreed to seek pregranted abandonment for all such transportation services as of that date.

Applicant states that the application filed by Ladd in Docket No. CI77-427 and this Amendment thereto are related to an application and an amendment filed by Placid Oil Co. in Docket No. CI77-331. Therein, Placid seeks authorization with pregranted abandonment to transport natural gas for the account of Michigan Wisconsin Pipe Line Co.

Any person desiring to be heard or to make any protest with reference to said application, on or before January 31, 1978, should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein. If the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

## [6740-02]

[Project No. 2800]

## LAWRENCE HYDROELECTRIC ASSOCIATES

## Application for Major License

JANUARY 17, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the Federal Power Commission on the date the DOE Act takes effect shall not be affected, and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued, and further actions shall be taken by the appropriate component of DOE now responsible for the functions under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary of Energy and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

Public notice is hereby given that an application for a major license was filed on June 30, 1977, under the Federal Power Act (16 U.S.C. §§ 791a-825r) by Lawrence Hydroelectric Associates (correspondence to: Mr. Geoffrey K. Mitchell, Lawrence Hydroelectric Associates, 8 Arlington Street, Boston, Mass. 02116, and Mr. David Ward, Case and Ward, 1050 17th Street NW., Washington, D.C. 20036) for the proposed Lawrence hydroelectric project, FERC No. 2800. The proposed project would be located on the Merrimack River, a navigable waterway of the United States, in the towns of Andover and Methuen (Essex County), Dracut and Tewksbury (Middlesex County), and the cities of Lawrence (Essex County) and Lowell (Middlesex County), Mass.

The proposed 14,200 kW Lawrence hydroelectric project would consist of: (1) The existing 33-foot high and 900-foot long Essex Company dam of

rubble masonry construction; (2) an existing 9.8-mile long reservoir having a surface area of 655 acres at normal high water elevation of 44.17 msl and a maximum storage capacity of approximately 19,900 acre-feet; (3) the 35-foot wide and 10-foot deep South Canal (wider in the vicinity of the gatehouse) which originates at the south abutment of the Essex Dam and generally parallels the Merrimack River bed, below the Essex Dam, for a distance of approximately 3,000 feet; (4) the existing North Canal, approximately 95 feet wide and 15 feet deep, originating at the north abutment of the dam and paralleling the Merrimack River below the dam for a distance of approximately 5,000 feet; (5) a fish elevator supplementing the existing fishway; (6) a powerhouse and tailrace channel located approximately 200 feet northeast of the existing South Canal control gatehouse structure and extending into the Merrimack River Channel; (7) a powerhouse containing two 7.1 MW hydroelectric generating units; and (8) a single circuit overhead 13.8 kV powerline to the Massachusetts Electric Co.'s Lawrence No. 1 substation.

The estimated total cost of the project is \$14,700,000.

Power developed by the project would be sold to the New England Power Co., which would then sell the power to its affiliate, the Massachusetts Electric Co. Massachusetts Electric Co. provides power to residential, business, and industrial customers in the New England area.

The Essex Dam, which is 130 years old, and the North Canal are recognized historical sites. The applicant proposes to preserve these historical properties and provide public access and recreational facilities at the project. Proposed provisions for visitors include picnic tables, trash receptacles, access to a fish viewing window, and walkways.

Any person desiring to be heard or to make protest with reference to said application should, on or before March 27, 1978, file with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to a proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

The application is on file with the Commission and is available for public inspection.

LOIS D. CASHELL,  
Acting Secretary.

[FR Doc. 78-1886 Filed 1-20-78; 8:45 am]

## [6740-02]

[Docket No. CP 78-146]

## MICHIGAN WISCONSIN PIPE LINE CO.

## Application

JANUARY 17, 1978.

Take notice that on January 6, 1978, Michigan Wisconsin Pipe Line Co. (applicant), One Woodward Avenue, Detroit, Mich. 48226, filed in Docket No. CP78-146 an application pursuant to section 7(c) of the Natural Gas Act and section 2.79 of the Commission's general policy and interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing the transportation of up to 741 Mcf of natural gas per day for Rea Magnet Wire Co., Inc. (Rea Magnet), a wholly owned subsidiary of Aluminum Co. of America (Alcoa), all as more fully set forth in the application on file with the Commission and open to public inspection.

It is indicated that pursuant to a gas purchase agreement among Par Oil Corp., et al. (Par), Alcoa, and Rea Magnet, dated August 25, 1977, as amended December 12, 1977, Par agreed to sell Alcoa and Rea Magnet a daily contract quantity of natural gas equivalent to 3,920 Mcf of natural gas having a heating value of 1,000 Btu at a price of \$1.95 per Mcf subject to upward and downward Btu adjustment. It is further indicated that Par would deliver the purchased quantities at a mutually agreeable point on Texas Gas Transmission Corp.'s (Texas Gas) 20-inch pipeline located in Claiborne Parish, La.

The application states that in order to effectuate the receipt of the gas supplies which Alcoa and Rea Magnet agreed to purchase from Par and to obtain transportation and redelivery of a portion of such supplies destined for usage at Rea Magnet's manufacturing facility located in Lafayette, Ind. (the Lafayette Plant), Alcoa and Texas Gas entered into a transportation service agreement dated October 11, 1977, which agreement provides for the transportation of 741 Mcf of natural gas per day which Texas Gas would deliver to applicant for the account of Rea Magnet at an existing point of interconnection between the pipeline systems of Texas Gas and applicant located proximate to applicant's Slaughter Station in Webster County, Ky.

Applicant proposes to take receipt of the proposed volumes of gas at the aforementioned existing intercon-

nection with Texas Gas in Webster County, Ky., and transport and redeliver equivalent volumes for the account of Rea Magnet to Panhandle Eastern Pipe Line Co. (Panhandle) at an existing interconnection of the pipeline systems of applicant and Panhandle located in Defiance County, Ohio. Applicant states that it would provide the transportation service on a best efforts basis and whenever, in its sole judgment, its operating conditions so permit.

It is indicated that in order to effectuate deliveries of gas from the aforementioned interconnection between applicant and Panhandle, Panhandle and Rea Magnet have entered into a transportation contract dated October 21, 1977, which contract provides for the receipt, transportation, and redelivery of the gas by Panhandle to Indiana Gas, Inc. (Indiana Gas). The redelivery is to be made by Panhandle for Rea Magnet at an existing measuring station at the point of interconnection between Panhandle and Indiana Gas located near Crawfordsville, Montgomery County, Ind., it is stated. It is indicated that Rea Magnet has made suitable arrangements with Indiana Gas to effectuate redeliveries at the Lafayette plant.

Applicant states that it would charge Rea Magnet 9 cents per Mcf for all volumes of gas redelivered to Panhandle for Rea Magnet's account, and that it would also retain three percent of the gas delivered to it by Texas Gas for Rea Magnet's account as compensation for compressor fuel and line loss makeup.

It is indicated that the subject gas would be used for priority 2 purposes at Rea Magnet's Manufacturing facility located in Lafayette, Ind. It is further indicated that the subject gas is not available for resale in the interstate market.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 8, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon

the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

LOIS D. CASHELL,  
Acting Secretary.

[FR Doc. 78-1869 Filed 1-20-78; 8:45 am]

## [6740-02]

[Docket No. CP78-140]

MID LOUISIANA GAS CO.

## Application

JANUARY 17, 1978.

Take notice that on January 3, 1977, Mid Louisiana Gas Co. (applicant), 300 Poydras Street, New Orleans, La. 70130, filed in Docket No. CP78-140 an application pursuant to section 7(c) of the Natural Gas Act and section 157.7(b) of the regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction, during the twelve-month period, February 1, 1978, through January 31, 1979, and operation of facilities to enable applicant to take into its certificated main pipeline system natural gas which would be purchased from producers and other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally co-extensive with its pipeline system or the systems of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with applicant.

Applicant states that the total cost of the proposed facilities would not exceed \$680,000 and that the cost of any single project would not exceed \$250,000, which cost would be financed out of working funds.

Applicant states it recognizes that the proposed budget-type authoriza-

tion for the construction of gas-purchase facilities has an estimated total cost for a single project in excess of the amounts specified in subparagraph (1)(ii) of section 157.7(b) of the Commission's regulations. Consequently, pursuant to subparagraph (2) of section 157.7(b) of the Commission's regulations, applicant requests waiver of the provisions of subparagraph (1)(ii) so as to allow for a total cost in excess of the amounts specified in subparagraph (1)(ii). Applicant asserts that such request for waiver is predicated primarily upon the fact that it is virtually impossible to consummate any single project involving gas-purchase facilities in the South Louisiana area for the small amount authorized by subparagraph (1)(ii) of section 157.7(b) of the Commission's regulations.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 8, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

LOIS D. CASHELL,  
Acting Secretary.

## [6740-01]

[Docket No. ER78-183]

MISSISSIPPI POWER CO.

## Filing of Agreement

JANUARY 16, 1978.

Take notice that Mississippi Power Co. (Mississippi) on January 9, 1978, tendered for filing a supplemental agreement with Coast Electric Power Association (CEPA) under its FERC Electric Tariff Original Volume No. 1. Mississippi states that this agreement provides for an increase in the delivery voltage and contracted capacity at the Rocky Hill delivery point of CEPA on October 17, 1977.

Mississippi indicates that it agrees to deliver up to a maximum of 3,000 kilowatts of 115,000 volts at the connections to the primary side of CEPA's disconnect switch located at CEPA's substation on the west side of Highway 603 located in the NE¼ of SW¼ of section 6, Township 7 South, Range 14 West, Hancock County, Miss.

Mississippi proposes an effective date of October 17, 1977, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,  
Acting Secretary.

[FR Doc. 78-1858, Filed 1-20-78; 8:45 a.m.]

## [6740-02]

[Docket No. ER78-848]

MONTANA POWER CO.

## Compliance Filing

JANUARY 17, 1978.

Take notice that on December 15, 1977, Montana Power Co. (Company) tendered for filing in compliance with the Federal Power Commission's order of May 6, 1977, a summary of sales made under the Company's FPC Electric Tariff M-1 during November 1977, along with cost justification for the rate charged.

Any person desiring to be heard or to protest said filing should file a pro-

test with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 10, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,  
Acting Secretary.

[FR Doc. 78-1871 Filed 1-20-78; 8:45 am]

## [6740-02]

[Docket No. ER78-184]

MONTAUP ELECTRIC CO.

## Filing

JANUARY 16, 1978.

Take notice that Montaup Electric Co. (Montaup), on January 10, 1978, tendered for filing a service agreement providing for Montaup's transmission of a power purchase of the Middleborough (Massachusetts) Municipal Gas & Electric Department pursuant to Montaup's generally applicable transmission tariff.

Montaup proposes an effective date of November 1, 1977, and therefore requests waiver of the Commission's notice requirements.

According to Montaup copies of this filing were served upon the Middleborough Municipal Gas & Electric Department and the Massachusetts Department of Public Utilities.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 30, 1978. Protests will be considered by the commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,  
Acting Secretary.

## [6740-02]

[Docket No. CP78-138]

NATURAL GAS PIPELINE CO. OF AMERICA

## Application

JANUARY 12, 1978.

Take notice that on December 30, 1977, Natural Gas Pipeline Co. of America (applicant), 122 South Michigan Avenue, Chicago, Ill. 60603, filed in Docket No. CP78-138 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant indicates that it has previously entered into short-term arrangements with Colorado Interstate Gas Co. (CIG) to purchase natural gas excess to the needs of CIG during various periods of time, the most recent terminating October 31, 1977. On September 13, 1977, CIG received temporary authorization to sell gas to applicant at Docket No. CP77-445, it is said.

Applicant states that it has now entered into a new limited term agreement with CIG dated December 6, 1977, for the purchase of gas which would be excess to CIG's requirements during calendar year 1978, and that the delivery rates would vary during the term of the agreement, but are expected to increase to approximately 100,000 Mcf per day during the summer months of 1978. Applicant further states that Northwest Pipeline Co. (Northwest) and El Paso Natural Gas Co. (El Paso) would transport and redeliver said gas to applicant for the limited term.

It is stated that pursuant to the December 6, 1977, agreement, CIG would reduce its purchases from Northwest who would deliver to El Paso such volumes of gas as agreed to by applicant and CIG at an existing point of interconnection between Northwest and El Paso in LaPlata County, Colo. It is proposed that El Paso would redeliver equivalent volumes of gas, on an Mcf basis, to applicant at a proposed new point of delivery to be constructed in Lea County, N. Mex., pursuant to an agreement dated December 20, 1977, between El Paso and applicant, whereby said gas would be delivered into applicant's Permian Basin pipeline system.

The application states that in order to implement the proposed delivery arrangement by El Paso, applicant proposes to construct 18-inch measuring facilities and a 12-inch tap connection on its 30-inch pipeline in Lea County, N. Mex., at an estimated cost of \$68,300 which cost applicant proposes to finance from funds on hand. The application further states that applicant would also reimburse El Paso for

its costs to complete the interconnection, which cost is estimated to be \$21,400. Applicant proposes to retain in service the facilities it proposes to construct herein for future exchanges with El Paso, as a balancing point for existing exchanges with El Paso and any other exchange or transportation arrangements that may occur in the future involving movement of gas between El Paso and applicant.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 2, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 78-1851 Filed 1-20-78; 8:45 am]

## [6740-02]

[Docket No. CP74-162]

NATURAL GAS PIPELINE COMPANY OF AMERICA

## Petition To Amend

JANUARY 17, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act),

Pub. L. 95-91, Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of Section 705(b) of the DOE Act provided that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of this proceeding were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

Take notice that on December 30, 1977, Natural Gas Pipeline Company of America (Petitioner), 122 South Michigan Avenue, Chicago, Ill., 60603, filed in Docket No. CP74-162 a petition to amend the order of April 2, 1975 (53 FPC —), as amended, issued by the Federal Power Commission (FPC) in the instant docket pursuant to section 7(c) of the Natural Gas Act so as to provide for additional exchange points to the gas exchange agreement dated September 24, 1973, between Petitioner and El Paso Natural Gas Co. (El Paso), which agreement has received prior authorization in the instant docket, all as more fully set forth in the petition on file with the FERC and open to public inspection.

It is indicated that pursuant to the FPC order of April 2, 1975, Petitioner was authorized to exchange natural gas with El Paso, and to construct and operate certain facilities to implement such exchange and that pursuant to an exchange agreement dated September 24, 1973, as amended, Petitioner and El Paso exchange quantities of gas available and tendered from time to time by one to the other subject to quantity limits set forth therein. It is further indicated that on April 28, 1976, the FPC issued temporary authorization in the instant docket to construct and operate additional ex-

change points in Washita County, Okla., and Lea and Eddy Counties, N. Mex., pursuant to an amendment dated June 6, 1975, to the subject gas exchange agreement. Pursuant to the FPC order of April 27, 1977, Petitioner was authorized to construct and operate an additional exchange point in Eddy County, N. Mex., pursuant to an amendment dated November 3, 1975, to the subject gas exchange agreement.

The petition stated that on February 14, 1977, the FPC issued an order authorizing the operation of additional exchange points in Beckham County, Okla., and Ward County, Tex., and to increase the maximum daily volumes of exchange gas to 65,000 Mcf per day pursuant to an amendment dated July 14, 1976, to the subject gas exchange agreement. The petition further states that on August 30, 1977, the FPC authorized the operation of an additional exchange point in Lea County, N. Mex., pursuant to an amendment dated April 28, 1977, to the subject gas exchange agreement.

Petitioner states that on October 12, 1977, it and El Paso further amended the subject gas exchange agreement to provide for an additional exchange point in Eddy County, N. Mex., whereby Petitioner proposes to deliver, or cause to be delivered for its account, gas it has available for purchase under gas purchase contracts with Cities Service Co. (Cities), dated August 1, 1976, and August 1, 1977, from the Government AB No. 3 and No. 4 wells, North Burton Flat Field, Eddy County, N. Mex. It is indicated that Cities would deliver the gas to the Cities Service Oil Co.'s processing plant in Eddy County, N. Mex., and said gas would be delivered at the outlet of the plant to El Paso for Petitioner's account (Eddy No. 7 Exchange Point). Petitioner indicates that it has been purchasing gas from the No. 3 well under a 60-day emergency gas purchase or long-term authorization since November 30, 1976, utilizing Petitioner's gathering facilities in the Burton Flat area. With the imminent completion of Cities' processing plant, Cities has exercised its right under the gas purchase contract to process said gas prior to delivery to Petitioner, it is said. It is stated that El Paso would receive such gas at its existing connection at the outlet of the processing plant; thus, Petitioner would not be required to construct any facilities. Petitioner states that it would retire in place or remove and salvage approximately 5550 feet of 6-inch gathering line constructed to receive gas from the No. 3 well.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before February 8, 1978, file with the Federal Energy Regulatory Commis-

sion, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

LOIS D. CASHELL,  
Acting Secretary.

#### [6740-02]

[Docket Nos. RP77-56 and RP71-107  
(PGA78-1)]

#### NORTHERN NATURAL GAS CO.

Order Denying Petition for Rehearing,  
Reconsideration and Modification

JANUARY 13, 1978.

On December 14, 1977, Northern Natural Gas Co. (Northern) filed in the captioned dockets a petition for rehearing, reconsideration and modification of the Commission's order issued December 5, 1977, in Docket No. RP77-56. On December 16, 1977, Northern Municipal Defense Group (MDG) and Minnesota Municipal Utilities Association (MMUA) filed a petition joining, with qualification, in Northern's pleading. On December 20, 1977, the Northern Distributor Group (NDG) applied for rehearing of the same Commission order. The December 5th order denied Northern's petition for advance authorization to recoup the costs of an emergency storage transaction between Northern and Northern Illinois Gas Co. (NI Gas). The December 5th order, however, found that the proposed emergency storage arrangement was consistent with section 2.68 of the Commission's Regulations. For the reasons set forth below, the Commission shall deny all of the referenced petitions.

Northern's petition seeks limited review of the Commission's prior order. No longer is an advance ruling on the reasonableness and prudence of the costs of the NI Gas transaction sought. Rather, Northern requests authority to incorporate the costs of the emergency storage service in either base tariff rates or PGA rates and to collect such rates subject to possible refund if it is later found that the costs of the transaction are unreasonable or imprudent.

Northern makes two principal arguments in support of its request: First it states that, unlike other pipelines, its

tariff allows only annual as opposed to semi-annual PGA filings and, consequently, that recoupment of emergency costs will be inordinately delayed if recovery of such costs cannot begin on December 27, 1977, the effective date of Northern's revised PGA rates in Docket No. RP 71-107 (PGA78-1). Second, Northern alleges that the NI Gas transaction "fits well within" its tariff clause which allows Northern to project its cost of purchased gas over the period it will be collecting revised PGA rates. Northern also makes a concession. Should it be allowed to recoup emergency costs through its base tariff rates (filed in Docket No. RP77-56 to become effective on October 27, 1977) Northern agrees to reduce its rates one year after their effective date to reflect elimination of such costs from its cost of service. Northern believes that this condition will obviate any concern that the claimed emergency costs are non-recurring.

Northern's arguments are not persuasive. Its willingness to collect rates subject to refund for a limited, one-year period does not materially alter the relevant facts.

Northern's tariff PGA clause only allows annual filings. While the Commission recognizes that this tariff feature is somewhat unusual it does not provide sufficient reason to depart from the policy enunciated in our December 5th order. Northern always has the option to seek modification of its PGA clause if it believes that benefits accruing under it are outweighed by decreased flexibility in coping with current gas shortages. The Commission also notes that it has not precluded pipelines from recovering prudently incurred emergency costs through rate increase filings made subsequent to the emergency expenditure.

Furthermore, the Commission does not agree with Northern that the NI Gas transaction "fits well within" Northern's currently authorized procedure of projecting or estimating future gas cost increases in its cost of purchased gas. Quite to the contrary, the Commission sees Northern's tariff as barring recoupment of all uncertificated gas supply absent Commission advance approval. Northern's tariff, Third Revised Volume No. 1, First Revised Sheet No. 68, specifically excludes such supply from the normal calculation of Northern's cost of purchased gas:

[Such Cost of Purchased Gas shall not include any amounts for the cost of uncertificated supply and supplies from LNG, SNG, and coal gasification projects without prior approval of the [Commission]. (Emphasis added.)]

Finally, the Commission must deny Northern's request to recoup the costs of the NI Gas transaction through the base tariff rates which became effective

on October 27, 1977, in Docket No. RP77-56 even though Northern now consents to a refund condition and agrees to eliminate such costs from its rates after one year of collections. As in its initial petition, Northern continues to seek to include in rates amounts not yet expended for emergency supplies not yet received. This request fails for the same reasons that Northern's initial petition was denied without prejudice: it is anticipatory, premature and inconsistent with the intent of the Natural Gas Act and the policy of Section 2.68 of the Commission's regulations. In the order issued in *East Tennessee Natural Gas Company*, Docket No. RP78-1, on November 29, 1977, the Commission stated:

Consistent with this intent [Of Section 7(c) of the Natural Gas Act], there is no express or implied provision for approval, prior to commencement of the emergency, of the future recovery of costs to be incurred by a jurisdictional buyer during the anticipated emergency transaction. These costs may be reflected in later rate increase filings (mimeo p. 4). (Emphasis added.)

MDG, MMUA, and NDG all support and incorporate Northern's principal arguments. Insofar as MDG, MMUA, and NDG adopt Northern's pleading, their requests for modification of the December 5, 1977, order shall also be denied.

In addition to supporting the Northern petition, however, the three intervenor groups emphasize that a continuing problem exists with respect to the question of whether ratepayers or Northern should bear the carrying costs which accrue on emergency expenditures. Carrying charges which would result from deferred recovery of costs, it is pointed out, could add \$1.5 million to the costs of the NI Gas emergency service.

MDG, MMUA, and NDG all state that the granting of the relief requested by Northern will avoid the question of whether ratepayers or Northern will bear carrying costs on emergency expenditures. MDG and MMUA in their petition argue that Northern's instant request is fair and should be granted since it permits Northern to recover emergency costs concurrently with expenditures and it requires refunds of any portion of emergency costs found imprudent or unreasonable. NDG claims that fairness demands that Northern be permitted to receive carrying charges on unrecovered emergency costs if the relief requested by Northern is denied.

The Commission finds that the considerations raised by MDG, MMUA and NDG are without merit. Northern, like all other pipelines subject to the Commission's jurisdiction, will be required to absorb carrying charges on unrecovered costs of gas supply, including emergency transactions, unless unique and unforeseen circumstances

are encountered which would warrant waiver of the Commission's existing regulations (18 CFR 154.38(4)(iv)(c)(1) and Account No. 191 of the Uniform System of Accounts).

The Commission finds. The petitions filed in the captioned dockets raise no facts or points of law which warrant any change in or modification of the Commission's order issued December 5, 1977, in Docket No. RP77-56.

The Commission orders. (A) Northern's petition of December 14, 1977, MDG's and MMUA's petition filed December 16, 1977, and NDG's application of December 20, 1977, are all denied.

(B) Northern shall comply with all terms of the Commission's December 5, 1977, order in Docket No. RP77-56.

(C) The Secretary shall cause prompt publication of this order.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

#### [6740-02]

[Docket Nos. ER76-304 et al., and Docket Nos. ER77-97 et al.]

#### NEW ENGLAND POWER CO.

Order Denying Motion for Limited Reopening  
and Partial Consolidation

JANUARY 16, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of this proceeding were specifically transferred to the FERC by Section 402(a)(1) or 402(a)(2) of the DOE Act.

The "Commission" when used in the context of an action taken prior to October 1, 1977, refers to the FPC; when used otherwise, the reference is to the FERC.

The joint regulation adopted on October 1, 1977 by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR — provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

On June 6, 1977, the Commission issued Opinion No. 803 (R-8 proceeding, Docket Nos. E-8641 et al.) which, among other things, ordered that New England Power Company's (NEPCO) investment in the Yankee companies\* be excluded from the common equity components of NEPCO's capital structure. The Commission stated that "... the appropriate remedy for any alleged deficiencies in rate of return earned by the joint venture atomic plants should be addressed in rate proceedings before this Commission involving the rates charged by those atomic plants to NEPCO and other utility purchasers of power from these plants." (Opinion No. 803 at p. 31).

The same issue was raised in the R-10 proceeding (Docket Nos. ER76-304 et al.). On June 30, 1977 the initial decision in R-10 issued and followed the Commission's position in Opinion No. 803, supra, on the issue in question except that the Presiding Administrative Law Judge (Judge) attempted to trace the source of the funds NEPCO had invested in the above mentioned Yankee companies and to allocate the exclusion (of NEPCO's investment) between common and preferred equity.

Now we come to the instant motion before us in which NEPCO states that it has available in its historical records a precise method to trace the source of the funds involved. To this end NEPCO filed on November 15, 1977 a motion styled "Motion For Limited Reopening and Partial Consolidation." NEPCO asks the Commission to reopen the record in the R-10 proceeding "for the limited purpose of hearing and considering evidence recently assembled and filed in the R-11 proceeding (Docket Nos. ER77-97 et al.) in regard to the issue of the proper ratemaking treatment to be afforded NEPCO's major investment (over \$38 million) in various nuclear generating companies." Since this evidence has been submitted and will be subject to cross-examination in the R-11 proceeding which commenced November 29, 1977, NEPCO asks the Commission to order a partial consolidation of the R-10 and R-11 proceedings for the limited purpose of hearing and deciding this question.

\*These plants and NEPCO's interests therein are as follows: Yankee Atomic Electric Co. At Row, Mass. (30 percent); Connecticut Yankee Atomic Power Co. at Haddam, Conn. (15 percent); Vermont Yankee Nuclear Power Corp. at Vernon, Vt. (20 percent); and Maine Yankee Atomic Power Co. at Wiscasset, Maine (20 percent).

On November 21, 1977, Commission Staff (Staff) filed an answer to NEPCO's motion styled "Answer Opposing Motion For Limited Reopening And Partial Consolidation". Staff states, inter alia, that NEPCO's late request will delay and have a disruptive effect on both the R-10 and R-11 proceedings, and that NEPCO "does not attempt to justify its request on the basis of evidence that was not available to it at the trial or that it attempted to introduce such evidence at the trial but was precluded by an adverse procedural ruling."

On November 29, 1977, the NEPCO Customer Rate Committee (Committee) and Unaffiliated Resale Customers (Customers) filed, jointly, an answer joining Staff in opposing NEPCO's motion. Committee and Customers states, inter alia, the following: (1) NEPCO has had opportunities in both the R-8 and R-10 proceedings where this issue was raised to submit this evidence; (2) NEPCO's untimely attempt to submit this previously available evidence would place a considerable burden on Committee and Customers; (3) NEPCO's motion, as pointed out by Staff, will delay both the R-10 and R-11 proceedings and "would prolong the collection of the rates filed in the R-10 case, rates found to be unjust, unreasonable and excessive by Judge Kanell."; and (4) The Commission in Opinion No. 803 (R-8 proceeding), issued June 6, 1977, "made a conclusive determination that NEPCO's Yankee investment should be excluded from the common equity component of NEPCO's capital structure."

We shall deny NEPCO's motion for the following reasons. First, to grant NEPCO's motion will delay this proceeding (R-10), a proceeding in which the record is long closed, initial and reply briefs have been written, an initial decision of the Presiding Administrative Law Judge (Judge) has been issued, and briefs on exception and brief opposing exceptions have been filed.

Second, the evidence in question is not new. This evidence has been in NEPCO's possession since before the question at issue here was first raised in the R-8 proceeding.

Third, the issue raised by the instant motion is not new. This issue was raised in the R-8 proceeding, raised again on rehearing in the R-8 proceeding, raised again in the R-10 proceeding, and now raised again by this motion.

Fourth, the R-10 proceeding which NEPCO would like to reopen deals with a locked in period of 11 months, ending February 1, 1977. R-11 is a currently ongoing proceeding in which this issue may be fully addressed by all parties without the attendant delay and adverse consequences of that delay.

Fifth, the NEPCO approach, if accepted, may also require similar information from each of the sponsoring Yankee companies to determine whether an adjustment is also necessary in the purchased power costs. This may well greatly expand the scope of the proceeding beyond its original bounds. Again extensive delays in concluding these proceedings would be incurred.

Finally, the Commission's regulations require that a party seeking to reopen a proceeding "shall set forth grounds requiring reopening the proceeding, including material changes of fact or of law alleged to have occurred since the conclusion of the hearing." 18 CFR § 1.33(a). NEPCO's motion to reopen does not set forth material changes of either fact or law sufficient to warrant reopening of the R-10 proceeding. Section 1.33(a) of the Commission's rules does not function to provide a party with another opportunity to present its case after its position at hearing has been rejected in the initial decision of the Presiding Judge. The changes of fact or of law referred to in Section 1.33(a) of the Commission's rules must be material, suggesting a substantial and compelling reason for reopening the proceeding. NEPCO simply has failed to sustain such a burden in its instant motion. We emphasize that our disposition herein is not a prejudgment of the merits of the initial decision in R-10 nor does this ruling prejudice NEPCO from presenting the evidence in question in R-11.

In summary, we conclude that NEPCO has not demonstrated good cause to reopen this case for further proceedings and its instant "Motion For Limited Reopening And Partial Consolidation" is, therefore, denied.

The Commission finds, NEPCO has failed to demonstrate material changes of fact or law sufficient to warrant a reopening of this proceeding for further hearings or receipt of evidence.

The Commission orders, NEPCO's "Motion For Limited Reopening And Partial Consolidation" is hereby denied.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

#### [6740-02]

(Docket No. EL78-3)

#### PACIFIC GAS & ELECTRIC CO.

#### Petition for Issuance of Declaratory Order on Interpretation of Contract

JANUARY 12, 1978.

Take notice that Pacific Gas and Electric Co. (PG&E) on January 3,

1978, tendered for filing a petition for a Commission order declaring that:

If, subsequent to negotiations pursuant to article 21(b) of the Extra High Voltage Contract dated August 1, 1967, among PG&E, Southern California Edison Co. and San Diego Gas & Electric Co. and the Department of Water Resources of the State of California (State), the parties do not agree upon a rate adjustment, PG&E retains the right to submit the matter to the Federal Energy Regulatory Commission for determination. Nothing in the contract requires consummation of an agreement on or before January 1, 1978, or on or before January 1, each five years thereafter. Further, nothing in the contract requires a filing in order to seek determination from FERC earlier than is prescribed in the requirements set forth in the Federal Power Act and applicable Commission Regulations.

PG&E states that said contract is presently on file with the Commission as Rate Schedule FPC No. 36.

PG&E indicates that in discussions with representatives of the State, PG&E sought and was unable to obtain clarification of the contract from the State to the effect that negotiations may continue, or that filing may occur, beyond January 1, 1978, without jeopardy to PG&E's interest. PG&E further indicates that it seeks declaratory relief because representatives of State have argued the contrary interpretation of the contract, in effect that, unless a new rate has been agreed upon by January 1, 1978, or that the matter has been submitted to FERC by that same date, a rate adjustment in 1983 is precluded.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before February 10, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

(FR Doc. 78-1852 Filed 1-20-78; 8:45 am)

#### [6740-02]

(Docket No. ER77-595)

#### POTOMAC EDISON CO.

#### Proposed Tariff Change

JANUARY 12, 1978.

Take notice that the Potomac Edison Company, (Edison) on Novem-

ber 28, 1977, tendered for filing an Electric Service Agreement between the Potomac Edison Company and the Town of Thurmont. Edison indicates that this Electric Service Agreement cancels and supersedes the Agreement between the Company and the Town of Thurmont dated July 1, 1964. Edison further indicates that the changes proposed would produce estimated decreases of \$35,319 for the twelve months ending June 30, 1977 and \$32,908 for the twelve months ending June 30, 1978.

Edison states that the rate set forth in the Agreement is identical to that presently on file and in effect in Schedule WS-HV of FPC Electric Tariff First Revised Volume No. 1 of Edison.

According to Edison, copies of the Electric Service Agreement have been provided to the Town of Thurmont.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 10, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

#### [6740-02]

(Docket No. ER78-105)

#### PUBLIC SERVICE CO. OF INDIANA

#### Proposed Tariff Change

JANUARY 17, 1978.

Take notice that Public Service Co. of Indiana (Company), on December 20, 1977, tendered for filing pursuant to the Service Agreement between Henry County Rural Electric Membership Corp. and Public Service Co. of Indiana, a Third Supplemental Agreement proposed to become effective November 22, 1977. Company requests waiver of the Commission's notice requirements to allow for said effective date.

Said Supplemental Agreement provides for a new delivery point designated at the Johnstown delivery point, according to Company.

A copy of the filing was served upon Henry County Rural Electric Membership Corp., according to Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.0 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions should be filed on or before February 10, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are available for public inspection at the Federal Energy Regulatory Commission.

LOIS D. CASHELL,  
Acting Secretary.

(FR Doc. 78-1873 Filed 1-20-78; 8:45 am)

#### [6740-02]

(Docket No. CP71-273)

#### SOUTHERN NATURAL GAS CO.

#### Petition to Amend

JANUARY 17, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 Fed. Reg. 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provided that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of this proceeding were specifically transferred to the FERC by Section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

Take notice that on December 30, 1977, Southern Natural Gas Co. (Petitioner), P.O. Box 2563, Birmingham, Ala. 35202, filed in Docket No. CP71-273 a petition to amend the order of October 8, 1971 (46 FPC 813) issued by the Federal Power Commission (FPC) in the instant docket pursuant to section 7(c) of the Natural Gas Act so as to provide for the construction and operation of additional facilities in Petitioner's Muldon Field, Monroe County, Miss. storage facility, all as more fully set forth in the petition to amend on file with the FERC and open to public inspection.

It is indicated that pursuant to the FPC order of October 8, 1971, in the instant docket Petitioner was authorized to construct and operate natural gas storage facility in the Muldon Field, and, that pursuant to the FPC order of October 16, 1975, Petitioner was authorized to construct and operate certain facilities necessary to enable Petitioner to expand its gas storage facilities and thereby increase the withdrawal rate in order to protect high priority requirements. The additional wells were estimated to increase working gas inventory from approximately 42,800,000 Mcf to approximately 52,000,000 Mcf, and it was expected that this increase would allow Petitioner to withdraw at the increased maximum daily rate of approximately 750,000 Mcf during the winter season through a cumulative withdrawal of approximately 40,000,000 Mcf, it is said. The petition states that the firm of DeGolyer and MacNaughton (D&M) was commissioned to undertake a study of Muldon Field with a view toward making recommendations of what, if any remedial action could be taken to maintain peak day delivery from the field through a greater, cumulative withdrawal of gas from the field.

It is stated that the first year of operation of expanded withdrawal capability of the Muldon Storage Field showed that the field did not meet the maximum daily withdrawal rate of 750,000 Mcf through as great a cumulative withdrawal as had originally been anticipated, and that Petitioner has, therefore, planned its operations this winter based on the actual performance of the field last winter. It is further stated that Applicant has now received D&M recommendations including certain immediate and future remedial well work, changes in well and reservoir operation and the drilling of additional wells.

Consequently, Petitioner requests authorization to drill an additional six wells and to construct and operate approximately three-tenths of a mile of 8%-inch pipeline and allied facilities to connect the aforementioned wells to the central plant in the field at an estimated cost of \$3,221,630, which cost

Petitioner proposes to finance with cash on hand.

Additionally, Petitioner proposes to go forward with implementing other of the D&M proposals which do not require FERC authorization, such as the remedial well work, use of selective well production pattern in conjunction with a controlled limitation of pressure drop and a change in injection pattern beginning next spring.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before February 8, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

LOIS D. CASHELL,  
Acting Secretary.

(FR Doc. 78-1874 Filed 1-20-78; 8:45 am)

#### [6740-02]

(Docket No. CP76-222)

#### TENNESSEE GAS PIPELINE CO., A DIVISION OF TENNECO INC.

##### Application

JANUARY 17, 1978.

Take notice that on December 30, 1977, Tennessee Gas Pipeline Co., a Division of Tenneco Inc. (Tennessee), P.O. Box 2511, Houston, Tex. 77001, filed pursuant to section 7(c) of the Natural Gas Act an application at Docket No. CP76-222 to amend the prior Orders of the Commission issued April 20, 1976, and April 13, 1977 is said docket.

Tennessee states that by the Commission's April 20, 1976 and April 13, 1977 Orders, Tennessee was authorized to transport up to 65,000 Mcfd of natural gas for Texas Gas Transmission Corp. (Texas Gas) from various points in the Louisiana Offshore Area through the Project 349 pipeline (jointly owned by Tennessee, Texas Gas and Texas Eastern Transmission Corp.) located in the Eugene Island Offshore Area and through the Blue Water Project (BWP) (jointly owned by Tennessee and Columbia Gulf Transmission Co.) for delivery onshore for Texas Gas' account at interconnections between the systems of Tennessee and Transcontinental Gas Pipe

Line Corp. (Transco) located near Crowley Acadia Parish, La. (Crowley delivery point) and near Kinder, Allen Parish, La. (Kinder delivery point). Such service is to be rendered until January 1, 1980.

Tennessee states that Texas Gas has been authorized at Docket No. CP77-362 to construct, and is constructing, pipeline facilities to interconnect its existing facilities near Eunice, La. with the BWP on the western terminus of the BWP near Egan, La., for the purpose of receiving transportation volumes from Tennessee at Egan in lieu of at the Crowley and Kinder delivery points.

Accordingly, Tennessee requests authorization to deliver the authorized transportation volumes to Texas Gas at the Egan delivery point.

Any person desiring to be heard or to make any protest with reference to said application, on or before February 8, 1978, should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,  
Acting Secretary.

(FR Doc. 78-1875 Filed 1-20-78; 8:45 am)

#### [6740-02]

(Docket No. ER78-180)

#### TUCSON GAS & ELECTRIC CO.

##### Filing of Transmission Service Agreement

JANUARY 16, 1978.

Take notice that Tucson Gas & Electric Co. (Tucson) on January 9, 1978, tendered for filing a Contract for Non-firm Transmission Service (the Agreement) dated January 1, 1978, between Tucson and the United States Department of Energy, Western Area Power Administration (United States).

Tucson indicates that the primary purpose of this Agreement is to establish terms and conditions relative to the nonfirm transmission of energy for Tucson over certain United States-owned transmission facilities for delivery to the Mead Substation.

Tucson proposes an effective date of January 1, 1978, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,  
Acting Secretary.

(FR Doc. 78-1861 Filed 1-20-78; 8:45 am)

#### [6740-02]

(Docket No. ER78-176)

#### WISCONSIN ELECTRIC POWER CO.

##### Succession

JANUARY 17, 1978.

Take notice that Wisconsin Electric Power Co. (WE) on January 3, 1978, tendered for filing a notice of succession of WE to the rates and schedules of Wisconsin Michigan Power Co. (WM). WE indicates that such succession results from a merger of WM into WE, which merger was approved July 28, 1977, by the Commission in Docket No. E-9596. WE states that a notice of succession has been furnished to each customer concerned and to the applicable state public service commissions. WE states that said succession is to be effective upon the merger of WM into WE, at midnight, December 31, 1977.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 10, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,  
Acting Secretary.

##### Office of Energy Research

#### HIGH ENERGY PHYSICS ADVISORY PANEL

##### Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the High Energy Physics Advisory Panel will meet Thursday, February 9, 1978, at 1:30 p.m., in the Orange Room of the Central Laboratory at the Stanford Linear Accelerator Center, Stanford University, Stanford, Calif. The meeting will reconvene at 9 a.m., February 10 and 11, 1978.

The purpose of the Panel is to provide advice and guidance on a continuing basis with respect to the high energy physics research program.

The tentative agenda is as follows:

1. Review of budget issues at the High Energy Physics Laboratories;
2. Analysis of the final draft report of the Subpanel on High Energy Physics Manpower;
3. Budget status of the High Energy Physics Program;
4. Neutrino interactions;
5. Long term planning; and
6. Public comment (10 minute rule).

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Georgia Hildreth, Acting Director, Advisory Committee Management 202-566-9996, at least 5 days prior to the meeting and reasonable provision will

be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

The transcript of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 2107, DOE, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcript from the reporter.

Issued at Washington, D.C., on January 17, 1978.

WILLIAM S. HEFFELFINGER,  
Director of Administration.

(FR Doc. 78-1808 Filed 1-20-78; 8:45 am)

#### [3128-01]

##### Office of Energy Technology

#### ADVISORY COMMITTEE ON GEOTHERMAL ENERGY

##### Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Advisory Committee on Geothermal Energy will hold its fourth meeting Tuesday, February 7, 1978 from 9 a.m. to 5:15 p.m., Suite 285, World Trade Center, 350 South Figueroa Street, Los Angeles, Calif.

The purpose of the Committee is to provide advice to the Department of Energy on the status of social, legal, technological, and institutional problems that inhibit the private sector from exploiting the nation's vast reserves of geothermal energy. The Committee suggests areas of research which will accelerate the private development of geothermal energy into electric and non-electric power and informs DOE on the status of privately supported geothermal research and development.

The purpose of this meeting is to review plans and activities of the Division of Geothermal Energy, DOE, and to discuss and provide advice on programs and approaches to effective government-industry cooperation in the development of geothermal energy.

The tentative agenda for the meeting is as follows:

- 9 a.m. Opening Remarks—Carel Otte, Chairman.
- 9:15 a.m. Minutes of August 12, 1977, Meeting—J. C. Bresee, DOE.
- 9:30 a.m. Fiscal Year 1979, Division of Geothermal Energy, Budget and Program Content—J. C. Bresee, DOE.
- 11 a.m. Technology Utilization Subcommittee Report—Ben Holt, Chairman.
- 12 noon Lunch.

- 1 p.m. Geopressure Subcommittee Report—P. C. Reppe, Chairman.  
 2 p.m. Legal and Institutional Subcommittee Report—J. Aidlin, Chairman.  
 3 p.m. Resource Subcommittee Report—C. W. Berge, Chairman.  
 4 p.m. Commercialization and Marketing Role in the Department of Energy.  
 5 p.m. Date and Location of Next Meeting—Carol Otte, Chairman.  
 5:10 p.m. Public Comment (10 Minute Rule).

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Georgia Hildreth, Acting Director, Advisory Committee Management Office (202) 566-9969, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

The transcript of the meeting will be available for public review and copying at the Freedom of Information Public Reading Room, Room 2107, DOE, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcript from the reporter.

Issued at Washington, D.C. on January 17, 1978.

WILLIAM S. HEFFELFINGER,  
 Director of Administration.

[FR Doc. 78-1877 Filed 1-20-78; 8:45 am]

## [3128-01]

SUBCOMMITTEES OF ADVISORY COMMITTEE  
ON GEOTHERMAL ENERGY

## Meetings

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that subcommittees of the Advisory Committee on Geothermal Energy will meet in accordance with the schedule set forth below.

The purpose of the subcommittee meetings is to make recommendations to the parent Committee with regard to the plans and activities of the Division of Geothermal Energy, DOE, and in particular, to provide advice on programs and approaches to effective government-industry cooperation with respect to the following in the development of geothermal energy: resources assessment problems; technology utili-

zation problems; legal and institutional problems; and geothermal geopressure problems.

Meetings will be held on Monday, February 6, 1978, at the time and place and in accordance with the tentative agenda indicated below:

## RESOURCE SUBCOMMITTEE

8:30 a.m. to 12:30 p.m., Suite 285, World Trade Center, 350 South Figueroa Street, Los Angeles, Calif.

Agenda: Division of Geothermal Energy program for introduction; downhole technology; drilling; well stimulation; logging; and summary.

## TECHNOLOGY UTILIZATION SUBCOMMITTEE

8:30 a.m. to 12:30 p.m., Los Angeles Bonaventure Hotel, 404 South Figueroa Street, Los Angeles, Calif.

Agenda: Minutes of June 17, 1977, meeting; Matters arising from minutes; Contents of Division of Geothermal Energy Annual report; fiscal year, 1979 Division of Geothermal Energy budget and program; and content.

## LEGAL AND INSTITUTIONAL SUBCOMMITTEE

1:30 p.m. to 6:30 p.m., Los Angeles Bonaventure Hotel, 404 South Figueroa Street, Los Angeles, Calif.

Agenda: Public Land Policies; Problems Relating to Wheeling, Plant Amortization, and Reservoir Life; Discussion of Draft Interagency Environmental Task Force Proposals; and Review and Assessment of Current Tax Situation.

## GEOPRESSURE SUBCOMMITTEE

1:30 p.m. to 5:30 p.m., Suite 285, World Trade Center, 350 South Figueroa Street, Los Angeles, Calif.

Agenda: Review and Status of Environmental Requirements: Introduction, generic studies, environmental assessments, and site monitoring.

The meetings are open to the public. The Chairmen of the Subcommittees are empowered to conduct the meetings in a fashion that will, in their judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the subcommittee(s) will be permitted to do so, either before or after the meeting(s). Members of the public who wish to make oral statements should inform Georgia Hildreth, Acting Director, Advisory Committee Management, 202-566-9969, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning these meetings may be obtained from the Advisory Committee Management Office.

The transcripts of the meetings will be available for public review and copying at the Freedom of Information Public Reading Room, Room 2107, DOE, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m.

and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcript from the reporter.

Issued at Washington, D.C. on January 17, 1978.

WILLIAM S. HEFFELFINGER,  
 Director of Administration.

## [6560-01]

ENVIRONMENTAL PROTECTION  
AGENCY

[FRL 847-6]

## CONSTRUCTION GRANTS PROGRAM

## Open Meeting

Notice is hereby given that informal discussion sessions have been scheduled to be held January 30-31 and February 1, 1978. The meetings will be held at Waterside Mall, Room 2814-B, 401 M Street SW., Washington, D.C.

The purpose of the meeting is to receive comments concerning the provisions of the new Clean Water Act of 1977 which affect Title II of the Federal Water Pollution Control Act of 1972 (Pub. L. 92-500) and the Construction Grants Program.

The following is a specific schedule of discussion topics:

## Date, Time, and Subject

- January 30, 9 a.m. to 11 a.m., Individual Treatment Systems.  
 January 30, 11 a.m. to 1 p.m., Amendments to Title II concerning areas of the construction grant program other than here individually scheduled.  
 January 30, 1 p.m. to 3 p.m., State Management Assistance.  
 January 31, 9 a.m. to 11 a.m., Industrial Cost Recovery and User Charges.  
 January 31, 1 p.m. to 3 p.m., Innovative Technology.  
 February 1, 1 p.m. to 3 p.m., State Priority Systems.

The meeting will be open to the public. Any person wishing to attend the meeting should contact, Mr. Joseph H. Easley, Municipal Construction Division, EPA, Washington, D.C. 20460. The telephone number is area code 202-426-4445.

THOMAS C. JORLING,  
 Assistant Administrator for  
 Water and Hazardous Materials.

JANUARY 19, 1978.

FEDERAL COMMUNICATIONS  
COMMISSION

[FCC 77-846; Docket No. 21494; File No. BLH-7102]

INDEPENDENT MUSIC BROADCASTERS, INC.  
Memorandum Opinion and Order; Correction

In the matter of application of Independent Music Broadcasters, Inc., Radio Station WYOR, Coral Gables, Fla., for license to cover construction permit (Docket No. 21494; File No. BLH-7012).

Released: January 18, 1978.

In FR Doc. 78-581 appearing at page 1538 in the FEDERAL REGISTER for Tuesday, January 10, 1978 make the following correction:

The Memorandum Opinion and Order, FCC 77-846, released January 4, 1978, in the above-entitled matter is corrected by changing the file number in the caption and paragraph 1, line 8, to read BLH-7012 in lieu of BLH 7102.

For the Federal Communications Commission.

WILLIAM J. TRICARICO,  
 Secretary.

[AA-6661-H]

## ALASKA

Alaska Native Claims Selection

On December 13, 1974, Eklutna, Inc., filed selection application under the

provisions of section 12 of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 701; 43 U.S.C. 1601, 1611 (Supp. V, 1975)), for the surface estate of certain lands in the Eagle River area, including lands in T. 14 N., R. 1 W., Seward Meridian.

As to the lands described below, the village selection, as amended, was properly filed and meets the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with Federal laws leading to acquisition of title.

The surface estate of the following described lands, selected pursuant to section 12(a), aggregating approximately 157.07 acres, is considered proper for acquisition by Eklutna, Inc., and is hereby approved for conveyance pursuant to section 14(a) of the Alaska Native Claims Settlement Act:

#### SEWARD MERIDIAN (SURVEYED)

T. 14 N., R. 1 W.,

Sec. 5, lot 4;

Sec. 6, lots 1, 2, and 3.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States, as prescribed and directed by the act of August 30, 1890 (26 Stat. 391; 43 U.S.C. 945);

2. A right-of-way thereon for the construction of railroads, telegraph, and telephone lines, as prescribed and directed by the act of March 12, 1914 (38 Stat. 305; 43 U.S.C. 975d);

3. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704; 43 U.S.C. 1601, 1613(f) (Supp. V, 1975)); and

4. Pursuant to section 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 708; 43 U.S.C. 1601, 1616(b) (Supp. V, 1975)), the following public easements, referenced by easement identification number (EIN) on the easement maps in case file AA-6661-EE, are reserved to the United States and subject to further regulation thereby:

(a) (EIN 52 C) The right of the United States to enter upon the lands hereinabove granted for cadastral, geodetic, or other survey purposes is reserved, together with the right to do all things necessary in connection therewith.

(b) (EIN 53 C) Easements for the transportation of energy, fuel, and natural resources which are the property of the United States or which are intended for delivery to the United States or which are produced by the United States. These easements also include the right to build any related facilities necessary for the exercise of the right to transport energy, fuel, and natural resources, including those related facilities necessary during periods of planning, locating, constructing, operating, maintaining, or terminating transportation systems. The specific location of these easements shall be determined only after consultation

with the owner of the servient estate. Whenever the use of such easements will require removal or relocation of any structure owned or authorized by the owner of the servient estate, such use shall not be initiated without the consent of the owner of such improvement; provided, however, that the United States may exercise the right of eminent domain if such consent is not given. Only those portions of these easements that are actually in use or that are expressly authorized on March 3, 1998, shall continue to be in force.

The grant of lands by patent shall be subject to:

1. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339, 341; 48 U.S.C. ch. 2, sec. 6(g) (1970)), contract, permit, right-of-way, or easement, and the right of the lessee, contractor, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him;

2. Requirements of section 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 703; 43 U.S.C. 1601, 1613(c) (Supp. V, 1975)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section; and

3. The terms and conditions of the agreement dated January 18, 1977, between the Secretary of the Interior, Cook Inlet Region, Inc., Eklutna, Inc., and other Cook Inlet village corporations. A copy of the agreement shall be attached to and become a part of the conveyance document and shall be recorded therewith. A copy of the agreement is located in the Bureau of Land Management easement case file for Eklutna, Inc., serialized AA-6661-EE. Any person wishing to examine this agreement may do so at the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Anchorage, Alaska 99501.

Conveyance of the remaining entitlement to Eklutna, Inc. will be made at a later date. Pursuant to section 14(f) of the Alaska Native Claims Settlement Act, conveyance of the subsurface estate of the lands described above shall be granted to Cook Inlet Region, Inc., when conveyance is granted to Eklutna, Inc., for the surface estate, and shall be subject to the same condition as the surface conveyance.

There are no inland water bodies considered to be navigable within the lands described above.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the FEDERAL REGISTER and once a week, for four (4) consecutive weeks, in the Anchorage Times. Any party claiming a property interest in lands affected by this decision may appeal the decision to the Alaska Native Claims Appeal Board, P.O. Box 2433,

Anchorage, Alaska 99510, with a copy served upon both the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Anchorage, Alaska 99501, and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501, also:

1. Any party receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Any unknown parties, any parties unable to be located after reasonable efforts have been expended to locate, and any parties who failed or refused to sign the return receipt shall have until February 2, 1978, to file an appeal.

3. Any party known or unknown who may claim a property interest which is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

4. If Eklutna, Inc., or Cook Inlet Region, Inc., objects to any easement which is identified herein for reservation in the conveyance, which is subject to the discretion of the State Director and not reserved pursuant to an express Secretarial directive, a petition for reconsideration must be filed within 30 days from receipt of service with the State Director, Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501. A copy of the petition should be served upon the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501. If a petition for reconsideration is not filed, it will be deemed that the right to contest any such easement has been waived.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of, and requirement for, filing an appeal may be obtained from the Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

ROBERT E. SORENSON,  
Chief, Branch of Lands  
and Minerals Operations.

#### FINALIZED NORTH ATLANTIC AREA ORDER NOS. 1, 3, AND 4

Notice is hereby given that, pursuant to Title 30 CFR, Part 250.11, the Acting Chief, Conservation Division, U.S. Geological Survey, has approved the issuance of the finalized North Atlantic Outer Continental Shelf (OCS) Area Order Nos. 1, 3, and 4 as set forth

below. These Orders will be effective January 1, 1978. For the purposes of these Orders, the North Atlantic Area shall include those lands subject to Federal oil and gas leasing on the OCS between 40° N. and 42° N. latitude.

The Notice for the finalized North Atlantic Order Nos. 2, 5, 7, and 12 has been previously published in the FEDERAL REGISTER. North Atlantic OCS Order Nos. 1, 3, and 4 incorporate appropriate comments and suggestions which were received in response to the FEDERAL REGISTER publication of July 22, 1976, Vol. 41, No. 142, which solicited comments on the existing Mid-Atlantic OCS Orders as draft Orders for the North Atlantic Area. These Orders also incorporate the comments received in response to the FEDERAL REGISTER publication of June 29, 1977, Vol. 42, No. 125, which solicited comments on the proposed National OCS Order Nos. 1, 3, and 4.

Comments were received from the following organizations:

Amoco, Inc.  
Bureau of Land Management

Conservation Law Foundation of New England  
Exxon Co., U.S.A.  
Gulf Energy & Minerals Co.—U.S.  
Marathon Oil Co.  
Offshore Operators Committee  
Phillips Petroleum Co.  
Paul Purser, Professional Engineer  
Shell Oil Co.  
State of Maine  
State of Massachusetts  
Texaco Inc.  
The Offshore Co.  
U.S. Coast Guard  
U.S. Department of Commerce

We have published below a summary of the comments received, our rationales for accepting or rejecting the suggestions of the commenters, and the final version of the Orders.

For further information, contact Mr. George Brown, Eastern Region Conservation Manager, Conservation Division, U.S. Geological Survey, 1725 K Street, NW., Washington, D.C. 20006, 202-254-7870. The primary authors of this document are Mr. Dwayne E. Hull and Mr. Larry Ake of the Atlantic Area Office.

Copies of the finalized North Atlantic OCS Area Orders are available from:

Conservation Manager, Eastern Region, U.S. Geological Survey, 1725 K Street, NW., Washington, D.C. 20006.

NOTE.—1. It has been determined that this document does not contain a major proposal requiring preparation of an Inflationary Impact Statement under Executive Order 11821 and OMB Circular A-107.

2. It has also been determined that issuance of these North Atlantic Orders is not a major Federal action significantly affecting the quality of the human environment under the National Environmental Policy Act of 1969, 42 U.S.C. 4321 et seq. One of the primary functions of the Orders is the mitigation of potential environmental impacts. The manner in which this is accomplished is discussed in the Final Environmental Statement for OCS Sale No. 42, North Atlantic Area. The North Atlantic Area Orders are based on similar Orders for other OCS Areas. All modifications are designed to incorporate technological advances and improvements and regulatory changes. No revisions have been made which would lessen the Orders' mitigatory impact.

W. A. RADLINSKI,  
Acting Director.

SUMMARY OF COMMENTS, U.S. GEOLOGICAL SURVEY RATIONALES, NORTH ATLANTIC ORDER NOS. 1, 3, AND 4

NORTH ATLANTIC—OCS ORDER NO. 1  
Paragraph Nos. 1 and 2

Comments. Several commenters expressed concern that paragraph Nos. 1 and 2 did not require navigational lights and sounding devices for fixed structures and mobile-drilling units.

Rationale. The order does not address navigational devices on fixed structures and mobile-drilling units since these requirements are prescribed by regulations of the U.S. Coast Guard.

Paragraph No. 4

Comments. A commenter suggested that in the event that equipment was disposed of at sea, whether voluntarily or involuntarily, the operator must notify the public of the hazard.

Rationale. A revision was made to North Atlantic OCS Order No. 7 requiring that

equipment may only be disposed of under emergency conditions and must be reported to the District Supervisor.

**Comments.** A suggestion was made that the order require all personnel to be educated on the legalities and hazards of ocean dumping.

**Rationale.** Stipulation No. 13 to North Atlantic OCS Lease Sale No. 42 requires that lessees train their personnel in the importance and methods of the commercial fishing industry. The Supervisor will require that this training stress the adverse effects of ocean dumping.

**Comments.** A commenter suggested that markers for subsea objects include "all weather" aids to navigation. Another commenter suggested that marker buoys would not remain in place; therefore, the order should require the owner to notify the U.S. Coast Guard and the fishing and shrimp associations of the location of the object.

The U.S. Coast Guard suggested the order should state that the requirements for the marking of submerged objects should be determined by the Coast Guard District Commander.

**Rationale.** Since the determination of hazards to navigation or to commercial fishing operations is a function of the District Commander, we have adopted the suggestion of the Coast Guard and have revised paragraph 4 as follows:

4. **Identification of subsea objects.** All subsea objects resulting from lease operations, which are determined by the Coast Guard District Commander to be hazards to navigation or to the deployment of commercial fishing devices, shall be identified by suitable aid to navigation devices if the District Commander so directs. Prior to the establishment of a subsea object, or in the event of the accidental submergence of an object, the owner shall inform the District Commander of the object's description, location, and unobstructed depth of water above the object's highest point. Based on this information, the District Commander will determine what marking and permits, if any, will be required (14 U.S.C. 83, 85; 43 U.S.C. 1333; 33 CFR 67). The owner shall maintain these navigational markings onsite and properly functioning at all times while the obstruction remains."

U.S. DEPARTMENT OF THE INTERIOR, GEOLOGICAL SURVEY, CONSERVATION DIVISION, EASTERN REGION

#### ATLANTIC AREA

North Atlantic—OCS Order No. 1, Effective January 1, 1978

#### Identification of Wells, Platforms, Structures, and Subsea Objects

This order is established pursuant to the authority prescribed in 30 CFR 250.11 and in accordance with 30 CFR 250.37. All departures from the requirements specified in this Order must be approved pursuant to 30 CFR 250.12(b).

1. **Identification of fixed platforms or structures.** Platforms and structures shall be identified at two diagonal corners by a sign with letters and figures not less than 30 centimeters (12 inches) in height with the following information:

(a) The name of the lease operator.  
(b) The area name shown on OCS official protraction diagrams or, where no name has been assigned, the protraction diagram number.

(c) The block number in which the platform or structure is located.

(d) The platform or structure designation. The information shall be abbreviated as in the following example:

The Blank Oil Co. operates "C" platform on Block 999 of the Salisbury area. The identifying sign on the platform would indicate: BOC-SAL-999-C.

2. **Identification of nonfixed platforms or structures.** Floating semi-submersible platforms, bottom-setting mobile rigs, and drilling ships shall be identified by one sign with letters and figures not less than 30 centimeters (12 inches) in height affixed to the derrick so as to be visible to approaching traffic and containing the following information:

(a) The name of the lease operator.  
(b) The area designation based on OCS official leasing maps.  
(c) The block number.  
(d) The OCS lease number.  
(e) The well number.

3. **Identification of wells.** The OCS lease and well number shall be painted on, or a sign affixed to, each singly completed well. In multiply completed wells, each completion shall be individually identified at the wellhead. All identifying signs shall be maintained in a legible condition.

4. **Identification of subsea objects.** All subsea objects resulting from lease operations, which are determined by the Coast Guard District Commander to be hazards to navigation or to the deployment of commercial fishing devices, shall be identified by suitable aid to navigation devices if the District Commander so directs. Prior to the establishment of a subsea object, or in the event of the accidental submergence of an object, the owner shall inform the District Commander of the object's description, location, and unobstructed depth of water above the object's highest point. Based on this information, the District Commander will determine what marking and permits, if any, will be required (14 U.S.C. 83, 85; 43 U.S.C. 1333; 33 CFR 67). The owner shall maintain these navigational markings onsite and properly functioning at all times while the obstruction remains."

#### NORTH ATLANTIC OCS ORDER NO. 3

Subparagraph 1.1.  
**Comments.** It was suggested that the phrase "or to prevent migration of fluids in the well bore" is redundant.

**Rationale.** The intent of the order is to prevent the undesirable migration of well fluids. The subparagraph was revised by changing the title to "Isolation of Zones in Open Hole," by adding the words "saltwater" to the first sentence between "gas" and "fresh water," and by revising the second sentence to read:

"Additional cement plugs to prevent the migration of fluids in the well bore may be required by the District Supervisor."

This revision clarifies the intent and grants the District Supervisor the flexibility to require additional plugs.

**Comments.** A commenter suggested that the requirement for a cement plug to be placed for every 750 meters of uncased hole is unnecessary.

**Rationale.** The order was revised. Subparagraph 1.1 now requires plugs to isolate zones containing oil, gas, saltwater, and such additional plugs as prescribed by the Supervisor. The Supervisor's review of applications to plug and abandon will ensure that wells are properly plugged.

Subparagraph 1.4.  
**Comments.** It was suggested that the phrase "cannot be used" is ambiguous and

that the phrase should read "if the foregoing preferred methods are not used."

**Rationale.** The subparagraph was revised to eliminate the phrase "if the foregoing methods cannot be used." A new lead-in sentence was added as follows:

"If casing is cut and recovered leaving a stub, one of the following methods shall be used to plug the stub."

Two new subparagraphs were added, 1.4.1 and 1.4.2, to differentiate between the requirements of stubs terminating inside casing and stubs terminating below the casing strings.

Subparagraph 1.7:

**Comments.** It was suggested that all plugs should be verified in the same manner as the first plug below the top plug.

**Rationale.** The order requires the testing of the first plug below the surface plug. Past well history has indicated that it is not necessary to test the plugs below the surface plug. The subparagraph was reorganized by adding a new lead-in sentence stating that the plug shall be verified by one of the following methods: a or b. The methods were segregated into segments a and b. The revised language also made it clear that if cement were placed above a bridge plug or a retainer, the cement need not be tested.

Subparagraph 1.9.  
**Comments.** There was a divergence of opinion on the wording which provides flexibility for the District Supervisor to approve the severance of casing at depths less than 5 meters (16 feet) below the ocean floor.

**Rationale.** The order states that the approval of the Supervisor should be required to sever casing at depths less than 5 meters (16 feet) "after a review of data on the ocean bottom conditions." There have been instances where it was impossible to remove casing which had been severed at 16 feet. In the Alaska Area, a casing was severed at 16 feet and could not be pulled with a force of 400,000 pounds. The pipe was then cut at 6 feet below the ocean floor and was pulled with a force of 300,000 pounds. The problem is prevalent where hard bottoms exist. In a hard bottom where erosion of the ocean floor is unlikely, the depth of the severance is not critical. In a soft bottom which is subject to erosion or sand waves, review of bottom conditions by the Supervisor will ensure that the casing is severed at an adequate depth.

Paragraph 2.

**Comments.** A comment was made that the order should clarify the difference between temporary and permanent abandonment.

**Rationale.** No time conditions will be set, but temporarily abandoned wells will be sea-floor obstructions which must be marked. Determination as to the type of abandonment will be handled on a case-by-case basis by the Supervisor. The paragraph was also revised in response to comments received by Task Force members in the field. One operator commented that the requirement for setting a cement plug in the open hole of a temporarily abandoned drilling well has caused an unintentional side track while trying to drill out of the 100-foot cement plug below the casing. This can easily occur when the formation is softer than the cement plug. Such side tracking and the resultant dog leg is highly undesirable. The following two sentences were added to the paragraph:

"When a drilling well is temporarily abandoned, a bridge plug or a cement plug shall be set at the base of the deepest string. If a

cement plug is set, it shall not be necessary for the cement plug to overlap into the open hole."

It was suggested by USGS personnel that this paragraph should address the requirements for the marking of casing stubs which extend above the ocean floor. The last sentence of the paragraph was revised as follows:

"When casing extends above the ocean floor, the operator shall comply with the following requirements:

(a) A mechanical retrievable or permanent bridge plug, or a cement plug 30 meters (98 feet) in length, shall be set in the casing between 5 and 60 meters (16 and 197 feet) below the ocean floor.

(b) The requirements of Order No. 1, paragraph 4, "Identification of Subsea Objects."

U.S. DEPARTMENT OF THE INTERIOR, GEOLOGICAL SURVEY, CONSERVATION DIVISION, EASTERN REGION

#### ATLANTIC AREA

#### NORTH ATLANTIC

OCS ORDER NO. 3—EFFECTIVE JANUARY 1, 1978

#### PLUGGING AND ABANDONMENT OF WELLS

This Order is established pursuant to the authority prescribed in 30 CFR 250.11 and in accordance with 30 CFR 250.15. The operator shall comply with the following minimum plugging and abandonment procedures which have general application to all wells drilled for oil and gas. Plugging and abandonment operations shall not be commenced prior to obtaining approval from the appropriate District Supervisor. Oral or telegraphic approvals shall be in accordance with 30 CFR 250.13. All departures from the requirements specified in this Order shall be subject to approval pursuant to 30 CFR 250.12(b).

1. **Permanent Abandonment.**—1.1 **Isolation of Zones in Open Hole.** In uncased portions of wells, cement plugs shall be spaced to extend 30 meters (98 feet) below the bottom to 30 meters (98 feet) above the top of any oil, gas, saltwater, and freshwater zones so as to isolate them in the strata in which they are found and to prevent them from escaping into other strata. Additional cement plugs to prevent the migration of fluids in the well bore may be required by the District Supervisor.

1.2 **Isolation of Open Hole.** Where there is open hole below the casing, a cement plug shall be placed in the deepest casing string by a or b below. In the event lost circulation conditions exist or are anticipated, the plug may be placed in accordance with c below:

(a) A cement plug placed by displacement method so as to extend a minimum of 30 meters (98 feet) above and 30 meters (98 feet) below the casing shoe.

(b) A cement retainer with effective back pressure control set not less than 15 meters (49 feet) nor more than 30 meters (98 feet) above the casing shoe, with a cement plug calculated to extend at least 30 meters (98 feet) below the casing shoe and 15 meters (49 feet) above the retainer.

(c) A permanent type bridge plug set within 45 meters (148 feet) above the casing shoe with 15 meters (49 feet) of cement on top of the bridge plug. This bridge plug shall be tested in accordance with 1.7 prior to placing subsequent plugs.

1.3 **Plugging or Isolating Perforated Intervals.** A cement plug shall be placed oppo-

site all open perforations (perforations not squeezed with cement) extending a minimum of 30 meters (98 feet) above and 30 meters (98 feet) below the perforated interval or down to a casing plug, whichever is less. In lieu of the cement plug, the following two methods are acceptable, provided the perforations are isolated from the hole below:

(a) A cement retainer with effective back pressure control set not less than 15 meters (49 feet) nor more than 30 meters (98 feet) above the top of the perforated interval with a cement plug calculated to extend at least 30 meters (98 feet) below the bottom of the perforated interval and 15 meters (49 feet) above the retainer.

(b) A permanent type bridge plug set within 45 meters (148 feet) above the top of the perforated interval with 15 meters (49 feet) of cement on top of the bridge plug.

1.4 **Plugging of Casing Stubs.** If casing is cut and recovered leaving a stub, one of the following methods shall be used to plug the casing stub:

1.4.1 **Stub Termination Inside Casing String.** A stub terminating inside a casing string shall be plugged by methods a, b, or c as follows:

(a) A cement plug will be set so as to extend 30 meters (98 feet) above and 30 meters (98 feet) below the stub.

(b) A retainer set 15 meters (49 feet) above the stub with 45 meters (148 feet) of cement set below and 15 meters (49 feet) above.

(c) A permanent bridge plug set 15 meters (49 feet) above the stub and capped with 15 meters (49 feet) of cement.

1.4.2 **Stub Termination Below Casing String.** If the stub is below the next larger string, plugging shall be accomplished in accordance with either 1.1 or 1.2.

1.5 **Plugging of Annular Space.** Any annular space communicating with any open hole and extending to the ocean floor shall be plugged with cement.

1.6 **Surface Plug Requirement.** A cement plug of at least 45 meters (148 feet), with the top of the plug 45 meters (148 feet) or less below the ocean floor, shall be placed in the smallest string of casing which extends to the surface.

1.7 **Testing of Plugs.** The setting and location of the first plug below the surface plug shall be verified by one of the following methods:

(a) Placing a minimum pipe weight of 6,800 kilograms (15,000 pounds) on the cement plug, cement retainer, or bridge plug. The cement placed above the bridge plug or retainer need not be tested.

(b) Testing with a minimum pump pressure of 6,900 kPa (1,000 psi) with no more than a 10-percent pressure drop during a 15-minute period.

1.8 **Mud.** Each of the respective intervals of the hole between the various plugs shall be filled with mud fluid of sufficient density to exert hydrostatic pressure exceeding the greatest formation pressure encountered while drilling such an interval.

1.9 **Clearance of Location.** All casing and piling shall be severed and removed to a depth of at least 5 meters (16 feet) below the ocean floor, or at a depth as approved by the District Supervisor after a review of data on the ocean bottom conditions. The operator shall verify that the location has been cleared of all obstructions.

2. **Temporary Abandonment.** Any drilling well which is to be temporarily abandoned shall be mudded and cemented as required for permanent abandonment except for the

requirements 1.6 and 1.9. When a drilling well is temporarily abandoned, a bridge plug or a cement plug shall be set at the base of the deepest casing string. If a cement plug is set, it shall not be necessary for the cement plug to overlap into the open hole. When casing extends above the ocean floor, the operator shall comply with the following requirements:

(a) A mechanical, retrievable or permanent bridge plug, or a cement plug 30 meters (98 feet) in length, shall be set in the casing between 5 and 60 meters (16 and 197 feet) below the ocean floor.

(b) The requirements of North Atlantic OCS Order No. 1, paragraph 4, "Identification of Subsea Objects."

#### NORTH ATLANTIC OCS ORDER NO. 4

#### PREAMBLE

**Comments.** It was suggested that the fourth sentence of the preamble should be revised by changing the word "may" to "shall" and by adding the phrase "and reasonable and prudent efforts are being made to comply with the requirements."

**Rationale.** The intent of the preamble was not to make it mandatory that the Supervisor grant a suspension of production. The Supervisor has specific guidelines to be used in his determination of the approval or the denial of a suspension of production. The Supervisor has the option of approving or disapproving suspensions of production based on these guidelines.

**Comments.** A commenter suggested that a suspension of production be granted only if all the requirements set forth in OCS Order No. 14 have been met.

**Rationale.** The preamble of the Order was changed to reflect the fact that the conditions of North Atlantic OCS Order No. 14 must be met before a suspension of production is granted. North Atlantic OCS Order No. 14 will be published before North Atlantic OCS exploration progresses significantly.

Paragraphs 1, 2, 3, and 4.

**Comments.** Several commenters indicated that the intent of the Order was not clear. A lack of clarity was cited in the paragraphs which allow the demonstration of production capability through production tests, logs, or other proven formation-evaluation techniques. We agree with these comments and have revised the Order by adding two new sentences to the preamble as follows:

"All pertinent engineering, geologic, and economic data shall be submitted to the District Supervisor for his consideration in determining whether a well is capable of being produced in paying quantities. The District Supervisor shall prescribe which of the following shall be used to determine the capability of a well to produce in paying quantities."

The content of paragraph 4, "Witnessing and Results," was incorporated into the lead-in sentence of paragraph 1, "Production Tests." The production tests for oil wells and gas wells were listed in subparagraphs a and b of paragraph 1. Paragraph 3 was retitled as a new paragraph 2, "Production Capability Determination," and was rewritten as follows:

"When the District Supervisor determines that the open hole evaluation data, such as wireline formation tests, drill stem tests, core data, and logs, has been demonstrated as reliable in a geologic area, such data may be considered as acceptable evidence that a well is capable of producing in paying quantities."

**Comments.** It was suggested that the Order require oil produced during a production test to be disposed of by incineration.

**Rationale.** The Order was not revised. Requiring the incineration of the test oil might lead to the waste of significant quantities of valuable mineral resources.

U.S. DEPARTMENT OF THE INTERIOR, GEOLOGICAL SURVEY, CONSERVATION DIVISION, EASTERN REGION

## ATLANTIC AREA

## NORTH ATLANTIC

OCS ORDER NO. 4—EFFECTIVE JANUARY 1, 1978

## SUSPENSIONS AND DETERMINATION OF WELL PRODUCTIVITY

This Order is established pursuant to the authority prescribed in 30 CFR 250.11 and in accordance with 30 CFR 250.12(d)(1). An OCS lease provides for extension beyond its primary term for as long as oil or gas may be produced from the lease in paying quantities. The term "paying quantities" as used herein means production in quantities sufficient to yield a return in excess of operating costs. An OCS lease may be maintained beyond the primary term, in the absence of actual production, when a suspension of production has been approved in accordance with North Atlantic OCS Order No. 14. All departures from the requirements specified in this Order shall be subject to approval pursuant to 30 CFR 250.12(b).

All pertinent engineering, geologic, and economic data shall be submitted to the District Supervisor for his consideration in determining whether a well is capable of being produced in paying quantities.

The District Supervisor shall prescribe which of the following shall be used to determine the capability of a well to produce in paying quantities.

1. **Production Tests.** All tests must be witnessed by an authorized representative of the Geological Survey. Test data, accompanied by operator's affidavit or third-party test data, may be accepted in lieu of a witnessed test, provided prior approval is obtained from the District Supervisor. The following are minimum requirements for test(s):

(a) A production test for oil wells of at least 2-hour duration following the stabilization of flow.

(b) A deliverability test for gas wells of at least 2-hour duration following the stabilization of flow, or a four-point back-pressure test.

2. **Production Capability Determination.** When the District Supervisor determines that open-hole evaluation data, such as wireline formation tests, drill stem tests, core data; and logs, has been demonstrated as reliable in a geologic area, such data may be considered as acceptable evidence that a well is capable of producing in paying quantities.

## Office of the Secretary

## OUTER CONTINENTAL SHELF ADVISORY BOARD—MID-ATLANTIC

## Notice and Agenda for Meeting

This notice is issued in accordance with the provisions of the Federal Advisory Committee Act, Pub. L. 92-643, 5 U.S.C. App. I and the Office of Management and Budget's Circular No. A-63, Revised.

The Mid-Atlantic Regional Board will meet during the period 1 p.m. to 4 p.m., February 10, 1978, in the ABC Conference Room, 3rd Floor, New State Office Building, 820 French Street, Wilmington, Del.

The meeting will cover the following subjects:

1. OCS Sale No. 49—Mid-Atlantic.
2. OCS legislation.
3. Proposed Intergovernmental Planning Program—Transportation of OCS Oil and Gas.
4. Evaluation of OCS environmental studies program.
5. OCS Sale No. 42—North Atlantic.
6. Activities of Geological Survey District Office.

This meeting is open to the public. Interested persons may make oral or written presentations to the Board. Such requests should be made to the Mid-Atlantic Board Chairman:

Simon F. McHugh, Jr., Executive Assistant, Office of the Governor, Annapolis, Md. 21404, 301-261-2176.

Minutes of the meeting will be available for public inspection and copying three weeks after the meeting at the Office of OCS Program Coordination, Room 4126, Department of the Interior, 18th and C Streets NW., Washington, D.C.

Dated: January 11, 1978.

ALAN D. POWERS,

Director, Office of  
OCS Program Coordination.

## DEPARTMENT OF JUSTICE

## Antitrust Division

## LUBBOCK COUNTY BEVERAGE ASSOCIATION, ET AL

## Proposed Consent Judgment in United States

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. § 16 (b) through (h), that a proposed consent judgment and a competitive impact statement as set out below have been filed with the United States District Court for the Northern District of Texas, Lubbock Division, in Civil Action No. 5-76-126, *United States v. Lubbock County Beverage Association; Cecil's, Inc.; Crossed Keys Package Store, Inc.; Pinkie's, Inc.; and the All Star Co.*

*erage Association; Cecil's, Inc.; Crossed Keys Package Store, Inc.; Pinkie's, Inc.; and the All Star Co.* The complaint alleged that the defendants and co-conspirators had engaged in a combination and conspiracy to raise, fix, stabilize and maintain the price of alcoholic beverages in Lubbock County. The proposed judgment prohibits each defendant corporation from entering into or maintaining any agreement or understanding to raise, fix, stabilize, or maintain prices for the sale of alcoholic beverages. Each defendant is also prohibited from communicating or exchanging with any other retailer of alcoholic beverages the actual or proposed prices for the sale of alcoholic beverages prior to communication to the public generally. Public comment is invited on or before March 13, 1978. Such comments and responses thereto will be published in the FEDERAL REGISTER and filed with the Court. Comments should be directed to Barry F. McNeil, Chief, Dallas Office, Antitrust Division, Department of Justice, 1100 Commerce Street, Room 8C6, Dallas, Tex. 75242.

Dated: January 9, 1978.

HUGH P. MORRISON, Jr.,  
Acting Assistant Attorney  
General, Antitrust Division.

IN THE UNITED STATES DISTRICT COURT FOR  
THE NORTHERN DISTRICT OF TEXAS

## LUBBOCK DIVISION

*United States of America v. Lubbock County Beverage Association; Cecil's, Inc.; Crossed Keys Package Store, Inc.; Pinkie's, Inc.; and the All Star Co.*

Civil Action No. 5-76-126.

Filed: January 9, 1978.

## STIPULATION

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. The parties consent that a Final Judgment, in the form hereto attached may be filed and entered by the Court, upon the motion of any party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16), and without further notice to any party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendants and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this Stipulation, this Stipulation shall be of no effect whatever and the making of this Stipulation shall be without prejudice to plaintiff or defendants in this or any other proceeding.

Dated: January 9, 1978.

For the Plaintiff: Hugh P. Morrison, Jr.,  
Acting Assistant Attorney General;  
Barry F. McNeil, Mary Coleen T.  
Sewell, Attorneys, Department of Jus-

stice; Kenneth J. Mighell, *United States Attorney, Northern District of Texas*; Robert B. Wilson, *Assistant United States Attorney*.

For the Defendants: Key, Carr, Evans & Fouts, Lubbock, Tex. by Rob Becker, *Lubbock County Beverage Association Representative*; Mark Smith & Associates, Lubbock, Tex., by Aubrey J. Fouts, *Attorney for Cecil's, Inc.*; by Mark Smith, *Attorney for Crossed Keys, Package Store, Inc.*; Clark, Thomas, Winters & Shapiro, Austin, Tex., by Donald Scott Thomas, Jr., *Attorney for Pinkie's, Inc.*; Brown & Harding, Lubbock, Tex., by Clifford W. Brown, *Attorney for the All Star Co.*; Jones, Trout, Flygare & Moody, Lubbock, Tex., by James C. Lewis, *Attorneys for Kenneth Odom*.

UNITED STATES DISTRICT COURT, NORTHERN  
DISTRICT OF TEXAS

## LUBBOCK DIVISION

*United States of America, v. Lubbock County Beverage Association; Cecil's, Inc.; Crossed Keys Package Store, Inc.; Pinkie's, Inc.; and The All Star Co.; Defendants.*

Civil No. CA5-76-126.

Filed: January 9, 1978.

## FINAL JUDGMENT

Plaintiff, *United States of America*, having filed its Complaint herein on October 26, 1976, and plaintiff and defendants, by their respective attorneys, having each consented to the entry of this Final Judgment without trial or adjudication of any issue of fact or law herein and without this Final Judgment constituting evidence or admission by plaintiff or defendants, or any of them, in respect to any such issue:

Now, therefore, before any testimony has been taken and without trial or adjudication of any issue of fact or law herein, and upon consent of the parties as aforesaid, it is hereby

Ordered, adjudged, and decreed as follows:

## I

This Court has jurisdiction of the subject matter herein and of the parties hereto. The Complaint states claims upon which relief may be granted against the defendants under Section 1 of the Sherman Act, 15 U.S.C. § 1.

## II

As used in this Final Judgment:

(A) "Person" shall mean any individual, corporation, partnership, firm, association or other business or legal entity.

(B) "Alcoholic beverages" shall refer to beer, wine and distilled spirits.

(C) "Defendant corporation" shall refer to defendants Cecil's, Inc.; Crossed Keys Package Store, Inc.; Pinkie's, Inc.; and The All Star Company.

(D) "Defendant association" shall refer to all directors, officers, members, and employees of Lubbock County Beverage Association.

## III

The provisions of this Final Judgment are applicable to each defendant herein and shall apply also to each of such defendant's subsidiaries, successors, assigns, directors, officers, agents, and employees, and to all persons in active concert or participation with any of them who shall have received

actual notice of this Final Judgment by personal service or otherwise.

## IV

Each defendant corporation is enjoined and restrained from directly or indirectly:

(A) Entering into, maintaining or furthering any contract, agreement, understanding, plan, program, combination or conspiracy with any other retailer of alcoholic beverages to raise, fix, stabilize or maintain prices for the sale of alcoholic beverages to and third person; and

(B) Soliciting, inducing or coercing any other retailer of alcoholic beverages to adopt or adhere to uniform or specific prices for the sale of alcoholic beverages to any third person.

## V

Each defendant corporation is enjoined and restrained from communicating to or exchanging with any other retailer of alcoholic beverages any actual or proposed prices, price changes, or other terms or conditions of sale at or upon which any alcoholic beverage is to be or has been sold to any third person prior to communication of such information to the public or trade generally.

## VI

Each defendant corporation is enjoined and restrained from attending, organizing, joining, furthering, supporting, or participating in any activities of the defendant association or of any other association with knowledge that the purpose, conduct or activities of the same are inconsistent with the prohibitions contained in Sections IV and V of this Final Judgment.

## VII

Each defendant corporation is ordered and directed to:

(A) Furnish within thirty (30) days after the date of the entry of this Final Judgment a copy thereof to each of its officers and directors, and to each of its agents and employees who have any responsibility for the pricing of alcoholic beverages.

(B) Furnish a copy of this Final Judgment to each successor to those officers, directors, agents and employees described in Subsection (A) of this Section VII, within thirty (30) days after each such successor is employed by or becomes associated with such defendant.

(C) File with this Court and serve upon the plaintiff within sixty (60) days from the date of entry of this Final Judgment, an affidavit as to the fact and manner of its compliance with Subsection (A) of this Section VII.

## VIII

(A) The defendant association is enjoined and restrained from directly or indirectly convening meetings or conducting business where the purpose or effect of such is to raise, fix, stabilize or maintain the prices of alcoholic beverages.

(B) The defendant association is ordered and directed to:

(1) Furnish within thirty (30) days after the date of the entry of this Final Judgment a copy thereof to each of its officers, directors, members and employees, and any other retailer of alcoholic beverages in Lubbock County.

(2) File with this Court and serve upon the plaintiff within sixty (60) days from the date of entry of this Final Judgment an affidavit as to the fact and manner of its compliance with Subsection (1) of this Section VIII(B).

## IX

(A) For the purpose of determining or securing compliance with this Final Judgment, and for no other purpose, any duly authorized representative of the Department of Justice shall, upon written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to any defendant made to its principal office, be permitted, subject to any legally recognized privilege:

(1) access during the office hours of such defendant to inspect and copy all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or under the control of such defendant relating to any matters contained in this Final Judgment; and

(2) subject to the reasonable convenience of such defendant and without restraint or interference from it, to interview officers, directors, agents, or employees of such defendant, who may have counsel present, regarding any such matters.

(B) A defendant, upon the written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, shall submit such reports in writing, under oath if requested, with respect to any of the matters contained in this Final Judgment as may from time to time be requested.

No information or documents obtained by the means provided in this Section IX shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the United States, except in the course of legal proceedings to which the United States is a party, or for the purpose of securing compliance with this Final Judgment, or as otherwise required by law.

If at any time information or documents are furnished by a defendant to plaintiff, such defendant represents and identifies in writing the material in any such information or documents of a type described in Rule 26(c)(7) of the Federal Rules of Civil Procedure, and said defendant marks each pertinent page of such material, "Subject to claim of protection under Rule 26(c)(7) of the Federal Rules of Civil Procedure," then 10 days notice shall be given by plaintiff to such defendant prior to divulging such material in any legal proceeding (other than a Grand Jury proceeding) to which the defendant is not a party.

## X

Jurisdiction is retained for the purpose of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further order or directions as may be necessary or appropriate for the construction or the carrying out of this Final Judgment, for the modification of any of the provisions thereof, for the enforcement of compliance therewith and for the punishment of violation thereof.

## XI

Entry of this Final Judgment is in the public interest.

Dated this — day of —, 1977.

United States District Judge.

IN THE UNITED STATES DISTRICT COURT FOR  
THE NORTHERN DISTRICT OF TEXAS, LUB-  
BOCK DIVISION

*United States of America, Plaintiff, v. Lub-  
bock County Beverage Association; Cecil's,  
Inc.; Crossed Keys Package Store, Inc.; Pin-  
kie's, Inc.; and The All Star Company, De-  
fendants.*

Civil No. CA5-76-126.  
Filed: January 9, 1978.

#### COMPETITIVE IMPACT STATEMENT

Pursuant to section 2(b) of the Antitrust  
Procedures and Penalties Act (15 U.S.C.  
§ 16(b)), the United States of America  
hereby files this Competitive Impact State-  
ment relating to the proposed Final Judg-  
ment submitted for entry in this civil anti-  
trust proceeding.

#### I

##### NATURE AND PURPOSE OF THE PROCEEDING

On October 26, 1976, the United States  
filed a Complaint under section 4 of the  
Sherman Act (15 U.S.C. § 4), alleging that  
beginning sometime around March 1967 and  
continuing thereafter until sometime prior  
to December 1974 the defendants and co-  
conspirators had engaged in a combination  
and conspiracy to raise, fix, stabilize and  
maintain the prices of alcoholic beverages in  
Lubbock County, in violation of section 1 of  
the Sherman Act (15 U.S.C. § 1). The Com-  
plaint requested the Court to rule that the  
defendants had been engaged in an unlaw-  
ful conspiracy in violation of Section 1 of  
the Sherman Act (15 U.S.C. § 1) and to issue  
an injunction prohibiting its continuation.

Entry by the Court of the proposed Final  
Judgment will terminate this action against  
all defendants. The Court will retain juris-  
diction over the matter for any further pro-  
ceedings which might be required to inter-  
pret, modify, or enforce the Judgment, or to  
punish violations of any of the provisions of  
the Judgment.

#### II

##### DESCRIPTION OF PRACTICES INVOLVED IN THE ALLEGED VIOLATION

The defendant retailers and co-conspirators  
are engaged in the sale of alcoholic bever-  
ages at retail to purchasers throughout  
Lubbock County, Texas. These alcoholic  
beverages include beer, wine and distilled  
spirits. In 1975 the defendant retailers to-  
gether had sales of some \$8 million of alco-  
holic beverages. The defendants, along with  
other area retailers, had total sales the  
same year of approximately \$13 million.

The defendants are: Cecil's, Inc., of Lub-  
bock, Tex.; Crossed Keys Package Store,  
Inc., of Lubbock, Tex.; Pinkie's, Inc., of  
Odessa, Tex.; The All Star Company, of  
Lubbock, Tex.; and the Lubbock County  
Beverage Association, an organization of  
area retailers. Members of the Association  
are named as co-conspirators in the case.

The complaint alleges that the defendants  
and co-conspirators engaged in a conspiracy  
to raise, fix, stabilize and maintain prices of  
alcoholic beverages in Lubbock County. The  
conspiracy, which began in 1967, involved  
meetings, discussions and agreements  
among officials of defendants and co-con-  
spirators concerning prices to be charged  
for selling alcoholic beverages at retail.

According to the complaint, the conspir-  
acy had the following effects: (a) Price com-

petition among the defendants and co-con-  
spirators was restrained; (b) prices of alco-  
holic beverages were raised and fixed at ar-  
tificial levels; and (c) customers of the de-  
fendants and co-conspirators were deprived  
of the opportunity to purchase alcoholic  
beverages at competitive prices.

#### III

##### EXPLANATION OF THE PROPOSED CONSENT JUDGMENT

The United States and the defendants  
have agreed that a Final Judgment in the  
form negotiated by the parties may be en-  
tered by the Court at any time after compli-  
ance with the Antitrust Procedures and  
Penalties Act provided the plaintiff has not  
withdrawn its consent. The stipulation pro-  
vides that there has been no admission by  
either party with respect to any issue of fact  
or law. Under the provisions of section 2(c)  
of the Antitrust Procedures and Penalties  
Act, entry of the Judgment is conditioned  
upon a determination by the Court that it is  
in the public interest.

A. *Prohibited conduct.* The proposed  
Judgment prohibits each defendant retailer  
from entering into, maintaining, or further-  
ing any agreements or understandings with  
any other retailer of alcoholic beverages to  
raise, fix, stabilize, or maintain prices for  
the sale of alcoholic beverages to any third  
person. The Judgment restrains each defen-  
dant retailer from soliciting, inducing, or co-  
ercing any other retailer to adopt or adhere  
to uniform or specific prices for the sale of  
alcoholic beverages to any third person. Each  
defendant corporation is also prohibited  
from communicating to, or exchanging with,  
any other retailer of alcoholic beverages  
any actual or proposed prices, price changes  
or other terms or conditions of sale of  
alcoholic beverages prior to communica-  
tion to the public generally. Each defendant  
corporation is enjoined from attending, or-  
ganizing, joining, furthering, supporting, or  
participating in any activities of the defen-  
dant Association or any other association  
with knowledge that the purpose, conduct,  
or activity of such association is inconsistent  
with the prohibitions contained in the Final  
Judgment. The Judgment enjoins and re-  
strains the defendant Association from di-  
rectly or indirectly convening meetings or  
conducting business where the purpose or  
effect of such is to raise, fix, stabilize, or  
maintain the prices of alcoholic beverages.

B. *Scope of the proposed judgment.* The  
Final Judgment applies not only to the de-  
fendants but also to their directors, officers,  
agents and employees, as well as to any suc-  
cessors or assigns of the defendants. It also  
applies to anyone participating with any de-  
fendant who receives actual notice of the  
Judgment.

The Judgment is geographically applica-  
ble. Anywhere the defendants do business.  
In addition, the Judgment perpetually re-  
strains the prohibited conduct. In other  
words, unless the Court either modifies or  
vacates all or part of the Judgment, the de-  
fendants are forever bound by its prohibi-  
tions.

C. *Effect of the Proposed Judgment on  
Competition.* The terms of the Judgment  
are designed to insure that each corporate  
defendant will act completely independently  
in determining the prices, terms and condi-  
tions at which it sells or offers to sell alco-  
holic beverages. Compliance with the pro-  
posed Judgment will ensure competition  
among the defendants in the sale of alcohol-  
ic beverages.

It is the opinion of the Department of  
Justice that the proposed Final Judgment  
contains fully adequate provisions to pre-  
vent the continuance or reoccurrence of the  
violations of the antitrust laws charged in  
the Complaint. The government is also  
given access, upon reasonable notice, to the  
records and employees of the defendants to  
monitor their compliance with the provi-  
sions of the Judgment. In the Department  
of Justice's view, disposition of the lawsuit  
without further litigation is appropriate, in  
that the proposed Judgment provides all  
the relief which the government sought in  
its Complaint.

#### IV

##### ALTERNATIVES TO THE PROPOSED CONSENT JUDGMENT

The proposed Final Judgment is substan-  
tially in the form submitted initially to the  
defendants.

#### V

##### REMEDIES AVAILABLE TO PRIVATE LITIGANTS

Section 4 of the Clayton Act (15 U.S.C.  
§ 15) provides that any person who has been  
injured as a result of conduct prohibited by  
the antitrust laws may bring suit in federal  
court to recover three times the damages  
suffered, as well as costs and reasonable at-  
torney fees. Entry of the proposed Final  
Judgment in this proceeding will neither  
impair nor assist the bringing of any such  
private antitrust actions, nor will it have  
any effect on pending actions. Under the  
provisions of section 5(a) of the Clayton Act  
(15 U.S.C. § 16(a)), this Final Judgment has  
no prima facie effect in any lawsuits which  
might be brought against these defendants.

#### VI

##### PROCEDURES AVAILABLE FOR MODIFICATION OF THE PROPOSED JUDGMENT

As provided by the Antitrust Procedures  
and Penalties Act, any person believing that  
the proposed Judgment should be modified  
may submit written comments to Barry F.  
McNeil, Antitrust Division, U.S. Department  
of Justice, 1100 Commerce Street, Room  
8C6, Dallas, Tex. 75242, within the sixty  
(60) day period provided by the Act. These  
comments, and the Department's responses  
to them, will be filed with the Court and  
published in the *FEDERAL REGISTER*. All com-  
ments will be given due consideration by the  
Department of Justice, which remains free  
to withdraw its consent to the proposed  
Judgment at any time prior to its entry if it  
should determine that some modification of  
it is necessary.

#### VII

##### OTHER MATERIALS

No materials and documents of the type  
described in section 2(b) of the Antitrust  
Procedures and Penalties Act (15 U.S.C. Sec-  
tion 16(b)) were considered in formulating

this proposed Judgment, and consequently,  
none are being filed.

ROBERT B. WILSON,  
Assistant U.S. Attorney; U.S. Attor-  
ney, U.S. Department of Justice,  
U.S. Federal Building and Court-  
house, Room C-210, 1205 Texas  
Avenue, Lubbock, Tex. 79401.

BARRY F. McNEIL,  
MARY COLEEN T. SEWELL,  
Attorneys, Department of Justice;

##### Low Enforcement Assistance Administration

##### NATIONAL ADVISORY COMMITTEE FOR JUVENILE JUSTICE AND DELINQUENCY PREVEN- TION

##### Notice of Meeting

Notice is hereby given that the Na-  
tional Advisory Committee for Juve-  
nile Justice and Delinquency Preven-  
tion (the Committee) will meet  
Monday, Tuesday, and Wednesday,  
February 6-8, 1978, at the Sheraton  
National, 900 South Orme Street, Ar-  
lington, Va. The meeting is open to  
the public.

On Monday, February 6, 1978, the  
Committee will convene at 1 p.m. to  
discuss plans for the National Advisory  
Committee Meeting of State Juve-  
nile Justice and Delinquency Preven-  
tion Advisory Groups, co-sponsored by  
the Office of Juvenile Justice and De-  
linquency Prevention, which is sched-  
uled for March 1-3, 1978, in Reston,  
Va.

On Tuesday, February 7, 1978, the  
Committee will reconvene at 9 a.m. in  
plenary session to discuss court juris-  
diction over status offenders. The ses-  
sion will include: (1) presentations by  
Mr. Milton G. Rector, President, Na-  
tional Council on Crime and Delin-  
quency, and Judge Lindsay G. Arthur,  
District Judge, Juvenile Division, Hen-  
nepin County, Minnesota; (2) presen-  
tations by a reactor panel of Commit-  
tee members; and (3) general discus-  
sion and resolution of the Committee's  
position on the status offender issue.  
Following a 12:30 p.m. luncheon  
recess, the Committee will reconvene  
at 2 p.m. in subcommittee sessions.  
The subcommittee that will be meet-  
ing are: the Advisory Committee for  
the National Institute for Juvenile  
Justice and Delinquency Prevention,  
the Advisory Committee on the Con-  
centration of Federal Effort, and the  
Advisory Committee on Standards for  
Juvenile Justice.

On Wednesday, February 8, 1978,  
the full Committee will reconvene in  
plenary session at 9 a.m. The session  
will include subcommittee reports, a  
review of the actions approved during  
the meeting, and public commentary.

#### NOTICES

The meeting is scheduled to adjourn  
at 12 noon.

For further information contact Mr.  
John M. Rector, Administrator of the  
Office of Juvenile Justice and Delin-  
quency Prevention, Law Enforcement  
Assistance Administration, Depart-  
ment of Justice, 633 Indiana Avenue

##### LEGAL SERVICES CORPORATION

##### BOARD OF DIRECTORS, COMMITTEE ON PERSONNEL

##### Meeting

FEBRUARY 2, 1978.

A meeting of the Board of Directors  
Committee on Personnel will be held  
on Thursday evening, February 2,  
1978, at the O'Hare Hilton, Chicago,  
Ill.

The meeting will begin at 7:30 p.m.  
and will be for the purpose of review-  
ing the Corporation's personnel poli-  
cies and practices, and such other busi-  
ness as may arise.

The meeting is open to the public.

THOMAS EHRLICH,  
President.

(FR Doc. 78-1943 Filed 1-20-78; 8:45 am)

#### [6820-35]

##### BOARD OF DIRECTORS, COMMITTEE ON REGULATIONS

##### Meeting

FEBRUARY 3, 1978.

A meeting of the Committee on Reg-  
ulations of the Legal Services Corpora-  
tion Board of Directors will be held on  
Friday, February 3, 1978, at the  
O'Hare Hilton, Chicago, Ill.

The meeting will begin at 9:30 a.m.  
and will be for the purpose of consid-  
ering:

1. Proposed amendments to the  
Bylaws of the Corporation;
2. Proposed amendments to Parts  
1608, 1612, 1618, and 1620 of the Regu-  
lations;
3. Repeal of Part 1614 of the Regu-  
lations;
4. A regulation concerning the pro-  
hibited organizing activities of recipi-  
ents; and,
5. Comments on proposed Parts 1606  
(43 FR 16-19), 1622 (43 FR 1807-09),  
and 1623 (43 FR 19-20) of the Regu-  
lations.

The entire meeting is open to the  
public.

THOMAS EHRLICH,  
President.

#### [7536-01]

##### NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES

##### RESEARCH GRANTS PANEL ADVISORY COMMITTEE

##### Meeting

JANUARY 11, 1978.

Pursuant to the provisions of the  
Federal Advisory Committee Act (Pub.  
L. 92-463, as amended,) notice is  
hereby given that a meeting of the Re-  
search Grants Panel will be held at  
806 15th Street NW., Washington,  
D.C. 20506, in room 1130, from 9 a.m.  
to 5:30 p.m. on March 10, 1978.

The purpose of this meeting is to  
review applications submitted to the  
Translations Program of the National  
Endowment for the Humanities, for  
projects beginning July 1, 1978.

Because the proposed meeting will  
consider financial information and dis-  
close information of a personal nature  
the disclosure of which would consti-  
tute a clearly unwarranted invasion of  
personal privacy, pursuant to author-  
ity granted me by the Acting Chair-  
man's Delegation of Authority to  
Close Advisory Committee Meetings,  
dated August 2, 1977, I have deter-  
mined that the meeting would fall  
within exemptions (4) and (6) of 5  
U.S.C. 552b(c) and that it is essential  
to close the meeting to protect the  
free exchange of internal views and to  
avoid interference with operation of  
the Committee.

It is suggested that those desiring  
more specific information contact the  
Advisory Committee Management Of-  
ficer, Mr. Stephen J. McCleary, 806  
15th Street NW., Washington, D.C.  
20506, or call area code 202-724-0367.

STEPHEN J. MCCLEARY,  
Advisory Committee  
Management Officer.

(FR Doc 78-1805 Filed 1-20-78; 8:45 am)

#### [7536-01]

##### RESEARCH GRANTS PANEL ADVISORY COMMITTEE

##### Meeting

JANUARY 11, 1978.

Pursuant to the provisions of the  
Federal Advisory Committee Act (Pub.  
L. 92-463), as amended, notice is  
hereby given that a meeting of the Re-  
search Grants Panel will be held at  
806 15th Street NW., Washington,  
D.C. 20506, in room 1130, from 9 a.m.  
to 5:30 p.m. on March 3, 1978.

The purpose of this meeting is to  
review applications submitted to the  
Translations Program of the National  
Endowment for the Humanities, for  
projects beginning July 1, 1978.

Because the proposed meeting will  
consider financial information and dis-

close information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Acting Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 2, 1977, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552b(c) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. Stephen J. McCleary, 806 15th Street NW., Washington, D.C. 20506, or call area code 202-724-0367.

STEPHEN J. MCCLEARY,  
Advisory Committee  
Management Officer.

## RESEARCH GRANTS PANEL ADVISORY COMMITTEE

## Meeting

JANUARY 11, 1978.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given that a meeting of the Research Grants Panel will be held at 806 15th Street NW., Washington, D.C. 20506, in room 1130, from 9 a.m. to 5:30 p.m. on February 27, 1978.

The purpose of this meeting is to review applications submitted to the Translations Program of the National Endowment for the Humanities, for projects beginning July 1, 1978.

Because the proposed meeting will consider financial information and disclose information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Acting Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 2, 1977, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552b(c) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. Stephen J. McCleary, 806 15th Street NW., Washington, D.C. 20506, or call area code 202-724-0367.

STEPHEN J. MCCLEARY,  
Advisory Committee  
Management Officer.

## [7590-01]

## NUCLEAR REGULATORY COMMISSION

## ADVISORY COMMITTEE ON REACTOR SAFEGUARDS; SUBCOMMITTEE ON REGULATORY ACTIVITIES

## Meeting

The ACRS Subcommittee on Regulatory Activities will hold an open meeting on February 8, 1978 in Room 1046, 1717 H Street NW., Washington, D.C. 20555.

In accordance with the procedures outlined in the FEDERAL REGISTER on October 31, 1977, page 56972, oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows:

WEDNESDAY, FEBRUARY 8, 1978

THE MEETING WILL COMMENCE AT 8:45 A.M.

A. The Subcommittee will hear presentations from the NRC Staff and will hold discussions with this group pertinent to the following:

- (1) Proposed Regulatory Guide 1.68.X, "Preoperational Testing of Instrument and Control Air Systems."
- (2) Regulatory Guide 1.68, Revision 2, "Initial Test Programs for Water Cooled Nuclear Power Plants."
- (3) Regulatory Guide 1.117, Revision 1, "Tornado Design Classification."

B. The Subcommittee will hear presentations from the NRC Staff and will hold discussions with this group pertinent to the questions raised by the Subcommittee at its meeting on January 4, 1978 regarding Seismic Response Spectra.

Other matters which may be of a predecisional nature relevant to reactor operation or licensing activities may be discussed following this session.

Persons wishing to submit written statements regarding Regulatory guides 1.68, Revision 2 and 1.117, Revision 1 may do so by providing a readily reproducible copy to the Subcommittee at the beginning of the meeting. Such comments shall be based upon documents on file and available for public inspection at the NRC Public Document Room, 1717 H Street NW., Washington, D.C. 20555.

Further information regarding topics to be discussed, whether the

meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the Designated Federal Employee for this meeting, Mr. Gary R. Quittschreiber, telephone 202-634-1374, between 8:15 a.m. and 5:00 p.m., e.s.t.

Dated: January 17, 1978.

JOHN C. HOYLE,  
Advisory Committee  
Management Officer.

## [7590-01]

(Docket No. 50-255)

## CONSUMERS POWER CO.

## Issuance of Amendment to Provisional Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 33 to Facility Operating License No. DPR-20, issued to Consumers Power Co. (the licensee), which revised Technical Specifications for operation of the Palisades Plant (the facility), located in Covert Township, Van Buren County, Mich. The amendment is effective as of its date of issuance.

This amendment modifies the augmented inservice inspection program for the Palisades steam generators and allows the sleeving of degraded steam generator tubes as an alternative to plugging.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Provisional Operating License in connection with this action was published in the FEDERAL REGISTER on November 30, 1977 (42 FR 60989). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated November 10, as supplemented December 7 and 12,

1977, (2) Amendment No. 33 to License No. DPR-20, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Kalamazoo Public Library, 315 South Rose Street, Kalamazoo, Mich. 49006. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 9th day of January 1978.

For the Nuclear Regulatory Commission.

A. SCHWENCER,  
Chief, Operating Reactors  
Branch No. 1, Division of Operating Reactors.

(FR Doc. 78-1816 Filed 1-20-78; 8:45 am)

## [7590-01]

(Docket No. 50-315)

## INDIANA &amp; MICHIGAN ELECTRIC CO. AND INDIANA &amp; MICHIGAN POWER CO.

## Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 23 to Facility Operating License No. DPR-58, issued to Indiana & Michigan Electric Co., and Indiana & Michigan Power Co. (the licensees), which revised the Technical Specifications for operation of the Donald C. Cook Nuclear Plant Unit No. 1 (the facility), located in Berrien County, Mich. The amendment is effective February 22, 1978.

The amendment revised the Technical Specifications to incorporate requirements for use of the Cask Drop Protection System, to add surveillance requirements for certain emergency core cooling system throttle valves, to change the maximum specified pressurizer heatup rate, to exclude certain larger hydraulic shock suppressors from functional testing, to incorporate NRC recommended changes into the Administrative Controls section of the Technical Specifications relating to reporting requirements, and to clarify the requirements for emergency diesel generator load sequencing timers.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment

3186

does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4), an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the June 18, 1976 and February 9, July 13, September 9 and 15, October 13, and November 3, 1977 applications for amendment, (2) Amendment No. 23 to License No. DPR-58, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Maude Reston Palenske Memorial Library, 500 Market Street, St. Joseph, Mich. 49085. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 4th day of January 1978.

For the Nuclear Regulatory Commission.

DON K. DAVIS,  
Acting Chief, Operating Reactors  
Branch No. 2, Division of  
Operating Reactors.

#### PORTLAND GENERAL ELECTRIC CO.; (TROJAN NUCLEAR PLANT)

##### Discontinue Modification of Trojan Nuclear Plant's Spent Fuel Storage Racks

Notice is hereby given that by petition dated December 13, 1977, Susan M. Garrett and the Coalition for Safe Power filed a request for an Order requiring Portland General Electric Co., to discontinue modification of the Trojan Nuclear Plant's spent fuel storage racks or in the alternative to suspend or revoke the operating license for the Trojan Nuclear Plant. In accordance with the procedures specified in 10 CFR 2.206 of the Commission's regulations, appropriate action will be taken on this request within a reasonable time.

A copy of the request is available for inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and at the local public document room for the Trojan Nuclear Plant located at the Law Library, Columbia County Court House, St. Helens, Oreg. 97501.

[7590-01]

[Docket No. STN 50-553 and STN 50-544]

#### TENNESSEE VALLEY AUTHORITY, PHIPPS BEND NUCLEAR PLANT, UNITS 1 AND 2

##### Issuance of Construction Permits

Notice is hereby given that, pursuant to the Partial Initial Decision dated October 14, 1977 and the Initial Decision of the Atomic Safety and Licensing Board, dated January 12, 1977, the Nuclear Regulatory Commission (the Commission) has issued Construction Permits No. CPPR-162 and CPPR-163 to the Tennessee Valley Authority for construction of two boiling water nuclear reactors at the applicant's site in Hawkins County, approximately 15 miles southeast of Kingsport, Tenn. The proposed reactors, known as the Phipps Bend Nuclear Plant, Units 1 and 2 will operate at a core power level of 3,579 megawatts thermal with a net electrical output of 1,220 megawatts.

The Initial Decision is subject to review by the Atomic Safety and Licensing Appeal Board prior to its becoming final. Any decision or action taken by an Atomic Safety and Licensing Appeal Board in connection with the Initial Decision may be reviewed by the Commission.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in the construction permit. The application for the construction permit complies with the standards and requirements of the Act and the Commission's rules and regulations.

The construction permits are effective as of the date of issuance. The earliest date for the completion of the Unit No. 1 is January 1, 1983 and the latest date for completion is April 1, 1984. The earliest and latest dates for Unit No. 2 are January 1, 1984 and April 1, 1985, respectively. The permits shall expire on the latest date for completion of each unit.

A copy of (1) the Partial Initial Decision, dated October 14, 1977 and (2) the Initial Decision, dated January 12, 1978; (3) Construction Permits No. CPPR-162 and No. CPPR-163; (4) the report of the Advisory Committee on Reactor Safeguards, dated May 11, 1977; (5) the Office of Nuclear Reactor

Regulation's Safety Evaluation dated April 1977, and Supplement No. 1, dated September 1977; (6) the Preliminary Safety Analysis Report and amendments thereto; (7) the applicant's Environmental Report, dated March 30, 1976 and supplements thereto; (8) the Draft Environmental Statement dated August 1976; and (9) the Final Environmental Statement dated February 1977, are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. and the Kingsport Public Library, Broad and New Streets, Kingsport, Tenn. 37660.

A copy of the construction permits may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Project Management.

Copies of the Safety Evaluation and its Supplement (Document No. NUREG-0101) and the Final Environmental Statement (Document No. NUREG-0168) may be purchased, at current rates, from the National Technical Information Service, Department of Commerce, 5285 Port Royal Road, Springfield, Va. 22161.

Dated at Bethesda, Md., this 16th day of January, 1978.

OLAN D. PARR,  
Chief, Light Water Reactors  
Branch No. 3, Division of Project Management.

[FR Doc. 78-1821 Filed 1-20-78; 8:45 am]

[7590-01]

[Docket No. 50-320]

#### JERSEY CENTRAL POWER & LIGHT CO. AND METROPOLITAN EDISON CO. (THREE MILE ISLAND NUCLEAR STATION, UNIT 2)

##### Order Extending Construction Completion Date

Jersey Central Power & Light Co. and Metropolitan Edison Co. are the holders of provisional construction permit No. CPPR-66 issued by the Atomic Energy Commission on November 4, 1969, for construction of the Three Mile Island Nuclear Station, Unit 2, presently under construction at the licensees' site in Dauphin County, Pa.

On March 28, 1977, Metropolitan Edison Co. filed a request for an extension of the completion date because construction has been delayed due to:

(1) A direct craft force reduction of 15 percent in June 1976 resulting from budgeting restrictions;

Effective January 20, 1975, the Atomic Energy Commission became the Nuclear Regulatory Commission and Permits in effect on that day were continued under the authority of the Nuclear Regulatory Commission.

(2) Increased engineering (750,000 man-hours) and labor (1,170,000 man-hours) resulting from:

(a) Significant increases in previously estimated quantities of electrical cabling, conduit and trays due to late availability of electrical drawings;

(b) Increases in material quantities for process piping resulting from quantity re-evaluations;

(3) Late receipt of valves due to casting difficulties and strike at a nuclear valve manufacturing facility; and

(4) Late availability of cable pull slips as a result of a lack of electrical vendor drawing information.

On December 12, 1977, MetEd amended the request of March 28 to again extend the completion date for the following additional reasons:

(5) A transition was made in construction management responsibilities from the construction manager to a maintenance contractor. The maintenance contractor, because of the unexpectedly large number of construction items left to be completed at the time of this turnover, was not capable of maintaining with assurance the previously requested January 15 construction completion date.

(6) Repairs and repeated hydrostatic tests of the reactor cooling system were required.

(7) The reactor coolant pump shaft seals were replaced.

(8) Reactor coolant pump casing to stuffing box joints leaked and required gasket replacement.

(9) An inspection program of the steam generator tubes has been undertaken.

This action involves no significant hazards consideration; good cause has been shown for the delay; and the extension is for a reasonable period, the bases for which are set forth in a staff evaluation dated January 16, 1978.

Copies of the above documents and other related material are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and at the State Library of Pennsylvania, Commonwealth and Walnut Street, Harrisburg, Pa. 17126.

It is hereby ordered, That the latest completion date for provisional construction permit CPPR-66 is extended from May 1, 1977 to April 30, 1978.

Date of issuance: January 16, 1978.

For the Nuclear Regulatory Commission.

D. B. VASSALLO,  
Assistant Director for Light  
Water Reactors, Division of  
Project Management.

[FR Doc. 78-1819 Filed 1-20-78; 8:45 am]

#### NOTICES

[7590-01]

[Docket No. 50-320]

#### THREE MILE ISLAND NUCLEAR STATION, UNIT NO. 2

##### Negative Declaration Supporting Extension of Construction Permit No. CPPR-66; Expiration Date

The U.S. Nuclear Regulatory Commission (the Commission) has reviewed Metropolitan Edison Co., Jersey Power & Light Co., and Pennsylvania Electric Co.'s (permittee) request to extend the expiration date of the construction permit for the Three Mile Island Nuclear Station, Unit No. 2 (CPPR-66) which is located in Dauphin County, Pa. The permittee requested a ten month extension to the permit through February 28, 1978, to allow for completion of construction of the Three Mile Island plant. The Commission, based on its analysis of the construction work and testing remaining to be done, concluded that a more reasonable latest completion date would be April 30, 1978.

The Commission's Division of Site Safety and Environmental Analysis has prepared an environmental impact appraisal relative to this change to CPPR-66. Based on this appraisal, the Commission has concluded that an environmental impact statement for this particular action is not warranted because there will be no environmental impact attributable to the proposed action other than that which has already been described in the Commission's final environmental statement related to operation of Three Mile Island, Unit Nos. 1 and 2, and the Commission's final supplement to the final environmental statement related to operation of Three Mile Island, Unit No. 2.

The environmental impact appraisal is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Government Publications Section, State Library of Pennsylvania, Education Building, Harrisburg, Pa.

Dated at Bethesda, Md., this 27th day of December 1977.

For the Nuclear Regulatory Commission.

R. W. FROELICH,  
Acting Chief, Environmental  
Projects Branch 2, Division of  
Site Safety and Environmental  
Analysis.

[FR Doc. 78-1820 Filed 1-20-78; 8:45 am]

3187

[7590-01]

[Docket No. 50-309]

#### MAINE YANKEE ATOMIC POWER CO.

##### Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 34 to facility operating license No. DPR-36, issued to Maine Yankee Atomic Power Co. (the licensee), which revised technical specifications for operation of the Maine Yankee Atomic Power Station (the facility) located in Lincoln County, Maine. The amendment is effective as of its date of issuance.

The amendment revises the administrative controls section of the technical specifications.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d) (4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see: (1) The application for amendment dated June 6, 1975, as supplemented May 25, 1977, (2) amendment No. 34 to license No. DPR-36, and (3) the Commission's related safety evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Wiscasset Public Library Association, High Street, Wiscasset, Maine. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 11th day of January 1978.

For the Nuclear Regulatory Commission.

## SMALL BUSINESS ADMINISTRATION

[License No. 10/13-0025]

## ALASKA BUSINESS INVESTMENT CORP.

## Surrender of License

Notice is hereby given that Alaska Business Investment Corp. (ABIC), National Bank of Alaska Building, Anchorage, Alaska 99501, incorporated under the laws of the State of Alaska on December 3, 1969, has surrendered its license No. 12/13-0025, issued by the Small Business Administration (SBA) on February 20, 1970.

ABIC has complied with all the conditions set forth by SBA for the surrender of its license. Therefore, under the authority vested by the Small Business Investment Act of 1958, as amended, and pursuant to the regulations promulgated thereunder, the surrender of the license of ABIC is hereby accepted and it is no longer licensed to operate as a small business investment company.

Dated: January 6, 1978.

## AUTOMOTIVE FUEL ECONOMY PROGRAM

## Report to Congress

JANUARY 10, 1978.

The attached document "Automotive Fuel Economy Program, Second Annual Report to Congress" has been prepared pursuant to Section 502(a)(2) of the Motor Vehicle Information and Cost Savings Act (Pub. L. 92-513), as amended by the Energy Policy and Conservation Act (Pub. L. 94-163), which requires in pertinent part that "not later than January 15 of each year, beginning in 1977, the Secretary shall transmit to each House of Congress, and publish in the FEDERAL REGISTER a review of average fuel economy standards under this part."

JOAN CLAYBROOK,  
Administrator.Hon. WALTER F. MONDALE,  
President of the Senate,  
Washington, D.C.

JANUARY 16, 1978.

DEAR MR. PRESIDENT: Transmitted herewith is the second annual report to the Congress reviewing the progress made in formulating average automotive fuel economy standards, as required by section 502(a)(2) of the Energy Policy and Conservation Act (Pub. L. 94-163).

Sincerely,

BROCK ADAMS,  
Secretary of Transportation.Hon. THOMAS P. O'NEILL,  
Speaker of the House of Representatives,  
Washington, D.C.

JANUARY 16, 1978.

DEAR MR. SPEAKER: Transmitted herewith is the second annual report to the Congress reviewing the progress made in formulating average automotive fuel economy standards, as required by section 502(a)(2) of the Energy Policy and Conservation Act (Pub. L. 94-163).

Sincerely,

BROCK ADAMS,  
Secretary of Transportation.

## PREFACE

This Second Annual Report to the Congress summarizes the progress made by the National Highway Traffic Safety Administration (NHTSA) during fiscal year 1977,<sup>1</sup> in implementation of the applicable sections of Title V: Improving Automotive Efficiency of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1901 *et seq.*) as amended. Section 502(a)2 of the act requires submission of a report and publication in the *Federal Register* (F.R.) by January 15 of each year.

By title V, the Secretary of Transportation is required to implement a program for improving the fuel economy of new automobiles in the U.S. market. On June 22, 1976, authority to administer the fuel economy program was delegated by the Secretary to the Administrator of NHTSA (41 F.R. 25015).

NHTSA's responsibilities include (1) establishing average fuel economy standards for manufacturers of passenger automobiles and nonpassenger automobiles (light-duty trucks, vans, general utility vehicles); (2) promulgating regulations concerning procedures, definitions, and reports necessary to support the fuel economy standards; (3) enforcing automobile industry compliance with the fuel economy standards and the display of Gas Mileage Guides by new automobile dealerships; and (4) reporting to Congress annually on the progress of the fuel economy program.

<sup>1</sup>October 1, 1976, to September 30, 1977.

FEDERAL REGISTER, VOL. 43, NO. 15—MONDAY, JANUARY 23, 1978

## 1. SUMMARY

During fiscal year (FY) 1977, the Office of Automotive Fuel Economy (OAFE), National Highway Traffic Safety Administration (NHTSA), in accordance with the provisions of the act accomplished the following:

- Established average<sup>1</sup> passenger automobile (PA) fuel economy standards for the model years (MY's) 1981 through 1984.
- Established average nonpassenger<sup>2</sup> automobile (NPA) fuel economy standards for MY 1979.
- Promulgated regulations establishing procedures, definitions, and reports to support passenger and nonpassenger automobile fuel economy standards.

## PASSENGER AUTOMOBILE FUEL ECONOMY STANDARDS

On June 30, 1977, average passenger automobile fuel economy standards were published for MY 1981, 1982, 1983, and 1984 as 22 miles per gallon (mpg), 24 mpg, 26 mpg, and 27 mpg, respectively. The standards were set to achieve steady progress toward 27.5 mpg by 1985 in light of technological feasibility, economic practicability, the effect of other motor vehicle standards, and the need of the Nation to conserve energy.

The 1981-84 average fuel economy standards are estimated to result in savings of 590,000 barrels per day in 1985 and 1.2 million barrels per day in 1995 over what could be achieved if the standards were held at the 1980 level of 20 mpg. By 1995, this will mean a cumulative savings of 4.3 billion barrels, about half of the oil reserves in northern Alaska. When discounted to 1980, this oil is worth about \$24 billion.

<sup>1</sup>Average refers to production-weighted average. For a discussion of production-weighted or sales-weighted average, see the First Annual Report to Congress on Automotive Fuel Economy, January 15, 1977.

<sup>2</sup>Nonpassenger automobiles in this context refer to light-duty pickup trucks, vans, and general utility vehicles with and without four-wheel drive and weighing less than 6,000 pounds GVWR (gross vehicle weight rating). (GVWR is the maximum allowable weight of the loaded vehicle.)

Over the long term, consumers can expect the fuel economy standards to save them money. Retail prices are expected to increase less than \$200 (in 1977 dollars) over the 4-year period to pay for the manufacturing costs of more fuel-efficient automobiles. This is an increase of \$49 per year, or an annual increase of less than 1 percent of the current vehicle price. The potential retail price increases, however, are more than offset by decreases in the owner's lifetime fuel costs. Gasoline savings, based on a constant 65¢ per gallon, exceed \$640 per automobile (discounted) over its life. When included with increases in initial purchase price and maintenance costs, consumers will save \$490 compared with the base MY 1980. The overall economic effect to the consumer of the fuel economy standard is expected to be a net savings, due to better fuel economy and anticipated reduced maintenance over the life of the automobile.

NHTSA estimates that between 1977 and 1981 the domestic automobile industry will have to spend \$4.6 billion for machinery and special tooling in addition to the \$8.1 billion that it would ordinarily have spent. Between 1977 and 1984, this figure is expected to be \$6.7 billion over the normal \$9.5 billion.

## NONPASSENGER AUTOMOBILE FUEL ECONOMY STANDARDS

On March 14, 1977, average fuel economy standards for nonpassenger automobiles were announced for MY 1979 as 17.2 mpg for vehicles such as light-duty pickup trucks, vans, and campers and 15.8 mpg for general utility vehicles with a gross vehicle weight rating (GVWR) of less than 6,000 pounds. These standards were set 18 months prior to the model year being regulated and also were developed in view of technological feasibility, economic practicability, the effect of other motor vehicle standards (i.e., emissions, safety, noise), and the need of the Nation to conserve energy.

Assuming that all fuel economy measures and their impacts are attributable to the standard, the annual savings of petroleum over MY 1976 levels for MY 1979 NPA's will be 6,684 barrels per day. This will mean a

the NPA fleet.<sup>3</sup>

In the final impact assessment (FIA), it was estimated that the fuel economy standard will impose an additional cost of about \$10.8 million<sup>4</sup> (about \$11 per NPA) on the domestic manufacturers of NPA's. The cost to consumers could increase to \$22 per NPA, assuming 100 percent markup. The operator of an NPA would save about 104 gallons per year over 11,000 miles. At 65¢ per gallon, this amounts to \$67.60 per year, or \$415.33 (discounted) for the lifetime of the vehicle.

## FUEL ECONOMY REGULATIONS

In order to conduct and administer the fuel economy regulatory program for passenger and nonpassenger automobiles, regulations concerning definitions, procedures, and reporting also were promulgated. Each regulation is described below.

## Vehicle Classification (Definitional Regulation)

Although the act defines "automobiles" of 6,000 pounds GVWR or less, only the guiding elements are provided for vehicles that weigh between 6,000 and 10,000 pounds GVWR. On July 28, 1977, NHTSA published a final rule that defines which vehicles are "passenger automobiles," "nonpassenger automobiles," and "automobiles capable of off-highway operation."

## Manufacturers of Multistage Automobiles (Definitional Regulation)

Some automobiles are manufactured in more than one stage (e.g., ambulances, chassis-mount campers, special-body vans, and special-purpose trucks where structures are added to the chassis-cabs). A final rule assigning manufacturer responsibility for fuel economy of these vehicles was published in the *Federal Register* on July 28, 1977.

## Exemption from Average Fuel Economy Standards (Procedural Regulation)

The act contains a provision for low-volume manufacturers (i.e., those who produce less than 10,000 passenger automobiles per year in all markets) to apply for

<sup>3</sup>The lifetime of the NPA fleet is considered to be approximately 10 years.

<sup>4</sup>All costs calculated in 1976 dollars and based on the 1976 MY.

final rule was published on July 28, 1977, describing the procedures.

## Reductions of Passenger Automobile Average Fuel Economy Standards (Procedural Regulation)

The act directs the Secretary to prescribe by rule the methodology for handling petitions from passenger automobile manufacturers who request reductions in average fuel economy standards (MY 1978-80) that would compensate for any adverse fuel economy impact of more stringent Federal motor vehicle standards in the areas of emissions, safety, damageability, or noise. The Notice of Proposed Rulemaking (NPRM) was issued in FY 1977, and the final rule was issued in early FY 1978.<sup>5</sup>

## Automotive Fuel Economy Reports (Reporting Regulation)

Section 505(c) of the act requires the Secretary to promulgate rules governing the form and content of information to be submitted semiannually by the automobile manufacturers, specifying whether and how they will comply with applicable fuel economy standards. A final rule concerning Automotive Fuel Economy Reports was issued in early FY 1978.<sup>6</sup>

## COMPLIANCE

The act also specifically delineates PA fuel economy standards as 18 mpg, 19 mpg, and 20 mpg for MY's 1978, 1979, and 1980, respectively. In view of the progress of the automotive industry and manufacturers in improving fuel economy, and based on preliminary Environmental Protection Agency (EPA) projections, NHTSA does not anticipate any problem with foreign and domestic manufacturers complying with the 1978 MY fuel economy standard of 18 mpg.

One of NHTSA's specific responsibilities is enforcement of the regulations prescribed under section 506(b) of the act regarding public availability of a Gas Mileage Guide. Fuel economy measurements for the Gas Mileage Guide are made by EPA; the guide is published and distributed to automobile dealers by the Federal Energy Administration (FEA).<sup>7</sup> NHTSA enforces regulations

<sup>5</sup>Final rule published November 14, 1977.

<sup>6</sup>Final rule published December 12, 1977.

<sup>7</sup>FEA became part of the new Department of Energy (DOE) October 1, 1977.

regarding display of the Gas Mileage Guide by new automobile dealers.

A nationwide survey conducted by NHTSA found that approximately 60 percent of the new automobile dealerships were not in compliance with the law in that they were not prominently displaying the Gas Mileage Guide for consumers. As a result of this survey, letters were mailed to 26,000 dealerships apprising them of their responsibilities. NHTSA is developing an enforcement plan.

#### RESEARCH AND DEVELOPMENT

Research and Development (R. & D.) was instrumental in supporting development of the 1981-84 passenger automobile fuel economy standards and of the 1979 NPA fuel economy standard. R. & D. also provided essential support in the development of proposed 1980-81 NPA fuel economy standards issued in early FY 1978. In addition, R. & D. support has assembled the analytical tools, data bases, and models necessary for the development of 1984-86 PA fuel economy standards, which will be announced by January 1979. The 1984 and 1985 standards will be reevaluated, and the new

1986 standard will be set. Much of the R. & D. was accomplished through and with the Transportation Systems Center (TSC) in Cambridge, Mass.

In FY 1977, approximately \$5.1 million was spent on contracts with the private sector in direct support of rulemaking. It is projected that there will be \$7.3 million in FY-1978 R. & D. contract support in this area.

#### FUTURE RULEMAKING ACTIVITIES

Future fuel economy standards under consideration by the NHTSA Administrator at this time are:

- 1980-81 Nonpassenger Automobile Fuel Economy Standards.<sup>8</sup>
- Modified 1984 and 1985 Passenger Automobile Fuel Economy Standards.
- 1986 Passenger Automobile Fuel Economy Standards.

Table 1 summarizes OAFE rulemaking activities for FY 1977.

<sup>8</sup>NPRM issued December 15, 1977.

## 2. BACKGROUND

The fuel efficiency of automobiles warrants concern at the Federal level because of the total dependence of this transportation mode on petroleum. The Arab oil embargo of 1973-74 demonstrated to this Nation the vulnerability of automobile transportation to increased petroleum prices and unstable petroleum sources. Because the demand for imported petroleum products is projected to increase substantially over the next two decades, evolutionary automotive technological improvements in fuel economy are necessary to easing the dependence on foreign oil.

### PETROLEUM SHORTAGE PROBLEM

Virtually all fuels used in transportation are derived from petroleum. In 1976, 9.5 million barrels per day

(Mbd) (fig. 1), more than half the total U.S. petroleum consumption (fig. 2), was used in transportation. Of this amount, more than 60 percent was consumed by automobiles. The daily average amount of gasoline used in all U.S. vehicles for 1975, 1976, and 1977 is shown, by month, in figure 3. Based upon information received from 31 States, gasoline consumption during 1977 is averaging 7.3 million barrels per day.

Figure 4 shows the relationship between passenger automobile fuel consumption and total vehicle miles traveled for the years 1950 through 1975. During this period, vehicle miles traveled have increased by a factor of 2.5, while fuel consumption increased from 6.7 to 7.6 gallons for each 100 miles traveled. The average fuel economy for all U.S. passenger automobiles in the fleet (both new and used automobiles) deteriorated from

Figure 1.—U.S. energy consumption by sector, 1976.

Figure 3.—Gasoline consumption (1975-77).

about 15 mpg in 1950 to 13.5 mpg in 1974. Consumption of PA fuel almost doubled between 1960 and 1973. After a temporary decline at the time of the Arab oil embargo, consumption rose again, and figure 5 shows that almost 75 billion gallons of fuel were used in passenger automobiles during 1975.

The Nation is increasingly dependent on uncertain foreign oil supply. Total imports of petroleum products have grown from some 20 percent of our requirements in 1970 to nearly 50 percent in 1977 (fig. 6). Petroleum imports for calendar years 1975, 1976, and through July of 1977, shown in figure 7, reached a peak of more than 10 million barrels per day in February and March 1977, at the height of that particularly severe winter. During the past 7 years, imports from the Organization of Petroleum Exporting Countries (OPEC) have increased dramatically, from 2 percent to 19 percent. Prior to the 1973-74 oil embargo, only about 8 percent of our petroleum demand was supplied by these OPEC nations.

<sup>1</sup>Highway Statistics, Federal Highway Administration.  
<sup>2</sup>Department of Transportation News.

Figure 4.—Fuel consumption and vehicle travel (1950-75).

Source: Highway Statistics, Federal Highway Administration.

Figure 5.—Passenger automobile fuel consumption (1960-77).

Long-range projections show that, if present consumption trends continue, domestic and world sources combined will be unable to meet the expected U.S. demand for petroleum. Figure 8 projects oil demand and supply to 1985 and estimates OPEC production requirements. It also demonstrates that the supply/demand gap for OPEC oil should begin in the early 1980's. A more recent study sponsored by the Massachusetts Institute of Technology (MIT) estimates that the supply/demand gap will appear as early as 1981, if production capability remains the same as it is today.

The retail price of motor gasoline (excluding taxes) has moved from about 23¢ per gallon in 1968 to about 46¢ per gallon in 1976. Prices increased at an annual rate ranging from 1 to 3 percent from 1968 through 1973 and then increased rapidly in 1974 and 1975 (50.4 percent in 1974 and 8.4 percent in 1975). These prices are in current dollars and indicate a more than doubling in the retail price. However, when these prices are adjusted using the Consumer Price Index, the increase was

Figure 7.—Total petroleum imports.

only 27 percent in real (1967) dollars, and most of this increase actually occurred in 1974 (about 22¢ in 1968 to 29¢ in 1976). In fact, there was a gradual decrease in the real cost of gasoline between 1968 and 1973 (about 22¢ in 1968 to about 20¢ in 1973). Furthermore, it is anticipated that the price of gasoline will continue to rise, at least in current dollars, in the future for two reasons. First, the acquisition costs (drilling, pumping, refining, etc.) certainly will increase, especially with greater reliance on imported oil. Second, State taxes placed on gasoline probably will be increased due to decreased gasoline consumption. Thus, it is important to bear in mind that if prices do increase from the assumed 65¢ per gal-

Figure 8.—OPEC oil: The supply/demand gap.

lon (including taxes), the benefits to the consumer from more fuel-efficient vehicles also will increase.

### AUTOMOBILE PETROLEUM CONSERVATION

Technological improvements to the automobile that will provide for the more efficient use of fuel have great potential for significantly reducing the projected demand for petroleum within the next 15 years. The automobile manufacturers will have the prime responsibility for producing fuel-efficient automobiles that will ease the domestic petroleum demand. The magnitude of their responsibility, as defined by the act, can be seen in the fact that, by law, each manufacturer's passenger automobile fleet must attain an average of 18, 19, and 20 mpg in the years 1978, 1979, and 1980, respectively, with steady progress toward 27.5 mpg by 1985. In addition, the industry must meet the standards set by the Secretary of Transportation for passenger automobiles for the interim years 1981, 1982, 1983, and 1984 and for nonpassenger automobiles for MY 1979.

Before the Energy Policy and Conservation Act (EPCA) amended the Motor Vehicle Information and Cost Savings Act to include Title V: Improving Automotive Efficiency, the automobile industry and manufacturers were already voluntarily working, with Federal guidance, toward the production of more fuel-efficient automobiles. The Automobile Voluntary Fuel Economy Program, announced October 8, 1974, had as its goal a 40-percent improvement in automotive fuel economy,

<sup>1</sup>1965-76—historical, 1977—estimated, 1978-85—standards.

Figure 9.—New automobile fleet average fuel economy.

to be achieved in the 1980 MY new automobile fleet. This achievement was projected to yield a production-weighted average of 19.6 mpg for the 1980 fleet, compared with 14 mpg for 1974. To achieve the 19.6 mpg goal for 1980, a specific goal of 18.7 mpg was suggested for the three largest U.S. manufacturers and a goal of 24.7 mpg for the average fuel economy for all other manufacturers.

### ACHIEVEMENTS OF THE AUTOMOBILE INDUSTRY IN IMPROVING FUEL ECONOMY

Until 1974, the fuel economy of new domestic automobiles steadily declined from an average of 14.8 in 1967 to 12.9 in 1974. Starting with MY 1975, this trend was reversed, with new automobile fleet average fuel economy values of 14.4, 16.8, and 17.5 mpg for 1975, 1976, and 1977, respectively. These trends are shown in figure 9. For 1978, EPA projections indicate that domestic manufacturers will achieve a fleet average fuel economy of 18.6. EPA also has projected the corporate average fuel economy of several foreign manufacturers for 1978 including Mazda, 35.1 mpg; Subaru, 31.6 mpg; Renault, 30.7 mpg; Peugeot (diesel), 28.8 mpg; and

Saab, 22.7 mpg. Table 2 summarizes the achievements of the automobile industry in improving the fuel economy of their products.

It can be seen that as of MY 1978, the foreign and domestic fleets have almost met or are exceeding the goals set by the Automobile Voluntary Fuel Economy Improvement Program. It is evident also that the MY 1978 fuel economy standard of 18 mpg set by the act will be exceeded by both foreign and domestic fleets.

Manufacturer improvements in fuel economy were achieved in a number of ways. In 1977, General Motors (G.M.) reduced the weight of its full-size automobiles between 650 to 950 pounds, by downsizing (i.e., making automobiles lighter in weight and smaller in outside dimensions) and material substitutions. In 1978, G.M.'s mid-size automobiles were reduced in weight by 550 to 850 pounds; diesel engines were introduced in light-duty trucks and three Oldsmobile models,<sup>1</sup> and a turbocharged six-cylinder engine was introduced in two Buick models.<sup>2</sup> Ford's major effort in weight reduction began in 1978 with the introduction of the Fairmont and

<sup>1</sup>Olds 98, 88, and Custom Cruiser.

<sup>2</sup>Regal and LeSabre sport coupes.

Table 2.—Estimates of passenger automobile fuel economy

Model year	Domestic fleet average (mpg)	Import fleet average (mpg)	Total fleet average (mpg)
1974.....	<sup>1</sup> 12.9	<sup>2</sup> 21.9	<sup>3</sup> 13.9
1975.....	<sup>1</sup> 14.4	<sup>2</sup> 24.5	<sup>3</sup> 15.6

<sup>1</sup>Domestic fleet averages calculated from sources 2 and 3, below, using U.S. model year sales figures (1975, 1976, and 1977 *Wards Auto Yearbook*) for General Motors (G.M.), Ford, Chrysler, and American Motors Corp.

<sup>2</sup>Obtained from Monitoring Report, Automotive Fuel Economy Improvement Program. Report No. PM-T-50. B. Basham, S. Powel, G. Gould, and R. Mauri, Transportation Systems Center, December 20, 1975.

<sup>3</sup>Obtained from EPA Passenger Car Fuel Economy Trends through 1976 (October 1975 and 1976).

<sup>4</sup>Derived from NHTSA/OAFE Data Base (import data base incomplete).

<sup>5</sup>Letter from Mr. Douglas Costell, Administrator, EPA, to Mr. Brock Adams, Secretary of Transportation, Nov. 10, 1977. A corporate average for General Motors was missing because EPA compliance testing of G.M. products was still underway. This was also the case with Chrysler's Omni and Horizon models to be introduced mid-MY 1978. A corporate fleet average projected for MY 1978 and provided by G.M. was substituted in order to calculate the domestic fleet average for this table.

<sup>6</sup>Incomplete. See EPA projections for Mazda, Subaru, Renault, Peugeot, and Saab, previously described.

<sup>7</sup>Calculated from source 5 and from 1976 import fleet data source 2 above.

Zephyr models, which are approximately 300 pounds lighter than the models they replace. Chrysler will introduce its front-wheel drive subcompacts (Omni and Horizon) in MY 1978 and has introduced an improved automatic transmission with lockup torque converter in some models. Examples are shown in figure 10.

#### OTHER DEPARTMENT OF TRANSPORTATION ENERGY CONSERVATION PROJECTS

The NHTSA fuel economy project is one of five major Department of Transportation (DOT) energy conservation projects. The other projects are the Voluntary Truck and Bus Fuel Economy Program, 55-Miles-Per-Hour (mph) National Speed Limit, Right-Turn-On-Red

Rule, and Transportation Energy Efficiency Program (TEEP).

#### Voluntary Truck and Bus Fuel Economy Program

In 1975, DOT, FEA, and EPA initiated a joint Industry/Government Voluntary Truck and Bus Fuel Economy Improvement Program. The program is designed to encourage manufacturers and users of commercial vehicles to voluntarily improve fuel economy through such actions as (1) developing and offering more fuel-efficient products; (2) conducting and reporting on fuel economy tests; (3) providing fuel economy product information; (4) advertising and training programs; (5) purchasing fuel-efficient new vehicles and add-on or replacement components (e.g., engine modifications, radial tires, installation of retrofit devices on trucks to reduce aerodynamic drag); (6) developing, conducting, and supporting driver training and motivation programs; and (7) providing forums for the exchange of information on fuel economy. The program is concerned with trucks and buses with a GVWR of 10,000 pounds or more. An informal survey conducted by DOT indicates that fuel economy improvements can effect a savings of 155 million gallons of fuel per year in the MY 1976 heavy-duty truck fleet alone.

#### National 55-mph Speed Limit

The national 55-mph speed limit was instituted with temporary legislation during the 1973 oil embargo and enacted permanently on January 4, 1975. In the year following enactment, the Federal Highway Administration (FHWA) monitoring program estimated that average speed decreased about 5 mph. The most important impact of the reduced speed limit has been on safety. However, some significant fuel savings also have resulted. The reduction in highway vehicle fuel consumption attributable to the new speed limit in 1975 was estimated at from 0.8 percent (about 65,000 barrels per day) to 2.9 percent (about 235,000 barrels per day) below what would have been expected based on preembargo growth rates.

#### Right-Turn-On-Red Rule

The act urges all States to voluntarily adopt the right-turn-on-red rule as an energy conservation measure. Allowing drivers to make right turns after coming to a complete stop at red lights reduces excessive idling time and can result in estimated savings of 3.2-4.4 million barrels per year, or 9,000-12,000 barrels per day.

Figure 10.—Examples of downsized automobiles and new product offerings to improve fuel economy for MY 1978.

**Transportation Energy Efficiency Program**

This R. & D. program, sponsored by the Office of the Secretary, has several major subprograms to assess and evaluate practical ways of conserving energy within the various modes of transportation. The Vehicles In Use Energy Conservation subprogram examines techniques that potentially can save fuel for the automobiles and light-duty trucks in the national fleet. The Truck Fuel Economy subprogram provides R. & D. support to assess the potential improvements in fuel economy of trucks and buses at and above 10,000 pounds GVWR. The Automotive Technology subprogram assesses the means available to the Federal Government to stimulate more rapid development and implementation of improved technology by the automotive industry.

**THE NATIONAL ENERGY PLAN AND THE AUTOMOTIVE FUEL ECONOMY PROGRAM**

The importance of automotive fuel economy standards becomes obvious when this activity is considered in relation to the proposed National Energy Goals an-

nounced April 20, 1977, by President Carter. Four major national goals for 1985 are:

- Reduce the annual growth of total energy demand to below 2 percent.
- Reduce gasoline consumption 10 percent below the 1977 level.
- Reduce oil imports from a potential level of 16 Mbd to 6 Mbd.
- Establish a strategic petroleum reserve of 1 billion barrels.

In the conservation section of the President's plan, four elements have a direct impact on automotive fuel economy standards:

- Automotive efficiency standards (beyond 1985).
- Efficiency standards for light-duty trucks.
- Gas-guzzler tax and rebate.
- Standby gasoline tax.

Automotive efficiency standards (beyond 1985) and efficiency standards for light-duty trucks are NHTSA responsibilities under the Automotive Fuel Economy Program. The gas-guzzler tax and rebate and the standby gasoline tax have been or are being considered by Congress.

**3. PASSENGER AUTOMOBILE STANDARDS****RULEMAKING DURING FY 1977**

During FY 1977, comments received on the Advanced Notice of Proposed Rulemaking (ANPRM) for establishing fuel economy standards for passenger automobiles of MY 1981-84 were reviewed and analyzed. Comments were received from representatives of the domestic and import automobile manufacturers, industry associations, public interest groups, individual citizens, and Government agencies. The comments were used in formulating a NPRM, which was issued on February 15, 1977. Concurrently, a notice of public hearings to be held in March 1977 was issued. The hearings represented the first application by the Secretary of Transportation of a new program in which participation of public interest groups, which otherwise might be economically unable to participate, was supported in part by DOT funding. Five such public interest groups,<sup>1</sup> along with domestic and import automobile manufacturers, participated in the hearings, which were chaired by the Secretary, and included a panel composed of the Secretary, the FEA Administrator, and the EPA Deputy Administrator.

In addition to the information gained from comments and hearings, data were obtained from foreign automobile manufacturers, domestic suppliers, and other sources by the use of "special orders" requiring response to specific questions. These special orders were issued under section 505(b) of title V of the Motor Vehicle Information and Cost Savings Act as amended.

Concurrently with the rulemaking, DOT exerted maximum effort in the area of research and analysis toward the development of a data base and analysis to support its position for formulating the MY 1981-84 PA fuel economy standards. On February 28, 1977, prior to the public hearings and before the closing date for NPRM comments, five support documents were made available for review and comment by all participants. The titles of these reports are:

<sup>1</sup>Public Interest Campaign, Environmental Defense Fund, Public Interest Economic Foundation, Center for Auto Safety, and Citizens for Clean Air, Inc.

- Automobile Manufacturing Processes and Costs.
- Financial Analyses of U.S. Automotive Manufacturers.

**DETERMINING THE 1981-84 AVERAGE FUEL ECONOMY STANDARDS**

In setting standards for the 1981-84 period, it was necessary to consider the options for improving fuel economy that are available to automobile manufacturers. These options include weight reduction through downsizing and material substitution; engine and transmission improvements; reduced acceleration performance; and alternative engines such as the diesel, stratified charge, and variable displacement. Other technological advances can be made in the area of aerodynamics, lubricants, accessories, and rolling resistance.

The final selection of the 1981-84 average fuel economy standards was based on a number of considerations:

- Rapid, but not unreasonable, introduction of technology.
- A 10-percent reduction in average vehicle acceleration.
- Allowing a wide range of technical and marketing options by the industry.

Shifts in the mix of automobile sizes (changes in the proportion of car class market by a manufacturer) and extensive use of diesel engines are not required to meet the standard, although both of these options could be used by industry in improving fuel economy, if desired. The NHTSA analysis assumed that the percent of automobiles in each size class (i.e., subcompact, compact, intermediate, and standard) would remain approximately constant during the 1981-84 period at the current values. The weights of each size are expected to decrease, however.

Based upon the rationale outlined above, the standards for MY 1981, 1982, 1983, and 1984 were set at 22, 24, 26, and 27 mpg, respectively. In arriving at these values, NHTSA has suggested a number of changes that can be made relative to the 1977 fleet. These include significant weight reduction, the phasing into production of advanced transmissions, improved lubricants, reduced loads for accessories, reduced aerodynamic drag and rolling resistance, and a modest (10 percent) reduction in vehicle acceleration capability. This decrease in acceleration capability, however, should not have an adverse impact on safety.

The steps taken by NHTSA in arriving at the feasible fuel economy schedules included:

- Determining the minimum feasible fleet averaged inertia weight.
- Selecting the minimum feasible fleet averaged acceleration performance.
- Determining the maximum fuel economy at 1977 technology and emissions levels.
- Selecting a feasible schedule for the introduction of certain other technological improvements.
- Considering the effects of other Federal standards.

One effective method of improving fuel economy is by reducing the weight of the vehicle. By MY 1981, the average inertia weight of automobiles produced by U.S. manufacturers is expected to drop 750 pounds from the average 4,200 pounds of the 1977 models. The average weight could decrease another 350 pounds by MY 1985.<sup>2</sup> This predicted decrease to an average weight of 3,100 pounds assumes the completion of the programs to produce lighter automobiles and the substitution of aluminum, plastics, and high-strength steel for heavier materials.

The analysis conducted by NHTSA for each domestic manufacturer predicts weight reductions as shown in table 3. These detailed projections are based on considerations of phased introduction of weight-reduction technology.

More information relating to the detailed procedures and analysis used by NHTSA to support the fuel economy standards selected is contained in the July 1977 "Rulemaking Support Paper Concerning the 1981-1984 Passenger Automobile Average Fuel Economy Standards." This document was issued simultaneously with the final rule for the 1981-84 fuel economy standards and summarizes the NHTSA position both technologically and economically. The paper discusses the meth-

<sup>2</sup> Average weight estimates are based on today's mix of car sizes.

odology employed; the resulting fuel conservation; the technology feasible in the period being considered; and the economic results to the consumer, the automobile industry, and the Nation.

Other documents issued by NHTSA simultaneously with the publication of the final rule include the FIA that deals with economic issues of the automotive fuel economy standards and the final environmental impact statement (FEIS).

The NHTSA analysis concludes that it is feasible for the three largest domestic manufacturers to be at or above the standard between 1981 and 1984. American Motors Corp. (AMC) will have to add more of the available technology from 1982 to 1984 in order to meet the standards. The new president of AMC recently stated that his company would be able to meet the 27.5 mpg standard in the early 1980's.<sup>3</sup> All the manufacturers are expected to be able to meet the current 1985 standard of 27.5 mpg, with most predicted to attain above 28 mpg. The projected average fuel economy by model year for each of the domestic manufacturers is shown in table 4.

#### PREDICTED IMPACT OF 1981-84 PASSENGER AUTOMOBILE FUEL ECONOMY STANDARDS

The automobile fuel economy standards will have an effect on the consumer, the industry, and the Nation. For the consumer, the result will be more fuel-efficient automobiles. The industry has started to downsize automobiles. Passenger and luggage space will remain the same. Consumers will still have a variety of models from which to choose.

Over the long term, consumers can expect the fuel economy standards to save them money. Retail prices are expected to increase less than \$200 (in 1977 dollars) over the 4-year period to pay for the manufacturing costs of more fuel-efficient automobiles. This is an increase of \$49 per year, or an annual increase of less than 1 percent of the current vehicle price. The potential retail price increases, however, are more than offset by decreases in the owner's lifetime fuel costs. Gasoline savings, based on a constant 65¢ per gallon, exceed \$640 per car (discounted) over its life. When included with increases in initial purchase price and maintenance costs, each automobile will save consumers \$490 compared with the base MY 1980. The net effect to the consumer of the fuel economy standards is expected to be a savings.

<sup>3</sup> *Wards Auto World*, June 1977, p. 30.

Table 3.—Projected fleet average inertia weight, in pounds, by model year (without mix shifts)

Manufacturer	Model year					
	1977	1981	1982	1983	1984	1985
G.M.	4,200	3,550	3,500	3,300	3,100	3,100
Ford	4,270	3,360	3,290	3,170	3,090	3,070
Chrysler	4,260	3,258	3,232	3,145	3,145	3,145
AMC	3,540	3,122	3,122	3,122	3,067	2,834

Table 4.—Projected average fuel economy of domestic manufacturers (in miles per gallon)

Manufacturer	Model year				
	1981	1982	1983	1984	1985
G.M.	23.3	24.2	26.5	28.8	28.9
Ford	23.4	24.5	26.1	27.0	27.9
Chrysler	23.8	25.1	26.3	28.1	28.7
AMC	22.2	22.6	23.1	24.7	28.7

The automobile industry and its suppliers are not projected to experience major economic changes as a result of these standards. The total sales of automobiles should rise due to natural demand factors. It is not anticipated that capital availability will be a limiting factor. Each year automobile manufacturers invest billions of dollars in model changes and general product improvement. Some additional investment can be expected due to the imposition of the average fuel economy standards. NHTSA estimates that between 1977 and 1981 the domestic automobile industry will have to spend \$4.6 billion for machinery and special tooling in addition to the \$8.1 billion that it ordinarily would have spent. Between 1977 and 1984, this figure is expected to be \$6.7 billion over the normal \$9.5 billion.

The impact of retail price increases on sales has been evaluated with the use of the Wharton Econometric Demand Model. The dotted curve in figure 11 shows the effect of a hypothetical cumulative price increase of 8 percent, or about \$400 by 1985.

The most significant national impact will be the reduction in the need to import oil. The 1981-84 average fuel economy standards are projected to result in savings of 590,000 barrels of oil per day in 1985 and 1.2 Mbd in 1995 over what could be achieved if the standards were held at the 1980 level of 20 mpg. By 1995, this will mean a cumulative savings of 4.3 billion barrels, about half of the oil reserves in northern Alaska. When dis-

counted to 1980 at a 10-percent per-annum rate, this oil is worth about \$24 billion, assuming \$13.50 per barrel.

Without the 1981-84 fuel economy standards (if the 1980 standard of 20 mpg is retained), the total annual consumption of gasoline would experience a slight dip from the current value of 74 billion gallons per year to about 71 billion gallons in 1985 (fig. 12). It would then begin to rise about 1990 and be at about 82 billion gallons in the year 2000. The fuel economy standards will cause gasoline consumption to decrease to 54 billion gallons in 1991 and remain below the current level until beyond the year 2000. The post-1985 estimate assumes that new automobile average fuel economy will remain constant at 27.5 mpg.

With respect to the environment, it should be noted that, since automobile emission standards are specified on a per-mile basis, improving fuel economy will have no effect on air pollution per se. However, there will be desirable secondary environmental effects, including reductions in the need to mine and convert coal or oil shale to liquid fuel, quantity of fuel handled, and in the amount of raw materials required in automobile production.

Fuel economy standards that would require the widespread use of diesel engines do pose environmental concerns, since the effects on health of unregulated emittants currently are unknown. Widespread use of diesel engines may increase particulates and polynuclear aro-

Figure 11.—Effects of price changes on projected U.S. automobile sales.

matics, which can be chemically and biologically active and may constitute a health hazard. EPA is presently studying the problem, coordinating with DOT, and may issue standards for the control of such emissions in the future.

The increased use of diesel engines and smaller and lighter vehicles with smaller spark ignition engines could present a noise problem. Corrective measures, such as increased use of sound-baffling material, are feasible, however. Such design changes could result in a fuel economy penalty because of the added weight. If noise regulations are promulgated by EPA, the trade-offs between noise and fuel economy will be evaluated. In this regard, NHTSA has initiated studies at TSC to determine these trade-offs, particularly in the areas of engine noise and vehicle noise.

The increased use of aluminum, plastics, and high-strength steel in downsized vehicles could result in an improvement in water quality and supply, since the de-

crease in the amount of cast iron and steel being processed would be significant. At the same time, using more plastics could add to the solid-waste disposal problem. As the price of oil and the amount of petroleum imports continue upward, however, it is expected that more plastics will be recycled.

#### CHANGES IN PASSENGER AUTOMOBILE DESIGN

Implementation of fuel economy standards has resulted in additional and accelerated action by vehicle manufacturers, as is evident in their 1977 and 1978 Passenger Automobile fleets. Plans that will further improve fuel economy recently have been announced. Some of these plans (e.g., weight reduction, improved transmissions, improved aerodynamics) are discussed later in this

Figure 12.—Gasoline consumption by passenger automobiles for 1981-84 average fuel economy standards.

section. Highlights of specific actions already implemented or planned by the major manufacturers are discussed below.

General Motors reduced the weight of its full-size MY 1977 automobiles by 650 to 950 pounds, by downsizing and material substitutions (figs. 13 and 14). Its mid-size MY 1978 automobiles have been reduced by 550 to 850 pounds. Ford's MY 1978 Fairmont and Zephyr are approximately 300 pounds lighter than the automobiles they replace. Chrysler has introduced its front-wheel drive subcompact in MY 1978. The redesigning to reduce weight includes more extensive use of aluminum in bumper systems, intake manifolds, wheels, brake drums, hoods, trunk lids, power-steering systems, pump housings, and radiator supports. High-strength light-weight alloy steels will be used in reinforced bumper systems, door impact beams, shock absorber mountings, upper and lower suspension arms, front side rails, and door structures. More plastics will be used in soft bumper systems, front and rear fascia, headlamp moldings, instrument panels, glove box doors, battery trays, air conditioner and heater cases, window and door handles, cowl panels, window louvers, power-steering pumps, and brake-fluid reservoirs.

Other innovations implemented or planned to improve fuel economy include further material substitutions—G.M.'s introduction of the diesel engine in trucks

and some Oldsmobile passenger automobiles in MY 1978; Chrysler's use of the lockup torque converter in MY 1978 transmissions; Ford's plans for introduction of the PROCO stratified charge engine, the split-torque transmission, and the variable displacement engine. Generally, more extensive use of front-wheel drive, diesel engines, and improved aerodynamics is anticipated for all manufacturers. The turbocharged engine, introduced by G.M. in MY 1978, will undoubtedly become more widespread.

Fuel economy improvements in lubricants and tires have been announced by the supplier industry. Foreign manufacturers have fewer problems in weight reduction but are increasing efforts to expand the use of diesel and, perhaps, stratified charge rotary engines and to reduce aerodynamic drag. Volkswagen has demonstrated a prototype research vehicle that features a turbocharged diesel engine and attains 60 mpg composite average fuel economy while complying with all emission and safety standards.

#### FUTURE PASSENGER AUTOMOBILE FUEL ECONOMY STANDARDS

To date, the major effort has been to develop the 1981-84 passenger automobile fuel economy standards.

3210

<sup>1</sup>Data from General Motors.

Figure 13.—Downsizing and material substitution.

3211

Figure 14.—Comparison of 1976 and 1977 vehicle dimensions demonstrating downsizing.

This task has been completed, and NHTSA has initiated a major research and development program to assess maximum feasible fuel economy standards for 1984-86 and beyond. The 1984 fuel economy standard set in July 1977 and the 1985 standard mandated by Congress will be reevaluated in view of changing technological and economic conditions. The act stipulates that the Secretary may, by rule, amend the standards for 1985 or any

subsequent year to a level that he determines to be the maximum feasible (subject to Congressional approval if outside the range of 26.0-27.5 mpg). The 1986 fuel economy standards for passenger automobiles will be a new standard subject to the above conditions. A likelihood exists that the maximum feasible levels for 1984, 1985, and 1986 will exceed the 27.5 mpg level set by Congress.

#### 4. NONPASSENGER AUTOMOBILE STANDARDS

##### FUEL ECONOMY STANDARD FOR MY 1979

NHTSA published a fuel economy standard for 1979 NPA's on March 14, 1977. The standard prescribes a fuel economy of 17.2 mpg for all NPA's except four-wheel drive, general utility vehicles, which must obtain a fuel economy of 15.8 mpg. Manufacturers are allowed the option of including vehicles in this class in their total NPA fleet and meeting the 17.2 mpg standard that is applicable to the fleet. The standard covers NPA's of not more than 6,000 pounds GVWR that are manufactured in MY 1979 and includes vehicles such as vans, pickup trucks, and general utility vehicles (such as the Jeep CJ-7 and other off-road vehicles) (fig. 15).

The standard for MY 1979 is based on NHTSA's interpretation of the manufacturers' voluntary product plans and several other considerations. First, because of a lack of basic data, NHTSA could not project the fuel economy level that could be achieved by manufacturers for NPA's rated over 6,000 pounds GVWR. Further, there was the possibility that there would be no appropriate fuel economy test procedure for these NPA's because EPA's proposed changes to the MY 1979 emission standard for light-duty trucks, which would add vehicles up to 8,500 pounds GVWR, were not put into effect until December 1976. This rulemaking action by EPA extended the applicability of the test procedure for passenger automobiles and light-duty trucks rated not over 6,000 pounds GVWR to light-duty trucks rated from 6,000 pounds through 8,500 pounds GVWR. For these reasons, NHTSA could not promulgate a fuel economy standard for NPA's rated over 6,000 pounds GVWR.

Second, many of these NPA's between 6,000 and 8,500 pounds GVWR are similar in most characteristics to NPA's rated less than 6,000 pounds GVWR. Thus, they would be a satisfactory substitute for many purchasers. Also, manufacturers could reate to a higher value those NPA's that were slightly below 6,000 pounds GVWR. Both of these actions would lower the overall level of fuel economy for NPA's. It was concluded that the fuel economy standard for MY 1979 should preclude these possibilities.

Third, the automobile manufacturers' ability to improve fuel economy by MY 1979 was somewhat limited

by the available short leadtime, especially for new vehicle designs.

Although the standard applies to all manufacturers of NPA's, standard development concentrated on domestic NPA's, since their fuel economy is considerably below that of imported NPA's (15.9 mpg for all domestic NPA's compared with 22.1 mpg for all imports in MY 1976). The baseline fuel economy from which fuel savings were determined included vehicles imported by Ford and G.M. (captive imports). Chrysler and AMC do not have captive imports at present. The standard for MY 1979 also includes the effect of captive imports on average fuel economy levels.

Assuming that all fuel economy measures and their impacts are attributable to the standard and not to manufacturers' voluntary actions, the savings of petroleum over MY 1976 levels for the MY 1979 nonpassenger fleet for both classes will be 6,684 barrels of oil per day. This will mean a savings of 24.40 million barrels for the lifetime of the 1979 fleet. The annual and lifetime savings in gasoline would be 0.1 percent of total national consumption, based on total national consumption of 102 billion gallons in 1975.

Additional savings in energy are likely to accrue from reductions in NPA weight and engine size, which would result in decreased demand for steel and cast iron. Savings of steel and cast iron are estimated to be 42 million pounds in MY 1979 over current levels of consumption, or 0.108 percent of total national consumption of 236.2 billion pounds recorded in 1975. The saving in energy that would have been used to produce and transport the steel and cast iron and in the manufacturing process is estimated at the equivalent in British Thermal Units (BTU's) of 123,000 barrels of oil, or 0.003 percent of the total national consumption of 4.5 billion barrels in 1975.

The reduction in steel and cast iron production could result in a small improvement in water quality and small decreases in industrial water supply demand and in stationary source air pollution. Since the reduction would be only 0.018 percent of total steel and cast iron production, however, this effect would be minor.

It is estimated that an additional 5.26 million pounds of plastics will be used as substitute materials for vehicle

Figure 15.—Typical examples of nonpassenger automobiles.

UMI

weight reduction. This is 0.025 percent of total national consumption of 21.2 billion pounds in 1975. The increased use of plastics will result in a one-time additional consumption of energy equivalent in BTU's to 38,100 barrels of oil, or 0.001 percent of the 1975 national consumption of 4.5 billion barrels. It also is estimated that an additional 5.26 million pounds of aluminum will be used as a substitute material for vehicle weight reduction. This is 0.055 percent of 1975 national consumption of aluminum of 9.6 billion pounds. The increased use of aluminum will result in a one-time additional consumption of energy equivalent in BTU's to 10,000 barrels of oil, or 0.002 percent of 1975 national consumption. Thus, this action is likely to result in an increase (15,000 barrels of oil equivalent) in the amount of energy required to manufacture these vehicles. This amount is insignificant, however, compared with the energy saving (18.1 to 29.7 million barrels of oil equivalent) in the operation of these vehicles due to their increased fuel economy. The increased use of plastics and aluminum could result in a small deterioration in water quality and a small increase in stationary source air pollution resulting from increased production. However, since the increase in use of plastics and aluminum is only 0.025 percent and 0.055 percent, respectively, of their total national consumption, these latter impacts should be minor.

Little change in air quality is anticipated because of the standard. EPA will be enforcing an emission standard for NPA's in MY 1979. The manufacturer will be required to optimize the vehicle design to meet the emission standard and the average fuel economy standard simultaneously. The fuel economy standard is not likely to provide additional improvement in air quality, since the EPA standard will be predominant.

In the FIA, it was estimated that the fuel economy standard will impose an additional cost of about \$10.8 million (about \$11 per NPA) on the domestic manufacturers of NPA's. This cost to consumers could increase to \$22 per NPA, assuming 100-percent markup. The operator of an NPA would save about 104 gallons per year over 11,000 miles. At 65¢ per gallon, this amounts to \$67.60 per year, or \$415.33 (discounted) for the lifetime of the vehicle. NHTSA concluded that the economic impact of this rule is minor.

#### FUEL ECONOMY STANDARDS FOR MY 1980 AND 1981

The second phase of rulemaking for NPA's is the setting of fuel economy standards for MY 1980 and 1981. These standards, like the standard for MY 1979, are constrained somewhat by the leadtime available for improve-

ments, especially on new models. Nevertheless, there has been considerable progress by the manufacturers in technology to improve the fuel economy of passenger automobiles, some of which can be applied to NPA's.

To determine industry plans, a questionnaire was sent in March 1977 to the five domestic manufacturers (AMC, Chrysler, Ford, G.M., and International Harvester) and to the importers of nonpassenger automobiles [Mercedes-Benz, Volkswagen (VW), and through the Automobile Importers of America for the other importers]. This questionnaire requested information on manufacturers' plans to improve the fuel economy of their vehicles. The questions were designed to identify specific plans that have been incorporated into production and to elicit information about research and development on such improved techniques as advanced engines and transmissions and reduced vehicle weight.

Meetings were held with the five major domestic manufacturers to discuss the questionnaire and, after receipt of their responses, to clarify details of the data provided. All NHTSA fuel economy research reports and prior fuel economy rulemaking records (such as the record on the MY 1981-84 PA standards) were reviewed for applicable information. Automotive publications were scanned for information relating to improvements not covered in the responses.

A major research effort was conducted to establish a data base from which to project the fleet fuel economy. This data base was built on information from MY 1977 EPA emission certification and fuel economy labeling data. Since the EPA data are available only for vehicles having a GVWR of 6,000 pounds or less, a linear regression was developed and used to extend the data base for vehicles of 6,001 to 8,500 pounds GVWR. This information, along with the 1976 sales information, was modified to reflect the projected 1977 trend in sales. Using this approach, a MY 1977 fuel economy fleet was established for each domestic manufacturer.

To verify information contained in publications on new models, a special order was prepared and sent to the five major domestic manufacturers of NPA's. Specific information was requested on the introduction of new models, changes in engine size, and new engine technology, as well as the application of new materials. Answers were incorporated into the analysis of each manufacturer's fleet.

Once the baseline fleet was established, it was adjusted to match the recommended classification option. Vehicles included had a GVWR in the range of 0 through 8,500 pounds, and those vehicles anticipated to have frontal areas exceeding 46 square feet (approximately 2 percent of the fleet) were eliminated. The remaining vehicles were separated into 4 X 2 (four wheels and two-

wheel drive) and 4 X 4 (four wheels and four-wheel drive) categories. Each vehicle then was analyzed for applicability of appropriate fuel economy improvements considering the following alternatives:

- Technological improvements (such as engine improvements, improved automatic transmissions, and reduced aerodynamic drag).
- The above, plus weight reduction.
- Both of the above, plus new models.
- All of the above, plus reduction in performance.

It is important to note that not all improvements apply equally to each vehicle or each manufacturer. The objective was to determine the maximum fleet average fuel economy for the two classes of vehicles, 4 X 2 and 4 X 4, and at the same time determine the maximum fleet average fuel economy levels for each manufacturer. The maximum level is not based on manufacturers' plans but on NHTSA estimates of what could be achieved in the absence of overriding contrary information.

The manufacturers have several ways by which to improve NPA fuel economy; NHTSA does not profess to know the optimum path for each manufacturer. Estimates are based on engineering analysis of data submitted by manufacturers and data gathered from research projects, trade journals, and newspapers.

To estimate the effect of technological improvements on domestic fleet average fuel economy, NHTSA projected certain improvements and a schedule of market proportion to be reached by each manufacturer. Separate estimates were used for 4 X 2 and 4 X 4 fleets and for each model year. The minimum inertia weight for each manufacturer's fleet of NPA's was established by considering the potential substitution of light-weight components developed for automobiles, substitution of lighter materials into existing components, the probable scheduling for major redesign of existing NPA's, and the introduction of smaller pickup trucks and vans.

Weight reduction potentials are based on the assumption that by MY 1980 the industry will concentrate on making weight reductions of components that will be used in subsequent model years. It is not considered practical for the industry to use resources on design improvements for only a short-term weight savings of one or two model years. In MY 1981, the designs of most pickup trucks and vans will be at least 6 years old. Judging from historical trends, lighter vehicles resulting from major design revisions and newly designed smaller pickups and vans may be introduced. A 6-percent penetration of captive imports for both 4 X 2 and 4 X 4 NPA's was assumed for Chrysler, Ford, and G.M.

The reduction of vehicle performance offers another means of increasing fuel economy. As a general rule, a reduction in performance of 10 percent produces a 4-

Table 5.—Nonpassenger automobile fleet average fuel economy levels for two vehicle classes, by model year

NPA manufacturer's fleet	Vehicle class			
	Two-wheel drive <sup>1</sup>		Four-wheel drive <sup>2</sup>	
	1980	1981	1980	1981
Without captive imports.....	19.2	20.5	16.2	17.7
With 6 percent captive imports.....	19.7	21.0	16.6	18.0

<sup>1</sup>1979 standard: 17.2 mpg (with option of including all vehicles).

<sup>2</sup>1979 standard: 15.8 mpg for four-wheel drive, general utility vehicles.

percent improvement in fuel economy. The relationship does not hold for continued reduction of performance to drastic levels, and a point is reached where fuel economy does not increase and may actually decrease. There are also practical limitations to the amount of performance reduction that can take place while still preserving the essential utility characteristics of NPA's, such as minimum acceleration rates and gradeability minima.

A detailed analysis, with background information and a complete documentation of results, is being incorporated into the rulemaking support paper (RSP) for 1980 and 1981 NPA fuel economy standards, which is available in Docket 77-05 at NHTSA.

A draft environmental impact statement (DEIS) is being prepared, in cooperation with EPA, to determine the effect on air and water quality, on water use, and on a possible increase in vehicle noise because of smaller engines and increased use of diesel engines.

The results of anticipated material substitutions presently are being evaluated and are expected to show a small reduction in the use of steel and a small increase in use of plastics and aluminum.

The total impact on the environment should not be large, since the magnitude of change in use of materials, water usage, air quality, energy consumption, and other environmental factors appears to be less than the changes brought about by cyclic economic changes in the national economy.

The NHTSA Administrator plans to issue NPA fuel economy standards for MY 1980 and 1981 in the near future.<sup>1</sup> Average fuel economy levels proposed for the two model years and the various classes of vehicles and alternatives are shown in table 5.

<sup>1</sup>NPRM issued December 15, 1977.

## 5. FUEL ECONOMY REGULATIONS

In order to conduct and administer the passenger and nonpassenger automobile fuel economy regulatory program, the act required the promulgation of certain regulations regarding procedures, definitions, and reporting. The regulations shown in table 6 have been published.

### VEHICLE CLASSIFICATION

An NPRM published in October 1976 initiated rule-making to classify vehicles for the purposes of title V of the Motor Vehicle Information and Cost Savings Act. This classification is slightly different from those made under the Clean Air Act, the National Traffic and Motor Vehicle Safety Act, or for automotive industry purposes.

Title V states the definitional elements for "automobiles" of 6,000 pounds GVWR or less, and only the guiding elements are provided for vehicles that weigh between 6,000 and 10,000 pounds GVWR. Also of concern is the definition of "nonpassenger automobiles" and "automobiles capable of off-highway operations."

The final rule, published July 28, 1977, defines all these vehicles and creates "nonpassenger automobile" as a distinct class from "passenger automobile." Briefly, a passenger automobile is a passenger vehicle (i.e., a sedan, coupe, or station wagon, such as the Mercury Zephyr, Chevrolet Camaro, or Dodge Diplomat Wagon). The definition of passenger automobiles includes all those up to 10,000 pounds GVWR. Approximately 10 million new passenger automobiles are sold in the United States each year.

The NPA class includes pickup trucks, vans (both cargo and passenger carrying), recreational vehicles, and general purpose vehicles. Examples of nonpassenger automobiles are the Tradesman Van, Ford Ranchero, Chevy LUV, and Club Wagon. Four-wheel drive vehicles like the Jeep CJ-7 are classified as automobiles capable of off-highway operation. This is a special subclass of the more general nonpassenger automobile category.

At present, the only nonpassenger automobiles included in the definition are those 6,000 pounds GVWR or less, or about a third of the 2.5 million nonpassenger vehicles produced each year. A proposal to include vehicles up to 8,500 pounds GVWR in the NPA category, beginning with MY 1980, will be published soon for public comment.<sup>1</sup>

### MANUFACTURERS OF MULTISTAGE AUTOMOBILES

Some automobiles are manufactured in more than one stage. Examples of these vehicles are ambulances, chassis-mount campers, special body vans, and special purpose trucks that have special bodies or work-performing and load-carrying structures added to chassis-cabs.

The stages of multistage manufacture vary from vehicle to vehicle. At the least, there is one automobile man-

<sup>1</sup>NPRM published December 15, 1977.

<sup>2</sup>Published 12/12/77.

ufacturer who initiates the manufacture of the vehicle and another manufacturer who completes the manufacturing process. There may or may not be one or more intermediate manufacturers.

Section 501(8) of the act requires that rules be prescribed for determining which company is to be treated as the manufacturer of a multistage automobile for the purposes of the fuel economy rules. Following an NPRM that was published by NHTSA on February 14, 1977 (42 F.R. 9040), a final rule, Part 525: Manufacturers of Multistage Automobiles, was published in the *Federal Register* (42 F.R. 38369) on July 28, 1977. In most instances, the rule makes the initial manufacturer of the incomplete vehicle responsible for meeting the fuel economy rules, including those relating to automobile fuel economy standards, fuel economy labeling, and reports.

### REDUCTION OF PASSENGER AUTOMOBILE FUEL ECONOMY STANDARDS

The act provides that PA manufacturers may petition to reduce the average fuel economy standards applicable to passenger automobiles produced in MY 1978, 1979, and 1980 to compensate for any adverse fuel economy impact of more stringent Federal motor vehicle emissions, safety, noise, or damageability standards in those years. A rule will be published early in FY 1978<sup>2</sup> establishing the procedures to be followed in petitions for a reduction.

The rule requires the petitions to describe the technology actually used by the manufacturer to comply with applicable emissions, safety, noise, or damageability standards that reduce the fuel economy of the vehicle; describe any alternative or additional technology available to the manufacturer that would have lessened the impact on fuel economy; and state the reasons for not incorporating that alternative or additional technology, including a comparison of the fuel savings, economic costs, and leadtime requirements for the alternative technology and the technology actually used. The petition then must show the fuel economy level that the manufacturer would have achieved if 1975 standards had been applicable.

A petition for reduction will only be granted if NHTSA determines that the petitioner used a reasonably selected technology to comply with the applicable Federal emissions, safety, noise, or damageability standards and that his average fuel economy has been reduced by more than 0.5 mpg from the fuel economy level he would have achieved if the 1975 Federal standards had

<sup>2</sup>Rule published November 14, 1977 (42 F.R. 58938).

been applicable. If the petition is granted, the manufacturer will be assessed a civil penalty only if his average fuel economy is lower than the adjusted fuel economy standard. However, the manufacturer will only receive credits, to be applied against any past or future penalties, if his average fuel economy exceeds the unadjusted standard.

### EXEMPTION FROM AVERAGE FUEL ECONOMY STANDARDS

A NPRM published December 9, 1976, proposed a new regulation specifying requirements for petitions from manufacturers of less than 10,000 passenger automobiles per year for exemption from the generally applicable average fuel economy standards. A final rule substantially adopting this NPRM was published on July 28, 1977.

Exemptions will be granted only if NHTSA determines that the standard otherwise applicable is more stringent than the maximum feasible average fuel economy level that the low-volume manufacturer can attain. If an exemption is granted, NHTSA must establish a maximum feasible average fuel economy standard applicable to that manufacturer. This is done in one of three ways: A standard may be established for the specific manufacturer; classes, based on such factors as design or size, may be established for the automobiles of exempted manufacturers, with a separate average fuel economy standard applicable to each class; or a standard may be established for all exempted manufacturers.

During 1977, petitions for exemption were received from six manufacturers: Avanti Motor Corporation, Rolls-Royce Motors, Checker Motors Corporation, Aston Martin Lagonda, Excalibur Automobile Corporation, and Maserati. After initial review of their petitions, all six petitioners were asked to submit additional information. Complete information has been obtained from Rolls-Royce and Checker, and a 30-day public comment period on their petitions has been opened by notice in the *Federal Register*. Each petitioner has asked for a 3-year exemption, the maximum allowable under the act. A summary of the low-volume manufacturer petitions received for exemption from average fuel economy standards is shown in table 7 for the affected model years.

### AUTOMOTIVE FUEL ECONOMY REPORTS

Paragraph (1), section 505(c) of the act, requires the Secretary of Transportation to promulgate rules specifying the form and content of reports to be submitted semiannually by each automobile manufacturer, stating

Table 7.—Alternative standards values requested by low volume petitioners for model years 1978 through 1980

Manufacturer	No. of vehicles produced for the United States annually	Model year		
		1978	1979	1980
		mpg	mpg	mpg
Avanti.....	180	15.6	NA <sup>1</sup>	NA
Rolls Royce.....	1,300	10.9	10.9	11.2
Checker.....	5,000	16.8	16.7	16.5
Aston Martin.....	60	11.0	11.4	13.0
Excalibur.....	250	12.0	12.0	14.0
Maserati.....	200	4.0	11.2	11.5
Federal average fuel economy standard.....		18.0	19.0	20.0

<sup>1</sup>NA = not available.

whether and how the manufacturer will comply with applicable average fuel economy standards. In response to this requirement, NHTSA issued a NPRM April 11, 1977, entitled, Automotive Fuel Economy Reports. A final rule will be published in early FY 1978.<sup>3</sup>

The semiannual reports must contain the manufacturer's projected average fuel economy and views on the representativeness of the projection; model-type fuel economy information; certain vehicle configuration technical information; differences in the technology and sales mix of the manufacturer's automobiles for the current model year and the immediately preceding model year; and a description of the manufacturer's advertising,

pricing, and dealer-incentive programs during the current model year that will aid the manufacturer in improving his average fuel economy.

The data received in the semiannual reports will enable NHTSA to monitor what each manufacturer is doing to comply with the applicable fuel economy standards, including both technological improvements and marketing strategies, and to assess the effectiveness of those efforts. The semiannual reports also will establish a continuing dialog between the industry and NHTSA, which will broaden NHTSA's understanding of the problems and capabilities existing in the automobile manufacturing industry.

<sup>3</sup>Rule published December 12, 1977 (42 F.R. 62374).

## 6. ENFORCEMENT AND COORDINATION WITH THE ENVIRONMENTAL PROTECTION AGENCY

NHTSA has several areas of compliance and enforcement responsibility under the provisions of the act. NHTSA is responsible for enforcement of the requirement that Gas Mileage Guides be prominently displayed by automobile dealerships and for compliance determinations and enforcement of PA and NPA fuel economy standards. NHTSA also must coordinate closely with EPA on fuel economy activities.

### GAS MILEAGE GUIDES

Under section 506 of the act, EPA is responsible for providing the consumer with fuel economy information in the form of gasoline mileage estimates for new automobiles. This is accomplished by means of a label attached by the manufacturer to the rear window of new automobiles and by means of the Gas Mileage Guide, a booklet that each new automobile dealer is required to furnish free in his showroom. The program has the following objectives:

- To provide comparable mpg operating information on passenger automobiles and on light-duty trucks.
- To inform consumers about the fuel economy (combined city and highway mpg) of vehicles, as this relates to individual automobile model characteristics.
- To promote the purchase of vehicles with good fuel economy.

EPA promulgated regulations concerning display and availability of the Gas Mileage Guides (40 F.R. 600.401-77 *et seq.*). These regulations, which are applicable to 1977 and later model years, require that:

- Each dealer shall prominently display, at each location where new automobiles are offered for sale, the EPA/FEA<sup>1</sup> Gas Mileage Guide or equivalent EPA-approved booklet.

<sup>1</sup>Now EPA/DOE, as of October 1, 1977.

- Each dealer shall display the guides in the same manner and in each location used to display brochures describing the automobiles offered for sale.
- Each dealer shall provide the guides without charge and in sufficient quantity to be available for retention by prospective purchasers upon request.

An excerpt from the 1978 Gas Mileage Guide is shown in figure 16.

On May 10, 1977, the NHTSA Administrator requested that each Regional NHTSA Administrator survey new automobile dealer showrooms in the vicinity of the city where his office was located. The purpose of the survey, conducted from May 20 to June 3, 1977, was to ascertain the extent to which dealers were complying with the EPA regulations. Approximately 40 percent of the dealers were found to be in compliance with current requirements regarding Gas Mileage Guide display and availability. The survey sample consisted of 222 dealers representing 18 automobile makes, distributed relatively uniformly throughout the Nation.

Based upon the above findings, NHTSA published a press release reflecting the results of this informal survey, with the intention of promoting voluntary dealer compliance with the requirements and encouraging publicity through industry channels (e.g., *Automotive News* and manufacturer dealer networks); and sent a letter to each of the approximately 26,000 dealers, informing and reminding them of their responsibilities pursuant to the regulations. This series of actions was intended to induce dealer compliance and thus promote public awareness and availability of fuel economy information.

Title V of the act places responsibility for enforcement of the Gas Mileage Guide regulations with NHTSA. As provided in section 508, failure to comply may result in a civil penalty of not more than \$10,000 for each violation. For purposes of assessing this penalty, each day of a continuing violation constitutes a separate violation. NHTSA currently is making plans for enforcement of the regulations.

## NHTSA ENFORCEMENT OF AVERAGE FUEL ECONOMY STANDARDS

If EPA calculations of average fuel economy reported to NHTSA indicate that a manufacturer has failed to comply with average fuel economy standards, the manufacturer will be given an opportunity to present his case at a hearing and to make additional verification tests before penalties are assessed by the NHTSA Administrator. NHTSA has prepared draft regulations governing the procedures for such hearings and anticipates that the regulations will be published in early 1978.

As an additional step in preparation for enforcement of the standards through administrative hearings and possible litigation, NHTSA has initiated a review of the EPA fuel economy measurement system and equipment to identify potential errors that could distort EPA test results.

## NHTSA COORDINATION WITH EPA FUEL ECONOMY ACTIVITIES

Under section 503(d) of the act, EPA must promulgate regulations prescribing testing and calculation procedures for determining each manufacturer's average fuel economy. Close coordination between EPA and NHTSA is necessary on these procedures as well as on EPA emissions rulemaking and NHTSA fuel economy rulemaking. The act itself requires the EPA Administrator to consult and coordinate with the NHTSA Administrator in establishing EPA procedures.

NHTSA has worked with EPA in the following areas:

- EPA draft NPRM's and final rules on testing and calculation procedures were reviewed by NHTSA. NHTSA comments, corrections, and recommendations were presented to EPA for consideration in the rulemaking process. NHTSA's review included analysis of the projected effect of EPA rules on fuel economy standards issued or in preparation by NHTSA.
- NHTSA participated in bimonthly meetings set up by EPA with industry representatives for the purpose of communication on technical issues. Such topics as regulations and standards, advisory circulars, clean air, fuel economy labeling, and vehicle certification were discussed.
- NHTSA participated in a series of four public control symposiums conducted by EPA for the purpose of exchanging technical information related to calibration procedures, dynamometer characteristics, gas standards, laboratory correlation, and intralaboratory equipment quality control techniques.
- NHTSA participated in an EPA pilot program conducted during the first half of 1977 to facilitate implementation of title V of the act. The program, attended voluntarily by manufacturers, focused on computer programs, reporting formats, information required for calculating preliminary and final average fuel economy figures, and trial calculations. Information and data to be supplied by EPA to NHTSA at the end of MY 1978 were identified in this pilot program.

## 7. RESEARCH AND DEVELOPMENT

During the past 4 years, DOT has developed the capability to conduct comprehensive assessments of the impacts of proposed changes in the automobile transportation system due to fuel economy rulemaking. These impact assessments can be made in such areas as technology, engineering, manufacturing cost, cost to the consumer, corporate finance, marketing, and the economy. The capability for performing these assessments can be found in NHTSA's comprehensive R. & D. program. During FY 1977, implementation of the R. & D. program was carried out by private sector contracts, most of which were administered by TSC under the direction of the NHTSA Associate Administrator for R. & D., Office of Vehicle Systems Research, Energy Research Division. The objectives of the R. & D. program are to develop, maintain, and update the data bases and analytical tools necessary for rulemaking and policy formulation activities in the area of automotive energy conservation.

Appendix A details the major R. & D. contracts for FY 1977. In FY 1977, approximately \$5.1 million was spent on private sector contracts; \$7.3 million in contracts is planned for FY 1978. Major R. & D. reports produced to date are listed in appendix B.

### RESEARCH AND DEVELOPMENT ACCOMPLISHMENTS FOR FY 1977

- Developed the technical support for the 1979 NPA fuel economy standards rulemaking. Standards were issued by NHTSA in March 1977.
- Developed the technical support for the 1981-84 PA fuel economy standards rulemaking. Standards were issued by NHTSA in July 1977.
- Developed technical support for the proposed 1980-81 NPA fuel economy standards rulemaking. A NPRM was issued by NHTSA in early FY 1978.<sup>1</sup>
- Currently developing technical support for proposed 1984-86 PA fuel economy standards rulemaking. Standards will be proposed by NHTSA by January 1979.

<sup>1</sup>NPRM issued December 15, 1977.

### ACCOMPLISHMENTS BY RESEARCH AND DEVELOPMENT TASK AREAS

R. & D. is divided into five task areas: Assessment of Automotive Technology, Effects of Federal Standards on Fuel Economy, Industrial Analysis, Economic Analyses and Impact Evaluation, and Market Analyses and Impact Evaluation. Following is a description of each task area and a list of specific accomplishments.

#### Assessment of Automotive Technology

This task area deals with the identification and evaluation of production and projected hardware available to manufacturers for achieving fuel economy improvements. This includes both passenger and nonpassenger automobiles with less than 10,000 pounds GVWR (individually and in fleets) and encompasses weight and acceleration performance reduction, engine and drive train improvements, the use of alternative engines and transmissions, improved lubricants, reduced accessory losses, and reduced aerodynamic drag and rolling resistance. The task area has:

- Formulated a set of technological options that were analyzed and documented as reference reports in the docket for 1979 NPA average fuel economy standards.
- Applied the data base that was developed for the Automotive Energy Efficiency Program (AEEP) by TSC in support of nonpassenger and passenger automobile rulemaking activities.
- Expanded the AEEP data base to determine the impact on fuel economy for the following technologies: (1) lightweight internal combustion engines for low horsepower-to-vehicle-weight ratios for alternative emission levels, (2) advanced transmission subsystems such as additional gears and improved torque converter lockup devices, (3) improved techniques for estimating the potential of lighter weight components in automotive designs and the time to incorporate them, and (4) mass production capabilities for advanced engine designs as a func-

tion of vehicle control systems (emissions, fuel economy, and safety) complexity.

#### Effects of Federal Standards on Fuel Economy

The second task area deals primarily with possible fuel economy penalties of emission, noise, safety, and damageability standards (either in effect or under consideration). This project also deals with the effects of other Federal standards (occupational safety, health, and environmental) on manufacturing plants and production capabilities and has:

- Established a data base for analyzing the effects of other Federal automotive standards on vehicle fuel economy and manufacturing capability. Major emphasis was placed on establishing the relationships between fuel economy performance and emission levels for various control systems and alternative levels of occupant safety.
- Analyzed the impact on U.S. automobile manufacturers of present and future Federal motor vehicle emission standards as related to specific fuel economy schedules for 1979-80 nonpassenger automobiles and 1981-84 passenger automobiles.
- Evaluated the degree to which diesel engines could satisfy stringent oxides of nitrogen (NO<sub>x</sub>) standards while maintaining high fuel economy performance.
- Initiated noise control studies to determine if practical control systems could be designed for exterior and interior noise and the magnitude of the penalty to fuel economy.
- Initiated studies and evaluations on the relationship between future safety and damageability requirements and the resulting impact on fuel economy.
- Started the process of collecting information on changes in automotive industry energy needs to meet future production requirements and to estimate costs for changes in Federal standards [Occupational Safety and Health Administration (OSHA), EPA, etc.] that impact on manufacturers' facilities.

#### Industrial Analysis

This project addresses the evaluation of manufacturability and costs of technological improvements, both individually and in combinations, the assessment of manufacturers' capabilities and leadtimes in implementing fuel economy improvements, capital requirements and the feasibility of obtaining capital, and the evaluation of

each manufacturer's possible strategies in dealing with the standards. The task area has:

- Developed a data base system that provided support for analyzing manufacturing costs; capital, labor, and material requirements; consumer maintenance costs; and engineering risk estimates for alternative component designs.
- Assessed the manufacturing aspects (materials, labor, capital and costs) for future technologies and vehicles. Such items as innovative structures, engine line conversion for downsizing and gasoline-to-diesel fuel conversion were studied.
- Evaluated engineering design changes that show opportunities for major fuel economy benefits. One example is the application of materials that have improved durability along with a reduction in body metal thickness.
- Analyzed the potential for the automotive industry to raise capital and to satisfy labor and material requirements, production scheduling, and costs after consideration is given to present capacities, commitments of resources, materials, changeover intervals, and labor.
- Compared cost data obtained from manufacturers and suppliers for both vehicles and components to verify and calibrate the manufacturing cost data bases.

#### Economic Analyses and Impact Evaluation

The concerns of this task area are the identification and evaluation of impacts of fuel economy standards (and other related conservation actions) on automobile prices, automobile demand, and employment and on cost of ownership and operation of automobiles. Also, it deals with domestic competition, imports, and aggregated economic effects on the automotive sector of the economy, on the national economy, on petroleum and other national resources, on air quality, and on highway safety. An important consideration in these analyses is fuel availability and price. The project has:

- Modified and expanded on the economic data base used on the AEEP.
- Initiated the collection and analysis of recent business data for major U.S. automotive manufacturers to determine if companies could underwrite technological changes that could improve fuel economy. Additional data sources and analytical tools have been identified to determine what impact future fuel economy standards would have on

3224

NOTICES

manufacturers, consumers, suppliers, and national and international economies.

Market Analyses and Impact Evaluation

The last task area deals with the mutual interactions between automobile products offered by the manufacturers and the acceptance they receive in the marketplace in view of fuel economy standards, Government policies, and fuel prices. Both impacts of consumer behavior on manufacturers and impacts of products

offered on consumer choice and usage patterns are of interest. It has:

- Initiated studies to test consumer awareness of energy issues and their willingness to adapt to the vehicles that would be coming in the marketplace to meet the average fuel economy standards.
- Modified existing data bases and analytical techniques so that they could be applied more efficiently in the estimation of future automobile sales and mix.

APPENDIX A. RESEARCH AND DEVELOPMENT CONTRACTS FOR FY 1977

Title	Contract No.	Contractor	Start Finish	Amount (dollars)

APPENDIX B. RESEARCH AND DEVELOPMENT REPORTS

1. "Data and Analysis for Nonpassenger Automobiles, Model Year 1979 Fuel Economy Standards," October 1976.  
Documents and addenda issued between July and September 1977 in support of a NPRM.
2. "Data and Analysis for 1981-1984 Passenger Automobile Fuel Economy Standards." Released to the public in February 1977, in order to support a NPRM. This is a Summary Report and four documents (a) Automobile Demand and Marketing, (b) Automotive Design and Technology, (c) Automobile Manufacturing Processes and Costs, and (d) Financial Analysis of the U.S. Automotive Manufacturers.
3. "Rulemaking Support Paper Concerning the 1981-1984 Passenger Automobile Average Fuel Economy Standards." Released to the public in July 1977, in support of a final rule promulgated by the Secretary of Transportation on June 26, 1977.
4. "Fuel Economy Potential for Model Year 1980 and 1981 Nonpassenger Automobile Fuel Economy."
5. "Automotive Manufacturers' Profiles Manual." Review draft issued in July 1977 for applications in analyses more general than those conducted in association with specific rulemaking actions.
6. "Analytical Tools Accounting Models and Data Bases Applicable to Automobile Fuel Economy Research." Review draft issued in July 1977 for similar applications.
7. "Disaggregated Financial Data and Analyses for the Domestic Motor Vehicle Manufacturers." July 1977. Used for the assessment of each major manufacturer's ability to underwrite technological changes for fuel economy improvements and the risks in doing so.

## DEPARTMENT OF THE TREASURY

Office of the Secretary

## CARBON STEEL BARS FROM THE UNITED KINGDOM

Antidumping Proceeding Notice

AGENCY: U.S. Treasury Department.

ACTION: Initiation of Antidumping Investigation.

SUMMARY: This notice is to advise the public that a petition in proper form has been received and an antidumping investigation is being initiated for the purpose of determining whether imports of carbon steel bars from the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act of 1921, as amended. Sales at less than fair value generally occur when the prices of the merchandise sold for exportation to the United States are less than the prices in the home market. Because there is substantial doubt that an industry is being, or is likely to be injured as a result of these imports, this case is being referred to the United States International Trade Commission for a determination as to whether or not there is reasonable indication of injury while this investigation proceeds. If the Commission should find within 30 days that there is no reasonable indication of injury, this investigation will be terminated. Otherwise, the investigation will continue to a conclusion.

EFFECTIVE DATE: January 23, 1978.

## FOR FURTHER INFORMATION CONTACT:

Frank Andrysiak, Operations Officer, U.S. Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229, telephone 202-566-5492.

## SUPPLEMENTARY INFORMATION:

On December 5, 1977, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from Armco Steel Corp. indicating a possibility that carbon steel bars from the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

For purposes of this investigation, the term "carbon steel bars" means bars of steel, other than alloy, provided for in item numbers 608.45 and 608.46 of the Tariff Schedules of the United States (TSUS).

Margins of dumping are alleged which, if based on a comparison with

prices in the home market, range from 2.6 percent to 12 percent. These margins have been computed from home market prices published by the Commission of the European Communities. To the extent the investigation to be undertaken reveals that actual sales prices in the home market have been at other than such published prices, the margins, if any, will be computed on the basis of such actual transactions.

There is evidence on record concerning injury or likelihood of injury to the U.S. steel industry from the alleged less than fair value imports. This evidence includes an increase in imports during the first nine months of 1977, when compared to the same period in 1976; declines in overall employment in the domestic steel industry; and, reduced profit margins for domestic firms producing carbon steel bars.

The evidence also indicates, however, that imports of carbon steel bars from the United Kingdom accounted for only 1.4 percent of domestic consumption during 1977. Furthermore, no evidence has been provided which establishes a causal link between imports from the United Kingdom and the injury alleged by the domestic industry. Therefore, on the basis of such evidence it has been concluded that there is substantial doubt of injury, or likelihood of injury to, or prevention of establishment of an industry in the United States by virtue of such importation from the United Kingdom. Accordingly, the United States International Trade Commission is being advised of such doubt pursuant to section 201(c)(2) of the Act (19 U.S.C. 160(c)(2)).

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the United States Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

ROBERT H. MUNDHEIM,  
General Counsel  
of the Treasury.

JANUARY 17, 1978.

## CARBON STEEL STRIP FROM THE UNITED KINGDOM

Antidumping Proceeding Notice

AGENCY: U.S. Treasury Department.

ACTION: Initiation of Antidumping Investigation.

SUMMARY: This notice is to advise the public that a petition in proper form has been received and an antidumping investigation is being initiated for the purpose of determining whether imports of carbon steel strip from the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act of 1921, as amended. Sales at less than fair value generally occur when the prices of the merchandise sold for exportation to the United States are less than the prices in the home market. Because there is substantial doubt that an industry is being, or is likely to be injured as a result of these imports, this case is being referred to the United States International Trade Commission for a determination as to whether or not there is reasonable indication of injury while this investigation proceeds. If the Commission should find within 30 days that there is no reasonable indication of injury, this investigation will be terminated. Otherwise, the investigation will continue to a conclusion.

EFFECTIVE DATE: January 23, 1978.

## FOR FURTHER INFORMATION CONTACT:

Frank Andrysiak, Operations Officer, Duty Assessment Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-5492.

SUPPLEMENTARY INFORMATION: On December 5, 1977 information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from Armco Steel Corporation indicating a possibility that carbon steel cold rolled sheets and coils are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

The class or kind of merchandise "cold rolled sheets and coils" alleged by petitioner to be sold at less than fair value included carbon steel cold rolled sheets classified under item number 608.87 of the Tariff Schedules of the United States (TSUS) and carbon steel strip provided for under item numbers 609.02, 609.03 and 609.04 of the TSUS. Since the cold rolled sheets from the United Kingdom which are the subject of this petition are currently the subject of another antidumping proceeding, notice of which was published in the FEDERAL REGISTER of December 2, 1977 (42 F.R. 61353), they are excepted from this investigation.

Therefore, this investigation is limited to carbon steel strip, which for purposes of this investigation means strip of steel, other than alloy, provided for

in item numbers 609.02, 609.03 and 609.04 of the TSUS.

The alleged margins of dumping, if based on a comparison with prices in the home market, range from 24 percent to 26 percent. These margins have been computed from home market prices established under the "Davignon Plan" of the European Community or from home market list prices. To the extent the investigation to be undertaken reveals that actual sales prices in the home market have been at other than such established or list prices, the margins, if any, will be computed on the basis of such actual transactions.

There is evidence on record concerning injury or likelihood of injury to the U.S. steel industry from the alleged less than fair value imports. This evidence includes an increase in imports in the first nine months of 1977, when compared to the same period in 1976; declines in overall employment in the domestic steel industry; and, reduced profit margins for domestic firms producing carbon steel strip.

This evidence also, indicates, however, that imports of carbon steel strip from the United Kingdom accounted for only 0.2 percent of domestic consumption during 1977. Furthermore, no evidence has been provided which establishes a causal link between imports from the United Kingdom and the injury alleged by the domestic industry. Therefore, on the basis of such evidence it has been concluded that there is substantial doubt of injury, or likelihood of injury to, or prevention of establishment of an industry in the United States by virtue of such importation from the United Kingdom. Accordingly, the United States International Trade Commission is being advised of such doubt pursuant to section 201(c) (2) of the Act (19 U.S.C. 160 (c) (2)).

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the United States Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

JANUARY 17, 1978.

ROBERT H. MUNDHEIM,  
General Counsel of the Treasury.

# CARBON STEEL PLATES FROM THE UNITED KINGDOM

## Antidumping Proceeding Notice

AGENCY: U.S. Treasury Department.  
ACTION: Initiation of Antidumping Investigation.

SUMMARY: This notice is to advise the public that a petition in proper form has been received and an antidumping investigation is being initiated for the purpose of determining whether imports of carbon steel plates from the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act of 1921, as amended. Sales at less than fair value generally occur when the prices of the merchandise sold for exportation to the United States are less than the prices in the home market.

EFFECTIVE DATE: January 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank Andrysiak, Operations Officer, U.S. Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229, telephone, 202-566-5492.

SUPPLEMENTARY INFORMATION: On December 5, 1977, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from Armco Steel Corp. indicating a possibility that carbon steel plates from the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

For purposes of this investigation, the term "carbon steel plates" means plates of steel, other than alloy, provided for in item numbers 608.84, 608.87, 609.12 and 609.13 of the Tariff Schedules of the United States (TSUS).

Margins of dumping are alleged which, if based on a comparison with prices in the home market, range from 38 percent to 44 percent. These margins have been computed from home market prices published by the Commission of the European Communities or from home market list prices. To the extent the investigation to be undertaken reveals that actual sales prices in the home market have been at other than such published or list prices, the margins, if any, will be computed on the basis of such actual transactions.

There is evidence on record concerning injury or likelihood of injury to the U.S. steel industry from the alleged less than fair value imports. This evidence includes an increase in im-

ports in the first nine months of 1977, when compared to the same period in 1976; declines in overall employment in the domestic steel industry; and, reduced profit margins for domestic firms producing carbon steel plates. It should also be noted that domestic shipments of these products decreased from 1974 through 1976.

Although the imports from the United Kingdom are small in relation to domestic consumption, there is currently in process an antidumping investigation of this same class or kind of merchandise from Japan. Cumulating the imports from the United Kingdom and Japan, those imports together accounted for approximately 11.6 percent of the United States market for this product during 1976. In assessing the injury caused by the alleged sales at less than fair value from the United Kingdom, it has been considered appropriate to cumulate the shares of the domestic market held by imports from each of the countries subject to investigation. The products appear to be fungible. Under such circumstances, it would be unrealistic to attempt to differentiate the alleged injury by imports from one country rather than another when it is the cumulative effect of all, occurring within a discrete time frame, that creates the problem.

Section 201(c)(2) of the Act, adopted as part of the Trade Act of 1974, requires the Secretary to refer a petition to the United States International Trade Commission for a determination of whether there is "no reasonable indication that an industry is being or is likely to be injured" if he has "substantial doubt" that imports of the subject merchandise at less than fair value are the cause of present or likely injury to an existing industry. Considering the evidence presented and available regarding imports from the United Kingdom, no "substantial doubt" has been determined to exist.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the United States Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

ROBERT H. MUNDHEIM,  
General Counsel of the Treasury.

# CERTAIN STRUCTURAL CARBON STEEL SHAPES FROM THE UNITED KINGDOM

## Antidumping Proceeding Notice

AGENCY: U.S. Treasury Department.  
ACTION: Initiation of antidumping investigation.

SUMMARY: This notice is to advise the public that a petition in proper form has been received and an antidumping investigation is being initiated for the purpose of determining whether imports of certain structural carbon steel shapes from the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act of 1921, as amended. Sales at less than fair value generally occur when the prices of the merchandise sold for exportation to the United States are less than the prices in the home market.

EFFECTIVE DATE: January 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank Andrysiak, Operations Officer, U.S. Customs Service, Office of Operations, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229, telephone 202-566-5492.

SUPPLEMENTARY INFORMATION: On December 5, 1977, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from Armco Steel Corp., indicating a possibility that certain structural carbon steel shapes from the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

For purposes of this investigation, the term "certain structural carbon steel shapes" means angles, shapes, sections and sheet piling of steel, other than alloy, provided for in item numbers 609.80, 609.84, 609.88 and 609.96 of the Tariff Schedules of the United States (TSUS).

Margins of dumping are alleged which, if based on a comparison with prices in the home market, range from 68 percent to 76 percent. These margins have been computed from home market prices published by the Commission of the European Communities or from home market list prices. To the extent the investigation to be undertaken reveals that actual sales prices in the home market have been at other than such published or list prices, the margins, if any, will be computed on the basis of such actual transactions.

There is evidence on record concerning injury or likelihood of injury to the U.S. steel industry from the alleged less than fair value imports. This

evidence includes an increase in imports during the first 9 months of 1977, when compared to the same period in 1976; declines in overall employment in the domestic steel industry; and, reduced profit margins for domestic firms producing structural steel shapes. It should also be noted that domestic shipments of these products decreased from 1974 through 1976.

Although the imports from the United Kingdom are small in relation to domestic consumption, there is currently in process an antidumping investigation of this same class or kind of merchandise from Japan. Cumulating the imports from the United Kingdom and Japan, those imports together accounted for approximately 22.4 percent of the U.S. market for this product during 1976. In assessing the injury caused by the alleged sales at less than fair value from the United Kingdom, it has been considered appropriate to cumulate the shares of the domestic market held by imports from each of the countries subject to investigation. The products appear to be fungible. Under such circumstances, it would be unrealistic to attempt to differentiate the alleged injury by imports from one country rather than another when it is the cumulative effect of all, occurring within a discrete time frame, that creates the problem.

Section 201(c)(2) of the Act, adopted as part of the Trade Act of 1974, requires the Secretary to refer a petition to the U.S. International Trade Commission for a determination of whether there is "no reasonable indication that an industry is being or is likely to be injured" if he has "substantial doubt" that imports of the subject merchandise at less than fair value are the cause of present or likely injury to an existing industry. Considering the evidence presented and available regarding imports from the United Kingdom, no "substantial doubt" has been determined to exist.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the U.S. Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

ROBERT H. MUNDHEIM,  
General Counsel  
of the Treasury.

# VISCOSE RAYON STAPLE FIBER FROM BELGIUM

## Antidumping; Withholding of Appraisal

AGENCY: U.S. Treasury Department.  
ACTION: Withholding of appraisal.

SUMMARY: This notice is to advise the public that an antidumping investigation has resulted in a tentative determination that viscose rayon staple fiber from Belgium is being sold at less than fair value within the meaning of the Antidumping Act, 1921. Sales at less than fair value generally occur when the price of merchandise sold for exportation to the United States is less than the price of such or similar merchandise sold in the home market or to third countries. Appraisal for the purpose of determining the proper duties applicable to entries of this merchandise will be suspended for 6 months. Interested parties are invited to comment on this action not later than February 22, 1978.

EFFECTIVE DATE: January 23, 1978.

FOR FURTHER INFORMATION CONTACT:

William Trujillo, Operations Officer, Office of Operations, Duty Assessment Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, telephone 202-566-5492.

SUPPLEMENTARY INFORMATION: On June 17, 1977, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from counsel acting on behalf of Avtex Fibers, Inc., Valley Forge, Pa., alleging that viscose rayon staple fiber from Belgium is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). An "Antidumping Proceeding Notice" was published in the FEDERAL REGISTER of July 22, 1977 (42 FR 37610-11). The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to, or likelihood of injury to, or prevention of establishment of an industry in the United States.

It has been determined that a modification of the "class or kind" of merchandise used in the "Antidumping Proceeding Notice" is appropriate. The merchandise covered by this determination is "viscose rayon staple fiber, except solution dyed, in noncontinuous form, not carded, not combed, and not otherwise processed, wholly of filaments (except laminated filaments and plexiform filaments)."

## TENTATIVE DETERMINATION OF SALES AT LESS THAN FAIR VALUE

On the basis of the information developed in the Customs investigation and for the reasons noted below, pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), I hereby determine that there are reasonable grounds to believe or suspect that the purchase price of viscose rayon staple fiber from Belgium is less than the fair value, and thereby the foreign market value, of such or similar merchandise.

## STATEMENT OF REASONS ON WHICH THIS TENTATIVE DETERMINATION IS BASED

(a) *Scope of Investigation.* It appears that 100 percent of imports of the subject merchandise from Belgium were sold for export to the United States by S.A. Fabelta H.V. (Fabelta). The investigation was therefore limited to sales by Fabelta.

(b) *Basis of Comparison.* For the purposes of considering whether the merchandise in question is being, or is likely to be, sold at less than fair value within the meaning of the Act, the proper basis of comparison appears to be between purchase price and home market price of such or similar merchandise. Purchase price, as defined in section 203 of the Act (19 U.S.C. 162) was used since all export sales by Fabelta were made to a nonrelated importer in the United States. Home market price, as defined in § 153.2, Customs Regulations (19 CFR 153.2), was used since such or similar merchandise was sold in the home market in sufficient quantities to provide a basis for comparison.

In accordance with § 153.31(b), Customs Regulations (19 CFR 153.31(b)), pricing information was obtained concerning sales to the United States and in the home market during the period February 1 through July 31, 1977.

(c) *Purchase Price.* For the purpose of this tentative determination of sales at less than fair value, purchase price has been calculated on the basis of the f.o.b. Antwerp price to the U.S. importer, adjusted for inland freight and loading costs.

(d) *Home Market Price.* For purposes of this tentative determination, the home market price has been calculated on the basis of the ex-factory price to an unrelated Belgian dealer who operates at the same level of trade as the U.S. importer. Purchases of the subject merchandise by the dealer constituted 19 percent of total home market sales by Fabelta in the investigatory period, considered an adequate basis for fair value comparisons.

Adjustments have been made for discounts granted on home market sales, differences in the merchandise sold to the United States and in the home market and differences in credit costs in the two markets. Claims for adjustments for expenditures on insurance

and technical assistance in the home market have been rejected because it does not appear that these costs were incurred on the specific sales under investigation.

(e) *Results of Fair Value Comparisons.* Using the above criteria, comparisons were made on 100 percent of the sales of the subject merchandise to the United States during the period of investigation. Those comparisons indicated that the purchase price of viscose rayon staple fiber was less than the home market price of such or similar merchandise. A margin of approximately 6.7 percent was found on all sales compared.

Accordingly, Customs officers are being directed to withhold appraisement of viscose rayon staple fiber from Belgium in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with § 153.40, Customs Regulations (19 CFR 153.40), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 1301 Constitution Avenue NW., Washington, D.C. 20229, in time to be received by his office not later than February 2, 1978. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than February 22, 1978. All persons submitting written views or arguments should avoid repetitious and merely cumulative material. Counsel for the petitioner and respondent are requested to serve all written submissions on all other counsel and to file their submissions with the Commissioner of Customs in 10 copies.

This notice, which is published pursuant to § 153.35(b), Customs Regulations (19 CFR 153.35(b)), shall become effective on January 23, 1978. It shall cease to be effective at the expiration of July 23, 1978 unless previously revoked.

ROBERT H. MUNDHEIM,  
General Counsel  
of the Treasury.

JANUARY 17, 1978.

## VISCOSE RAYON STAPLE FIBER FROM AUSTRIA

Discontinuance of Antidumping Investigation  
AGENCY: U.S. Treasury Department.

## NOTICES

ACTION: Discontinuance of anti-dumping investigation.

SUMMARY: This notice is to advise the public that it has been determined to discontinue the antidumping investigation of viscose rayon staple fiber from Austria. While prices to the United States during the period of investigation were below Austrian home market prices, the elimination of the price differential by the sole Austrian exporter, the provision of assurances of no future sales at less than fair value, and the presence of special circumstances, as detailed in the body of this notice, combine to warrant the discontinuance of the investigation.

EFFECTIVE DATE: January 23, 1978.

FOR FURTHER INFORMATION CONTACT:

David P. Mueller, Duty Assessment Division, Office of Operations, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, telephone 202-566-5492.

SUPPLEMENTARY INFORMATION: On March 4, 1977, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from counsel acting on behalf of Avtex Fibers, Inc., Valley Forge, Pa., alleging that viscose rayon staple fiber from Austria is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as the "Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of April 12, 1977 (42 FR 19243).

A "Withholding of Appraisement" notice was published in the FEDERAL REGISTER of October 19, 1977 (42 FR 55857) with regard to viscose rayon fiber from Austria.

It has been determined that a modification of the "class or kind" of merchandise used in the "Withholding of Appraisement" notice is appropriate. The merchandise covered by this notice is "viscose rayon staple fiber, except solution dyed, in noncontinuous form, not carded, not combed, and not otherwise processed, wholly of filaments (except laminated filaments and plexiform filaments)."

## FINAL DISCONTINUANCE

On the basis of the information developed in the Customs investigation, and for the reasons noted below, pursuant to §§ 153.33 (a)(3) and (e) of the Customs Regulations (19 CFR 153.33 (a)(3) and (e)), I hereby discontinue the antidumping investigation concerning viscose rayon staple fiber from Austria.

## STATEMENT OF REASONS ON WHICH THIS DISCONTINUANCE IS BASED

(a) *Scope of the investigation.* All known imports of viscose rayon staple fiber from Austria were manufactured by Chemiefaser Lenzing AG (Lenzing). Therefore the investigation was limited to this manufacturer.

(b) *Basis of comparison.* For the purposes of considering whether the merchandise in question is being, or is likely to be, sold at less than fair value within the meaning of the Act, the proper basis of comparison is between purchase price and home market price of such or similar merchandise. Purchase price, as defined in section 203 of the Act (19 U.S.C. 162), was used since all export sales by Lenzing were made to an unrelated importer in the United States. Home market price, as defined in § 153.2, Customs Regulations (19 CFR 153.2), was used since such or similar merchandise was sold in the home market in sufficient quantities to provide a basis for comparison.

In accordance with § 153.31(b), Customs Regulations (19 CFR 153.31(b)), pricing information was obtained concerning sales to the United States and in the home market during the period November 1, 1976, through April 30, 1977.

(c) *Purchase price.* For the purposes of this discontinuance, purchase price has been calculated on the basis of the ex-factory price to the U.S. importer, net of discounts.

(d) *Home market price.* For the purposes of this discontinuance, the home market price has been calculated on the basis of the delivered prices to unrelated Austrian purchasers. Adjustments have been made for cash discounts, quantity discounts, inland freight costs, advertising costs, technical assistance costs, costs of resolving complaints, warranty claims, credit costs, and for differences in packing costs. A claim for an export processing discount was not allowed since it has been determined that the conditions attached to its payment constituted a restriction on the disposition and use which affected the value of the merchandise by the amount of the discount. A claim for salaries paid to Lenzing personnel in providing technical assistance to customers and resolving complaints was disallowed as it could not be demonstrated that the expenses incurred were related to any particular sale or group of sales. Claims for additional adjustments for advertising costs and contributions to a trade institute have been disallowed as these expenses do not bear a direct relationship to the sales under consideration, and they could not be considered to have been incurred on behalf of the purchasers.

(e) *Results of fair value comparisons.* Using the above criteria, com-

parisons were made on all of the sales of the subject merchandise to the United States during the representative period. Those comparisons indicated that the purchase price of viscose rayon staple fiber was less than the home market price of such or similar merchandise.

It has been determined that all differences between home market price and purchase price would have been eliminated if an adjustment for the export processing discount had been allowed. In a prior antidumping investigation involving this product from Austria in 1961, an adjustment was granted to Lenzing's home market prices for this discount and a "Determination of No Sales at Less Than Fair Value" was issued (26 FR 6276). Lenzing has operated since that time under the assumption that an adjustment for this discount would be made in any future investigation under section 201(a) of the Act. Upon notification at the time of the tentative determination in the instant case that Treasury had changed its interpretation regarding this discount, Lenzing eliminated the export processing discount, thereby eliminating all price differentials between home market price and purchase price. Formal assurances were submitted through counsel that no future sales at less than fair value within the meaning of the Act would be made.

The order issued October 19, 1977, to withhold appraisement on the subject merchandise from Austria, the notice of which is cited above, is hereby terminated, effective on January 23, 1978.

This notice is published pursuant to § 153.33(e), Customs Regulations (19 CFR 153.33(e)).

ROBERT H. MUNDHEIM,  
General Counsel of the Treasury.

JANUARY 17, 1978.

## UNITED STATES RAILWAY ASSOCIATION

[Docket 211-17]

## CONSOLIDATED RAIL CORP.

## Application for a Loan

Subsection (h) of section 211 of the Regional Rail Reorganization Act of 1973, as amended (45 U.S.C. 721) (the Act), authorizes the United States Railway Association (Association) to enter into loan agreements with the Consolidated Rail Corp. (ConRail), the National Railroad Passenger Corp., and any profitable railroad to which rail properties are transferred or conveyed pursuant to section 303(b)(1) of the Act under conditions and for pur-

## NOTICES

poses set forth in this subsection. Subsection (b) of section 211 requires that the Association publish notice of the receipt of any application thereunder in the FEDERAL REGISTER and afford interested parties an opportunity to comment thereon.

On March 1, 1976, ConRail submitted a preliminary application for a loan under the provisions of section 211(h) in the amount of \$230,000,000. Notice of this application was published in the FEDERAL REGISTER dated March 19, 1976. On March 29, 1976, ConRail supplemented its preliminary application by filing the certifications and exhibits required by "Procedures for Applications for Loans to Pay Obligations of Railroads in Reorganization," 49 CFR Part 922 (Loan Procedures), and requested an initial borrowing of \$34,024,000. On April 1, 1976, ConRail and the Association entered into a loan agreement which authorized initial borrowings by ConRail of \$34,024,000. On April 12, 1976, ConRail further supplemented its loan application with a request that the aggregate amount of the initial borrowings be increased to \$51,157,000. On April 15, 1976, the board of directors of the Association approved that request.

On July 12, 1976, ConRail filed a borrowing application pursuant to subsection 211(h) of the Act requesting, among other things, new borrowings of \$35,778,533.21 and an increase of the maximum amount reserved to \$230,000,000.00. On July 29, 1976, the board of directors of the Association approved an additional loan to ConRail in the principal amount of \$8,182,352.21.

On November 18, 1976, ConRail filed a borrowing application pursuant to subsection 211(h) of the Act requesting, among other things, new borrowings of \$143,804,396.39 and a request for amendment of section 3.01 of the loan agreement to increase the maximum borrowing to \$203,143,749.60. On December 6, 1976, the board of directors of the Association approved an additional loan to ConRail in the principal amount of \$11,251,396.39.

On February 1, 1977, ConRail filed a borrowing application pursuant to section 211(h) of the Act requesting, among other things, new borrowings of \$107,761,877.76. On February 17, 1977, the executive committee of the board of directors of the Association approved an additional loan to ConRail in the principal amount of \$107,761,877.76.

On March 16, 1977, ConRail filed a borrowing application pursuant to section 211(h) of the Act requesting new borrowings of \$25,333,400. On March 31, 1977, the board of directors of the Association approved an additional loan to ConRail in the principal amount of \$25,333,400.

On April 25, 1977, ConRail filed a borrowing application pursuant to section 211(h) of the Act requesting new borrowings of \$25,888,400. On April 29, 1977, the executive committee of the board of directors of the Association approved an additional loan to ConRail in the principal amount of \$7,825,000, to be effective May 10, 1977.

On June 6, 1977, ConRail filed a borrowing application pursuant to section 211(h) of the Act requesting new borrowings of \$10,137,739.43. On June 30, 1977, the board of directors of the Association approved an additional loan to ConRail in the principal amount of \$10,137,739.43.

On June 22, 1977, ConRail filed a borrowing application pursuant to section 211(h) of the Act requesting new borrowings of \$15,060,000. On June 30, 1977, the board of directors of the Association approved an additional loan to ConRail in the principal amount of \$15,060,000.

On July, 20 1977, ConRail filed a new borrowing application pursuant to section 211(h) of the Act requesting new borrowings of \$18,030,000. On July 28, 1977, the board of directors of the Association approved an additional loan to ConRail in the principal amount of \$18,030,000.

On September 19, 1977 and September 22, 1977, ConRail filed a new borrowing application pursuant to section 211(h) of the Act requesting new borrowings of \$8,086,537.31 and \$18,643,403 respectively. On September 28, 1977, the board of directors of the Association approved an additional loan to ConRail in the principal amount of \$8,086,537.31, and approved, subject to the availability of section 211(h) funds, an additional loan in the principal amount of \$18,643,403.

On January 17, 1977, ConRail filed a borrowing application pursuant to section 211(h) of the Act requesting new borrowings of \$11,935,000. The applications include the certification and exhibits required by the loan procedures.

ConRail states that it will apply the \$11,935,000 as follows:

1. \$9,200,000 to the payment of certain nonemployee related obligations of the Erie-Lackawanna of which \$4,200,000 will be applied to suppliers, \$3,300,000 will be applied to railroads, and \$1,700,000 will be applied to non-employee personal injuries.
2. \$42,000 to the payment of pre-conveyance wage claims of the Erie Lackawanna.
3. \$2,500,000 to the payment of Federal Employer's Liability Act Claims of the Erie Lackawanna.
4. \$193,000 to the payment of pre-conveyance wage claims of the Penn Central Transportation Co.

Interested parties are invited to submit written comments relevant to

this application. Any such submissions must identify, by its Docket No., the application to which it relates, and must be filed with the Office of General Counsel, United States Railway Association, Room 2222, Transpoint Building, 2100 Second Street SW., Washington, D.C. 20595, on or before February 1, 1978, to enable timely consideration by USRA. The docket containing the original application shall be available for public inspection at that address Monday through Friday (holidays excepted) between 8:30 a.m. and 5 p.m.

Dated at Washington, D.C., this 18th day of January, 1978.

EDWIN RECTOR,  
Assistant Secretary,  
United States Railway Association.  
[FR Doc 78-1806 Filed 1-20-78; 8:45 am]

INTERSTATE COMMERCE  
COMMISSION

[Notice No. 571]

## ASSIGNMENT OF HEARINGS

JANUARY 18, 1978.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the official docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

No. 36667, *Chicago & North Western Transportation Co. v. The Bell Railway Co. of Chicago*, now assigned January 23, 1978, at Chicago, Ill., in Room 834 of the Everett McKinley Dirksen Building on January 23, 24, and 27, and Room 1614, on January 25 and 28, of the Everett McKinley Dirksen Building is being transferred to Room 1614 for hearing on January 23 through January 27, 1978, at Chicago, Ill.

AB 18 (Sub-No. 5), *Chesapeake & Ohio Railway Co., abandonment between Williamsburg and Elk Rapids, in Grand Traverse and Antrim Counties, Mich.*; AB 18 (Sub-No. 19), *Chesapeake & Ohio Railway Co., abandonment portion, Petoskey Subdivision between a point near Traverse City and Bay View, in Grand Traverse, Kalkaska, Antrim, Charlevoix, and Emmet Counties, Mich.*, and AB 18 (Sub-No. 20), *Chesapeake & Ohio Railway Co., abandonment portion, Traverse City and Petoskey Subdivisions between Manistee and Traverse City and the Northport Subdivision between Traverse City and Rennie, in Manistee, Benzie, Grand Traverse, and Leelanau Counties, Mich.*, now assigned March 7, 1978, at Traverse City, Mich.,

will be held at the V.F.W. Hall, 440 West Front Street.

MC 135684 (Sub-No. 45), *Bass Transportation, Inc.*, now assigned March 1, 1978, at St. Louis, Mo., will be held in Courtroom 3, 5th Floor, U.S. Courthouse and Customs, 1114 Market Street.

MC-F-13262, *Beaufort Transfer-Purchase-John Kleffner, d.b.a. Iberia Transfer, and MC-F-13263, Beaufort Transfer Co.-Purchase-Steve E. Bure, d.b.a. Iberia Express*, now assigned March 6, 1978, at St. Louis, Mo., will be held in Courtroom 3, 5th Floor, U.S. Courthouse and Customs, 1114 Market Street.

MC 75281 (Sub-No. 10), *Righter Trucking Co., Inc.*, now assigned March 2, 1978, at St. Louis, Mo., will be held in Courtroom 3, 5th Floor, U.S. Courthouse and Customs, 1114 Market Street.

MC 115162 (Sub-No. 376), *Poole Truck Line, Inc.*, now assigned February 28, 1978, at St. Louis, Mo., will be held at Courtroom 3, 5th Floor, U.S. Courthouse and Customs, 1114 Market Street.

MC-F-13210, *System 99-Purchase (portion)-O.N.C. Freight Systems*, now assigned February 28, 1978, at San Francisco, Calif., will be held in Room 510, 211 Main Street.

MC 113325 (Sub-No. 149), *Slay Transportation Co., Inc.*, now assigned March 3, 1978, at St. Louis, Mo., will be held in Courtroom 3, 5th Floor, U.S. Courthouse and Customs, 1114 Market Street.

MC 115311 (Sub-No. 224), *J&M Transportation Co., Inc.*, now assigned March 6, 1978, at Birmingham, Ala., will be held in GSA Conference Room 430, Federal Building, corner of 19th Street and Fifth Avenue.

MC 121664 (Sub-No. 23), *G. A. Hornady, Cecil M. Hornady, and B. C. Hornady, d.b.a. Hornady Brothers Truck Line*, now assigned March 1, 1978, at Birmingham, Ala., will be held in GSA Conference Room 430, Federal Building, corner of 19th Street and Fifth Avenue.

MC 141410 (Sub-No. 4), *Black Angus, Inc.*, now assigned February 28, 1978, at Birmingham, Ala., will be held in GSA Conference Room 430, Federal Building, corner of 19th Street and Fifth Avenue.

I&SM 29681, *Restructured LIL & A Class Rates, December 1977, S.M.C.R.C.*, now assigned January 25, 1978, at Washington, D.C., is canceled. The schedules have been canceled.

MC 105045 (Sub-No. 69), *R. L. Jeffries Trucking Co., Inc.*, now assigned January 31, 1978, in Houston, Tex., is canceled and application dismissed.

MC 135236 (Sub-No. 17), *Logan Trucking, Inc.*, now assigned January 30, 1978, at Chicago, Ill., is postponed indefinitely.

MC 142466 (Sub-No. 1), *Timber Products Transport, Inc.*, now assigned January 23, 1978, at Los Angeles, Calif., is canceled.

H. G. HOMME, Jr.,  
Acting Secretary.

## [7035-01]

[No. 572]

## ASSIGNMENT OF HEARINGS

JANUARY 18, 1978.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be pub-

lished only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the official docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

CORRECTION<sup>1</sup>

MC 113678 (Sub-No. 692), *Curtis, Inc.*, now assigned March 7, 1978, for hearing, in a hearing room to be later designated.

H. G. HOMME, Jr.,  
Acting Secretary.

[FR Doc. 78-1897, Filed 1-20-78; 8:45 a.m.]

## [7035-01]

## OPERATING AUTHORITY APPLICATIONS

## Special Notice

JANUARY 18, 1978.

All interested persons are advised that commencing February 1, 1978, special orders will be promptly issued in all operating authority applications referred to the Office of Hearings for oral hearing. These orders will call upon all parties to confer promptly to determine whether any issues can be reduced or eliminated by amendment or otherwise. Applicants will have 30 days from the service date of the order to request approval of any proposed amendments. Protestants will have 45 days from the service date of the order to notify the Commission of their intent to participate in the hearing or to withdraw. Failure of a protestant to notify the Commission will be construed as a waiver of its right to further participation.

H. G. HOMME, Jr.,  
Acting Secretary.

[FR Doc. 78-1936 Filed 1-20-78; 8:45 am]

## [7035-01]

[Notice No. 284]

## MOTOR CARRIER TRANSFER PROCEEDINGS

JANUARY 23, 1978.

Application filed for temporary authority under section 210a(b) in connection with transfer application under section 212(b) and transfer rules, 49 CFR Part 1132:

<sup>1</sup>This corrects the sub number 692 instead of 492.

No. MC-FC-77493. By application filed January 6, 1978, *GOLLOTT & SONS TRANSFER & STORAGE, INC.*, P.O. Box 468, Biloxi, Miss. 39533, seeks temporary authority to lease the operating rights of *GRAY VAN LINES, INC.*, 615 SW. 9th Street, Oklahoma City, Okla., under section 210a(b). The transfer to *GOLLOTT & SONS TRANSFER & STORAGE, INC.*, of the operating rights of *GRAY VAN LINES, INC.*, is presently pending.

By the Commission.

H. G. HOMME, Jr.,  
Acting Secretary.

## [7035-01]

[Notice No. 285]

MOTOR CARRIER BOARD TRANSFER  
PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission within 30 days after the date of this publication. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed

sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-77307, filed January 13, 1978. Transferee: *PRECISION RIGGING & CONTRACTING CO.*, 4915 West Knox Street, Tampa, Fla. 33614. Transferor: *FLORIDA TERMINALS & TRUCKING CO.*, 1014 East Lanstreet Road, Orlando, Fla. 32809. Applicant's representative: *Felix A. Johnston, Jr.*, 1030 East LaFayette Street, Tallahassee, Fla. 32301. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate of Registration No. MC 96770 (Sub-No. 8), issued September 13, 1972, as follows: Modular and prefabricated homes and buildings designed to be assembled and erected at a permanent site complete or knocked down, or in sections including all component parts, fixtures, appliances, equipment, supplies, and materials incidental to the erection and completion of such homes or buildings and when shipped in connection therewith, restricted against hitchball and tow-away operations and transportation of mobile homes as defined by the Florida Public Service Commission, over irregular routes and irregular schedules between all points in the State of Florida. Transferee presently holds no authority from this Commission but is affiliated with *Flamingo Heavy Hauling Co.*, a motor carrier holding interstate authority under MC 96921. Application has not been filed for temporary authority under section 210a(b).

No. MC-FC-77409, filed January 12, 1978. Transferee: *FAST FREIGHT TRANSFER, INC.*, 1075 East 21st Street, Hialeah, Fla. 33013. Transferor: *ABC BAG & CRATE CO., OF BELLE GLADE, INC.*, d.b.a. *ABC TRANSFER*, 1040 Northwest 12th Street, Belle Glade, Fla. 33430. Transferor's representative: *John P. Bond, Esq.*, 2766 Douglas Road, Miami, Fla. 33133. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate of Registration, No. MC 121716, issued February 19, 1974, as follows: General commodities, with certain exceptions, between specified points in Florida over specified regular routes. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

H. G. HOMME, Jr.,  
Acting Secretary.

## FEDERAL DEPOSIT INSURANCE CORPORATION.

### NOTICE OF AGENCY MEETING

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:50 p.m. on January 18, 1978, the Federal Deposit Insurance Corporation's Board of Directors met by telephone conference call to consider certain matters which it determined, on motion of Chairman George A. LeMaistre, seconded by Director John G. Heimann (Comptroller of the Currency), required its consideration on less than seven days' notice to the public.

The following matter was considered in open session:

*Development of plans, in coordination with the other Federal bank and thrift institution regulators, for promulgating regulations to carry out the new Community Reinvestment Act.*

The following matter was considered in closed session, pursuant to subsections (c)(6), (c)(8), and (c)(9)(A)(ii) of the "Government in the Sunshine Act" (5 U.S.C. 552b (c)(6), (c)(8), and (c)(9)(A)(ii)), on the basis of the Board's determination, on motion of Chairman LeMaistre, with Director Heimann seconding the motion, that the public interest did not require consideration of the matter in a meeting open to public observation:

*Request from an insured bank, pursuant to section 13(c) of the Federal Deposit Insurance Act (12 U.S.C. 1823(c)), for financial assistance from the Corporation in the form of the Cor-*

*poration's purchasing specified assets of the bank.*

In scheduling the meeting, the Board determined that no earlier notice of the meeting was practicable. Requests for information concerning the meeting may be directed to Mr. Alan R. Miller, Executive Secretary of the Corporation, at 202-389-4446.

Dated: January 18, 1978.  
For the Federal Deposit Insurance Corporation.

ALAN R. MILLER,  
Executive Secretary.

## FEDERAL RESERVE SYSTEM (BOARD OF GOVERNORS).

TIME AND DATE: 10 a.m., Wednesday, January 25, 1978.

PLACE: 20th Street and Constitution Avenue NW., Washington, D.C. 20551.

STATUS: Open.

MATTERS TO BE CONSIDERED:

### SUMMARY AGENDA

Because of their routine nature, no substantive discussion of the following

items is anticipated. These matters will be resolved with a single vote unless a member of the Board requests that an item be moved to the discussion agenda.

1. Possible amendments to the Board's Rules Regarding Delegation of Authority authorizing the Reserve Banks to grant extensions of the time within which a bank or company must dispose of bank shares acquired in the course of securing or collecting a debt previously contracted.

2. Possible amendment or interpretation of Regulation Y (Bank Holding Companies) relating to presumption of continued control of transferred assets and activities. (Proposed earlier for public comment: docket No. R-0083.)

3. The Board's 1977 Annual Report to Congress on Equal Credit Opportunity.

### DISCUSSION AGENDA

1. Proposed publication for comment of a revised trade regulation rule under the Federal Trade Commission Improvement Act concerning "Preservation of Consumers' Claims and Defenses." (Proposed earlier for public comment: docket No. R-0019.)

2. Proposal to amend the descriptive billing provisions of Regulation Z (Truth in Lending) as they relate to cash advance checks. (Proposed earlier for public comment: docket Nos. R-0087 and R-0093.)

3. Proposed revisions to the Federal Reserve form: "Monthly Survey of Loan Commitments" (FR 18a).

4. Any agenda items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board, 202-452-3204.

Dated: January 17, 1978.

GRIFFITH L. GARWOOD,  
Deputy Secretary of the Board.

[S-139-78 Filed 1-19-78; 9:33 am]

4

## FEDERAL TRADE COMMISSION.

TIME AND DATE: 2 p.m., Monday, January 23, 1978.

PLACE: Room 532 (open); Room 540 (closed), Federal Trade Commission Building, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580.

STATUS: Parts of this meeting will be open to the public. The rest of the meeting will be closed to public.

### MATTERS TO BE CONSIDERED:

Portions open to public: (1) Oral argument in Jay Norris Corp., et al., Docket 9054.

Portions closed to the public: (2) Executive Session for consideration of disposition in Jay Norris Corp., et al., Docket 9054, immediately following oral argument.

CONTACT PERSON FOR MORE INFORMATION:

Wilbur T. Weaver, Office of Public Information, 202-523-3830; recorded message, 202-523-3806.

[7035-01]

5

JANUARY 19, 1978.

## INTERSTATE COMMERCE COMMISSION.

TIME AND DATE: 9 a.m., Thursday, January 26, 1978.

PLACE: Office of Chairman O'Neal, Room 3130, Interstate Commerce Commission Building, 12th and Constitution Avenue NW., Washington, D.C.

STATUS: Open Informal Conference.

### MATTERS TO BE CONSIDERED:

To facilitate general communication of information and ideas among members of the Commission as to general matters of common concern with respect to the Commission and its work. There will be no discussion or determination of any specific pending proceeding or agency action and there will be no formal agenda.

CONTACT PERSON FOR MORE INFORMATION:

Office of Information and Consumer Affairs, Douglas Baldwin, Director, Telephone, 202-275-7252.

NATIONAL CENTER ON CHILD ABUSE AND  
NEGLECT

Proposed Fiscal Year 1978 Child Abuse and  
Neglect Research and Demonstration Prior-  
ities

ACTION: Notice of proposed research  
and demonstration priorities.

SUMMARY: This notice states the re-  
search and demonstration (R&D) pri-  
orities that the Children's Bureau's  
National Center on Child Abuse and  
Neglect proposes to initiate in Fiscal  
Year 1978 under the Child Abuse Pre-  
vention and Treatment Act (Pub. L.  
93-247). This notice is being published  
in order that the final R&D priorities  
for this fiscal year may incorporate  
appropriately the expertise and best  
thinking in the field.

Comments on these proposed pri-  
orities or suggestions on other priorities  
are invited. No proposals, concept  
papers, or other forms of application  
should be submitted at this time.

DATE: In order to be considered, com-  
ments must be received no later than  
March 24, 1978.

ADDRESS: Comments should be sent to:  
Director, National Center on Child  
Abuse and Neglect (NCCAN), Chil-  
dren's Bureau, P.O. Box 1182, Wash-  
ington, D.C. 20013.

FOR FURTHER INFORMATION  
CONTACT:

Director, NCCAN/CB, at the above  
address.

SUPPLEMENTARY INFORMATION: This  
statement announces the pro-  
posed research and demonstration pri-  
orities to be funded in fiscal 1978  
under the Federal Child Abuse Pre-  
vention and Treatment Act, Pub. L.  
93-247. Public review of these pro-  
posed priorities is being sought in  
order to draw upon the experience, ex-  
pertise, and most advanced thinking of  
persons in the field and to maximize  
the potential benefits of the child  
abuse and neglect research and dem-  
onstration program.

Pursuant to Pub. L. 93-247, the Chil-  
dren's Bureau's National Center on  
Child Abuse and Neglect (NCCAN)  
conducts activities designed to assist  
and enhance national, state, commu-  
nity, and citizen efforts to prevent, iden-  
tify, and treat child abuse and neglect.  
The activities include: Conducting re-  
search and demonstrations; providing  
technical assistance; gathering, analyz-  
ing, and disseminating information

and data on research and programs,  
through a clearinghouse; providing  
grants to eligible States for strength-  
ening and improving their child abuse  
and neglect programs; and coordinat-  
ing Federal activities in child abuse  
and neglect with those of other Feder-  
al agencies, through the Federal Advi-  
sory Board on Child Abuse and Ne-  
glect. Thus, there are many activities  
other than research and demon-  
stration which require staff and financial  
support by CB/NCCAN.

Previous CB/NCCAN research and  
demonstration activities have tended  
to approach issues of child abuse and  
neglect prevention and treatment  
broadly, in order to develop a basic  
knowledge base, e.g., multidisciplinary  
treatment services to parents for var-  
ious types of child abuse and neglect  
in enriched project settings and the  
use of 24-hour hotlines and central  
registers. The proposed research and  
demonstration priorities for fiscal year  
1978 begin to refine definitional, diag-  
nostic, and service approaches to  
target attention to specific forms of  
child maltreatment. The proposed pri-  
orities also emphasize that demon-  
stration projects with modest budgets  
can be institutionalized into on-going  
service programs more readily than pro-  
jects with large budgets. The priorities  
are based also on major shifts in em-  
phasis from increasing public aware-  
ness to improving prevention and  
treatment services, and to a focus on  
treatment for the child, as well as par-  
ents. Additionally, emphasis is placed  
on improving the functioning of public  
child protective agencies.

Another underlying theme, building  
on the past generalized treatment  
center demonstrations, is an emphasis  
on the crosscutting, multi-agency ap-  
proach to the delivery of treatment  
services. Many agencies other than the  
child protection agency deliver vital  
treatment services. This theme in-  
cludes testing hypotheses that are in-  
tended to provide information on  
methods of maximizing the quality, ef-  
ficiency, and effectiveness of human  
service programs related to child abuse  
and neglect.

A final, underlying theme is that all  
proposed priorities include a particu-  
lar sensitivity to the special cultural  
and linguistic needs of minority chil-  
dren (Blacks, Hispanics, Asian Ameri-  
cans and Native Americans) and their  
families.

The experience of the first genera-  
tion of CB/NCCAN research and dem-  
onstration projects has also resulted in  
the identification of gaps in informa-  
tion, knowledge, and the testing of de-  
signs. The following areas of concern  
are addressed through the proposed  
projects:

**Epidemiological knowledge.** To learn  
about the characteristics, extent,  
causes, and effects of child abuse and

neglect in order to determine the  
unmet needs of children and families.

**Treatment.** To increase the quality  
and quantity of treatment services  
provided by community-based human  
service agencies and to determine  
what forms of child maltreatment re-  
quire more intense supervision  
through child protective agency moni-  
toring.

**Child Protective Services.** To im-  
prove the ability of child protective  
agencies to receive and investigate re-  
ports, provide 24-hour emergency ser-  
vices, develop and implement service  
plans and, when necessary, initiate  
court action.

**Prevention and Self-help.** To in-  
crease the quality and quantity of ser-  
vices provided by community-based  
human service agencies to encourage  
self-referrals and to prevent "high-  
risk" situations from becoming overt  
child maltreatment.

**Juvenile Courts.** To increase the  
ability of juvenile and family courts  
(a) to adjudicate child protective cases  
promptly, accurately, and fairly, and  
(b) to determine, implement, and moni-  
tor appropriate orders of disposition.

**Institutional Child Abuse and Ne-  
glect.** To further the development of  
independent investigations, in order to  
prevent and to take corrective action  
in cases of institutional child maltreat-  
ment.

**Resource Enhancement.** To encour-  
age advocacy by non-service as well as  
service providers at national, state and  
community levels in order to improve  
the quality and quantity of preventive,  
protective, and treatment services  
available.

All of the proposed priorities in this  
notice, except the evaluations (No. 5,  
8, and 10), would be conducted by  
grant. For each priority, a project  
title, the number of projects, the ap-  
proximate funding level, the duration  
of the projects, statements on the im-  
portance and purpose of the project,  
the background of the project, the  
proposed methodology, and the future  
utilization of project findings are  
given.

Competitive extension of regional re-  
source projects is also proposed, based  
on the Senate bill extending the Act,  
which authorizes "... giving special  
consideration to continued Federal  
funding of child abuse and neglect  
programs or projects (previously  
funded by the Department of Health,  
Education, and Welfare) of national or  
regional scope and demonstrated ef-  
fectiveness." All proposed priorities  
are subject to the limits and require-  
ments of program authority under the  
extension of the Act, as finally en-  
acted.

Specific comments and suggestions  
are solicited concerning each of the  
priorities described below. In addition,  
reviewers are invited to suggest any

additional research or demonstration  
priorities. Suggested additional pri-  
orities would be most helpful if they  
were presented in the same format  
and with the same topical areas as the  
priorities described in this announce-  
ment. "No proposals, concept papers,  
or other forms of application should  
be submitted at this time." Any such  
submissions will be discarded. In order  
to maintain a procedure fair to every-  
one, applications will be accepted only  
in response to the final Priority State-  
ments. A summary of them will be  
published in the FEDERAL REGISTER.

All grant applications received in re-  
sponse to the final Priority State-  
ments will be reviewed by the Admin-  
istration for Children, Youth and  
Families' Child and Family Research  
Review Committee. Requests for con-  
tract proposals, i.e., the evaluations of  
demonstration projects (No. 5, 8, and  
10), will be published and will be an-  
nounced in the Commerce Business  
Daily of the Department of Com-  
merce. All proposals for contracts are  
reviewed by Federal panels according  
to the regulations of the Department  
of Health, Education, and Welfare.

No acknowledgement will be made of  
the comments received, but all of  
them will be considered in finalizing  
the child abuse and neglect research  
priorities. In addition, all persons com-  
menting on the proposed priorities will  
be placed on the child abuse and ne-  
glect mailing list and will be sent the  
final research and demonstration pri-  
ority statement, which will serve as  
the invitation for research and demon-  
stration grant applications. It is anti-  
cipated that the priority statements will  
be announced and sent out in the  
Spring of 1978 and grants awarded in  
September, 1978, subject to Depart-  
mental approvals and the availability  
of funds.

PROPOSED PROJECT DESCRIPTIONS

(a) EPIDEMIOLOGICAL KNOWLEDGE

PROJECT TITLE: LONGITUDINAL RESEARCH  
ON CHILD MALTREATMENT: EXPLANA-  
TORY CONCEPTS AND DEVELOPMENTAL  
CONSEQUENCES FOR THE CHILD AND  
FAMILY

NUMBER, COST, AND DURATION OF  
PROJECTS

Four grants at \$150,000 each for  
fiscal year 1978, 1979, and 1980; 4th  
year at \$40,000.

IMPORTANCE OF THE PROJECT

Research on the dynamics of fam-  
ilies involved in child maltreatment  
over time is scarce. Most research in-  
gores the historical events and the  
social contexts in which families are  
embedded. Ecologically valid studies  
over time would permit the develop-

ment of explanatory hypotheses lead-  
ing to sounder theories concerning  
maltreatment of children.

PURPOSE OF THE PROJECT

The specific intent is to develop the-  
ories based upon a holistic examina-  
tion of abuse and neglect that takes  
into consideration historical and eco-  
logical factors, the family, and the  
transition of time. These theories are  
necessary to guide policy and program  
development relating to services, tech-  
nical assistance and research.

BACKGROUND

There are now over a hundred re-  
search projects that have attempted to  
identify the significant "causes" of  
abuse and neglect through the study  
of demographic, social, and psycho-  
logical attributes of the parents and  
child. In the aggregate the results are  
not consistent though certain charac-  
teristics of the mother and child  
appear more frequently than others:  
age of mother, social isolation, knowl-  
edge and competence in child rearing,  
family stress, vulnerable child de-  
manding more attention, poverty, and  
poor housing.

Despite definitional, sampling and  
methodological problems, various the-  
ories have emerged: (1) The economic,  
political, and social factors and the as-  
sociated value premises impact upon  
the family with resultant conse-  
quences for the parents and child; (2)  
most families living in adverse circum-  
stances do not maltreat their children  
and only those guardians with psycho-  
logical problems, low intelligence, or  
lack of child rearing skills are prone to  
maltreatment; (3) the child is unwan-  
ted and this is manifested by poor ma-  
ternity care leading to prematurity or  
congenital handicapping conditions of  
the infant; (4) the mother has devel-  
oped a pathological attachment to the  
child or is an infantile mother charac-  
terized by the apathy-futility syn-  
drome.

These and other theories can only  
be tested through longitudinal re-  
search which looks at the settings,  
events, and circumstances affecting  
the family overtime.

METHODOLOGY

There are two approaches to longi-  
tudinal research: (1) Study new cohorts  
samples specifically for studying child  
maltreatment; (2) "piggy-back" on ex-  
isting longitudinal research in which a  
sub-sample of the cohorts are iden-  
tified with maltreatment. The former  
approach is economically feasible  
through methodological developments  
since the early 1960's in life span and  
life course research. By combining

prospective and retrospective methods,  
data can be collected on two genera-  
tions. The "piggy-back" approach is  
far less costly but depends upon iden-  
tifying appropriate cohorts that will  
have a sufficient number of maltreat-  
ment cases. Several such research pro-  
jects use a high-risk cohort which  
would have the highest probability of  
containing maltreatment cases.

UTILIZATION

The results from this research would  
provide essential guidance for policy  
and planning at the Federal level. It  
would have immediate impact upon  
future research direction and method-  
ology and direct the use of scarce re-  
sources on the most promising leads.

(b) TREATMENT

(2) PROJECT TITLE: CLINICAL DEMONSTRATIONS  
OF SPECIALIZED TREATMENT: ADO-  
LESCENT MALTREATMENT, SUBSTANCE  
ABUSE RELATED MALTREATMENT, AND  
NEGLECT

NUMBER OF PROJECTS

	Projects
Adolescent abuse and neglect .....	3
Substance abuse related child mal- treatment .....	3
Neglect .....	3
Collaborative .....	1
Total .....	10

COST AND DURATION

3 years at \$120,000 per project annu-  
ally.

IMPORTANCE

The present generation of treatment  
demonstration projects has identified  
gaps in treatment knowledge concern-  
ing the following situations: (1) ADO-  
lescent abuse and neglect; (2) drug or  
alcohol related abuse; and (3) all forms  
of neglect. Adolescent abuse entails  
the direct participation of the parents  
and the adolescent in the diagnostic  
assessment, treatment plan, and ser-  
vices. Alcohol or drug related abuse or  
neglect involves multi-problem fam-  
ilies in which both parents and chil-  
dren are in jeopardy. There are about  
three times as many cases of neglect  
as abuse. These are invariably long-  
term and chronic situations of family  
dysfunction.

PURPOSE

To validate through clinical field re-  
search various treatment approaches  
to these difficult problems.

3243

## BACKGROUND

Between fiscal year 1974 and fiscal year 1977, a total of 32 child abuse and neglect demonstration treatment projects provided undifferentiated services for all cases of high risk and confirmed maltreatment. Much useful information was contributed by this effort relating to costs, organizational sponsorship, administrative structure, case management and treatment techniques, and community impact. Those treatment demonstrations have used a generalist orientation. Demonstrations of the provision of more specialized treatment services are needed.

## EXPECTED FINDINGS

These projects are designed to generate information concerning the intake procedures (coordination with police in adolescent and substance abuse cases, especially), methods to increase motivation and improve capacity to utilize services by the involved families, and the viable differential approaches which appear to create positive movement by the clients. They will also indicate the training needs, levels of skill and the diversity of services that are necessary to work with these problems. Particularly important will be an understanding of the length of time necessary to work with these families and the ability of the agency and the client to sustain that relationship. Important information will also be generated concerning decisions related to removing the child for either a temporary or permanent placement (in foster care).

## METHODOLOGY

This entire effort is envisaged as a collaborative clinical field study with independent, but cooperative investigators. The overall design includes the funding of the nine clinical demonstration projects and one collaborative research project, as described above.

Proposals will be invited from interested investigators and clinical facilities to examine in depth the treatment of a cohort in one of the three problem areas, using a formal rather than a naturalistic research design. Projects will be required to work cooperatively with the one collaborative Research project and the outside evaluation (No. 5). These projects will focus on the generic elements common to all projects and provide a forum for the development of common definitions, protocols, and where applicable, procedures useful in the conduct of complex clinical demonstrations. This strategy is based upon the initiation of a critical mass of studies that are independently designed and conducted while the common elements are investigated independently.

## UTILIZATION

The knowledge gained from this field research will be of immediate

## NOTICES

value to agencies involved with these types of cases. It will also lay the foundation for possible future demonstration projects which might examine systems and cost issues necessary for the administration of programs.

## (3) PROJECT TITLE: CLINICAL DEMONSTRATIONS OF THE TREATMENT OF SEXUAL ABUSE

## NUMBER, COST, AND DURATION OF PROJECTS

Four grants at \$120,000 per project annually for 3 years.

## IMPORTANCE

The present generation of treatment demonstration projects has identified a significant gap in treatment knowledge concerning those involved in sexual abuse. Sexual abuse of children, especially in cases of incest, is perhaps one of the least understood and, consequently most mishandled forms of child maltreatment. Estimates of the number of cases of sexual abuse per year nationwide range upward from 50,000.

## PURPOSE

To validate through clinical field studies various approaches to treating families, including the children, involved in sexual abuse.

## BACKGROUND

Sexual abuse involves the criminal justice system and the child protective system. It is considered a gross violation of community standards and moral beliefs. It is particularly distressing to professionals who are called upon to deal with it. An earlier study indicated that there often is as much harm done to the child by the system's handling of the case as the trauma associated with the abuse.

## EXPECTED FINDINGS

Techniques for the investigation, intake and diagnosis, treatment of the parents and child, and the utilization of community resources for such cases. The projects will also generate knowledge relating to whether the child should be placed in temporary or long-term permanent placement. Equally important will be the knowledge generated about staff skills, training needs, support systems, and caseload composition, e.g., should workers be assigned caseloads consisting solely of sexual abuse cases. Upon closer examination we expect to learn more about the varied structure, functions and dynamics of the families involved in sexual abuse.

## METHODOLOGY

Proposals will be invited from interested clinical facilities and investigators except those associated with hos-

pitals. NIMH and LEAA have funded several demonstrations in hospital settings relating to sexual abuse. These proposed projects will complement the demonstrations based in hospitals with demonstrations based in social service agencies, mental health centers, and the courts which are actively involved with sexual abuse.

These projects will be required to cooperate with the Collaborative Research Project (No. 2), and the outside evaluation (No. 5), along with the other clinical projects proposed under No. 2, for the same reasons.

## UTILIZATION

The information generated by these projects will be of immediate value to a variety of agencies involved with sexual abuse. This information will also provide the basis for curriculum development at the pre-service and in-service settings involved in training staff.

## (4) PROJECT TITLE: CLINICAL DEMONSTRATIONS OF TREATMENT FOR ABUSED AND NEGLECTED CHILDREN

## NUMBER, COST, AND DURATION OF PROJECTS

Five grants at \$80,000-\$150,000 per grant for each of 3 years.

## IMPORTANCE OF PROJECT

An estimated million children are abused/neglected every year. The protective services system seeks to assure the physical safety of the case reported to them and may direct a variety of services to the involved parents. However, there are very few treatment, rehabilitative, or developmental services for the children, apart from medical care.

## PURPOSE OF PROJECT

To develop and evaluate a variety of treatment services for abused/neglected children with special attention to the differing age ranges, particularly 0-5 and 6-12, to facilitate the child's social, emotional and educational development and adjustment.

## BACKGROUND

Research indicates that abused and neglected children show a high incidence of developmental disabilities. These physical and medical difficulties are accompanied by a range of social, emotional and educational disturbances. However, while there is no specific, detailed pattern which could be described as the profile of abused children, many can be described as having a very low or inadequate self-concept, and as being unable to relate to other people, particularly adults, in any trust relationship. Even when treatment services directed to parents are successful in stopping the maltreat-

ment, they do not address improving the child's adjustment.

One project which regularly assessed child development and competence while the parents were under treatment documented a continuing deterioration in the children's development, even though the parental treatment was progressing satisfactorily. In addition, children are frequently held to be responsible for instigating abuse through provocative behaviors.

Other findings indicate a very high correlation between abuse/neglect and the onset of status offenses and juvenile delinquency involvement at a later date.

On the behavioral level, these children are not usually distinguished from other emotionally disturbed or developmentally disabled children. As such, they receive treatment, but such treatment is not provided jointly to the parents, nor is it related to treatment being provided to the parents by another agency. Further, the critical act of putting the child and the parents back together again at a new level of functioning is usually not attempted.

## EXPECTED FINDINGS

That treatment models can be developed and demonstrated which: (1) Teach parents new and more appropriate interactional patterns, preferably in group settings; (2) diagnose children and develop specific and individualized treatments centering on coping skills, interactional modes with adults and other children; and (3) develop and describe a process for child-family interaction which begins under carefully controlled settings and proceeds into the home and independent control by the parents.

## METHODOLOGY

A CPS public agency must apply jointly with a day care/Head Start facility or an elementary public school system. Many elements of the child treatment mode, e.g., community health resources, community mental health services, the wide range of school services available for disabled or handicapped children are available and must be utilized. A project should include a Children's Treatment Coordinator who is a part of the CPS agency. Diagnosis, treatment plans and training of day care, Head Start and school personnel should be provided by the Child Protective Agency.

Treatment services should not be purchased by the special project. Grant money may be used to develop community resources which are funded under health, educational, mental health or social services at the State, county or Federal level. Teachers and guidance personnel should be included in multidisciplinary team reviews.

## NOTICES

Each project must have a clinical research specialist who is responsible for the overall research input. Such an individual shall also be responsible for additional clinical studies as needed, and shall provide the government with a description of the methods of diagnosis, development of treatment plans, and outcomes for children and families. It is strongly advised that such a researcher be involved in the original development of the project proposal.

## UTILIZATION

Too frequently, local day care and school system staff have no established design to follow in treating problems of learning disabilities on a family basis. If effective designs can be developed for the use of school and community resources within the school context, they might be disseminated to the entire elementary school system.

## PROJECT TITLE: EVALUATION OF CLINICAL DEMONSTRATIONS OF THE TREATMENT OF CHILD ABUSE AND NEGLECT

## NUMBER, COST AND DURATION OF PROJECT

1 contract at \$200,000 for 3 years and \$100,000 for 4th year.

## IMPORTANCE OF PROJECT

An outside evaluation of the projects under Nos. 2, 3, and 4 must be carried out in order to assess the implementation and related cost, child protection system impact, and community impact issues across projects; to glean and record important program findings; and to maximize dissemination of these findings in a manner which engenders supports, and facilitates replication efforts in other settings.

## PURPOSE

This evaluation will assess the processes utilized and outcomes of demonstration efforts by the project to (1) identify the degree to which distinct child abuse and neglect problems require unique investigative and treatment approaches and (2) develop and test replicable total case management strategies.

## BACKGROUND

There will be a total of 18 three-year projects demonstrating the clinical handling of sexual abuse, children's treatment, adolescent abuse, drug and/or alcohol related abuse or neglect, and child neglect (Nos. 2, 3, and 4, above) (and one collaborative research project).

## EXPECTED FINDINGS

The projects under numbers 2, 3, and 4 are grouped together and will be evaluated as a group because the hypothesis underlying them is that the prognosis for families (and children)

with the presenting problems discussed above can be significantly improved through the application of investigative and treatment approaches that have been modified and/or designed to meet their particular needs.

For each of the particular presenting problems described above:

(1) These projects are expected to identify specialized: (a) Intake procedures, (b) investigative procedures, especially for adolescent abuse cases, (c) emergency services, (d) case planning and management, (e) use of multidisciplinary teams, (f) referrals to community agencies, (g) resort to civil and criminal court action, and (h) termination and follow up. (2) The Children's treatment projects, especially, are expected to identify easily replicable physical, emotional, and cognitive treatment techniques, such as special education, individual and group counseling, and play, art, and dramatic therapy for children, involving parents as appropriate. (3) All of the projects are expected to: (a) Identify the types of families needing such care, (b) determine the most cost effective development and techniques of providing such services as: lay therapists, parent surrogates, home management, intensive parent/child clinics (in both residential and day settings), as well as more traditional parent education, individual and group counseling and psychiatric services, and concrete services, and (c) define case termination and/or permanent planning considerations.

## METHODOLOGY

Routine evaluation processes will be required, including the planning and use of information gathering aids, site visits, and analyses.

## UTILIZATION

The evaluation is expected to provide impact and efficiency data that will be widely disseminated to (1) child protective agencies, (2) State policymakers and legislators, (3) professional and community-based human service agencies that might be capable of providing similar services, (4) child advocacy organizations, and (5) schools of social work.

## (6) PROJECT TITLE: CHILD PROTECTIVE SERVICES DEMONSTRATIONS OF CHILD PROTECTIVE AGENCY PROGRAM IMPROVEMENTS

## NUMBER, COST AND DURATION OF PROJECTS

10 grants at \$80,000-\$120,000 each annually for 2 years.

## BACKGROUND

Most child protective agencies report problems of large caseloads, too few resources for diagnosis and treatment, weak administration and supervisory practices, and consequently high staff

"burn out" rates. Child abuse projects funded as demonstrations have shown the economic feasibility of a number of successful interventive techniques. However, in general, few designs have been incorporated into ongoing agency activities.

#### IMPORTANCE OF PROJECT

There are over 3,000 local child protective agencies in this country serving over 500,000 children each year. Child protective agencies are increasingly aware of a variety of improved methods to deliver and manage services but most of them have not installed such program improvements and integrated them into on-going programs. The facility with which such improved components can be added to on-going programs must be demonstrated so that they will be widely implemented.

#### PURPOSE OF THE PROJECTS

These projects will demonstrate ways in which small amounts of funds can be used to substantially improve the delivery of child protective services through the installation of additional and/or modified program components.

#### EXPECTED FINDINGS

It is expected that the functioning of child protective agencies can be substantially improved by the addition and/or modification of specific program components, not requiring substantial additional funding. The projects will identify cost effective program components and the best means of their installation and institutionalization.

#### METHODOLOGY

Grants will be awarded to 10 child protective agencies at the State, sub-State regional, or Standard Metropolitan Statistical Area (SMSA) level. Each project will install one or more new or modified program components in three geographically separate sites at which it presently provides services. An effort will be made to fund projects in demographically diverse settings. Each project will be required to specify the particular program components to be installed at each site. Such program components may include: 24-hour intake services, hotlines, multidisciplinary teams, group work and other therapeutic approaches beyond one-to-one therapy, parent aides, paraprofessionals, and volunteers, cultural and linguistic responsiveness, and internal management, supervision, and accountability procedures. Each project will also identify three additional sites which are demographically and programmatically comparable, but at which no additional or modified program components are installed. Through an outside evaluation involv-

ing all sites (see project No. 8) the impact of the various program components will be measured with regard to: (1) Cost, (2) child protective system impact, and (3) community impact.

#### UTILIZATION

The information gained and examples set by these projects will be communicated to (1) the Nation's over 3,000 public child protective agencies, (2) State social administrators, legislators, and other policymakers, (3) child advocacy organizations, and (4) schools of social work, for their possible use.

#### (d) PREVENTION AND SELF-HELP

#### (7) PROJECT TITLE: DEMONSTRATION OF CHILD PROTECTION AGENCY MANAGEMENT OF SELF-REFERRALS

#### NUMBER, COST AND DURATION OF PROJECTS

Four grants at \$150,000 for each annually for 2 years.

#### IMPORTANCE

Since motivation and self-awareness are important elements in any effort to change behavior, both public and private agencies seek ways in which to build upon the motivation of families who seek their help voluntarily. Many public child protection agencies, which are accustomed to assuming a high degree of involuntary intervention, are uncertain as to how to sensitively handle self-referrals, while private agencies are equally concerned about referring their voluntary clients to a mandated and sometimes impersonal system of reporting, investigation and protection. Thus, a demonstration effort which attempts to maximize the willingness of families to request assistance through the careful management of services which are both appropriate and acceptable, would be a key part of a coordinated public/private strategy aimed at avoiding duplication of services, enhancing early prevention efforts, increasing agency accountability and cooperation, and insuring that cases are not permitted to fall between the public and private sectors.

#### PURPOSE

These projects will demonstrate ways in which child protective agencies can work cooperatively with private agencies to develop systems for the case management and treatment of self-referrals which are responsive to the needs and special concerns of voluntary clients. In addition, procedures for establishing accountability for voluntary, private treatment of identified abuse and neglect cases and referral of high risk cases to sources outside the formal child protection system will be developed. Efforts will be aimed at the development of a com-

prehensive service network from intake to followup which will provide compassionate, fair, and voluntary services to self-referred families.

#### BACKGROUND

Increased public awareness concerning the availability of treatment for child abusing and neglect families has increased the rate of self-referrals in recent years. According to statistics of reported CA/N cases from 31 States, approximately 7 percent (or 6,700) of the cases reported to public child protection agencies fall into the category of self-referral. An even greater number of self-referrals from families whose problems include or potentially include child maltreatment are believed to be received by private family service agencies each year.

A key issue for both public and private service agencies involves ways in which they can be responsive to the needs and fears of self-referred families by providing supportive services in a nonthreatening environment, while maintaining accountability to the formal child protection system. Although some individual CPS agencies have modified their procedures in an effort to improve the handling of self-referrals, for most public agencies, caseloads are too large, available resources are too few, and too little is known about the needs of voluntary clients to establish a management system for the sensitive and appropriate handling of self-referrals. Private agencies, hospitals, and mental health professionals, on the other hand, which often see themselves as the most appropriate long-term resources for their own self-referred caseload, need a system of accountability to the mandated CPS agency which does not jeopardize the therapeutic relationship established with abusive and neglectful families under their care.

#### METHODOLOGY

Four grants will be awarded to State, regional or SMSA public child protection agencies. Each project will be responsible for coordinated self-referral program components in three geographically separate sites at which it presently provides services. An effort will be made to fund projects in demographically and culturally diverse settings. Each project will be required to document the cooperation of the appropriate community prevention and treatment referral resources.

Each project will also identify one additional site which is demographically and programmatically comparable, but at which no additional self-referral programs are installed. Through an outside evaluation (No. 8) involving the sites in this project and in No. 6, the impacts of the presence of the various specific self-referral components will be measured with regard to: (1)

Cost, (2) client impact, (3) child protective system impact, and (4) community impact.

#### UTILIZATION

The information gained and the program components developed will be communicated to the more than 3,000 public child protective agencies across the country. It is expected that reporting and referral guidelines, model contracts of inter-agency cooperation, and specialized procedures for the management and treatment of voluntary clients will be utilized by CPS agencies both to restructure their own systemic management of self-referred cases, and to improve community coordination and handling of self referrals.

#### (8) PROJECT TITLE: EVALUATION OF PUBLIC CHILD PROTECTIVE AGENCY PROGRAM IMPROVEMENT AND MANAGEMENT OF SELF-REFERRAL PROJECTS

#### NUMBER, COST, AND DURATION OF PROJECTS

One contract at \$225,000 (FY 78), \$275,000 (FY 79) and \$75,000 (FY 80).

#### IMPORTANCE

An evaluation of the demonstrations in numbers 6 and 7 (Agency Program Improvement and Management of Self-Referrals) will be conducted in order to provide information about the effectiveness of these methods of technology transfer.

#### PURPOSE

This evaluation will assess the process utilized and outcomes of various approaches to using small amounts of funds to substantially improve the delivery of child protective services.

#### BACKGROUND

The projects under No. 6 and No. 7 are grouped together for evaluation purposes because the generic hypothesis is that the service delivery systems can be significantly improved through a small investment in technology transfer.

#### METHODOLOGY

Routine evaluation processes will be required, including the planning and use of information gathering aids, site visits, and analyses.

#### UTILIZATION

Should the projects prove cost-effective, the evaluation may have a significant impact on planning and operations, especially at the local and State levels. Agencies may institutionalize tested and proven designs.

#### (9) PROJECT TITLE: DEMONSTRATIONS OF COMMUNITY-BASED CHILD ABUSE AND NEGLECT PREVENTION AND TREATMENT PROJECTS

#### NUMBER, COST, AND DURATION OF PROJECT

10 grants at \$120,000 (1st year), \$100,000 (2nd year), and \$70,000 (3rd year) per grant.

#### IMPORTANCE OF PROJECT

Almost all communities have human service resources that are not fully brought to bear to help prevent and treat CA/N. These projects are meant to show how such services can be made part of community-wide strategies and how this can be done with limited funds. Greater use and coordination of existing community agencies for prevention and treatment of actual and high risk situations should result. In addition, the preventive impact of highly targeted supportive services (such as services in hospital delivery and new born facilities) will also be assessed. This experience will be translated into models of effective coordination for replication in all States.

#### PURPOSE

These projects seek to demonstrate how already existing human services in such settings as schools, mental health centers, family service centers, day care programs and medical facilities (1) can prevent child abuse and neglect by encouraging self-referrals providing early services to vulnerable (high-risk) families, (2) can assist child protective efforts through prompt identification and reporting of known and suspected cases, and (3) can assist diagnostic and treatment efforts by accepting referrals from child protective agencies.

#### BACKGROUND

Based on current research findings and the experience of the first group of child abuse demonstration treatment projects, we know that many of the families reported to child protective agencies have a history of previous personal and family problems and have been subjects of concern to schools and other community agencies. At best, these families may have received segmented and sporadic assistance insufficient to stop the process of family deterioration before it reached actual abuse or neglect. If agencies are alert to these "early warning signals" and if early services are made available to these families in a non-threatening atmosphere, then real progress in preventing child maltreatment will be possible.

Even after the child protective services unit becomes involved effective treatment may often be provided by other agencies. Furthermore, any attempt to create the broad range of

treatment services necessary to deal with complex child abuse and neglect situations within child protective agencies would be a costly duplication of existing resources not likely to receive the support of budgeting authorities.

#### EXPECTED FINDINGS

The hypothesis underlying these projects is that, even without infusions of large amounts of additional funds, community human service agencies can help reduce the level of child abuse and neglect in a community by providing preventive services to vulnerable families and by accepting referrals for treatment from child protective agencies. These projects are expected to (1) develop means of identifying vulnerable (high-risk) families, (2) identify those early services most effective in preventing child abuse and neglect, (3) identify those service elements of their present programs of most value in the treatment of cases referred by child protective agencies, and (4) demonstrate that these services are accessible at a feasible cost.

#### METHODOLOGY

Ten grants will be awarded to direct service agencies, able to install program components in three geographically separate sites each at which they presently provide services related to child abuse and neglect. This includes health, mental health, school, law enforcement, and private social service agencies. Public social service agencies providing protective care are excluded.

Each project will be required to specify the particular early services or referral services they will provide at each site and will also be required to document the agreement of the appropriate child protective agency to make referrals for treatment. Such services may include: for medical centers—pre and peri-natal counseling, post-natal follow-up (including home visitors), and Early and Periodic Screening, Diagnostic and Treatment (EPSDT) and well-baby clinic family counseling; for schools—parent education programs for parents and/or teenagers, and school guidance and family counseling services; for family service centers—parent counseling and training services (including infant stimulation and nutrition programs), marital and family stress counseling, respite child care, and emergency family shelters; for mental health centers—individual and group therapy and community education; for day care and other preschool programs—parent education, crisis nursery, parent involvement and mutual support programs and therapeutic services for children.

Each project will also identify three additional sites which are demographically and programmatically comparable, but at which no additional prevention

## NOTICES

and/or treatment components will be installed. Through an outside evaluation involving all sites, No. 10, the impacts of the presence of the various specific prevention and treatment components will be measured with regard to: (1) Cost, (2) client impact, (3) child protective system impact, and (4) community impact.

Because these projects are also designed to demonstrate the degree to which prevention and treatment services can be integrated into existing programs without large amounts of additional funding, there will be a planned 20 percent reduction in Federal assistance in the second program year and another 30 percent reduction in the third and final year of support. Each applicant will be required to describe how this increased local share will be met.

## UTILIZATION

Useful designs will improve and expand nationwide attempts to develop multiagency approaches to family support and child protection. Funding sources are available to institutionalize such services; for example the Community Mental Health Act now specifically requires mental health centers to have program components relating to children.

(10) PROJECT TITLE: EVALUATION OF DEMONSTRATION OF COMMUNITY-BASED CHILD ABUSE AND NEGLECT PREVENTION AND TREATMENT PROJECTS

## NUMBER, COST AND DURATION

One contract at \$150,000 for 2 years and \$100,000 for the third year.

## PURPOSE

This evaluation is necessary in order to determine and analyze the results of the demonstration to be conducted under No. 9.

## METHODOLOGY

Routine evaluation processes will be required, including the planning and use of information gathering aids, site visits, and analyses.

## UTILIZATION

The results will be broadly disseminated to aid Federal, State and local policy, planning, and operations staff.

## (e) JUVENILE COURTS

(11) PROJECT TITLE: DEMONSTRATION OF PROVISION OF COUNSEL IN CHILD PROTECTIVE PROCEEDINGS AND IMPROVED JUVENILE COURT HANDLING OF SUCH CASES

## NUMBER, COST AND DURATION

5 at \$100,000-\$200,000 for 2 years, \$80,000-\$160,000 for the 3rd year, and \$65,000-\$130,000 for the 4th year.

## IMPORTANCE OF PROJECT

Juvenile Courts annually handle over 150,000 cases of alleged child abuse and neglect. The actions of the court can have profoundly important consequences for the children and parents involved. The process itself can be a confusing experience and may ultimately result in the children being removed from their parents and placed in foster care for months or years. In a few cases, termination of the parent-child relationship results. Furthermore, juvenile court action is usually only commenced in cases of severe problems, where the injuries have been unusually serious or the family refuses to cooperate with treatment efforts. For those cases, judicial child protective proceedings may become the catalyst to an effective child protective system in a community.

## PURPOSE OF PROJECT

These projects will develop and demonstrate modes (1) of the provision of counsel to indigent parents, endangered children, and child protective agencies, (2) the improved procedural handling of child protective cases, and (3) the use of modern technology to manage court related word processing and statistical systems.

## BACKGROUND

Juvenile or family court child protective actions are necessary and crucial elements of community-wide responses to the need to treat child abuse and neglect. Essential to any properly functioning court system is the provision of counsel for all necessary parties. In child protective proceedings, this includes at a minimum the accused parents, the endangered children, as well as the agency representatives seeking to take protective action. However, in too many communities, representation is haphazard. In some cases, the parents are represented; in others the agency; and in a few, the child. Partly in response to a requirement for State grant eligibility under Pub. L. 93-247, 42 States guarantee the appointment of a guardian ad litem to represent the child in juvenile court proceedings. However, only 25 States provide an attorney as the guardian ad litem. The increasing attention accorded to the needs of the abused child has made more agencies and courts anxious to take effective action to protect endangered children. However, in their good faith efforts, their action may impact differently on the rights of parents. Counsel for parents should therefore be provided. However, the right to counsel in civil child protective proceedings has not been held by the courts to be required by the Constitution and is provided in few States. These projects are designed to explore and document the

needs and modes of providing counsel for all necessary parties in the proceedings. Only in that way can the fairness and effectiveness of juvenile court child protective proceedings be best insured.

Present court procedures are not designed for sensitive child protective matters. Generally patterned after their juvenile delinquency analogs, many have never developed specialized case handling and evidentiary rules necessary to protect children in emergency situations, determine short and long term custody, and select the most appropriate treatment alternatives. There is a need to clarify roles, procedures and personal skills in judicial child protective decision-making, as well as to apply modern management techniques, such as automated word processing, to improve the efficiency of the courts.

## EXPECTED FINDINGS

The hypothesis underlying these projects is that the provision of counsel to parents, children and agencies and the modernization of case handling will result in fairer, prompter, and more appropriate court action. These projects are expected to (1) develop procedures for appointing counsel and delineating their roles, (2) develop specialized case handling procedures, and (3) demonstrate the effective use of automated data processing technology.

## METHODOLOGY

Five grants will be awarded to rural, suburban and urban juvenile or family courts. Each project will develop and then install the procedures described above. Each applicant will be required to describe how it would evaluate the project from two points of view: (1) The increased efficiency of the courts, compared to base line data collected before the installation of the project activities; and (2) the impact of the grant activities on those represented, i.e., the parents, the children, and the agency. Among the issues to be explored in the second category will be the parents' perception of the fairness of the system, the agency's understanding of the use of court action and its acceptance of the needs of the litigation process, and the degrees to which the needs and wishes of the child are taken into account. Evaluation of funded projects will be performed by program office staff using the evaluation data provided by the projects.

## UTILIZATION

There are approximately 3,000 juvenile courts in this country, with 3,500 juvenile court judges hearing and determining cases each year. Through the information gained from these

projects, model procedures, guidelines, and protocols will be developed that can be integrated into in-service training and technical assistance activities related to these court systems.

## (f) INSTITUTIONAL CHILD ABUSE AND NEGLECT

(12) PROJECT TITLE: DEMONSTRATIONS OF INVESTIGATIONS AND CORRECTION OF INSTITUTIONAL CHILD ABUSE AND NEGLECT

## NUMBER, COST, AND DURATION

4 grants at \$75,000 for 3 years each.

## IMPORTANCE OF PROJECT

As a result of the Pub. L. 93-247 eligibility requirements, 42 states now make provision for the independent investigation and correction of institutional child abuse and neglect.

However, since such efforts are of such recent origin, there is no body of practical experience that states and child advocacy groups can look to in fashioning their own programs.

## PURPOSE OF THE PROJECT

These projects will develop and test methods of operating on-going programs to receive, investigate, and where appropriate, take corrective action concerning reports of known and suspected child abuse and neglect in institutional and other out-of-home placement.

## BACKGROUND

Over 100,000 children live in residential institutions such as treatment centers, temporary and long term shelters, detention homes, centers for the mentally retarded and developmentally disabled and group homes. In the past, allegations of institutional child maltreatment—if acted on at all—have been handled on an ad hoc basis, often through grand jury investigations or the creation of "blue ribbon" panels. The 42 Pub. L. 93-247 eligible states, as well as some others, are now seeking to develop operating procedures to implement the legally binding investigating policies that have recently been enacted. However, because so little has been done in the past toward installing on-going programs to protect endangered children living in residential facilities, the states are implementing their program with no guidance from previously demonstrated approaches.

## EXPECTED FINDINGS

The hypothesis underlying these projects is that there are certain fundamental approaches to handling reports of known and suspected institutional child maltreatment which can be effectively demonstrated for later widespread replication. The results of these projects will be protocols, procedures and case materials that can be

## NOTICES

used as blueprints by other States in implementing on-going systems to handle institutional child abuse and neglect.

## METHODOLOGY

Four grants will be awarded to State agencies independent of service delivery agencies but with authority for the investigation and correction of institutional child abuse and neglect. These projects will: (1) Prepare a state-of-the-art paper on the nature, extent, explanatory reasons, and guidelines for preventing and correcting this form of child maltreatment; (2) develop multi-agency protocols; (3) develop procedures for receiving reports; (4) develop fact finding procedures including investigations, surveys, and consultations; (5) develop corrective actions including personnel actions, policy and program changes, and legislative and budgetary recommendations; and (6) develop procedures for the monitoring of agency effectiveness.

## UTILIZATION

The materials developed by these projects will be directly disseminated to State Child Protective agencies, other relevant State agencies, and decision-makers, private and quasi-public advocacy organizations (such as Committees for Children and Youth) for their consideration and possible use.

## (g) RESOURCE ENHANCEMENT

(13) PROJECT TITLE: NATIONAL RESOURCE CENTERS FOR PROFESSIONALS AND MINORITY POPULATIONS

## NUMBER, COST AND DURATION

5 grants for \$200,000 each for 3 years.

## IMPORTANCE OF PROJECT

National professional organizations are prime shapers of the professional behaviors within service delivery and administrative settings. These projects will demonstrate how the energies of national professional organizations can be directed toward enhancing state and local child abuse and neglect treatment efforts. Minority group organizations serve their constituencies as major sources of information on human service issues and as advocates before public and private service delivery agencies to insure the adequacy and sensitivity of service to those constituencies. These projects will specifically focus attention on minority, cultural sensitivity in the development, staffing and delivery of child protective services by all the relevant disciplines and service systems.

## PURPOSE OF THE PROJECT

These projects will identify the ways in which national organizations can:

(1) Raise professional awareness, (2) improve professional skills, (3) foster interdisciplinary cooperation, and (4) improve and expand minority participation in relation to the prevention and treatment of child abuse and neglect.

## BACKGROUND

With the burgeoning of information and technical resources available for the upgrading of activities to prevent and treat child abuse and neglect, there is a need to develop and test approaches for disseminating that information and applying those resources in a highly targeted and efficient manner. Without effective dissemination channels, such as the ones which already exist in nascent forms in the professional and minority organizations to which the relevant individual human service providers and law enforcement personnel belong, the information and technical resources being generated both by federally supported research and demonstration and by the state and private sectors will have no ameliorative effects.

A specific concern is that the field of service delivery to abused and neglected children and their families is still under-represented in terms of professionals capable of responding to the cultural and linguistic diversity of their client populations.

NCCAN's experience in supporting 16 Regional State and Special Population demonstration resource projects since FY 1974 has proved the efficiency and effectiveness of forming partnerships with academic and private nonprofit agencies in the dissemination of information and provision of basic education on the identification and reporting of child abuse and neglect for the public in general. In addition, NCCAN's experience in demonstrating the use of a multidisciplinary curriculum on the identification, referral and case management of child abuse and neglect in FY 1977 through the auspice of national professional associations has provided convincing evidence of their efficient and credible access to their constituents. The convergence of these two sets of demonstrations suggests the usefulness of a program to test the utility of a federal-private association partnership to disseminate information and technical resources to specific audiences in the field.

## EXPECTED FINDINGS

The hypothesis underlying these projects is that national organizations are a largely untapped resource which can leverage significant service delivery improvements at the state and local level and within specific minority populations. The projects are expected to identify cost-efficient strategies for the development and dissemination of

3250

## NOTICES

information on services and professional and lay practice in the field of child abuse and neglect prevention and treatment.

## METHODOLOGY

Three grants will be awarded to national professional organizations in the fields serving children and families, such as social work-social services, medicine and health, mental health, law and law enforcement, and education. Two grants will be awarded to minority group organizations with capability for national program implementation and specific concerns for human service delivery to the minority populations which they represent. Each applicant will be required to describe how it will implement the following program components: (1) The development of profession specific or

minority group-related written materials, including policy guides, curricula, and investigative, diagnostic and treatment aides and manuals; (2) the dissemination of relevant materials and other information; (3) the provision of technical assistance to programs and advocacy groups; (4) the training of service providers; (5) the development and acceptance of accreditation and/or specialization standards; (6) the advocacy for implementation of program improvements; and (7) interdisciplinary and intercultural exchanges. Each applicant will be required to describe the procedures it will use to evaluate the cost and impact of project activities.

## UTILIZATION

These projects are expected to be highly visible and to themselves insure

utilization of the benefits to their respective constituencies during the demonstration period. Following the demonstration period, and based on NCCAN staff evaluation, the experience of the projects will be analyzed and used to develop recommended organization roles in the improvement of state and local child abuse and neglect prevention and treatment services.

Dated: January 11, 1978.

## list of cfr parts affected in this issue

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.  
A Cumulative List of CFR Sections Affected is published separately at the end of each month. The guide lists the parts and sections affected by documents published since the revision date of each title.

Title 3—The President

Proclamation 4547 • January 20, 1978  
Import Fees on Sugar, Sirups, and Molasses

By the President of the United States of America

A Proclamation

By Proclamation No. 4538 of November 11, 1977, I imposed import fees on certain sugars, sirups, and molasses. I also requested the United States International Trade Commission to make an immediate investigation with respect to this matter pursuant to section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624), and to report its findings and recommendations to me as soon as possible.

The Secretary of Agriculture has since informed me that the fees established by Proclamation No. 4538 are insufficient. He has again advised me that he has reason to believe that sugars, sirups, and molasses, derived from sugar cane or sugar beets, classified under items 155.20 and 155.30, of the Tariff Schedules of the United States (TSUS) (19 U.S.C. 1202), hereinafter referred to as "sugars", are being, or are practically certain to be, imported into the United States under such conditions and in such quantities as to render or tend to render ineffective, or to materially interfere with the price support operations now being conducted by the Department of Agriculture for sugar cane and sugar beets, or to reduce substantially the amount of any product being processed in the United States from such domestic sugar beets and sugar cane. The Secretary of Agriculture has reaffirmed his determination that the condition requires emergency treatment.

I agree there is reason for these beliefs and I find and declare that:

(a) Sugars, described below by use and physical description, are being imported, or are practically certain to be imported, into the United States under such conditions and in such quantities as to render or tend to render ineffective, or materially interfere with, the price support operations being conducted by the Department of Agriculture for sugar cane and sugar beets, or reduce substantially the amount of any product processed in the United States from domestic sugar beets or sugar cane;

(b) A condition exists which requires the immediate imposition of the import fees hereinafter set forth, without awaiting the report and recommendations of the United States International Trade Commission.

(c) The imposition of the import fees hereinafter proclaimed is necessary in order that the entry, or withdrawal from warehouse, for consumption of such sugars will not render or tend to render ineffective, or materially interfere with, the price support operations being conducted by the Department of Agriculture for sugar beets and sugar cane, or reduce substantially the amount of products processed in the United States from such domestic sugar beets or sugar cane.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, acting under the authority vested in me by the Constitution and Statutes of the United States of America, including section 22 of the Agricul-

tural Adjustment Act, as amended, do hereby proclaim that Part 3 of the Appendix to the TSUS is amended as follows:

1. Headnote 4 is amended to read as follows:

4. Sugar, sirups, and molasses  
(a) Licenses may be issued by the Secretary of Agriculture or his designee authorizing the entry of articles exempt from the fees provided for in items 956.05, 956.15, and 957.15 of this part on the condition that such articles will be used only for the production (other than by distillation) of polyhydric alcohols, except polyhydric alcohols for use as a substitute for sugar in human food consumption. Such licenses shall be issued under regulations of the Secretary of Agriculture which he determines are necessary to insure the use of such articles only for such purposes.

(b) "Not to be further refined or improved in quality" as used in item 956.05 means not to be further refined or improved in quality by being subjected substantially to the processes of (1) affination or defecation, (2) clarification, or (3) further purification by absorption or crystallization.

2. Items 956.10, 956.20, 957.10, and 957.20 are deleted.

3. The following new items, in numerical sequence, are added following item 955.06:

Item	Articles	Rates of Duty (Section 22 Fees)
	Sugars, sirups, and molasses, derived from sugar cane or sugar beets, except those entered pursuant to a license issued by the Secretary of Agriculture in accordance with headnote 4(a): Principally of crystalline structure or in dry amorphous form, provided for in item 155.20, part 10A, schedule I:	
956.05	Not to be further refined or improved in quality .....	3.22¢ per lb., but not in excess of 50% ad val.
956.15	To be further refined or improved in quality .....	2.70¢ per lb., but not in excess of 50% ad val.
957.15	Not principally of crystalline structure and not in dry amorphous form, containing soluble non-sugar solids (excluding any foreign substance that may have been added or developed in the product) equal to 6% or less by weight of the total soluble solids, provided for in item 155.30, part 10A, schedule I .....	3.22¢ per lb. of total sugars, but not in excess of 50% ad val.

With the following exceptions, this proclamation applies to articles entered, or withdrawn from warehouse, for consumption after 12:01 a.m. (Eastern Standard Time) on the day following its issuance. One exception shall be for the sugars of Malawian origin which entered the United States before February 15, 1978, pursuant to contracts for delivery to the United States entered into before November 11, 1977. Further, if it is established to the satisfaction of the Commissioner of Customs that articles subject to proclamations 4538 and 4539 exported to the United States before November 11, 1977, or imported to fulfill forward contracts for delivery to the United States entered into before November 11, 1977, could have been, but were not, entered for consumption on or before January 1, 1978, as a result of the delay in transportation to a point within the limits of a Customs port of entry of the United States because of windstorm, fog, or similar stress of weather, the provisions of proclamations 4538 and 4539 shall not apply to the articles even though they are entered for consumption after January 1, 1978 nor shall the provisions of this proclamation be applicable to them. The proclamation shall continue to apply until I have acted on the Report of the United States International Trade Commission.

IN WITNESS WHEREOF, I have hereunto set my hand this twentieth day of January, in the year of our Lord nineteen hundred and seventy-eight, and of the Independence of the United States of America the two hundred and second.

[FR Doc. 78-2170 Filed 1-20-78; 5:11 pm]

EDITORIAL NOTE: The President's statement of January 20, 1978, on signing Proclamation 4547, is printed in the Weekly Compilation of Presidential Documents (vol. 14, no. 3).

## rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Executive Office of the President; Correction

AGENCY: Civil Service Commission.

ACTION: Correction to compilation of regulations.

SUMMARY: This document adds to the revised Part 213 published in the FEDERAL REGISTER of December 30, 1977, on page 65508, a section which was inadvertently omitted.

EFFECTIVE DATE: December 30, 1977.

FOR FURTHER INFORMATION CONTACT:

Grace D. Carpenter, 202-632-5555.

Accordingly, 5 CFR 213.3303(d)(6) should have been added as follows:

§ 213.3303 Executive Office of the President.

(d) Office of the Special Representative for Trade Negotiations.

(8) One Confidential Assistant to the Deputy Special Representative for Trade Negotiations.

For the U.S. Civil Service Commission.

JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc. 78-1886 Filed 1-23-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Department of Agriculture

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: One position of Assistant Sales Manager is excepted under schedule C because it is confidential in nature.

EFFECTIVE DATE: January 24, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3313(a)(42) is added as set out below:

§ 213.3313 Department of Agriculture.

(a) Office of the Secretary. . . .

(42) One Assistant Sales Manager.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

For the U.S. Civil Service Commission.

JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc. 78-1966 Filed 1-23-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Department of Defense

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: One position of Private Secretary to the Deputy Director of Defense Research and Engineering (Strategic and Space Systems) is reestablished under schedule C because it is confidential in nature.

EFFECTIVE DATE: January 24, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3306(a)(2) is amended as set out below:

§ 213.3306 Department of Defense.

(a) Office of the Secretary. . . .

(2) One Private Secretary to the Deputy Secretary of Defense and one Private Secretary to each of the following: Director of Defense Research and Engineering; the Principal Deputy Director of Defense Research and Engineering; the Deputy Directors of Defense Research and Engineering (Tactical Warfare Programs), (Strategic and Space Systems), (Research and Technology); the Director, Advanced Research Project Agency; the Assistant Secretaries of Defense (Manpower and Reserve Affairs), (International Security Affairs), (Public Affairs), (Installations and Logistics), (Comptroller), (Program Analysis and Evaluation), and the Assistant to the Secre-

tary of Defense (Legislative Affairs); the General Counsel, the Assistant to the Secretary of Defense (Atomic Energy); and the Military Assistants to the Secretary of Defense.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

For the U.S. Civil Service Commission.

JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc. 78-1964 Filed 1-23-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Department of Housing and Urban Development

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: The position of Assistant to the Secretary for Labor Relations is excepted from the competitive service under schedule C because it is confidential in nature.

EFFECTIVE DATE: January 24, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3384(a)(13) is added as set out below:

§ 213.3384 Department of Housing and Urban Development.

(a) Office of the Secretary. . . .

(13) One Assistant to the Secretary for Labor Relations.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

For the U.S. Civil Service Commission.

JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc. 78-1965 Filed 1-23-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Department of Transportation

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: One position of Special Assistant to the Secretary is reestab-

lished under schedule C because it is confidential in nature.

EFFECTIVE DATE: January 24, 1978.  
FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 3394(a)(2) is amended as set out below:

§ 213.3394 Department of Transportation.

(a) Office of the Secretary. . . .

(2) One Special Assistant to the Secretary.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

For the U.S. Civil Service Commission.

JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[3410-01]

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Revision of Delegations of Authority

AGENCY: Department of Agriculture.  
ACTION: Final rule.

SUMMARY: This document revises the delegations of authority from the Secretary and General Officers to reflect the establishment of a new agency, the Science and Education Administration, headed by the Director of Science and Education. It has been determined that this action will enable the Department to better carry out its responsibilities and serve the public.

EFFECTIVE DATE: January 24, 1978.  
FOR FURTHER INFORMATION CONTACT:

Joseph F. Delaney, Management Improvement Staff, Science and Education Administration, U.S. Department of Agriculture, 6505 Belcrest Road, Hyattsville, Maryland 20782 (301-436-8650).

SUPPLEMENTARY INFORMATION: The delegations of authority of the Department of Agriculture are amended to reflect the consolidation of the Agricultural Research Service, the Cooperative State Research Service, the Extension Service, and the National Agricultural Library into a new Agency, the Science and Education Administration headed by the Director of Science and Education who will

RULES AND REGULATIONS

report to the Assistant Secretary for Conservation, Research, and Education. In addition, the new agency is delegated authorities contained in the National Agricultural Research, Extension, and Teaching Policy Act of 1977. Nothing in these delegations is intended to diminish the authorities, delegated elsewhere in this Part, of the Assistant Secretary for Food and Consumer Services for nutrition research, nor those of the Assistant Secretary for Rural Development for rural community development research, nor those of the Director, Economics, Policy Analysis and Budget for national leadership and departmental coordination of agriculture economics and economic analysis.

Accordingly, Part 2, Subtitle A, Title 7, Code of Federal Regulations is amended as follows:

Subpart C—Delegations of Authority to the Deputy Secretary, Assistant Secretaries, the Director of Economics, Policy Analysis and Budget, and the Director, Office of Governmental and Public Affairs

1. Section 2.19 is amended by revoking and reserving paragraphs (b), (c), and (e), and by revising paragraph (a) to read as follows:

§ 2.19 Delegations of authority to the Assistant Secretary for Conservation, Research, and Education.

(a) Related to science and education.  
(1) Provide national leadership and coordination for agricultural research, extension, and teaching programs in the food and agricultural sciences (includes human nutrition, home economics, consumer services, family life, rural and community development, agricultural energy, agricultural economics, environmental quality, natural and renewable resources, forestry, range management, animal and plant production and protection, aquaculture, and the processing, distribution, marketing, and utilization of food and agricultural products) conducted or financed by the Department of Agriculture and, to the maximum extent practicable, by other Federal departments and agencies pursuant to the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3121).

(2) Administer a cooperative agricultural extension program related to agriculture, uses of solar energy with respect to agriculture and home economics under the Smith-Lever Act as amended (7 U.S.C. 341-349).

(3) Cooperate with the States for the purpose of encouraging and assisting them in carrying out research related to the problems of agriculture in its broadest aspects under the Hatch Act as amended (7 U.S.C. 361a-361i).

(4) Support agricultural research at eligible institutions in any State

through Federal-grant funds to help finance physical facilities (7 U.S.C. 390-390k).

(5) Conduct research concerning domestic animals and poultry, their protection and use, causes of contagious, infectious, and communicable diseases and means for the prevention and cure of the same (7 U.S.C. 391).

(6) Conduct research related to the dairy industry and dissemination of information for the promotion of the dairy industry (7 U.S.C. 402).

(7) Conduct research and demonstrations at Mandan, N. Dak., and Lewisburg, Tenn., concerning dairy livestock breeding, growing, and feeding, and other problems pertaining to the establishment of dairy and livestock industries (7 U.S.C. 421-422).

(8) Conduct research on new uses for cotton and on cotton ginning and processing (7 U.S.C. 423-424).

(9) Conduct research into the basic problems of agriculture in its broadest aspects, including, but not limited to, production, marketing (other than statistical and economic research but including consumer and food economic research), distribution, processing, utilization of plant and animal commodities, problems of human nutrition, development of markets for agricultural commodities, discovery, introduction, and breeding of new crops, plants, and animals both foreign and native; conservation development, and development of efficient use of farm buildings, homes, and farm machinery, including the application of electricity and other forms of power and research and development related to uses of solar energy with respect to farm buildings, farm homes, and farm machinery (7 U.S.C. 427, 2201, 2204).

(10) Conduct research on varietal improvement of wheat and feed grain to enhance their conservation and environmental qualities (7 U.S.C. 428b).

(11) Administer a program for the improvement of poultry, poultry products, and hatcheries (7 U.S.C. 429).

(12) Advance the livestock and agricultural interests of the United States including the breeding of horses suited to the needs of the United States (7 U.S.C. 437).

(13) Enter into agreements with and receive funds from any State or political subdivision, organization, or person for the purpose of conducting cooperative research projects (7 U.S.C. 450a).

(14) Administer a program of competitive, special, and facilities grants to State agricultural experiment stations, colleges and universities, other research institutions and organizations, Federal agencies, private organizations or corporations and individuals to promote research in food, agricultural and related areas (7 U.S.C. 450i).

(15) Conduct research related to soil and water conservation, engineering operations and methods of cultivation

to provide for the control and prevention of soil erosion (7 U.S.C. 1010, 16 U.S.C. 590a).

(16) Maintain four regional research laboratories and conduct research at such laboratories to develop new scientific, chemical, and technical uses and new and extended markets and outlets for farm commodities and products and byproducts (7 U.S.C. 1292).

(17) Conduct a special cotton research program designed to reduce the cost of producing upland cotton in the United States (7 U.S.C. 1441-note).

(18) Conduct research, educational, and demonstration work related to the distribution and marketing of agricultural products under the Agricultural Marketing Act of 1946 as amended (7 U.S.C. 1621-1627).

(19) Administer and coordinate a foreign contracts and grants program of market development research in the physical and biological sciences under section 104(b)(1) of the Agricultural Trade, Development, and Assistance Act of 1954, but excluding agricultural economics research; and administer and coordinate a foreign contracts and grants program of agricultural and forestry research under section 104(b)(3) of such act (7 U.S.C. 1704(b), (1), (3)).

(20) Conduct research in tropical and subtropical agriculture for the improvement and development of tropical and subtropical food products for dissemination and cultivation in friendly countries as provided by the Food for Peace Act of 1966 (7 U.S.C. 1736(a)(4)).

(21) Conduct research to develop and determine methods of humane slaughter of livestock (7 U.S.C. 1904).

(22) Accept gifts and order disbursements from the Treasury for the benefit of the National Agricultural Library or for carrying out any of its functions (7 U.S.C. 2284-2285).

(23) Administer in cooperation with the States a cooperative rural development and small farm research and extension program under the Rural Development Act of 1972 as amended (7 U.S.C. 2661-2670).

(24) Administer a cooperative extension program under the Farmer-to-Consumer Direct Marketing Act of 1976 (7 U.S.C. 3004).

(25) Conduct a program of grants to States to establish or expand schools of veterinary medicine (7 U.S.C. 3151).

(26) Conduct a program of (i) competitive grants to colleges and universities and (ii) predoctoral and postdoctoral fellowships, to further education in the food and agricultural sciences (7 U.S.C. 3152).

(27) Administer the National Agricultural Research Award for research or advanced studies in the food and agricultural sciences (7 U.S.C. 3153).

(28) Make grants to colleges and universities for research on the produc-

RULES AND REGULATIONS

tion and marketing of alcohols and industrial hydrocarbons from agricultural commodities and forest products and agricultural chemicals and other products from coal derivatives (7 U.S.C. 3154).

(29) Administer a national food and human nutrition research and extension program under the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3171-3177).

(30) Administer an animal health and disease research program under the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3191-3193, 3195-3201).

(31) Support continuing agricultural and forestry extension and research at 1890 land-grant colleges including Tuskegee Institute (7 U.S.C. 3221, 3222).

(32) Administer in relation to uses of solar energy (i) a competitive research grants program, (ii) a solar energy research information system, (iii) a cooperative program with the States on model farms and demonstration projects, and (iv) a program of research, extension, and demonstration at regional solar energy research and development centers (7 U.S.C. 3241, 3251, 3261-3263, 3271, 3281-3282).

(33) Cooperate and work with national and international institutions and other persons throughout the world in the performance of agricultural research and extension activities (7 U.S.C. 3291).

(34) Conduct educational and demonstration work in cooperative farm forestry program (16 U.S.C. 568).

(35) Cooperate with the States for the purpose of encouraging and assisting them in carrying out programs of forestry research (16 U.S.C. 582a-582a-7).

(36) Authorize the use of the 4-H Club name and emblem (18 U.S.C. 707).

(37) Maintain a National Arboretum for purpose of research and education concerning tree and plant life; accept and administer gifts or devises of real and personal property for the benefit of the National Arboretum; and order disbursements from the Treasury (20 U.S.C. 191-195).

(38) Conduct research on foot-and-mouth disease and other animal diseases (21 U.S.C. 113a).

(39) Conduct research on control and eradication of cattle grubs (screw-worms) (21 U.S.C. 144e).

(40) Conduct research, demonstration, and promotion activities related to farm dwellings and other buildings for the purpose of reducing costs and adapting and developing fixtures and appurtenances for more efficient and economical farm use (42 U.S.C. 1476(b)).

(41) Make grants for the support of basic scientific research at nonprofit organizations whose primary purpose

is the conduct of scientific research (42 U.S.C. 1891).

(42) Conduct research on losses of livestock in interstate commerce due to injury or disease (45 U.S.C. 71 note).

(43) Administer the Virgin Islands agricultural research program (48 U.S.C. 1409m-0).

(44) Conduct research related to the use of domestic agricultural commodities for the manufacture of any material determined to be strategic and critical or substitute therefor, under section 7(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98f).

(45) Administer a cooperative agricultural extension program related to agriculture, uses of solar energy with respect to agriculture and home economics in the District of Columbia (D.C. Code Section 31-1719).

(46) Provide leadership and direct assistance to the Cooperative Extension Service in planning, conducting, and evaluating extension programs under a memorandum of agreement with the Bureau of Indian Affairs dated May 1956.

(47) Exercise responsibilities of the Secretary under regulations dealing with Equal Employment Opportunity in the Cooperative Extension Service (pt. 18 of this subtitle).

(48) Represent the Department on the Federal Interagency Council on Education.

(49) Develop and maintain library and information systems and networks and facilitate cooperation and coordination for the agricultural libraries of colleges, universities, Department of Agriculture, and their closely allied information gathering and dissemination units in close conjunction with private industry and other research libraries (7 U.S.C. 2201, 2203, 3126).

(50) Assure the acquisition, preservation and accessibility of all information concerning food and agriculture by providing leadership to and coordination of the acquisition programs and related activities of the library and information system, and the agencies of USDA, other Federal departments and agencies, State agricultural experiment stations, colleges and universities, and other research institutions and organizations.

(51) Formulate, write and/or prescribe bibliographic and technically related standards for the library and information services of USDA.

(52) Determine by survey and other appropriate means the information needs of the Department's scientific, professional, technical and administrative staffs, its constituencies and the general public in the areas of food, agriculture, the environment, and solar energy.

(53) Represent the Department on all library and information science matters before Congressional Commit-

tees and appropriate commissions, and provide representation to the coordinating committees of the Federal and State governments concerned with library and information science activities.

(54) Represent the Department in international organizational activities and on international technical committees concerned with library and information science activities.

(55) Prepare and disseminate computer bibliographic files, indexes and abstracts, bibliographies, reviews, and other analytical information tools.

(56) Copy and deliver on demand selected articles and other materials from its collections by photographic reproduction or other means within the permissions, constraints and limitations of Sections 106, 107, and 108 of the Copyright Act of October 19, 1976 (Title 17, U.S. Code).

(57) Arrange for the consolidated purchasing and dissemination of indexes, abstracts, journals and other widely used information publications and services.

(58) Provide assistance and support to professional organizations concerned with library and information science matters and issues.

(59) Pursuant to authority delegated by the Administrator of the General Services Administration to the Secretary of Agriculture in 34 FR 6406, 36 FR 1293, 36 FR 18440, and 38 FR 23838, appoint uniformed armed guards as special policemen, make all needful rules and regulations, and annex to such rules and regulations such reasonable penalties, (not to exceed those prescribed in 40 (U.S.C. 318c), as will ensure their enforcement, for the protection of persons, property, buildings, and grounds of the Arboretum, Washington, D.C.; the U.S. Meat Animal Research Center, Clay Center, Nebr.; the Agricultural Research Center, Beltsville, Md., and the Animal Disease Center, Plum Island, N.Y., over which the United States has exclusive or concurrent criminal jurisdiction, in accordance with the limitations and requirements of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377) as amended, the Act of June 1, 1948 (62 Stat. 181) as amended, and policies, procedures and controls prescribed by the General Services Administration. Any rules or regulations promulgated under this authority shall be approved by the Director of the Office of Operations and Finance and the General Counsel prior to issuance.

(60) Control within the Department of Agriculture of the acquisition, use and disposal of material and equipment which may be a source of ionizing radiation hazard.

(61) Administer teaching funds authorized under section 22 of the Bank-

head Jones Act, as amended (7 U.S.C. 329).

(b)-(c) (Revoked and reserved)

(d) *Related to forest service*

(e) (Revoked and reserved)

2. Section 2.20 is amended by revoking and reserving paragraphs (b) and (c) and by adding a new paragraph (a) to read as follows:

#### § 2.20 Reservations of authority.

(a) *Related to science and education.*

(1) Withholding funds from States and sending notification thereof to the President in accordance with sections 5 and 6 of the Smith-Lever Act, as amended (7 U.S.C. 345-346), sections 5 and 7 of the Hatch Act as amended (7 U.S.C. 361 e.g.), section 506 of the Rural Development Act as amended (7 U.S.C. 2666), and sections 1436, 1444, 1445, and 1468 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3198, 3221, 3222, and 3314).

(2) Reapportioning funds under section 4 and apportioning funds under section 5 of the act of October 10, 1962 (16 U.S.C. 582a-3, a-4).

(3) Appointing an advisory committee under section 6 of the act of October 10, 1962 (16 U.S.C. 582a-5).

(4) Final concurrence of Equal Employment Opportunity programs within the cooperative extension programs submitted under part 18 of this subtitle.

(5) Approving selection of State directors of extension.

(6) Approving the memoranda of understanding between the land-grant universities and the Department of Agriculture related to cooperative extension programs.

(b)-(c) (Revoked and reserved)

#### Support G—Delegations of Authority by the Assistant Secretary for Conservation, Research, and Education

3. Sections 2.58, 2.59, and 2.61 are revoked and reserved and § 2.57 is revoked and the following substituted in lieu thereof:

#### § 2.57 Director of Science and Education.

(a) *Delegations.* Pursuant to § 2.19(a), subject to reservations in § 2.20(a), the following delegations of authority are made by the Assistant Secretary for Conservation, Research, and Education to the Director of Science and Education:

(1) Provide national leadership and coordination for agricultural research, extension, and teaching programs in the food and agricultural sciences (in-

cludes human nutrition, home economics, consumer services, family life, rural and community development, agricultural energy, agricultural economics, environmental quality, natural and renewable resources, forestry, range management, animal and plant production and protection, aquaculture, and the processing, distribution, marketing, and utilization of food and agricultural products) conducted or financed by the Department of Agriculture and, to the maximum extent practicable, by other Federal departments and agencies pursuant to the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3121).

(2) Administer a cooperative agricultural extension program related to agriculture, uses of solar energy with respect to agriculture and home economics under the Smith-Lever Act as amended (7 U.S.C. 341-349).

(3) Cooperate with the States for the purpose of encouraging and assisting them in carrying out research related to the problems of agriculture in its broadest aspects under the Hatch Act as amended (7 U.S.C. 361a-361i).

(4) Support agricultural research at eligible institutions in any State through Federal-grant funds to help finance physical facilities (7 U.S.C. 390-390k).

(5) Conduct research concerning domestic animals and poultry, their protection and use, causes of contagious, infectious, and communicable diseases and means for the prevention and cure of the same (7 U.S.C. 391).

(6) Conduct research related to the dairy industry and dissemination of information for the promotion of the dairy industry (7 U.S.C. 402).

(7) Conduct research and demonstrations at Mandan, N. Dak., and Lewisburg, Tenn., concerning dairy livestock breeding, growing, and feeding, and other problems pertaining to the establishment of dairy and livestock industries (7 U.S.C. 421-422).

(8) Conduct research on new uses for cotton and on cotton ginning and processing (7 U.S.C. 423-424).

(9) Conduct research into the basic problems of agriculture in its broadest aspects, including, but not limited to, production, marketing (other than statistical and economic research but including consumer and food economic research), distribution, processing, utilization of plant and animal commodities, problems of human nutrition, development of markets for agricultural commodities, discovery, introduction, and breeding of new crops, plants, and animals both foreign and native; conservation development, and development of efficient use of farm buildings, homes, and farm machinery, including the application of electricity and other forms of power and research and development related to uses of

solar energy with respect to farm buildings, farm homes, and farm machinery (7 U.S.C. 427, 2201, 2204).

(10) Conduct research on varietal improvement of wheat and feed grain to enhance their conservation and environmental qualities (7 U.S.C. 428b).

(11) Administer a program for the improvement of poultry, poultry products, and hatcheries (7 U.S.C. 429).

(12) Advance the livestock and agricultural interests of the United States including the breeding of horses suited to the needs of the United States (7 U.S.C. 437).

(13) Enter into agreements with and receive funds from any State or political subdivision, organization, or person for the purpose of conducting cooperative research projects (7 U.S.C. 450a).

(14) Administer a program of competitive, special, and facilities grants to State agricultural experiment stations, colleges and universities, other research institutions and organizations, Federal agencies, private organizations or corporations and individuals to promote research in food, agricultural and related areas (7 U.S.C. 450i).

(15) Conduct research related to soil and water conservation, engineering operations and methods of cultivation to provide for the control and prevention of soil erosion (7 U.S.C. 1010, 16 U.S.C. 590a).

(16) Maintain four regional research laboratories and conduct research at such laboratories to develop new scientific, chemical, and technical uses and new and extended markets and outlets for farm commodities and products and byproducts (7 U.S.C. 1292).

(17) Conduct a special cotton research program designed to reduce the cost of producing upland cotton in the United States (7 U.S.C. 1441-note).

(18) Conduct research, educational, and demonstration work related to the distribution and marketing of agricultural products under the Agricultural Marketing Act of 1946 as amended (7 U.S.C. 1621-1627).

(19) Administer and coordinate a foreign contracts and grants program of market development research in the physical and biological sciences under section 104(b)(1) of the Agricultural Trade, Development, and Assistance Act of 1954, but excluding agricultural economics research; and administer and coordinate a foreign contracts and grants program of agricultural and forestry research under section 104(b)(3) of such act (7 U.S.C. 1704(b), (1), (3)).

(20) Conduct research in tropical and subtropical agriculture for the improvement and development of tropical and subtropical food products for dissemination and cultivation in friendly countries as provided by the Food for Peace Act of 1966 (7 U.S.C. 1736(a)(4)).

(21) Conduct research to develop and determine methods of humane slaughter of livestock (7 U.S.C. 1904).

(22) Accept gifts and order disbursements from the Treasury for the benefit of the National Agricultural Library or for carrying out any of its functions (7 U.S.C. 2264-2265).

(23) Administer in cooperation with the States a cooperative rural development and small farm research and extension program under the Rural Development Act of 1972 as amended (7 U.S.C. 2661-2670).

(24) Administer a cooperative extension program under the Farmer-to-Consumer Direct Marketing Act of 1976 (7 U.S.C. 3004).

(25) Conduct a program of grants to States to establish or expand schools of veterinary medicine (7 U.S.C. 3151).

(26) Conduct a program of (i) competitive grants to colleges and universities and (ii) predoctoral and postdoctoral fellowships, to further education in the food and agricultural sciences (7 U.S.C. 3152).

(27) Administer the National Agricultural Research Award for research or advanced studies in the food and agricultural sciences (7 U.S.C. 3153).

(28) Make grants to colleges and universities for research on the production and marketing of alcohols and industrial hydrocarbons from agricultural commodities and forest products and agricultural chemicals and other products from coal derivatives (7 U.S.C. 3154).

(29) Administer a national food and human nutrition research and extension program under the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3171-3177).

(30) Administer an animal health and disease research program under the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3191-3193, 3195-3201).

(31) Support continuing agricultural and forestry extension and research at 1890 land-grant colleges including Tuskegee Institute (7 U.S.C. 3221, 3222).

(32) Administer in relation to uses of solar energy (i) a competitive research grants program, (ii) a solar energy research information system, (iii) a cooperative program with the States on model farms and demonstration projects, and (iv) a program of research, extension, and demonstration at regional solar energy research and development centers (7 U.S.C. 3241, 3251, 3261-3263, 3271, 3281-3282).

(33) Cooperate and work with national and international institutions and other persons throughout the world in the performance of agricultural research and extension activities (7 U.S.C. 3291).

(34) Conduct educational and demonstration work in cooperative farm forestry program (16 U.S.C. 568).

(35) Cooperate with the States for the purpose of encouraging and assisting them in carrying out programs of

forestry research (16 U.S.C. 582a-582a-7).

(36) Authorize the use of the 4-H Club name and emblem (18 U.S.C. 707).

(37) Maintain a National Arboretum for purpose of research and education concerning tree and plant life; accept and administer gifts or devises of real and personal property for the benefit of the National Arboretum; and order disbursements from the Treasury (20 U.S.C. 191-195).

(38) Conduct research on foot-and-mouth disease and other animal diseases (21 U.S.C. 113a).

(39) Conduct research on control and eradication of cattle grubs (screw-worms) (21 U.S.C. 144e).

(40) Conduct research, demonstration, and promotion activities related to farm dwellings and other buildings for the purpose of reducing costs and adapting and developing fixtures and appurtenances for more efficient and economical farm use (42 U.S.C. 1476(b)).

(41) Make grants for the support of basic scientific research at nonprofit organizations whose primary purpose is the conduct of scientific research (42 U.S.C. 1891).

(42) Conduct research on losses of livestock in interstate commerce due to injury or disease (45 U.S.C. 71 note).

(43) Administer the Virgin Islands agricultural research program (48 U.S.C. 1409m-0).

(44) Conduct research related to the use of domestic agricultural commodities for the manufacture of any material determined to be strategic and critical or substitute therefor, under section 7(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98f).

(45) Administer a cooperative agricultural extension program related to agriculture, uses of solar energy with respect to agriculture and home economics in the District of Columbia (D.C. Code Section 31-1719).

(46) Provide leadership and direct assistance to the Cooperative Extension Service in planning, conducting, and evaluating extension programs under a memorandum of agreement with the Bureau of Indian Affairs dated May 1956.

(47) Exercise responsibilities of the Secretary under regulations dealing with Equal Employment Opportunity in the Cooperative Extension Service (pt. 18 of this subtitle).

(48) Represent the Department on the Federal Interagency Council on Education.

(49) Develop and maintain library and information systems and networks and facilitate cooperation and coordination for the agricultural libraries of colleges, universities, Department of Agriculture, and their closely allied information gathering and dissemina-

UMI

tion units in close conjunction with private industry and other research libraries (7 U.S.C. 2201, 2203, 3126).

(50) Assure the acquisition, preservation and accessibility of all information concerning food and agriculture by providing leadership to and coordination of the acquisition programs and related activities of the library and information system, and the agencies of USDA, other Federal departments and agencies, State agricultural experiment stations, colleges and universities, and other research institutions and organizations.

(51) Formulate, write and/or prescribe bibliographic and technically related standards for the library and information services of USDA.

(52) Determine by survey and other appropriate means the information needs of the Department's scientific, professional, technical and administrative staffs, its constituencies and the general public in the areas of food, agriculture, the environment, and solar energy.

(53) Represent the Department on all library and information science matters before Congressional Committees and appropriate commissions, and provide representation to the coordinating committees of the Federal and State governments concerned with library and information science activities.

(54) Represent the Department in international organizational activities and on international technical committees concerned with library and information science activities.

(55) Prepare and disseminate computer bibliographic files, indexes and abstracts, bibliographies, reviews, and other analytical information tools.

(56) Copy and deliver on demand selected articles and other materials from its collections by photographic reproduction or other means within the permissions, constraints and limitations of Sections 106, 107, and 108 of the Copyright Act of October 19, 1976 (Title 17, U.S. Code).

(57) Arrange for the consolidated purchasing and dissemination of indexes, abstracts, journals and other widely used information publications and services.

(58) Provide assistance and support to professional organizations concerned with library and information science matters and issues.

(59) Pursuant to authority delegated by the Administrator of the General Services Administration to the Secretary of Agriculture in 34 FR 6406, 36 FR 1293, 36 FR 18440, and 38 FR 23838, appoint uniformed armed guards as special policemen, make all needful rules and regulations, and

annex to such rules and regulations such reasonable penalties, (not to exceed those prescribed in 40 (U.S.C. 318c)), as will ensure their enforcement, for the protection of persons, property, buildings, and grounds of the Arboretum, Washington, D.C.; the U.S. Meat Animal Research Center, Clay Center, Nebr.; the Agricultural Research Center, Beltsville, Md.; and the Animal Disease Center, Plum Island, N.Y., over which the United States has exclusive or concurrent criminal jurisdiction, in accordance with the limitations and requirements of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377) as amended, the Act of June 1, 1948 (62 Stat. 181), as amended, and policies, procedures and controls prescribed by the General Services Administration. Any rules or regulations promulgated under this authority shall be approved by the Director of the Office of Operations and Finance and the General Counsel prior to issuance.

(60) Control within the Department of Agriculture of the acquisition, use and disposal of material and equipment which may be a source of ionizing radiation hazard.

(61) Administer teaching funds authorized under section 22 of the Bankhead Jones Act, as amended (7 U.S.C. 329).

(62) Administer science and education programs assigned under the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061 et seq.), and the Federal Civil Defense Act of 1950, as amended (50 U.S.C. App. 2251 et seq.).

§ 2.58-2.59 (Revoked and reserved).

§ 2.61 (Revoked and reserved).

(5 U.S.C. 301 and Reorganization Plan No. 2 of 1953).

For Subpart C:

Dated: January 19, 1978.

BOB BERGLAND,  
Secretary of Agriculture.

For Subpart G:

Dated: January 13, 1978.

M. RUPERT CUTLER,  
Assistant Secretary for Conservation, Research & Education.

Title 19—Customs Duties

CHAPTER I—U.S. CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 78-20]

PART 159—LIQUIDATION OF DUTIES

Chains and Parts Thereof, of Iron or Steel, From Spain

AGENCY: U.S. Customs Service, Treasury Department.

ACTION: Final countervailing duty determination and suspension of liquidation.

SUMMARY: This notice is to inform the public that it has been determined that the Government of Spain has given benefits which constitute bounties or grants within the meaning of the countervailing duty law upon the manufacture, production or exportation of chains and parts thereof, of iron or steel. Consequently, countervailing duties in the amount of these benefits will be collected in addition to

duties normally due on shipments of this merchandise. Section 159.47(f) of the Customs Regulations is amended to include this determination.

EFFECTIVE DATE: January 24, 1978.

FOR FURTHER INFORMATION CONTACT:

William T. Trujillo, Operations Officer, Technical Branch, Duty Assessment Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, telephone 202-566-5492.

SUPPLEMENTARY INFORMATION:

On July 14, 1977, a "Preliminary Countervailing Duty Determination" was published in the FEDERAL REGISTER (42 FR 36339). This notice stated that it had been determined preliminarily that bounties or grants had been paid or bestowed, directly or indirectly, within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303) (referred to herein as "the Act"), under the Spanish Government tax remission system known as the Desgravacion Fiscal, upon the manufacture, production or exportation of chains and parts thereof, of iron or steel, from Spain. Chains and parts thereof, of iron or steel, are provided for in the Tariff Schedules of the United States under item numbers 652.24, 652.27, 652.30, 652.33, and 652.35.

The notice further stated that in some instances benefits derived from the Desgravacion Fiscal constitute bounties or grants within the meaning of section 303 of the Act. Interested parties were provided 30 days from the date of publication of the notice to submit in writing relevant data, views or arguments with respect to the preliminary determination. No information was received during the comment period.

Based on the information available and the determinations in previous cases concerning the Spanish Desgravacion Fiscal tax remission system, it is determined that bounties or grants are paid or bestowed, directly or indirectly, within the meaning of section 303 of the Act, on exports of chains and parts thereof, of iron or steel, from Spain.

Chains and parts thereof, of iron or steel, receive a Desgravacion Fiscal rebate of 14 percent. However, as determined in previous cases involving this tax remission system, a final stage tax of 1.5 percent on the completed product is included in the 14 percent rebate. The Treasury Department does not consider the rebate of indirect taxes which are directly related to the final product or its components to be bounties or grants within the meaning of section 303 of the Act. In keeping with this principle and in the absence of any additional information regarding the Desgravacion Fiscal

rebate, the bounty, or grant is determined to be 12.5 percent.

Accordingly, notice is hereby given that chains and parts thereof, of iron or steel, imported directly or indirectly from Spain, if entered, or withdrawn from warehouse, for consumption on or after January 24, 1978, will be subject to payment of countervailing duties equal to the net amount of any bounty or grant determined or estimated to have been paid or bestowed.

In accordance with section 303 of the Act, until further notice the net amount of such bounties or grants has been estimated and declared to be 12.5 percent of the f.o.b. value.

The liquidation of all entries for consumption or withdrawals from warehouse for consumption of such dutiable chains and parts thereof, of iron or steel, imported directly or indirectly from Spain which benefit from such bounties or grants and which are subject to this order shall be suspended for 30 days following publication of this notice in the FEDERAL REGISTER. A deposit of the estimated countervailing duty, in the amount of 12.5 percent of the f.o.b. value, shall be required at the time of entry for consumption or withdrawal from warehouse for consumption.

Effective January 24, 1978, and until further notice, upon the entry for consumption of such chains and parts thereof, of iron or steel, imported directly or indirectly from Spain, which benefit from bounties or grants, there shall be collected, in addition to any other duties estimated or determined to be due, countervailing duties in the amount of 12.5 percent of the f.o.b. value.

Any merchandise subject to the terms of this order shall be deemed to have benefited from a bounty or grant if such bounty or grant has been or will be credited or bestowed, directly or indirectly, upon the manufacture, production, or exportation of such chains and parts thereof from Spain.

§ 159.47 [Amended]

The table in § 159.47(f) of the Customs Regulations (19 CFR 159.47(f)) is amended by inserting, after the last entry for Spain, in the column headed "Commodity" the words "Chains and Parts Thereof, of Iron or Steel," in the column headed "Treasury Decision" the number of this Treasury Decision, and in the column headed "Action" the words "Bounty Declared-Rate."

Pursuant to Reorganization Plan No. 26 of 1950 and Treasury Department Order No. 190 (Revision 14), July 1, 1977, the provisions of Treasury Department Order No. 165, Revised, November 2, 1954, and § 159.47 of the Customs Regulations (19 CFR 159.47), insofar as they pertain to the issuance of a final countervailing duty determination by the Commissioner of Customs, are hereby waived.

(R.S. 251, as amended, secs. 303, 824, 46 Stat. 687, as amended, 759 (19 U.S.C. 66, 1303, 1624).)

ROBERT H. MUNDHEIM,  
General Counsel  
of the Treasury.

JANUARY 10, 1978.

Title 24 Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FT 3873]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: This rule lists communities participating in the National Flood Insurance Program (NFIP). These communities have applied to the program and have agreed to enact certain flood plain management measures. The communities' participation in the program authorizes the sale of flood insurance to owners of property located in the communities listed.

EFFECTIVE DATE: The date listed in the fourth column of the table.

ADDRESSES: The addresses where flood insurance policies can be obtained are published at 24 CFR 1912.7.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Pub. L. 93-234), amended, requires the purchase of flood insurance as a condition of Federal financial assistance of insurable property if such assistance is:

(1) For acquisition and construction purposes as defined in Part 1909 of Title 24 of the Code of Federal Regulations and

(2) For property located in a special flood hazard area identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction except

RULES AND REGULATIONS

as authorized by section 202(a) of the Act unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

Flood insurance policies for property located in the communities listed can be obtained from any licensed proper-

ty insurance agent or broker serving the eligible community, or from the National Flood Insurers Association (NFIA) servicing company for the State.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5

U.S.C. 553(b) are impracticable and unnecessary.

In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

Section 1914.6 is amended by adding in alphabetical sequence new entries to the table.

§ 1914.6 List of Eligible Communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.
Michigan	Cass	LaGrange, township of	Nov. 15, 1977, emergency	Oct. 17, 1975	260366

[Docket No. FI-3872]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Changes in Base Flood Elevations

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator, after consultation with the Chief Executive Officer of each community listed, finds that modification of the proposed flood elevations

for those communities is appropriate as a result of requests for changes in the interim rule.

DATES: These modified flood elevations are in effect as of the dates listed in the sixth column of the attached

V  
4  
3  
1  
6

J  
A  
2  
4

7  
8  
UMI

list and amend the Federal Insurance Rate Map(s) (FIRM) in effect for each listed community prior to this date.

ADDRESSES: The modified base (100-year) flood elevation determinations for each community are available for inspection at the office of the Chief Executive Officer of the community, listed in the fifth column of the table.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard W. Krimm, Assistant Administrator Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator has published a notification of modification of the base (100-year) flood elevations in prominent local newspapers for the communities listed below. Ninety (90) days have elapsed since that publication, and the Administrator has received appeals from the communities requesting changes in the

proposed flood elevation determinations.

The numerous changes made in the base (100-year) flood elevations on the Flood Insurance Rate Map for each community make it administratively infeasible to publish in this notice all of the base (100-year) flood elevation changes contained on the maps. However, this notice includes the address of the Chief Executive Officer where the modified base (100-year) flood elevation determinations are available for inspection.

The modifications are pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the revised community number is listed and must be used for all new policies and renewals.

These base (100-year) flood eleva-

tions are basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These elevations together with the flood plain management measures required by 1910.3 of the program regulations are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities.

These modified elevations shall be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

The changes in the base (100-year) flood elevations listed below are in accordance with 24 CFR 1916.8:

[Docket No. FI-3255]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for City of Buffalo, Johnson County, Wyo.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the City of Buffalo, Johnson County, Wyo.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in

effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**EFFECTIVE DATE:** The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the City of Buffalo, Wyo.

**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the City of Buffalo, are available for review at City Hall, 46 North Main Street, Buffalo, Wyo.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Richard Krimm, Assistant administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the City of Buffalo, Wyoming.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, National Geodetic Vertical Datum
Clear Creek .....	Burritt Ave. Bridge	4636
	Main St. Bridge....	4629
	Footbridge.....	4627
	Lobran Ave. Bridge	4623
	County Rd. No. 252 Bridge.	4581

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

## RULES AND REGULATIONS

### [4210-01]

(Docket No. FI-3259)

#### PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determination for Town of Barre, Washington County, Vt.

**ACTION:** Federal Insurance Administration, HUD.

**ACTION:** Final rule.

**SUMMARY:** Final base (100-year) flood elevations are listed below for selected locations in the Town of Barre, Washington County, Vt.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**EFFECTIVE DATE:** The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the Town of Barre, Washington County, Vt.

**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the Town of Barre, Washington County, Vermont, are available for review at Town Hall, Barre, Vt.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Richard Krimm, Assistant administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the Town of Barre, Washington County, Vt.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, National Geodetic Vertical Datum
Stevens Branch .....	South of City of Barre.	665
	Upstream of Snowbridge Rd.	728
	Southern Corporate Limits.	741
Jail Branch .....	East of City of Barre.	717
	Upstream of Waterman St. (Vermont Route 110).	1077

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

PATRICIA ROBERTS HARRIS,  
Secretary.

#### PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determination for City of Bangor, Penobscot County, Maine

**AGENCY:** Federal Insurance Administration, HUD.

**ACTION:** Final rule.

**SUMMARY:** Final base (100-year) flood elevations are listed below for selected locations in the City of Bangor, Penobscot County, Maine. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**EFFECTIVE DATE:** The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the City of Bangor, Penobscot County, Maine.

**ADDRESSES:** Maps and other information showing the detailed outlines of the flood prone areas and the final elevations for City of Bangor are available for review at Planning Office, City Hall, 73 Harlow Street, Bangor, Maine 04401.

**FOR FURTHER INFORMATION CONTACT:**

## RULES AND REGULATIONS

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the City of Bangor, Penobscot County, Maine.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Penobscot River	At the downstream face of State Route 1A.	17
	At the downstream face of Main Central Rd.	18
	120 ft downstream of Bangor water works dam.	20
	At the upstream face of Bangor water works dam.	30
Kenduskeag Stream.	At the downstream face of Central St.	17
	At the downstream face of Harlow St.	18
	0.4 mi upstream from Harlow St.	21
	At the downstream face of Valley Ave.	32
	At the downstream face of Interstate 95.	39
	At the downstream face of Griffin Rd.	60
	At the downstream face of State Route 15.	83

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Great Brook	890 ft upstream from State Route 15.	87
Osgood Brook	At the upstream face of Finson Rd.	84
	210 ft upstream from Finson Rd.	88
	At the upstream face of Ohio St.	120
Tributary No. 2, approximately 4,100 ft upstream from Bangor water works dam on Penobscot River.	1,055 ft upstream from U.S. Route 2.	30
	At the downstream face of Mount Hope Ave.	43
	At the downstream face of Hogan Rd.	60
	At the downstream face of Sylvan Rd.	76
	At the downstream face of Stillwater Ave.	97
	At the downstream face of bicycle path.	109
Tributary No. 3, approximately 370 ft upstream from the confluence of tributary No. 2 with Penobscot River.	530 ft upstream from the confluence with tributary No. 2.	34
	At the downstream face of Cemetery Rd.	48
	At the downstream face of twin 48 inch culvert.	52
	At the downstream face of Mount Hope Ave.	54
	At the downstream face of 48 inch culvert.	57
	At the downstream face of earthen dam.	83

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

## PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for City of Ketchum, Blaine County, Idaho

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

**SUMMARY:** Final base (100-year) flood elevations are listed below for selected locations in the City of Ketchum, Blaine County, Idaho. These

base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**EFFECTIVE DATE:** The date of issuance of the flood insurance rate map (FIRM), showing base (100-year) flood elevations, for the City of Ketchum, Idaho.

**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the City of Ketchum, are available for review at City Hall, 407 North Main Street, Ketchum, Idaho.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the City of Ketchum, Idaho.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat., 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Warm Springs Creek.	Ski Lift Bridge .....	5884
	Lewis Drive Bridge.	5887
Big Wood River .....	Road Bridge to Warm Springs.	5812
Trail Creek .....	Route 93 (Main Avenue).	5799

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development

Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: October 13, 1977.

## PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for Town of Federalsburg, Md.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

**SUMMARY:** The Federal Insurance Administrator published a list of communities for which the Federal Insurance Administration (FIA) published maps identifying special flood hazard areas. This list included the Town of Federalsburg, Md. It has been determined by FIA, after acquiring additional flood information and after further technical review of the flood insurance rate map for the Town of Federalsburg, Md., that certain property is not within the special flood hazard area. This map amendment, by establishing that the subject property is not within the special flood hazard area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally related financial assistance for construction or acquisition purposes.

**EFFECTIVE DATE:** January 24, 1978.

## FOR FURTHER INFORMATION CONTACT:

Mr. Richard W. Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** If a property owner was required to purchase flood insurance as a condition of Federal or federally related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker

who sold the policy, or from the national flood insurance program (NFIP) at P.O. Box 34294, Bethesda, Md. 20034, phone 800-638-6620. The map amendments listed below are in accordance with § 1920.7(b):

Map No. H & I 240013A Panel 01, published on June 29, 1977, in 42 FR 33215, indicates that a 14.117 acre tract of land in Federalsburg, Md., along East Central Avenue, being parcels A, B, and C in the William S. Routzahn Tract as shown on the Topo Survey by Frank J. Colt and Associates, revised October 10, 1976, as recorded in Liber 174, Folio 556 of Deeds, in the Office of Land Records of Caroline County, Md., is within the special flood hazard area.

Map No. H & I 240013A Panel 01 is hereby corrected to reflect that a portion of the above property, which can be described as follows:

Commencing at a point located on East Central Avenue being the southeast corner of the property and the point of beginning as identified on the Topo Survey, Parcels A, B, and C, William S. Routzahn Tract by Frank J. Colt and Associates, revised October 10, 1976; thence S. 80°53'00" W., approximately 210 feet to a point; thence N. 08°30'00" W., approximately 147.67 feet to a point; thence S. 80°24'00" W., approximately 105 feet to a point; thence N. 11°12'00" W., approximately 279.76 feet to a point; thence N. 05°20'30" W., approximately 708 feet to a point; thence N. 44°09'30" E., approximately 80 feet to a point; thence N. 31°39'30" E., approximately 105 feet to a point; thence N. 56°39'30" E., approximately 30 feet to a point; thence S. 70°50'30" E., approximately 25 feet to a point; thence S. 21°20'30" E., approximately 70 feet to a point; thence S. 32°29'30" W., approximately 132 feet to a point; thence S. 16°30'30" E., approximately 25 feet to a point; thence S. 48°30'30" E., approximately 85 feet to a point; thence S. 56°30'30" E., approximately 48 feet to a point; thence S. 68°00'30" E., approximately 43 feet to a point; thence S. 83°00'30" E., approximately 174 feet to a point; thence S. 62°30'30" E., approximately 63 feet to a point; thence S. 30°30'30" E., approximately 58 feet to a point; thence S. 68°30'30" E., approximately 63 feet to a point; thence S. 48°00'30" E., approximately 87 feet to a point; thence S. 82°27'00" W., approximately 55 feet to a point; thence S. 09°51'30" E., approximately 490.99 feet to a point; thence S. 78°17'00" W., approximately 196.26 feet to a point; thence S. 80°36'30" W., approximately 66.43 feet to a point; thence S. 09°35'00" E., approximately 209.82 feet to a point of beginning,

is not within the special flood hazard area identified on March 15, 1977. The property is in Zone C.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: December 28, 1977.

## PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for City of Elizabeth, N.J.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which the Federal Insurance Administration (FIA) published maps identifying special flood hazard areas. This list included the City of Elizabeth, N.J. It has been determined by FIA, after acquiring additional flood information and after further technical review of the flood insurance rate map for the city of Elizabeth, N.J., that certain property is not within the special flood hazard area. This map amendment, by establishing that the subject property is not within the special flood hazard area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: January 24, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the national flood insurance program (NFIP) at P.O. Box 34294, Bethesda, Md. 20034, phone 800-638-6620.

The map amendments listed below are in accordance with § 1920.7(b):

Map No. H&I 345523C Panel 01, published on June 29, 1977, in 42 FR 33222, indicates that Lots No. 13-1338 and No. 13-1339, located at 145 and 153 Stiles Street, respectively, Elizabeth, N.J., as shown on the Elizabeth tax map, are within the special flood hazard area. This property is recorded as

147 Stiles Street and 151-157 Stiles Street in Book 2554, Page 254, and Book 2789, Page 881, respectively, in the office of the Clerk of Union County, N.J.

Map No. H&I 345523C Panel 01 is hereby corrected to reflect that the existing structures on the above property are in Zone C and are not within the special Flood Hazard Area identified on May 8, 1971.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: December 27, 1977.

[Docket No. FI-3012]

## PART 1920—PROCEDURE OF MAP AMENDMENT CORRECTION

Letter of Map Amendment for City of Providence, R.I.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which the Federal Insurance Administration (FIA) published maps identifying Special Flood Hazard Areas. This list included the City of Providence, Rhode Island. It has been determined by FIA, after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the City of Providence, R.I. that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or federally related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: January 24, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard W. Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: If a property owner was required to purchase flood insurance as a condition of Federal or federally related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP), at P.O. Box 34294, Bethesda, Md. 20034, Phone: (800) 638-6620.

The map amendments listed below are in accordance with § 1920.7(b):

Map No. H & I 445406D Panel 04, published on June 29, 1977, in 42 FR 33231, indicates that Parcel 1-A Mohassuck Square Arcade Garage, being 530 North Main Street, Providence, R.I., as recorded in Plat Book 42, Page 35, in the Office of the Re-

corder of Deeds, Providence County, R.I., is located within the Special Flood Hazard Area.

Map No. H & I 445406D Panel 04 is hereby corrected to reflect that the above property, with the exception of a portion which can be described as follows:

Beginning at the intersection of the northeast right-of-way line of Charles Street and the southwest right-of-way line of Stevens Street; thence S 78°15' E, approximately 51.5 feet to a point; thence S 19°15' E, approximately 109 feet to a point; thence N 88°15' W, approximately 60 feet to a point; thence N 36°45' W, approximately 19 feet to a point; thence N 17°00' W, approximately 22.5 feet to a point; thence N 7°45' W, approximately 75.5 feet to a point, being the point of beginning.

is not within the Special Flood Hazard Area identified on April 16, 1976. The property is in Zone C.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: December 28, 1977.

Administrator, Office of Flood In-

surance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** If a property owner was required to purchase flood insurance as a condition of Federal or Federally related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Md. 20034, phone: 800-638-6620.

The map amendments listed below are in accordance with § 1920.7(b):

Map No. H & I 480287B Panel 40, published on June 29, 1977 in 42 FR 33233, indicates that Tracts 1 and 2, being a portion of the William Jones Survey, Abstract Number 489, Harris County, Tex., recorded as Document Number D 796305 in the office of the Recorder of Harris County, Texas, are within the Special Flood Hazard Area.

Map No. H & I 480287B Panel 40 is hereby corrected to reflect that a portion of Tract 1, which can be described as follows:

Beginning at a point on the south line of Tract 1, which is marked by a fence line, said point being S 88°15'11" W, approximately 800 feet from a fence corner post that marks the southeast corner of Tract 1; thence continuing S 88°15'11" W along the south line of this tract, approximately 110.61 feet to a half-inch iron rod set for the corner in the north line of a called 11.949 acre tract of land as acquired for right-of-way purposes for U.S. Highway 290 by the State of Texas according to Decree of Condemnation in Cause No. 128,651 (No. 587) styled the *State of Texas, et al., v. Wendell E. Phillips, et al.*, dated July 10, 1964, as recorded for record in Volume 5654, Page 459 of the Harris County Deed Records;

Thence northwesterly around the arc of a 3014.79 foot radius curve to the left, which is marked by a fence line, that represents this herein described 60.33649 acre tract's south line and also the north line of the aforesaid State of Texas called 11.949 acre tract, said curve having a central angle of 19°40'04" and a chord that bears N 77°39'14" W for 1029.80 feet or around the said curve for an arc length of 1034.88 feet to a 1/4-inch iron rod set for the end of this curve in the fence line;

Thence N 87°39'06" W continuing along this tract's south line, which is marked by a fence line, and the north line of the aforesaid U.S. Highway 290 right-of-way for 4.02 feet to another 1/4-inch iron rod found in the said fence line;

Thence northwesterly around the arc of a 520.87 foot radius curve to the right, which is marked by the same fence line and still representing this herein described tract's southerly line and the northerly line of the State of Texas called 11.949 acre tract, said

curve having a central angle of 73°45'50" and a chord that bears N 50°45'45" W for 625.22 feet or along the said curve arc for a distance of 670.58 feet to a 1/4-inch iron rod found located in the said fence line for end of this said curve;

Thence N 13°55'47" W along a westerly line of this tract and an easterly line of the U.S. Highway 290 right-of-way tract which is marked by the same fence line for 122.54 feet to a 1/4-inch iron rod found in the fence line;

Thence northwesterly around the arc of a 100.00 foot radius curve to the left and still continuing with the fence line that represents a southwesterly line of this 60.33649 acre tract, said curve having a central angle of 56°24'23" and a chord that bears N 41°54'43" W for 94.52 feet or along the said curve arc for a total length of 98.45 feet to another 1/4-inch iron rod found in the said fence line for end of this curve;

Thence N 69°53'58" W continuing with the said fence line that still represents a south line of this herein described tract and is also a northerly line of the State of Texas' U.S. Highway 290 right-of-way according to Volume 5654, Page 459 of the Harris County Deed Records for 83.15 feet to a 1/4-inch rod found for beginning of a curve;

Thence northwesterly around a 110.0 foot radius curve to the right that has a central angle of 87°01'39" and a chord that bears N 36°01'47" W for 121.47 feet or along the said curve arc for 128.68 feet to a 1/4-inch iron rod found for the most northerly southwest corner of this tract and is also the most northerly corner of the said State of Texas' called 11.949 acre right-of-way tract and same rod is located in the east right-of-way line of Huffmeister Road according to a 20.00 foot wide strip of land conveyed to Harris County, Tex., from H. L. Phillips on January 13, 1955, as recorded in Volume 2902, Page 701 of the Harris County Deed Records;

Thence N 02°39'06" W along the west line of this herein described 60.33649 acre tract, which is marked by a fence line, and same being the east line of Huffmeister Road, 80.00 feet wide for 225.40 feet to this tract's northwest corner;

Thence N 88°29'09" E along this tract's north line for 2623.05 feet to a point for northeast corner that is located in the east line of the called 142.69 acre tract, same being the east line of the said William Jones Survey and the west line of the said M. Wood Survey;

Thence S 01°40'06" E along this tract's east line which marked by a fence line and is also the common aforesaid survey line for 349.14 feet, thence S 42°30' W, approximately 1,145 feet to the place of beginning.

and Tract 2 of the above-mentioned property, are not within the Special Flood Hazard Area identified on July 30, 1976.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

(Docket No. FI-3012)

PART 1920—PROCEDURE FOR MAP  
CORRECTION

Letter of Map Amendment for County of  
Harris, Tex.

AGENCY: Federal Insurance Adminis-  
tration, HUD.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which the Federal Insurance Administration (FIA) published maps identifying Special Flood Hazard Areas. This list included the County of Harris, Tex. It has been determined by FIA, after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for the County of Harris, Tex., that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or Federally related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: January 24, 1978.

FOR FURTHER INFORMATION  
CONTACT:

Mr. Richard W. Krimm, Assistant  
Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** If a property owner was required to purchase flood insurance as a condition of Federal or Federally related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained from the National Flood Insurers Association (NFIA) through the agent or broker who sold the policy.

The map amendments listed below are in accordance with § 1920.7(b):

Map No. H & I 480287B Panels 78 and 84, published on June 29, 1977 in 42 FR 33233, indicate that Sections One, Two, Three, and Four, Westwood Center, Harris County, Tex., as recorded in Volume 221, Page 19; Volume 221, Page 26; Volume 243, Page 89; and Volume 226, Page 77, respectively, and Sundance, Harris County, as recorded in Volume 234, Page 108; in the Office of Map Records for Harris County, Tex., are within the Special Flood Hazard Area.

Map No. H & I 480287B Panels 78 and 84 are hereby corrected to reflect that the above properties, with the exception of a portion in Sections Three and Four Westwood Center and Sundance, as measured approximately 100 feet from the centerline of Brays Bayou, are not within the Special Flood Hazard Area identified on July 30, 1976. The properties are in Zone C.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: December 27, 1977.

PART 1920—PROCEDURE FOR MAP  
CORRECTION

Letter of Map Amendment for New Castle  
County, Del.

AGENCY: Federal Insurance Adminis-  
tration, HUD.

ACTION: Final rule.

SUMMARY: The Federal Insurance Administrator published a list of communities for which the Federal Insurance Administration (FIA) published maps identifying Special Flood Hazard Areas. This list included New Castle County, Del. It has been determined by FIA, after acquiring additional flood information and after further technical review of the Flood Insurance Rate Map for New Castle County, Del., that certain property is not within the Special Flood Hazard Area.

This map amendment, by establishing that the subject property is not within the Special Flood Hazard Area, removes the requirement to purchase flood insurance for that property as a condition of Federal or Federally related financial assistance for construction or acquisition purposes.

EFFECTIVE DATE: January 24, 1978.

FOR FURTHER INFORMATION  
CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

**SUPPLEMENTARY INFORMATION:** If a property owner was required to purchase flood insurance as a condition of Federal or Federally related financial assistance for construction or acquisition purposes, and the lender now agrees to waive the property

owner from maintaining flood insurance coverage on the basis of this map amendment, the property owner may obtain a full refund of the premium paid for the current policy year, provided that no claim is pending or has been paid on the policy in question during the same policy year. The premium refund may be obtained through the insurance agent or broker who sold the policy, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Md. 20034, Phone: 800-638-6620.

The map amendments listed below are in accordance with § 1920.7(b):

Map No. H&I 105085A Panel 39, published on June 29, 1977, in 42 FR 33207, indicates that the Delaware Reclamation Project, New Castle County, Del., as recorded in Record Book K-84, Pages 711 through 718, in the office of the Recorder of New Castle County, Del., is within the Special Flood Hazard Area.

Map No. H&I 105085A Panel 39 is hereby corrected to reflect that all of the land of the Delaware Reclamation Project at an elevation higher than 9 feet mean sea level (msl) is within Zone B and Zone C, and is not within the Special Flood Hazard Area identified on December 7, 1971 and December 26, 1975.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: November 29, 1977.

**Title 32—National Defense**

**CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE**

(DIA Reg. No. 12-12)

**PART 292a—PRIVACY ACT OF 1974**

**Final Rule Amendment**

**AGENCY:** Defense Intelligence Agency (DIA).

**ACTION:** Amended final rule.

**SUMMARY:** This rule amendment is intended to improve the clarity of existing exemption rules under the Privacy Act of 1974. The present rules are duplicative as to the specific exemption authority. The present general exemption rule, as written, is not applicable to any particular identifiable system of records. Certain deletions and changes will eliminate the obscurity.

**EFFECTIVE DATE:** This final rule was effective as of August 30, 1977. See supplementary information for more details.

**FOR FURTHER INFORMATION CONTACT:**

Mr. John B. Brock, Office of the General Counsel, Defense Intelligence Agency, Room 5C-323, The Pentagon, Washington, D.C. 20301.

**SUPPLEMENTARY INFORMATION:** In 42 FR 38604 of the FEDERAL REGISTER of July 29, 1977 (FR Doc. 77-21940), a proposed rule amendment to the Defense Intelligence Agency (DIA) Privacy Act rules was published to clarify the exemption rules. No comments were received. Through administrative oversight, the final rule was inadvertently not published and adopted by DIA. This action rectifies the situation by republishing again the proposed rule amendment as a final rule amendment. Therefore the amendment is effective as of August 30, 1977.

MAURICE W. ROCHE,  
Correspondence and Directives,  
Washington Headquarters Services,  
Department of Defense.

JANUARY 17, 1978.

Section 292a.22 and § 292a.23 is revised to read as follows:

§ 292a.22 General information.

(a) The Director, Defense Intelligence Agency designates the following systems of records listed in § 292a.23 which are maintained by the DIA for exemptions under the specified provisions of the Privacy Act of 1974 (Pub. L. 93-579).

(b) All systems of records maintained by the DIA will be exempt from the requirements of 5 U.S.C. 552a(d) pursuant to 5 U.S.C. 552a(k)(1) to the extent that the system contains any information properly classified under Executive Order 11652. "Classification and Declassification of National Security Information and Material," 8 March 1972 (37 FR 10053, 19 May 1972), and which is required by the Executive Order to be kept secret in the interest of national defense or foreign policy. This exemption, which may be applicable to parts of all systems of records, is necessary because certain record systems not otherwise specifically designated for exemptions herein may contain isolated items of information which have been properly classified.

§ 292a.23 Specific exemptions.

(a) ID: L DIA 0271.

(1) *System name:* Investigations.

(2) *Exemption:* This system of records is exempt from the following provisions of Title 5, U.S.C., Section 552a: (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), (e)(4)(I) and (f).

(3) *Authority:* 5 U.S.C. 552a(k)(2).

(4) *Reasons:* Granting individuals access to information collected and maintained by this Component relating to the enforcement of criminal laws could interfere with orderly investigations, with the orderly administration of justice, and possibly enable suspects to avoid detection or apprehension. Disclosure of this information could result in the concealment, destruction, or fabrication of evidence and jeopardize the safety and well being of informants, witnesses and their families, and law enforcement personnel and their families. Disclosure of this information could also reveal and render ineffectual investigative techniques, sources and methods used by this component and could result in the invasion of the privacy of individuals only incidentally related to an investigation. The exemption of the individual's right of access to the complete record and the reasons therefore necessitate the exemption of this system of records from the requirements of the other cited provisions. However, the individual may have access only to that information provided by himself. The files contain properly classified information under Executive Order 11652 and are required by the Executive Order to be kept secret in the interest of national defense.

(b) ID: L DIA 0272.

(1) *System name:* Complaints.

(2) *Exemption:* This system of records is exempt from the following provisions of Title 5, U.S.C., Section 552a: (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), (e)(4)(I) and (f).

(3) *Authority:* 5 U.S.C. 552a(k)(2).

(4) *Reasons:* Granting individuals access to information collected and maintained by this Component relating to the enforcement of criminal laws could interfere with orderly investigations, with the orderly administration of justice, and possibly enable suspects to avoid detection or apprehension. Disclosure of this information could result in the concealment, destruction or fabrication of evidence and jeopardize the safety and well being of informants, witnesses and their families, and law enforcement personnel and their families. Disclosure of this information could also reveal and render ineffective investigative techniques, sources and methods used by this component and could result in the invasion of the privacy of individuals only incidentally related to an investigation. The exemption of the individual's right of access to the complete record and the reasons therefore necessitate the exemption of this system of records from the requirements of the other cited provisions. However, the individual may have access only to that information provided by himself. The files contain properly classified information under Executive Order 11652 and are required by the Executive Order to be kept secret in the interest of national defense.

**Title 33—Navigation and Navigable Waters**

**CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY**

**PART 207—NAVIGATION REGULATIONS**

Los Angeles and Long Beach Harbors, Calif.

**AGENCY:** U.S. Army Corps of Engineers, DOD.

**ACTION:** Final rule.

**SUMMARY:** This rule revokes regulations which establish naval restricted areas in Los Angeles and Long Beach Harbors, Calif. The Commanding Officer, Naval Support Activity, Long Beach, Calif., has advised that the restricted areas are no longer needed.

**EFFECTIVE DATE:** January 24, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Ralph T. Eppard, 202-693-5070, or write Office of the Chief of Engineers, Forrestal Building, Washington, D.C. 20314, Attn.: DAEN-CWO-N.

**SUPPLEMENTARY INFORMATION:** Regulations were established by the Secretary of the Army under 33 CFR Part 207.616 governing the use, administration, and navigation of two areas designated as naval restricted areas in Los Angeles and Long Beach Harbors, Calif. The restricted areas are no longer needed by the Naval Support Activity, Long Beach, Calif., and accordingly, are hereby revoked as set forth below:

The Department of the Army has determined that publication of this revocation in the proposed rulemaking section of the FEDERAL REGISTER is unnecessary since this will result in the removal of a restriction on a waterway.

§ 207.616 [Revoked],  
(40 Stat. 266; 33 U.S.C. 1.)

**NOTE:**—The Department of the Army has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Dated: January 6, 1978.

CHARLES R. FORD,  
Acting Assistant Secretary  
of the Army (Civil Works).

**SUPPLEMENTARY INFORMATION:** Pursuant to section 110 of the Clean Air Act, as amended, and 40 CFR Part 51, the Administrator is required to approve or disapprove regulations submitted as SIP revisions. It is the purpose of this notice to take final disapproval action on the following APCD rules and regulations concerning malfunction:

1. Amador County APCD Rule 404, Upset Conditions and Breakdown submitted on April 21, 1976. EPA proposed to take action on this rule on May 31, 1977 (42 FR 27616);  
2. Bay Area APCD Regulation 2, Section 3212, Upset Conditions, Breakdown or Scheduled Maintenance and Regulation 3, Section 3203, Upset Conditions, Breakdown or Scheduled Maintenance submitted on April 21, 1976. EPA proposed to take action on these rules on September 7, 1977 (42 FR 44822);

3. Del Norte County APCD Rule 540, Equipment Breakdown submitted on November 10, 1976. EPA proposed to take action on this rule on June 14, 1977 (42 FR 30394);

4. Fresno County APCD Rule 110, Equipment Shutdown, Startup and Breakdown submitted on June 30, 1972 and previously approved under 40 CFR 52.223 (37 FR 19812). EPA proposed to disapprove this rule on November 1, 1976 (41 FR 47950);

5. Glenn County APCD Rules 95.2, Maintenance of Equipment and 95.3, Malfunction of Equipment submitted on January 10, 1975. EPA proposed to take action on these rules on September 16, 1977 (42 FR 46557);

6. Great Basin Unified APCD Rule 403, Upset/Breakdown submitted on June 6, 1977. EPA proposed to take action on this rule on September 7, 1977 (42 FR 44821);

7. Humboldt County APCD Rule 540, Equipment Breakdown submitted on November 10, 1976. EPA proposed to take action on this rule on June 14, 1977 (42 FR 30395);

8. Kern County APCD Rule 111, Equipment Shutdown, Startup and Breakdown submitted on July 19, 1974. EPA proposed to disapprove this rule on November 1, 1976 (41 FR 47950);

9. Kings County APCD Rule 111, Shutdown, Startup and Breakdown submitted on July 25, 1973 and Rule 111, Shutdown, Startup and Breakdown submitted on June 30, 1972 and previously approved under 40 CFR 52.223 (37 FR 19812). EPA proposed to disapprove these rules on November 23, 1976 (41 FR 51619);

10. Lake County APCD Section 1, Maintenance and Section 2, Malfunction of Equipment of Part VI, Maintenance, Malfunction, Evasion and Inspection submitted on June 30, 1972 and previously approved under 40 CFR 52.223 (37 FR 19812). EPA proposed to disapprove these rules on November 1, 1976 (41 FR 47951);

11. Lake County APCD Rules 500 (Not Titled), 510 (Not Titled) and 511 (Not Titled) submitted on February 10, 1977. EPA proposed to take action on these rules on May 31, 1977 (42 FR 27616);

12. Madera County APCD Rule 402(f), Exceptions submitted on January 10, 1975, and Rule 110, Equipment Shutdown, Startup and Breakdown submitted on June 30, 1972

and previously approved under 40 CFR 52.223 (37 FR 19812). EPA proposed to disapprove these rules on November 23, 1976 (41 FR 51620);

13. Mariposa County APCD Rule 203(j), Exceptions submitted on January 10, 1975 and Rule 4.3(g), Exceptions submitted on February 21, 1972 and previously approved under 40 CFR 52.223 (37 FR 10842). EPA proposed to disapprove these rules on November 1, 1976 (41 FR 17952);

14. Mendocino County APCD Rule 540, Equipment Breakdown submitted on November 10, 1976. EPA proposed to take action on this Rule on June 14, 1977 (42 FR 30396);

15. Merced County APCD Rule 109, Equipment Shutdown, Startup and Breakdown submitted on August 2, 1976. EPA proposed to take action on this rule on June 14, 1977 (42 FR 30396);

16. Northern Sonoma County APCD Rule 540, Equipment Breakdown submitted on November 10, 1976. EPA proposed to take action on this rule on June 14, 1977 (42 FR 30397);

17. Plumas County APCD Rule 203(j), Exceptions submitted on January 10, 1975. EPA proposed to take action on this rule on May 26, 1977 (42 FR 27000);

18. San Luis Obispo County APCD Rule 107, Breakdown or Upset Conditions and Emergency Variances submitted on November 10, 1976. EPA proposed to take action on this rule on June 22, 1977 (42 FR 31609);

19. Shasta County APCD Rule 3:10, Breakdown or Malfunction submitted on July 19, 1974. EPA proposed to disapprove this rule on November 1, 1976 (41 FR 47954);

20. San Bernardino County APCD Rule 430, Breakdown Provisions submitted on June 6, 1977. EPA proposed to take action on this rule on September 16, 1977 (42 FR 46554);

21. Los Angeles County APCD Rule 430, Breakdown Provisions submitted on June 6, 1977. EPA proposed to take action on this rule on September 16, 1977 (42 FR 46554);

22. Riverside County APCD Rule 430, Breakdown Provisions submitted on June 6, 1977. EPA proposed to take action on this rule on September 16, 1977 (42 FR 46554);

23. Southern California APCD Rule 430, Breakdown Provisions submitted on February 10, 1977. EPA proposed to take action on this rule on May 26, 1977 (42 FR 27000);

24. Tehama County APCD Rule 4:17, Upset or Breakdown Conditions submitted on July 19, 1974. EPA proposed to take action on this rule on September 16, 1977 (42 FR 46557);

25. Tulare County APCD Rules 111, Equipment Shutdown, Startup and Breakdown and 402(f), Exceptions submitted on November 10, 1976. EPA proposed to take action on these rules on June 14, 1977 (42 FR 30399);

26. Tuolumne County APCD Rule 404, Upset Conditions, Breakdown or Scheduled Maintenance submitted on February 10, 1977. EPA proposed to take action on this rule on May 31, 1977 (42 FR 27618);

27. Tuolumne County APCD Rule 402(f), Exceptions submitted on June 30, 1972 and previously approved under 40 CFR 52.223 (37 FR 19812). EPA proposed to disapprove this rule on November 1, 1976 (41 FR 47956);

28. Trinity County APCD Rule 540, Equipment Breakdown submitted on November 10, 1976. EPA proposed to take action on this rule on June 14, 1977 (42 FR 30398);

29. Ventura County APCD Rule 32, Upset Conditions, Breakdown or Scheduled Maintenance submitted on July 19, 1974. EPA proposed to take action on this rule on April 29, 1977 (42 FR 21819).

The proposed rulemaking notices provided for a 30 day comment period. Comments were received from the following APCDs: Bay Area; Kern County; Kings County; Stanislaus County; Tulare County and from the South Coast Air Quality Management District (formerly the Southern California APCD). No other comments were received.

Four of the APCDs stated that they were working to revise their malfunction rules to correct deficiencies. EPA has not received any such modifications.

One APCD disagreed that the proposed rule is deficient, stating their rule revision provided adequate measures to prevent abuse of exemption provisions. Another APCD expressed confusion as to EPA's policy regarding Malfunction. EPA's policy as stated in the April 27, 1977 **FEDERAL REGISTER** (42 FR 21472) is that while it might be appropriate to refrain from enforcing where a malfunction is truly beyond the control of a source, any malfunction provision which allows a regulatory exemption is unacceptable.

EPA is disapproving the APCD malfunction rules previously identified because these rules would permit sources to be exempted from applicable emission limitations. These rules do not satisfy the enforcement imperatives of Section 110 of the Clean Air Act because they render emission limitations potentially unenforceable.

The California Air Resources Board has certified that the public hearing requirements of 40 CFR 51.4 have been satisfied.

(Secs. 110 and 301(a), Clean Air Act, as amended (42 U.S.C. §§ 7410 and 7601(a)).)

Dated: January 17, 1978.

DOUGLAS M. COSTLE,  
Administrator.

Subpart F of Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

**Subpart F—California**

1. Section 52.220, is amended by adding paragraphs (c)(21)(ix)(B), (c)(24) (v)(B), (c)(24)(vi)(B), (c)(24)(vii)(B), (c)(24)(x)(B), (c)(26)(iv)(B), (c)(26) (viii)(B), (c)(26)(xiii)(B), (c)(26)(xvi)(A), (c)(31)(xvi)(A), (c)(31)(xvi)(B), (c)(31)(xviii)(A), (c)(32)(iii)(B), (c)(35)(vi)(B), (c)(35)(ix)(A), (c)(35)(xii)(B), (c)(35)(xiv)(A), (c)(35)(xv)(A), (c)(35)(xvi)(A), (c)(35)(xvii)(A), (c)(37)(i)(B), (c)(37)(iv)(A), (c)(37)(v)(A), (c)(39)(i)(A), (c)(39)(ii)(A), (c)(39)(iii)(A), and (c)(39)(iv)(A) as follows:

**52.220 Identification of plan.**

(c) \* \* \*  
(21) \* \* \*  
(ix) \* \* \*  
(B) Rule 111.

(24) \* \* \*  
(v) \* \* \*  
(B) Rule 4:17.  
(vi) \* \* \*  
(B) Rule 3:10.  
(vii) \* \* \*  
(B) Rule 111.

(x) \* \* \*  
(B) Rule 32.

(26) \* \* \*  
(iv) \* \* \*  
(B) Rules 95.2 and 95.3.

(viii) \* \* \*  
(B) Rule 203(j).

(xiii) \* \* \*  
(B) Rule 402(f).

(xvi) Plumas County APCD.  
(A) Rule 203(j).

(31) \* \* \*  
(xvi) Bay Area APCD.  
(A) Regulation 2, section 3212.  
(B) Regulation 3, section 3203.

(xviii) Amador County APCD.  
(A) Rule 404.

(32) \* \* \*  
(iii) \* \* \*  
(B) Rule 109.

(35) \* \* \*  
(vi) \* \* \*  
(B) Rules 111 and 402(f).

(ix) Del Norte County APCD.  
(A) Rule 540.

(xii) San Luis Obispo County APCD.  
(B) Rule 107.

(xiv) Humboldt County APCD.  
(A) Rule 540.  
(xv) Mendocino County APCD.  
(A) Rule 540.  
(xvi) Northern Sonoma County APCD.  
(A) Rule 540.  
(xvii) Trinity County APCD.  
(A) Rule 540.

(37) Revised regulations for the following APCDs submitted on February 10, 1977, by the Governor's designee.  
(i) Southern California APCD.  
(B) Rule 430.

(iv) Lake County APCD.  
(A) Rules 500, 510, and 511.  
(v) Tuolumne County APCD.  
(A) Rule 404.

(39) Revised regulations for the following APCDs submitted on June 6, 1977, by the Governor's designee.  
(i) Great Basin Unified APCD.  
(A) Rule 403.  
(ii) San Bernardino County APCD.  
(A) Rule 430.  
(iii) Los Angeles County APCD.  
(A) Rule 430.

2. Section 52.271 is added to read as follows:

**§ 52.271 Malfunction regulations.**

(a) The following regulations are disapproved because they would permit the exemption of sources from the applicable emission limitations and therefore do not satisfy the enforcement imperatives of section 110 of the Clean Air Act.

(1) North Coast Intrastate AQCR:  
(A) Rule 540, submitted on November 10, 1976, is disapproved.

(ii) Humboldt County APCD.  
(A) Rule 540, submitted on November 10, 1976, is disapproved.

(iii) Lake County APCD.  
(A) Chapter III, article I, section 500, and article II, sections 510 and 511, submitted on February 10, 1977, are disapproved; and part VI, sections 1 and 2, submitted on June 30, 1972, and previously approved under 40 CFR 52.223, are disapproved.

(iv) Mendocino County APCD.  
(A) Rule 540, submitted on November 10, 1976, is disapproved.

(v) Trinity County APCD.  
(A) Rule 540, submitted on November 10, 1976, is disapproved.

(2) Sacramento Valley Intrastate AQCR:

(i) Glenn County APCD.  
(A) Rules 95.2 and 95.3, submitted on January 10, 1975, are disapproved.

(ii) Plumas County APCD.  
(A) Rule 203(j), submitted on January 10, 1975, is disapproved.

(iii) Shasta County APCD.  
(A) Rule 3:10, submitted on July 19, 1974, is disapproved.  
(iv) Tehama County APCD.  
(A) Rule 4:17, submitted on July 19, 1974, is disapproved.  
(3) San Francisco Bay Area Intrastate AQCR:  
(i) Bay Area APCD.  
(A) Regulation 2, section 3212, and regulation 3, section 3203, submitted on April 21, 1976, are disapproved.

(ii) Northern Sonoma County APCD.  
(A) Rule 540, submitted on November 10, 1976, is disapproved.

(4) San Joaquin Valley Intrastate AQCR:

(i) Amador County APCD.  
(A) Rule 404, submitted on April 21, 1976, is disapproved.

(ii) Fresno County APCD.  
(A) Rule 110, submitted on June 30, 1972 and previously approved under 40 CFR 52.223, is disapproved.

(iii) Kern County APCD.  
(A) Rule 111, submitted on July 19, 1974, is disapproved.

(iv) Kings County APCD.  
(A) Rule 111, submitted on July 25, 1973, and rule 111, submitted on July 30, 1972, and previously approved under 40 CFR 52.223, are disapproved.

(v) Madera County APCD.  
(A) Rule 402(f), submitted on January 10, 1975, and rule 110, submitted on June 30, 1972, and previously approved under 40 CFR 52.223, are disapproved.

(vi) Mariposa County APCD.  
(A) Rule 203(j), submitted on January 10, 1975, and rule 4.3(g), submitted on February 21, 1972, and previously approved under 40 CFR 52.223, are disapproved.

(vii) Merced County APCD.  
(A) Rule 109, submitted on August 2, 1976, is disapproved.

(viii) Tulare County APCD.  
(A) Rules 111 and 402(f), submitted on November 10, 1976, are disapproved.

(ix) Tuolumne County APCD.  
(A) Rule 404, submitted on February 10, 1977, and rule 402(f), submitted on June 30, 1972, and previously approved under 40 CFR 52.223, are disapproved.

(5) Great Basin Valleys Intrastate AQCR:

(i) Great Basin Unified APCD.  
(A) Rule 403, submitted on June 6, 1977, is disapproved.

(6) South Central Coast Intrastate AQCR:

(i) San Luis Obispo County APCD.  
(A) Rule 107, submitted on November 10, 1976, is disapproved.

(7) Metropolitan Los Angeles Intrastate AQCR:

(i) Southern California APCD.  
(A) Rule 430, submitted on February 10, 1977, is disapproved.

(ii) Ventura County APCD.  
(A) Rule 32, submitted on July 19, 1974, is disapproved.

(8) Southeast Desert Intrastate AQCR:  
(i) San Bernardino County APCD.  
(A) Rule 430, submitted on June 6, 1977, is disapproved.  
(ii) Los Angeles County APCD.  
(A) Rule 430, submitted on June 6, 1977, is disapproved.  
(iii) Riverside County APCD.  
(A) Rule 430, submitted on June 6, 1977, is disapproved.

**PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS**

**Air Pollution Control State Statutes, State of Nevada**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final Rulemaking.

SUMMARY: It is the purpose of this action to approve amendments to the Nevada Revised Statutes (NRS) submitted to EPA by the governor on September 10, 1975 as revisions to the Air Quality Implementation Plan for the State of Nevada. The amendments pertain to motor vehicle inspection and testing, public availability of emission data, stack testing and other miscellaneous items. Action was proposed in the FEDERAL REGISTER on May 20, 1977.

EFFECTIVE DATE: February 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Allyn M. Davis, Acting Director, Air and Hazardous Materials Division; Attention Morris I. Goldberg, Air Programs Branch, EPA Region IX, 215 Fremont Street, San Francisco, Calif. 94105, telephone 415-556-7473.

SUPPLEMENTARY INFORMATION:

**BACKGROUND**

On September 10, 1975 the governor of Nevada submitted legislative amendments to EPA as revisions to the State Implementation plan (SIP). On May 20, 1977 (42 FR 25878) EPA proposed approval, with exceptions, of the items submitted in five plan revisions including the September 10, 1975 revision. At this time final action is being taken on only the legislative revisions submitted on September 10, 1975 which were proposed for approval on May 20, 1977. The other revisions proposed for approval/disapproval on May 20, 1977 will be the subject of a separate FEDERAL REGISTER document.

The proposed rulemaking notice provided for a 30-day public comment

period. Copies of the statutes proposed for approval and disapproval, the EPA evaluation report, and the proposed rulemaking notice were made available during the public comment period at Carson City, Reno, and Las Vegas, Nevada and at the EPA offices in San Francisco, California and Washington, D.C.

**DISCUSSION OF ACTION**

Pursuant to Section 110 of the Clean Air Act, as amended, and 40 CFR Part 51, the Administrator is required to approve or disapprove revisions to the SIP.

**DIFFERENCES FROM THE PROPOSED ACTIONS**

Final rulemaking on legislative revisions differs from that proposed on May 20, 1977 because of public comment and statutory revisions enacted by the 1977 State legislature.

One comment with respect to the statutory revisions of the "Power Plant Enforcement Moratorium" was received from the Southern California Edison Co. In response to the proposed disapproval of NRS 445.546(7), the company recommended that no action be taken since the moratorium expired on July 1, 1977. EPA concurs with the comment and is taking no action on the statute.

The other difference from the action proposed by EPA relates to the "Motor Vehicle Inspection and Testing Program Limitation." The Nevada legislature, in its 1975 session, adopted NRS 445.635 which limited the State authority on the inspection and testing of motor vehicle emissions to used vehicles upon their sale or transfer. This limitation of authority was not consistent with the approved control strategy portion of the SIP. The Nevada legislature, in its 1977 session, revised NRS 445.635 to provide the State with authority to inspect, test, and require emission control compliance of all used motor vehicles prior to their registration. The authority is being phased-in under the statute, with full authority in all applicable areas of the State, effective on July 1, 1979. EPA has been informed that the Governor will be submitting the revised statute as an SIP revision in the near future. Accordingly, no action is now being taken on the proposed disapproval of the 1975 version of NRS 445.635, pending receipt of the revised statute.

**APPROVALS, AND RESCISSIONS, AS PROPOSED.**

Final rulemaking on the September 10, 1975 plan revision is identical to that proposed on May 20, 1977 with the exception of those items discussed above. Approval is being promulgated for the following:

- NRS 169.125—Peace officer powers authorized.
- NRS 445.477—Source stack emission testing.
- NRS 445.481—Hearing board make-up.
- NRS 445.526—Actions on alleged violations.
- NRS 445.576—Confidential information.
- NRS 445.640—Prerequisite to motor vehicle registration.
- NRS 445.700—Motor vehicle emission control program fees.
- NRS 481.—(new statute)—Creation of motor vehicle emission control section, (Section 1 of 1975 Assembly Bill 326) and.
- NRS 482.640—Motor vehicle seller's requirements.

EPA is rescinding its disapproval of NRS 445.576, on confidential information (public availability of emission data), as proposed on May 20, 1977. The disapproval is at 40 CFR 52.1474(a).

(Secs. 110, 301(a), Clean Air Act, as amended (42 U.S.C. 1857c-5, 1857g(a), respectively).)

Dated: January 18, 1978.

DOUGLAS M. COSTLE,  
Administrator.

Subpart DD of Part 52 of Chapter I, title 40, of the Code of Federal Regulations is amended as follows:

**Subpart DD—Nevada**

1. In § 52.1470, paragraph (c) is amended by the addition of subparagraph (10) as follows:

§ 52.1470 Identification of plan.

• • • • •

(c) • • •

(10) Amendments to the Nevada Revised Statutes (NRS) (1975 Legislative Session) on motor vehicle inspection and testing (NRS 445.640, 445.700, 482.640 and 169.125), public availability of emission data (NRS 445.576), organization (NRS 445.481 and 481.—). (Section 1 of 1975 Assembly Bill 326), stack testing (NRS 445.477), and alleged violations (NRS 445.526) submitted on September 10, 1975 by the Governor.

2. In § 52.1474, paragraph (a) is revoked as follows:

§ 52.1474 Legal authority.

(a) [Revoked]

[FRL 844-6]

**PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS**

**California Plan Revision: Fresno County APCD**

AGENCY: U.S. Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: The Environmental Protection Agency (EPA) takes final action to approve and disapprove changes to the Fresno County APCD portion of the California State Implementation Plan (SIP). The changes were submitted by the Governor's designee to update rules and regulations and to correct certain deficiencies in the SIP. The intended effect of this action is to ensure the attainment and maintenance of the National Ambient Air Quality Standards.

EFFECTIVE DATE: February 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Frank M. Covington, Director, Air and Hazardous Materials Division, Environmental Protection Agency, 215 Fremont Street, San Francisco Calif. 94105; Attention David R. Souten, 415-556-7288.

SUPPLEMENTARY INFORMATION: On May 26, 1977, in 42 FR 26997, EPA published a notice of proposed rulemaking for revisions to the Fresno County Air Pollution Control District Rules and Regulations submitted on November 10, 1976, by the California Air Resources Board for inclusion in the California SIP.

The changes contained in the above mentioned submittal and being acted upon by this notice include the following: addition of metric limits to the emission limitation for disposal of solid and liquid wastes in incinerators and relaxation of the emission limitation for disposal of solid and liquid wastes for incinerators burning less than 100 pounds per hour; and combination of two existing limitations for fuel burning equipment into one regulation to which metric units have been added. A list of Rules considered by this action was published as part of the notice of proposed rulemaking and can be found in 42 FR 26997 (May 26, 1977).

Public comments on this proposed rulemaking have been received from the Fresno County APCD which stated that the emissions from small incinerators are insignificant and that the relaxed Rule 407 requires Reasonably Available Control Technology (RACT). However, insufficient data

have been supplied to demonstrate that the less stringent emission standard will not interfere with the attainment and maintenance of NAAQS.

It is the purpose of this notice to approve all changes contained in the November 10, 1976 submittal and incorporate them into the California SIP with the exception of the rule discussed below.

EPA is disapproving Rule 407, Disposal of Solid and Liquid Wastes. This rule provides less stringent controls for incinerators burning less than 100 pounds per hour. No data was submitted which adequately demonstrate that the new standard will not interfere with attainment/maintenance of NAAQS. Without a control strategy demonstration, EPA cannot approve this SIP revision (40 CFR 51.8, 51.13(e), and 51.14(c)).

The California Air Resources Board has certified that the public hearing requirements of 40 CFR 51.4 have been satisfied.

Pursuant to Section 110 of the Clean Air Act, as amended, and 40 CFR Part 51, the Administrator is required to approve or disapprove the regulations as State Implementation Plan revisions.

(Secs. 110 and 301(a) of the Clean Air Act, as amended (42 U.S.C. §§ 7410 and 7601(a).))

Dated: January 18, 1978.

DOUGLAS M. COSTLE,  
Administrator.

Subpart F of Part 52 of Chapter I, Title 40, of the Code of Federal Regulations is amended as follows:

1. Section 52.220, paragraph (c)(35)(vii) is added as follows:

§ 52.220 Identification of plan.

• • • • •  
(c) • • •  
(35) • • •  
(vii) Fresno County APCD.  
(A) Rules 407 and 408.

2. Section 52.226, paragraph (b)(4)(ii) is added as follows:

§ 52.226 Control strategy and regulations: Particulate matter, San Joaquin Valley Intrastate Region.

• • • • •  
(b) • • •  
(4) • • •  
(ii) Rule 407, Disposal of Solid or Liquid Wastes, submitted on November 10, 1976, is disapproved; and Rule 407.1, submitted on June 30, 1972 and

previously approved in 40 CFR 52.223 is retained.

**Title 41—Public Contracts and Property Management**

**CHAPTER 128—JUSTICE PROPERTY MANAGEMENT REGULATIONS**

**PART 128-48—UTILIZATION, DONATION, OR DISPOSAL OF ABANDONED AND FORFEITED PERSONAL PROPERTY**

**PART 128-50—SEIZED PERSONAL PROPERTY**

AGENCY: U.S. Department of Justice, Office of Management and Finance.

ACTION: Final rule.

SUMMARY: This rule supplements and implements the policies contained in Part 101-48 of the Federal Property Management Regulations. It establishes the policies concerning the storage and care of seized personal property in the Department. The following regulations are being published to eliminate possible ambiguities resulting from the lack of clearly defined procedures.

EFFECTIVE DATE: January 6, 1978.

128-48.501 Definitions.  
128-48.501-1 Determining Official.  
128-48.501-2 Claimant.  
128-48.501-3 Owner.  
128-48.501-4 Person.  
128-48.502 Procedures relating to claims.  
128-48.503 General procedures.

AUTHORITY: 41 CFR 128-1.105.

## § 128-48.001 Definitions.

## § 128-48.001-5 Forfeited property.

Personal property acquired by a bureau, either by administrative process or by order of a court of competent jurisdiction pursuant to any law of the United States.

## § 128-48.001-50 Administrative or summary process.

Forfeiture is achieved by direction of the seizing bureau in lieu of the courts.

The phrase shall be interpreted to mean by administrative process.

## Subpart 128-48.1—Utilization of Abandoned and Forfeited Personal Property

## § 128-48.102-1 Vesting of title in the United States.

(a) Abandoned or other unclaimed property, subject to the provisions of section 203(m) of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 484(m)), shall remain in the custody of and be the responsibility of the bureau finding such property.

(b) If the owner of such property is known, the owner shall be notified within 20 days of finding such property by certified mail at the owner's address of record that the property may be claimed by the owner or his designee and that if the property is not claimed within 30 days from the date the letter of notification is postmarked, the title of the property will vest in the United States.

(c) If the owner of such property is not known and the estimated value of the property exceeds \$100, the bureau shall post notice within 20 days of finding such property, which contains the following information:

(1) A description of the property including model or serial numbers, if known.

(2) A statement of the location where the property was found and the office that has custody of it.

(3) A statement that any person desiring to claim the property must file with the bureau within 30 days from the date of first publication a claim for said property.

(4) A complete mailing address is to be provided as a point of contact within the bureau for any person to obtain additional information concerning the property or the procedures involved in filing a claim.

Notice must be published once a week for at least three successive weeks. Sound judgment and discretion must be used in selecting the publication medium. Advertisements should be placed in a publication of general circulation within the judicial district where the property was found.

(d) Property, as described in (b) and (c) above, shall be held for a period of

30 days from the date of the first publication of notice. Upon the expiration of this 30-day period, title to such property vests in the United States, except that title reverts to the owner where a proper claim is filed within three years from the date of vesting of title in the United States, but if the property has been in official use, transferred for official use, or sold at the time the proper claim is approved, title shall not revert back to the former owner. The former owner shall instead obtain reimbursement in accordance with 41 CFR 101-48.102-4 or 101-48.305-1.

(e) If the owner of such property is unknown and the estimated value of the property is \$100 or less, no notice is required, and the property shall be held for a period of 30 days from the date of finding the property. Upon expiration of this 30-day period, title to such property vests in the United States.

## § 128-48.102-4 Proceeds.

(a) Records of abandoned or other unclaimed property will be maintained in such a manner as to permit identification of the property with the original owner, if known, when such property is put into official use or transferred for official use by the finding bureau. Records will be maintained until the three-year period for filing claims has elapsed to enable the bureau to determine the amount of reimbursement due to a former owner who has filed a proper claim for abandoned or other unclaimed property.

(b) Reimbursement for official use by the finding bureau or transfer for official use of abandoned or other unclaimed property that has been placed in a special fund by the bureau for more than three years shall be deposited in the Treasury of the United States as miscellaneous receipts, or in such other bureau accounts as provided by law.

## § 128-48.150 Determination of type of property.

If a bureau is unable to determine whether the personal property in its custody is abandoned or voluntarily abandoned, the bureau shall contact the regional office of the General Services Administration for the region in which the property is located for such a determination.

## Subpart 128-48.3—Disposal of Abandoned and Forfeited Personal Property

## § 128-48.305-1 Abandoned or other unclaimed property

Proceeds from the sale of abandoned or other unclaimed property that have been placed in a special fund by a bureau for more than three years shall be deposited in the Treasury of the United States as miscellaneous re-

ceipts, or in such other bureau accounts as provided by law.

## Subpart 128-48.50—Proper Claims for Abandoned or Other Unclaimed Personal Property

## § 128-48.500 Scope of subpart.

This subpart sets forth the policies in regard to proper claims for abandoned or other unclaimed property.

## § 128-48.501 Definitions.

## § 128-48.501-1 Determining official.

The official who has the authority to grant or deny the claim for the abandoned or other unclaimed property.

## § 128-48.501-2 Claimant.

The person who submitted the claim for the abandoned or other unclaimed property.

## § 128-48.501-3 Owner.

The person who has primary and direct title to property (see 28 CFR 9.2(e)).

## § 128-48.501-4 Person.

An individual, partnership, corporation, joint venture, or other entity capable of owning property (see 28 CFR 9.2(f)).

## § 128-48.502 Procedures relating to claims.

(a) Upon receipt of a claim, an investigation shall be conducted to determine the merits of the claim, and the investigation's report shall be submitted to the determining official.

(b) The determining official shall be designated by the head of a bureau.

(c) Upon receipt of a claim and the report thereon by the determining official, he shall make a ruling based upon the claim and the investigation's report.

(d) Notice of the granting or denial of a claim for abandoned or other unclaimed property shall be mailed to the claimant or his attorney. If the claim is granted, the conditions of relief and the procedures to be followed to obtain the relief shall be set forth. If the claim is denied, the claimant shall be advised of the reason for such denial.

(e) A request for reconsideration of the claim may be submitted within 10 days from the date of the letter denying the claim. Such request shall be addressed to the head of the bureau and shall be based on evidence recently developed or not previously considered.

## § 128-48.503 General procedures.

(a) Claims shall be sworn and shall include the following information in clear and concise terms:

(1) A complete description of the property including serial numbers, if any.

(2) The interest of the claimant in the property, as owner, mortgagee, or otherwise, to be supported by bills of sale, contracts, mortgages, or other satisfactory documentary evidence.

(3) The facts and circumstances, to be established by satisfactory proof, relied upon by the claimant to justify the granting of the claim.

(b) If the claim is filed before title has vested in the United States, the determining official shall not grant the claim for the abandoned or other unclaimed property unless the claimant establishes a valid, good faith interest in the property.

(c) If the claim is filed after title has vested in the United States, the determining official shall not grant the claim for abandoned or other unclaimed property unless the claimant:

(1) Establishes that he would have a valid, good faith interest in the property had not title vested in the United States; and

(2) Establishes that he had no actual or constructive notice, prior to the vesting of title in the United States, that the property was in the custody of a bureau and that title, after the appropriate time period, would vest in the United States. A claimant shall be presumed to have constructive notice upon publication in a suitable medium concerning the property unless he was in such circumstances as to prevent him from knowing of the status of the property or having the opportunity to see the notice.

Part 128-50 is added to read as follows:

## Sec. 128-50.000 Scope of part.

## 128-50.001 Definitions.

## 128-50.001-1 Seized personal property.

## Subpart 128-50.1—Storage and Care of Seized Personal Property

## 128-50.100 Storage and care.

## 128-50.101 Inventory records.

## 128-50.102 Periodic reviews.

## 128-50.103 Investigation of any discrepancy.

AUTHORITY: 41 CFR 128-1.105.

## § 128-50.000 Scope of part.

This part prescribes the policies for the storage and care of seized personal property; the preparation and maintenance of inventory records of its seized personal property; the conducting of periodic internal reviews; and the investigation of any discrepancy between the inventory records and the actual amount of its seized personal property.

## § 128-50.001 Definitions.

## § 128-50.001-1 Seized personal property.

Personal property for which the Government does not have title but which the Government has obtained

custody or control of in accordance with 15 U.S.C. 1177; 18 U.S.C. 924(d), 1955(d), 2513, 3611, 3612, 3615; 19 U.S.C. 1595a; 21 U.S.C. 881; 22 U.S.C. 401; Fed. R. Crim. P. 41(b); 28 CFR 0.86, 0.89, 0.111(j), 3.5, 3.6, 8.1, 8.2, 9a.1, 9a.2; or other statutory authority.

## Subpart 128-50.1—Storage and Care of Seized Personal Property

## § 128-50.100 Storage and care.

(a) Each bureau shall be responsible for providing that its seized personal property storage facilities meet the safeguarding standards applicable to the type of property being stored.

(b) Each bureau shall be responsible for performing care on its seized personal property to prevent the unnecessary deterioration of such property. In particular, a bureau preparing a seized vehicle for storage should be at a minimum:

(1) Protect the cooling system from freezing;

(2) Protect the battery by assuring it is properly watered;

(3) Protect the tires by inflating to correct pressure;

(4) Remove all articles found in the vehicle's interior (for example, easily removable radios, tape players, and speakers) and all exterior accessories (for example, wheel covers) that are subject to pilferage and properly store them; and

(5) Shut all windows and lock all doors and compartments that have locks.

## § 128-50.101 Inventory records.

Each bureau shall be responsible for establishing and maintaining inventory records of its seized personal property to ensure that:

(a) The date the property was seized is recorded;

(b) All of the property associated with a case is recorded together under the case name and number;

(c) The location of storage of the property is recorded;

(d) A well documented chain of custody is kept; and

(e) All information in the inventory records is accurate and current.

## § 128-50.102 Periodic reviews.

Each bureau shall be responsible for performing an independent accountability review at least once a year to ensure compliance with this subpart and with the bureau's procedures for the handling, storage, and disposal of its seized personal property. In particular, a bureau conducting a review shall verify that the inventory records are accurate, current, and are being kept in accordance with established inventory procedures.

## § 128-50.103 Investigation of any discrepancy.

(a) Upon discovery of any discrepancy between the inventory records and the bureau's actual amount of seized personal property, a board of survey shall conduct an investigation in accordance with 41 CFR 128-51.1.

(b) If the discrepancy cannot be eliminated and involves a shortage, the bureau shall notify the U.S. attorney in charge of the litigation involving the missing property of the shortage as soon as possible.

(c) If the discrepancy cannot be eliminated and involves an overage, the bureau shall determine if the property has any evidentiary value. If the property does have evidentiary value, the property shall be properly stored and inventoried. If the property does not have any evidentiary value, the bureau shall determine whether the property is forfeitable to the United States, voluntarily abandoned, or abandoned. Proper proceedings shall be commenced as soon as possible to vest title of the forfeitable property in the United States. The voluntarily abandoned and abandoned property shall be kept in custody in accordance with 41 CFR 101-48 and any applicable Justice property management regulations.

Effective date: This regulation is effective January 6, 1978.

KEVIN D. ROONEY,  
Assistant Attorney General  
for Administration.

## [7035-01]

## Title 49—Transportation

## CHAPTER X—INTERSTATE COMMERCE COMMISSION

## SUBCHAPTER A—GENERAL RULES AND REGULATIONS

## PART 1033—CAR SERVICE

[Service Order No. 1295]

Erie Western Railway Co. Authorized To Operate Over Tracks of Chicago & Western Indiana Railroad Co.

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (Service Order No. 1295).

SUMMARY: Operations of the Erie Western (EW) line between Hammond, Ind., and North Judson, Ind., commenced October 15, 1977. To affect interchange of cars between the EW and the Belt Railway of Chicago and its connections, it is necessary for the EW to operate over tracks of the Chicago & Western Indiana between State Line Tower at Hammond and Pullman Junction, Ill., where connec-

tions are made with the Belt Railway of Chicago. Service Order No. 1295 authorizes the EW to operate over the Chicago & Western Indiana between these points.

DATES: Effective 11:59 p.m., January 12, 1978. Expires 11:59 p.m., July 15, 1978.

#### FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, Telex 89-2742, telephone 202-275-7840.

#### SUPPLEMENTARY INFORMATION:

The order is printed in full below.

At a session of the Interstate Commerce Commission, in Washington, D.C., on January 11, 1978.

By Service Order No. 1275 the Erie Western Railway Co. (EW) was authorized to operate over the lines of the former Erie Lackawanna Railroad Co. (EL) between North Judson, Ind., and EL milepost 249.6 at State Line Tower (Hammond), Ind. From State Line Tower the EL operated into its terminal in Chicago, Ill., over tracks of the Chicago & Western Indiana Railroad Co. (CWI), and affiliated terminal company. At Hammond, Ind., the EL had a track connection with the Louisville & Nashville Railroad Co. (LN) thence via a connection with that line with the Indiana Harbor Belt Railway (IHB), a switching carrier operating in the Chicago switching district. After the EL ceased operation on March 31, 1976, the track connection and remote controlled switches connecting the EL and the LN were removed as excess facilities, thus severing the connection with the IHB. These switches have not been restored. At State Line Tower, the EL used a portion of the CWI tracks for access to the Baltimore & Ohio Chicago Terminal Railroad Co. (BOCT), another Chicago district switching carrier. The EL operated over tracks of the CWI between State Line Tower and Pullman Junction at which point certain of the EL's trains entered the tracks of the Belt Railway of Chicago (BRC), also a major Chicago district switching carrier. Other EL trains operated over CWI tracks beyond Pullman Junction en route to their terminals. The trustees of the EL have leased to the EW their line between North Judson, Ind., and State Line Tower. The EL's stock ownership in the CWI was transferred to the Consolidated Rail Corporation. Consequently, no arrangements could be made with the trustees of the EL to transfer to the EW the EL's right to use the tracks of the CWI.

The only direct physical access to the Chicago district switching carriers available to the EW is by partial restoration of the operations of its predecessor, the EL, over tracks of the CWI,

but limited to movements between State Line Tower and a connection with the BRC at Pullman Junction and to necessary use of CWI tracks at State Line Tower for entry to the BOCT and entry into the former Burnham Yard of the Chesapeake & Ohio Railway Co. All of the operations described above are within the Chicago switching district.

The EW operates additional trackage as designated operator for the State of Indiana extending its line eastward from North Judson to Decatur, Ind. Its combined line segments extend 153 miles eastward from State Line Tower. There are numerous shippers served by the EW who require direct single-line service to Chicago. In excess of one million bushels of grain are held at various elevators along the lines of the EW. This grain is intended for marketing in Chicago provided the single-line rates formerly in effect via the EL can be reestablished via the EW. The two-line rates required to be used if the EW does not have direct access to the Chicago switching carriers effectively close the Chicago grain markets to these shippers resulting in substantial economic loss to these shippers and to the producers. Substantial carload movements to western carriers are available which require direct movement to the western carriers in lieu of the circuitous movements now required which add from two to five days to transit times and contribute to loss of utilization of freight cars and to existing shortages of boxcars now prevalent throughout the country. TOFC service is not presently available at any point served by the EW, although certain shippers located on its lines are in need of such services on traffic routed via the western lines at Chicago. The necessary TOFC facilities are available on the EW at Huntington, Ind., and will be used by the EW to provide such service as quickly as direct rail deliveries to connections at Chicago can be made. Tariff restrictions limit such intermediate handling of TOFC traffic to movements via the BRC. Although the EW intersects numerous other railroads between Decatur and Hammond, use of these lines for movement of traffic destined to or routed via Chicago is impracticable because of circuitry, excessive car delay, nonapplication of single-line rates, and nonapplication of through routes.

The United Transportation Union oppose operation by the EW over the CWI on the grounds that the EW will take traffic away from railroads employing full crews under contracts with the Union. It also questions the qualifications of the EW's employees and the safety of operations under the EW's reduced crew consists.

With respect to the issues raised by the United Transportation Union, the

EW states that its operations in Indiana were approved as being safe by the Indiana Public Service Commission in Docket No. 35098. It states that it will at all times comply with Illinois and Federal Railroad Administration safety regulations and will use cabooses while operating over CWI tracks.

Section 1(15)(c) of the Interstate Commerce Act clearly authorizes the Commission to require the joint use of terminals, including main tracks for a reasonable distance outside of such terminals. This provision of the Act is subject to the Commission's emergency powers and can be invoked upon a showing of an emergency condition justifying such action. The entire line of the CWI lies within the Chicago switching district and constitutes a portion of the Chicago terminal. Hence its use by the EW may be required by the Commission upon a finding that such operation is necessary in the interest of the public.

Accordingly, the Commission finds that the lines of the CWI between State Line Tower, Hammond, Ind., and Pullman Junction, Ill., are mainline tracks within the Chicago terminal; that an emergency exists requiring the immediate use of these tracks by the EW in order to prevent irreparable harm and great economic loss to shippers served by the EW; that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1295 Car Service Order 1295.

(a) The Erie Western Railway Co. authorized to operate over tracks of Chicago & Western Indiana Railroad Co. The Erie Western Railway Co. (EW) is hereby authorized to operate over tracks of the Chicago & Western Indiana Railroad Co. (CWI) between its connection with that line at State Line Tower, Hammond, Ind., and a connection between the CWI and the Belt Railway Co. of Chicago at Pullman Junction, Ill., including the use of track connections with the Baltimore & Ohio Chicago Terminal Railroad Co. and with the Burnham Yard of the Chesapeake & Ohio Railway Co., both located in the vicinity of State Line Tower.

(b) The CWI is hereby ordered to permit use by the EW of the tracks described in section (a) of this order.

(c) Compensation to be paid to the CWI by the EW for the use of its tracks shall be that mutually agreed upon by negotiations between the carriers, or if unable to agree, that determined by the Commission upon request of either carrier.

(d) Application. The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(e) *Effective date.* This order shall become effective at 11:59 p.m., January 12, 1978.

(f) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., July 15, 1978, unless otherwise modified, changed or suspended by order of this Commission.

(49 U.S.C. 1(10-17).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing a summary with the Director, Office of the Federal Register.

By the Commission, Commissioners Brown and Christian dissenting:

H. G. HOMME, Jr.,  
Acting Secretary.

##### Title 50—Wildlife and Fisheries

#### CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

##### PART 33—SPORT FISHING

#### Opening of Arapaho National Wildlife Refuge, Colorado, to Sport Fishing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to sport fishing of Arapaho National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural

resource, and will provide additional recreational opportunity to the public.

DATES: January 1 through May 31 and August 1 through December 31, 1978.

#### FOR FURTHER INFORMATION CONTACT:

William J. Wilson, Acting Refuge Manager, Arapaho National Wildlife Refuge, Box 457, Walden, Colo. 80480, telephone 303-723-4717.

#### SUPPLEMENTARY INFORMATION:

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

Sport fishing is permitted on the Arapaho National Wildlife Refuge, Colorado, only on the areas designated by signs as being open to fishing. These areas are delineated on maps available at the refuge headquarters and from the office of Area Manager, 1426 Federal Building, 125 South State Street, Salt Lake City, Utah 84138. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 33. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

WILLIAM J. WILSON,  
Acting Refuge Manager.

##### PART 33—SPORT FISHING

#### Opening of Pathfinder National Wildlife Refuge, Wyoming, to Sport Fishing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to sport fishing of Pathfinder National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: January 1 through December 31, 1978.

#### FOR FURTHER INFORMATION CONTACT:

William J. Wilson, Acting Refuge Manager, Arapaho National Wildlife Refuge, Box 457, Walden, Colo. 80480, telephone 303-723-4717.

#### SUPPLEMENTARY INFORMATION:

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

Sport fishing is permitted on all areas of the Pathfinder National Wildlife Refuge, Wyoming. These areas comprising 16,807 acres are delineated on maps available at the refuge headquarters and from the office of Area Manager, 1426 Federal Building, 125 South State Street, Salt Lake City, Utah 84138. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 33. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A-107.

WILLIAM J. WILSON,  
Acting Refuge Manager.

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[3410-15]

### DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

[7 CFR Part 1701]

#### RURAL TELEPHONE PROGRAM

Proposed Revisions of REA Specification PE-71 for Inside Wiring Cable and REA Specification PE-72 for Switchboard Cable

AGENCY: Rural Electrification Administration.

ACTION: Proposed rule.

SUMMARY: REA proposes to issue a File With for REA Bulletin 345-59 to announce a revision of REA Specification PE-71 for Inside Wiring Cable and a File With for REA Bulletin 345-61 to announce a revision of REA Specification PE-72 for Switchboard Cable. These revisions are needed to require the use of materials which will not adversely affect the long-term electrical stability of cables manufactured to these specifications. The effect of this action will be to provide for improved long-term electrical performance under adverse temperature and humidity conditions. On issuance of these File Withs, Appendix A to Part 1701 will be modified accordingly. DATE: Public comments must be received by REA no later than: February 23, 1978.

ADDRESS: Persons interested in the revisions of REA Specifications PE-71 and PE-72 may submit written data, views or comments to the Director, Telephone Operations and Standards Division, Rural Electrification Administration, Room 1355, South Building, U.S. Department of Agriculture, Washington, D.C. 20250. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Telephone Operations and Standards Division during regular business hours.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Warner T. Smith, Chief, Outside Plant Branch, Telephone Operations and Standards Division, Rural Electrification Administration, Room 1340, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, telephone number 202-447-3827.

SUPPLEMENTARY INFORMATION: Notice is hereby given that pursuant to the Rural Electrification Act, as

amended (7 U.S.C. 901 et seq.), REA proposes to issue a File With for REA Bulletins 345-59 and 345-61. Copies of the proposed revisions to REA Specifications PE-71 and PE-72 may be secured in person or by written request from the Director, Telephone Operations and Standards Division. The texts of the File Withs are as follows:

#### FILE WITH REA BULLETIN 345-59

REA Specification PE-71 for Inside Wiring Cable is being revised to include requirements which will provide for improved long-term electrical stability for cables subjected to adverse temperature and humidity conditions. The revisions are contained on revised pages 6, 10a, and 10b bearing a revision date of February 1978. The attached sheet containing pages 5 and 6 should be used to replace the present specification sheet containing these page numbers. The attached sheet containing pages 10a and 10b should be inserted after page 10 in the present specification.

These requirements become effective on July 1, 1978. All Inside Wiring Cables manufactured after July 1, 1978, must comply with REA Specification PE-71 as revised February 1978. This does not preclude adoption of the revised requirements prior to the effective date.

Copies of the revised sheets will be furnished by REA upon request. Questions concerning the revisions may be referred to the Chief, Outside Plant Branch, Telephone Operations and Standards Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, telephone number 202-447-3827.

#### FILE WITH REA BULLETIN 345-61

REA Specification PE-72 for Switchboard Cable is being revised to include requirements which will provide for improved long-term electrical stability for cables subjected to adverse temperature and humidity conditions.

The revisions are contained on revised pages 5, 6, 10a and 10b bearing a revision date of February 1978. The attached sheet containing pages 5 and 8 should be used to replace the present specification sheet containing these page numbers. The attached sheet containing pages 10a and 10b should be inserted after page 10 in the present specification.

These requirements become effective on July 1, 1978. All Switchboard Cables manufactured after July 1, 1978, must comply with REA Specification PE-72 as revised February 1978. This does not preclude adoption of the revised requirements prior to the effective date.

Copies of the revised sheets will be furnished by REA upon request. Questions concerning the revisions may be referred to the Chief, Outside Plant Branch, Telephone Operations and Standards Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, telephone number 202-447-3827.

Dated: January 18, 1978.

C. R. BALLARD,  
Assistant Administrator—  
Telephone.

[3410-37]

Food Safety and Quality Service

[9 CFR Parts 317, 319]

#### TISSUE FROM GROUND BONE

Extension of Time for Comment; Public Hearing

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Notice of reopening and extension of comment period and of public hearing.

SUMMARY: This document announces a reopening and extension of time for comment and a public hearing to be held concerning proposed standards and labeling requirements for tissue from ground bone.

DATE: Comments must be received on or before March 20, 1978. Public hearing to be held on February 14, 1978, beginning at 10 a.m.

ADDRESSES: Written comments to Hearing Clerk, U.S. Department of Agriculture, Room 1077, South Agriculture Building, Washington, D.C. 20250. Public hearing: Conference Room B, Interdepartmental Auditorium, 1301 Constitution Avenue NW., Washington, D.C.

#### FOR FURTHER INFORMATION CONTACT:

Dr. W. J. Minor, Chief Staff Officer, Issuance Coordination Staff, Scientific and Technical Services, Meat and Poultry Inspection Program, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-6189.

SUPPLEMENTARY INFORMATION: On October 6, 1977, there appeared in the FEDERAL REGISTER (42 FR 54437-54442) a notice that the Food Safety and Quality Service is considering amending Parts 317 and 319 of the Federal meat inspection regulations (9 CFR Parts 317 and 319) by setting forth a standard, permitted uses, and labeling requirements for a meat food product prepared by the mechanical processing of tissue from ground bone (TFGB). Interested persons were given until December 5, 1977, to comment.

## PROPOSED RULES

Comments and views expressed on the proposed amendments to the regulations indicate wide public interest with opinions differing on the desirability of the proposal's provisions and their effects on products and consumers if implemented.

Therefore, the Administrator has concluded that these circumstances require that further information and data be available to the fullest extent possible on the subject matter for consideration prior to decisions with respect to these proposed regulations.

Accordingly, the Administrator has determined to reopen and extend the period of time within which written data, views, or arguments may be submitted.

Those interested in preparing such comments may wish to obtain a copy of Volume II, "Background Materials and Details of Data, Health, and Safety Aspects of the Use of Mechanically Deboned Meat," the availability of which was announced in the December 30, 1977, FEDERAL REGISTER (42 FR 65224). Any person who wishes to submit data, views, or arguments concerning the proposed amendments may do so by filing them in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 1077, South Agriculture Building, Washington, D.C. 20250, by March 20, 1978. All written submissions made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business. Comments on this notice should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

The Administrator has further determined that it is in the public interest to hold a public hearing at which nongovernmental scientists will have the opportunity to comment on the analytical findings and methods of the panel of Government scientists concerning health and safety aspects of "mechanically deboned meat" and related products. These issues are directly related to the proposal concerning tissue from ground bone. Therefore, the Administrator has scheduled a public hearing to be held on February 14, 1978, beginning at 10 a.m., in Conference Room B, Interdepartmental Auditorium, 1301 Constitution Avenue NW., Washington, D.C. At the hearing, the Administrator of the Food Safety and Quality Service will preside. Any interested person who wishes to comment on the panel's analytic results or methods may appear and be heard either in person or by a representative. Individual presentations should be scheduled in advance. To make a reservation to speak at the hearing or to receive, without charge, a copy of the TFGB proposal or Volume II, "Background Materials and Details of Data, Health, and Safety

Aspects of the Use of Mechanically Deboned Meat," contact Dr. W. J. Minor, Chief Staff Officer, Issuance Coordination Staff, Scientific and Technical Services, Meat and Poultry Inspection Program, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-6189. A written copy of a speaker's comments should be given to the chairman prior to the speaker's oral presentation but is not required to be read into the record. Individuals making presentations may verbally summarize or emphasize certain points of their written comments. Opportunity will be provided for the chairman or other Government officials at the hearing to comment upon or ask questions about each presentation made. The time for oral presentations and questions may be limited at the discretion of the chairman in order to give all persons at the hearing an opportunity to be heard. Transcripts of the oral hearing will be made, and copies of the transcripts and any written comments submitted at the hearing will be made part of the record in this rulemaking proceeding and will be available for public inspection together with all other comments received in this proceeding.

After consideration of all information presented at the hearing and submitted pursuant to this notice and the notice of October 6, 1977, and any other information available to the Department, a determination will be made as to whether the regulations will be amended as proposed.

Done at Washington, D.C., on January 20, 1978.

ROBERT ANGELOTTI,  
Administrator,  
Food Safety and Quality Service.

### CIVIL AERONAUTICS BOARD

[14 CFR Part 369]

[SPDR-62A, SPDR-63A; Docket No. 31735;  
Dated: January 19, 1978]

#### PROTECTION OF CHARTER PARTICIPANTS' FUNDS

Supplemental Notice of Proposed Rulemaking

AGENCY: Civil Aeronautics Board.

ACTION: Supplemental notice of proposed rulemaking.

SUMMARY: This notice extends for 90 days the filing date for comments in a rulemaking proceeding that proposes a new part to the Board's Special Regulations establishing uniform procedures for the protection of charter participants' funds. The extension was requested by attorneys for

several charter tour operators and carriers.<sup>1</sup>

DATES: Comments by: May 1, 1978. Reply Comments by: May 29, 1978.

ADDRESSES: Comments should be sent to: Docket 31735, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. Comments may be examined at the Docket Section, Civil Aeronautics Board, Room 711, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

#### FOR FURTHER INFORMATION CONTACT:

Richard B. Dyson, Office of the General Counsel, Rules Division, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428, 202-673-5442.

SUPPLEMENTARY INFORMATION: By Notice of proposed Rulemaking SPDR-63 and SPDR-62, dated November 22, 1977 (42 FR 61408 and 42 FR 61420, December 2, 1977), the Board stated that it might be changing its Special Regulations to establish a new scheme for the protection of charter participants' funds. The new Part 369 would require a depository escrow account and one of three forms of additional security agreements. Comments in response to the notice are due January 31, 1978.

The Board received letters from the attorneys for several charter operators and carriers requesting an extension of 90 days for the filing of comments in response to SPDR-63 and SPDR-62. In support of the requests they stated that additional time is required to collect data and to study the impact of the proposed rule on the charter industry, and particularly those operators who are small businesses.

Upon consideration of the above, the undersigned finds good cause to grant these requests for a reasonable extension of time for the preparation of views on the proposed rule.

Accordingly, pursuant to authority delegated in § 385.20(d) of the Board's Organization Regulations (14 CFR 385.20(d)), the time for filing of comments is extended to May 1, 1978, and the time for filing reply comments is concomitantly extended to May 29, 1978.

<sup>1</sup>Letters were received from attorneys representing Unitours and Pleasant Hawaiian Holidays Inc. (letter dated January 12, 1978); Evergreen International Airlines, Inc.; Trans International Airlines, Inc. and World Airways, Inc. (January 12, 1978); American Institute for Foreign Study, Inc. (January 13, 1978); Air Charter Tour Operators of America (January 13, 1978); ASTI Tours, Inc.; The American Leadership Study Groups and Charter Travel Corp. (January 13, 1978); Davis Agency, Inc. and Shoftours, Inc. (January 13, 1978); and Southern Airways, Inc. (January 16, 1978).

(Sec. 204(a), Federal Aviation Act of 1958, as amended 72 Stat. 743 (49 U.S.C. 1324).)

SIMON J. EILENBERG,  
Associate General Counsel,  
Rules Division.

DEPARTMENT OF THE TREASURY

U.S. Customs Service

[19 CFR Part 22]

DRAWBACK RATES

Proposed Amendments to the Customs  
Regulations

AGENCY: U.S. Customs Service, De-  
partment of the Treasury.

ACTION: Proposed rulemaking.

SUMMARY: This notice proposes that the Customs Regulations be amended to provide that drawback rates shall expire 15 years after issuance or approval unless renewed by the rate holder. Also proposed is that applications for drawback rates will be considered abandoned if supporting drawback statements are not filed within one year of receipt of the application. Customs is currently required to maintain files consisting of obsolete rates and/or applications. The changes are proposed so that Customs may dispose of these obsolete files.

DATES: Comments must be received on or before February 23, 1978.

ADDRESS: Comments may be addressed to the Commissioner of Customs, Attention: Regulations and Legal Publications Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229.

FOR FURTHER INFORMATION CONTACT:

Donald Beach, Carriers, Drawback and Bonds Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-5856.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The term "drawback" refers to a situation in which a duty or tax, lawfully collected, is refunded because of a particular use made of the merchandise on which the duty or tax was collected. One of the more common types of claims for drawback is when articles manufactured or produced in the United States with the use of imported merchandise are exported (section 313(a), Tariff Act of 1930 (19 U.S.C. 1313(a))). Part 22 of the Customs Regulations (19 CFR Part 22) contains the provisions regarding drawback claims.

Section 22.3 of the Customs Regulations provides that each manufacturer

or producer of articles intended for exportation with benefit of drawback shall make application for the establishment of a rate of drawback prior to the exportation of these articles. Section 22.3(c) provides that the manufacturer or producer may abandon his application for the establishment of a rate of drawback by filing a written statement to that effect addressed to the district director with whom the application was filed or to the Customs investigating officer. In practice, however, applicants who have abandoned applications for drawback rates rarely file such a statement. As a result, many abandoned applications are still on file with Customs. Therefore, for Customs to remove obsolete applications from its files, it is proposed to amend § 22.3(c) to provide that applications shall be considered abandoned if supporting drawback statements, required by § 22.4(h) of the Customs Regulations, are not filed within one year of receipt of the application.

Section 22.4 of the Customs Regulations also provides for the establishment of drawback rates. Currently, established drawback rates remain in effect indefinitely. As a result, Customs maintains files of established drawback rates which frequently have become obsolete. It is proposed to amend section 22.4 to provide that drawback rates will expire after a period of 15 years, unless they are renewed by the rate holder.

If the proposed amendments are adopted, Customs will notify holders of drawback rates of this new procedure. Holders of rates less than 15 years old will be advised that they may renew the rates merely by submitting a request to do so, prior to the expiration of the 15-year period, to the regional commissioner where their drawback entries have been liquidated. Holders of drawback rates now more than 15 years old will be given 30 days from the date of the notice to renew their rates.

This document also proposes to amend §§ 22.4(o) and 22.6 (a) and (c) to conform the language in those sections to the other amended sections, and to simplify the language. No substantive changes to §§ 22.4(o) and 22.6 (a) and (c) are intended.

COMMENTS

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted to the Commissioner of Customs. Comments submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)) during regular business hours at the Regulations and Legal Publications Division, Headquarters, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229.

DRAFTING INFORMATION

The principal author of this document was Richard M. Belanger, Attorney, Regulations and Legal Publications Division of the Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other Customs offices participated in developing this document, both on matters of substance and style.

PROPOSED AMENDMENTS

It is proposed to amend Part 22 of the Customs Regulations (19 CFR Part 22) in the following manner:

PART 22—DRAWBACK

It is proposed to revise § 22.3(c) to read as follows:

§ 22.3 Application for establishment of drawback rate.

(c) *Abandonment of rates.* The manufacturer or producer may abandon his application for the establishment of a rate of drawback by filing a written statement to that effect with the Customs officer with whom the application was filed. An application shall be considered abandoned if supporting drawback statements are not filed within one year of receipt of the application. An abandoned application may not be revived to give an earlier effective date to a rate of drawback established as the result of a subsequent application.

It is proposed to revise paragraph (o) of § 22.4 and add a new paragraph (r) as set forth below:

§ 22.4 Identification of imported merchandise and ascertainment of quantities for allowance of drawback; establishment of drawback rates; expiration of drawback rates.

(o)(1) *Amendment of rates.* When a manufacturer or producer having a drawback rate desires to have the rate amended under section 313(a), Tariff Act of 1930, or to change a drawback statement filed under § 22.6, he shall submit a revised drawback statement to the regional commissioner who issued the rate. If warranted, the regional commissioner shall issue an amended rate and revoke the superseded rate in the same action. This procedure also shall apply to amendments of the other rates set forth in paragraph (h) of this section. The revised drawback statement shall be submitted to Headquarters, U.S. Customs Service, except as provided in paragraph (o)(2). No drawback shall be allowed on articles exported before the date on which the applicant's first application still in effect was received by the appropriate Customs officer.

(2) A revised drawback statement requesting an amendment under section 313 (b), (d), or (g), Tariff Act of 1930, as amended, shall be submitted to the regional commissioner for action in accordance with paragraph (o)(1), provided the changes covered by the amendment are limited to—

(i) A change in location of the factory of the manufacturer or producer;

(ii) An additional factory at which the methods followed and the records maintained are the same as those at another factory operating under an existing drawback rate of the manufacturer or producer;

(iii) A change in name of the manufacturer or producer;

(iv) The succession of a sole proprietorship, partnership, or corporation to the operations of the manufacturer or producer; or

(v) Any combination of the foregoing changes.

(r) *Expiration, revocation, or renewal of rates.* (1) Unless renewed by the rate holder in accordance with paragraph (r)(3), drawback rates issued under this section, or contained in statements approved under section 22.6, shall expire 15 years from the date of issuance or approval, as applicable, provided such date is on or after the effective date of this rule.

(2) If the dates of issuance or approval are before the effective date of this rule, an appropriate Customs officer shall notify the rate holder in writing of the provisions of this paragraph. Unless renewed by the rate holder in accordance with paragraph (r)(3), such rate shall expire the later of:

(i) 15 years from the date of issuance or approval, as applicable, or

(ii) 30 days from the date of the notice to the rate holder.

(3) A rate holder may renew its rate by submitting a request in writing, prior to the expiration of the rate, to each regional commissioner where drawback entries filed under the rate have been liquidated. The rate shall be renewed for a succeeding 15-year period upon receipt of the request.

(4) A rate will be revoked if the rate holder specifically requests revocation in writing to the appropriate Customs officer.

It is proposed to revise paragraphs (a) and (c) of § 22.6 to read as follows:

§ 22.6 General drawback rates in effect; approval of drawback statements by Headquarters, U.S. Customs Service, and by regional commissioners.

(a) *Drawback statements; filing and approval by one regional commissioner.* Each manufacturer or producer of articles covered by a drawback rate in this section, except under paragraph (g-1), shall submit to the regional

commissioner where drawback entries will be filed a drawback statement, in duplicate, describing the methods used in the manufacture or production of the products involved. The statement also shall set forth the records it agrees to keep for the purpose of complying with the drawback law and regulations and for providing all the data required for the proper liquidation of entries. If the statement provides for compliance with the rate, the regional commissioner shall approve the drawback statement and promptly notify the applicant in writing of the action. Drawback statements, in triplicate, relating to products covered by paragraph (g)(1) shall be forwarded to Headquarters, U.S. Customs Service for approval.

(c) *Drawback statements; revised.* Revised drawback statements covering changes in drawback statements filed under this section shall be handled in accordance with the provisions of paragraphs (a) and (b) of this section.

LEONARD LEHMAN,  
Acting Commissioner of  
Customs.

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

[33 CFR Part 206]

FISHING AND HUNTING REGULATIONS

Revocation

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Corps of Engineers proposes to revoke 33 CFR Part 206—Fishing and Hunting Regulations in its entirety. The regulations are obsolete and activities governed therein are subject to the requirements of recently published Corps permit regulations and adequate state and local controls.

DATE: Written comments will be received until 1 March 1978.

ADDRESS: Office of the Chief of Engineers, ATTN: DAEN-CWO-N, Washington, D.C. 20314.

FOR FURTHER INFORMATION CONTACT:

Mr. Ralph T. Eppard, 202-693-5070.

SUPPLEMENTARY INFORMATION: In accordance with the President's Reorganization Project (Sunset Actions), the Corps has established a continuing program to review all regulations published under Chapter II, Title 33 of the Code of Federal Regulations, for possible elimination or consolidation. Fishing and hunting regulations were promulgated by the Department of the Army in 33 CFR Part 206 to control the erection and maintenance of fishing and hunting structures in the navigable waters of the United States. The primary purpose of the regulations was to prevent the obstruction or interference with navigation.

On 19 July 1977 the Corps promulgated regulations in 33 CFR Parts 320-329 revising and reorganizing regulations governing the regulatory program of the Corps of Engineers. Sec-

tion 322.4 concerns the issuance of a nationwide permit for marine life harvesting devices such as pound nets, crab traps, eel pots, and lobster traps, provided there is no interference with navigation. Though hunting structures have been omitted from the nationwide permit, the District Engineers may where necessary issue general permits or determine permit requirements on a case-by-case basis.

Lighting and marking requirements for the fishing and hunting structures are under the purview of the Coast Guard and, accordingly, would not normally be a part of a Department of the Army permit. We propose to amend 33 CFR by revoking and reserving Part 206—Fishing and Hunting Regulations as set forth below:

**PART 206—FISHING AND HUNTING  
REGULATIONS [REVOKED AND RESERVED]**

NOTE.—The Corps of Engineers has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107. (33 U.S.C. 403)

Dated: 10 January 1978.

Approved:

C. A. SELLECK, JR.,  
Colonel, Corps of Engineers,  
Executive Director of Civil Works.

**NUCLEAR REGULATORY  
COMMISSION**

[41 CFR Chapter 20]

**CONTRACTOR ORGANIZATIONAL CONFLICTS  
OF INTEREST**

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed regulation.

SUMMARY: This proposed regulation would establish policies and procedures for the Nuclear Regulatory Commission (NRC) with respect to the avoidance of contractor organizational conflicts of interest. The regulation is intended to avoid, eliminate, or neutralize contractual relationships which might lead NRC contractors to give advice and assistance that is not unbiased, impartial, objective, and technically sound. Additionally, it seeks to reduce the opportunities for an unfair competitive advantage that might accrue to an NRC contractor.

These objectives are sought to be attained by requiring prospective NRC contractors to disclose pertinent information bearing upon potential organizational conflicts of interest and by requiring the inclusion of specified contract clauses designed to prevent such conflicts during performance.

DATES: Comments must be received by February 23, 1978.

ADDRESS: Comments should be addressed to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

**FOR FURTHER INFORMATION  
CONTACT:**

Edward L. Halman, Director, Division of Contracts, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, 301-427-4460.

**SUPPLEMENTARY INFORMATION:**

**BACKGROUND**

On April 28, 1977, the U.S. Nuclear Regulatory Commission (NRC) published in the FEDERAL REGISTER (42 FR 21673) a general statement of policy on the avoidance of contractor organizational conflicts of interest.

The proposed regulation supersedes the Commission policy statement and reflects the Commission's compliance with Pub. L. 95-209, December 13, 1977, which requires the NRC to promulgate guidelines by December 31, 1977, governing the avoidance of organizational conflicts of interest.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, notice is hereby given that the Commission proposes to adopt the following new Subpart 20-1.54 entitled "Contractor Organizational Conflicts of Interest," to Title 41, Code of Federal Regulations. All interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed regulations should send them by February 23, 1978, to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch. Copies of comments on the proposed new Subpart 20-1.54 may be examined and copied at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. 20555.

Title 41, Code of Federal Regulations is amended by adding a new "Chapter 20—Nuclear Regulatory Commission" and a new "Part 20-1—General" to read as follows:

**PART 20-1—GENERAL**

**Subpart 20-1.54—Contractor Organizational Conflicts of Interest**

Sec.  
20-1.5401 Scope and policy.  
20-1.5402 Definitions.  
20-1.5403 Criteria for recognizing contractor organizational conflicts of interest.  
20-1.5404 Representation.  
20-1.5405 Contract clauses.  
20-1.5405-1 General contract clause.  
20-1.5405-2 Special contract provisions.  
20-1.5406 Evaluation, findings, and contract award.

Sec.  
20-1.5407 Conflicts identified after award.  
20-1.5408 [Reserved].  
20-1.5409 [Reserved].  
20-1.5410 Subcontracts.  
20-1.5411 Waiver.  
20-1.5412 Remedies.

AUTHORITY: Pub. L. 95-209, December 13, 1977, 91 Stat. 1481.

**§ 20-1.5401 Scope and Policy**

(a) It is the policy of the U.S. Nuclear Regulatory Commission (NRC) to avoid, eliminate or neutralize potential contractor organizational conflicts of interest. The NRC achieves this objective by requiring all prospective contractors to submit information describing relationships, if any, with organizations or persons regulated by NRC which might give rise to actual or potential conflicts of interest in the event of contract award.

(b) Contractor conflict of interest determinations cannot be made automatically or routinely; the application of sound judgment on virtually a case-by-case basis is necessary if the policy is to be applied so as to satisfy the overall public interest. It is not possible to prescribe in advance a specific method or set of criteria which would serve to identify and resolve all of the contractor conflict of interest situations which might arise; however, examples are provided in these regulations to guide application of the policy. NRC contracting and program officials must be alert to other situations which may warrant application of this policy guidance. The ultimate test is: Might the contractor, if awarded the contract, be placed in a position where its judgment would be biased, or where it would have an unfair competitive advantage?

**§ 20-1.5402 Definitions**

(a) "Organizational conflicts of interest" means that a relationship exists whereby a prospective contractor has present or planned interests related to the work to be performed under a NRC contract which: (1) May diminish its capacity to give impartial, technically sound, objective assistance and advice or may otherwise result in a biased work product, or (2) may result in its being given an unfair competitive advantage.

(b) "Research" means any scientific or technical work involving theoretical analysis, exploration, or experimentation.

(c) "Evaluation activities" means any effort involving the appraisal of a technology, process, product, or policy.

(d) "Technical consulting and management support services" means internal assistance to a component of the NRC in the formulation or administration of its programs, projects, or policies which normally requires the contractor to be given access to information which has not been made

available to the public or proprietary information. Such services typically include assistance in the preparation of program plans; and preparation of preliminary designs, specifications, or statements of work.

(e) For the purpose of this policy "contract" means any contract, agreement, or other arrangement with the NRC, including NRC agreements with other Governmental agencies.

(f) "Contractor" means any person, firm, unincorporated association, joint venture, partnership, corporation, or affiliates thereof, including its chief executive, directors, key personnel (identified in the contract), proposed consultants or subcontractors, which is a party to a contract with the United States of America.

(g) "Affiliates" means business concerns which are affiliates of each other when either directly or indirectly one concern or individual controls or has the power to control another, or when a third party controls or has the power to control both (41 CFR § 1-1.601-1(e)).

(h) "Subcontractor" means any subcontractor of any tier which performs work under a contract with the NRC except subcontracts for supplies.

(i) "Prospective contractor" or "Offeror" means any person, firm, unincorporated association, joint venture, partnership, corporation, or affiliates thereof, including its chief executive, directors, key personnel (identified in the proposal), proposed consultants, or subcontractors, submitting a bid or proposal, solicited or unsolicited, to the NRC to obtain a contract.

**§ 20-1.5403 Criteria for recognizing contractor organizational conflicts of interest.**

(a) General. Two questions will be asked in determining whether organizational conflicts of interest exist: (1) Are there conflicting roles which might bias a contractor's judgment in relation to its work for the NRC? (2) Is the contractor being given an unfair competitive advantage based on the performance of the contract? The ultimate determination by NRC as to whether organizational conflicts of interest exist will be made in light of common sense and good business judgment based upon the relevant facts disclosed and the work to be performed. While it is difficult to identify and to prescribe in advance a specific method for avoiding all of the various situations or relationships which might involve potential organizational conflicts of interest, NRC personnel will pay particular attention to proposed contractual requirements which call for the rendering of advice, consultation or evaluation services, or similar activities that lay direct groundwork for the NRC's decisions on regulatory activities, future procurements, and research programs.

(b) *Situation or relationships which might give rise to organizational conflicts of interest.* The offeror or contractor shall disclose information concerning relationships under the following circumstances:

(1) Where the offeror or contractor provides advice and recommendations to the NRC in a technical area in which it is also providing consulting assistance in the same area to any organization regulated by the NRC.

(2) Where the offeror or contractor provides advice to the NRC on the same or similar matter in which it is also providing assistance to any organization regulated by the NRC.

(3) Where the offeror or contractor evaluates its own products or services, or the products or services of another entity where the offeror or contractor has been substantially involved in their development or marketing.

(4) Where the offeror or contractor prepares specifications which are to be used in future competitive procurements of products or services covered by such specifications.

(5) Where the offeror or contractor prepares plans for specific approaches or methodologies that are to be incorporated into future competitive procurements using such approaches or methodologies.

(6) Where the offeror or contractor is granted access to information not available to the public concerning NRC plans, policies, or programs which are integral to a future competitive procurement with NRC.

(7) Where the offeror or contractor is granted access to proprietary information of its competitors.

(8) Where the contract would result in benefits to a particular industry even though the offeror or contractor, as a part of the industry, would receive no more benefits than any other member of the industry.

(9) Where the award of a contract would otherwise result in placing the offeror or contractor in a conflicting role in which its judgment might be biased in relation to its work for the NRC or would otherwise result in an unfair competitive advantage for the offeror or contractor.

(c) *Policy application guidance.*—(1) Example. The XYZ Corp., in response to a request for proposal (RFP), proposes to undertake certain analyses of a reactor component as called for in the RFP. The XYZ Corp. is one of several companies considered to be technically well qualified. In response to the inquiry in the RFP, the XYZ Corp. advises that it is currently performing similar analyses for the reactor manufacturer.

Guidance. An NRC contract for that particular work normally would not be awarded to the XYZ Corp. because it would be placed in a position in which its judgment could be biased in rela-

tionship to its work for NRC. Since there are other well-qualified companies available, there would be no reason for considering a waiver of the policy.

(2) Example. The ABC Corp., in response to a RFP, proposes to perform certain analyses of a reactor component which are unique to one type of advanced reactor. As is the case with other technically qualified companies responding to the RFP, the ABC Corp. is performing various projects for several different utility clients. None of the ABC Corp. projects have any relationship to the work called for in the RFP. Based on the NRC evaluation, the ABC Corp. is considered to be the best qualified company to perform the work outlined in the RFP.

Guidance. An NRC contract normally could be awarded to the ABC Corp. because no conflict of interest exists which would motivate bias with respect to the work. An appropriate clause would be included in the contract to preclude the ABC Corp. from subsequently contracting for work during the performance of the NRC contract with the private sector which could create a conflict. For example, ABC Corp. would be precluded from the performance of similar work for the company developing the advanced reactor mentioned in the example.

(3) Example. As a result of operating problems in a certain type of commercial nuclear facility, it is imperative that NRC secure specific data on various operational aspects of that type of plant so as to assure adequate safety protection of the public. Only one manufacturer has extensive experience with that type of plant. Consequently, that company is the only one with whom NRC can contract which can develop and conduct the testing programs required to obtain the data in reasonable time. That company has a definite interest in any NRC decisions that might result from the data produced because those decisions affect the reactor's design and thus the company's costs.

Guidance. This situation would place the manufacturer in a role in which its judgment could be biased in relationship to its work for NRC. Since the nature of the work required is vitally important in terms of NRC's responsibilities and no reasonable alternative exists, a waiver of the policy may be warranted. Any such waiver shall be fully documented and coordinated in accordance with the waiver provisions of this policy with particular attention to the establishment of protective mechanisms to guard against bias.

(4) Example. The ABC Co. submits a proposal for a new system for evaluating a specific reactor component's performance for the purpose of developing standards that are important to

the NRC program. The ABC Co. has advised NRC that it intends to sell the new system to industry once its practicability has been demonstrated. Other companies in this business are using older systems for evaluation of the specific reactor component.

**Guidance.** A contract could be awarded to the ABC Co. provided that the contract stipulates that no information produced under the contract will be used in the contractor's private activities unless such information has been reported to NRC. Information which is reported to NRC by contractors will normally be disseminated by NRC to others so as to preclude an unfair competitive advantage that might otherwise accrue. When NRC furnishes information to the contractor for the performance of contract work, it shall not be used in the contractor's private activities unless such information is generally available to others. Further, the contract will stipulate that the contractor will inform the NRC contracting officer of all situations in which the information developed under the contract is proposed to be used.

(d) **Other considerations.** (1) The fact that the NRC can identify and later avoid, eliminate, or neutralize any potential organizational conflicts arising from the performance of a contract is not relevant to a determination of the existence of such conflicts prior to the award of a contract.

(2) It is not relevant that the contractor has the professional reputation of being able to resist temptations which arise from organizational conflicts of interest, or that a follow-on procurement is not involved, or that a contract is awarded on a competitive or a sole source basis.

#### § 20-1.5404 Representation.

(a) The following procedures are designed to assist the NRC contracting officer in determining whether situations or relationships exist which may constitute organizational conflicts of interest with respect to a particular offeror or contractor.

(b) **Representation procedure.** The following organizational conflicts of interest representation provision shall be included in all solicitations and unsolicited proposals for: (1) Evaluation services or activities; (2) technical consulting and management support services; (3) research; and (4) other contractual situations where special organizational conflicts of interest provisions are noted in the solicitation and would be included in the resulting contract. This representation requirement shall also apply to all modifications for additional effort under the contract except those issued under the "changes" clause. Where, however, a statement of the type required by the organizational conflicts of interest rep-

resentation provision has previously been submitted with regard to the contract being modified, only an updating of such statement shall be required.

#### ORGANIZATIONAL CONFLICTS OF INTEREST REPRESENTATION

I represent to the best of my knowledge and belief that:

The award to \_\_\_\_\_ of a contract or the modification of an existing contract does ( ) or does not ( ) involve situations or relationships of the type set forth in 41 CFR § 20-1.5403(b).

(c) **Instructions to offerors.** The following shall be included in all NRC solicitations: (1) If the representation as completed indicates that potential organizational conflicts of interest exist, or the contracting officer otherwise determines that potential organizational conflicts exist, the offeror shall provide a statement in writing which describes in a concise manner all relevant facts bearing on his representation to the contracting officer. If the contracting officer determines that organizational conflicts exist, the following actions may be taken: (i) Impose appropriate conditions which avoid such conflicts, (ii) disqualify the offeror, or (iii) determine that it is otherwise in the best interests of the United States to seek award of the contract under the waiver provisions of section 20-1.5411.

(2) The refusal to provide the representation provided in subsection 20-1.5404(b) or upon request of the contracting officer the facts required by subsection 20-1.5404(c), shall result in disqualification of the offeror for award. The nondisclosure or misrepresentation of any relevant interest may also result in the disqualification of the offeror for award; or if such nondisclosure or misrepresentation is discovered after award, the resulting contract may be terminated. The offeror may also be disqualified from subsequent related NRC contracts and be subject to such other remedial actions provided by law or the resulting contract.

(d) The offeror may, because of potential organizational conflicts of interest, propose to exclude specific kinds of work from the statements of work contained in a RFP unless the RFP specifically prohibits such exclusion. Any such proposed exclusion by an offeror will be considered by the NRC in the evaluation of proposals. If the NRC considers the proposed excluded work to be an essential or integral part of the required work and its exclusion would work to the detriment of the competitive posture of the other offerors, the proposal must be rejected as unacceptable.

(e) The offeror's failure to execute the representation required by subsection (b) above with respect to invitation for bids will be considered to be a minor informality, and the offeror will be permitted to correct omission.

#### § 20-1.5405 Contract clauses.

##### § 20-1.5405-1 General contract clause.

All contracts shall include the following clause:

#### ORGANIZATIONAL CONFLICTS OF INTEREST

(a) **Purpose.** The primary purpose of this clause is to aid in ensuring that the contractor: (1) Is not biased because of its current or planned interest (financial, contractual, organizational, or otherwise) which relates to the work under this contract, and (2) does not obtain an unfair competitive advantage over other parties by virtue of its performance of this contract.

(b) **Scope.** The restrictions described herein shall apply to performance or participation by the contractor and its affiliates or their successors in interest (hereinafter collectively referred to as the "contractor") in the activities covered by this clause as a prime contractor, subcontractor, cosponsor, joint venture, consultant, or in any similar capacity.

(c) **Work for others.** Notwithstanding any other provision of this contract, during the term of this contract, the contractor agrees to forego entering into consulting or other contractual arrangements with any firm or organization, the result of which may give rise to an actual or potential conflict of interest with respect to the work being performed under this contract. The contractor shall insure that all employees who are employed full time under this contract and employees designated as key personnel, if any, under this contract abide by the provision of this clause. If the contractor believes with respect to itself or any such employee that any proposed consultant or other contractual arrangement with any firm or organization may involve a possible conflict of interest, the contractor shall obtain the written approval of the contracting officer prior to execution of such contractual arrangement.

(d) **Disclosure after award.** (i) The contractor warrants that to the best of its knowledge and belief and except as otherwise set forth in this contract, it does not have any organizational conflicts of interest, as defined in 41 CFR § 20-1.5402(a).

(ii) The contractor agrees that if after award it discovers organizational conflicts of interest with respect to this contract, it shall make an immediate and full disclosure in writing to the contracting officer. This statement shall include a description of the action which the contractor has taken or proposes to take to avoid or mitigate such conflicts. The NRC may, however, terminate the contract for convenience if it deems such termination to be in the best interests of the Government.

(iii) In the event that the contractor was aware or should have been aware of organizational conflicts of interest prior to the award of this contract and did not disclose the conflicts to the contracting officer, the NRC may terminate the contract.

(iv) The provisions of this clause shall be included in all subcontracts and the terms "contract," "contractor," and "contracting officer" modified appropriately to preserve the Government's rights.

(e) **Access to and use of information.** (i) If the contractor in the performance of this contract obtains access to information, such as NRC plans, policies, reports, studies, financial plans, internal data protected by the Privacy Act of 1974 (Pub. L. 93-579), or data which has not been released to the

public, the contractor agrees not to: (a) Use such information for any private purpose unless the information has been released to the public, (b) compete for work for the Commission based on such information for a period of six (6) months after either the completion of this contract or the release of such information to the public, whichever is first, (c) submit an unsolicited proposal to the Government based on such information until one year after the release of such information to the public, or (d) release the information without prior written approval by the contracting officer unless such information has previously been released to the public by the NRC.

(ii) In addition, the contractor agrees that to the extent it receives or is given access to proprietary data, data protected by the Privacy Act of 1974 (Pub. L. 93-579), or other confidential or privileged technical, business, or financial information under this contract, the contractor shall treat such information in accordance with restrictions placed on use of the information.

(iii) The contractor shall have, subject to patent and security provisions of this contract, the right to use technical data it produces under this contract for private purposes provided that all requirements of this contract have been met.

(f) **Subcontracts.** Except as provided in § 20-1.5410, the contractor shall include this clause, including this paragraph, in subcontracts of any tier. The terms "contract," "contractor," and "contracting officer," shall be appropriately modified to preserve the Government's rights.

(g) **Remedies.** For breach of any of the above proscriptions against nondisclosure or misrepresentation of any relevant interest required to be disclosed concerning this contract, the Government may terminate the contract for default, disqualify the contractor for subsequent related contractual efforts, and pursue other remedies as may be permitted by law or this contract.

(h) **Waiver.** A request for waiver under this clause shall be directed in writing through the contracting officer to the Executive Director for Operations (EDO) in accordance with the procedures outlined in section 20-1.5411. If it is determined to be in the best interest of the Government, the EDO shall grant such waiver.

#### § 20-1.5405-2 Special contract provisions.

(a) If it is determined from the nature of the proposed contract that potential organizational conflicts of interest may exist, the Contracting Officer may determine that such conflict can be avoided through the use of an appropriate special contract provision. These provisions include but are not limited to:

(1) Hardware exclusion clauses which prohibit the acceptance of production contracts following a related nonproduction contract previously performed by the contractor;

(2) Software exclusion clauses;

(3) Clauses which require the contractor (and certain of his key personnel) to avoid certain organizational conflicts of interest; and

(4) Clauses which provide for protection of confidential data and guard against its unauthorized use. If appropriate, the prospective contractor may

negotiate the terms and conditions of these clauses, including the extent and time period of any such restriction.

(b) The following additional contract clause may be included as section (i) in the clause set forth in section 20-1.5404-1 when it is determined that award of a follow on contract would constitute an organizational conflict of interest.

(i) **Follow on effort.** (i) The contractor shall be ineligible to participate in NRC contracts, subcontracts, or proposals therefor (solicited or unsolicited) which stem directly from the contractor's performance of work under this contract. Furthermore, unless so directed in writing by the contracting officer, the contractor shall not perform any technical consulting or management support services work under this contract on any of its products or services or the products or services of another firm if the contractor has been substantially involved in the development or marketing of such products or services.

(ii) If the contractor under this contract prepares a complete or essentially complete statement of work or specifications, the contractor shall be ineligible to perform or participate in any contractual effort which is based on such statement of work or specifications. The contractor shall not incorporate its products or services in such statement of work or specifications unless so directed in writing by the contracting officer, in which case the restriction in this subparagraph shall not apply.

(iii) Nothing in this paragraph shall preclude the contractor from offering or selling its standard commercial items to the Government.

#### § 20-1.5406 Evaluation, findings, and contract award.

(a) The contracting officer will evaluate all relevant facts submitted by an offeror pursuant to the representation requirements of § 20-1.5404(b) and other relevant information. After evaluating this information against the criteria of 20-1.5403, a finding will be made by the contracting officer whether possible organizational conflicts of interest exist with respect to a particular offeror. If it has been determined that conflicts of interest exist, then the contracting officer shall either:

(1) Disqualify the offeror from award;

(2) Avoid or eliminate such conflicts by appropriate measures;

(3) Award the contract under the waiver provisions of § 20-1.5411.

#### § 20-1.5407 Conflicts identified after award.

If potential organizational conflicts of interest are identified after award with respect to a particular contractor,

the contracting officer determines that such conflicts do, in fact, exist and that it would not be in the best interests of the Government to terminate the contract as provided in the clauses required by § 20-1.5405, the contracting officer will take every reasonable action to avoid, eliminate, or neutralize the effects of the identified conflict.

#### § 20-1.5408 [Reserved]

#### § 20-1.5409 [Reserved]

#### § 20-1.5410 Subcontracts.

The contracting officer shall require offerors and contractors to submit a representation statement in accordance with § 20-1.5404(b) from subcontractors and consultants; except that subcontractors requiring the representation of § 20-1.5404(b) shall not be required to submit a representation statement where the subcontract is for supplies or otherwise exempted by NRC general contract provisions. The contracting officer shall include contract clauses in accordance with § 20-1.5405 in consultant agreements or subcontracts involving performance of work under a prime contract covered by this subsection.

#### § 20-1.5411 Waiver.

In the first instance, determination with respect to the need to seek a waiver for specific contract awards shall be made by the contracting officer with the advice and concurrence of the program office director and the Office of Executive Legal Director. Upon the recommendation of the contracting officer, and after consultation with the Office of the General Counsel, the Executive Director for Operations may waive the policy in specific cases if he determines that the public interest makes a waiver imperative. Such action shall be strictly limited to those situations in which: (1) The work to be performed under contract is vital to the NRC program; (2) the work cannot be satisfactorily performed except by a contractor whose interests give rise to a question of conflict of interest; and (3) contractual and/or technical review and supervision methods can be employed by NRC to neutralize or prevent the conflict from resulting in biased performance of the work. For any such waivers, the justification and approval documents shall be placed in the Public Document Room.

#### § 20-1.5412 Remedies.

In addition to such other remedies as may be permitted by law or contract for a breach of the restrictions in this subpart or for a failure to properly represent a relevant interest or for any intentional misrepresentation of any relevant interest required to be

provided by this section, the NRC may disqualify the contractor from subsequent NRC contracts.

Dated at Washington, D.C., this 18th day of January 1978.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,  
Secretary of the Commission.

## DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric  
Administration

[50 CFR Part 611]

### FOREIGN FISHING

Incidental Taking of Billfishes and Sharks in the Atlantic Ocean, Gulf of Mexico, and Caribbean Sea

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Proposed amendments to regulations.

SUMMARY: Foreign fishing regulations are being proposed for the conservation and management of billfishes and sharks in the Fishery Conservation Zone of the United States (FCZ). The intended effect is to improve the administration of fisheries over which the United States exercises exclusive fishery management authority.

DATE: Comments must be received by February 20, 1978.

ADDRESS: Comments may be submitted in writing to the Acting Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration, Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard H. Schaefer, Chief, Fishery Management Operations Division, National Marine Fisheries Service, Washington, D.C. 20235, telephone number 202-634-7454.

SUPPLEMENTARY INFORMATION: The proposed regulations would implement the provisions of the Fishery Conservation and Management Act of 1976, 16 U.S.C. 1801 et seq., as amended (Act) with respect to foreign fishing which results in the incidental catching of billfishes and sharks in the FCZ of the Atlantic Ocean, Gulf of Mexico, and the Caribbean Sea. The act provides for the management of all "fish" except "highly migratory species" which are specifically excluded from the definition of "fish." Several species of tuna are considered to be "highly migratory;" other pelagic species such as billfish and sharks are not

## PROPOSED RULES

considered to be "highly migratory" under the act. "Highly migratory species" and billfish and sharks intermingle to some extent in the FCZ and often are caught by the same gear.

A directed foreign longline fishery for tuna has been conducted in the Atlantic Ocean, the Gulf of Mexico, and the Caribbean Sea for many years. This fishery has included billfishes and sharks as well as "highly migratory" tunas, although the tunas were the major species being sought.

Regulation of billfish and sharks is complicated by the fact that the longline fishery is usually directed for tuna, and the taking of other species is essentially unavoidable because the gear is not selective. Consequently, the foreign longline fishery has been allowed to continue during the past nine months, while full consideration was given to all relevant issues and a determination was made concerning the best form of management which would be responsive to the interests of both foreign and domestic fishermen, within the framework of the FCMA.

After the effective date of these regulations, any foreign fishing vessels (as defined in 50 CFR 611.2 (q), (r), and (s)) desiring to engage in activities in the FCZ of the Atlantic Ocean and adjacent seas which result in the catching of fish (such as sharks and billfish) must first obtain a permit for that purpose. Such permits are required under § 611.3, even though such fishing vessel is rigged and fishes primarily for the purpose of taking "highly migratory" species over which the United States does not exercise exclusive fishery management authority.

The optimum yield for sharks within the FCZ has been set at 6,150 metric tons. The Preliminary Fishery Management Plan (PMP) estimates that U.S. fishermen will harvest 5,000 metric tons, leaving a surplus of 1,150 metric tons for foreign fishing of all species of sharks in the aggregate within the FCZ.

The PMP has set the optimum yield for billfishes within the FCZ at 5,153 mt. The PMP estimates that U.S. fishermen will harvest 7,636 mt. Therefore, the total allowable level of foreign fishing for these species is zero.

General requirements (specified in Subpart A of 50 CFR Part 611) would be applicable to foreign vessels in this fishery, as they are to other foreign vessels fishing within the FCZ.

An environmental impact statement concerning a PMP for Atlantic billfishes and sharks was filed with the President's Council on Environmental Quality on November 4, 1977.

NOTE.—The National Marine Fisheries Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Analysis under Executive Orders 11821, and 11949, and OMB Circular A-107.

Signed at Washington, D.C., this 19th day of January 1978.

WINFRED H. MEIBOHM,  
Associate Director.

It is proposed to add the following § 611.60 to 50 CFR Part 611:

### § 611.60 Atlantic billfishes and sharks

(a) *Purpose.* The Subpart regulates all foreign fishing conducted under a Governing International Fishery Agreement for all species of billfishes and sharks in the Fishery Conservation Zone of the U.S. in the Atlantic Ocean, Gulf of Mexico, and Caribbean Sea.

(b) *Definitions.* (1) Unless otherwise defined herein, all terms used in this Subpart will have the meanings ascribed to them in Subpart A of these regulations.

(2) The term "billfish" as used in these regulations means the following species:

Blue marlin—*Makaira nigricans*  
Longbill spearfish—*Tetrapturus pfluegeri*  
Sailfish—*Istiophorus platypterus*  
Swordfish—*Xiphias gladius*  
White marlin—*Tetrapturus albidus*

(3) The term "sharks" does not include dogfish sharks.

(4) The term "highly migratory species" means those species listed in § 611.2(v).

(c) *Authorized fishery.*—(1) *Total Allowable Level of Foreign Fishing and National Allocations.* Foreign vessels may engage in fishing only in accordance with the TALFF and national allocations for sharks specified in paragraph (2) below. The TALFF for all species of shark in the aggregate, is 1,150 metric tons.

(2) *National allocations.* Foreign vessels may engage in a directed fishery for sharks in the Atlantic Ocean and associated waters in accordance with the TALFF in paragraph (1) above and the following national allocations:

(i) Cuba: (Reserved).

(ii) Japan: (Reserved).

(d) *Prohibited species.* All species other than "highly migratory" species and sharks are prohibited species. In addition to the requirements of § 611.13, where appropriate for species other than billfish and sharks, any billfish caught on longline gear must be released with a minimum of injury by cutting the leader, or other appropriate means, without removal from the water, regardless of condition. These billfish may not be taken on board a foreign fishing vessel (unless specifically requested by a U.S. observer).

(e) *Open area.* The open area for permitted foreign fishing is that portion of the FCZ situated in the Atlantic Ocean, the Caribbean Sea, and the Gulf of Mexico. Since the FCZ does not include the territorial seas of the

U.S., no foreign fishing is permitted in the territorial sea even if for highly migratory species.

(f) *Open season.* Foreign fishing vessels may begin fishing for their national allocations of the TALFF on the effective date of these regulations. The season for sharks will remain open until a foreign nation reaches its allocation; thereafter, the same restrictions that apply to billfish will apply to sharks. It should be noted that the closure provisions in Subpart A of these regulations do not apply to this Subpart.

(g) *Additional restrictions and prohibitions.* (1) After the applicable national allocation for sharks has been reached, no specimen of shark or part thereof may be taken on board a foreign fishing vessel (unless specifically requested by a U.S. observer), and all sharks caught must be released in accordance with the requirement in paragraph (d) above.

(2) The owner or operator of a foreign fishing vessel, in order to establish that prohibited species on board were not taken in violation of U.S. law, may obtain a hold inspection from the N.F.M.S. at Venice or New Orleans, Louisiana; Key West, Florida; Mayaguez, Puerto Rico; or Norfolk, Virginia before beginning fishing operations in the FCZ, and maintain any seals so af-

## PROPOSED RULES

fixed in an unbroken condition during the time the fishing vessel is in the FCZ. The purpose of such inspection is to segregate specimens which would be prohibited if taken within the FCZ.

(3) For each shark specimen retained, or part thereof, the catch and effort fishing log (described in § 611.9(a)) must contain:

(i) Date and location (within 0.5 degree latitude and longitude);

(ii) Species and sex;

(iii) Length and girth; and

(iv) Approximate weight.

(h) *Statistical requirements.* (1) In addition to the general requirements found in § 611.9, the daily cumulative catch and effort log (described in § 611.9(a)), must contain the following information:

(i) Name of captain;

(ii) Vessel location at midday (within 0.1 degree latitude and longitude);

(iii) Number of hooks set;

(iv) Number of each species of billfish (must separate sailfish and spearfish) caught and released by date showing whether individual specimens were dead or alive;

(v) Number of sharks released, after the TALFF has been caught, showing whether individual specimens were dead or alive;

(vi) Total number and estimated ag-

gregate weight of sharks caught and retained; and

(vii) With respect to shark specimens, or parts thereof, which are retained, the information specified under paragraph (g)(3) of this section.

(2) The weekly report required by § 611.9(e) shall be supplemented by an annual report described as follows:

(i) Each nation whose fishing vessels operate in the regulatory area shall, by April 30 of the following year, report annual catch and effort statistics as follows: (A) Effort in average number of hooks fished per 24-hour period by month by area to the nearest 0.5 degree latitude by 0.5 degree longitude. (b) Catch in metric tons by month and area to the nearest 0.5 degree latitude and longitude, of sharks, and the number of billfishes captured and released by month and area to the nearest 0.5 degree latitude and longitude. Billfish must be separated by species. An additional entry must be made showing the numbers of fish which were alive at release, and the number which were dead at release. All data required under paragraph (g)(3). This report shall be submitted to:

Regional Director, National Marine Fisheries Service, Duval Building, 9450 Koger Boulevard, St. Petersburg, Fla. 33702.

### DEPARTMENT OF AGRICULTURE

#### Forest Service

#### UNION PASS PLANNING UNIT

#### Availability of Final, Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture has prepared a final environmental statement for the Union Pass Planning Unit, Bridger-Teton National Forest, Wyo., USDA-FS-FES (Adm) R4-77-03.

The proposed action is a comprehensive land management plan for the Union Pass Planning Unit, Bridger-Teton National Forest. The unit contains approximately 180,000 acres of National Forest land. Significant activities provided for in the plan are an annual timber harvest averaging about 1.5 to 2.2 million board feet and summer livestock grazing of about 30,000 cow months and 10,000 sheep months. Exploration of subsurface resources including minerals, gas, and oil is provided for. Eight inventoried roadless areas were considered for potential wilderness. Roadless areas No. 58 (Tosi-Rock Creek) and No. 59 (Twin Creek-Loomis Park) and the unroaded portion between them (Rare II No. 102-Gros Ventre) will remain in inventoried roadless area status, pending final evaluation of the entire Rare II area No. 102.

This final environmental statement was transmitted to EPA on January 16, 1978.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3210, 12th Street and Independence Avenue SW., Washington, D.C. 20013.

Regional Planning and Budget Office, USDA, Forest Service, Federal Building, Room 4120, 324 25th Street, Ogden, Utah 84401.

Forest Supervisor, Bridger-Teton National Forest, Forest Service Building, P.O.B. 1888, Jackson, Wyo. 83001.

District Ranger, Pinedale Ranger District, P.O.B. 220, Pinedale, Wyo. 82941.

District Ranger, Gros Ventre Ranger District, P.O.B. 1888, Jackson, Wyo. 83001.

A limited number of single copies are available upon request to Forest Supervisor Reid Jackson, Bridger-

Teton National Forest, Forest Service Building, P.O.B. 1888, Jackson, Wyo. 83001.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

ENAR L. ROGET,  
Acting Associate Deputy Chief.

#### Soil Conservation Service

#### ATWATER LAKES AND PARKS PUBLIC WATER-BASED RECREATION DEVELOPMENT RC&D MEASURE, MINNESOTA

#### Intent Not To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Atwater Lakes and Parks Public Water-Based Recreation Development RC&D Measure, Kandiyohi County, Minn.

The environmental assessment of this Federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Harry M. Major, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for the enhancement of public water-based recreation. The planned works of improvement will include a level channel between two lakes and the following types of basic facilities: picnic tables and grills, drinking fountains, sanitary facilities, playground equipment, and parking facilities.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by interested parties at the Soil Conservation Service, 409

Highway 23 SW., Willmar, Minn. 56201. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests.

No administrative action on implementation of the proposal will be taken until February 23, 1978.

[3410-16]

#### COUNTY ROAD 1000 SOUTH CRITICAL AREA TREATMENT MEASURE, INDIANA

#### Intent Not To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the County Road 1000 South Critical Area Treatment Measure, Vermillion County, Ind.

The environmental assessment of this Federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Buell M. Ferguson, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for critical area treatment. The planned works of improvement include construction of approximately 500 linear feet of waterway, riprap chutes, earth fill, clearing equivalent to one acre, and seeding and fertilizing disturbed areas.

The notice of intent not to prepare an environmental impact statement

has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by interested parties at the Soil Conservation Service, 185 North Vermillion Street, Newport, Ind. 47966. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests.

No administrative action on implementation of the proposal will be taken until February 23, 1978.

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program—Pub. L. 87-703, 16 U.S.C. 590a-f, q.)

Dated: January 12, 1978.

EDWARD E. THOMAS,  
Assistant Administrator for  
Land Resources, Soil Conservation Service.

[3410-16]

#### DUBOIS COUNTY CRITICAL AREA TREATMENT (TREE PLANTING) RC&D MEASURE, INDIANA

#### Intent Not To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Dubois County Critical Area Treatment (Tree Planting) Measure, Dubois County, Ind.

The environmental assessment of this Federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Buell M. Ferguson, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for critical area treatment. The planned works of improvement include planting trees and shrubs for erosion control on an estimated 100 acres of critically eroding land throughout Dubois County, Ind.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by interested parties at

the Soil Conservation Service, P.O. Box 547, Jasper, Ind. 47546. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests.

No administrative action on implementation of the proposal will be taken until February 23, 1978.

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program—Pub. L. 87-703, 16 U.S.C. 590a-f, q.)

Dated: January 12, 1978.

EDWARD E. THOMAS,  
Assistant Administrator for  
Land Resources, Soil Conservation Service.

[3410-16]

#### ELBERT SCHOOL DISTRICT CRITICAL AREA TREATMENT MEASURE, COLORADO

#### Intent Not To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Elbert School District critical area treatment measure, Elbert County, Colo.

The environmental assessment of this Federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Robert G. Halstead, State conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for control of critically eroding areas around Elbert County schools. The planned works of improvement include shaping, grading, topsoiling, and seeding approximately 3.1 acres of eroding areas. In addition, the recreation areas north of the school will be graded and seeded to provide proper drainage away from school grounds. Structural measures include a diversion and pipe-drop to safely dispose of excess water.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by interested parties at the Soil Conservation Service, 2490

West 26th Avenue, Denver, Colo. 80217. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests.

No administrative action on implementation of the proposal will be taken until February 23, 1978.

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program—Pub. L. 87-703, 16 U.S.C. 590a-f, q.)

[3410-16]

#### HEART MOUNTAIN ESTATES RC&D MEASURE, WYOMING

#### Intent Not To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Heart Mountain Estates RC&D measure, Park County, Wyo.

The environmental assessment of this Federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Frank S. Dickson, State conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for farm irrigation. The planned works of improvement include installation of about 3,500 feet of underground pipeline to deliver irrigation water to about 100 acres of irrigated land. Land treatment practices of pasture and hayland planting and management, fencing, irrigation water management, and tree planting will also be implemented.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by interested parties at the Soil Conservation Service, 100 East B Street, Room 3213, Casper, Wyo. 82602. An environmental impact

appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests.

No administrative action on implementation of the proposal will be taken until February 23, 1978.

#### [3410-16]

HULL BAY WATER-BASED RECREATION RC&D MEASURE, ESTATE HULL BAY, ST. THOMAS, U.S. VIRGIN ISLANDS

Intent Not To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality guidelines (40 CFR Part 1500); and the Soil Conservation Service guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Hull Bay water-based recreation RC&D measure, Estate Hull Bay, St. Thomas, U.S. Virgin Islands.

The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. A. H. Quintero, State conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for the construction of a boat ramp and associated parking at Estate Hull Bay Beach, St. Thomas, U.S. Virgin Islands. The planned works of improvement include the construction of a well-designed boat launching ramp and associated parking area.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by interested parties at the Soil Conservation Service, Room 633, U.S. Courthouse and Federal Building, Carlos E. Chardon Street, Hato Rey, P.R. 00918, and Soil Conservation Service, Federal Experiment Station, Kingshill, St. Croix, U.S.

Virgin Islands 00850. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests.

No administrative action on implementation of the proposal will be taken until February 23, 1978.

MADILL SCHOOL CRITICAL AREA TREATMENT MEASURE, OKLAHOMA

Intent Not To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Madill School critical area treatment measure, Marshall County, Okla.

The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Roland R. Willis, State conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for critical area treatment. The planned works of improvement include shaping and vegetation of waterways and other disturbed areas and installation of concrete channel liners in selected locations in the waterways.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by interested parties at the Soil Conservation Service, Farm Road and Brumley Street, Stillwater, Okla. 74074. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the envi-

ronmental impact appraisal are available to fill single copy requests.

No administrative action on implementation of the proposal will be taken until February 23, 1978.

OAKS PARK CANAL FARM IRRIGATION MEASURE, UTAH

Intent Not To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Oaks Park Farm irrigation canal RC&D measure, Uintah County, Utah.

The environmental assessment of this Federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. George D. McMillan, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for structural measures to improve the existing Oaks Park Canal. The planned works of improvement include 6,000 feet of irrigation pipeline; 1,360 feet of rock riprap; 3 water control structures; 5,700 feet of concrete, earth, and plastic canal lining; and 200 feet of rock excavation.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by interested parties at the Soil Conservation Service, Room 4012, Federal Building, 125 South State Street, Salt Lake City, Utah 84138. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests.

No administrative action on implementation of the proposal will be taken until February 23, 1978.

No administrative action on implementation of the proposal will be taken until February 23, 1978.

PINE LAWN PARK PUBLIC WATER-BASED RECREATION RC&D MEASURE, MINNESOTA

Intent Not To Prepare an Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality guidelines (40 CFR Part 1500); and the Soil Conservation Service guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Pine Lawn Park public water-based recreation development RC&D measure, Mower County, Minn.

The environmental assessment of this Federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Harry M. Major, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for the enlargement of public water-based recreation development in Pine Lawn Park. The planned works of improvement include picnic table and grills, picnic shelter, canoe launch area, water supply, sanitary facilities, roads, and landscaping.

The notice of intent not to prepare an environmental impact statement has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by interested parties at the Soil Conservation Service, Mower County Courthouse, Austin, Minn. 55912. An environmental impact appraisal has been prepared and sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the environmental impact appraisal are available to fill single copy requests.

No administrative action on implementation of the proposal will be taken until February 23, 1978.

CIVIL AERONAUTICS BOARD

[Docket Nos. 31682, 31685; Order 78-1-62]

AMERICAN AIRLINES, INC.

Order Dismissing Complaints Regarding Advance-Purchase Excursion and Individual Inclusive—Tour Fares Between U.S. Points and Mexico

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 16th day of January 1978.

By tariff revisions<sup>1</sup> filed to become effective December 8, 1977, American Airlines, Inc. (American), proposes reductions in the levels of its individual inclusive-tour (ITX) fares between various United States points and Acapulco/Mexico City, and introduction of new advance-purchase excursion (APEX) fares between Chicago, Detroit, Dallas-Fort Worth, and Acapulco/Mexico City. The proposed ITX fares are 0.9 to 31.2 percent below present levels and are intended—consistently with American's other U.S.-Mexico ITX fares—either to apply discounts from normal economy fares of 20 percent during weekends, and 30 percent on midweek days, or to implement levels competitive with fares which can be constructed via a point where a lower ITX fare is available. The APEX fares represent discounts from normal economy fares of 28.6 to 40.2 percent during weekends and 40.3 to 50 percent on weekdays. Salient features of the APEX fares include ticket purchase at least seven days before departure; 7/30-day minimum/maximum length of stay; and a seating capacity limitation of 20 percent each weekend and 50 percent for each midweek period.

American claims that it is proposing the APEX fares "to stimulate lagging traffic in the U.S.-Mexico market";<sup>2</sup> its experience with similar fares, notably the transcontinental "Super Saver,"

<sup>1</sup>Revisions to Tariff CAB No. 74 issued by Air Tariffs Corp., Agent. The APEX fares are to apply for travel commencing January 7, 1978.

<sup>2</sup>According to American, traffic declined by 3.4 and 7.7 percent on its own and on total U.S. scheduled service, respectively, for the first seven months of 1977 compared to the corresponding period in 1976.

has been successful; the APEX fares will alleviate weekend traffic peaking problems; the discounts proposed are similar to those in other international markets;<sup>3</sup> and both the APEX fares and ITX fare reductions can be expected to make a contribution to profits.<sup>4</sup>

Complaints requesting suspension and investigation of American's filing have been received from the National Air Carrier Association (NACA) and Air Charter Tour Operators of America (ACTOA). An answer in support of the complaints has been received from Compania Mexicana de Aviacion, S.A. (Mexicana). American has answered opposing the complaints.

NACA contends that the fares would be well below American's fully allocated costs; the Board has found, at a composite industry average load factor of 55.5 percent, such United States-Mexico costs to be roughly equal to the normal economy fare levels;<sup>5</sup> the present normal economy fare level is 9 to 10.5 cents per mile while the proposed fares are as low as 4.5 cents per mile; the proposed fares, particularly with respect to their level, are predatory and targeted against charter services. For example, the Philadelphia-Mexico ITX fares are below the corresponding advance-booking charter (ABC) prices currently being offered; the fares offer greater flexibility to the public than do charters. For instance, the APEX fares have only a seven-day advance-purchase requirement compared to 30 days under existing rules and 15 days under the "interim" rules<sup>6</sup> for ABC's; this advantage is in addition to the inherently greater flexibility in choosing departure and return dates which scheduled services offer; many U.S.-Mexico normal economy fare passengers are not now receiving the service quality implicit in a 55.5 percent load factor because of higher load factors and sold-out flights during weekends and peak travel months; and, insofar as the proposed fares would generate new traffic, normal economy passengers would be further inconvenienced and face an even greater possibility of sold-out flights, particularly since discount fare passengers tend to purchase seats further in advance than do normal fare passengers.

<sup>3</sup>American cites the New York-Mexico ITX and New York-London APEX fares at discounts of 50-59 percent.

<sup>4</sup>The carrier projects a total annual profit improvement from the proposals of about \$870,000, using the profit-impact test (i.e., incremental costing) and assuming generation/diversion ratios of 41/59 and 28/72 for the APEX and ITX fares, respectively.

<sup>5</sup>Order 77-4-132, April 26, 1977.

<sup>6</sup>SPDR-61 (Interim Liberalization of Charter Rules, Docket 3150), October 14, 1977.

ACTOA addresses only the APEX fare proposal. ACTOA states that the APEX fares, as part of an American campaign to eliminate charter tour operators, are specifically aimed at Elkin Tours, Inc. (Elkin), a principal operator in the Midwest; American has quoted Detroit-Acapulco/Mexico City per-seat charter prices to Elkin higher than the proposed APEX fare's yield; should American's generation estimates be realized, flights would be full every Saturday and Sunday during eight months of the year and preemption of higher-fared passengers would be inevitable; the value of service proposed is not significantly less than that of higher-level fares; the advance-purchase and length-of-stay requirements are distinctions without a difference since the traffic in question is primarily composed of vacationers and there are no cancellation penalties; and American is willing, in the short run, to experience substantial diversion from higher-level fares and revenue dilution "in the interest of destroying charter competition."

Mexicana, answering in support of both complaints, contends that American is now carrying "an ample volume of passengers in relation to its capacity"; introduction of new and deeper discounts is not a proper solution, even if American cannot achieve a satisfactory rate of return with such traffic; American, however, has not suggested that its present earnings are insufficient; American's use of its May-July 1977 domestic transcontinental "Super Saver" fare experience for generation/diversion estimates of its United States-Mexico fare proposals is inappropriate and insufficient; the proposed levels are similar to those of American's "assembly" group inclusive-tour (GIT) fare proposal, which the Board suspended pending investigation, noting that American had not shown the inadequacy of the existing individual inclusive-tour fares (Order 76-12-102); American has made no such showing in the instant case; should the proposed fares be permitted to become effective, competing carriers would have no alternative but to propose further discounts; and a proliferation of such fares is ultimately "contrary to the public interest since it can only be expected to lead to the deterioration of service and safety."

In answer, American alleges that scheduled-service carriers have a right to compete with supplemental carriers; supplementals do not have a substantial stake in U.S.-Mexico charters; the APEX fares cannot damage tour operators since they have as much opportunity to profit from scheduled as from charter services, and with no risk; supplementals' charter rates are much lower than either American's charter rates or the APEX fares; the

APEX fares' per-mile yields are comparable to those of the "Super Saver" and transatlantic Budget and APEX fares; American does not plan to add capacity to accommodate traffic generated by the APEX fares, which thus meet long- as well as short-run marginal costs while contributing to capacity costs; Order 77-4-132 shows American's average U.S.-Mexico operating costs (including first-class service) at only 6.8 cents per revenue passenger-mile, and the average per-mile yields of the APEX and ITX fares are, respectively, 71 and 94 percent of that figure; and the greater discounts on weekdays will reduce weekend load factors and hence improve the quality of service for normal fare passengers.

The Board has decided to dismiss the complaints.

We have frequently stated our determination to allow the maximum fare competition economically feasible and our reluctance to interfere with competitive actions where the proposed fares may improve the economics of scheduled service. At present, we believe that tour operators and charter carriers can adjust to new circumstances by making suitable competitive responses in turn, especially in view of our recent liberalization of charter rules. For this reason, we will continue to follow a policy of permitting scheduled-service carriers wide latitude in competing with charter services. Should subsequent developments indicate that this policy is producing undesirable results for the industry as a whole, we will of course take remedial measures.

American does not refute the charge that it has quoted per-seat charter prices to Elkin which are virtually the same as the proposed APEX fare level. However, American states that it did not get Elkin's business. Our investigation indicates that, rather, Elkin is contracting Chicago-Acapulco one-stop inclusive-tour charters (OTC's) with World Airways, Inc., whose per-seat prices are \$40 to \$70 below the Chicago-Acapulco APEX midweek level. In addition to the differential in the cost of the air transportation, the OTC's, because of their required ground accommodations, provide another element for profit to the tour organizer.

The APEX and ITX fares at issue do show a potential for improving the economics of scheduled service, from the standpoint of both the traveler and the carrier. We are not convinced that these fares would significantly inconvenience normal fare or higher-

\*Appendix C, American's forecast under the then-proposed fares (as adjusted by the Board) for the year ending April 1978 indicates \$38,250,000 total operating expenses and \$62,542,000 revenue passenger-miles.

rated fare passengers.\* Moreover, the lower levels and greater availability of the APEX fares during midweek periods may well promote a more even distribution of traffic between weekends and weekdays and so contribute to the efficiency of the carrier's operations. Such a traffic shift can reduce weekend load factors and the possibility of higher-fared passengers being denied reservations thus upgrading the quality of service for those passengers who continue to opt for weekend travel. In this connection, American's data indicate that, for the year ended July 1977, the carrier experienced average midweek and weekend load factors of about 56 and 70 percent, respectively, in its Chicago-Acapulco/Mexico City nonstop service—the most dense service in question. Based on the carrier's 41 percent generation estimate for the APEX fares, and even assuming that all seats available for APEX travel on all flights are occupied by passengers using that fare, an average of 24 percent (midweek) and 22 percent (week-end) of available seats would remain unoccupied. Of course, this does not consider traffic peaking, but neither does it consider the possible traffic shifts caused by the peak-off peak character of the fares.

Finally, the fares cover noncapacity costs and make a contribution to capacity costs. To the extent that these fares generate new traffic and fill otherwise empty seats, therefore, they will improve the carrier's financial position.

Accordingly, it is ordered, that the complaints of the National Air Carrier Association, in Docket 31682, and Air Charter Tour Operators of America, in Docket 31685, be dismissed.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.\*

PHYLLIS T. KAYLOR,  
Secretary.

(FR Doc. 78-2022 Filed 1-23-78; 8:45 am)

#### [6320-01]

(Docket Nos. 31564, 31572; Order 78-1-78)

#### POLSKIE LINIE LOTNICZE

Order Vacating Suspension Regarding Transatlantic Super-APEX, GIT and Special-APEX Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 9th day of January 1978.

\*Unlike the suspended Hawaii GIT fares (Order 77-9-23, September 8, 1977) which involved groups of 50, the APEX fares are individual and subject to a maximum seat allocation of 20 percent on the weekend. The threat of significant numbers of ticketed passengers being denied reservations is therefore much less.

\*All Members concurred.

By Order 77-10-139, October 25, 1977, and Order 77-11-58, November 4, 1977, the Board suspended, pending investigation, super-APEX, group inclusive tour fares and "Special" advance purchase excursion fares proposed by Polskie Linie Lotnicze (LOT) for use between the United States, on the one hand, and Poland, on the other. The Board stated that it was suspending the fares because the United States had been unable to secure an ad hoc agreement with Poland which would permit us to suspend the fares after they became effective, and in those circumstances, failure to suspend the fares before they became effective, might foreclose any future action by this Government with regard to such fares between the United States and Poland.

On December 29, 1977, the Government of Poland signed an ad hoc agreement confirming the right of the United States to take action against the super-APEX, group inclusive tour fares and "Special" advance purchase excursion fares after they became effective. Thus there is no reason for LOT's fares to Poland and other countries whose Governments have signed appropriate ad hoc agreements to remain under suspension, and this order will vacate our previous action in that respect.

Accordingly, pursuant to sections 102, 204(a), 403, 801, and 1002(j) of the Federal Aviation Act of 1958, it is ordered, That:

1. Order 77-10-139 is vacated insofar as it suspends and investigates Advance Purchase Excursion Fares as follows:

A. PASSENGER FARES TARIFF NO. PF-4, CAB No. 44, ISSUED BY AIR TARIFFS CORP., AGENT

Fares and provisions in tables 23, 104, 143 to/from Poland applicable to Pan American, K.L.M., Lufthansa, Polskie Linie Lotnicze, and Swissair.

B. INTERNATIONAL PASSENGER FARES TARIFF No. 4, CAB No. 22, ISSUED BY JOHN M. SAMPSON, AGENT

The fares and provisions in section 40 to/from Warsaw, Poland, applicable to British Airways.

\*We will also vacate the suspension of matching tariffs to Poland filed by British Airways, Pan American World Airways, Inc., Trans World Airlines, Inc., K.L.M. Royal Dutch Airlines, Deutsche Lufthansa Aktiengesellschaft, and Swissair, Swiss Air Transport Co., Ltd.

C. INTERNATIONAL LOCAL AND JOINT PASSENGER FARES TARIFF NO. F-9, CAB No. 37, ISSUED BY TRANS WORLD AIRLINES, INC.

On 21st Revised Page 170 and 25th and 26th Revised Pages 172 the fares and provisions to/from Warsaw, Poland.

2. Order 77-11-58 is vacated insofar as it suspends and investigates advance purchase excursion fares and provisions in rule 171 and table 385 and group inclusive tour fares and provisions published in rule 167 and table 386 of Passenger Fares Tariff No. PF-4, CAB No. 44, issued by Air Tariffs Corp., agent;

3. This order shall be submitted to the President\* and shall be effective on January 19, 1978; and

4. Copies of this order shall be filed in the above tariffs and served upon Pan American World Airways, Inc., Trans World Airlines, Inc., Polskie Linie Lotnicze, Deutsche Lufthansa Aktiengesellschaft, K.L.M. Royal Dutch Airlines, SWISSAIR, Swiss Air Transport Co., Ltd., British Airways Board carrying on business under the firm name and style of British Airways, and the National Air Carrier Association.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,\*  
Secretary.

(Order 78-1-68; Docket 30777; Agreement C.A.B. 27084 R-1 through R-12)

#### IATA

Agreement Relating To Free Baggage Allowances and Excess-Baggage Charges

Issued under delegated authority January 17, 1978.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the Joint Traffic Conferences of the International Air Transport Association (IATA). The agreement, limited in nature, was adopted at the Special Resolution 001p Baggage Meeting held in Hollywood, Fla. on December 2,

\*This order was submitted to the President on January 11, 1978. All Members concurred.

1977, and was filed with the Board on January 3, 1978.

The agreement, proposed for effect February 1, 1978, through March 31, 1979, would establish new free-baggage allowances and excess-baggage charges for passenger air transportation between Canada, on the one hand, and Europe (excluding Czechoslovakia, Spain and Yugoslavia), Israel, South Africa, South West Africa, Lesotho, Botswana, Swaziland, Umtata and Rhodesia, on the other.

The proposed allowances and charges are based on a piece system (rather than a weight system) like that established for transportation between the United States and various world points as conditioned and approved by the Board by Order 77-4-97, April 20, 1977. Under the proposed free allowances, first-class passengers would be permitted two checked pieces of 62 inches (length plus width plus depth) each; economy-class passengers could check two pieces, either of which could be as large as 62 inches provided that their total does not exceed 107 inches; passengers of either class would be permitted a carry-on piece of no more than 45 inches provided that it could be stowed in the underseat space.

Excess-baggage charges, for oversized and/or additional pieces, would be levied on a per-piece basis at amounts varying with origin and destination. From Montreal, for example, the charges for an excess piece would be \$30 to Ireland, \$40 to France, \$68 to Israel, and \$75 to the southern Africa countries. The agreement also provides for special treatment of such items as bicycles and golf, ski, and camping equipment.

We will approve the agreement, which governs conditions and charges which are combinable with conditions and charges to/from United States points and thus has indirect application in air transportation as defined by the Act, since the provisions and charges embodied in the agreement are virtually identical to those which the Board found acceptable in Order 77-4-97.

Pursuant to authority duly delegated by the Board's Regulations, 14 CFR 385.14, it is not found that the following resolutions, which have indirect application in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act:

\*These amounts are expressed in U.S. dollars. The Canadian dollar amounts are slightly higher.

Agreement C.A.B.	IATA No.	Title	Application

R-12.....	311e.....	Charges for Bulky Baggage to/from Canada (New) (Expedited).	Do.

Accordingly, it is ordered, That: Agreement C.A.B. 27084, R-1 through R-12, be approved.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,  
Secretary.

##### DEPARTMENT OF COMMERCE

###### Industry and Trade Administration

###### ELECTRONIC INSTRUMENTATION TECHNICAL ADVISORY COMMITTEE

###### Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (1976 ed.), notice is hereby given that a meeting of the Electronic Instrumentation Technical Advisory Committee will be held on Wednesday, February 8, 1978, at 9:30 a.m. in Room B841, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

The Electronic Instrumentation Technical Advisory Committee was initially established on October 23, 1973. On October 7, 1975, and October 21, 1977, the Assistant Secretary for Administration approved the recharter and extension of the Committee pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. section 2404(c)(1), and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration with respect to questions involving: (A) Technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which may affect the level of export controls applicable to electronic instrumentation, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls.

The Committee will meet only in executive session to discuss matters properly classified under Executive Order 11652, dealing with the United States and COCOM control program and strategic criteria related thereto.

Written statements may be submitted at any time before or after the meeting.

The Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the general counsel, formally determined on October 21, 1977, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended by section 5(c) of the Government in the Sunshine Act, Pub. L. 94-409 that the matters to be discussed in the executive session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the executive session will be concerned with matters listed in 5 U.S.C. 552(c)(1). Such matters are specifically authorized under criteria established by an Executive order to be kept secret in the interests of the national defense or foreign policy. All materials to be reviewed and discussed by the Committee during the meeting have been properly classified under Executive Order 11652. All Committee members have appropriate security clearances.

For further information, contact Mr. Charles C. Swanson, Director, Oper-

ations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone area code 202-377-4196.

The complete notice of determination to close meetings or portions thereof of the series of meetings of the Electronic Instrumentation Technical Advisory Committee and of any subcommittees thereof was published in the FEDERAL REGISTER on October 28, 1977 (42 FR 56767).

Dated: January 20, 1978.

RAUER H. MEYER,  
Director, Office of Export Administration, Bureau of Trade Regulation, U.S. Department of Commerce.

##### National Bureau of Standards

###### COBOL COMPILER VALIDATION IN SUPPORT OF FEDERAL INFORMATION PROCESSING STANDARD 21-1

Under the provisions of Pub. L. 89-306 and Executive Order 11717, the Secretary of Commerce is authorized to establish uniform Federal automatic data processing (ADP) standards. Federal Information Processing Standards Publication (FIPS Pub) 21-1 specifies Federal standard COBOL. The standard defines the elements of the COBOL programming language and the rules for their use.

In the November 14, 1975, issue of the FEDERAL REGISTER (40 FR 53013), the General Services Administration (GSA) published a new regulation which added to 41 CFR Subpart 101-32.15 a new subsection 101-32.1305-1a, Validation of COBOL Compilers. GSA established the policy for testing COBOL compilers to support the requirement in FIPS Pub 21-1 regarding the implementation of Federal stan-

dard COBOL. This, in effect, requires Federal agencies to ensure that all COBOL compilers that are brought into the Federal inventory are tested to confirm that they meet a designated level of the Federal standard COBOL.

The term validation is used in this context as the process of testing a given COBOL compiler against predetermined conditions and specifying which, if any, conditions are not met. To confirm that an implementation meets the specification of a designated level of Federal standard COBOL, test routines have been developed and approved for use in testing COBOL compilers. These routines make up the COBOL compiler validation system (CCVS). A Federal COBOL Compiler Testing Service (FCCTS) also has been established to provide a validating service for the Federal agencies. The FCCTS is sponsored by the Department of Defense (DOD) under delegation of authority from the National Bureau of Standards (NBS). The FCCTS is responsible for the development and maintenance of the CCVS necessary to support the validation of the various versions of Federal standard COBOL. They are also responsible for conducting the validation of all COBOL compilers brought into the Federal inventory.

The purpose of this announcement is to identify a new official version of the 1974 CCVS (version 3.0) currently being used by FCCTS in discharging its responsibilities under the above-mentioned delegation of authority from NBS.

##### COBOL COMPILER VALIDATION SYSTEM

The 1974 COBOL compiler validation system is being released in increments. Version 1.0 of the 1974 CCVS which was released in November 1975 contained all the language elements included in the low-intermediate level of FIPS Pub 21-1 COBOL (see FIPS Pub 21-1 for information regarding the contents of the various levels of Federal standard COBOL). Version 2.0 of the 1974 CCVS was released in February 1977 and announced in the April 13, 1977, issue of the FEDERAL REGISTER (42 FR 19364) as the official CCVS to be used in validation of all COBOL compilers brought into the Federal inventory. It contained all elements of FIPS Pub 21-1 except for the arithmetic expressions of the nucleus module, the ENTER statement of the nucleus module, and the entire communication module.

Version 3.0 of the 1974 CCVS was released in October of 1977. Included in version 3.0 are all of the corrections identified through temporary program fixes issued for version 2.0. Also included in version 3.0 are the audit routines necessary to determine the degree to which a COBOL compiler

flags the language elements contained in the various levels of Federal standard COBOL as defined in FIPS Pub 21-1. Excluded from version 3.0 are arithmetic expressions of the nucleus module, the ENTER statement of the nucleus module and the entire communication module. This version is now the officially recognized version of the 1974 CCVS and will be used in future validations of COBOL compilers.

The COBOL compiler validation systems are available from the National Technical Information Service. Address: National Technical Information Service, U.S. Department of Commerce, 5285 Port Royal Road, Springfield, Va. 22161, telephone 703-557-4650.

FIPS PUB 21-1 COBOL COMPILER VALIDATION SYSTEM VERSION 3, RELEASED 0 (CCVS74 3.0)

##### Title, Ordering No. and Price

1974 COBOL Compiler Validation System Version 3.0 Implementation Documentation (Users Guide), ADA046601, \$15.  
1974 COBOL Compiler Validation System Version 3.0 (tape), ADA046600, \$550.

The COBOL compiler validation systems will be updated biannually. These updates will be announced in a FEDERAL REGISTER notice as the current version of the CCVS used as the basis for validating COBOL compilers. The update process will be used to correct errors identified in the systems and to introduce new or modified programs as appropriate. The Federal standards do not change per se but a validation system should be periodically modified to ensure that compilers are being built according to the technical specifications in the standard, not the validation systems. Should an interpretation be made that would affect the validation systems, these changes would be reflected also during the update process.

##### OBTAINING VALIDATION SERVICES

The NBS-DOD agreement covers cost-reimbursable tests requested by vendors wishing to have a compiler validated for their own purposes; vendors wishing to have a compiler validated in response to a Government request for proposals; Government agencies involved in a procurement; or Government agencies wishing to validate a compiler already in use.

The raw data produced during the validation process will be reviewed by the FCCTS, which will prepare a validation summary report (VSR) for initial dissemination to the requester. If the requested validation has previously been performed on a similar computer configuration, the validation run need not be repeated, and the earlier VSR will be provided to a requester. The VSR will classify a compiler according to each level of the Federal COBOL standard which it has met. A

request for validation services form may be obtained by writing to or calling: Director, Federal COBOL Compiler Testing Service, Department of the Navy, Washington, D.C. 20376, telephone 202-697-1247.

The request form identifies the service required (validation summary report, validation for a compiler not yet tested, FIPS Pub 21 or FIPS Pub 21-1, etc.), and appropriate supporting information, including a point of contact in the requesting agency, compiler and related operating system identification, machine make and model number, and special requirements, if any. If the request is for a validation, a compiler validation manager will be assigned by the FCCTS to process the request. The assigned individual will contact the requesting agency to make the appropriate arrangements, and, if necessary, obtain appropriate documentation. (The requester must provide the facilities for performing the validation.)

An estimate of expenses will be provided to the requester for approval prior to a validation. The approval and, if applicable, an appropriation accounting number should be given as promptly as possible to the FCCTS.

Upon completion of the validation, a VSR will be compiled from the raw data and forwarded to the requester.

Dated: January 19, 1978.

ERNEST AMBLER,  
Acting Director.

##### National Oceanic and Atmospheric Administration

###### MARINE MAMMALS

###### Receipt of Application for a General Permit

Notice is hereby given that the following applications have been received to take marine mammals incidental to the course of commercial fishing operations as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407) and the regulations thereunder.

United Fishermen of Alaska, Box 1352, Juneau, Alaska 99802, has applied for general permits under Categories 3: "Encircling Gear, Purse Seining not Involving the Intentional Taking of Marine Mammals;" 4: "Stationary Gear;" 5: "Other Gear;"

The National Federation of Medium Trawlers, Showa Kaikan, 3-2, Kasumigaseki 3, Chiyoda-ku, Tokyo, Japan, has applied for a Category 1: "Towed Or Draggd Gear" general permit;

Japan Deep Sea Trawlers Association, Daito Bldg., 6/F, Ogawa-cho, 3-6 Kanda, Chiyoda-ku, Tokyo, Japan, has applied for a Category 1: "Towed Or Draggd Gear" general permit; and

The North Pacific Longline—Gillnet Association, Zenkeiren Bldg., 7 Hirakawa-cho 2, Chiyoda-ku, Tokyo, Japan, has applied for a Category 5: "Other Gear" general permit.

The applications are available for review in the office of the Assistant Administrator for Fisheries, National Marine Fisheries Service, Washington, D.C. 20235.

The application received from the United Fishermen of Alaska is available for review in the Office of the Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99802.

Interested parties may submit written views on this application on or before February 13, 1978 to the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

Dated: January 18, 1978.

ROLAND FINCH,  
Acting Deputy Assistant Director  
for Fisheries Management.

## DEPARTMENT OF ENERGY

Economic Regulatory Administration

### OIL AND GAS PRODUCERS

Inquiry on Financial Accounting Standards

AGENCY: Department of Energy.

ACTION: Notice of inquiry.

**SUMMARY:** The Department of Energy (DOE) intends to submit comments to the Securities and Exchange Commission (SEC) on whether the SEC should adopt Statement of Financial Accounting Standards No. 19, Financial Accounting and Reporting by Oil and Gas Producing Companies (Statement No. 19), developed by the Financial Accounting Standards Board (FASB) or some alternative accounting standards as the uniform accounting practices which the Energy Policy and Conservation Act required the SEC to develop. The DOE's comments will be directed at the impact of adoption of FASB Statement No. 19 on competition in the oil and gas production sector of the petroleum industry, the impact on oil and gas exploration, development, and production, and the impact on the Financial Reporting System being developed by the Energy Information Administration of the DOE. The purpose of this notice is to request comments on these issues from interested persons to assist the DOE in formulating its position on FASB Statement No. 19.

**DATES:** Comments by February 23, 1978, 4:30 p.m. Hearing date: February 21, 1978, 9:30 a.m.; requests to speak by February 9, 1978; 4:30 p.m.

**ADDRESSES:** All comments to and requests to speak to: Office of Regulations Management, Box RF, Room 2214, Department of Energy, 2000 M Street NW., Washington, D.C. 20461.

Hearing location: Room 3000A, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

### FOR FURTHER INFORMATION CONTACT:

Robert C. Gillette (Hearing Procedures), Room 2222A, 2000 M Street NW., Washington, D.C. 20461, 202-254-5201.

Ed Vilade (Media Relations), Room 3104, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, 202-566-9833.

Michael Paige (Office of General Counsel), Room 5134, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, 202-566-9565.

Gregory Crowell (Economic Regulatory Administration), Room 8125A, 2000 M Street NW., Washington, D.C. 20461, 202-254-8641.

Stuart W. Ray (Office of Policy and Evaluation), Room 3530, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, 202-566-7425.

### SUPPLEMENTARY INFORMATION:

#### I. BACKGROUND

- A. FASB statement No. 19.
- B. Basis for DOE comments.

#### II. GENERAL INFORMATION SOUGHT

- A. Competition issue.
- B. Energy supply issues.
- C. Supplemental information requested in appendix.
- D. Financial reporting system issues.
- E. DOE comments to the SEC.

#### III. COMMENT PROCEDURES

- A. Written comments.
- B. Public hearing.

#### I. BACKGROUND

Section 503 of the Energy Policy and Conservation Act, Pub. L. 94-163 (EPCA), requires the SEC to assure the development and observance of accounting practices to be followed in the preparation of accounts by persons engaged in the production of crude oil or natural gas in the United States. A deadline of December 22, 1977, was established for the development of these accounting practices. However, the EPCA permits the SEC to rely on accounting practices developed by the FASB, after consideration of comments from interested persons on whether it ought to adopt the FASB-recommended accounting practices, if the SEC is assured that such practices will be observed by affected parties to the same extent as if the SEC had prescribed such practices by rule. If FASB-developed standards are relied on, the EPCA permits the SEC additional time beyond December 22,

1977 for development of the required accounting practices.

#### A FASB STATEMENT NO. 19

The two most widely followed accounting practices for oil and gas producers are the so-called "successful efforts" and "full cost" methods. Their principal difference lies in the prescribed methods of determining which exploration expenditures are capitalized. On December 5, 1977, the FASB, in Statement No. 19, adopted the successful efforts, and rejected the full cost, method of accounting for oil and gas producers. As described by the FASB, successful efforts accounting was adopted because it was consistent with the "present accounting framework" and would enable financial statements to reflect risk and unsuccessful results more accurately. Sections 146 and 147 of Statement No. 19 discuss the two methods of accounting:

146. Present accounting concepts place boundaries on the assets to be accounted for—boundaries determined by the transaction in which the asset was acquired, by physical attributes of the asset, by legal attributes of the asset, or by the way in which the asset is used. Full costing aggregates all oil and gas reserves within very broad cost centers (countries or continents), wherever those reserves may be located on the cost center and whenever discovered, and accounts for that aggregation as a single asset. All acquisition, exploration and development costs incurred in that cost center are deemed to be the cost of the aggregate asset, even if those costs relate to activities that are known not to have been successful in acquiring, discovering, or developing reserves.

147. The successful efforts method, on the other hand, circumscribes the boundaries of, and accounts separately for, individual assets. . . . Only those exploration and development costs that relate directly to specific oil and gas reserves are capitalized; costs that do not relate to specific reserves are charged to expense. The successful efforts method of accounting conforms to the traditional concept of the historical cost of an asset.

The FASB identified 214 companies in the "petroleum and natural gas extraction" Standard Industrial Classification the securities of which were registered with the SEC. Of these, the FASB identified 79 companies which derived more than 50 percent of their revenues from exploration and production, thereby excluding virtually all the major integrated companies from the group. Of the 79 companies, the FASB identified 32 companies which used the successful efforts method of accounting and 47 which used the full cost method.

On December 22, 1977, the SEC announced that it would solicit comments and hold public hearings on whether the Commission should exercise its discretion to recognize or otherwise rely on the accounting practices

developed by the FASB in order to meet the requirements of the EPCA.

#### B. BASIS FOR DOE COMMENTS

The DOE intends to comment to the SEC on whether that agency ought to adopt the accounting practices developed by the FASB. The basis for the DOE's determination in this regard is as follows. First, section 503(a) of the EPCA requires the SEC to consult with the Federal Energy Administration, the functions of which have been assumed by the DOE, in the development of the accounting practices for producers required pursuant to the EPCA. In addition, section 205(h)(1)(B)(3) of the Department of Energy Organization Act, Pub. L. 95-91 (DOE Act), requires consultation between the DOE and the SEC for accounting standards to be used in the preparation of the Financial Reporting System under development by the Energy Information Administration. Further, the DOE has a mandate under section 102(12) of the DOE Act to "foster and assure competition among parties engaged in the supply of energy and fuels." In this regard, section 4(b)(1)(D) of the Emergency Petroleum Allocation Act of 1973 requires the DOE, to the maximum extent practicable, to provide for the "preservation of an economically sound and competitive petroleum industry; including the priority needs to restore and foster competition in the producing . . . [sector] of such industry . . ."

Finally, among the objectives of the DOE Act are "to promote the interests of consumers through the provision of an adequate and reliable supply of energy at the lowest reasonable cost" (§ 102(8)); "to assure to the maximum extent practicable, that the productive capacity of private enterprise shall be utilized in the development and achievement of the policies and purposes of [the] Act" (§ 102(14)); and "to foster insofar as possible the continued good health of the Nation's small business firms . . . involved in energy production . . ." (§ 102(17)). Consequently, the DOE is particularly concerned that any required accounting practices for producers not have the effect of inhibiting access into the capital markets for exploration funds, and thereby possibly tending to lessen overall domestic energy supplies.

The SEC is required to consider how the adoption of any rules or regulations would impact competition. Section 23(a)(2) of the Securities Exchange Act of 1934, as amended, requires that:

The Commission, in making rules and regulations pursuant to any provisions of this title, shall consider among other matters the impact any such rule or regulation would have on competition. The Commission shall not adopt any such rule or regula-

tion which would impose a burden on competition not necessary or appropriate in furtherance of the purposes of this title.

With regard specifically to competition, the FASB stated its view that:

. . . far from inhibiting competition, the removal of one of two significantly different optional alternative methods of accounting in similar situations will facilitate competition. The weight of the evidence before the Board is that independent oil and gas production companies using successful efforts accounting do compete successfully and conduct effective exploration production programs that they are able to finance through a variety of capital sources." (Statement No. 19, para. 174, p. 85.)

The SEC does not have a specific statutory mandate to consider the impact of its determination in this matter on energy supplies. However, the FASB did consider economic issues during the development of Statement No. 19 and concluded that an accounting method should not be mandated with the intention of influencing investors' decisions, regardless of how economically desirable the expected results might be. The FASB stated that:

To the extent that furtherance of competition in oil and gas exploration and production and the availability of increased capital resources to finance those efforts are perceived as national economic or policy goals and in the interest of the general public, those goals can best be fostered—and the likelihood of their attainment substantially increased—if all competitors disclose financial data in a marketplace free from the burdens of inconsistency, non-comparability, and misunderstanding, a marketplace in which risks and rewards are reported as objectively and as evenhandedly as possible. (Statement No. 19, para. 172, p. 84.)

Additional information concerning the development of Statement No. 19 can be found in the Statement of Financial Accounting Standards No. 19 published by the FASB in December 1977, the Discussion Memorandum and Exposure Draft which led to the development of Statement No. 19, and the related SEC releases.

#### II. GENERAL INFORMATION SOUGHT

The DOE intends to assess the effect of the adoption of FASB Statement No. 19 on competition between parties engaged in the production of oil and natural gas, on the ability of those parties to explore for and produce oil, natural gas and other energy supplies, and on the Financial Reporting System (FRS) under development by the Energy Information Administration. In addition, the DOE intends to assess whether or not adoption of any other alternative accounting practices would serve better to promote competition and enhance energy supplies or would be more compatible with the objectives of the FRS.

Information which would be of assistance to DOE in making its assessment

would include: (1) estimates of the effect, if any, of the adoption of FASB Statement No. 19 on the consolidated and unconsolidated financial statements of the respondents of how the adoption of Statement No. 19 might affect the ability of the respondents to raise or gain access to sources of capital; (2) estimates of the likely future impact of the adoption of FASB Statement No. 19 on oil and gas exploration and development activity and the basis for any such estimates; and (3) the utility of the accounting methods set forth in FASB Statement No. 19 as they relate to the collection and use of data by the FRS. Comments on these general issues are requested both from companies engaged actively in oil and gas exploration and production and from lenders and investment banking firms that are involved in financing such activities.

#### A. COMPETITION ISSUE

Many of those who provided written submissions to the FASB during the development of Statement No. 19 and to the SEC in response to its proposed rulemaking of August 31, 1977, stated that adoption of the successful efforts method of accounting as the only method of financial reporting would limit competition in the oil and gas producing industry. Some of the respondents stated that companies now using the full cost method of accounting for financial reporting, but required to adopt the successful efforts method proposed in FASB Statement No. 19, would report lower net income, reduced net worth and, as a result, would have a more limited ability to raise capital. Some of these respondents felt that a more limited access to the capital markets would result in lower levels of exploration activity by companies now using the full cost method of accounting and would hinder entry into the market.

To assess properly the probable impact of adoption of Statement No. 19 on certain firms' access to the capital markets, and the resulting potential effects on competition, the DOE will need to be advised for these firms as to the magnitude of the changes in reported net income, value of oil and natural gas assets, net worth and rate of return on total capitalization which would be caused by the adoption of the successful efforts accounting method. In addition the DOE invites comments as to whether alternative accounting procedures would prove more beneficial to competition in the exploration and development sector of the petroleum industry. The DOE will also need information as to the sources and amounts of capital obtained in the past and projected to be needed for exploration and development activities.

All respondents are invited to comment on these issues with respect to

their individual companies or the industry as a whole. The DOE also requests the submission of any analyses or studies, particularly those which provide information as to oil and gas producer financing patterns by method-of-accounting category of company, size of company, functional activity, and geographical area of operations. The DOE solicits comments estimating the effects of adoption of FASB Statement No. 19 on the market prices for the respondent's equity and debt securities. Analyses that address the effects on stock prices of changes in accounting methods, reported earnings and balance sheet values on a statistical basis would also be of assistance. Comments are requested on this last point in particular from lenders and investment banking firms.

#### B. ENERGY SUPPLY ISSUES

The manner in which the adoption of FASB Statement No. 19 would affect energy supplies is closely related to the question of access of affected firms to the capital markets.

Many of the proponents of full cost accounting state that adoption of FASB Statement No. 19 would make it difficult for them to raise capital because their reported earnings and net worth would be reduced under that accounting method. Some of these proponents have stated that they would reduce exploration expenditures and change their exploration strategy to emphasize less risky projects. Other companies using the full cost method of accounting have stated publicly that adoption of FASB Statement No. 19 would not cause a change in exploration expenditures or strategy.

In order to assess these statements, the DOE will attempt to evaluate the relationship between oil and gas exploration and production activities, methods of accounting, type and size of company, and geographical area of operation. Each respondent is invited to submit any information or studies which will assist the DOE in making its assessment on the energy supply issues.

#### C. SUPPLEMENTAL INFORMATION REQUESTED IN APPENDIX

Specific types of financial and other data which would be of assistance to DOE with respect to the potential impact of the adoption of FASB Statement No. 19 on competition among oil and gas producers and on energy supplies are set forth in the Appendix to this notice.

The specific information detailed in the Appendix concerning these issues will assist the DOE in formulating its position on Statement No. 19, but DOE's request therefor should not preclude any respondent from presenting such information in greater or lesser detail, or in summary form, or

## NOTICES

from presenting other information which might be helpful to DOE in its deliberations on this issue. To the extent that any financial statements submitted also contain other specific information requested by the DOE, the respondent should so indicate in its submission.

#### D. FINANCIAL REPORTING SYSTEM ISSUES

The DOE Act requires that, to the extent practicable and consistent with the purposes and provisions of that Act, accounting practices used in the Financial Reporting System be consistent with accounting practices developed by the SEC pursuant to the requirements of the EPCA.

Respondents should address comments to the need for uniform accounting practices for the FRS in order for that system to present a "statistically accurate profile of each line of commerce in the energy industry in the United States." (DOE Act, Section 205(h)(1)(A)). Such analyses should consider whether, if adopted, the accounting methods required by FASB Statement No. 19 would enable the FRS to present a more accurate financial profile of the oil and gas producing sector of the energy industry than would be possible were that accounting method not required for all reporting firms.

The FRS will provide the DOE with data and reports which will allow comparisons on a uniform and standardized basis among energy producing companies. These data and reports may be used in the development of DOE policy with regard to competition in the petroleum industry and in the evaluation of the adequacy of incentives for investments in domestic exploration and development activities. Respondents are invited to comment on the usefulness of the accounting practices set forth in FASB Statement No. 19 for development of energy policy in these and other areas.

#### E. DOE COMMENTS TO THE SEC

The Department of Energy plans to complete its review of these issues in time to submit comments to the SEC prior to that agency's hearings, which are expected to be held in late March or early April 1978. The DOE's comments to be submitted to the SEC will be based to a significant degree on the information obtained in response to this notice.

#### III. COMMENT PROCEDURES

##### A. WRITTEN COMMENTS

Interested persons are invited to participate in this rulemaking by submitting data, views or arguments with respect to the proposals set forth in this notice. Comments should be identified on the outside envelope and on the document with the designation, "Fi-

nanacial Accounting Standards for Oil and Gas Producers." Fifteen copies should be submitted.

##### Confidential Submissions

The DOE requests that, to the extent possible, comments containing financial information and analyses not be the subject of a request for confidential treatment; in order that the material submitted may be made available for public inspection. However, to the extent any information or data furnished is considered by the person furnishing it to be confidential, the information or data must be so identified and submitted in writing, one copy only. The DOE reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

##### B. PUBLIC HEARING

1. *Request Procedure.* The time and place for the hearing is indicated in the dates section of this preamble. If necessary to present all testimony, the hearing will be continued to 9:30 a.m. of the next business day following the first day of the hearing.

Any person who has an interest in the matters set forth in this notice, or who is a representative of a group or class of persons that has such an interest, may make a written request for an opportunity to make oral presentation. The person making the request should be prepared to describe the interest concerned, if appropriate, to state why he or she is a proper representative of a group or class of persons that has such an interest, and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through the day before the hearing.

Each person selected to be heard will be so notified by the DOE before 4:30 p.m., e.s.t., February 13, 1978 and must submit 100 copies of his or her statement to Linda Hagge, Room 3530, 12th and Pennsylvania Avenue, N.W., Washington, D.C., before 4:30 p.m., e.s.t., on February 17, 1978.

2. *Conduct of the Hearing.* The DOE reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based on the number of persons requesting to be heard.

A DOE official will be designated to preside at the hearing. This will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebut-

tal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions to be asked of any person making a statement at the hearing, to the Office of Regulations Management, before 4:30 p.m., e.s.t., February 13, 1978. Any person who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. The DOE or the presiding officer, if the question is submitted at the hearing, will determine whether the question is relevant, and whether the time limitations permit it to be presented for response.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by the DOE and made available for inspection at the DOE Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue, N.W., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

Issued in Washington, D.C., January 19, 1978.

WILLIAM S. HEFFELFINGER,  
Director of Administration.

##### APPENDIX

The kinds of financial and other data which would assist in the evaluation of the impact of adoption of FASB Standard No. 19 on competition among oil and gas producers and upon energy supplies are as follows (where possible, such information should be provided for the years 1972-1976 and for the most recent four quarters of operation).

##### FINANCIAL STATEMENTS

1. Consolidated balance sheet, and the related consolidated statements of income, stockholders' or owners' equity, and changes in financial position. If any of these financial statements have been restated, the financial statements as originally reported are also requested. Pro-forma financial statements based on the principles embodied in FASB Statement No. 19 would also be helpful. Respondents that file financial statements with the SEC may supply the financial statements included in the SEC Forms 10K, and 10Q for the appropriate periods.

2. Revenues, net income and invested capital by major functional activity including: (a) crude oil or natural gas exploration and production; (b) refining and marketing; (c) transportation; (d) other petroleum related operations; and (e) non-petroleum operations.

3. Revenues, net income and invested capital by geographic area of operation, including domestic (both onshore and offshore) and international operations.

## NOTICES

#### OUTSTANDING DEBT AND STOCK

1. For each class of long-term and short-term debt security issued, or other evidence of indebtedness, the following information: (a) The amount of the debt issued; (b) any preference upon liquidation; (c) collateral; (c) any specific source of funds for retirement or for refunding such indebtedness, such as segregated revenues, sinking funds, etc.; (e) conversion features; (f) name of any guarantor or surety of the debt and relationship to respondent; (g) coupon or interest rate; (h) price at which sold by company; (i) date issued; (j) date of maturity; (k) date of retirement; (l) any call date or premium; (m) rating by a recognized evaluator, if any; and (n) any other special terms or features.

2. The DOE also requests information as to the amount and terms of production payment financing, lease financing, and other forms of on and off balance sheet debt financing and the amounts and types of funds provided by the following kinds of creditors: individuals, partnerships, corporations and trusts not registered with the SEC, banks, insurance companies, mutual funds, or any other (please specify). Respondents are further requested to supply information as to any lines of credit obtained, including the maximum amount borrowed under each line, compensating balances, fees, and interest rates, and any other funds not previously described to which the company had access, even if not used.

3. For each class of equity security issued, or other type of equity investment in the respondent, the following information for each year: (a) number of shares issued; (b) price per share received from underwriters; (c) price per share at which offered to the public; (d) proceeds to the company; (e) par or stated value per share; (f) preference upon liquidation; (g) if preferred or preference stock, stated dividend rate, whether cumulative or non-cumulative, conversion features, rating, if any by a recognized evaluation service, and call price and premium; (h) any other features (please specify); (i) amount and terms of other equity investments or participations in the company overall or in specific projects; (j) value, terms, and shares issued in mergers and acquisitions; (k) value, terms and shares issued in connection with stock option plans, property acquisitions, or other use of equity financing (please specify); (l) the amounts and types of equity raised from the following sources: individuals, partnerships, corporations and trusts registered with the SEC, banks, insurance companies, mutual funds, other (please specify).

#### OTHER FINANCIAL INFORMATION

1. A discussion of the nature and terms of other significant sources of funds raised, including property sales.

2. Uses of funds provided by internal and external sources including additions to property, plant, and equipment in the following functional areas: (a) exploration and production; (b) refining and marketing; (c) other petroleum and petroleum related activities; (d) non-petroleum activities (please specify other non-petroleum, but energy related, investments).

3. Increases (decreases) in current assets: (a) receivables; (b) inventories; (c) other, please specify.

4. Decreases (increases) in current liabilities: (a) accounts payable; (b) notes payable (please specify terms); (c) current portion of long-term debt; (d) accrued income taxes; (e) other—specify.

5. Respondents that are oil and natural gas producers, but for which oil and natural gas production is not the major functional activity, are requested to provide the information requested above as to their oil and natural gas production subsidiaries on an unconsolidated basis.

#### EXPLORATION AND DEVELOPMENT ACTIVITIES

As to exploration and development expenditures, the following information is requested for the period 1972-1976 and the most recent four quarters: (1) the amount of exploration and development expenditures; (2) exploratory wells drilled; (3) development wells drilled; (4) other wells drilled; (5) success ratios—exploration; (6) success ratios—development; (7) total exploratory footage drilled; (8) total development footage drilled; (9) domestic oil production in barrels; (10) domestic gas production in thousands of cubic feet and barrels of oil equivalent; (11) estimated proven reserve additions—oil; (12) estimated proven reserve additions—gas; (13) estimated cost of proven reserve additions under current accounting method and under method prescribed by Statement No. 19; (14) sources of prospects drilled (e.g., farm-outs from others, own initiative, etc.); and (15) geological and geophysical expenditures as a percentage of exploration budget.

#### DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

(Docket No. ER78-182)

ALABAMA POWER CO.

Notice of Proposed Initial Rate Schedule

JANUARY 17, 1978.

Take notice that Alabama Power Co. (Alabama) on January 9, 1978, tendered for filing an agreement with Central Alabama Electric Cooperative, Inc., intended as an initial rate schedule. Alabama states that the filing is for the proposed Kingston delivery point of Central Alabama Electric Cooperative, Inc. Alabama further states that the delivery point will be served at the company's applicable revision to rate schedule REA-1 incorporated in FERC electric tariff, original volume No. 1 of Alabama as allowed to become effective, subject to refund, by Commission order in FERC Docket ER78-77. Alabama indicates that this agreement also contains an increase in the capacity required to be maintained at the Enterprise Community and Wetumpka delivery points. Alabama further indicates that the Enterprise delivery point's capacity is increased from 5,000 to 10,000 kVA and the Wetumpka delivery point is increased from 3,750 kVA to 10,000 kVA.

According to Alabama copies of this filing were served upon Central Alabama Electric Cooperative, Inc., and Alabama Electric Cooperative.

Any person desiring to be heard or to protest said application should file

a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 30, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,  
Acting Secretary.

**[6740-02]**

[Docket No. CI77-657]

**AMERICAN NATURAL GAS PRODUCTION CO.,  
ET AL**

**Notice of Amendment to Application**

JANUARY 17, 1978.

Take notice that on January 13, 1978, American Natural Gas Production Co. (Production Co.); Oil and Gas Futures, Inc., of Texas; H. W. Bass & Sons; SAG Ventures, Penna. Co.; and the Norwegian Oil Co. (DNO-U.S.), Inc., (the "applicants"), filed an amended application for a certificate of public convenience and necessity under the provisions of section 7(c) of the Natural Gas Act, as amended, and § 2.75 of the Commission's general policy and interpretations, optional procedure for certificating new producer sales of natural gas, in the above-captioned docket. An original application was filed by Production Co. on July 20, 1977 (noticed on August 15, 1977), seeking authorization to sell its interest in natural gas production from West Cameron block 504, offshore Louisiana, to Michigan Wisconsin Pipe Line Co. (Michigan Wisconsin). Production Co. is a wholly owned subsidiary of Michigan Wisconsin. Thereafter, on November 3, 1977, an amended application was filed on behalf of all of the working interest owners of block 504, requesting certificates of public convenience and necessity under the Commission's optional pricing provisions to sell 100 percent of the gas therefrom to Michigan Wisconsin.

In the amended application filed November 3, 1977, the applicants sought an initial rate of \$2.709 per Mcf, at 15.025 psia. The rate was to escalate one cent per quarter. In their January 13, 1978, amended application, the applicants have stated that they are willing to accept a fixed rate of \$2.215 per Mcf, at 15.025 psia.

Any person desiring to be heard or to make any protest with reference to said application, on or before January 31, 1978, should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed protesting the collection of said rate, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

Acting Secretary.

(FR Doc. 78-1954 Filed 1-23-78; 8:45 am)

**[6740-02]**

[Docket No. RM75-14]

**ASHLAND OIL, INC.**

**Notice of Petition for Declaratory Order**

JANUARY 12, 1978.

Take notice that on January 13, 1977, Ashland Oil, Inc. (petitioner), P.O. Box 1503, Houston, Tex. 77001, filed in Docket No. RM75-14 a petition for declaratory order pursuant to section 1.7(c) of the Commission's rules of practice and procedure.

Petitioner requests that the Commission issue a declaratory order confirming petitioner's right to receive without carrying charge credit the rates prescribed by opinion No. 770 and 770-A for volumes of gas committed to Trunkline Gas Co., (Trunkline) in South Marsh Island blocks 268, and 269, and 281, offshore Louisiana, as a result of a supplemental advance payment earned by petitioner prior to the issuance of opinion No. 770-A. Petitioner states that it entered into an advance payment agreement with Trunkline in May 1974. The amount to be advanced was fixed at \$20,390,000, based on petitioner's working interest. According to petitioner this represented its best estimate of its gas exploration and development expenses to be incurred on or before November 1, 1976. Pursuant to a supplemental agreement with Trunkline, Petitioner's share of the advance payment was subsequently reduced to \$13,886,344.

Petitioner states that pursuant to its advance payment agreement with Trunkline it had a right to call upon Trunkline for further supplemental advance payments. On November 2, 1976, petitioner invoiced Trunkline for a supplemental advance of \$4,870,433. Under the terms of their agreement, Trunkline was required to pay within 30 days any invoice submitted by petitioner. In opinion No. 770-A the Com-

mission provided that producers accepting advance payments made on or after 1 p.m., e.s.t., November 5, 1976, under an existing advance payments contract would only be entitled to the opinion No. 770 national rate less a carrying charge credit.

Petitioner's position is that it was lawfully and contractually entitled to an advance payment from Trunkline in the amount of \$4,870,433 on November 1, 1976, notwithstanding that physical payment of the money was not contractually due for a period of 30 days following petitioner's November 2, 1976, invoice. As a ground for this assertion petitioner claims that it would have qualified under the advance payment agreement with Trunkline for and advance during the three months preceding November 1, 1976, based upon ascertainable development costs. Petitioner argues that since the supplemental advance payment was earned and due to the petitioner prior to November 5, 1976, it should be permitted to receive without carrying charge credit the rates prescribed by opinion No. 770 and 770-A for the subject gas.

Any person desiring to be heard or to make any protest with reference to said petition should on or before February 3, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,  
Secretary.

(FR Doc. 78-1946 Filed 1-23-78; 8:45 am)

**[6740-02]**

[Docket No. ER77-546]

**DAYTON POWER & LIGHT CO.**

**Order Granting Rehearing and Correcting Prior Order**

JANUARY 18, 1978.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977), and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the

Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977, by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

By order issued on November 11, 1977, in this proceeding the Federal Energy Regulatory Commission (Commission) accepted for filing proposed rates for short term, economy and emergency power electric service between Dayton Power & Light Co. (Dayton) and the City of Piqua, Ohio; suspended the use of these rates for one day to be collected thereafter subject to refund pending the outcome of a hearing thereon; and provided that said refund obligation should have no force and effect and the instant proceeding terminated, should no intervention or protest pursuant to 18 CFR § 1.7 be filed on or before November 21, 1977. In that order the Commission further rejected proposed rates for partial requirements firm power to be sold to Piqua by Dayton and denied Dayton's requests for waiver of 18 CFR § 35.13 filing requirements and 18 CFR § 35.11 notice requirements.

On December 7, 1977, Dayton filed an application for rehearing of the Commission's November 11 order requesting that "reconsideration and approval be given to: (i) The proposed rates for firm power on first revised schedule A; (ii) the request for waiver of notice and waiver of filing requirements; and (iii) the suspension period allowed." In support of its requests, Dayton argues that the Commission's November 11 order was based on the erroneous assumption that customers

<sup>1</sup> Dayton rate schedule FPC No. 34. See attachment A of the Commission's November 11, 1977, order in this docket for designations and effective dates.

affected by Docket No. ER76-887 are all full requirements customers; that since Piqua and Dayton had agreed to modify the proposed rates in this docket in accordance with a final Commission ruling in Docket No. ER76-887 and since calculations contained in Dayton's August 5 filing which were based on data submitted in Docket No. ER76-887, supported the rates filed in this docket, the Commission erroneously failed to grant waiver of 18 CFR § 35.13 filing requirements; and that because of a statutory procedure in Ohio which municipalities must follow in executing electric service agreements, which procedure caused Dayton's delay in filing until August 5, 1977, the Commission should reverse its prior denial of Dayton's request for waiver of 18 CFR § 35.11 notice requirements.

Commission review of Dayton's application for rehearing indicates that it has merit.

Dayton is correct to point out that Docket No. ER76-887 involves both full and partial requirements wholesale customers, and we shall revise the November 11 order to reflect such fact. The Commission's prior rejection of Dayton's proposed rates for firm power service to Piqua, although not based on a full requirements—partial requirements distinction, was based on the conclusion that insufficient data and information was submitted to support the proposed firm power rate to Piqua, which insufficiency was not cured by reference to data submitted to Docket No. ER76-887. However, further Commission review of Dayton's August 5, 1977, submittal, as completed on October 14, 1977, indicates that the demand and energy data submitted by Dayton to support the rates filed in Docket No. ER76-887 and adjusted and submitted to apply to Piqua in this docket, are sufficient to justify accepting for filing Dayton's proposed rates for firm power service to Piqua and to justify granting waiver of 18 CFR § 35.13 filing requirements. The Commission notes that the foregoing finding comports with the agreement between Piqua and Dayton, set forth in the August 5 submittal, where under Piqua and Dayton agreed to modify the proposed firm power rates in this docket in accordance with a final Commission ruling in Docket No. ER76-887.

We shall reverse our prior decision regarding firm power service to Piqua by accepting for filing firm power first revised schedule A, suspending its use for one day, to become effective subject to refund and subject to a final Commission order in Docket No. ER76-887, and granting waiver of 18 CFR § 35.13 filing requirements.

Dayton admits that in its August 5 submittal it did not explain the delay in filing the revised rates contained in the modified interconnection agree-

## NOTICES

ment between itself and Piqua.\* However, Dayton explains that it was precluded from submitting the agreement containing the proposed revised rates earlier than August 5, 1977, because of a statutory procedure in Ohio that Piqua was bound to follow. In support of its renewed request that 18 CFR § 35.11 notice requirements be waived, Dayton tendered copies of two resolutions by the City Commission of Piqua, the first dated June 6, 1977, and the second dated July 18, 1977, ratifying the modified interconnection agreement including the proposed effective date of May 10, 1977. Although Dayton could have explained the delay in its original filing, the Commission notes that neither Piqua nor any other person have objected to the proposed effective date. In light of the new evidence tendered by Dayton in its application for rehearing, we shall grant waiver of 18 CFR § 25.11 notice requirements for the rate schedules contained in Dayton's August 5 submittal, assigning a retroactive effective date of May 10, 1977, to first revised schedules B, C, and D and a retroactive effective date of May 11, 1977 to first revised schedule A.

The Commission notes that no protest or petition to intervene has been filed by any person in this docket pursuant to ordering paragraph (E) of the November 11 order. Accordingly, this proceeding shall be deemed terminated and the procedural dates for hearing set forth in the November 11 order shall be of no force and effect. First revised schedules B, C, and D will be effective without refund obligation, as of May 10, 1977, and first revised schedule A will be effective with refund obligation as of May 11, 1977, subject to a final Commission order in Docket No. ER76-887.

The Commission finds: (1) Good cause exists to grant Dayton's application for rehearing filed December 7, 1977, which requested that the Commission reverse its prior rejection of proposed firm power rates to Piqua, first revised schedule A, its prior denial of Dayton's request for waiver of 18 CFR § 35.13 filing requirements pertaining to firm power service and its prior denial of Dayton's request for waiver of 18 CFR § 35.11 notice requirements.

(2) Good cause exists to accept for filing first revised schedule A to suspend its use for one day to become effective as of May 11, 1977, subject to refund and subject to a final Commission order in Docket No. ER76-887.

The Commission orders: (A) Dayton's application for rehearing as de-

\*Dayton originally filed the modified interconnection agreement on August 5, 1977, whereas the proposed effective date of the agreement was designated by the parties as May 10, 1977, the first day of the superseding executed agreement.

scribed in finding paragraph (1), supra, is hereby granted.

(B) First revised schedules B, C, and D are hereby made effective as of May 10, 1977, without refund obligation.

(C) First revised schedule A is hereby accepted for filing, and its use suspended for one day to become effective as of May 11, 1977, subject to refund and subject to a final Commission order in Docket No. ER76-887.

(D) Within 30 days of the issuance of a final order in Docket No. ER76-887 Dayton shall file modified rates in accordance with order reflecting changes to the rates set forth in first revised schedule A.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

## [6740-02]

[Docket No. ER78-41]

## THE DETROIT EDISON CO.

## Notice of Proposed Change in Rate Schedule

JANUARY 17, 1978.

Take notice that the Detroit Edison Co. (Detroit Edison) on December 19, 1977, tendered for filing an amendment to the Electric Supply Agreement, Rate Schedule No. 20, with one of its customers, Michigan Municipal Electric Cooperative Power Pool (Michigan Municipal). Detroit Edison indicates that the amendment provides for a temporary increase in contract capacity of 10,000 kW for a six month period beginning November 1, 1977, necessary to assure Michigan Municipal an adequate supply of electricity during the 1977-78 winter heating season. Detroit Edison further indicates that the amendment will effect no change in rates or quality of service. Detroit Edison requests that the change be made effective as of November 1, 1977; waiver of the Commission's notice requirements is therefore requested.

Copies of the filing were served upon the public utilities' jurisdictional customers, according to Detroit Edison.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 3, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make

protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,  
Acting Secretary.

## [6740-02]

[Docket No. E-7740]

## INDIANA &amp; MICHIGAN ELECTRIC CO.

## Notice of Further Extension of Time

JANUARY 16, 1978.

On January 6, 1978, Indiana & Michigan Electric Co. (I&M) filed a motion to further extend the time for complying with the Ordering Paragraphs of Opinion Nos. 817 and 817A, issued August 2, 1977, and September 30, 1977, respectively, in the above referenced docket. A previous extension of time was granted by Notice issued December 21, 1977.

The instant motion states that on December 30, 1977, a joint motion was filed in the captioned docket by I&M and Richmond Power & Light of the City of Richmond, Ind. (Richmond), seeking the approval of the Commission of an agreement of settlement and compromise reached by the parties.

Upon consideration, notice is hereby given that an extension of time is granted to and including September 7, 1978, for I&M to comply with Opinion Nos. 817 and 817A.

KENNETH F. PLUMB,  
Secretary.

## [6740-02]

[Docket No. CI77-497 and RP77-62]

## MESA PETROLEUM CO. AND TENNESSEE GAS PIPELINE CO.

## Notice of Further Extension of Time

JANUARY 17, 1978.

On January 13, 1978, Tennessee Gas Pipeline Co. (Tennessee) filed a motion to further extend the time for complying with Ordering Paragraph (F) of the Commission Order issued November 16, 1977, in the above referenced docket. A previous extension of time was granted to Tennessee by Notice issued December 28, 1977.

The instant motion states that a further extension is requested due to the fact that the Commission's response to the application for rehearing filed in this docket by Mesa Petroleum Company on December 18, 1977, will have a significant effect on the information Tennessee is to file in accordance with Ordering Paragraph (F).

Upon consideration, notice is hereby given that a further extension of time is granted to and including April 17, 1978, within which Tennessee shall comply with Ordering Paragraph (F) of the November 16, 1977 Order.

LOIS D. CASHELL,  
Acting Secretary.

## [6740-02]

## TEXAS ENERGIES, INC.

## Order Granting Special Relief, Deleting Acreage, and Granting Intervention

JANUARY 18, 1978.

In the matter of Texas Energies, Inc., Docket No. R177-88, Sun Oil Company, Docket Nos. G-11122 and G-12972; FERC Gas Rate Schedule Nos. 338 and 86, Champlin Petroleum Company, Docket No. G-11150 and FERC Gas Rate Schedule No. 66.

On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Pub. L. 95-91, 91 Stat. 565 (August 4, 1977) and Executive Order No. 12009, 42 FR 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary and the Federal Energy Regulatory Commission (FERC) which, as an independent commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted. All such proceedings shall be contin-

ued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of these proceedings were specifically transferred to the FERC by section 402(a)(1) of the DOE Act.

The joint regulation adopted on October 1, 1977 by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR —, provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

On May 23, 1977, Texas Energies, Inc. (Texas Energies), a small producer, filed a petition for special relief in Docket No. R177-88 pursuant to section 2.76 of the Commission's General Policy and Interpretations. Texas Energies is requesting a total rate of \$1.00 per Mcf for the sale of its 100 percent interest in gas produced from the L. A. Ward Unit, Harper County, Okla., to Colorado Interstate Gas Co. (CIG) and Michigan Wisconsin Pipeline Co. (Michigan Wisconsin). Texas Energies also requests waiver of section 157.40(c) of the Commission's Regulations to allow this sale to be made pursuant to its small producer certificate issued in Docket No. CS72-428 on February 3, 1972.

The petition was noticed on June 29, 1977, with the period for filing interventions ending on July 29, 1977. CIG filed a petition in support of Texas Energies' petition.

Texas Energies gained its interest in the L. A. Ward Unit as successor to the interest of Sun Oil Co. (Sun) and Champlin Petroleum Co. (Champlin). Sun's interest was being sold under its FERC Gas Rate Schedule Nos. 86 and 338, and Champlin's interest was being sold under its FERC Gas Rate Schedule No. 66. Under contracts dated August 19, 1977, and April 18, 1977, CIG and Michigan Wisconsin, respectively, agreed to pay Texas Energies a total requested rate of \$1.00 per Mcf. The unit is currently shut-in.\*

Texas Energies proposes to spend a total of \$80,379 on the L. A. Ward Unit by installing compression facilities costing \$50,329 and performing other necessary repairs costing \$30,050. It is anticipated that the expenditures will enable Texas Energies to put the unit back in production and recover the estimated 434,400 Mcf of reserves remaining over the next 11 years.

Based on data filed by the applicant (which was complete enough that no

\*CIG will receive 55 percent of the gas and Michigan Wisconsin will receive the remaining 45 percent.

\*Extensive well repairs, tubing replacement and compression are necessary to place the well back on production.

## NOTICES

field audit was required), the Commission Staff has determined that Texas Energies' net remaining book investment as of June 1, 1977, amounted to \$28,257. Staff also estimates that operating expenses over the next 11 years would total \$282,533 based on current estimated annual operating expense of \$22,080, escalated 5% for inflation during the first five years, and including a \$500 compressor overhaul every three years.

Staff has conducted a traditional cost study using the above costs and reserves. The results of this study indicate that the rate requested Texas Energies is cost supported.

Texas Energies did not request an allowance for possible income tax liability resulting from the Tax Reform Act of 1975 and Staff did not include such an allowance.

After reviewing the costs to be incurred and the reserves to be recovered, we determine that Texas Energies' petition for special relief is warranted and that it is in the public interest to grant the petition.

We also believe it would be in the public interest to grant Texas Energies' request for waiver of section 157.40(c) of the Commission's Regulations to allow this sale to be made pursuant to its small producer certificate since, in view of our grant of special rate relief, this would have no bearing on the rate attributable to the properties involved herein. On the other hand, it would lift an avoidable administrative burden from Texas Energies. In this connection, we also deem it appropriate to utilize this order to delete the pertinent acreage dedications by Sun and Champlin.

The Commission finds: The petition for special relief filed by Texas Energies meets the criteria set forth in Section 2.76 of the Commission's General Policy and Interpretations; Texas Energies' request for waiver of Section 157.40(c) of the Commission's Regulations should be granted; and CIG should be permitted to intervene.

The Commission orders: (A) The petition for special relief filed by Texas Energies, Inc., is hereby granted.

(B) Texas Energies is authorized to collect a total rate of \$1.00 per Mcf for the sale of its gas from the L. A. Ward Unit, Harper County, Okla., to Colorado Interstate Gas Co. and Michigan Wisconsin Pipeline Co., effective upon issuance of this order or the date of completion of the proposed work, whichever is later, subject to the conditions set forth below.

(C) Within 30 days of the effective date of the authorization herein, Texas Energies must file statements signed by CIG and Michigan Wisconsin that the proposed work has been completed to their satisfaction.

(D) Within 30 days of issuance of this order, Texas Energies must file an appropriate rate change in accordance

## NOTICES

with section 154.94 of the Commission's Regulations under the Natural Gas Act (18 CFR 154.94).

(E) The provisions of section 157.40(c) are waived to the extent necessary to permit the sale from the L. A. Ward Unit, to be made under the small producer certificate issued in Docket No. CS 72-428 subject to the rate limitations provided in this order.

(F) The assignments of interest filed by Sun Oil Co. are accepted for filing as Supplement Nos. 29 and 23 to Sun's FERC Gas Rate Schedule Nos. 338 and 88, respectively, and the related acreage, all of Section 2, T25N, R25W, Harper County, Okla., is hereby deleted from dedication under the related certificate docket, Docket Nos. G-11122 and G-12972, effective as of the transfer of the property involved.

(G) The assignment of interest filed by Champlin Petroleum Co. is accepted for filing as Supplement No. 17 to Champlin's FERC Gas Rate Schedule No. 66, and the related acreage, all of section 2T25N, R25W, Harper County, Okla., is hereby deleted from dedication under the related certificate docket, Docket No. G-11150, effective as of the transfer of the property involved.

(H) CIG is permitted to intervene in the above-entitled proceeding, subject to the rules and regulations of the Commission: *Provided, however*, That its participation shall be limited to matters affecting asserted rights and interests specifically set forth in its petition for leave to intervene; and *Provided, further*, That the admission of CIG in the manner provided shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders entered in this proceeding.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Extension of Time

JANUARY 17, 1978.

On January 11, 1978, Staff Counsel

filed a motion to extend the time within which the Data Verification Committee (DVC) shall report to the Commission on the five matters directed to it in the Commission Order issued November 17, 1977, in the above referenced proceeding.

Upon consideration, notice is hereby given that an extension of time is granted to and including January 30, 1978, within which the DVC shall report to the Commission pursuant to the November 17, 1977, Order.

LOIS D. CASHELL,  
Acting Secretary.

[Docket No. R177-25]

WOODS EXPLORATION AND PRODUCING CO.,  
ET AL.

Notice of Informal Conference

JANUARY 10, 1978.

Take notice that an informal conference will be held, pursuant to section 1.18 of the Commission's Rules of Practice and Procedure, on January 25, 1978, at 10 a.m. in Room 8402, at the offices of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C.

All interested persons will be permitted to attend, but attendance will not be deemed to authorize intervention as a party in these proceedings.

This conference will be for discussion purposes only without commitments.

KENNETH F. PLUMB,  
Secretary.

[Docket Nos. G-4953, et al.]

APPLICATIONS FOR CERTIFICATES, ABANDONMENT OF SERVICE AND PETITIONS TO AMEND CERTIFICATES<sup>1</sup>

JANUARY 17, 1978.

Take notice that each of the Appli-

<sup>1</sup>This notice does not provide for consolidation for hearing of the several matters covered herein.

cants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before February 8, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or to be represented at the hearing.

LOIS D. CASHELL,  
Acting Secretary.

## [6740-02]

[Docket Nos. CS71-988, et al.]

**DAMSON OIL CORP., ET AL.****Applications for "Small Producer" certificates.**

JANUARY 10, 1978.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and section 157.40 of the Regulations thereunder, for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before February 2, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the

<sup>1</sup>This notice does not provide for consolidation for hearing of the several matters covered herein.

Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

**ENVIRONMENTAL PROTECTION AGENCY**

(FRL 846-5)

**NATIONAL DRINKING WATER ADVISORY COUNCIL****Open Meeting**

Under section 10(a)(2) of Pub. L. 92-423, "The Federal Advisory Committee Act," notice is hereby given that a meeting of the National Drinking Water Advisory Council established under Pub. L. 93-523, the "Safe Drinking Water Act," will be held at 9 a.m. on February 13, 1978, and at 8:30 a.m., February 14, 1978, in the Waterside Mall, Room 2117, 401 M Street SW., Washington, D.C. 20460.

The purpose of the meeting is to discuss regulations for controlling organic chemicals in drinking water, stream monitoring networks to detect accidental spills of hazardous materials and state program activities in implementing the safe drinking water program.

Both days of the meeting will be open to the public. The Council encourages the hearing of outside statements and allocates a portion of time for public participation. Any outside parties interested in presenting an oral statement should petition the Council in writing. The petition should include the general topic of the proposed statement and the petitioner's telephone number.

Any person who wishes to file a written statement can do so before or after a Council meeting. Accepted written statements will be recognized at council meetings.

Any member of the public wishing to attend the Council meeting, present an oral statement, or submit a written statement should contact Patrick Tobin, Executive Secretary for the National Drinking Water Advisory Council, Office of Water Supply (WH-550), Environmental Protection Agency, 401

M Street SW., Washington, D.C. 20460.

The telephone number is area code 202-426-8877.

Dated: January 18, 1978.

**FEDERAL MARITIME COMMISSION****AGREEMENTS FILED**

Notice is hereby given that the following agreements have been filed with the Commission for review and approval, if required, pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreements at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreements at the Field Offices located at New York, N.Y., New Orleans, La., San Francisco, Calif., and Old San Juan, P.R. Comments on such agreements, including requests for hearing, may be submitted to the Secretary,

Federal Maritime Commission, Washington, D.C. 20573, on or before February 3, 1978. Any person desiring a hearing on the proposed agreements shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing, the agreements (as indicated herein-after) and the statement should indicate that this has been done.

AGREEMENT NO.: T-3559.

**FILING PARTY:** Mr. Gary E. Koecheler, Director of Transportation, Maryland Port Administration, The World Trade Center Baltimore, Baltimore, Md. 21202.

**SUMMARY:** Agreement No. T-3559, between Maryland Port Administration (MPA) and Weyerhaeuser Co. (Weyerhaeuser), provides for the five-year lease (automatically extended for an additional five years) of premises known as Atlantic Terminals, consisting of 30.5 acres of land, including the adjacent pier, to be used in the handling of automobiles and pickup trucks and the assembly of pickup trucks. MPA will make certain improvements to the premises which are set out in the agreement. As compensation, MPA will pay rent, which will increase annually, ranging from \$13,979.00 per month for the first year to \$16,973.25 per month for the fifth year. Weyerhaeuser agrees to the sublease by MPA to Nissan Motor Corp. in U.S.A. (Nissan), under Agreement No. T-3560, and an additional sublease to Hovelmann Port Services, Inc., (Hobelmann) for the purpose of constructing a building in which Hobelmann intends to handle automobiles and pickup trucks and assemble pickup trucks. Weyerhaeuser also agrees to allow Nissan to sublease the premises to Skyline Terminal, Inc.

AGREEMENT NO.: T-3560.

**FILING PARTY:** Mr. Gary E. Koecheler, Director of Transportation, Maryland Port Administration, The World Trade Center Baltimore, Baltimore, Md. 21202.

**SUMMARY:** Agreement No. T-3560, between Maryland Port Administration (MPA) and Nissan Moto Corp. in U.S.A. (Nissan), provides for the sublease to Nissan of 30.5 acres of land, including the adjacent pier, which MPA leased from Weyerhaeuser Co.

## NOTICES

under Agreement No. T-3559. Nissan will use the premises for the handling of import automobiles and pickup trucks and the assembly of pickup trucks. As compensation, Nissan will pay rent, which will increase annually ranging from \$20,554.17 per month for the first year to \$23,566.77 per month for the fifth year. Nissan will also pay as additional rent, \$2.50 for each automobile or pickup truck in excess of 70,000 units up to a total of 100,000 units. Nissan will pay to MPA dockage fees from any vessel docking at the premises and Nissan will receive wharfage charges for any cargo loaded or unloaded at the premises, which will be assessed in accordance with the MPA tariff.

Dated: January 19, 1978.

By order of the Federal Maritime Commission.

JOSEPH C. POLKING,  
Assistant Secretary.

[6730-01]

## AGREEMENTS FILED

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, La.; San Francisco, Calif.; and San Juan, P.R. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before February 13, 1978, in which this notice appears. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done.

AGREEMENT NO.: 10039-4.

FILING PARTY: Harry D. Hunter, Vice President, Delta Steamship Lines,

Inc., 17 Battery Place, New York, N.Y. 10004.

SUMMARY: Agreement No. 10039, between Empresa Lineas Maritima Argentinas and Delta Steamship Lines, Inc., is a cargo revenue pooling, sailing, and equal access agreement in the trades between United States Gulf ports and ports in Argentina.

Agreement No. 10039-4, the subject of this notice, amends the basic agreement by providing that each of the parties may arrange space charters on the other party's vessels.

AGREEMENT NO.: DC-127.

FILING PARTY: Mr. David F. Anderson, Associate General Counsel, Matson Navigation Co., 100 Mission Street, San Francisco, Calif. 94105.

SUMMARY: Agreement No. DC-127, between Matson Navigation Co. and Blue Eagle Transport, Inc., is a standard interchange agreement which provides for the interchange of cargo containers, containers mounted on chassis or a cargo trailer. The term of the agreement is for one year and will continue on a year-to-year basis and may be terminated by either party upon 10 days' notice to the other. Compensation for use of the equipment will be in accordance with provisions of Rule No. 215 of Matson Container Freight Tariff No. 32, F.M.C.-F. No. 152.

AGREEMENT NO.: T-2736-1.

FILING PARTY: Leslie E. Still, Jr., Deputy, Offices of the City Attorney of Long Beach, City Hall, 333 West Ocean Boulevard, Long Beach, Calif. 90802.

SUMMARY: Agreement No. T-2736-1, between the City of Long Beach (City) and Powell River-Alberni Sales Corp. (Powell River) modifies the parties basic agreement which provides for the preferential assignment to Powell River of Berths 52, 53, and 54, Pier 2, Long Beach, for use as a marine terminal and distribution warehouse. As a result of City's inability to make unobstructed water access to the premises for a limited period of time, this amendment reduces the minimum annual obligation of Powell River from \$200,000 to \$193,425 for the fifth year of the assignment.

AGREEMENT NO.: T-3561.

FILING PARTY: Mr. Albert E. Cronin, Jr., 716 Bank of America Building, 343 East Main Street, Stockton, Calif. 95202.

SUMMARY: Agreement No. T-3561, between the Stockton Port District (Port) and Stockton Elevators (STELLA), is an agreement and compromise settlement regarding claims arising from the Port's attempted imposition of a franchise fee upon STELLA. The parties agree to dismiss

their complaints in litigation between the Port and STELLA in the Superior Court of the State of California, County of San Joaquin, action number 122889, and a complaint before the Commission under Docket No. 77-29. STELLA further agrees to pay the Port for a four-year period four cents per short ton (2,000 lbs.) for the first 250,000 tons per year of bulk grain or grain products shipped over STELLA's wharf in Stockton, and five cents per short ton for each additional ton in that year of bulk grain or grain products shipped over STELLA's wharf in Stockton.

Dated: January 19, 1978.

By order of the Federal Maritime Commission.

JOSEPH C. POLKING,  
Assistant Secretary.

[6730-01]

[Independent Ocean Freight Forwarder License No. 1410]

## APOLLO INTERNATIONAL, INC.

## Reinstatement of License

By Federal Maritime Commission Order served and published in the FEDERAL REGISTER, Apollo International, Inc.'s Independent Ocean Freight Forwarder License No. 1410 was revoked, effective September 18, 1977, for failure to maintain a valid surety bond on file with the Commission. The Order of Revocation was served on September 22, 1977.

An appropriate surety bond has been received in favor of Apollo International, Inc. and compliance pursuant to section 44, Shipping Act, 1916, and section 510.9 of the Commission's General Order 4 has been achieved.

Therefore, by virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) section 5.01(a), dated August 8, 1977, Independent Ocean Freight Forwarder License No. 1410 shall be reissued to Apollo International, Inc. effective January 4, 1978. A copy of this Notice of Reinstatement shall be published in the FEDERAL REGISTER and served upon Apollo International, Inc.

LEROY F. FULLER,  
Director, Bureau of  
Certification & Licensing.

## GENERAL ACCOUNTING OFFICE

## REGULATORY REPORTS REVIEW

## Receipt and Approval of Report Proposal

A request for clearance of a revised application form to collect informa-

tion from the public was received by the Regulatory Reports Review Staff, GAO, on January 6, 1978. See 44 U.S.C. 3512(c) and (d). The purpose of publishing this notice is to inform the public of such receipt and the action taken by GAO.

## FEDERAL COMMUNICATIONS COMMISSION

The Federal Communications Commission (FCC) requested clearance of a revision to Form 756, Application for Commercial Radio Operator License. The form is required to be filed when applying for a new, renewed, replacement or duplicate commercial operator license other than amateur license and restricted radiotelephone operator permit. The revision incorporates the provisions of Paragraph 856A of the Radio Regulations of the International Telecommunications Union (ITU) which requires that certificates issued in the maritime mobile services after January 1, 1978, bear a photograph of the applicant. Only applicants for radiotelegraph permits will be affected, and FCC estimates they will number approximately 2,000.

The GAO granted emergency clearance of the revision to the application on January 19, 1978, under number B-180227 (R0394) because of the January 1, 1978, effective date and a finding that the new requirement is not excessively burdensome.

NORMAN F. HEYL,  
Regulatory Reports  
Review Officer.

## REGULATORY REPORTS REVIEW

## Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on January 18, 1978. See 44 U.S.C. 3512(c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipts.

The notice includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed CAB and ICC requests are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed requests, comments (in triplicate) must be received on or before February 13, 1978, and should be addressed to Mr. John M. Lovelady,

## Correction

In FR Doc. 77-34370 appearing at page 61306 in the issue for Friday, De-

Assistant Director, Regulatory Reports Review Office, Room 5106, 441 G Street NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart, of the Regulatory Reports Review Staff, 202-275-3532.

## CIVIL AERONAUTICS BOARD

The CAB requests an extension without change clearance of Form 250, Report of Unaccommodated Passengers, and Form 251, Report of Passengers Denied Confirmed Space. These forms are filed by certificated route air carriers pursuant to Part 250 of the Board's Economic Regulations and their submission is mandatory under section 407 of the Federal Aviation Act of 1958, as amended. Forms 250 and 251 are used to monitor compliance with the requirement in Part 250 of the Board's Economic Regulations which requires the scheduled air carriers to establish priority rules for determining which passengers holding confirmed reserved space shall be denied boarding on oversold flights and to offer prescribed compensation to passengers holding confirmed reservations who are denied space on oversold flights. The CAB estimates that approximately 28 carriers file Form 250 quarterly and that reporting time averages 4.25 hours per response; and 23 carriers file Form 251 monthly and that reporting time averages 4.25 hours per response.

## INTERSTATE COMMERCE COMMISSION

The ICC requests an extension without change clearance of Form EM-5, Data Sheet For Sampled Carload. Form EM-5 is filed by railroads in place of submitting copies of railroad waybills as required pursuant to order of the ICC (49 CFR 1244). The information collected on Form EM-5 will become a part of the ICC Continuous Waybill Sample and also part of the Department of Transportation Comprehensive Freight Flow Data Program. The ICC estimates reporting time for carriers averages 5 minutes per response with the number of responses expected from each of the 28 affected carriers ranging from 18 to 11,000 depending on the number of multiple car shipments terminated by each railroad.

## [4110-84]

Health Services Administration

## ADVISORY COMMITTEE

## Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following National Advisory body scheduled to meet during the month of February 1978:

## INDIAN HEALTH ADVISORY COMMITTEE

Date and Time: February 8-9, 1978, 9 a.m.  
Place: Conference room A, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857.

Type of Meeting: Open for entire meeting.  
Purpose: The Committee advises the Secretary, Assistant Secretary for Health, Administrator, Health Services Administration; and Director, Indian Health Service on health and other related matters that have a bearing on the conduct of the Indian health program, as well as current and proposed regulations and policies.

Agenda: The Committee will discuss the current total Indian health program operations, more specifically the health status of the Indian people, and other specific items of Departmental interest and concern regarding Indian health endeavors.

The meeting is open to the public for observation and participation. Anyone wishing to participate, obtain a roster of members, minutes of meeting, or other relevant information should contact Mr. Mose E. Parris, Room 5A-43, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, telephone 301-443-1104.

Agenda items are subject to change as priorities dictate.

Dated: January 16, 1978.

WILLIAM H. ASPDEN, Jr.,  
Associate Administrator  
for Management.

## [4310-84]

## DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR 18107 (Wash.)]

## WASHINGTON

## Proposed Withdrawal and Reservation of Lands

JANUARY 13, 1978.

The Fish and Wildlife Service, Department of the Interior, on November 18, 1977, filed application, Serial No. OR 18107 (Wash.), for the withdrawal of the following described lands from settlement, sale, location or entry under all of the general land laws, including the mining laws (30 U.S.C., Ch. 2) and the mineral leasing laws, except as they pertain to oil and gas, subject to valid existing rights:

## WILLAMETTE MERIDIAN

The unsurveyed island of Tatoosh together with its islets and rocks, located between latitude 48°23' North and 48°24' North (protracted T. 33 N., R. 16 W., in Section 2 and protracted T. 34 N., R. 16 W., in Section 35), containing approximately 18 acres in Clallam County.

The Fish and Wildlife Service desires that the land be reserved for administration as a part of the existing Flattery Rocks National Wildlife Refuge, for protection of resting and breeding sites for sea birds.

On or before February 23, 1978, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned authorized officer of the Bureau of Land Management.

Pursuant to section 204(h) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2754, notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing with the State Director, Bureau of Land Management at the address shown below on or before February 23, 1978. Upon determination by the State Director that a public hearing will be held, a notice of the public hearing will be published in the FEDERAL REGISTER, giving the time and place of such hearing. The hearing will be scheduled and conducted in accordance with BLM Manual Sec. 2351.16 B.

The Department of the Interior's regulations provide that the authorized officer of the BLM will undertake such investigations as are necessary to determine the existing and potential demands for the lands and their resources. He will also undertake negotiations with the applicant agency

with the view of assuring that the area sought is the minimum essential to meet the applicant's needs, providing for the maximum concurrent utilization of the lands for purposes other than the applicant's and reaching agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn and reserved as requested by the applicant agency. The determination of the Secretary on the application will be published in the FEDERAL REGISTER. The Secretary's determination shall, in a proper case, be subject to the provisions of section 204(c) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2752.

The above described lands are temporarily segregated from operation of the public land laws, including the mining laws and mineral leasing law except as they pertain to oil and gas, to the extent that the withdrawal applied for, if and when effected, would prevent any form of disposal or appropriation under such laws. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. The segregative effect of the application shall terminate upon: (1) Rejection of the application by the Secretary, (2) withdrawal of the lands by the Secretary, or (3) the expiration of two years from the date of publication of this notice.

All communications (except for public hearing requests) in connection with the pending withdrawal application should be addressed to the undersigned officer, Bureau of Land Management, Department of the Interior, P.O. Box. 2965, Portland, Ore. 97208.

HAROLD A. BERENDS,  
Chief, Branch of Lands  
and Minerals Operations.

## [4310-70]

National Park Service

## GREEN SPRINGS HISTORIC DISTRICT

## National Historic Landmark

Notice is hereby given that on December 13, 1977, the Secretary of the

Interior determined that the Green Springs Historic District located in Louisa County, Va., is of national historic significance and, accordingly, confirmed its status as a National Historic Landmark listed on the National Register. In addition, Secretary Andrus accepted Historic Green Springs, Inc.'s offer of a donation of a number of preservation easements applicable to certain properties within the historic district. The boundaries of the historic district are as follows:

The boundary of Green Springs Historic District is defined by a line co-terminous with the outside boundary of a set of tracts and encompassing all those component tracts.

The component tracts of land are shown on maps of the Virginia State Department of Taxation, division of Assessment and Mapping. They are as follows:

Section 21, Green Springs District, Revised January 1, 1959 and January 1, 1971.

Tracts: 54, 56, 57, 58, 59, 60, 61, 61A, 61B, 62, 64, 64A, 72, 72D, 76, 77; only portion of parcel 78 included in the Historic District is located south of the South Anna River. Also included are parts of tracts 1A, 8 and 9 of Section 22 extending over to Section 21 and tract 7A of Section 36 extending over to Section 21.

Section 22, Green Springs District, Revised January 1, 1959 and January 1, 1971.

Tracts: 1A, 7, 7A, 7B, 7C, 7D, 7E, 8, 9, 10, 11, 12, 13, 15, 22, 23, 23A, 23B, 24, 25, 26, 26A, 31, 32, 33, 34, 35; the only portion of each of the following tracts included in the Historic District is that area located south of the South Anna River: 1, 2, 3, 4, 5, 7B (extending over to Section 22 from Section 21). Also included is tract 1 of Section 37 extending over to Section 22.

Section 36, Green Springs District, Revised January 1, 1959 and January 1, 1971.

Tracts: 1, (11-2, 3, 4, 5) 2, 3, 4, 5, 7, 7A, 8, 9, 11, 13, 14, 16, 17, 18, 21, 21A, 21B, 22, 23, 24, 58, 59, 60, 84. Also included are a portion of tract 1 of Section 37 extending over to Section 36 and portions of tract 58, 59, and 60 of Section 21 extending over to Section 36.

Section 37, Green Springs and Louisa Courthouse districts, Revised January 1, 1959 and January 1, 1971.

Tracts: 1, 3, 4, 5, 6, 7, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 19A, 19B, 20, 21, 25, 25A, 25B, 25C, 26, 26A, 27, 27A, 28, 29, 30, 31, 32, 33, 34, 35, 36, 36A, 37, 48. Also included is the portion of tracts 9 and 7 of Section 36 extending over to Section 37; the portion of tracts 9 and 9A of Section 53 extending over to Section 37; and the portion of tract 13 of Section 22 extending over to Section 37.

Section 52, Green Springs and Louisa Courthouse Districts, Revised January 1, 1959 and January 1, 1972.

Tracts: (31-1, 2, 3), 9, 13, 16, 42, 63, 79, 81, 82, 83, 84; the only portion of each of the following parcels included in the historic

## NOTICES

district is that area located north and/or northeast of the main branch of Fosters Creek: 77, 78. Also included is the portion of tracts 13 and 16 of Section 36, the portion of tract 9 of Section 37, and the portion of tracts 9, 10B, and 12 of Section 53 extending over to Section 52.

Section 53. Green Springs and Louisa courthouse Districts, Revised January 1, 1959.

Tracts: 1, 2, 5, 6, 7, 8, 9, 9A, 10, 10A, 10B, 10C, 11, 12, 13, 36A, 37, 46, 46A, 47, 47A, 77; the only portion of each of the following tracts included in the historic district is that area located north and/or east of the main branch of Fosters Creek: 12, 77. Also included is the portions of tracts 14, 36A, and 37 of Section 37 and the portion of tract 77 of Section 52 extending over to Section 53.

## Section 20

Tracts: Included are those portions of tracts 58 and 61 of Section 21 extending over to Section 20.

## Section 23

Tracts: Included are those portions of tracts 23A, 24, 26, and 26A of Section 22 extending over to Section 23 and only to the east boundary of the right-of-way of route 636.

## Section 35

Tracts: Included are those portions of tracts 2 and 4 of Section 36 and the portion of tract 59 of Section 21 extending over to Section 35.

The following is a clarification of those segments of the boundary involving roads or streams. Proceeding clockwise around the boundary:

1. Route 636: Where Route 636 forms the east boundary of the district that boundary is the east edge of the right-of-way.

2. Route 613: Same as above.

3. South Anna River: Where the South Anna River is the boundary along the south edge of tract 37, Section 37, the boundary is the south bank of the river.

4. Route 626: Where Route 626 forms the south boundary along tracts 46, 46A, 47, and 47A the boundary is the south edge of the right-of-way.

5. Main Branch of Fosters Creek: Where this creek forms the south boundary through tracts 11 and 12 Section 53 and tracts 77 and 78 Section 52, the boundary is the south bank of the creek.

6. Route 613: Where Route 613 forms the extreme southwest corner of the boundary along tract 63, Section 52, the boundary is the north edge of the right-of-way.

7. Route 640: Where Route 640 forms the south boundary of tract 2, Section 36, the boundary is the south edge of the right-of-way.

8. Fielding Creek: Where the creek is the north boundary of tracts 54, 56, and 57, the boundary is the north bank of the creek.

9. Route 15: Where Route 15 forms the boundary at the northwest corner

of the district, the boundary is the west edge of the right-of-way.

10. Route 22: Where Route 22 forms the boundary along the south edge of tract 72C, Section 21, the boundary is the north edge of the right-of-way.

11. South Anna River: Where the river forms the north boundary of the district the boundary is the north bank of the river.

Notice is also given that the Keeper of the National Register, National Park Service, has determined that the Commonwealth of Virginia gave inadequate public notice of its intention to nominate the Green Springs Historic District to the National Register in 1973, and, accordingly, Green Springs Historic District shall not be considered as listed on the National Register pursuant to State nomination. However, Green Springs Historic District shall remain on the National Register as a National Historic Landmark.

Dated: January 1, 1978.

JERRY L. ROGERS,  
Chief, Office of Archeology  
and Historic Preservation.

## [7020-02]

[AA1921-178]

## POLYVINYL CHLORIDE SHEET AND FILM FROM THE REPUBLIC OF CHINA

## Investigation and Hearing

Having received advice from the Department of the Treasury on January 12, 1978, that polyvinyl chloride sheet and film from the Republic of China, with the exception of that merchandise produced by Ocean Plastics Co., Ltd., and China Gulf Plastic Corp., is being, or is likely to be, sold at less than fair value, the U.S. International Trade Commission, on January 19, 1978, instituted investigation No. AA1921-178 under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States. For the purposes of its determination concerning sales at less than fair value, the Treasury Department defined "polyvinyl sheet and

film" as "unsupported, flexible, calendared polyvinyl chloride sheet, film, and strips over 6 inches in width and over 18 inches in length, and at least 0.002 inches, but not over 0.020 inches in thickness."

Hearing. A public hearing in connection with the investigation will be held in Washington, D.C., beginning at 9:30 a.m., e.s.t., on Thursday, March 2, 1978, in the Hearing Room, U.S. International Trade Commission Building, 701 E Street NW. All persons shall have the right to appear by counsel or in person, to present evidence, and to be heard. Requests to appear at the public hearing, or to intervene under the provisions of section 201(d) of the Antidumping Act, 1921, shall be filed with the Secretary of the Commission, in writing, not later than noon, Friday, February 10, 1978.

There will be a prehearing conference in connection with this investigation which will be held in Washington, D.C., at 9:30 a.m., e.s.t., on Wednesday, February 22, 1978, in Room 117, U.S. International Trade Commission Building, 701 E Street NW.

Issued: January 20, 1978.

By order of the Commission.

KENNETH R. MASON,  
Secretary.

## DEPARTMENT OF LABOR

## Occupational Safety and Health Administration

## ADVISORY COMMITTEE ON CONSTRUCTION SAFETY AND HEALTH

## Meeting

Notice is hereby given that the Advisory Committee on Construction Safety and Health, established under section 107(e)(1) of the Contract Work Hours and Safety Standards Act (40 U.S.C. 333) and section 7(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 656) will meet on Tuesday, February 14 and Wednesday, February 15, 1978, in Room N-3437, Department of Labor Building, 3rd Street and Constitution Avenue NW., Washington, D.C. 20210. The meeting is open to the public and will begin at 9 a.m.

The purpose of this meeting is to review and develop recommendations on Subpart L (Ladders and Scaffolds) of Part 1926—Construction Standards. The Committee will also finalize recommendations on Subpart M (Floor and Wall Openings, and Stairways) of Part 1926.

Written data, views, or arguments may be submitted, preferably with 20 copies, to the Division of Consumer Affairs. Any such submissions received prior to the meeting will be provided

to the members of the Committee and will be included in the record of the meeting.

Anyone wishing to make an oral presentation should notify the Division of Consumer Affairs before the meeting. The request should state the amount of time desired, the capacity in which the person will appear, and a brief outline of the content of the presentation.

Oral presentations will be scheduled at the discretion of the Chairman, depending on the extent to which time permits. Communications may be mailed to:

Ken Hunt, Office of Public and Consumer Affairs, Occupational Safety and Health Administration, Third Street and Constitution Avenue NW, Room N-3635, Washington, D.C. 20210, phone 202-523-8024.

Materials provided to members of the Committee are available for inspection and copying at the above address.

Signed at Washington, D.C., this 18th day of January 1978.

EULA BINGHAM,  
Assistant Secretary,  
Occupational Safety and Health.

## [4510-28]

Office of the Secretary  
(TA-W-2236)

## BETHLEHEM STEEL CORP. SEATTLE, WASH.

## Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2236: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on August 2, 1977 in response to a worker petition received on July 28, 1977 which was filed by the United Steelworkers of America on behalf of Workers and former workers producing structural steel, angle steel, plate steel, round and flat steel and reinforcing steel at the Seattle, Washington plant of the Bethlehem Steel Corp. Workers engaged in the production of reinforcing steel were covered under a certification issued July 27, 1977 (TA-W-1500). During the course of the investigation it was revealed that the other products were produced at the 22 inch mill.

The Notice of Investigation was published in the FEDERAL REGISTER on August 19, 1977 (42 FR 41934). A public hearing was requested but the request was later withdrawn.

The information upon which the determination was made was obtained

principally from officials of Bethlehem Steel Corp., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, the American Iron and Steel Institute, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number of proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four criteria have been met with respect to carbon steel plate, structural shapes and hot rolled carbon steel bars.

Bethlehem provided data for structural shapes, carbon steel bars and carbon steel plate. Rounds and flats are included in carbon steel bars. Angle steel, depending on its dimensions, is classified as bars or as structural shapes, and data for angle steel were included in both categories.

## SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Over 80 percent of production at the Seattle plant's 22" mill consists of carbon steel plate, bars and structural shapes. Employment of production workers on the 22 inch mill declined 46 percent in 1976 compared to 1975 and continued to decline 2 percent in the first six months of 1977 compared to the like period one year earlier. Workers on this mill are not separately identifiable by product.

## SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

## A. STEEL PLATE

Sales and production of carbon steel plate declined 48 percent and 50 percent, respectively, in 1976 compared to 1975, and increased 29 percent and 63 percent, respectively, in the first six months of 1977 compared to the like period of 1976.

## B. STRUCTURAL SHAPES

Production of structural shapes declined 23 percent in 1976 compared to

1975 and declined 9 percent in the first six months of 1977 compared to the like period in 1976.

## C. HOT ROLLED CARBON STEEL BARS

Sales of hot rolled carbon steel bars declined 4 percent in 1976 compared to 1975 and declined 10 percent in the first six months of 1976 compared to the like period in 1976.

## INCREASED IMPORTS

## A. STEEL PLATE

Imports of carbon steel plate decreased from 1,651.0 thousand short tons in 1972 to 1,322.0 thousand short tons in 1973, increased 1,699.0 thousand short tons in 1974, decreased to 1,353.0 thousand short tons in 1975, and increased to 1,555.4 thousand short tons in 1976. Imports increased from 690.3 thousand short tons in the first six months of 1976 to 793.0 thousand short tons in the first six months of 1977.

The ratio of imports to domestic shipments of plate decreased from 26.3 percent in 1972 to 16.4 percent in 1973, then increased in each year to 27.7 percent in 1976. The ratio increased from 23.5 percent in the first six months of 1976 to 25.7 percent in the first six months of 1977.

## B. STRUCTURAL SHAPES

Imports of carbon steel structural shapes decreased in each year from 1,614.0 thousand short tons in 1972 to 804.9 thousand short tons in 1975, then increased to 1,351.4 thousand short tons in 1976. Imports increased from 542.6 thousand short tons in the first six months of 1976 to 716.3 thousand short tons in the first six months of 1977.

The ratio of imports to domestic shipments of structural shapes decreased in each year from 34.1 percent in 1972 to 19.5 percent in 1975, then increased to 40.0 percent in 1976. The ratio increased from 30.2 percent in the first six months of 1976 to 40.2 percent in the first six months of 1977.

## C. HOT ROLLED CARBON STEEL BARS

Imports of hot rolled carbon steel bars declined in each year from 792.0 thousand tons in 1972 to 369.1 thousand tons in 1976. Imports increased from 113.0 thousand tons in the first six months of 1976 to 293.9 thousand tons in the first six months of 1977.

The ratio of imports to domestic shipments of carbon steel bars decreased in each year from 12.6 percent in 1972 to 6.7 percent in 1976. The ratio increased from 3.9 percent in the first six months of 1976 to 9.3 percent in the first six months of 1977.

## CONTRIBUTED IMPORTANTLY

## A. STEEL PLATE

On October 3, 1977 the U.S. Department of the Treasury issued an initial

finding of dumping of carbon steel plate by certain Japanese firms. This action was in response to a dumping complaint filed by Gilmore Steel Corp. on February 28, 1977. With this decision importers of Japanese carbon steel plate are required to post bond sufficient to cover the preliminary dumping margin which was found to be 32 percent. This is expected to decrease sales of Japanese plate to the U.S. However, in the past several months imports of Japanese carbon steel plate have been down while imports from the EEC countries have grown.

Carbon steel plate was also cited in the U.S. Steel's complaint which is currently pending before the Treasury. A preliminary decision on the U.S. Steel complaint and a final decision on the Gilmore case are due within 90 days.

The Department contacted a sample of the Seattle plant's plate customers. Several of these stated that there was an import influence in the steel plate market. This finding is consistent with the aggregate data on U.S. shipments and imports of plate in 1976. In that year, domestic steel producers reduced their plate shipments by 1.4 million tons, while imports rose by 15 percent from the previous year. The import penetration ratio increased from 19.4 percent in 1975 to 27.7 percent in 1976.

## B. STRUCTURAL SHAPES

The Department contacted a sample of Bethlehem's customers accounting for about 45 percent of sales of structural shapes from the Seattle plant. All but one of the responding customers purchased imported structural shapes. Most customers increased their purchases of imports while reducing purchases from Bethlehem.

## C. HOT ROLLED CARBON STEEL BARS

The Department contacted a sample of Bethlehem's customers accounting for about 45 percent of the Seattle plant's sales of bars. About half of the responding customers reported that they purchased imported bars, and several of these reduced purchases of bars from Bethlehem while increasing their purchases of imports.

## CONCLUSION

After careful review of the facts obtained in the investigation I conclude that increases of imports of articles like or directly competitive with the carbon steel plate, structural shapes and hot rolled carbon steel bars produced at the Seattle, Wash., plant of Bethlehem Steel Corp. contributed importantly to the decline in sales or production and to the total or partial separation of workers at that plant. In accordance with the provisions of the Act, I make the following certifications:

All workers at the Seattle, Wash., plant of Bethlehem Steel Corp. engaged in employment related to the production of carbon steel plate who became totally or partially separated from employment on or after July 25, 1976, and before January 1, 1977, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

All workers at the Seattle, Wash., plant of Bethlehem Steel Corp. engaged in employment related to the production of structural shapes who became totally or partially separated from employment on or after July 25, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

All workers at the Seattle, Wash., plant of Bethlehem Steel Corp. engaged in employment related to the production of hot rolled carbon steel bars who became totally or partially separated from employment on or after January 1, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 16th day of January 1978.

JAMES F. TAYLOR,  
Director, Office of Management,  
Administration, and Planning.  
(FR Doc. 78-2004 Filed 1-23-78; 8:45 am)

## [4510-28]

(TA-W-2404)

## BUCKBEE MEARS, INC., APERTURE MASK DIVISION, ST. PAUL, MINN.

## Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-2404: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 3, 1977, in response to a worker petition received on September 28, 1977, which was filed by the Graphic Arts International Union on behalf of workers and former workers producing aperture masks at the St. Paul, Minn., plant of the Aperture Mask Division of Buckbee Mears, Inc. The Notice of Investigation was published in the FEDERAL REGISTER on October 14, 1977 (42 FR 55315). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Buckbee Mears, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or

an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

## SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

The average number of workers engaged in employment related to the production of aperture masks at the St. Paul plant declined in 1976 compared to 1975 and continued to decline in the first three quarters of 1977 compared to the like period in 1976.

## SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

The St. Paul plant's production of aperture masks declined in quantity in 1976 compared to 1975 and continued to decline in the first three quarters of 1977 compared to the like 1976 period. Company sales of aperture masks declined in quantity in 1976 compared to 1975 and continued to decline in the first three quarters of 1977 compared to the like period of 1976.

## INCREASED IMPORTS

Imports increased 527.7 percent from 32,500 units in 1975 to 204,000 units in 1976 and continued to increase 57.4 percent from 160,000 units in the first three quarters of 1976 to 266,000 units in the first three quarters of 1977.

The ratio of imports of aperture masks to domestic production increased from 0.5 percent in 1975 to 2.8 percent in 1976 and continued to increase from 3.0 percent in the first three quarters of 1976 to 4.7 percent in the first three quarters of 1977.

## CONTRIBUTED IMPORTANTLY

A survey of customers of aperture masks of Buckbee Mears, Inc., revealed that customers have reduced purchases from Buckbee Mears and have increased purchases of imported aperture masks.

## CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with the aper-

ture masks produced at the St. Paul, Minn., plant of the Aperture Mask Division of Buckbee Mears, Inc., have contributed importantly to the decline in sales or production and to the total or partial separation of workers at the plant as required for certification under section 222 of the Trade Act of 1974.

In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of aperture masks at the St. Paul, Minn., plant of the Aperture Mask Division of Buckbee Mears, Inc., who became totally or partially separated from employment on or after September 21, 1976, are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 16th day of January 1978.

JAMES F. TAYLOR,  
Director, Office of Management,  
Administration, and Planning.

(FR Doc. 78-2005 Filed 1-23-78; 8:45 am)

[4510-28]

(TA-W-21731)

PROXIMITY PRINT WORKS, CONE MILLS  
CORP., GREENSBORO, N.C.

Affirmative Determination Regarding  
Application for Reconsideration

On December 19, 1977, the petitioner for workers and former workers of Proximity Print Works, of Greensboro, N.C., requested administrative reconsideration of the Department of Labor's negative determination regarding eligibility to apply for worker adjustment assistance. This determination was published in the FEDERAL REGISTER on December 6, 1977, (42 FR 61667).

The petitioner in this case raises two issues of substance. The first is that since the beginning of the Trade Act program of worker adjustment assistance on April 3, 1975, workers of a number of other print shops have been certified as eligible to apply for adjustment assistance. The petitioner claims that its workers are in basically the same situation as workers in those other print shops.

The second issue raised by the petitioner appears to be that the Department of Labor should have limited its evaluation of increased imports of "like or directly competitive articles" to imports of cotton broad woven print cloth and man-made woven printed fabric, rather than the broader classification of finished fabric (which included, in addition to print cloth and printed fabric, cotton and man-made dyed and flocked fabric).

#### CONCLUSION

After review of the application, I conclude that the claims of the petitioner are of sufficient importance to justify reconsideration of the Depart-

#### NOTICES

ment of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, D.C., this 17th day of January, 1978.

HARRY GRUBERT,  
Director, Office of  
Foreign Economic Research.

#### NUCLEAR REGULATORY COMMISSION

##### ABNORMAL OCCURRENCE EVENT

##### Insulation Failures in Containment Electrical Penetrations

Section 208 of the Energy Reorganization Act of 1974, as amended, required the NRC to disseminate information on abnormal occurrences (i.e., unscheduled incidents or events which the Commission determines are significant from the standpoint of public health and safety). The following incident was determined to be an abnormal occurrence using the criteria published in the FEDERAL REGISTER on February 24, 1977 (42 FR 10950). Appendix A (Example I.D.2) of the Policy Statement notes that a major deficiency in design, construction or operation having safety implications requiring immediate remedial action can be considered an abnormal occurrence.

**Date and Place.** During the period September 30-November 19, 1977, a series of events relating to insulation failures in containment electrical penetrations occurred at the Northeast Nuclear Energy Co.'s Millstone Nuclear Power Station, Unit 2, a pressurized water nuclear power plant located in Waterford, Conn.

**Nature and Probable Consequences.** On September 30, 1977, a valve in the letdown system unexpectedly closed and another normally closed drain valve in the safety injection system recirculation return line was found in an incorrect (open) position. The letdown system is a portion of the reactor coolant purification system. The safety injection system is one of the emergency core cooling systems. Subsequent investigation of the electrical penetration module associated with these valves revealed low insulation resistances between several conductors including those which supply control

Low voltage wiring for control and status indication of equipment inside containment is routed through the Containment Building wall via electrical penetration assemblies to keep the building sealed while allowing the wires to penetrate inside. Modules within these assemblies carry approximately 85 conductors (wires) each. The conductors are separated and insulated from each other by epoxy material at each end of the modules and by enamel on the conductors themselves in the region between the epoxy seals.

power to the valves. Low insulation resistance is a degradation of the modules that can cause electrical short circuits between conductors. The valve anomalies were presumably caused by such short circuits.

On October 14, 1977, a reactor coolant sample system valve failed to close on command. Investigation of this event identified conductors in another penetration module which were shorted (electrically connected) together due to low insulation resistance.

On November 19, 1977, short circuits of conductors associated with indication and alarm circuits for a reactor coolant pump resulted in anomalous alarms in the control room. The cause was again traced to low insulation resistance between conductors in the third penetration module.

None of these anomalous events resulted in unsafe conditions in the plant. However, the potential for unsafe conditions did exist since the proper functioning of safety-related equipment, which would be needed during certain accident conditions, depends on adequate electrical insulation resistances between conductors within the penetration modules.

**Cause or Causes.** The electrical short circuits between conductors in the penetration modules, which caused the observed anomalous electrical conditions, apparently resulted from moisture entering fissures (cracks) between conductors in the epoxy insulator/sealant. In the presence of such moisture, it is believed that an electrical path developed between conductors in the modules thereby resulting in low insulation resistances.

Prior to March 15, 1977, the affected penetration modules had been internally pressurized with dry nitrogen. On about March 15, 1977, the licensee decided to discontinue pressurization of the penetration modules because there was no requirement to maintain the gas pressure and maintenance of the pressure resulted in an increased loss of nitrogen gas. Removal of the nitrogen pressure may have contributed to the degradation of the resistance between the conductors in the penetration modules.

The actual cause for the short circuits will be determined when the results from a laboratory analysis of one of the failed penetration modules is received by the licensee.

**Action Taken to Prevent Recurrence.—Licensee.** Following each of the above cited events involving a reduction in insulation resistance, the conductors in question were taken out of service and spare conductors with acceptable insulation resistances were used as replacements.

A special surveillance test program was initiated to check selected conductor insulation resistances daily and to functionally check the operability of

selected components twice per week. The penetration modules were repressurized with dry nitrogen which produced some improvement in the insulation resistances.

After the November 19th anomalous condition, the plant was shut down and a scheduled refueling outage was commenced about two weeks earlier than was originally planned. The licensee has initiated action to obtain penetration modules of a different design. The adequacy of the environmental qualification of the new penetration module design will be reviewed by the NRC staff, and, if acceptable, the modules will be installed prior to plant startup.

**NRC** Recognizing the potential safety significance of all anomalous occurrences related to low insulation resistance in the electrical penetration assemblies, the NRC staff met with the licensee and discussed the problem on November 7, 1977. In addition, the NRC Region I Office issued letters to the licensee on November 4 and 8, 1977, documenting agreements that:

(1) The penetrations would be continuously pressurized with dry nitrogen, (2) a special surveillance program would be performed, and (3) the plant would be shut down if further degradation was identified or a recurrence of anomalous conditions was experienced. In accordance with these agreements, the plant was shut down on November 20, 1977, after the latest anomalous condition developed.

**NRC IE Bulletin 77-06**, was issued on November 22, 1977, in which the NRC staff requested that all licensees of operating reactors review their installed containment electrical penetrations, determine if the potential for similar failures exists at their facilities, identify methods to detect insulation resistance degradation, and outline appropriate corrective action.

Responses to this Bulletin and the completion of corrective actions are being reviewed by the NRC staff and are being verified by onsite inspection.

Dated at Washington, D.C. this 18th day of January 1978.

For the Nuclear Regulatory Commission

SAMUEL J. CHILK,  
Secretary of the Commission.

#### REGULATORY GUIDE

##### Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its regulatory guide series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regula-

#### NOTICES

tions and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.137, "Fuel-Oil Systems for Standby Diesel Generators," describes a method acceptable to the NRC staff for complying with the Commission's regulations regarding fuel-oil systems for standby diesel generators and assurance of adequate fuel-oil quality.

Comments and suggestions in connection with: (1) Items for inclusion in guides currently being developed, or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 1.137 will, however, be particularly useful in evaluating the need for an early revision if received by March 24, 1978.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Technical Information and Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a).)

Dated at Rockville, Md., this 16th day of January 1978.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,  
Director,  
Office of Standards Development.

#### SECURITIES AND EXCHANGE COMMISSION

(Rel. No. 10093)

##### AUDAX FUND INC.

Filing of Application for Order Declaring That  
Applicant Has Ceased To Be an Investment  
Company

JANUARY 16, 1978.

In the matter of Audax Fund Inc.,

312 East Wisconsin Avenue, Milwaukee, Wis. 53202, 811-1866.

Notice is hereby given, that Audax Fund Inc. ("Applicant"), registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified management investment company, filed an application on December 27, 1977, pursuant to section 8(f) of the Act, for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant, a corporation organized under the laws of Delaware, registered under the Act on May 22, 1969. On June 6, 1969, it filed a registration statement on form S-5 under the Securities Act of 1933 (File No. 2-33397) for the public sale of shares of its common stock. This registration statement was declared effective by the commission on November 14, 1969, and Applicant was thereby authorized to offer 5,000,000 shares of its common stock for sale to the public.

On November 16, 1977, at a special meeting of shareholders, a majority of Applicant's shareholders approved an Agreement and Plan of Reorganization ("Plan") dated August 19, 1977, which provided for, among other things, the acquisition by Nicholas Fund, Inc. ("Nicholas"), a registered, open-end management investment company, of substantially all of Applicant's assets (including all of its portfolio securities) in exchange for shares of common stock of Nicholas, and for the subsequent dissolution of Applicant. This sale of all of the assets of Applicant was consummated on December 5, 1977, and pursuant to the Plan Nicholas issued 178,191 shares of its common stock to the Applicant. These Nicholas shares were distributed to the shareholders of the Applicant on a pro-rata basis. Under the Plan, Nicholas assumed all of the liabilities of Applicant incurred in the ordinary course of its business which were outstanding as of December 5, 1977. Under the plan all of the expenses incurred by Applicant in implementing the Plan were paid by The Milwaukee Co., parent of Applicant's former investment adviser, Wisconsin Investment Management Co., Inc.

Applicant represents that it currently has no assets, no security holders, no known liabilities, and that it is not a party to any pending litigation or administrative proceeding. Applicant also represents that on December 5, 1977, it filed a Certificate of Dissolution with the State of Delaware pursuant to the General Corporation Law of the State of Delaware, thereby completing the process of corporate disso-

lution under Delaware state law. Applicant further represents that it has ceased all business activities.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 9, 1978, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc. 78-1930 Filed 1-23-78; 8:45 am]

## [8010-01]

[Rel. No. 20388]

## EASTERN UTILITIES ASSOCIATES

Proposed Extension of Bank Borrowing by  
Subsidiary Company

JANUARY 17, 1978.

In the matter of Eastern Utilities Associates, P.O. Box 2333, Boston, Mass.

02107; Blackstone Valley Electric Co., P.O. Box 1111, Lincoln, R.I. 02865; Brockton Edison Co., 36 Main Street, Brockton, Mass. 02403; Fall River Electric Light Co., 85 North Main Street, Fall River, Mass. 02722; Montaup Electric Co., P.O. Box 391, Fall River, Mass. 02722 (70-5388).

Notice is hereby given that Eastern Utilities Associates ("EUA"), a registered holding company, and its electric utility subsidiary companies, Blackstone Valley Electric Co. ("Blackstone"), Brockton Edison Co. ("Brockton"), Fall River Electric Light Co. ("Fall River") and Montaup Electric Co. ("Montaup"), have filed a post-effective amendment to their application-declaration, as previously filed and amended in this proceeding with this Commission designating Sections 6(a), 7, 9(a), 10, 12(b), 12(c), and 12(f) of the Act and Rules 43(a) and 45(a) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, as further amended by said post-effective amendment, which is summarized below, for a complete statement of the proposed transaction.

The transactions dealt with by the original application have, insofar as hereto relevant, been duly authorized and consummated. The post-effective amendment deals only with a proposed extension of the maturity of a bank loan of Blackstone's, which was one of the original series of transactions.

As a part of this reorganization program, Blackstone has been authorized in this proceeding (order dated February 19, 1975, HCAR No. 18817) to borrow \$25,000,000 from the Chase Manhattan Bank (N.A.) ("Chase"). Blackstone originally issued Chase its note in that amount, maturing on February 16, 1976, and bearing interest at 115 percent of the prime rate in effect at Chase from time to time. By orders dated February 12, 1976 and February 8, 1977 (HCAR Nos. 19386 and 19880) Blackstone was authorized to extend the maturity of the note, in each instance for approximately one year. The note now matures on February 8, 1978. The note is secured by a second mortgage on certain properties of Blackstone, said second mortgage being subject, among other encumbrances, to the prior lien of Blackstone's Indenture of Mortgage and Deed of Trust dated as of November 1, 1943. No compensating balance is required in connection with this borrowing.

Proceeds of the loan have been used by Blackstone to reduce open account advances to Blackstone from EUA. EUA applied the funds so received to reduce its short-term borrowings.

By post-effective amendment filed in this proceeding, it is now proposed

that the term of the Chase note be further extended to mature on or about February 1, 1979. The interest rate will continue to be the prime as defined. No compensating balance will be required in connection with the extension of the Chase loan. Assuming a prime rate at Chase of 8 percent, the effective interest cost of the note, as revised and extended, would be 9.775 percent. It is stated that Blackstone had originally intended to convert that Chase note into a longer term secured obligation, but that restrictions on consolidated capitalization ratios contained in EUA's bond indenture make it impossible at the present time to extend the Chase note for more than one year.

It is stated that the Public Utilities Commission of the State of Rhode Island has jurisdiction over the proposed extension of the Chase loan to Blackstone and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction. Any fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment.

Notice is further given, that any interested person may, not later than February 3, 1978, request in writing that a hearing be held on this matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration, as further amended by said post-effective amendment, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicants-declarants EUA and Blackstone at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as further amended by said post-effective amendment, or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc. 78-1931 Filed 1-23-78; 8:45 am]

## [8010-01]

[Rel. No. 14376]

## MIDWEST STOCK EXCHANGE

## Order Approving Proposed Rule Change

JANUARY 16, 1978.

In the matter of Midwest Stock Exchange, 120 South LaSalle Street, Chicago, Ill. 60603 (SR-MSE-77-35).

On November 21, 1977, the Midwest Stock Exchange, Inc., filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act") as amended by the Securities Acts Amendments of 1975, and rule 19b-4 thereunder, copies of a proposed rule change. The proposed rule change provides that transfers of membership, whereby the transferor retains reacquisition rights, will not be processed unless the transferor is current in all filings and payments of dues, fees, and charges related to that membership.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission release (Securities Exchange Act release No. 14216 (November 29, 1977)) and by publication in the FEDERAL REGISTER (42 FR 62233 (December 9, 1977)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of section 6 and the rules and regulations thereunder. More specifically, the Commission finds that the proposed rule change is consistent with section 6(b)(4) which provides for reasonable allocation of dues, fees, and other charges among exchange members.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the proposed rule change filed with the Commission on November 21, 1977, be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc. 78-1932 Filed 1-23-78; 8:45 am]

## [8010-01]

[Rel. No. 20387]

## NARRAGANSETT ELECTRIC CO.

## Proposed Sale of Utility Assets

JANUARY 16, 1978.

In the matter of the Narragansett Electric Co., 280 Melrose Street, Providence, R.I. 02901 (70-6109).

Notice is hereby given that the Narragansett Electric Co. ("Narragansett"), an electric utility subsidiary company of New England Electric System a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 12(d) of the Act and rule 44 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Narragansett proposes to sell to Blackstone Valley Electric Co. ("Blackstone"), an electric utility subsidiary company of Eastern Utilities Associates, a registered holding company, certain electric facilities ("facilities") located in Smithfield and Woonsocket, R.I., which had been constructed and were used by Narragansett to supply bulk power to Blackstone's Riverside substation in Woonsocket.

The facilities are composed of a 2.6 mile section of 115 kV transmission line, designated U-147, constructed in the early 1940's and extending from Narragansett's Woonsocket substation in North Smithfield, R.I., to Riverside Junction in Woonsocket, together with associated rights in real property. In 1963 this U-147 line was also utilized for through transmission of bulk power by connection to a newly constructed transmission line designated D-182 which terminated at New England Power Co.'s Brayton Point station in Somerset, Mass. In 1974 a portion of the D-182 line was dismantled to make room for a new 345 kV line, designated No. 315. When line No. 315 became operational in August 1974, Narragansett no longer had a need for the U-147 line. Blackstone, however, can utilize the U-147 line to supply its Riverside substation.

An agreement has been executed under which, subject to necessary corporate and regulatory approvals, Narragansett will transfer to Blackstone the facilities for a price equal to net book value (defined as original cost, \$162,362, less depreciation accrued to the date of transfer) plus a sum to be determined by formula covering Narragansett's cost of owning the facilities from the date of preliminary agreement to sell (August 24, 1974) to the date of transfer. On December 31, 1976, the facilities had a net book

value of approximately \$118,390. Under the agreement, Blackstone would also assume responsibility for Narragansett's costs incurred in effecting the transfer of title to the facilities up to \$5,000. Against the purchase price is to be credited \$4,400 representing the agreed estimated cost of labor and materials for completing present accumulated maintenance. As of October 30, 1977, the purchase price would have been approximately \$203,160.

The fees and expenses to be incurred in connection with the proposed transaction are estimated at \$7,000, including \$5,000 of services to be performed at cost by New England Power Service Co., an affiliate of Narragansett. It is stated that the Rhode Island Division of Public Utilities and Carriers has jurisdiction over the sale and purchase of the facilities, and that Federal Energy Regulatory Commission has jurisdiction over the purchase of the facilities by Blackstone. No other State commission and no other Federal commission, other than this commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than February 9, 1978, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc. 78-1933 Filed 1-23-78; 8:45 am]

## [8010-01]

[Release No. 34-14379; File No. SR-DTC-77-13 Amdt. No. 1]

## DEPOSITORY TRUST CO.

## Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on January 10, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission Amendment No. 1 to a proposed rule change as follows:

## STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The date of the annual meeting of the stockholders of the Depository Trust Co. ("DTC") has been changed.

## STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change are as follows:

The purpose of the proposed rule change is to allow extra time necessary for processing the annual reallocation and sale of DTC stock to its participants and self-regulatory organizations as required by the DTC stockholders agreement. Under the old bylaw the annual meeting date would have been March 22, 1978, and under the new bylaw it will be March 31, 1978. Since the date of distribution of notices of share amount (the "notices") to potential and existing stockholders is determined by the date of the annual meeting, postponement of the annual meeting date enables us to send out the notices on February 3, after we have received essential financial data (share price) from our auditors on January 30, 1978. Retaining the March 22 date would have required such notices to have been sent out before January 30, which would not be possible because of the absence of the essential financial information. March 31 is the latest possible date at which the meeting could have been set because of the requirement of section 6002.2 of the New York banking law that the annual meeting be held within the first three months of each calendar year.

The proposed rule change is concerned solely with the administration of DTC.

Comments on the proposed rule change were not solicited.

DTC perceives no burden on competition by reason of the proposed rule change.

The foregoing rule change as amended by amendment No. 1 has become effective, pursuant to section 19(b)(3) of

<sup>1</sup> Defined in the stockholders agreement.

## NOTICES

the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the commission may summarily abrogate such rule change if it appears to the commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the public reference room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within twenty-one days of the date of this publication.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

JANUARY 16, 1978.  
[FR Doc. 78-1935 Filed 1-23-78; 8:45 am]

## [8010-01]

[File No. 81-258; Administrative Proceeding File No. 3-5359]

## TRIDAIR INDUSTRIES

## Application and Opportunity for Hearing

JANUARY 16, 1978.

Notice is hereby given that Tridair Industries ("applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended ("the 1934 Act") for exemption from the filing requirements of sections 12(g), 13, and 15(d) of the 1934 Act.

Section 13 provides that each issuer of a security which is registered pursuant to section 12 of the 1934 Act shall file with the Commission, in accordance with such rules and regulations as the Commission may prescribe as necessary or appropriate for the proper protection of investors and to insure fair dealing in the security, certain annual, current, and quarterly reports.

Section 15(d) provides that each issuer who has filed a registration statement which has become effective

pursuant to the Securities Act of 1933, as amended, shall file with the Commission, in accordance with such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors, such supplementary and periodic information, documents, and reports as may be required pursuant to section 13 of the 1934 Act in respect of a security registered pursuant to section 12 of the 1934 Act.

Section 12(h) empowers the Commission to exempt, in whole or in part, any issuer or class of issuers from the registration, periodic reporting, and proxy solicitation provisions under sections 12, 13, and 14 of the 1934 Act and to grant exemptions from the insider reporting and trading provisions of section 16 of the 1934 Act, if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The application states, in part:

1. On March 31, 1976, applicant merged with and become a wholly owned subsidiary of Rexnord, Inc. ("Rexnord"). As a result of the merger, applicant no longer has any publicly owned common stock.

2. Applicant's only other securities consist of 4 1/4 percent convertible subordinated debentures ("debentures") which are now convertible into shares of Rexnord common stock. As of March 28, 1976, the end of applicant's fiscal year, there were less than 250 record holders of the debentures. As of December 31, 1976, there were 230 record holders of the debentures.

3. On June 4, 1976, applicant transmitted to the Commission a certification pursuant to section 12(g)(4) of the 1934 Act, requesting termination of registration of its common stock. This was not received by the Commission until June 30, 1976, and became effective on September 30, 1976.

4. Applicant argues that no useful purpose would be served in filing the reports which are due.

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C. 20549.

Notice is further given that any interested person not later than February 10, 1978, may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 500 North Capitol Street

NW., Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert.

Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

## DEPARTMENT OF STATE

[Public Notice CM-8/3]

## STUDY GROUP 6 OF THE U.S. ORGANIZATION FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR)

## Meeting

The Department of State announces that Study Group 6 of the U.S. Organization for the International Radio Consultative Committee (CCIR) will meet on February 14-15, 1978, at Boulder, Colo. The meeting will open on February 14 at 9 a.m., Room 3012 of the Radio Building, 325 Broadway.

Study Group 6 deals with matters relating to the propagation of radio waves by and through the ionosphere. The purpose of the meeting will be a review of work approved at the international meeting of Study Group 6, Geneva, January 1978, and finalization of plans for Study Group 6 submission of documents to the Special Preparatory Meeting for the 1979 World Administrative Radio Conference.

Members of the general public may attend the meeting and join the discussions subject to instructions of the Chairman.

Dated: January 13, 1978.

GORDON L. HUFFCUTT,  
Chairman,  
U.S. CCIR National Committee.

## PENNSYLVANIA DEPARTMENT OF ENVIRONMENTAL RESOURCES

## Joint Public Meeting

The Susquehanna River Basin Commission and the Pennsylvania Department of Environmental Resources will hold three joint public meetings to receive public comment on the department's proposal to designate a segment of Pine Creek as part of the State wild and scenic rivers system. The meetings, to be held jointly by the two agencies for the convenience of the public, will begin at 7:30 p.m. on February 7, 1978, at New Avis Elementary School, 5th Street Extended, Avis, Pa.; February 16, 1978, at Jersey Shore Area Senior High School Auditorium, Thompson Street, Jersey Shore, Pa.; and February 22, 1978, at Wellsboro Area Senior High School Auditorium, Nichols Street, Wellsboro, Pa.

Under article 12.2 of the Susquehanna River Basin Compact, no State project will be deemed authorized unless it has first been included by the Commission, after public hearing, in its comprehensive plan. The Susquehanna River Basin Commission will separately review the department's proposal and the testimony received at these meetings when evaluating the proposal for inclusion in the comprehensive plan.

A summary of the proposal is available from the Pennsylvania Department of Environmental Resources, P.O. Box 1467, Harrisburg, Pa. 17102. All interested citizens and governmental agencies are urged to attend the meetings and present their views.

Dated: January 16, 1978.

[Drought Order No. 71 (Sub-No. 5)]

## DROUGHT AREAS: NORTH CAROLINA

### Rail Transportation of Hay

Drought conditions exist in certain portions of the State of North Carolina. The Secretary of the United States Department of Agriculture has requested the Commission to enter an order under Section 22 of the Interstate Commerce Act authorizing railroads to transport hay to the disaster area at reduced rates.

It is ordered: Carriers by railroad participating in transportation of hay to the counties of:

Alamance, Alexander, Anson, Bladen, Burke, Cabarrus, Caldwell, Caswell, Catawba, Chatham, Cleveland, Columbus, Davidson, Davie, Durham, Edgecombe, Forsyth, Franklin, Gaston, Granville, Guilford, Harnett, Iredell, Johnston, Lee, Lincoln, Mecklenburg, Montgomery, Moore, Nash, Orange, Person, Polk, Randolph, Rockingham, Richmond, Rowan, Rutherford, Stanly, Stokes, Surry, Union, Vance, Wake, Warren, Wayne, Wilkes, Wilson, and Yadkin

all located in the State of North Carolina are authorized under Section 22 of the Interstate Commerce Act to establish and maintain until May 1, 1978, reduced rates for such transportation, the rates to be published and filed in the manner prescribed in Section 6 of the Interstate Commerce Act except that they may be effective upon-not less than one day's notice to the Commission and the public.

The class of persons entitled to reduced rates is defined as persons designated as being in distress and in need of relief by the United States Department of Agriculture or by State agents or agencies as may be designated by the United States Department of Agriculture to assist in relieving the distress caused by the drought.

During the period in which any reduced rates authorized by this order are effective the carriers may notwithstanding the provisions of Section 4 of the Interstate Commerce Act, maintain higher rates to directly intermediate points and maintain through rates in excess of the aggregate of intermediate rates over the same routes if one or more of the factors of such aggregate of intermediate rates is a reduced rate established under the authority of the order. Any tariffs or tariff provisions published under the authority of this order shall explicitly so state, making reference to this order by number and date.

The use of reduced rates established by authority of this order may be conditioned upon the release by the shipper of the value of the commodity, which released value, in its relationship to the invoice value of the property at time of shipment, shall be in the same percentage relation which the re-

duced rates bear to the rates which otherwise would apply.

Tariffs containing released rates filed under authority of this order shall show in connection with the rates the following notation:

The released value must be entered on shipping order and bill of lading in the following form:

The agreed or declared value of the property is stated by the shipper to be not in excess of (show percent) of the invoice value of the property herein described.

If the shipper fails or declines to execute the above statement, shipments will not be accepted for transportation at the reduced rates. Rates published elsewhere in other tariffs lawfully filed with the Interstate Commerce Commission will apply in such a case. Rates published on released value have been authorized by the Interstate Commerce Commission in Drought Order No. 71 (Sub No. 5).

Notice to the affected railroads and the general public shall be given by depositing a copy of this order in the Office of the Secretary of the Commission and by filing a copy with the director, Office of Federal Register; the Governor of North Carolina and that copies be mailed to the Chairman of the Traffic Executive Association-Eastern Railroads, New York, N.Y.; the Chairman of the Southern Freight Association, Atlanta, Ga.; the chairman of the Executive Committee, Western Railroads Traffic Association, Chicago, Ill.; the Vice President and Director, Economics and Finance Department, Association of American Railroads, Washington, D.C.; and to the President of the American Short Line Railroads Association, Washington, D.C.

This is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

Decided January 17, 1978.

By the Commission, Vice Chairman Christian.

H. G. HOMME, Jr.,  
Acting Secretary.

[General Temporary Order No. 11, Section 210(a); Ex Parte No. MC-64]

## EMERGENCY NEED FOR TRANSPORTATION SERVICE

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D.C., on December 16, 1977.

The Interstate Commerce Commission has considered the occasional emergency need for transportation service which can arise during those times when Commission employees are not available to grant authority applications. Such times would be weekends, holidays, and after business hours. Situations have been brought to our attention in which the unavail-

ability of field staff to meet these situations has caused serious hardship to shippers, and have caused danger to life and property.

Accordingly, the Commission is establishing with the effective date of this General Temporary Order new procedures which will allow for the granting of short term emergency temporary authority applications at the times mentioned above. These applications will be granted only under the following conditions, which can be summarized as involving situations in which life and property are in imminent danger.

(A) Transportation of firefighting material and supplies;

(B) Transportation of material and supplies needed to combat oil spills; and

(C) The transportation of material and supplies needed to deal with emergency situations caused by floods, earthquakes, or other natural disasters.

All other emergency temporary authority applications will be handled under procedures presently in effect. The following officials of the Commission are designated as authorized to grant applications of the type described above for a period not to exceed ten days.

### Name, Residence, and Home phone number

Arthur E. Bacon, Boston, Mass., 617-275-8696.

Daniel B. Lorusso, New York, N.Y., 914-738-4841.

Anthony W. Bummara, Philadelphia, Pa., 609-227-2793.

H. Forrest White, Philadelphia, Pa., 215-548-1421.

Jack K. Huff, Atlanta, Ga., 404-351-5301.

Bruce R. Reichelderfer, Atlanta, Ga., 404-992-9416.

Robert W. Waldron, Chicago, Ill., 312-392-3150.

James H. Berry, Fort Worth, Tex., 817-926-3385.

Haldon G. West, Fort Worth, Tex., 817-294-0965.

John L. Nancé, San Francisco, Calif., 415-489-8830.

Joseph F. Kucera, San Francisco, Calif., 415-755-7790.

Philip Yallowitz, Los Angeles, Calif., 213-347-3037.

Applicants seeking authority for transportation of commodities falling under any of the provisions listed above may make contact with any of the designated ICC officials.

Those applicants who do not presently hold authority from the Commission must supply evidence of their insurance coverage to the ICC official contacted. This evidence will consist of the name of their insurance company, their policy number, the type of insurance, and the limits of the policy.

After authority has been granted under these procedures, the applicant must supply the ICC field office having administrative supervision over

his operations with a letter containing the following information:

(1) A brief description of the authority granted, and the reasons for the emergency need.

(2) The name of the ICC official contacted.

(3) The date authority was granted.

(4) The rates charged for the transportation, together with a statement that these rates are no lower than comparable carrier rates now in effect.

(5) If no previous ICC authority is held, evidence of insurance coverage.

The Commission wishes to emphasize that the procedures outlined in this order are only to be used in "life and death" situations. The Commission believes that present procedures for handling emergency temporary authority applications are sufficiently flexible to meet all other emergency needs for transportation service. The Commission will closely monitor the use made of the procedures established in this order. Evidence of abuse of those procedures, or evidence that applicants are seeking authority for situations other than those specifically mentioned will constitute grounds for revocation of this order.

It is ordered that the provisions of General Temporary Order 11 shall become effective on February 1, 1978, and that they shall remain in effect until cancelled by further order of the Commission.

By the Commission, Division 1, Commissioners Stafford, Gresham and Christian.

H. G. HOMME, Jr.,  
Acting Secretary.

[Notice No. 5TA]

## MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

The following are notices of filing of applications for temporary authority under section 210(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information. Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

### MOTOR CARRIERS OF PROPERTY

No. MC 531 (Sub-No. 355TA), filed December 20, 1977. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, P.O. Box 14048, Houston, Tex. 77921. Applicant's representative: Wray E. Hughes (same address as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid animal feed supplements, in bulk, in tank vehicles, restricted against the transportation of corn syrup and liquid sugar, from Westwego, La., to points in Texas, except Waco, Nacogdoches and Center, Tex. for 180 days. Supporting shipper: Abbott Laboratories, 14 and Sheridan Road, North Chicago, Ill. 60064. Send protests to: District Supervisor, John F. Mensing, 8610 Federal Building, 515 Rusk Avenue, Houston, Tex. 77002.

No. MC 15735 (Sub-No. 28TA), filed December 22, 1977. Applicant: ALLIED VAN LINES, INC., 25th Avenue & Roosevelt Road, Broadview, Ill. 60153. Applicant's representative: Terry G. Fewell, P.O. Box 4403, Chicago, Ill. 60680. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Organs and organ benches, from Chicago and Romeoville, Ill., to all points in the United States (except Alaska and Hawaii), for 180 days. Supporting shipper: Lowrey Electronics Co., Lloyd E. Gomez, vice president, 4400 W. 45th Street, Chicago, Ill. 60632. Send protests to: Transportation Assistant Patricia A. Roscoe, Interstate Commerce Commission, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1386, Chicago, Ill. 60604.

No. MC 19193 (Sub-No. 13TA), filed December 22, 1977. Applicant: LAFERTY TRUCKING CO., 3703 Beale Avenue, Altoona, Pa. 16601. Applicant's representative: S. Berne Smith, 100 Pine Street, P.O. Box 1166, Harrisburg, Pa. 17108. Authority sought to

## NOTICES

operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products*, between the facilities of the Great Atlantic & Pacific Tea Company, Inc., in Altoona, Pa., on the one hand, and, on the other, points in the counties of Ashtabula, Columbiana, Cuyahoga, Geauga, Huron, Lake, Lorain, Mahoning, Ottawa, Portage, Sandusky, Summit, Stark, Erie, and Trumbull, Ohio. Restriction: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with the Great Atlantic & Pacific Tea Company, Inc., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: The Great Atlantic & Pacific Tea Company, Inc., Two Paragon Drive, Montvale, N.J. 07645. Send protests to: Richard C. Gobbell, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2111 Federal Building, 1000 Liberty Avenue, Pittsburgh, Pa. 15222.

No. MC 28060 (Sub-No. 38TA), filed December 23, 1977. Applicant: WILLER'S INC., d.b.a. WILLERS TRUCK SERVICE, P.O. Box 944, 1400 North Cliff Avenue, Sioux Falls, S. Dak. 57104. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Road NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products and articles distributed by meat packing plants* (except hides and commodities in bulk), from plantsite of Geo. A. Hormel & Co., at Huron, S. Dak., to Fremont, Nebr., and Cedar Rapids, Iowa, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Geo. A. Hormel & Co., P.O. Box 800, Austin, Minn. 55912. Mark E. Matthews, Supervisor, Motor Carrier Services. Send protests to: J. L. Hammond, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 455, Federal Building, Pierre, S. Dak. 57501.

No. MC 47583 (Sub-No. 57TA), filed December 19, 1977. Applicant: TOLLIE FREIGHTWAYS, INC., 1020 Sunshine Road, Kansas City, Kans. 66115. Applicant's representative: D. S. Hults P.O. Box 225, Lawrence, Kans. 66044. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed and feed ingredients*, from the plantsites and storage facilities of Kal Kan Foods, Inc., located at or near Hutchinson and Wichita, Kans., to all points and places in the states of Delaware, Maine, Michigan, New Hampshire, Rhode Island, Vermont, West Virginia, and Washington, D.C., for 180 days. Applicant has also filed an

underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Kal Kan Foods, Inc., 3386 E. 44th Street, Vernon, Calif. 90058. Send protests to: Vernon V. Coble, District Supervisor, Interstate Commerce Commission, 600 Federal Building, 911 Walnut Street, Kansas City, Mo. 64106.

No. MC 50069 (Sub-No. 529TA), filed December 19, 1977. Applicant: REFINERS TRANSPORT & TERMINAL CORP., 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: William P. Fromm (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry fertilizers*, in bulk, from the plantsite of Agrico Chemical Co. at Melbourne, Ky., to points in Illinois, Indiana, Kentucky, Michigan, Ohio, Virginia, and West Virginia, for 180 days. Supporting shipper: Agrico Chemical Co., P.O. Box 3166, Tulsa, Okla. 74101. Send protests to: Keith D. Warner, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 313 Federal Office Building, 234 Summit St., Toledo, Ohio 43604.

No. MC 67227 (Sub-No. 2TA), filed December 23, 1977. Applicant: B & H TRUCKING CO., INC., 1414 Ferry Avenue, Camden, N.J. 08104. Applicant's representative: Carl C. Snyder (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Muriatic acid*, in shipper owned tank vehicles, from Delaware City, Del., to Camden, N.J., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Peter Cooper Corp., Palmer Street, Gowanda, N.Y. 14070. Send protests to: District Supervisor, Interstate Commerce Commission, 428 East State Street, Room 204, Trenton, N.J. 08608.

No. MC 69116 (Sub-No. 197TA), filed December 23, 1977. Applicant: SPECTOR FREIGHT SYSTEM, INC., 1050 Kingerty Highway, Bensenville, Ill. 60106. Applicant's representative: Edward G. Bazelon, 39 S. La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic Pipe and fittings and cast iron and fittings*, from Bakers and Charlotte, N.C., to the Lower Peninsula of Michigan, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Charlotte Pipe and Foundry Co., Alan Biggers, manager-sales service and traffic, 2109 Randolph Road, Charlotte, N.C. 28203. Send protests to: Transportation Assistant, Patricia A. Roscoe, Interstate Commerce Com-

mission, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1386, Chicago, Ill. 60604.

No. MC 83539 (Sub-No. 474TA), filed December 19, 1977. Applicant: C & H TRANSPORTATION CO., INC., 1936-2010 West Commerce Street, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: Thomas E. James, P.O. Box 5976, Dallas, Tex. 75222. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Activated carbon*, in bags, from Marshall, Tex., to Durita mine site, Naturita, Colo., and Highland uranium mine site, Douglas, Wyo., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: ICI Americas, Inc., Wilmington, Del. 19897. Send protests to: Opal M. Jones, Transportation Assistant, Interstate Commerce Commission, 1100 Commerce Street, Room 13C12, Dallas, Tex. 75242.

No. MC 102567 (Sub-No. 205TA), filed December 22, 1977. Applicant: MCNAIR TRANSPORT, INC., 4295 Meadow Lane, P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Joe C. Day, 2040 North Loop West, Suite 208, Houston, Tex. 77018. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Sulfuric acid*, in bulk, in tank vehicles, from Baton Rouge, La., to Norphlet, Ark., and (2) *acid sludge*, in bulk, in tank vehicles, from Norphlet, Ark., to Baton Rouge, La., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): MacMillan Ring-Free Oil Co., Inc., P.O. Box 1623, El Dorado, Ark. 71730. Send protests to: Ray C. Armstrong, Jr., District Supervisor, Interstate Commerce Commission, T-9038 U.S. Postal Building, 701 Loyola Avenue, New Orleans, La. 70113.

No. MC 106674 (Sub-No. 276TA), filed December 23, 1977. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 46977. Applicant's representative: Linda J. Sundry (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry fertilizers*, in bulk, from the plantsite of Agrico Chemical Co. at Melbourne, Ky., to points in Illinois, Indiana, Kentucky, Ohio, Virginia, West Virginia, and Michigan. Restricted to the transportation of traffic originating at the above named plantsite, for 180 days. Supporting shipper: Agrico Chemical Co., P.O. Box 3166, Tulsa, Okla. 74101. Send protests to: J. H. Gray, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 343 West Wayne Street, Suite 113, Fort Wayne, Ind. 46802.

No. MC 113651 (Sub-No. 253TA), filed January 4, 1978. Applicant: INDIANA REFRIGERATOR LINES, INC., P.O. Box 552, Muncie, Ind., 47305. Applicant's representative: George E. Batty, P.O. Box 552, Muncie, Ind. 47305. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and articles distributed by meat packinghouses* (except hides and commodities in bulk), as defined in sections A and C of Appendix I to the Report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766, from the plantsite and warehouse facilities of Honey Beef House located at or near Mentone, Ind. to Bloomville and New York, N.Y. Restriction: Restricted to the transportation of traffic originating at the above named origins and destined to the named destinations, for 180 days. Supporting shipper: Honey Beef House, Box 57, Mentone, Ind. 46539. Send protests to: J. H. Gray, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 343 West Wayne Street, Suite 113, Fort Wayne, Ind. 46802.

No. MC 114989 (Sub-No. 20TA), filed December 22, 1977. Applicant: KENTUCKY WESTERN TRUCK LINES, INC., P.O. Box 623, Highway 41-A North, Hopkinsville, Ky. 42240. Applicant's representative: Richard D. Gleaves, 631 Stahlman Building, Nashville, Tenn. 37201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Milk cartons*, from Sikeston, Mo., and its commercial zone, to Hopkinsville, Ky., and its commercial zone, for the account of Model Pure Milk Co., and to Nashville, Tenn., and its commercial zone, for the account of Sealtest Foods, a division of Kraft, Inc., under a continuing contract, or contracts, with respective shippers, with Sealtest foods (Kraft, Inc.) and Model Pure Milk Co., for 180 days. Supporting shipper(s): (1) Mr. James R. Greaving, Distribution Manager, Sealtest Foods (Kraft, Inc.), 1401 Church Street, Nashville, Tenn. 37203. (2) Mr. Bobby Wall, Manager Procurement and Transportation, Model Pure Milk Co., Clay Street (12th and 13th) Hopkinsville, Ky. 42240. Send protests to: Linda H. Sypher, District Supervisor, Interstate Commerce Commission, 426 P.O. Building, Louisville, Ky. 40202.

## [6320-01]

## CIVIL AERONAUTICS BOARD.

[M-95; Jan. 17, 1978]

TIME AND DATE: 10:00 a.m., January 24, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 1. Ratification of items adopted by notation.

2. Dockets 31411 and 23888, application of Allegheny Airlines, Ransome Airlines, and the Sullivan County parties for approval of replacement agreement and postponement of inauguration of service at Sullivan County; petition of Altair for order modifying agreement between Allegheny and Ransome (BOR).

3. Docket 25135, Air Medic—Exemption to operate both as an air taxi operator and as an indirect air carrier performing air ambulance flights; staff proposal to amend Part 385 to expand delegated authority of Director, BOR to grant authority under section 101(3) to perform air ambulance operations as an indirect air carrier (Memo No. 3630-C, BOR, OGC).

4. Docket 30233, Northwest's Subpart N application for nonstop Seattle-Atlanta/Fort Lauderdale/Miami/Tampa Authority (Memo. No. 7711, BOR).

5. Docket 30984, Leavens Air Charter, Ltd., final Board action on show cause order 77-11-44 (Memo. No. 7551-A, BIA, BOR, OGC).

6. Docket 31645, application of Perimeter Aviation, Ltd., for issuance of a foreign air carrier permit (Memo. No. 7709, BIA, BOR, OGC).

7. Docket 29282, Pacific Coastal Airlines, Ltd., final Board action on show cause order 77-4-8 (Memo. No. 6953-A, BIA, BOR, OGC).

8. Docket 28125, Transportes Aereos Benianos, S.A., proposed permit cancellation (Memo. No. 5463-A, BIA, OGC).

9. Dockets 15529 and 27589, baggage liability rules case and domestic baggage liability rules investigation (Memo. No. 7132-C, BFR).

10. First-class "Freedom" excursion fares proposed by Braniff (BFR).

STATUS: Open.

## PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary,  
202-673-5068.

[S-153-78: Filed 1-20-78; 9:31 am]

## [6320-01]

## CIVIL AERONAUTICS BOARD.

[M-95 amdt. 1; Jan. 18, 1978]

ADDITION OF ITEM TO THE JANUARY 24, 1978, MEETING AGENDA

TIME AND DATE: 10 a.m., January 24, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue, NW., Washington, D.C. 20428.

SUBJECT: 4a. FAA draft environmental impact statement on the Concorde (Memo. No. 7195A, BOR, OGC, BAS).

STATUS: Open.

## PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary,  
202-673-5068.

## SUPPLEMENTARY INFORMATION:

This item concerns FAA draft environmental impact statement on the Concorde. Because this item was not available at the time the agenda for January 24, 1978, was prepared, and so that the Board can review this as expeditiously as possible the following Members have voted that agency business requires the addition of this item to the agenda of January 24, 1978, and that no earlier announcement of this addition was possible:

Acting Chairman G. Joseph Minetti  
Member Lee R. West  
Member Richard J. O'Mella

Member Elizabeth E. Bailey

## CIVIL AERONAUTICS BOARD.

[M-96; Jan. 18, 1978]

TIME AND DATE: 10 a.m., January 25, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: The National Air Carrier Association to make a presentation on the supplemental carriers.

STATUS: Open.

## PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary,  
202-673-5068.

[S-155-78 Filed 1-20-78; 9:31 am]

## [6351-01]

## COMMODITY FUTURES TRADING COMMISSION.

TIME AND DATE: 11:30 a.m., January 24, 1978.

PLACE: 2033 K Street NW., Washington, D.C., 5th floor hearing room.

STATUS: Closed.

MATTERS TO BE CONSIDERED: Litigation matters.

CONTACT PERSON FOR MORE INFORMATION:

Jane Stuckey, 254-6314.

[S-151-78 Filed 1-20-78; 9:31 am]

## [6712-01]

## FEDERAL COMMUNICATIONS COMMISSION.

TIME AND DATE: Follows 9:30 a.m., open Commission meeting, Wednesday, January 25, 1978.

PLACE: Room 856, 1919 M Street NW., Washington, D.C.

STATUS: Closed Commission meeting.

MATTERS TO BE CONSIDERED:

Agenda, Item No., and Subject

Hearing—1—Questions concerning parative proceeding for a new standard broadcast

## SUNSHINE ACT MEETINGS

station at Lares, P.R. (Docket Nos. 20968-20969), and request for reconsideration of the amendment of Rule 73.35(b) (Docket No. 20548).

This meeting may be continued the following work day to allow the Commission to complete appropriate action.

## CONTACT PERSON FOR MORE INFORMATION:

Samuel M. Sharkey, FCC Public Information Officer, telephone No. 202-632-7260.

Issued: January 18, 1978.

(S-159-78 Filed 1-20-78; 12:54 pm)

[6712-01]

## FEDERAL COMMUNICATIONS COMMISSION.

TIME AND DATE: 9:30 a.m., Wednesday, January 25, 1978.

PLACE: Room 856, 1919 M Street NW., Washington, D.C.

STATUS: Open Commission meeting.

## MATTERS TO BE CONSIDERED:

Agenda, Item No., and Subject

Hearing—1—Draft order requesting comments of the parties for disposition of the WSTE-TV, Inc., case (Docket Nos. 18048-9).

General—1—Proposed Canada/United States channeling arrangements for maritime mobile correspondence frequencies (Docket No. 20617).

## Safety and special radio services:

1—Application for review of action concerning section 97.67(c) of the commission's amateur radio rules.

2—Amendment of Parts 89, 91, 93, and 95 of the Commission's rules to provide for use of digital voice modulation in secure communications systems (Docket No. 21142).

3—Central Station Electrical Protection Association's request for reconsideration of the Commission's May 20, 1977, decision denying its petition for rule making (RM-2698).

4—Simplification of the licensing and call sign assignment systems in the amateur radio service (Docket No. 21135).

## Common Carrier:

1—Memorandum opinion and order to show cause why the Commission should not revoke the license of Seaway Communications, Ship Bottom, N.J. (DPLMRS Station KUS413).

2—Petition filed by Warsaw Television Cable Corp. to suspend tariff filings of the Rochester Telephone Corp. for cable television signal distribution service.

3—American Television Relay refund proposal.

4—Petition for stay of order requiring COMSAT to file new informational tariffs for its Intelsat operations and to adjust its escrow account to reflect all arrearsages with interest (Docket No. 16070).

## Cable Television:

1—Proposals concerning regulation of cable television system carriage of AM

and FM radio and request that cable systems be prohibited from cablecasting radio programming (RM-2528) or offering cablecast unless all local FM stations are carried (RM-2575).

2—Application for review, filed by Forum Communications Co., licensee of KSFY-TV, Sioux Falls, KABY-TV, Aberdeen, and KPRY-TV, Pierre, all in South Dakota.

3—Petition for reconsideration, filed by Daniels Properties, Inc., operator of a cable television system at Nolanville, Tex. (CAC-07527).

4—Petitions for stay of Commission decision in Vanhu, Inc. (Seattle, Wash.), filed by United Community Antenna Systems, Community Telecable of Seattle and Tele-Vue Systems, and KIRO's objections.

5—Reconsideration of use of predicted field strength contours for cable television regulation, and expanding carriage of UHF stations on cable systems (Docket No. 20496).

6—Petition for partial reconsideration, filed by Clearview TV Cable of Enumclaw, Wash. (CSR-948).

Assignment of license and transfer of control—1—Application for assignment of WMDI(FM), McKean, Pa., from Mikrodawn, Inc., to Jet Broadcasting Co. (BALH-2357).

## Renewal:

1—Application of Bairdland Broadcasting, Inc., for renewal of KCHS, Truth or Consequences, N.M.

2—Mutually exclusive applications for renewal of license filed by the noncommercial share-time licensees on channel 2, Miami, Fla. (File Nos. BRET-184, BRET-17).

Television—1—Application (BPCT-4910) filed by Meyer Broadcasting Co. for a satellite television station and petition to deny filed by Dickinson Broadcasting (KDIX-AM and KDIX-TV), both of Dickinson, N. Dak.

Broadcast—1—Amendment of section 73.52 of the Commission's rules regarding relative phase tolerance of directional AM stations.

Complaints and compliance—1—Application for review of a January 21, 1976, decision ordering payment by Lenawee Broadcasting Co. of a forfeiture.

This meeting may be continued the following work day to allow the Commission to complete appropriate action.

## CONTACT PERSON FOR MORE INFORMATION:

Samuel M. Sharkey, FCC Public Information Officer, telephone No. 202-632-7260.

Issued: January 18, 1978.

(S-160-78 Filed 1-20-78; 12:54 pm)

[6740-02]

## FEDERAL ENERGY REGULATORY COMMISSION.

JANUARY 20, 1978.

The following notice of meeting is published pursuant to section 3(a) of the Government in the Sunshine Act (Pub. L. No. 94-409), 5 U.S.C. 552b:

## FEDERAL ENERGY REGULATORY COMMISSION

Time and Date: January 20, 1978, 12 noon.  
Status: Open.

Matters to be considered: Matters relating to emergency purchases by natural gas pipelines in several undocketed proceedings.

Contact person for more information: Lois D. Cashell, Acting Secretary, telephone 202-275-4168.

The following members of the Commission have voted that agency business requires the holding of this meeting on less than the one week's notice required by the Government in the Sunshine Act: Chairman Curtis and Commissioners Smith, Sheldon, Holden, and Hall.

(S-157-78 Filed 1-20-78; 12:10 pm)

[6740-02]

## FEDERAL ENERGY REGULATORY COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 43 FR 3009.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: January 25, 1978, 10 a.m.

CHANGE IN THE MEETING: The following items have been added:

Item No., Docket No., and Company

RP-9—RP77-140, Consolidated Gas Supply Corp.

RP-10—RP72-149(PGA77-10), Mississippi River Transmission Corp.

M-2—RM74-16, Natural Gas Cos.' annual report of proved domestic gas reserves: FPC Form No. 40.

ER-9—E-9609, Connecticut Municipal Electric Energy Cooperative, Complainant v. Power Authority of the State of New York, Respondent.

LOIS D. CASHELL,  
Acting Secretary.

(S-158-78 Filed 1-20-78; 12:10 pm)

[6720-02]

## FEDERAL HOME LOAN MORTGAGE CORPORATION.

TIME AND DATE: At the conclusion of the open meeting to be held at 2:30 p.m., January 26, 1978.

PLACE: 1700 G Street NW., Sixth Floor, Washington, D.C.

STATUS: Closed meeting.

## CONTACT PERSON FOR MORE INFORMATION:

Mr. Henry Judy, 202-624-7107.

MATTERS TO BE CONSIDERED: Consideration of November 1977 financial statements; consideration of December 1977 financial statements and January 1978 cash budget.

## SUNSHINE ACT MEETINGS

Announcement is being made at the earliest practicable time.

No. 127, January 20, 1978.

RONALD A. SNIDER,  
Assistant Secretary.

(S-161-78 Filed 1-20-78; 4:43 pm)

[6720-02]

## FEDERAL HOME LOAN MORTGAGE CORPORATION.

TIME AND DATE: 2:30 p.m., January 26, 1978.

PLACE: 1700 G Street NW., Sixth Floor, Washington, D.C.

[7035-01]

## INTERSTATE COMMERCE COMMISSION.

TIME AND DATE: 9 a.m., Thursday, January 26, 1978.

PLACE: Office of Chairman O'Neal, Room 3130, Interstate Commerce

Commission Building, 12th and Constitution Avenue NW., Washington, D.C.

STATUS: Open informal conference.

MATTERS TO BE CONSIDERED: To facilitate general communication of information and ideas among members of the Commission as to general matters of common concern with respect to the Commission and its work. There will be no discussion or determination of any specific pending proceeding or agency action and there will be no formal agenda.

## CONTACT PERSON FOR MORE INFORMATION:

Office of Information and Consumer Affairs, Douglas Baldwin, Director, telephone 202-275-7252.

(S-163-78 Filed 1-20-78; 4:43 pm)

[7035-01]

## INTERSTATE COMMERCE COMMISSION.

15

JANUARY 20, 1978.

TIME AND DATE: 9:30 a.m., Tuesday, January 31, 1978.

PLACE: Room 4225, Interstate Commerce Commission Building, 12th Street and Constitution Avenue NW., Washington, D.C.

STATUS: Special open conference.

MATTER TO BE CONSIDERED: 1. Railroad merger standards and policy—Recommendations of the Rail Services Planning Office (briefing, discussion, and possible voting).

## CONTACT PERSON FOR MORE INFORMATION:

Office of Information and Consumer Affairs, Douglas Baldwin, Director, telephone 202-275-7252.

The Commission's professional staff will be available to brief news media representatives on conference issues at the conclusion of the meeting.

(S-164-78 Filed 1-20-78; 4:43 pm)

[7600-01]

## OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION.

16

TIME AND DATE: 10 a.m., January 27, 1978.

PLACE: Room 1101, 1825 K Street NW., Washington, D.C.

STATUS: This meeting is subject to being closed by a vote of the Commissioners taken at the beginning of the meeting.

MATTERS TO BE CONSIDERED: Discussion of specific cases in the Commission adjudication process.

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

### ADVANCED NURSE TRAINING PROGRAMS

Proposed Grants Provisions

Registered  
Federal  
Parole

[4110-83]

**DEPARTMENT OF HEALTH,  
EDUCATION, AND WELFARE**

Public Health Service

[42 CFR Part 57]

**GRANTS FOR ADVANCED NURSE TRAINING  
PROGRAMS**

AGENCY: Public Health Service,  
HEW.

ACTION: Notice of proposed rulemak-  
ing.

SUMMARY: The Assistant Secretary  
for Health, Department of Health,  
Education, and Welfare, with the ap-  
proval of the Secretary of Health,  
Education, and Welfare, proposes reg-  
ulations for grants to public and non-  
profit private collegiate schools of  
nursing to meet the costs of projects  
to plan, develop, and operate, signifi-  
cantly expand, or maintain existing  
programs for the advanced training of  
professional nurses under section 821  
of the Public Health Service Act (42  
U.S.C. 2961).

DATES: Comments must be received  
on or before February 23, 1978.

ADDRESSES: Written comments,  
preferably in triplicate, may be ad-  
dressed to the Director, Bureau of  
Health Manpower, Health Resources  
Administration, 3700 East-West High-  
way, Center Building, Room 4-22, Hy-  
attsville, Md. 20782.

All comments received will be avail-  
able for public inspection and copying  
at the Office of Program Operations,  
Bureau of Health Manpower, at the  
above address, weekdays (Federal holi-  
days excepted) between the hours of  
8:30 a.m. and 5 p.m.

FOR FURTHER INFORMATION  
CONTACT:

Miss Edith Rathbun, Division of  
Nursing, Bureau of Health Manpow-  
er, Room 3-50, at the above address,  
301-436-6684.

SUPPLEMENTARY INFORMATION:  
The Assistant Secretary for Health,  
Department of Health, Education, and  
Welfare with the approval of the Sec-  
retary of Health, Education, and Wel-  
fare, proposes to add a new Subpart Z  
to Part 57 of Title 42, Code of Federal  
Regulations, as set forth in tentative  
form below, entitled "Grants for Ad-  
vanced Nurse Training Programs."

The purpose of this new subpart is  
to establish regulations implementing  
section 821 of the Public Health Ser-  
vice Act, as added by section 931 of  
Pub. L. 94-63, which authorizes the  
Secretary of Health, Education, and  
Welfare to award grants to public and  
nonprofit private collegiate schools of  
nursing to meet the costs of projects  
to (1) plan, develop, and operate, (2)

significantly expand, or (3) maintain  
existing programs for the advanced  
training of professional nurses to  
teach in the various fields of nurse  
training, to serve in administrative or  
supervisory capacities, or to serve in  
other professional nursing specialties  
(including service as nurse clinicians)  
determined by the Secretary to re-  
quire advanced training.

Written comments, objections, or  
data concerning the proposed regula-  
tions are invited from interested per-  
sons. All relevant material received on  
or before February 22, 1978, will be  
considered before promulgation of  
final regulations governing grants for  
advanced nurse training programs.  
The Department is particularly inter-  
ested in receiving comments on the  
following aspects of the proposed reg-  
ulations:

1. Section 821 of the Act provides  
support for projects for the advanced  
training of professional nurses. Under  
this section, projects for the advanced  
training of professional nurses in the  
fields of nursing administration, su-  
pervision, or education, or other pro-  
fessional nursing specialties (including  
service as nurse clinicians) which the  
Secretary determines require ad-  
vanced nurse training are eligible for  
such support. As set forth in  
§ 57.2502(h) of the proposed regula-  
tions, the Secretary has determined  
that the following six specialties re-  
quire advanced nurse training: (1)  
Geriatric nursing; (2) community  
health nursing; (3) maternal-child  
nursing; (4) acute care nursing; (5)  
medical-surgical nursing; and (6) adult  
nursing. Therefore, only projects for  
the advanced training of professional  
nurses in the above-listed six special-  
ties, or in nursing administration, su-  
pervision, or education are eligible for  
support.

2. Section 57.2506(b) of the proposed  
regulations provides that funding pri-  
ority will be given to eligible projects  
in any of the following specialties: (1)  
Geriatric nursing; (2) community  
health nursing; and (3) maternal-child  
nursing.

3. Section 57.2506(a) of the proposed  
regulations provides that in evaluating  
applications, the Secretary will consid-  
er the following, among other factors:  
(1) The need for nurses in the special-  
ty in which training is to be provided  
in the State in which the training pro-  
gram is located, as compared with the  
need for such nurses in other States;  
(2) the degree to which the applicant  
proposes to recruit students from  
States in need of nurses in the special-  
ty in which training is to be provided,  
and to encourage them to return to  
such States following completion of  
the training; and (3) the degree to  
which the applicant proposes to en-  
courage graduates to practice in States  
in need of nurses in the specialty in

which training is to be provided. Con-  
tinuation awards made after the final  
publication of these regulations will be  
subject to the above-described evalua-  
tion criteria, as well as the priorities in  
§ 57.2506(b).

In addition to the above, attention is  
called to the following features of the  
proposed regulations:

1. Section 57.2503 of the proposed  
regulations sets forth eligibility re-  
quirements for the three types of pro-  
jects (i.e. to (1) plan, develop, and op-  
erate, (2) significantly expand, or (3)  
maintain existing advanced nurse  
training programs) which may be sup-  
ported under section 821 of the Public  
Health Service Act.

2. Under § 57.2504 of the proposed  
regulations, an application for a pro-  
ject to significantly expand or to  
maintain an existing advanced nurse  
training program must contain an as-  
surance that the applicant will  
expand, in carrying out the program  
during the fiscal year for which the  
grant is sought, an amount of non-  
Federal funds (excluding costs of con-  
struction) at least as great as the av-  
erage amount of non-Federal funds (ex-  
cluding expenditures of a nonrecur-  
ring nature, including costs of con-  
struction) expended during the three  
fiscal years immediately preceding the  
fiscal year for which the grant is  
sought.

3. Although not required by statute,  
§ 57.2506(a) of the proposed regula-  
tions provides that the Secretary will  
make grants for advanced nurse train-  
ing programs only after consultation  
with the National Advisory Council on  
Nurse Training established under sec-  
tion 851(a) of the Public Health Ser-  
vice Act.

It is therefore proposed to add a new  
Subpart Z to Part 57 to read as set  
forth below.

NOTE.—The Department of Health, Educa-  
tion, and Welfare has determined that this  
document does not contain a major proposal  
requiring preparation of an Inflation  
Impact Statement under Executive Order  
11821 and OMB Circular A-107.

Dated: January 13, 1978.

**JULIUS B. RICHMOND,**  
*Assistant Secretary for Health.*

Approved: January 16, 1978.

AUTHORITY: Sec. 215, 58 Stat. 690, as  
amended (42 U.S.C. 216); sec. 821, 89 Stat.  
361 (42 U.S.C. 2961).

§ 57.2501 Applicability.

The regulations of this subpart are  
applicable to the award of grants to  
public and nonprofit private collegiate  
schools of nursing under section 821 of  
the Public Health Service Act (42  
U.S.C. 2961) to meet the costs of pro-  
jects to (1) plan, develop, and operate,  
(2) significantly expand, or (3) main-  
tain existing, programs for the ad-  
vanced training of professional nurses  
to teach in the various fields of nurse  
training, to serve in administrative or  
supervisory capacities, or to serve in  
other professional nursing specialties  
(including service as nurse clinicians)  
determined by the Secretary to re-  
quire advanced training.

§ 57.2502 Definitions.

As used in this subpart:

(a) "Act" means the Public Health  
Service Act, as amended.

(b) "Secretary" means the Secretary  
of Health, Education, and Welfare and  
any other officer or employee of the  
Department of Health, Education, and  
Welfare to whom the authority in-  
volved has been delegated.

(c) "Council" means the National  
Advisory Council on Nurse Training  
(established by section 851(a) of the  
Act).

(d) "Budget period" means the inter-  
val of time into which the approved  
activity is divided for budgetary pur-  
poses, as specified in the grant award  
document.

(e) "Project period" means the total  
time for which support for a project  
has been approved, as specified in the  
grant award document.

(f) "State" means a State, the Com-  
monwealth of Puerto Rico, the Dis-  
trict of Columbia, the Canal Zone,  
Guam, American Samoa, the Virgin Is-  
lands, or the Trust Territory of the  
Pacific Islands.

(g) "Collegiate school of nursing"  
means a department, division, or other  
administrative unit in a college or uni-  
versity which provides primarily or ex-  
clusively a program of education in  
professional nursing and allied sub-  
jects leading to the degree of bachelor  
of arts, bachelor of science, bachelor  
of nursing, or to an equivalent degree,  
or to a graduate degree in nursing, and  
including advanced training related to  
such program of education provided  
by such school, but only if such pro-  
gram, or such unit, college or universi-  
ty is accredited.

(h) "Advanced nurse training pro-  
gram" means a program of study in a  
collegiate school of nursing leading to

a graduate degree in nursing which  
trains professional nurses to teach in  
the various fields of nurse training, to  
serve in administrative or supervisory  
capacities, or to serve in other profes-  
sional nursing specialties (including  
service as nurse clinicians) determined  
by the Secretary to require advanced  
training. For purposes of this section,  
the Secretary has determined that the  
following professional nursing special-  
ties require advanced nurse training:

(1) Geriatric nursing, (2) community  
health nursing, (3) maternal-child  
nursing, (4) acute care nursing, (5)  
medical-surgical nursing, and (6) adult  
nursing.

(i) "Professional nurse" means a reg-  
istered nurse who has received initial  
nursing preparation from a diploma,  
associate degree, or collegiate school  
of nursing as defined in section 853 of  
the Act and who is currently licensed  
to practice nursing.

(j) "Nonprofit" as applied to any  
school means one which is a corpora-  
tion or association, or is owned and op-  
erated by one or more corporations or  
associations, no part of the net earn-  
ings of which inures or may lawfully  
inure, to the benefit of any private  
shareholder or individual.

(k) "Construction" means (1) the  
construction of new buildings and the  
acquisition, expansion, remodeling, re-  
placement, and alteration of existing  
buildings including architects' fees but  
not including the cost of acquisition of  
land (except in the case of acquisition  
of an existing building), offsite im-  
provements, living quarters, or pa-  
tient-care facilities, and (2) equipping  
new buildings and existing buildings,  
whether or not acquired, expanded, re-  
modeled, or altered.

§ 57.2503 Eligibility.

(a) *Eligible applicants.* To be eligible  
for a grant under this subpart the ap-  
plicant shall:

(1) Be a public or nonprofit private  
collegiate school of nursing.

(2) Be located in a State.

(b) *Eligible projects.* A grant under  
this subpart may be made to an eligi-  
ble applicant to meet the cost of:

(1) A project to plan, develop, and  
operate an advanced nurse training  
program (which will enroll students  
before the end of the project period);

(2) A project to significantly expand  
an advanced nurse training program  
through one of the following activi-  
ties:

(i) The addition to the program of a  
new clinical or functional (such as ad-  
ministration or teaching) specialty  
area,

(ii) A planned increase in student en-  
rollment during the project period, or  
(iii) The addition of a new training  
site for the program; or

(3) A project to maintain an existing  
advanced nurse training program.

§ 57.2504 Application.

(a) Each eligible applicant desiring a  
grant under this subpart shall submit  
an application in such form and at  
such time as the Secretary may pre-  
scribe.<sup>1</sup>

(b) The application shall be execut-  
ed by an individual authorized to act  
for the applicant and to assume on  
behalf of the applicant the obligations  
imposed by the terms and conditions  
of any award, including the regula-  
tions of this subpart.

(c) In addition to such other perti-  
nent information as the Secretary may  
require, an application for a grant  
under this subpart shall contain the  
following:

(1) A proposal for a project to (i)  
plan, develop, and operate, (ii) signifi-  
cantly expand, or (iii) maintain an ex-  
isting, advanced nurse training pro-  
gram.

(2) Information documenting the  
need for the proposed project.

(3) A description of specific attain-  
able and measurable objectives for the  
proposed project consistent with the  
purposes of section 821 of the Act.

(4) A detailed plan for achieving and  
measuring the stated objectives of the  
proposed project.

(5) A description of the anticipated  
impact of the proposed project, includ-  
ing its potential contribution to nurs-  
ing.

(6) Evidence satisfactory to the Sec-  
retary that the applicant will have  
available adequate resources for the  
conduct of the proposed project, in-  
cluding adequate faculty, staff, equip-  
ment, facilities, and an appropriate  
clinical practice setting or settings.

(7) A detailed budget for the pro-  
posed project and a justification of the  
amount of grant funds requested.

(8) A description of any Federal fi-  
nancial support related to the pro-  
posed project which the applicant is  
currently receiving.

(9) A detailed timetable for carrying  
out the activities of the proposed pro-  
ject, including any plans for continu-  
ing such activities beyond the project  
period.

(10) A description of the background  
and qualifications of the project staff  
and any proposed consultants.

(11) Information concerning the  
source and number of potential stu-  
dents for the training program, and a  
description of plans, if any to encour-  
age graduates of the training program  
to practice in States in need of nurses  
trained in the specialty in which train-  
ing is to be provided.

<sup>1</sup> Applications and instructions may be ob-  
tained from the Division of Nursing, Bureau  
of Health Manpower, Health Resources Ad-  
ministration, Department of Health, Educa-  
tion, and Welfare, Center Building, Room 3-  
50, 3700 East-West Highway, Hyattsville,  
Md. 20782.

## PROPOSED RULES

(d) In the case of a project to significantly expand or to maintain an existing advanced nurse training program, the application shall contain an assurance satisfactory to the Secretary that the applicant will expend, in carrying out such program during the fiscal year for which a grant under this subpart is sought, an amount of non-Federal funds (excluding costs of construction as defined in § 57.2502(k)) at least as great as the average amount of non-Federal funds (excluding expenditures of a nonrecurring nature, including costs of construction as defined in § 57.2502(k)) expended for this purpose during the three fiscal years immediately preceding the fiscal year for which such grant is sought.

## § 57.2505 Project requirements.

(a) A project supported under this subpart shall be conducted in accordance with its approved application.

(b) A project supported under this subpart shall enroll only professional nurses, as defined in § 57.2502(i), in its advanced nurse training program.

## § 57.2506 Evaluation and grant awards.

(a) Within the limits of funds available for such purpose, the Secretary, after consultation with the Council, may award grants to those applicants whose projects will, in his judgment, best promote the purposes of section 821 of the Act, taking into consideration among other pertinent factors:

(1) The need for the proposed project including, with respect to projects to provide training in professional nursing specialties determined by Secretary to require advanced training, (A) the current or anticipated need for professional nurses trained in such specialty; and (B) the relative number of programs offering advanced training in such specialty;

(2) The need for nurses in the specialty in which training is to be provided in the State in which the training program is located, as compared with the need for such nurses in other States;

(3) The degree to which the applicant proposes to recruit students from States in need of nurses in the specialty in which training is to be provided, and to promote their return to such States following training;

(4) The degree to which the applicant proposes to encourage graduates to practice in States in need of nurses in the specialty in which training is to be provided;

(5) The potential effectiveness of the proposed project in carrying out the training purposes of section 821 of the Act and this subpart;

(6) The capability of the applicant to carry out the proposed project;

(7) The soundness of the fiscal plan for assuring effective utilization of grant funds; and

(8) The potential of the project to continue on a self-sustaining basis after the period of grant support.

(b) In making awards under paragraph (a) of this section, the Secretary will give preference to applications for projects for advanced nurse training in geriatric nursing, community health nursing, and maternal-child nursing.

(c) The amount of any award under this subpart will be determined by the Secretary on the basis of his estimate of the sum necessary for all or a designated portion of the direct costs of the project plus an additional amount for indirect costs, if any, which will be calculated by the Secretary either (1) on the basis of his estimate of the actual indirect costs reasonably related to the project, or (2) on the basis of a percentage of all, or a portion of, the estimated direct costs of the project when there are reasonable assurances that the use of such percentage will not exceed the approximate actual indirect costs. Such award may include an estimated provisional amount for indirect costs or for designated direct costs (such as fringe benefit rates) subject to upward (within the limits of available funds) as well as downward adjustments to actual costs when the amount properly expended by the grantee for provisional items has been determined by the Secretary.

(d) All grant awards shall be in writing and shall set forth the amount of funds granted and the period for which such funds will be available for obligation by the grantee.

(e) Neither the approval of any project nor the award of any grant shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved project or portion thereof. For continuation support, grantees must make separate application annually and at such times and in such form as the Secretary may prescribe.

## § 57.2507 Grant payments.

The Secretary will from time to time make payments to the grantee of all or a portion of any grant award, either by way of reimbursement for expenses incurred in the budget period, or in advance for expenses to be incurred, to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project.

## § 57.2508 Expenditure of grant funds.

(a) Any funds granted pursuant to this subpart as well as other funds to be used in performance of the approved project shall be expended solely for carrying out the approved project in accordance with section 821 of the Act, the regulations of this subpart, the terms and conditions of the award, and the applicable cost principles

prescribed by Subpart Q of 45 CFR Part 74; *Provided*, That such funds shall not be expended for sectarian instruction or for any religious purpose.

(b) Any unobligated grant funds remaining in the grant account at the close of a budget period may be carried forward and be available for obligation during subsequent budget periods of the project period. The amount of a subsequent award will take into consideration the amount remaining in the grant account. At the end of the last budget period of the project period, any unobligated grant funds remaining in the grant account must be refunded to the Federal Government.

## § 57.2509 Nondiscrimination.

(a) Attention is called to the requirements of section 855 of the Act and 45 CFR Part 83, which together provide that the Secretary may not make a grant, loan guarantee, or interest subsidy payment under Title VIII of the Act to, or for the benefit of, any entity unless the application for the grant, loan guarantee, or interest subsidy payment contains assurances satisfactory to the Secretary that the entity will not discriminate on the basis of sex in the admission of individuals to its training programs.

(b) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular to section 601 of such Act which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 80).

(c) Attention is called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. A regulation implementing such Title IX, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 86).

(d) Attention is called to the requirements of section 504 of the Rehabilitation Act of 1973, as amended, which provides that no otherwise qualified handicapped individual in the United States shall, solely by reason of his

handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such section 504, which is applicable to grants made under this subpart, has been issued by the Secretary (45 CFR Part 84).

(e) Grant funds used for alteration or renovation shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (Sept. 24, 1965) as amended, and with the applicable rules, regulations, and procedures prescribed pursuant thereto.

(f) The grantee shall not discriminate on the basis of religion in the admission of individuals to its training programs.

## § 57.2510 Human subjects.

No award may be made under this subpart unless the applicant has complied with 45 CFR Part 46 and any other applicable requirements pertaining to the protection of human subjects.

## § 57.2511 Grantee accountability.

(a) *Accounting for grant award payments.* All payments made by the Secretary shall be recorded by the grantee in accounting records separate from the records of all other funds, including funds derived from other grant awards. With respect to each approved project the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures for costs meeting the requirements of this subpart; *Provided*, That when the amount awarded for indirect costs was based on a predetermined fixed percentage of estimated direct costs, the amount allowed for indirect costs shall be computed on the basis of such predetermined fixed-percentage rates applied to the total or selected elements of the reimbursable direct costs incurred.

## PROPOSED RULES

(b) *Accounting for royalties.* Royalties received by grantees from copyrights on publication or other works developed under the grant, or from patents or inventions conceived or first actually reduced to practice in the course of or under such grant shall be accounted for as follows:

(1) Royalties received during the period of grant support as a result of copyrights or patents may be retained by the grantee and, in accordance with the terms and conditions of the grant, use in either or both of the following ways:

(i) Used by the grantee for any purposes that further the objectives of section 821 of the Act.

(ii) Deducted from the total project costs for the purpose of determining the net costs on which the Federal share of costs will be based.

(2) Royalties received after the completion or termination of grant support shall be treated as follows:

(i) Patent royalties will be governed by agreements between the Assistant Secretary for Health, Department of Health, Education, and Welfare, and the grantee pursuant to the Department's patent regulations (45 CFR Parts 6 and 8).

(ii) Copyright royalties may be retained by the grantee, unless the terms and conditions of the grant or a specific agreement negotiated between the Secretary and the grantee provide otherwise.

(c) *Grant closeout.*—(1) *Date of final accounting.* A grant shall render, with respect to each approved project, a full account, as provided herein, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of (i) any amount not accounted for pursuant to paragraphs (a) and (b) of this section; and (ii) any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74. Such total sum shall constitute a debt owed by the

grantee to the Federal Government and shall be recovered from the grantee or its successors or assigns by setoff or other action as provided by law.

## § 57.2512 Publications and copyright.

Except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from a project supported by a grant under this subpart, subject to a royalty-free, nonexclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate and dispose of such materials, and to authorize others to do so.

## § 57.2513 Applicability of 45 CFR Part 74.

The relevant provisions of the following subparts of Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants awarded under this subpart:

## Subpart

- A General.
- B Cash depositories.
- C Bonding and insurance.
- D Retention and custodial requirements for Records.
- F Grant-related income.
- G Matching and cost sharing.
- K Grant payment requirements.
- L Budget revision procedures.
- M Grant closeout, suspension, and termination.
- O Property.
- Q Cost principles.

## § 57.2514 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved project, the interests of the public health, or the conservation of grant funds.

# AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
	CSC			CSC
	LABOR			LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

**ATTENTION:** For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

**federal register**

Phone 523-5240  
Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

## HIGHLIGHTS—Continued

### AVIATION RADIO SERVICES

FCC proposes to permit the authorization of additional Aeronautical Advisory Station at landing area to separate helicopter and fixed-wing aircraft communications, comments by 2-24-78 ..... 3408

### COUNTERVAILING DUTIES

Treasury/Customs initiates countervailing duty investigation on optic liquid level sensing systems from Canada ..... 3453

### PRIVACY ACT

EPA systems of records; annual publication (Part II of this issue)..... 3502

### MEETINGS—

Commerce/ITA: Computer Systems Technical Advisory Committee, 2-16-78.....	3418
Foreign Availability Subcommittee of the Computer Systems Technical Advisory Committee, 2-14-78 .....	3419
Licensing Procedures Subcommittee of the Computer Systems Technical Advisory Committee, 2-14-78 .....	3420
Commerce/NOAA: Gulf of Mexico Fishery Management Council, 2-7 through 2-9-78 .....	3421
DOD/AF: Scientific Advisory Board Electronic Systems Division Advisory Group, Air Force Systems Command, 2-9 and 2-10-78 .....	3422
FCC: Radio Technical Commission for Marine Services, 2-16-78 .....	3436
HEW/NIH: Committee on Cancer Immunotherapy, National Cancer Institute, 2-9-78 .....	3441
General Clinical Research Centers Committee, Division of Research Resources, 2-6 and 2-7-78 .....	3442
HEW/SECY: National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research, 2-10 and 2-11-78 .....	3439
HUD: Task Force on Housing Costs Advisory Committees, 2-8 through 2-10-78 .....	3442
Interior/NPS: Biscayne National Monument, Florida, Draft Environmental Statement on General Management Plan, 1-25 and 1-26-78 .....	3444

NRC: Advisory Committee on Reactor Safeguards, 2-9 through 2-11-78 .....	3445
NSF: Biological Research Resources Program, Conference on Long-Term Ecological Measurements, 2-6 through 2-10-78 .....	3445
Biological Research Resources Program, Symposium on the Impact of Federal Wildlife Regulation's on the Systematics/Ecology Community, 2-14 and 2-15-78 .....	3445
Subcommittee on Human Cell Biology of the Advisory Committee for Physiology, Cellular, and Molecular Biology, 2-10 and 2-11-78 .....	3445
SBA: Region I Regional Advisory Councils Executive Board, 2-13-78 .....	3452
Region IX Regional Advisory Councils Executive Board, 2-8-78 .....	3453
Region X Regional Advisory Council Executive Board, 2-7-78 .....	3453

### CHANGED MEETINGS—

SBA: Region II Regional Advisory Councils Executive Board, 1-26-78 .....	3452
Region III Regional Advisory Councils Executive Board, 1-24-78 .....	3452
Region IV Regional Advisory Councils Executive Board, 1-19-78 .....	3452
Region VI Regional Advisory Councils Executive Board, 1-17-78 .....	3452
Region VII Regional Advisory Councils Executive Board, 1-18-78 .....	3453

### HEARING—

FRS-Treasury/Comptroller-FDIC-FHLBB: joint hearing, 3-15 and 3-16-78 .....	3370
--	------

### SEPARATE PARTS OF THIS ISSUE

Part II, EPA .....	3502
Part III, Commerce/ITA .....	3508

## List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's List of Public Laws.

# rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[3410-02]

## Title 7—Agriculture

### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS: FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[§ 980.212—Amdt. 1]

#### PART 980—VEGETABLES: IMPORT REGULATIONS

##### Tomatoes

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

**SUMMARY:** This amendment exempts tomatoes imported into the United States from the grade, size, quality, and maturity provisions of the tomato import regulations if the tomatoes are used in noncommercial outlets for experimental purposes.

**EFFECTIVE DATE:** January 23, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250, telephone: 202-447-6393.

**SUPPLEMENTARY INFORMATION:** The amendment will enable persons engaged in research to obtain supplies of tomatoes necessary for experimental purposes that might otherwise fail the requirements of the regulation. It is hereby found that the following amendment will tend to effectuate the declared policy of the act.

It is further found that it is impractical and contrary to the public interest to give preliminary notice, or to engage in public rulemaking procedure, and that good cause exists for not postponing the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) This amendment must become effective immediately if affected importers are to derive maximum benefits from it, (2) compliance with this amendment will not require any special preparation on the part of importers, and (3) this amendment relieves restrictions on the importation of tomatoes into the United States.

Section 980.212(b) is hereby amended to read as follows:

§ 980.212 Import regulations; tomatoes.

(b) *Grade, size, quality, and maturity requirements.* On and after the effective date hereof no person may import fresh tomatoes except pear shaped, cherry, hydroponic, and greenhouse tomatoes as defined herein, or tomatoes to be used in non-commercial outlets for experimental purposes unless they are inspected and meet the following requirements:

(2) Prior to importation of tomatoes to be used in noncommercial outlets for experimental purposes, the importer shall apply for and obtain from the Vegetable Branch, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250, an approved Certificate for Special Purpose Shipment, complete Part I and comply with all procedures specified thereon. A separate certificate is required for each shipment. Three copies of the certificate shall accompany shipment, of which one copy shall be surrendered to the Federal or Federal-State Inspector of the U.S. Department of Agriculture at the port of entry.

(3) Upon completion of shipment receiver making final disposition of the tomatoes shall complete Part II of the Certificate. Importer shall be responsible for the return, within 10 days, of a signed copy of the certificate to the Chief, Vegetable Branch, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250, certifying that the tomatoes were used for the purpose specified thereon.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

**Effective date.** Dated January 20, 1978 to become effective January 23, 1978.

CHARLES R. BRADER,  
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 78-2162 Filed 1-24-78; 8:45 am]

[3510-24]

## Title 13—Business Credit and Assistance

### CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE

#### Amendment of Project Modification Policy

AGENCY: Economic Development Administration (EDA), Department of Commerce.

ACTION: Final rule.

**SUMMARY:** These amendments revise EDA's regulation on project modification by describing the policy and procedures for the modification of business development projects. Currently, EDA has published rules only on the modification of public works projects. The intended effect of this change is to establish a more comprehensive project modification policy and procedures.

**DATES:** Effective date: January 25, 1978. Comments by: February 24, 1978.

**ADDRESSES:** Send comments to Assistant Secretary for Economic Development, U.S. Department of Commerce, Room 7800B, Washington, D.C. 20230.

**FOR FURTHER INFORMATION CONTACT:** For information on these amendments only:

James F. Marten, U.S. Department of Commerce, Room 7009, Washington, D.C. 20230, 202-377-5441.

**SUPPLEMENTARY INFORMATION:** Currently, EDA has an articulated policy regarding the modification of public works projects only. This regulation is located at 13 CFR 309.26; it applies to public works projects receiving assistance under sections 101, 201, 304, and 403, and Titles IX and X of the Public Works and Economic Development Act of 1965, as amended (Act), and public works projects funded under Chapter 4 of Title II of the Trade Act of 1974.

As amended, § 309.26 will also contain the policy and procedures regarding the modification of business development projects. This new provision will apply to loan and guarantee projects receiving assistance under sections 202 and 304 of the Act, Title IX of the Act, and Title II, Chapters 3 and 4 of the Trade Act of 1974. The requirements for the modification of

business development projects are described in new subsection (b) of § 309.26. The existing rules on the modification of public works projects have been placed in a revised subsection (a) of § 309.26.

Parts 308, dealing with Title IX assistance, and 315, on Trade Act assistance, also are amended to include references to the new scope of § 309.26.

Because these amendments relate to the EDA grant and loan program, they are exempt from the procedures described in section 553 of the Administrative Procedure Act (5 U.S.C. 553). However, in the spirit of public policy set forth in that Act, interested persons may submit written suggestions regarding these amendments to the Assistant Secretary for Economic Development at the above address.

**NOTE.**—EDA has determined that this document does not constitute a major proposal requiring the preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular No. A-107.

Accordingly, 13 CFR Chapter III is amended by revising Parts 308, 309 and 315 to read as follows:

**PART 308—SPECIAL ECONOMIC DEVELOPMENT AND ADJUSTMENT ASSISTANCE GRANTS**

1. Section 308.28(a)(1) is revised to read as follows:

**§ 308.28 General requirements.**

(a) \* \* \*

(1) Such project or activity complies with the requirements and conditions set forth in §§ 309.1, 309.3, 309.4, 309.5, 309.6, 309.9, 309.14, 309.15, 309.26 and Part 310 of these regulations, and section 702 of the Act, and that

**PART 309—GENERAL REQUIREMENTS FOR FINANCIAL ASSISTANCE**

1. Section 309.26 is revised to read as follows:

**§ 309.26 Project modification.**

(a) *Public works projects.* (1) Proposed modifications in public works projects receiving assistance under sections 101, 201, 304, and 403 of the Act, Titles IX and X of the Act and Title II, Chapter 4 of the Trade Act of 1974 must comply with the following requirements.

(i) The proposed changes must result from joint discussions between EDA and the grantee.

(ii) The proposed changes must be submitted to EDA for appropriate program and technical reviews.

(iii) The proposed changes must be accompanied by revised cost estimates to verify that the project can still be constructed within the approved funds.

(A) If the proposed changes reduce the project's cost, funds which would make the EDA grant rate exceed the maximum grant rate in the original offer will be deobligated unless the Assistant Secretary determines that increasing the grant rate to the maximum allowable grant rate at the time the project was approved is necessary to complete the project.

(2) Proposed changes will be processed for approval following normal amendment procedures.

(3) EDA is under no obligation to accept proposed project changes and may choose to deobligate the project's funds. The following project changes will not be accepted:

(i) Changes in the economic or community development purpose of the project unless the Assistant Secretary determines that, under circumstances existing with regard to the particular project, such changes would substantially further the economic and community development objectives of the project;

(ii) Changes in the target population which will benefit from the project;

(iii) Limitations in the accessibility of project facilities to the target population; and

(iv) Changes in the general geographic location (i.e. city, community, Indian Reservation, Redevelopment Area) of the project.

(b) *Business development loan and guarantee projects.* (1) Proposed modifications in loan and guarantee projects receiving assistance under sections 202 and 304 of the Act, Title IX of the Act, and Title II, Chapters 3 and 4 of the Trade Act of 1974 must comply with the following requirements.

(i) The proposed changes must result from joint discussions between EDA and the borrower.

(ii) The proposed changes must be submitted to EDA for appropriate program and technical reviews.

(iii) The proposed changes must be accompanied by revised cost estimates to verify that the project still can be accomplished within the approved funds.

(2) Proposed changes will be processed following normal amendment procedures.

(3) EDA is under no obligation to accept proposed changes and may choose to deobligate the project's funds.

**PART 315—ADJUSTMENT ASSISTANCE FOR FIRMS AND COMMUNITIES**

1. Subpart A of Part 315 is revised by adding a new § 315.4 to read as follows:

**§ 315.4 Project modifications.**

Projects receiving financial assistance under Subparts C and F of this part and public works projects receiving assistance under Subpart F of this

part may be modified according to the procedures described at 13 CFR 309.26

(Sec. 701, Pub. L. 89-136, 79 Stat. 570 (42 U.S.C. 3211); Department of Commerce Organization Order 10-4, as amended (40 FR 58702, as amended).)

Dated: January 12, 1978.

ROBERT HALL,  
Assistant Secretary for  
Economic Development.

[FR Doc. 78-2073 Filed 1-24-78; 8:45 am]

**[8010-01]**

**Title 17—Commodity and Securities Exchanges**

**CHAPTER II—SECURITIES AND EXCHANGE COMMISSION**

[Release Nos. 33-5899; IC-10096; File No. 87-537]

**PART 231—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES ACT OF 1933 AND GENERAL RULES AND REGULATIONS THEREUNDER**

**PART 271—INTERPRETATIVE RELEASES RELATING TO THE INVESTMENT COMPANY ACT OF 1940 AND GENERAL RULES AND REGULATIONS THEREUNDER**

**Sales Literature For Mutual Funds**

AGENCY: Securities and Exchange Commission.

ACTION: Amendment to Statement of Policy.

**SUMMARY:** The Commission amends its Statement of Policy governing mutual fund sales literature to eliminate the ten-year limitation on the period that can be portrayed in certain total return charts and tables; to eliminate the required use, in most instances, of a certain total return chart; and to make certain technical modifications to the total return charts and tables. In addition, the Commission gives notice that it has decided against imposing a general ten-year limitation on the period of time which can be portrayed in charts and tables approved by the Statement of Policy and has also decided against requiring that a certain chart accompany the use of all other charts in the Statement. These actions were taken, primarily, to settle several issues on which public comment had been requested.

**EFFECTIVE DATE OF AMENDMENT:** January 10, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Gene A. Gohlke, Division of Investment Management, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, 202-755-1815.

**SUPPLEMENTARY INFORMATION:** The Securities and Exchange Commission today announced the adoption of an amendment to its Statement of

Policy ("Statement") (Statement of Policy adopted by the Commission August 11, 1950, and amended January 31, 1955; November 5, 1957; May 19, 1975; and September 1, 1977 (115 FR 5469 as amended 20 FR 793; 22 FR 8977; 40 FR 21711; and 42 FR 45291)) governing sales literature of investment companies. The amendment eliminates the 10-year limitation on the presentation of investment results on a total return basis in Sample Charts E, F, and G and Sample Table 5; eliminates the required use of Sample Chart E with Sample Chart G; and makes certain modifications to the information presented in Sample Charts E and F and Sample Table 5. In addition and as a result of the comments received in response to the request for comments contained in Release No. 33-5862 and IC-9916 (42 FR 45291) the Commission has decided not to impose a 10-year limitation on the period of time that can be portrayed in Sample Charts A, B, C, and D and Sample Tables 1, 2, 3, and 4 and not to require the use of Sample Chart E whenever one or more of Sample Charts A, B, C, or D are used.

**ADOPTION OF THE TOTAL RETURN CHARTS AND TABLES AND REQUEST FOR COMMENTS**

In Release No. 33-5862 and IC-9916 the Commission amended the Statement by adopting three new charts, Sample Charts E, F, and G and a new table, Sample Table 5, all of which portrayed fund results on a total return basis (assumed reinvestment of income dividends and capital gains distributions). Among the requirements established for these charts and tables in order to make them not misleading were that the period portrayed was to be limited to the most recent 10 years or life of the fund if shorter and that Sample Chart E was to accompany all presentations of Sample Charts F and G.

The period portrayed was limited to the most recent 10 years because it was believed that the average, noninstitutional investor does not maintain an investment in a fund for more than 10 years and that the management and economic environment that existed more than a decade ago may not be relevant to an investor considering an investment in a fund today. Because the most recent 10 years was considered to be the longest period of time that could be portrayed in total return charts without making them misleading, the Commission decided that a 10-year limit would also be appropriate for other sample charts and tables approved by the Statement. However,

\*Such charts and tables can portray periods of time up to the life of the fund provided that periods in excess of 10 years (the minimum amount of time that can be portrayed) are in multiples of 5 years.

before imposing this limitation, the Commission decided to ask for public comment. If a 10-year limitation were to be imposed on all approved charts and tables, the Commission realized that there may be circumstances in which the portrayal of periods in excess of 10 would not be misleading. Therefore, the Commission also requested comments on how best to deal with such exceptional circumstances.

A further requirement for the use of total return charts is that Sample Chart E must be used in every piece of sales literature which contains any other total return chart. Thus, Sample Chart E must accompany Sample Charts F and G whenever they are used. The Commission also considered requiring the use of Sample Chart E whenever any chart approved by the Statement was used in order to attain some degree of comparability among funds as well as to avoid circumstances in which funds would use total return charts only when the results appear favorable and revert to other charts when total return results are not favorable. Before imposing such a requirement, the Commission requested comments from the public on the required use of Sample Chart E whenever any other chart was used in sales literature.

Comments on the above questions have been received. In regard to a 10-year limitation, all of the comments were opposed to any period limitation other than the life of the fund. The following reasons were among those given for believing that a time-period limitation was inappropriate:

1. The average period during which an investor holds funds shares is very difficult to calculate and varies greatly among funds having different investment objectives.

2. Even if the average holding period were 10 years, there are many investors who own shares for longer periods and they should be able to see how their fund performed during such longer periods of time.

3. A great emphasis on a 10-year period might give unsophisticated investors the idea that performance during the most recent 10 years was in some way predictive of future results.

4. Because the investment and economic environments are changing continually, the most recent 10 years appears to have no more or less relevance to the future than any other 10-year period and the record of results over a number of 10-year periods can be potentially valuable.

In regard to the proposal to require the use of Sample Chart E with all other charts and tables, all writers providing comments were opposed to such a requirement for a variety of reasons. Several of the reasons given were as follows:

1. The total return charts are complex and may result in investor confusion if they are used in conjunction with non-total return charts;

2. Total return charts may not be appropriate for all types of funds;

3. The additional cost of including a total return chart in every piece of sales literature that contains any other chart may result in a lesser use of charts to the detriment of investors; and

4. Registrants should have the option of using the total return charts in situations where they appear appropriate.

Based upon the comments received as well as the Commission's further consideration of the issues involved, the following decisions and amendments to the Statement have been made.

**NO CHANGE IN CURRENT STATEMENT TIME PERIOD REQUIREMENTS FOR NON-TOTAL RETURN CHARTS AND TABLES**

The Commission has determined that charts and tables are not misleading which portray investment results for periods of a minimum of the most recent 10 years (unless the life of the fund is shorter) and a maximum of the life of the fund with periods in excess of 10 years but less than the life of the fund shown in multiples of five years. Consequently, for Sample Charts A, B, C, and D and Sample Tables 1, 2, 3, and 4, the current time period requirements of the Statement remain unchanged.

The language of the Statement pertaining to Sample Charts E, F, and G, Sample Table 5 and total return successive period tables is amended to allow such charts and tables to portray fund results for a minimum of the most recent 10 years (unless the life of the fund is shorter) and for a maximum of the life of the fund so long as periods in excess of 10 years but less than the life of the fund are in multiples of five years. (For a further explanation, see the appendix.)

**REQUIRED USE OF SAMPLE CHART E**

The Commission has determined that Sample Chart E need not accompany any of the Sample Charts in the Statement except Sample Chart F. Thus, Sample Charts A, B, C, D, and G can be presented without also using Sample Chart E. However, Sample Chart E must accompany Sample Chart F in the same piece of sales literature as is currently required by the Statement. In order to avoid duplication if both Sample Charts E and F are used, the Statement is amended so that the percentages tabulated at the base of Sample Chart E can be eliminated because these same percentages are also shown on Sample Chart F.

Even though the Commission has determined that Sample Chart E need not accompany most other charts illustrated in the Statement, the Commission recognizes that the staff may require that Sample Chart E accompany certain novel presentations of investment results approved under the interpretive letter procedure which was added to the Statement in the recent amendment.

#### MODIFICATIONS OF TOTAL RETURN CHARTS AND TABLES

While not requested in the Release, several commentators suggested certain technical modifications to the total return charts and tables which would appear to make the tables more useful and provide sufficient information to enable readers to make certain rate of return calculations. The Commission has considered these suggestions and amends the charts and tables in the following manner:

1. The year-by-year summary of results in dollars at the base of Sample Chart E is expanded so as to show the following amounts:

a. The actual amount of dividends paid during each year assuming that all such dividends are reinvested in fund shares.

b. The actual amount of capital gains distributions paid during each year assuming that all such distributions are reinvested in fund shares.

In addition to these two sets of numbers, the dollar summary at the base of Sample Chart E will continue to show, for the end of each year, the value of the investment on a total return basis and the value of the investment assuming dividends were taken in cash.

2. The heading of the ten year average column on Sample Chart E is changed to read: "10 Year Average Compound Rate of Return." Several numbers in this column on both Sample Charts E and F were changed to correct a computational error. The appendix to this Release contains a new section which explains in some detail how the compound rate of return calculations should be made.

3. A footnote is added on both Sample Charts E and F in order to explain more fully that the last line of percentages reflecting fund expenses is provided for informational purposes only, that the income return already reflects fund expenses, and that the expense percentages should not be subtracted from any other number on the charts.

4. The explanation of Chart E is modified to provide that if Sample Chart F is also used, the percentages tabulated at the base of Chart E can be omitted because these same percentages are tabulated at the base of Chart F.

5. In order to make the total return charts and tables illustrated in the

Statement internally consistent, the paragraph describing the 7 1/4 percent sales charge on reinvested dividends in Sample Table 5 has been eliminated. If a fund does, however, impose a sales charge on reinvested dividends, a paragraph describing the reinvestment sales charge must be included in Sample Table 5.

For additional details on the above five points, see the appendix.

#### STAFF CONSIDERATION OF COMMENTS CONCERNING AFTER-TAX RATES OF RETURN

The compound average returns shown on Sample Charts E and F were calculated before deducting any income taxes that may be payable on the dividends and distributions paid and capital gains realized. Footnote one to the charts expresses this fact. One commentator noted that, in effect, the results shown could be attained only by a tax-free entity. The writer also noted that with the recent introduction of municipal bond and index funds there can be significantly different tax implications to the individual as between different funds. To show such differences he suggested that one or two tax rates, such as 20 percent and 50 percent, be used to compute what the after-tax compound rate of return would be for the sample investment illustrated after giving appropriate consideration to the time value of all of the investor's cash inflows and outflows resulting from the investment. The staff intends to consider the writer's suggestion during its review of the entire Statement as announced in Release IC-9931 dated September 14, 1977.

#### RESPONSIBILITY OF USERS OF CHARTS

Sample Charts E, F, and G, approved for use by the Commission's amendment to the Statement on September 1, 1977 (and modified in the amendment adopted herewith), should be considered experimental and subject to review by the Commission and its staff. Accordingly, the Commission may, if experience with their use so warrants, modify the requirements for the use of these charts or eliminate them from the Statement.<sup>2</sup> Further, users of these charts as well as other charts approved by the Statement are reminded that their responsibility is not discharged merely by complying with the technical requirements for construction of the charts. Paragraph (j) of the Statement includes the statement that "Charts or tables which conform to the 'Approved

<sup>2</sup>Attention is also directed to the Commission's Release 33-5864, IC-9931 (42 FR 47563) of September 14, 1977 announcing a general reconsideration of the entire statement. Such reconsideration may, of course, include the entire area of approved charts and tables included in the Statement.

Charts and Tables' . . . will not be regarded by the Commission as false and misleading in the absence of facts or circumstances which make such charts or tables or their use in fact false and misleading in a particular use." (Emphasis supplied.) Users are cautioned that such facts and circumstances could include, among other things, a change of an investment adviser, a material change in investment objectives or policies, a very substantial change in the size of the fund over a very brief period of time, or a material change in performance occurring subsequent to the period covered by the chart. Depending on the particular case, a user might be required, in order to make the use of a chart not misleading, to add explanatory notes or text to the chart, to limit the period covered by the chart, or to discontinue the use of the chart altogether.

By the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

JANUARY 18, 1978.

#### APPENDIX—AMENDMENT TO THE STATEMENT OF POLICY

(j) . . .

(i) The period covered by that charts should be a minimum of the most recent ten years or life of the fund if shorter and a maximum of the life of the fund provided that periods in excess of ten years but less than the life of the fund are in multiples of five years.

(viii) . . .

A. The growth of the investment in dollars on a total return basis showing both the growth due to net investment income (after fund expenses) and the growth due to capital appreciation, plotted on a semi-logarithmic scale on an annual fund-price-high to fund-price-low basis.

D. A year-by-year tabular summary of results in dollars, showing:

(a) The actual amount of dividends paid during each year assuming all such dividends and capital gains distributions are reinvested;

(b) The actual amount of capital gains distributions paid during each year assuming all such distributions and dividends are reinvested;

(c) The value of the investment at the end of each year on a total return basis; and

(d) The value of the investment at the end of each year assuming dividends are taken in cash.

E. A year-by-year and a period average tabular summary of results in percentages disclosing:

a. The year-by-year total return and the average, annually compounded total return after expense deductions for the period shown expressed as the sum of the returns

due to net investment income before deduction of any sales charges on reinvested dividends and capital appreciation before deduction of any initial sales charge and any withdrawal charge;

d. The effect of any withdrawal charge on the final year's total return;

e. The effect of any sales and/or withdrawal charges on the compound average total return;

f. The annual return and the compound average total return after deduction of all sales charges; and

g. The fund expenses applicable to the investment expressed as a percentage. By appropriate markings and footnote it should be made clear that the expense percentages are for information only, that the income return already reflects fund expenses, and that the expense percentage is not to be subtracted from any other figure.

(ix) The annual and the compound average annual rate of total return on a single investment of \$10,000 in a mutual fund may be portrayed on a semi-logarithmic chart substantially similar to Chart F which contains the following information:

A. A bar graph presentation of the total returns after sales charges and expense deductions for each year portrayed, side-by-side with the value on a total return basis, of an appropriate index. The use of a comparative index is optional. If an index is used, it should comply with the guidelines enumerated in paragraph (viii)C of this section. If indices are used in both Sample Charts E and F, the same index must be used on both charts.

B. A bar graph presentation of the average (for the period covered by the chart) annually compounded total return expressed as the sum of the average compound return due to capital appreciation and the average compound return due to investment income, indicating the effects of fund expenses and any sales charges on the initial investment and reinvested dividends (and any withdrawal charge) on the average compound return and highlighting the return after expenses and after the sales (and/or withdrawal) charges.

(x) If Sample Chart F is used, it should be accompanied in the same piece of literature by Sample Chart E. If Sample Charts E and F are both used, the percentages tabulated at the base of Sample Chart E may be omitted because the identical percentages are tabulated at the base of Sample Chart F.

(xi) . . .

C. Actual Investment Results Scale is a logarithmic scale which is used to measure changes in the dollar value of the sample investment on Chart E. The Actual Investment Results Scale can be constructed using natural logarithms. Alternatively, the logarithmic scale on semi-log graph paper may be used to construct the Actual Investment Results Scale.

a. . . .  
D. The Percentage Change Scale on Chart F is a logarithmic scale which is used to measure the annual percentage change in the value of the sample investment. The

Percentage Change Scale can be constructed using natural logarithms. Alternatively, the logarithmic scale on semi-log graph paper may be used to construct the Percentage Change Scale.

E. The annual percentage changes shown on Sample Chart E or on Chart F, if used, should be calculated in the following manner:

	Percent
Income return . . . . .	3.78
Appreciation return . . . . .	5.01

Total return before sales charge . . . . .	8.79
Sales charge . . . . .	.96

Total return after sales charge . . . . .	7.83
---	------

On the sample charts, the compound growth rates may be rounded to one decimal place.

(d) The compound effect of fund expenses should be computed by comparing the unadjusted income return computed before and after deduction of fund expenses.

(j)(5) . . .

(i) The period covered by the charts and tables should be a minimum of the most recent 10 years or life of the fund if shorter and a maximum of the life of the fund provided that periods in excess of 10 years but less than the life of the fund are in multiples of 5 years.

(ii) The investment results portrayed may be based on either a calendar or fiscal year so long as the calendar or fiscal year base is used consistently.

(iii) Distributions of both net investment income and capital gains that are to be reinvested in fund shares should be assumed to be reinvested at the net asset value per share on the date such distributions took place. If a sales charge is levied on reinvested net investment income, such charge should be considered in computing the number of new shares purchased.

(iv) If the sales charge for a fund has changed, the most recent charge, if any, applicable to an investment of \$10,000 and the reinvestment of dividends should be used.

(v) The value at the end of each year of a single investment of \$10,000 in a mutual fund on a total return basis may be portrayed on a chart substantially similar to Sample Chart G which contains the following information:

A. A column for each year during the period covered showing the total value of the \$10,000 investment at the end of the year in which the investment was assumed to have been made and at the end of every successive year thereafter up to the end of the most current year.

B. A row for each of the periods included in the chart with the rows constructed in such a way that the dollar amount shown at the intersection of each row and column would represent the value of \$10,000 invested at the beginning of the year listed at the top of the column and invested for the number of years indicated by the number of the row.

C. Appropriate explanations of the rows and columns and how the rows and columns are to be used in interpreting the chart.

(vi) Where a chart patterned after Sample Chart G is used, the chart should be accompanied in the same piece of literature by a table substantially similar to Sample Table 5 described in subparagraph (viii) of this subsection.

(vii) As an alternative to using Sample Chart G which shows investment results at a maximum for every possible successive period during the life of the fund, a table or tables may be presented which show total

# RULES AND REGULATIONS

investment results for only selected successive periods. Such successive periods may be any period such as every 5-year period or every 10-year period or 15-year period. Any whole number of years may be used at the length of the successive periods. All successive period total return charts should conform to the following requirements.

(viii) . . .  
A. . . .

E. If the table is used alone, it should show at a minimum the most recent 10 years or life of the fund if shorter and a maximum of the life of the fund provided that periods in excess of 10 years but less than the life of the fund are in multiples of 5 years.

# RULES AND REGULATIONS

## SAMPLE CHART E RESULTS OF A \$10,000 INVESTMENT IN XYZ FUND With Dividends and Capital Gains Distributions Reinvested, before Taxes <sup>1/</sup>

NOTE: Results shown assume reinvestment of capital gains and dividends. If capital gains and dividends are not reinvested, results would be less than depicted.

<sup>1/</sup> Results shown do not take into account personal income and capital gains taxes.

<sup>2/</sup> Total return refers to the results available when dividends and capital gains distributions are reinvested.

<sup>3/</sup> Capital appreciation includes reinvested capital gains distributions.

<sup>4/</sup> The fund expense percentages are provided as additional information. They should not be subtracted from any other number on the chart because the income return percentages already reflects the effect of fund expenses.

RULES AND REGULATIONS

SAMPLE TABLE 5

ILLUSTRATION OF AN ASSUMED INVESTMENT OF \$10,000 with Dividends Reinvested and Capital Gains Distributions Accepted in Shares

The table below covers the period from January 1, 1967 to December 31, 1976. This period was one in which common stock prices fluctuated severely and were generally at the same level at the end of the period as they were at the beginning. The results shown should not be considered as a representation of the dividend income or capital gain or loss which may be realized from an investment made in the fund today.

Year ended December 31	Value of Shares by Component			Total Value of Shares
	Value of \$10,000 Investment	Value of Capital gains Distributions	Value of Reinvested Dividends	
1967	\$10,104	\$ 785	\$ 384	\$11,273
1968	10,725	1,771	832	13,328
1969	8,360	1,988	1,111	11,459
1970	8,012	2,145	1,556	11,713
1971	8,082	2,570	2,059	12,711
1972	8,488	3,062	2,685	14,235
1973	7,479	3,027	2,961	13,467
1974	5,937	2,466	3,009	11,412
1975	7,838	3,521	4,540	15,899
1976	9,844	4,930	6,475	21,249

Cost plus actual amounts available for distributions and dividends \$10,000 \$ 4,473 \$ 5,367 \$20,274

No adjustment has been made for any income taxes payable by shareholders on capital gains distributions and dividends.

## [4810-22]

## Title 19—Customs Duties

## CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

(I.T.D. 78-28)

## PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

## Guyana; Supplies and Equipment From Aircraft

AGENCY: United States Customs Service, Department of the Treasury.

ACTION: Final rule.

**SUMMARY:** This document adds Guyana to the list of countries whose aircraft are exempt from the payment of Customs duties and internal revenue taxes on supplies and equipment to be used in certain circumstances. It has been determined that the Government of Guyana allows substantially the same privileges to aircraft registered in the United States engaged in foreign trade. Based on this determination and U.S. law, a reciprocal exemption from duties and taxes has been granted to aircraft registered in Guyana.

**EFFECTIVE DATE:** This exemption was effective on September 22, 1977.

**FOR FURTHER INFORMATION CONTACT:**

Benjamin H. Mahoney, Entry Procedures and Penalties Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-5778.

## SUPPLEMENTARY INFORMATION:

## BACKGROUND

Sections 309 and 317 of the Tariff Act of 1930, as amended (19 U.S.C. 1309, 1317), provide that foreign-registered aircraft engaged in foreign trade may withdraw articles of foreign or domestic origin from Customs or internal revenue custody without the payment of Customs duties and/or internal revenue taxes, for supplies (including equipment), ground equipment, maintenance, or repair of aircraft. This privilege is granted if the Secretary of Commerce finds, and advises the Secretary of the Treasury that the country in which the foreign aircraft is registered allows substantially reciprocal privileges to United States-registered aircraft. Section 10.59(f) of the Customs Regulations (19 CFR 10.59(f)) lists those countries whose aircraft have been found to be entitled to these privileges.

In accordance with section 309(d) of the Tariff Act, the Secretary of Commerce has found, and by letter dated September 22, 1977, has advised the Secretary of the Treasury, that

Guyana allows privileges substantially reciprocal to those provided in sections 309 and 317 to aircraft registered in the United States and engaged in foreign trade. Corresponding privileges accordingly are extended to aircraft registered in Guyana and engaged in foreign trade, effective as of September 22, 1977.

Because the subject matter of this document does not constitute a departure from established policy or procedures but merely announces the granting of an exemption for which there is a statutory basis, notice and public procedure thereon are found to be unnecessary and good cause exists for dispensing with a delayed effective date under 5 U.S.C. 553.

## DRAFTING INFORMATION

The principal author of this document was Sanford J. Parnes, Regulations and Legal Publications Division, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other offices of the Customs Service and the Department of Commerce participated in developing the document, both on matters of substance and style.

## AMENDMENTS TO THE REGULATIONS

To reflect the granting of reciprocal privileges to aircraft of Guyana, paragraph (f) of § 10.59, Customs Regulations (19 CFR 10.59(f)), is amended by the insertion of "Guyana" in appropriate alphabetical order and the number of this Treasury Decision in the opposite column headed "Treasury Decision(s)," in the list of countries in that paragraph.

(Secs. 309, 317, 624, 46 Stat. 690, as amended 696, as amended, 759 (19 U.S.C. 1309, 1317, 1624).)

G. R. DICKERSON,  
Acting Commissioner of Customs.

Approved: January 12, 1978.

BETTE B. ANDERSON,  
Under Secretary of the Treasury.

## Title 21—Food and Drugs

## CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER E—ANIMAL FEEDS, DRUGS, AND RELATED PRODUCTS  
[FR L 847-4; FAP 8H5125/T32]

## PART 561—TOLERANCES FOR PESTICIDES IN ANIMAL FEEDS ADMINISTERED BY THE ENVIRONMENTAL PROTECTION AGENCY

## Glyphosate

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** This rule renews a feed additive regulation permitting the experimental use of the herbicide glyphosate in soybean hulls. The renewal was requested by Monsanto Co. This rule will permit the marketing of soybean hulls while further data is collected on the subject pesticide.

**EFFECTIVE DATE:** January 25, 1978.

**FOR FURTHER INFORMATION CONTACT:**

Mr. James G. Touhey, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M Street SW., Washington, D.C. 20460, 202-755-4851.

**SUPPLEMENTARY INFORMATION:** On September 17, 1976, the EPA announced (41 FR 40100) that in response to a petition (FAP 6H5125) submitted by Monsanto Co., 800 North Lindbergh Blvd., St. Louis, Mo. 63116, 21 CFR 561.253 was being amended to permit the use of the herbicide glyphosate (N-(phosphonomethyl)glycine) in a proposed experimental program involving application of the herbicide to growing soybeans with a tolerance limitation of 20 parts per million (ppm) for combined residues of the herbicide and its metabolite aminomethylphosphonic acid in soybean hulls in accordance with an experimental use permit that was being issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973, 89 Stat. 751; 7 U.S.C. 136(a) et seq.). This experimental program expired September 7, 1977.

Monsanto Co. has requested a one-year renewal of this temporary tolerance both to permit continued testing to obtain additional data and to permit the marketing of food commodities affected by the application of the herbicide to the growing raw agricultural commodity soybeans.

The scientific data reported and other relevant material have been evaluated, and it has been determined that the pesticide may be safely used in accordance with the provisions of the experimental use permit which is being issued concurrently under FIFRA. It has further been determined that since residues of the pesticide may result in soybean hulls from the agricultural use provided for in the experimental use permit, the feed additive regulation should be renewed along with the tolerance limitation. (A related document concerning the renewal of temporary tolerances for residues of the subject pesticide in or on cottonseed; soybean grain, forage, and hay; cotton forage; and the liver and kidney of cattle, goats, hogs, horses, poultry, and sheep appears elsewhere in today's FEDERAL REGISTER.)

Accordingly, a feed additive regulation is renewed as set forth below.

Any person adversely affected by this regulation may, on or before February 24, 1978, file written objections with the Hearing Clerk, EPA, Rm. M-3706, 401 M Street SW., Washington, D.C. 20460. Such objections should be submitted in triplicate and specify the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by the grounds legally sufficient to justify the relief sought.

Effective on January 25, 1978, 21 CFR 561.253 is amended as set forth below.

Dated: January 17, 1978.

(Sec. 409(c)(1), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348(c)(1)).)

EDWIN L. JOHNSON,  
Deputy Assistant Administrator  
for Pesticide Programs.

Section 561.253 Glyphosate is amended as follows:

§ 561.253 [Amended]

In § 561.253, the date at the end of the last line in paragraph (a)(2) is changed from "September 7, 1977" to "January 17, 1979."

[FR Doc. 78-2035 Filed 1-24-78; 8:45 am]

## [4410-01]

## CHAPTER II—DRUG ENFORCEMENT ADMINISTRATION, DEPARTMENT OF JUSTICE

## PART 1308—SCHEDULES OF CONTROLLED SUBSTANCES

## Placement of Phencyclidine in Schedule II

AGENCY: Drug Enforcement Administration.

**ACTION:** Final Rule.

**SUMMARY:** This rule is issued as a result of the Drug Enforcement Administration's request that the Assistant Secretary for Health, Department of Health, Education, and Welfare, provide DEA with a scientific and medical evaluation of phencyclidine regarding its transfer from Schedule III to Schedule II of the Act, the Assistant Secretary's transmittal of the requested evaluation and recommendation, DEA's review thereof, subsequent publication in the FEDERAL REGISTER (42 FR 63647, Dec. 19, 1977) of a Notice of Proposed Rulemaking to transfer phencyclidine to Schedule II, and receipt and review by DEA of comments submitted in response to the published Notice. This rule requires that the manufacture, distribution, dispensing, importation, exportation of phencyclidine be subject to controls for Schedule II controlled substances.

**EFFECTIVE DATE OF SCHEDULE II CONTROL:** February 24, 1978, except as otherwise provided in Supplementary Information section of this order.

**FOR FURTHER INFORMATION CONTACT:**

Howard McClain, Jr., Chief, Regulatory Control Division, Drug Enforcement Administration, telephone 202-633-1366.

**SUPPLEMENTARY INFORMATION:** A Notice was published in the FEDERAL REGISTER on Monday, December 19, 1977 (42 FR 63647-48) proposing that phencyclidine be transferred from Schedule III to Schedule II of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 801-966), and that 21 Code of Federal Regulations, §§ 1308.12 and 1308.13 (Schedules II and III, respectively) be amended accordingly. All interested persons were given until January 18, 1978 to submit their comments or objections in writing regarding this proposal.

Two comments were received in response to the proposal from the State of Rhode Island Department of Health, Division of Drug Control and from the North Carolina State Drug Commission, which supported the proposed rescheduling of phencyclidine from Schedule III to Schedule II.

No further comments nor objections were received, nor were there any requests for a hearing, and in view thereof, and based upon the investigations and review of the Drug Enforcement Administration and upon the scientific and medical evaluation and recommendation of the Assistant Secretary for Health in behalf of the Secretary of Health, Education, and Welfare, received pursuant to section 201(a) and 201(b) of the Act (21 U.S.C. 811(a) and 811(b)), the Administrator of the Drug Enforcement Administration finds that:

1. Phencyclidine has a high potential for abuse;
2. Phencyclidine has a currently accepted medical use in veterinary treatment in the United States; and
3. Abuse of phencyclidine may lead to severe psychological dependence.

Therefore, under the authority vested in him by the Act and by regulations of the Department of Justice, the Administrator of the Drug Enforcement Administration hereby orders that §§ 1308.12(e) and 1308.13(c) of Title 21 of the Code of Federal Regulations (CFR) be amended to read as follows:

§ 1308.12 Schedule II.

(c) *Depressants.* Unless specifically excepted or unless listed in another

schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Amobarbital .....	2125
(2) Methaqualone .....	2565
(3) Pentobarbital .....	2270
(4) Phencyclidine .....	7471
(5) Secobarbital .....	2315

§ 1308.13 Schedule III.

(c) *Depressants.* Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system:

(1) Any compound, mixture or preparation containing:

(i) Amobarbital .....	2125
(ii) Secobarbital .....	2315
(iii) Pentobarbital .....	2270

or any salt thereof and one or more other active medicinal ingredients which are not listed in any schedule.

(2) Any suppository dosage form containing:

(i) Amobarbital .....	2125
(ii) Secobarbital .....	2315
(iii) Pentobarbital .....	2270

or any salt of any of these drugs and approved by the Food and Drug Administration for marketing only as a suppository.

(3) Any substance which contains any quantity of a derivative of barbituric acid or any salt thereof .....	2100
(4) Chlorhexadol .....	2510
(5) Gluthethimide .....	2550
(6) Lysergic acid .....	7300
(7) Lysergic acid amide .....	7310
(8) Methyprylon .....	2575
(9) Sulfonethymethane .....	2600
(10) Sulfonethymethane .....	2605
(11) Sulfonmethane .....	2610

## OTHER EFFECTIVE DATES

1. *Registration.* Any person who manufactures, distributes, dispenses, imports or exports phencyclidine or who proposes to engage in such activities, shall submit an application for registration to conduct such activities in accordance with Parts 1301 and 1311 of Title 21 of the Code of Federal Regulations on or before April 25, 1978.

2. *Security.* Phencyclidine must be manufactured, distributed, and stored in accordance with §§ 1301.71, 1301.72 (a), (c), and (d), 1301.73, 1301.74 (a)-(f), 1301.75(b)(c) and 1301.76 of Title 21 of the Code of Federal Regulations on or before July 24, 1978. From now

## RULES AND REGULATIONS

until the effective date of this provision, it is expected that manufacturers and distributors of phencyclidine will initiate whatever preparations as may be necessary, including undertaking handling and engineering studies and construction programs, in order to provide adequate security for phencyclidine in accordance with DEA regulations so that substantial compliance with this provision can be met by July 24, 1978. In the event that this imposes special hardships, the Drug Enforcement Administration will entertain any justified requests for extensions of time.

3. *Labeling and packaging.* All labels on commercial containers of, and all labeling of phencyclidine packaged after July 24, 1978, shall comply with the requirements of §§ 1302.03-1302.05 and 1302.08 of Title 21 of the Code of Federal Regulations. In the event this effective date imposes special hardships on any manufacturer, as defined in section 102(14) of the Controlled Substances Act (21 U.S.C. 802(14)), the Drug Enforcement Administration will entertain any justified requests for an extension of time.

4. *Inventory.* Every registrant required to keep records who possess any quantity of phencyclidine shall take an inventory pursuant to §§ 1304.11-1304.19 of Title 21 of the Code of Federal Regulations, of all stocks of such substance on hand on February 24, 1978.

5. *Records.* All registrants required to keep records pursuant to §§ 1304.21-1304.27 of Title 21 of the Code of Federal Regulations shall maintain such records on phencyclidine commencing on the date on which the inventory of such substance is taken.

6. *Order Forms.* The order form requirements of §§ 1305.01-1305.16 of Title 21 of the Code of Federal Regulations shall be in effect on the date which the initial inventory of this Schedule II controlled substance is taken, February 24, 1978.

7. *Prescriptions.* All prescriptions for products containing phencyclidine shall comply with §§ 1306.01-1306.06 and §§ 1306.11-1306.15 of Title 21 of the Code of Federal Regulations, beginning February 24, 1978. All prescriptions for products containing such substances issued before February 24, 1978, if authorized for refilling, shall not be refilled on or after February 24, 1978.

8. *Importation and exportation.* All importation and exportation of phencyclidine shall, on or after April 25, 1978, be required to be in compliance with Part 1312 of Title 21 of the Code of Federal Regulations.

9. *Criminal liability.* The Administrator, Drug Enforcement Administration, hereby orders that any activity with respect to phencyclidine as a Schedule II controlled substance not

authorized by, or in violation of, the Controlled Substances Act or the Controlled Substances Import and Export Act, conducted after February 24, 1978, shall be unlawful, except that any person who is not now registered to handle phencyclidine as a Schedule II controlled substance but who is entitled to registration under such Acts may continue to conduct normal business or professional practice with phencyclidine between the date, on which this order is published and the date on which he obtains or is denied registration: *Provided*, That application for such registration is submitted on or before April 25, 1978.

10. *Other.* In all other respects, this order is effective February 24, 1978.

Dated: January 23, 1978.

PETER B. BENSINGER,  
Administrator,  
Drug Enforcement Administration.

Title 36—Parks, Forests, and Public Properties  
CHAPTER I—NATIONAL PARK SERVICE,  
DEPARTMENT OF THE INTERIOR

PART 17—CONVEYANCE OF FREEHOLD AND  
LEASEHOLD INTERESTS ON LANDS OF THE  
NATIONAL PARK SYSTEM

## Criteria

AGENCY: National Park Service, Interior.

ACTION: Amendment to final rule.

SUMMARY: This document amends the regulations governing the criteria for conveyance to private parties of freehold or leasehold interests in land within units of the National Park System. The amendment provides the Advisory Council on Historic Preservation with opportunity to comment on conveyances affecting properties listed or eligible for listing on the National Register of Historic Places. The amendment is necessary to comply with the National Historic Preservation Act.

EFFECTIVE DATE: December 15, 1977.

FOR FURTHER INFORMATION,  
CONTACT:

C. Allen Harpine, 202-523-5252.

SUPPLEMENTARY INFORMATION: On September 15, 1977, there was published in the FEDERAL REGISTER (42 FR 46303-46305) a notice of final rulemaking. This final rule did not provide the Advisory Council on Historical Preservation with an opportunity for comment mandated by the National Historic Preservation Act. Therefore, this rule is amended by adding the following sentences at the end of § 17.3.

## § 17.3 Land subject to disposition.

... Any conveyances affecting properties listed or eligible for listing on the National Register of Historic Places must be reviewed by the Advisory Council on Historic Preservation. Procedures for obtaining the Council's comments appear at 36 CFR Part 800, "Procedures for the Protection of Historic and Cultural Resources."

WILLIAM J. WHALEN,  
Director, National  
Park Service.

JANUARY 16, 1978.

CHAPTER I—ENVIRONMENTAL PROTECTION  
AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 846-7]

## NEW SOURCE REVIEW

Delegation of Authority to the Commonwealth  
of Kentucky

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The amendments below institute certain address changes for reports and applications required from operators of new sources. EPA has delegated to the Commonwealth of Kentucky authority to review new and modified sources. The delegated authority includes the reviews under 40 CFR Part 52 for the prevention of significant deterioration. It also includes the review under 40 CFR Part 60 for the standards of performance for new stationary sources and reviewed under 40 CFR Part 61 for national emission standards for hazardous air pollutants. A notice announcing the delegation of authority was published in the Notices section of a previous issue of the FEDERAL REGISTER. These amendments provide that all reports, requests, applications, submittals, and communications previously required for the delegated reviews will now be sent to the Division of Air Pollution Control, Department for Natural Resources and Environmental Protection, West Frankfort Office Complex, U.S. 127, Frankfort, Ky. 40601, instead of EPA's Region IV.

EFFECTIVE DATE: January 25, 1978.

FOR FURTHER INFORMATION,  
CONTACT:

John Eagles, Air Programs Branch,  
Environmental Protection Agency,  
Region IV, 345 Courtland Street  
NE., Atlanta, Ga. 30308, phone 404-  
881-2864.

SUPPLEMENTARY INFORMATION: The Regional Administrator finds

good cause for foregoing prior public notice and for making this rulemaking effective immediately in that it is an administrative change and not one of substantive content. No additional substantive burdens are imposed on the parties affected. The delegation which is reflected by this administrative amendment was effective on April 12, 1977, and it serves no purpose to delay the technical change of this addition of the state address to the Code of Federal Regulations.

(Secs. 101, 110, 111, 112, 301, Clean Air Act, as amended, (42 U.S.C. 7401, 7410, 7411, 7412, 7601).)

Dated: January 10, 1978.

JOHN C. WHITE,  
Regional Administrator.

PART 52—APPROVAL AND PROMULGATION  
OF IMPLEMENTATION PLANS

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

## Subpart S—Kentucky

1. Section 52.920(c) is amended by adding a new paragraph (c)(11) as follows:

§ 52.920 Identification of plan.

## (c) \* \* \*

(11) Letters requesting delegation of Federal authority for the administrative and technical portions of the Prevention of Significant Deterioration program were submitted on May 5 and July 13, 1976 by the Secretary of the Department for Natural Resources and Environmental Protection.

2. Section 52.931 is amended by adding a new paragraph (c) as follows:

§ 52.931 Significant deterioration of air quality.

## (c) \* \* \*

(c) All applications and other information required pursuant to § 52.21 from sources located in the Commonwealth of Kentucky shall be submitted to the Division of Air Pollution Control, Department for Natural Resources and Environmental Protection, West Frankfort Office Complex, U.S. 127, Frankfort, Ky. 40601, instead of the EPA Region IV office.

PART 60—STANDARDS OF PERFORMANCE  
FOR NEW STATIONARY SOURCES

Part 60 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

3. In § 60.4, paragraph (b)(S) is added as follows:

§ 60.4 Address.

## RULES AND REGULATIONS

## (b) \* \* \*

(S) Division of Air Pollution Control, Department for Natural Resources and Environmental Protection, U.S. 127, Frankfort, Ky. 40601.

PART 61—NATIONAL EMISSION STANDARDS  
FOR HAZARDOUS AIR POLLUTANTS

Part 61 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

4. In § 61.04, paragraph (b)(S) is added as follows:

§ 61.04 Address.

## (b) \* \* \*

(S) Division of Air Pollution Control, Department for Natural Resources and Environmental Protection, U.S. 127, Frankfort, Ky. 40601.

Title 46—Shipping

CHAPTER IV—FEDERAL MARITIME  
COMMISSION

[General Order 39, Docket No. 77-22]

PART 507—ACTIONS TO ADJUST OR MEET  
CONDITIONS UNFAVORABLE TO SHIPPING  
IN THE FOREIGN TRADE OF THE UNITED  
STATES

## Suspension

AGENCY: Federal Maritime Commission.

ACTION: Suspension of rule.

SUMMARY: This document suspends shipping regulations recently adopted by the Commission which required Guatemalan-flag carriers and their associates to pay an Equalization Fee designed to eliminate the discriminatory diversion of cargo to those carriers caused by Guatemalan laws. This Fee amounting to 50 percent of the freight charges is calculated to offset the penalties imposed under certain Guatemalan laws for the transportation of cargo on carriers other than Guatemalan carriers or associated carriers. The Commission is suspending the regulations because of certain assurances that waivers will be granted and no penalties will be imposed under such laws with respect to any U.S./Guatemalan commerce.

EFFECTIVE DATE: January 18, 1978.  
FOR FURTHER INFORMATION  
CONTACT:

Francis C. Hurney, Secretary, Federal Maritime Commission, Room 11101, 1100 L Street NW., Washington, D.C. 20573, 202-523-5740.

al Maritime Commission, Room 11101, 1100 L Street NW., Washington, D.C. 20573, 202-523-5740.

SUPPLEMENTARY INFORMATION: On January 16, 1978, officials of Flomercia Line, Armagua Line and Lineas Maritimas de Guatemala, S.A., advised the Commission by telex that Guatemalan flag lines will issue the necessary waivers to all exonerated cargoes moving through U.S. ports to Guatemala during the period January 13 through February 20, 1978. Guatemalan Decree 26-77 becomes effective February 21, 1978. Based on Guatemalan flag assurances that waivers will be granted and no penalties will be imposed under Decree 41-71 with respect to any U.S./Guatemalan commerce, the Commission will suspend 46 CFR Part 507 until further Notice. The rules contained in 46 CFR Part 507 promulgated at 42 FR 62914, December 14, 1977 are suspended until further Notice.

By the Commission.

JOSEPH C. POLKING,  
Assistant Secretary.

## [6730-01]

[General Order 39, Amdt. 2]

PART 507—ACTIONS TO ADJUST OR MEET  
CONDITIONS UNFAVORABLE TO SHIPPING  
IN THE FOREIGN TRADE OF THE UNITED  
STATES

"Favored Carriers" Status; Revocations

AGENCY: Federal Maritime Commission.

ACTION: Final rule.

SUMMARY: The list of "favored carriers" provided in 46 CFR 507.1 is amended by the deletion of Pan American Mail Line, Inc., d.b.a. Flomercia Trailer Service and Coordinated Caribbean Transport, Inc. These carriers have been certified by affidavit that their relations with Guatemalan-flag carriers have been severed and that they do not have national flag preference or associated carriers statute under the laws of Guatemala. Therefore it has been determined that these carriers should be deleted from the list of "favored carriers."

EFFECTIVE DATE: January 13, 1978.

FOR FURTHER INFORMATION  
CONTACT:

Francis C. Hurney, Secretary, Federal Maritime Commission, Room 11101, 1100 L Street NW., Washington, D.C. 20573, 202-523-5725.

SUPPLEMENTAL INFORMATION: 46 CFR 507.1 Provides that the Com-

mission will modify the list of "favored carriers," subject to Part 507, as circumstances warrant. This authority was delegated to the Managing Director (Commission Order No. 1, Amendment 5, Subsection 7.21.)

Pan American Mail Line, Inc. (PAML) and Coordinated Caribbean Transport Inc. (CCT) have certified by affidavits that their relations with the Guatemalan-flag carriers have been severed and that they do not have national flag preference or associated carrier status under the laws of Guatemala. Based upon these certified affidavits it has been determined by the Managing Director that neither PAML nor CCT are Guatemala-flag or associated carriers and should be deleted from the list of "favored carriers."

Therefore, pursuant to section 191(6) of the Merchant Marine Act, 1920, (46 U.S.C. 876 (1)(b)) and section 43 of the Shipping Act, 1916, (46 U.S.C. 841a), the Commission amends § 507.1, Title 46 CFR to read as follows:

§ 507.1 Conditions unfavorable to shipping in foreign trade with Guatemala.

The Federal Maritime Commission has determined that the Government of Guatemala has created conditions unfavorable to shipping in the foreign trade of the United States by precluding vessels of United States and third flag registry from competing in the ocean trade between the United States and Guatemala on the same basis as Guatemalan carriers or non-Guatemalan carriers which are associated with the former, and by discriminating thereby against vessels of United States and third flag registry in favor of Guatemalan carriers and their associated carriers. For the purposes of this part, the term "favored carriers" will be used to indicate the following Guatemalan carriers or their associated carriers receiving preferential treatment as a result of Republic of Guatemala Decree No. 41-71: (a) Armagua Line; (b) Flota Mercante Gran Centroamericana, S.A. (Flomerca); and (c) Lineas Maritimas de Guatemala, S.A. The Commission will modify this list of "favored carriers" by notice in the FEDERAL REGISTER, as circumstances warrant.

By the Commission.

JOSEPH C. POLKING,  
Assistant Secretary.

# CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19833; RM-2088]

## PART 73—RADIO BROADCAST SERVICES

FM Broadcast Station in Beaufort, S.C.;  
Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Report and order.

SUMMARY: Action herein assigns a Class A FM channel to Beaufort, S.C., as that community's second FM assignment. The channel would provide for a station which could provide a third local nighttime aural service to a growing community.

EFFECTIVE DATE: March 1, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION, CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—PROCEEDING  
TERMINATED

Adopted: January 13, 1978.

Released: January 20, 1978.

In the matter of Amendment of § 73.202(b), Table of Assignments FM Broadcast Stations (Beaufort, S.C.), Docket No. 19833, RM-2088.

1. The Commission has before it a Notice of Proposed Rule Making, adopted September 26, 1973, 38 FR 27844, proposing the assignment of FM Channel 285A as a second FM assignment to Beaufort, S.C. The Notice was issued in response to a petition filed on behalf of Sea Island Broadcasting Corp. ("Sea Island"), licensee of Station WSIB, a class IV AM station at Beaufort. Sea Island responded to the Notice reiterating its intent to seek broadcast authority if the assignment was made as requested.

2. On November 28, 1973 (approximately 2 months after the issuance of the Notice in this proceeding), the Commission initiated a license revocation proceeding and issued an Order to Show Cause and Notice of Apparent Liability to the petitioner, Sea Island, in connection with its operation of AM Station WSIB. By action of June 24, 1976, the Commission revoked the license of Sea Island for Station WSIB, effective October 1, 1976. On August 12, 1976, the Commission's decision was appealed (D.C. Cir. Case No. 78-1735), and the appeal is still pending.

3. On October 18, 1977, Kenneth Van Polan ("Van Polan"), filed com-

ments<sup>1</sup> in which he expresses his interest in the proposed channel assignment and states he will immediately prepare and file with the Commission an application for the proposed channel (285A), if it is assigned.

4. Although Van Polan's comments were filed several years after the deadline for filing comments specified in the Notice, we believe they should be accepted for consideration. Because Sea Island was the only party expressing an interest in the channel, it was necessary for the Commission to defer action in this case for over 4 years in order to await the resolution of the case concerning the qualifications of Sea Island to be a licensee of an AM station.<sup>2</sup> Now that another interest has been shown for the proposed channel, further action can be taken on the proposal to assign Channel 285A to Beaufort, S.C., without having to await the final resolution of that case. Under these circumstances, we believe that Van Polan's comments should be accepted even though they were late.

5. Beaufort (pop. 9,435), seat of Beaufort County (pop. 51,135),<sup>3</sup> is located on the southeastern coast of South Carolina approximately 24 kilometers (15 miles) from the Atlantic Ocean, 121 kilometers (75 miles) south of Charleston, S.C., and 72 kilometers (45 miles) north of Savannah, Ga. Beaufort is presently served by AM Station WSIB (class IV), daytime-only AM Station WBEU and class C FM Station WBEU-FM (Channel 254).
